APPENDIX F PUBLIC COMMENTS

APPENDIX F - PUBLIC COMMENTS

The Council on Environmental Quality (CEQ) regulations (40 CFR 1503.1) require that "after preparing a draft environmental impact statement and before preparing a final environmental impact statement the agency shall:

- 1) Obtain the comments of any Federal agency which has jurisdiction by law or special expertise with respect to any environmental impact involved or which is authorized to develop and enforce environmental standards.
- 2) Request the comments of:
 - i) Appropriate state and local agencies which are authorized to develop and enforce environmental standards.
 - ii) Indian tribes, when the effects may be on a reservation; and
 - iii) Any agency which has requested that it receive statements on actions of the kind proposed.
- 3) Request comments from the applicant, if any.
- 4) Request comments from the public, affirmatively soliciting comments from those persons or organizations who may be interested or affected."

The regulations further require that "an agency preparing a final environmental impact statement shall assess and consider comments both individually and collectively," and shall respond to those comments in the final document.

In compliance with these regulations, the Air Force released the *Draft Environmental Impact Statement for the Proposed Closure of Los Angeles AFB, California and Relocation of Space Systems Division* for a 45-day public review and comment period on August 10, 1990. Copies of the Draft Environmental Impact Statement (DEIS) were sent to agencies, organizations, and individuals as required, and were made available to the public upon request. A listing of recipients is provided in Appendix C. Copies of the DEIS were also sent to public and university libraries near each of the bases considered in the document.

This appendix provides a summary of the public comment and review period and contains an overview of the public comment management process, a listing of all respondents, copies of the public hearing transcripts and all written comment documents received, and a listing of all issues identified in the documents and the responses to the issues.

The review of public comments served as one element in the preparation of the Final EIS (FEIS). Many issues addressed in the public comments led to the conduct of further analysis, reanalysis, and/or verification of data. In accordance with CEQ regulations, all comments have received responses. In some cases the response is that the issue is beyond the scope of the EIS. All comments received and the responses to each are included as part of the FEIS.

PUBLIC REVIEW OF THE DEIS

The public review and comment period for the DEIS began on August 10, 1990 and ended on September 24, 1990. During this review period, public comments on the DEIS were solicited. Written comments were submitted to the Air Force Regional Civil Engineer at Norton Air Force Base (AFB), California. Oral and written comments were received at 6 public hearings conducted between August

27 and September 7, 1990. The public hearings were held in El Segundo, California for Los Angeles AFB; Lompoc, California for Vandenberg AFB; San Bernardino, California for the Ballistic Missile Organization; Riverside, California for March AFB; Colorado Springs, Colorado for Peterson AFB/Falcon AFB; and Albuquerque, New Mexico for Kirtland AFB.

PUBLIC COMMENT MANAGEMENT PROCESS

During the public comment and review period, comments on the DEIS were received from federal, state, and local agencies and officials; organizations; and individuals. The comments included testimony at the 6 public hearings (i.e., transcripts as recorded by court reporters), letters, and written statements submitted at the public hearings. Each of these are referred to as documents and all were given the same consideration in the review and analysis process. A total of 291 documents were received in addition to the transcripts from the 6 public hearings.

Comments were analyzed and responses were prepared using a public comment management process. The purpose of this process was to analyze each comment received, formulate a response, and incorporate corrections, revisions, and necessary additional studies into the FEIS. All documents were assigned a document number for purposes of identification and information tracking (Transcript 1 to 6 for the public hearing transcripts and 1 to 291 for the written comments). A listing of all individuals who provided oral comments at the 6 public hearings is provided in Table F-1. The listing for each hearing provides the individual's name and the page number of the public hearing transcript their testimony begins on. A listing of all respondents submitting written comments is provided in Table F-2, identifying the author's name, city, state, affiliation (if appropriate), and corresponding document number.

The comments in each document were analyzed to identify the issues addressed. The identified issues were assigned to one of 15 categories which generally correspond to the information contained in the DEIS. The categories include Air Force policy issues, Environmental Impact Analysis Process (EIAP) issues, project description/siting issues, and each of the resource areas analyzed in the EIS. Issues that could not be clearly classified were categorized as general comments. Each issue was assigned an issue code number and all comments addressing the same issue received the same issue code number. The issue code number consists of two numbers. The first number designates the category or issue area to which the issue was assigned and the second number is a sequential issue number within each issue area.

Response text prepared for all verbal comments made at the 6 public hearings and all written comments is provided in Appendix F.3. Reproductions of the public hearing transcripts are presented in Appendix F.1 and all written comment documents are presented in Appendix F.2. Appendix F.4 provides a list of all issue topics identified in the public comments. To locate a particular comment and the Air Force's response, the reader should use the following steps as a guideline:

- Step 1: Locate document number in Table F-1 for public hearing (oral) comments and Table F-2 for written comments. For the public hearing comments, the page number of the public hearing transcript where the testimony begins is also provided.
- Step 2: For the public hearing comments, locate the document in Appendix F.1 by using the document number (Transcript 1 to 6) and page number of the hearing transcript. For written comments, locate the document in Appendix F.3 using the document number (Document 1 to 291). The responses to the issue code numbers shown in the margins of the documents are located in Appendix F.3.

APPENDIX F.1 - PUBLIC HEARING TRANSCRIPTS

The public hearing transcripts for each of the six public hearings held between August 27 and September 7, 1990 for the Draft Environmental Impact Statement are provided on the following pages. Document numbers for the transcripts are as follows:

Transcript 1	Los Angeles AFB; El Segundo, California
Transcript 2	Vandenberg AFB; Lompoc, California
Transcript 3	Ballistic Missile Organization; San Bernardino, California
Transcript 4	March AFB; Riverside, California
Transcript 5	Peterson AFB/Falcon AFB; Colorado Springs, Colorado
Transcript 6	Kırtland AFB; Albuquerque, New Mexico

Table F-1 provides a list of the speakers at each public hearing in alphabetical order and the page number of the respective transcript that each speaker's testimony begins on. Each issue identified in the verbal comments has been assigned an issue code as described and indicated by the number in the margin of the transcript page. Responses to these comments are provided in Appendix F.3.

HOW, JUST WHY ARE WE RERE THIS EVENING? THE PURSOES OF THIS FURLIC REARING IS TO SOLICIT INFO? FROM THE PUBLIC AGENCIES, PRIVATE ORGANIZATIONS, AND THE PUBLIC AT LARGE ON THE DRAFT ENVIRONSHIPHAL INFACT STATEMENT. THIS RESTURE IS BEING MELD IN ACCOMMANCE WITH THE REQUIREMENTS OF THE RATIONAL ENVIRONMENTAL POLICY ACT AND INPLEMENTING FEDERAL REGULATIONS REQUIRING FEDERAL AGENCIES TO CAREFULLY AMALTIE POTENTIAL ENVIRONMENTAL INFACTS OF CENTAIN PROPOSED ACTIONS AND TO DEE THOSE AMALTSES IN ARRIVING AT DECISIONS OR RECOMMENDATIONS AS TO MESTIMER AND SON TO PROCEED WITH A

I'VE BEEN DESIGNATED AS PRESIDING OFFICER OF

SOUTH BAY COURT REPORTERS

TOUTISHT'S PORCIC MEARING CONCENTING THE PROPOSED CLOSURE OF LOS ANGELES AIR FORCE BASE AND RESCRATION OF SPACE STREETS DIVISION. HT BANK IS COLCUMEL WAS HORRISON. I'M AN AUTOMOST AND I'VE SERVED PULL THE AS ACLIECTLY THIAL JUDGE IN COURT MARTIAL CASES; THEREFORE, FOR ME, THIS IS A WELCOME DIVERSION FROM THE CRIMINAL AMONA TO PRESIDE OVER AN EXPLANMENDED INDACT METTING SUCK AS THE ONE WE SAVE THIS

I'R HOT ASSIGNED TO LOS ANDREAS AIR FORCE
BAGE OR AFT OF THE BASES OR COMMANDS UNDER COMMITCEARTION
FOR THE RELOCATION. I'M HOT MERR AS AN EXPERT ON THE GRAFT
ENVIRONMENTAL IMPACT STATEMENT, HOR HAVE I HAD ANY
COMMITTION WITH 17'S ORYHLOWERY, AND I'M HOT MERR TO ACT
AS LEGAL ADVISOR TO THE AIR FORCE REPRESENTIVES WHO WILL
ADDRESS THIS PROPOSAL. HY PURPOSE IS SIMPLY TO EMPORE THAT
WE HAVE A FAIR, ORDERLY MEARING, AND THAT ALL WHO WISE TO

OTHER REDRESS OF THE AIR FORCE HERE FORAT AS COLUMNE, NO PEURA, CRIEF OF STAFF, SPACE STREEM DIVISION AN LOS ANGELES AIR FORCE BASE. COLUMNE, PEURA IS MERE TO AMENER OCCUPIONE ASOUT LOS ANGELES AIR FORCE BASE.

WEST, COLONEL PATER SORY, THE ACTING DIRECTOR OF THE IMPELLATION RESTORATION PROGRAM AS READQUARTERS AIR PORCE STRINGS COMMUNIO, AMBRING AIR FORCE BASE, MARYLAND. COLONEL BOST WILL EFEAR ABOUT THE PROFESSION

SOUTH BAY COURT REPORTERS

CLOSURE ACTION AND RELATED 2607 STUDIES.

AND LAST, FROM THE AIR PORCE REGIONAL CIVIL ENGINEER OFFICE AT HORPON AIR PORCE SASE, CALIFORNIA, NAJOR ENAT VHOMAN. SAJOR VHOMAN IS THE DEFOTY DIRECTOR OF THE ENVIRONMENTAL DIVISION, AND SEE WILL DESCRIBE THE ENVIRONMENTAL LIGHACT STATEMENT ANALYSES PROCESS AND THE CONCLUSIONS FROM THE CONCLUSIONS FOR THE THE ORAPT ENVIRONMENTAL LIGHACT STATEMENT.

OUR COMPT REPORTER, VICKIE SLAIR, WILL BE
TAKING DOWN VERRATIR EVERTTRING TRAT IS SAID TOWIGHT, AND
THIS WILL SECOND PART OF THE FIRAL ENVIRONMENTAL INDACT
STATEMENT, WHICE IN TURN SECONDS A PART OF THE AIR FORCE
RECORD OF DECISION. SEE CAN ONLY DO EER JOB PROPERLY IF
SHE CAN EXAR AND EMBERSTAND WHAT TOU'RE SATING, SO THOSE OF
TOU RAKING COMMENTS THIS EVENING, PLEASE EXEP TRAT FACT IN

HOW LET ME SAY WHAT THIS MEASING IS NOT.

THIS ISN'T GOING TO BE DEBATE OR REFERENCES OR A VOTE ON A
PROPOSED ACTION ITSELF. THOSE TRIBOS CON'T AND ANTITHING TO
THE WRITTEN MEASING RECORD AND SIMPLY MASTE TOOM VALUABLE
TIME OURSING THIS OPPOSTUNITY FOR PERSONAL IMPUT INTO THE
DECISION HARING PROCESS. THE FOCUS OF THIS MEASING IS ON
THE SHYTROMOMENTAL LUMACTS ASSOCIATED WITH THE PROPOSALE
BRING STUDIED BY THE AIR FORCE.

CONNENTS ON HON-ENVIRONMENTAL ISSUES SHOULD

OUR ORDER OF PROCEEDING IS IN TERES PARTS. FIRST, THE BRIEFING PROK COLONEL BOST ON THE PROPOSED CLOSURE ACTION AND THE OVERALL STUDY PROCESS. THEM A SALEPING FROM HAJOR VROHAM ON THE ENVIRONMENTAL IMPACT ANALYSES PROCESS AND THE CONCLUSIONS REPORTED IN THE GRAFT PRINTEGENERAL CHESCY STATEMENT, AFTER THESE SELECTINGS, MR. WILL PROCEED TO THE PUBLIC IMPUT PORTION OF THE MEARING.

13 OPPORTUNITY TO SPEAK FIRST AND THEY'LL BE FOLLOWED BY THE PUBLIC AT LARGE, WHOSE MANES WILL SE CALLED RANDONLY FROM THE CARDS MANDED IN.

HOW, IF TOO DON'T PEEL LIKE STANDING UP MERE TOWIGHT IN MAKING A STATEMENT CRALLY, TOU HAVE UNTIL SEPTEMBER 24, 1990, TO SUBMIT A COPY OF A STATEMENT YOU WANT THE AIR PORCE TO COMBIDER. WRITTEN CONCENT SEETS ARE PROVIDED AT THE ENTRANCE TO THE AUDITORIUM FOR TOU TO USE IN PROVIDING THESE COMMENTS. IN PACT, EVEN IF TOO MAKE COMMENTS TOWIGHT, IF TOU COME UP TO THE PODIUM AND MARR A 23 PUBLIC COMMENT, YOU HAVE UNTIL THE 24TH OF SEPTEMBER TO THEIR ADDITIONAL WRITTEN CONCENTS TO THE AIR PORCE

SOUTH BAT COURT REPORTERS

REGIONAL CIVIL ENGINEER OFFICE AT THE ADDRESS PROVIDED.

ER A STATEMENT IS MADE VERBALLY TOWIGHT, OR 17'S MADE IN WRITING AND GIVEN TONIGHT, OR SUBMITTED LATER REPORT THE 14TE OF SEPTEMBER, SACE STATEMENT WILL MAYE THE SAME IMPACT AND WILL BE CONSIDERED TO THE SAME MODELD PREFER TO WALT AND SUBMIT SCHETNING IN WRITING BY THE 24TH OF SEPTEMBER. ON THE OTHER BAND, DON'T BE SHY OR MESITANT; IF TOO WANT TO MAKE A STATEMENT, TOU SHOULD DO

I WART TO MAKE SURE THAT EVERTORS WHO WIS TO SPEAK EAS A FAIR CHARGE TO ME STAND, SO I'M GOING TO AME TOO TO PLEASE WILD BE EMPORCE THE FOLLOWING GROUND SULES.

PLEASE ADDRESS TOUR REMARKS TO ME.

SECOND, USE THE HICKOPHONE. SPEAK CLEARLY AND SLOWLT, STARTING OUT WITH TOUR HAME, ADDRESS, AND CAPACITY IN WHICE TOU'RE APPEARING. FOR SEAMPLE, IF TOU'RE A PUBLIC OFFICIAL, STATE TEAT, IF TOO'RE DESIGNATED AS A REPRESENTATIVE OF A GROUP, STATE TRAT, OR WINTERS YOU'RE A 20 PRIVATE PERSON, STATE TEÁZ, SO THE COURT REPORTER CAN DO

TRIBO, IF TOO BAVE QUESTIONS, ASK ONE AT A TIME AND I WILL ALLOW A REASO ARLE AMOUNT OF QUESTIONS. SECADES OF THE TIME LIMIT ON STATEMENTS, PLEASE PRICEITIES TOUR ADDRESS TO MAKE SURE THAT THE MOST DISCORDANT OF TOUR

SOUTH BAY COURT REPORTERS

POURTE, EACH PERSON WILL BE RECOGNIZED FOR PIVE MINUTES, FOR A MARINUM OF PIVE MINUTES. MANY OF TOO MOS'T SPEAK FOR FIVE MINUTES, BUT TOU WILL BE PERMITTED FIVE MINUTES. IF TOO CHOOSE TO USE THE EFFIRE TIME -- AND THAT INCLUDES PUBLIC OFFICIALS, DESIGNATED SPORESPERSONS, AND PRIVATE PERSONS -- THE TEMPERSPER, IN ORDER TO MALE HE MAKE SOME THAT EVERTHOOT CAN HAVE A CHANCE TO SPEAK TONIGHT -- IF THEY WANT TO -- THE TIMERREPER WILL HAISE A TELLOW CARD AFTER TOR RAVE USED FOUR AND-A-MALF REMOTES OF TOUR ALLOTTED TIME. AND THIS WILL BE TOUR CUE TO SUK UP TOUR COMMENTS. AND THEN BE WILL RAISE A RED CARD WEEK TOUR

AND FIFTH, PLEASE MONOR ANT REQUESTS FRO THAT TOO STOP SPEAKING WEEK TOOK TIME IS UP. OTHERWISE WE RIGHT NOT HAVE THE TO HEAR FROM EVERTORS WHO WANTS TO BE

SISTR. PLEASE SE COURTEOUS AND SO NOT SPEAK WHILE SCHOOLS SLEE IS SPEAKING. ONLY ONE PERSON WILL BE

AND FINALLY, OUR BOSTS TONIGHT MAVE ASKED THAT YOU RINGLY REPRAIN PRON SHORING IN THE AUDITORIUM.

I WOULD APPRECIATE YOUR COOPERATION IN ADMINISTR TO ALL OF THESE RULES. I'LL MODITOR THE TIMES AND DO EVERTTRING WITHIN NI POWER TO SEE TRAT EVERTONE TRAP

SOUTH BAT COURT REPORTERS

WANTS TO ME SEARO, IS MEARD.

TO WITE REGARD TO QUESTIONS, IT'S POSSIBLE THAT THERE WILL BE QUESTIONS THAT THE ALE PORCE REPRESENTATIVES ARE CHARLE TO AMERICA. AND THAT COULD OCCUR

FIRST, EVEN THOUGH WE HAVE A GOOD DRAL OF EXPERTISE ASSEMBLED MERS, THAT WILL BOY ATTEMPT TO AMBRED QUESTIONS UNLESS THEY ARE CONFIDENT THAT THEY CAN ARRIVER TOUR QUESTIONS CONFIDENTLY.

SECOND, THEIR MAY BE QUESTIONS THAT MAYE MATTOWAL SECURITY IMPLICATIONS, AND THESE MOST BE REVIEWED FUNCTION SEPONS AMENDED AND PROVIDED TO YOU. IF THIS SHOULD OCCUR, AND IF THE QUESTION IS RELEVANT, THEN IT WILL BE

MADE. THE CHARCTIVE TORIGHT IS TO LET EVERTECOY MAVE A CHANCE TO BE MEAND AND TO GIVE YOU SO MEASTEWAYL INFORMATION SO THAT TOO CAN ARE PERTURNIT QUANTIONS AND GIVE OF PERFLICHT INFOT. ONE THING I CAR'T STRESS SHOOM, TOO MAY HAVE INFORMATION ABOUT SHVTHOMESPEAL FACTORS UNBSHOWS TO US. WE ARE VERY INTERSECTED IN SAVING AND ANALYZING ALL POTENTIAL ENVIRONMENTAL IMPACT PROR OUR PROPOSED ACTION. TOU BAVE THE EXPERIENCE THAT COMES FROM LIVING IN AN AREA OVER A LONG PERIOD OF TIME, SO THIS 23

SOUTH BAY COURT SEPORTERS

TRANSCRIPT 1

FROM YOU TO US, IS IMPORTANT. SO DON'T RESIDATE TO BE A 2 FART OF THE PROCEEDINGS.

IF WE RUN OUT OF TIME REPORT EVERYORE GETS TO SPEAK -- AND I PLAN TO CLOSE THIS HEARING AT 11 PLK. --YOU'RE INVITED TO SUBMIT A STATEMENT IN MRITING RITHER TONIGHT OR AT ANY TIME PRIOR TO THE 24TH OF SEPTEMBER BY MAILING THEM TO THE AIR PORCE REGIONAL CIVIL ENGINEER OFFICE. MGAIN, REGAMDLESS OF WHETHER TOO READ TOOR STATEMENT ON THE RECORD TONIGHT OR TOO MAIL IT IN LATER, IT WILL BE CAREFULLY COMSIDERED AND MADE PART OF THE RECORD IN MER PROCESDINGS, AND IT WILL HAVE EQUAL WEIGHT AND RECEIVE THE SAME CAREFUL CONSIDERATION, WEETRER MADE DURING TORIGHT'S HEARING OR AFTERNARDS

I WOULD LIKE TO THANK EVERTONE WHO TURNED OUT TONIGHT. YOUR PRESENCE IS CONSENDABLE IN THAT IT REPLECTS INTEREST IN TOUR COMMUNITY AND THOSE THINGS THAT ARE IMPORTANT TO TOO. LET ME ASSURE TOO THAT TOUR INTEREST IS THE PRIMARY PURPOSE FOR US BEING MERK.

19 NOW IT IS MY PLEASURE TO INTRODUCE

20 COLONEL BOST, WHO WILL PRESENT THE PROPOSAL.

COLONEL PETER BOOT. 22

COLONEL BOGY: I'M COLONEL PETER BOGY. I'M THE ACTING CHIEF OF THE ENVIRONMENTAL RESTORATION PROGRAM AT STADOGRAFTERS FOR THE ALR PORCE SYSTEMS COMMAND. WE ARE THE MAJOR COMMAND FOR SPACE SYSTEMS DIVISION AND WILL PRESENT

SOUTH SAT COURT REPORTERS

THE PROPOSESSY'S POINT OF VIEW.

11

12

IJ

15

PINSY, I WILL GIVE TOO A LITTLE EACEGROOMS AND THESE I WILL DISCUSS THE PROPOSED ACTION, WALCE IS TO 3 CLOSE LOS ARGELES AIR PORCE BASE AND RELOCATE SED. INCLUDING SHO, TO ONE OF THE FOUR LOCATIONS. THEN I WILL DISCUSS THE PROPOSED ALTERNATIVES, WHICH RANGE FROM RELOCATION OF POSTIONS OF THE SED TO NO ACTION AT ALL. PINALLY, I WILL PRESENT THE STANFORF REQUIREMENT FOR A PARIETY OF STUDIES THAT MOST BE ACCOMPLISHED IN COMPUNCTION WITH THE SEVERCHMENTAL IMPACT STATEMENT

LOS ANGELES AIR PONCE BASE, WITE AN AREA OF 236 MCRES, IS LOCATED IN LOS ANGELES METHOPOLITAN AREA. THE BASE CONSISTS OF FIVE HORCONTIGUOUS SITES. AREA & AND B, IN THE CITY OF EL SECUNDO, THE LAMBBALE ANDEY, PORT HACARTHUR, PACTRIC CREET, AND PACIFIC RELIGIES MODELING

16 17 LOS ANGELES AIR PORCE BASE IS THE BOST BASE FOR AIR FORCE SYSTEM'S COMMAND SPACE DIVISION. AN INTEGRAL 18 19 PART OF SSD IS A PEDERALLY FORDED RESERVACE AND DEVELOPMENT CENTER ARROSPACE CORPORATION. SED PLANS, PROGRAMS, AND 21

HOMAGES AIR FORCE STSTEM'S COMMAND PROGRAMS TO ACQUIRE 22 SPACE STETEMS, SUBSTITUTE, SUPPORT SQUIPMENT, AND RELATED 23 24

AMONG MARY OTHER CRITICAL RESPONSIBILITIES IN THE AIR PORCE SPACE PROGRAM, ESD ALSO COMDUCTS RESEARCH.

SCOTTE BAY COURT REPORTURE

ENT, AND ADVANCED DEVELOPMENT PROGRAMS TO SUPPORT FUTURE SPACE RISKTONS. THE RECENT REALIGN OF THE BALLISTIC STREETS DIVISION PLACED HAMAGEMENT RESPONSIBILITIES FOR INTERCONTINUITAL BALLISTIC MISSILE PROGRAMS AT SED. THIS UNIT, NOW ENGINE AS BALLISTIC MISSILE ORGANISATION, MAS A DEDICATED SYSTEMS ENGINEERING/TECHNOLOGIES ASSISTANCE CONTRACTOR, SETA, MED WOOLD ALSO BE PART OF THE PROPOSED RELOCATION.

IN THE PROPOSED ACTION AND THE ALTERNATIVES SED AND IT'S SUPPORTING UNITS, INCLUDING THE ARROSPACE CORPORATION, ARE REPEREND TO AS SED LOS ANGELES. 1000 AND ITS SUPPORTING UNIT, INCLUDING ITS SETA CONTRACTOR, ARE REFEREND TO AS SED SAN BERMANDING.

FOR THE PURPOSE OF THIS RELOCATION EVALUATION, THREE FUNCTIONAL SUBGROUPS WITHIN ESD HAVE BEEN ISOLATED. THE SPACE SYSTEMS PROGRAM OFFICE, WEIGH WE CALL 17 THE SPO, THE ICHE SPOS, AND "OTHER" SPO ACTIVITIES.

THE SPACE SPOS -- RESPONSIBLE FOR DESIGN, DEVELOPMENT, ACQUISITION, TEST, AND LAUNCE -- INCLUDE 1240 HILITARY, 1198 CIVILIAN, 2590 ABROSPACE CORPORATION AND 198 SETA CONTRACTOR PERSONNEL.

INCLUDING THE HIL-STAR JOINT PROGRAM OFFICE, OTHER ADVANCED ANT. SPECIAL PROGRAMS, THE PPROC LABORATORIES, SPACE CORPORATION, AND VARIOUS SAME OPERATING SUPPORT -- EMPLOY

SOUTH BAY COURT REPORTERS

518 HILITARY, 258 DOD CIVILIANS, AND 1590 ARROGRACE CORPORATION PERSONS

FIRMLET, THE MED ICHM SPC MARKETS BALLISTIC MISSILE STRIME AND SUBSTRIBE ACQUISITION PROGRAMS. THIS SPO ALSO PERFORMS ALL OF THE ADVANCED STRATEGIC HISSTLE TRI-SERVICE REQUIREMENTS AND RAS 660 MILITARY, 577 CIVILIAM, AND 1,300 SWEA CONTRACTOR PRINC

THE BASIC PROPOSAL AND THE ALTERNATIVE ACTIONS ARE BASED ON A CONSTRUCTION AND RELOCATION SCI SIMPLING AT PINCAL TEAR 1993 AND CONTINUING TO FINCAL TEAR 1996. SOMEYER, DOR TO THE COMPLEXITY OF THE PROGRAM AND 11 THE AVAILABLE RELOCATION RESOURCES, THE PERSO 12 COMPTRUCTION SCHEDULES COULD RETEND BATOND TRAP TIME 13

THE PROPOSED ACTION IS THE TOTAL CLOSE LOS APQUELES ATR PORCE BASE, THE COMPLETE CLOSURE OF THE BHD 16 17 PACILITIES IN SAF REPROMOTED AND THE RELOCATION OF SED LOS AMERICAN AND SEC SAN REMEASORING TO GIVE OF POUR LOCATIONS. 10

19 SED SUPPORT UNITS CONSERVED AT LOS ASSESSES AIR PORCE BASE AND SAN SERMANDING THAT DOPLICATE UNITS 20 ALREADY AT THE DESTINATION INSTALLATIONS, OF COURSE, NOWA 21 ME INACTIVATED. THE CLOSURE OF SED-LOS AMURIAS PACILITIES 22 HORED INVOLVE APPROXIMETELY 1,760 EXLITARY AND 6,385 23 24 CIVILIAN PERSONNEL. THERE ARE 5 TEMANY UNITS, 42

PERSONNEL, THAT STORLD HIT HIVE WITH \$50 AND WORLD RELACATE

THE CLOSURE OF SED-SAN RERMANDING PACILITIES WOULD INVOLVE APPROXIMATELY 660 MILITARY AND 1,870 CIVILIANS.

LET UE LOOK FOR A HOHERT AT THE GROGRAPHIC SETTING OF THE SASES UNDER CONSIDERATION FOR THE RELOCATION. VANOGEBERG AIR PORCE BASE IN CALIFORNIA: NAMEN AIR FORCE BASE: AND THEN IN COLORADO, PETER SEEN AND PALCOW AIR PORCE BASES, AS ONE: OR KIRTLAND AIR PORCE BASE IN MEN MEXICO.

THE FIVE ALTERNATIVES TO THE PROPOSED ACTION ARE CONSIDERED IN THIS ENVIRONMENTAL IMPACT STATEMENT. THE ALTERNATIVES ARE MUGRERED IN THE DOCUMENT AND IN THIS PRESENTATION. HOWEVER, THEIR CADER SHOULD NOT BE INTERPRETED TO IMPLY ANY RANKING OR PRICRITIZATION OF THE ALTERNATIVES THRMSELVES.

QUING ON TO THE ALTERNATIVES, THE PIRST ALTERNATIVE IS SINILAR TO THE BASIC PROPOSAL, BUT WELLS THE SEC-LOS AMORLES OPERATIONS WOULD BE RELOCATED TO ONE OF THE CAMBURATE LOCATIONS. THE SED-SAN REPHARDING OPERATIONS.

RELOCATE PORTIONS OF LOS ANGELES AIR PORCE BASE, THAT IS TWILDING MOST OF AREA A. LAMMDALE ANDRE. AND THE MILITARY MODELING AREAS, BUT WOULD NOT RELOCATE THE OTHER SPOS.

THE SECOND ALTERNATIVE WOULD CLOSE AND

SOUTH BAT COURT REPORTERS

THE TRING ALTERNATIVE WOULD CLOSE OUL! THE MAD PACILITIES IN SAM BEMEARDING AND RELOCATE SED-SAM MEMBARDING TO CHE OF THE FOOR LOCATIONS.

THE POURTE ALTERNATIVE CONSIDERS ONLY THE RELOCATION OF A THOUSAND PERSONNEL PROMISED WITH NO ACTUAL THETE ITS COMMITTEE

THE PIPTE ALTERNATIVE WOULD CLOSE ALL OF LOS AMERICAS ATR FORCE BASE AND RELOCATE SED LOS AMERICAS TO MARCH AIR PORCE BASE, NOT WORLD LEAVE THE ARROSPACE CORDONATION THYSCY AT IL SESSION AND SED SAN RESMANDING INTACT AT SAN BERNARDING.

THE LAST ALTERNATIVE ADDRESSED IN THE ENVIRONMENTAL EMPACE STATEMENT IS NO ACTION. THE \$50 LOS ANCHERS AND SEC SAN BERNANDING WOULD REDULE IN THEFTH SEISPING PACILITIES.

THE PROPOSED ACTION AND ALTERNATIVES 1, 2, 1. AND 5 ARE CONTINUENT UPON SPECIAL LEGISLATION PERMITTING THE AIR PORCE TO DISPOSE OF GOVERNMENT PROPERTY, AND THER DER THE PROCEEDS OF THOSE SALES TO OFFSET THE MILITARY CONSTRUCTION COSTS ASSOCIATED WITH THE CLOSURE IN ALL THE ALTERNATIVES. AT THAT TIME, GROSS THOSE CIRCUMSTANCES. A

THE UNITED STATES COOR TITLE 10. SECTION 25 2687, THE BASE BEALIGHMENT AND CLOSURE ACT RECOTEED THAT

SOUTH BAT COURT REPORTERS

DOD STOOT THE LOCAL ENVIRONMENTAL, LOCAL SCONORIC, OPERATIONAL, STRATEGIC, PISCAL, BUDGETARY, AND PHYTROMOGRAPIAL IMPACTS OF THE PROPOSED CLOSURE. THESE COUNTRY ARE CHOCKING HOW AND WILL BE SUBMITTED TO COMCRESS AS PART OF THE DECISION PACKAGE.

FIRST, THE LOCAL RECONDICE CORREQUENCES STUDY WILL EXAMINE THE DIRECT PATROLL LOSS OF THE EL SEGUNDO AND LOS ANGELES CONSENITIES AND THE SECONDARY RPFECTS ON LOCAL BUSINESSES OCCASIONED BY THE LOSS OF HILITARY PERSONAL. MENTS, AND CIVILLANS. IN ADDITION, THE STUDY WILL FOCUS THE ON EFFECTS ON THE LOCAL REAL ESTATE MARKET AND IMMOSTRIES THAT HAY HOVE RECAUSE OF THE RELOCATION OF SEC. ALSO, PROJECTED GROWTH IN THE COMMUNITY AND REUSE OF THE APPECTED PROPERTY WILL BE CONSIDERED.

THE STRATEGIC STUDY WILL ADDRESS THE EFFECT OF REDUCING CONVENTIONAL, STRATEGIC, AND SPACE STSTEMS AS THE THREAT TO NATIONAL SECURITY IS REDUCED.

THE OPERATIONAL STUDY WILL ADDRESS THE AFFECTS OF RELOCATING SED, INCLUDING THE SALLISTIC RISSILE OMCANISATION. IF THE DECISION IS NAME TO CLOSE LOS ANGELES ATM PORCE BASE AND THE BHO PACILITIES AT MORTON. IT WILL SEASIERE ALL TENANT AND JOINT SERVICE HISSION CHANGES ARBUSTING FROM SUCH A CLOSURE AND RELOCATION DECISION. THE HEAT STUDY, THE BUDGETARY STUDY, WILL

DETERMINE CURRENT-TRAK PROGRAM GOLLAR COSTS AND SAVINGS

SOUTH SAY COURT AFFORTERS

ASSOCIATED WITH THE RELOCATION OF SEC AND INACTIVATIONS OF OR RELOCATION OF ASSOCIATED OPERATIONAL AND SUPPORT UNITS. THE PISCAL STORY WILL DER THE BODGET

EVALUATION TO AMALTEE PAST, PRESENT, AND FUTURE COSTS. AND SAVINGS ASSOCIATED WITH THE RELOCATION OF SED. COST OF CLOSING AND SAVINGS WILL BE DETAILED THROUGH A LIFE CTCLE

THANK TOO VERT HOLE FOR TOUR ATTEMPTOR. I WOULD LIKE HOW TO TORK THE HERTING BACK TO COLOREL HORSESSE.

COLONEL MONRISON: WENT I WOULD LIKE TO DO NOW IS TO PRESENT MAJOR MART VICINAL PROM THE AIR PORCE REGIONAL CIVIL ENGINEER OFFICE AF HOREOF AIR FORCE BARR, CALIFORNIA. MAJOR VECKAL WILL PRESENT AS OVERVIEW OF THE ENVIRONMENT THEACT ANALYSIS PROCESS AND DISCUSS THE RELATIONSHIP SETWENT THE LOCAL SCORDIGE CONSCIUNCES STUDY AND THE ENVIRONMENTAL DEPACT ANALYSIS PROCESS AND PRESENT RESULTS OF THE DEAFT DEVIRONMENTAL DEPACT STATISHEST.

MAJOR VROMAN TRANS TOO, SIR, GOOD EVENING, OUR ORGANISATION IS CONDUCTING THE ENVIRONMENTAL PROCESS FOR THIS PROPOSAL AS WELL AS OTHER PROPOSED CLOSURES AND REALIGNMENTS AMMORICED BY THE SECRETARY OF DEFENDE ON JANGARY 29TH OF THIS THAN.

TORIGHT I WILL PRESENT THE SCHOOLS FOR THIS ENVIRONMENTAL DEPACT ANALYSIS PROCESS AND SHOW MON THE

OUR DRAFT ENVIRONMENTAL INFACT STATEM ANALYSES BOTH THE CLOSURE AND RELOCATION ACTIONS. POLLOWING THE NOTICE OF INTENT, SCOPING MESTINGS WERE MELD TO RECEIVE PUBLIC IMPUT ON THE SCOPE OF ISSUES TO BE ADDRESSED IN THE ENVIRONMENTAL INPACT STATEMENT AND TO IDENTIFY THE SIGNIFICANT ISSUES RELATED TO THE PROPOSED ACTION. THE SCOPING MEETING FOR LOS ANGELES AIR PORCE BASE WAS EELD HERE AT EL SEGUNDO BIGH SCHOOL ON MARCH 14, 1990. SUBSEQUENT TO SCOPING THE ISSUES FOR STUDY, HE

COLLECTED THE NECESSARY DATA AND CONDUCTED THE ANALYSIS WEICH SUPPORTS THE ENVIRONMENTAL INFACT STATES DRAFT ENVIRONMENTAL IMPACT STATEMENT WAS FILED WITH THE

TECTION AGENCY ON ADGUST 3, 1990.

IN ACCITION TO TONICHT'S POSLIC MARING, PUBLIC MEASURES ON THE DRAFT ENVIRONMENT WILL ALSO BE MELD IN OTHER COMMUNITIES APPROVED BY THE PROPOSED CLOSURE OR RELOCATION. PUBLIC REARINGS FOR 3 • PROSPECTIVE RELOCATION SAMES AND SCHEDULED IN LONDOC. CALLIFORNIA FOR VANORISERS AIR FORCE BASE; RIVERSIDE, CALIFORNIA FOR NAMEN AIR FORCE BASE; COLORADO SPRINGE, COLORADO POR PETERSON AND PALCON AIR PORCE BASES; AND ALBUQUENÇUE, MEN ERZICO FOR EXPITAND AIR FORCE BASE. 10

IN ADDITION, A PUBLIC MEASING IS ALSO SCHEDULED FOR SAN BENEARDING, CALIFORNIA: THE ROST COMMUNITY FOR THE BALLISTIC MISSILE ONCAMISATION, A SHIT OF THE SPACE STETEMS DIVISION ENCLOSED IN THE RELOCATION

ENTE ON THE DRAFT ENVIRONMENTAL DOACT STATEMENT WILL BE ACCEPTED ONTIL SEPTEMBER 24, 1990. AFTER TRAT CONCENT PERIOD IS OVER, HE WILL STALUATE ALL COMMENTS, NOTE WRITTER AND ORAL, AND PERFORM ADDITIONAL ANALYSIS OR CHANGE THE ENVIRONMENTAL DISPACE STATEMENT WHERE PRICESSAME. AGAIN, AS IN THE SCOPING PROCESS, EQUAL COMMIDMENTION WILL BE GIVEN TO ALL COMM WHETEER WELTTER OR ORAL.

ONCE THE PROCESS IS COMPLETE, WE WILL PROCESS A FINAL ENVIRONGEMENT DEPART STATEMENT, MILCH IS SCHOOLED

SOUTH BAT COURT REPORTERS

SOUTH BAY COURT REPORTERS

POR COMPLETION IN SAMLY DECEMBER 1990. THE PINAL MENTAL INVACT STATEMENT WILL BE HALLED TO ALL THOSE ON THE GRAPT ENV! POMICENTAL ENGACY STATEMENT DISTRIBUTION LIFT. THE FINAL DEVIRONMENTAL INPACT STATEMENT WILL INCLUDE COMMENTS RECEIVED DURING THE PUBLIC REVIEW PERIOD AND OWN RESPONSES TO THOSE CONSIDERS.

IF APPROPRIATE, WE WILL GROUP COMMENTS DETO CATEGORIES AND RESPOND ACCORDINGLY. DEPENDING ON THE PURSER AND DIVERSITY OF COMMENTS OR THE MEED TO COMDUCE STATEMENT MAY COMMIST OF A COVER LETTER AND ERRATA SERVES. A SEPARATE VOLUME AS A COMPANION TO THE DRAFT, OR BE AM ENTIRELY NEW COCUMENT. THE FINAL ENVIRONMENTAL DEPACT STATEMENT WILL SERVE AS IMPUT FOR THE RECORD OF DECISION WHICH WILL DOCUMENT THE DECISION BY THE AIR PORCE.

OTHER STUDIES, AS DESCRIBED EASILIER BY COLOWEL BOGY, AND CONSIDERATION OF OTHER ISSUES BESIDES THE OTHER 2687 STUDIES WILL ENTER INTO THE FINAL DECISION OF WESTER OR NOT TO PROCEED WITH THES PROPOSAL. WE EXPECT TO ACCOMPLISH THE RECORD OF DECISION IN EARLY JAMESARY

24 PREPARED IN ACCORDANCE WITH THE MATIGNAL ENVIRONMENTAL POLICY ACT AND THE COUNCIL ON ENVIRONMENTAL QUALITY

SOUTH BAY COURT REPORTERS

REALTONS. EFFORTS WERE MADE TO REDUCE MEDICESS BOLL. WRITE IN PLAIS LANGUAGE. FOCUS ON OWLY THOSE ESSUES WHICH ARE CLEARLY RELATED TO THE DEVIRORMENTAL, AND TO INTEGRA WITH OTHER DOCUMENTS REQUIRED AS PART OF THE DECISION S MAKING PROCESS.

E COCCUMENT POCCUSES ON IMPACTS TO THE NATURAL AND PHYSICAL ENVIRONMENTAL WEIGH MAY OCCUR AS A STREET RESULT OF THE BASE CLOSURE OR BALOCATION ACTIONS. DISPACES WHICH INDIRECTLY THROUGH CHANGES IN THE COMMUNITY OR IN EMPOLING OF THE EASANDONE MATERIALS AND WASTES. THE ENT ALSO EVALUATES GROLOGY AND SOILS: MATER, BOTH SURFACE AND GROUNDRATER; AIR QUALITY; MOISE; BIOLOGICAL; AND CULTURAL RESCRICES.

INDIRECT CHARGES TO LOCAL COMMUNITIES THAT PROVIDED MEASURES AGAINST WHICH ENVIRONMENTAL LUPACYS COULD BE AMALITIED INCLUDED CHANGES TO POPULATION, LAND USE AND ARBYMETICS, TRANSPORTATION, AND COMMUNITY OTILITY SERVICES.

IN ADDITION, THE POLLOWING ISSUES RELATED TO CURRENT AND FUTURE SOMEOBREST OF EASAROOGE SACTORIALS AND MASTE ARE DISCUSSED IN THE DOCUMENT: EARLAGODS MATERIALS ENT, BALANDONS MASTE BANAGEMENT, THE INSTALLATION AND RESTORATION PROGRAM, ASSESTOS, POLICIDADESENTED SIPREFILS OR PCS'S, HADON, RADIOACTIVE WASTE, AND

IF IT HAS DETERMINED THAT SIGNIFICANT ACT

EARLIER COLONEL BOOT DESCRISED THE OTHER RELATED STUDIES BEING CONDUCTED AS PART OF THE BASE CLOSURE PROCESS. AMONG THEM MAR A LOCAL ECONOMIC CONSEQUENCES STOTO HEICH DESCRIBES IN GARATER DETAIL HOW BASE CLOSURE MAY APPROT SURGOUNDING COMMUNITIES. SPECIFICALLY, THAT STUDY ADDRESSES THE FOLLOWING: DIRECT PATROLL LOSS TO THE INMEDIATE COMMUNITY, AND SECONDARY PATROLL LIMPACT ON LOCAL BOSINESSES CAUSED BY THE LOSS OF MILITARY PERSONNEL, DEPREMENTS, AND CYVILLAM MORE PORCE. THE EFFECTS ON THE LOCAL REAL ESTATE HARRET AND SCHOOLS FROM A LOSS OF PERSONNEL, LOCALE PROTECTED GROWTH IN THE COMMUNITY, AND THE POTENTIAL FOR REUSE -- BOTH LITTERIA AND LONG-TERM.

IF DATA IS AVAILABLE, LOSSES TO OTHER LOCAL IMPUSTRIES THAT DEPEND ON THE BASE ARE ALSO DISCUSSED. OUR

SOUTH BAT COURT REPORTERS

ORGANISATIONS IS NOT RESPONSIBLE FOR PREPARING THAT STORT.

I DO SECUR, HOWEVER THAT A DRAFF OF THE DOCUMENT HAS SEED CONSULTED AND COPIES PROVIDED TO REMARKS OF CONSULES, RET SEATE AND LOCAL OFFICIALS, AND STATE SINGLE POINTS OF CONTRACTS FOR THEIR REVIEW AND CONSULTATION.

THREE WEFTS AND THE AIR FORCE NET WITH LOCAL PRINCIPLES IN THE SOUTH BAT AND LOS ANGELES AREAS TO SECRIFE COMMENTS ON THE STREET AND TO GATHER ADDITIONAL THREE ADDITIONAL

THIS STORY WILL BE SUBMITTED TO COMMENS IN
JAMUARY 1991, IN TIME TO MEET THE PRESIDENT'S FISCAL YEAR
1992 BOOGET SUBMITTAL.

I WOULD HOW LIKE TO DISCUSS THE RESULTS -REPORTED IN THE DEATT ENVIRONMENTAL INFACT STATEMENT.

LET ME SUBBRAISE OF STATING THAT THE AFFECTS TO THE RATURE AND PHYSICAL ENVIRONMENTAL ASSOCIATED WITH THE PROPOSAL ARE GENERALLY POSITIVE. THE DOCUMENT CONCLUDED THERE WOULD BE CRANGES TO CONSTRITES THAT COULD AFFECT THE ENVIRONMENT AND THAT POSITIVE AFFECTS MOULD BE REALISED IN THE AREAS OF BREAKDOOR MATERIALS AND WASTE

FULL BARE CLOSURE UNDER THE PROPOSED ACTION MODILO CADER THE FOLLOWING CHANGES IN COMMUNITIES SURROUNDING LOS ANGELES AIR FORCE BASE:

IT IS ESTIMATED THAT THE CLOSURE OF LOS

26

SOUTH BAT COURT REPORTERS

ANGELES AIR PONCE BASE BY THE END OF 1996 HOULD RESULT IN A REDOCTION OF APPROXIMATELY \$480 MILLION IN TOTAL PERSONAL INCOME AND ABOUT ONE AND A QUARTER MILLION DOLLARS IN TOTAL LOCAL SPENDING ANNUALLY. THESE CHANGES ARE EXPECTED TO RESULT IN THE LOSS OF APPROXIMATELY 17,000 JONES. THIS INCLUDES BOTH DIRECT AND INDIRECT ENGLOTHERY. TOTAL EXPECTED POPULATION OUT REGNATION WOULD BE ANOUND 23,000.

LOCAL LAND USE PATTERNS AND COMING POLICIES MOULD NOT CRANGE DUE TO THE CLOSURE ACTION. LAND USE CHANGES COULD OCCUR IN THE PUTURE IN THE CONTEXT OF REUSE AND DEVELOPMENT PLANS IF THE BASE WERE CLOSED.

CLOSURE OF LOS ANGELES AIR FORCE BASE IS NOT EXPECTED TO HAVE ANY AFFECT ON ABSTRETICS. BUILDINGS AND GROUNDS WOULD BE RIMINALLY HAINFAINED WITHIN A SECURED BOUNDARY UNFIL FINAL DISPOSITION IS DECIDED.

VERICLE TRAFFIC IN THE VICINITY OF THE BASE GATES WOULD DECREASE. PARTICULARLY DURING PEAR TRAFFIC BOTHS. HOWEVER WHILE DECREASING CONCESTION IN THE AREA SOMEWART, THESE OCCREASES WOULD NOT NOTICEARLY INFOVE THE FLOW OF TRAFFIC ON AREA STREETS. THE REDUCTION IN TRAFFIC MOULD CONTRIBUTE TO A SLIGHT REDUCTION IN HOISE LEVELS AND A SLIGHT REDUCTION OF AIR POLLUTION EXISSIONS ON AND HEAR THE BASE.

THE CLOSURE OF LOS AMBELES AIR FORCE BASE HOULD ALSO DECREASE LOCAL DENAMO FOR POTABLE WATER, WASTE

SOUTH BAT COURT REPORTERS

NAMES TREASMENT, BASTONAL GAS, ELECTRICITY, AND SOLID WASTE DISPOSAL. SUMPLES, UTILITY DEBOARD STYLEOTRANG TO LOS ANGELES AIR FORCE GASE AND ITS EMPLOYEES REPRESENTS A VERY SHALL PRINCIPLACE OF THE TOTAL OFFLITY DEBOARD IN THE REGION.

IN THE AREA OF GRANDOOM MATRILLES AND MARTE,
THE DRAFT ENVIRONMENTAL DEPACT STATEMENT RADE THO GREENAL
FINDINGS. THE FIRST FINDING SRALE WITH THE IMPOLATION
RESTORATION FROMMAN, OR IND, MEICE IS THE AIR PORCE'S
PROGRAM TO IDENTIFY AND REMOLATE PREVIOURLY CONTACTIONS
REALANDOOM MARTE SITYS. THE IND IS INDEPENDENT OF MARK
CLOSURS AND WILL CONTINUE UNAPPECTED. THE INP SITES MAYE
MEET IDENTIFIES AT LOS ANGULES AIR FORCE, RASE. THERE AT
AREA A., FOUR AT AREA S., ONE AT THE LAMBOLAL ANDRE, AND THO
MAY FORCE MACRISON. REMEDIAL ACTION IS PLANSED FOR THE
MANDAITT OF THESE SITES IN FISCILA THAN 1991.

PROCESSE SADE TO DATE TO DETERMINE THE EXTENSE DESCRIBES PROCESSES AND DISCUSSES THAT THE AND THE AND FORCE IS RESPONSIBLE FOR CLEARING UP ALL ASSAM CONTAINERED ST PART AIR PORCE ACTIVITIES, AND WOOLD CONTINUE TO BE RESPONSIBLE IF THE BASE WERE CLOSED.

NEVERTINELESS, WE DO NOT EXPECT ANY STUDIES OR

SOUTH SAT COURT REPORTSING

10

11

23

TRANSCRIPT 1

CLEAN UP ACTIVITIES TO DELAY THE CLOSURE OF LOS ANGELES AIR FORCE BASE, SHOULD THAT DECISION BE MADE.

SECOND, MASE CLOSURE MOULD SUBSTANTIALLY REDUCE THE QUARTITIES OF HALARDOUS MATERIALS STORED AND USED, AND THE QUARTITIES OF HALARDOUS MATERIALS STORED AND USED, AND THE OPTIMITIES OF SPILLS AND ACCIDINES. AT THE BASE, AND THE POTENTIAL POR SPILLS AND ACCIDINES. AT THE BASE MOULD BAVE ALREADY BE BEEN REMOVED AND REFLACED WITH ABOVE CHOOMS TANKS OR NEW UNDERGROUND TANKS MEETING THE FLAMMED STORAGE TANK REQUIREMENTS. AT CLOSURE, ALL TANKS WOULD BE TAKEN OUT OF SERVICE, DRAINED, AND MAINTAINED IN CARTAMER STATUS UNTIL FIRAL DISPOSITION OF THE BASE.

LET ME RESTATE ONCE MORE THAT THE

INSTALLATION RESTORATION PROGRAM IS SEPARATE FROM THE BASE

CLOSUME ENVIRONMENTAL PROCESS. THE AIR FORCE IS COMMITTED TO

CLEARING WERE BASADOOR MASTE SITES RESULTING FROM PAST

RACTICES, AND THE IRP ARE CONTINUE, WHETHER OR NOT THE

PROCESSON IS MADE TO PROCEED WITH THE PROPOSAL TO CLOSE LOS

AMERICAN AIR FORCE BASE.

21 POLLOWS:

11

13

14

15

16

10

19

22

23

24

25

10

13

WE EXPECT NO IMPACT ON BIOLOGICAL RESOURCES UNDERLYING THE BASE. ALSO, THE POTENTIAL FOR COMPANISATION FROM SPILLS OF BAZARDOUS NATERIALS WILL BE REDUCED.

INPACTS TO THE NATURAL ENVIRONMENT ARE AS

29

ON BASE AND EXPECTED OUR TO REDUCTION OF THE POTENTIAL OF CONTRACEMENTON FROM SPILLS AND SURGEP. THE CLOSURE OF LOS ANGELES AIR PORCE BASE

WORLD RESULT IN A REDOCTION IN ALL POLLUPANT EXISSIONS IN THE AREA. SOMEVER, THE STATIONARY AND MOBILE SCORCE EXISSIONS ASSOCIATED WITH THE OPTRATIONS OF THE BASE AND THE ARROSPACE COMPONENTIAN PACILITYES CONTRIBUTE FAR LESS THAN ONE PERCEPT OF THE TOTAL EXISSIONS IN LOS ANGELES COUNTY, COMMODURATE THE IMPROVEMENT IN ALE QUALITY MODILS BOT BE STATIONARE.

THERE WOULD BE SOME REDUCTION IN TRAFFIC BOISE.

THERE WOULD ALSO BE NO -- THERE WOOLD,
ROMEVER, SE NO ADVERSE LIGHACTS TO SIGLOGICAL RESOURCES AS A
RESULT OF BASE CLOSURE.

NO DEPARTS TO CULTURAL RESOURCES ARE REPERTED
AS A RESCULT OF THE CLOSURE. THE MAXIONAL EXPTORIC DISTRICT
AT FORT MACARITMS AND THE THOMA PLANT, A MAXIONAL REGISTER
ELIGIBLE SITE AT FORT MACARITME, WOULD NOT BE AFFECTED ST
MASE CLOSURE. THEY WOULD ME MAINTAINED IN THEIR PRESENT
CONDITION DURING CAMPAGER STATUS.

THE ALTERNATIVE ACTIONS, AS DESCRIBED EASILIER.
ST COL. BOST, GENERALLY INVOLVE PARTIAL CLOSURE OF LOS
ANGELES AIR FORCE BASE, OR, IN SOME CASES, SUCH AS

SOUTH BAT COURT REPORTERS

SOUTH BAY COURT REPORTERS

ALTERNATIVE 3 AND THE NO-ACTION ALTERNATIVE, NO CRANGE IN OPERATIONS BERN AT THE LOS ANGLES AIR FORCE SASE AT ALL. IN GENERAL, THESE ALTERNATIVES MOULD RESULT IN CHANGES TO THE ENVIRONMENT THAT AND SIXULAR TO OR LESS THAN THE CHANGES ASSOCIATED WITE THE FULL CLOSURE ACTION UNICE IS WHAT WE SAVE JUST DISCUSSED. FOR INSTANCE, THE DECREASES IN EALANDOOS WASTE GENERATION AND BALANDOOS

MATERIALS GRAGE, LOCAL VERICLE TRAFFIC AND ASSOCIATED AIR EMISSIONS AND MOISE, AND THE GEORGASES IN UTILITY GRACE MOULD ALL BE EQUAL TO OR LESS THAN THE GEORGASES EXPECTED UPPER THE PROPOSED ACTION.

FOR THE PARTIAL CLOSURE DISCUSSED UNDER ALTERNATIVES 2, 3, AND 4, FORT INCARTRIES WOULD RESIGNE OPEN. TREASFORE, THE SISTORIC DISTRICT AND THE TROMA PLANT WOULD REMAIN UNDER AIR FORCE CONTROL AND PRESENT USES WOULD DEPART

IN CLOSING, LET ME REMIND TOU THAT THE STOOT IS IN A DRAFT STAGE. OUR GOAL IS TO PROVIDE AIR FORCE OCCISION MARKES WITH ACCORATE INFORMATION TO THE ENVIRONMENT CONSEQUENCES OF THIS PROPOSAL. TO DO THIS, TOWIGHT WE ARE SOLICITING TOUR CONSEQUENCE ON THE ORAFT ENVIRONMENTAL IMPACT STATEMENT. THIS IMPORMATION, COUPLED WITH THE OTHER STUDIES DISCUSSED BY COLONEL BOOT, WILL SUPPORT INFORMED AIR FORCE DECISION MAKING.

THANK TOU.

SOUTH BAT COURT REPORTERS

TRANSCRIPT 1

MR. MERMEJO: GOOD EVENING. HT HAME IS SLET BERNEJO (5250 WEST CENTURY BOULEVARD, \$447, LOS AMURLES, CALIFORNIA 90025). I'M THE ADMINISTRATOR TO CONCRESSION MEL LEVINE. HE DEEPLY ASSERTS NOT BEING ARLE TO BE HERE FOR THE MEARING TONIGHT. IN SIS ABBRICS HE

GOOD EVENING. I WOULD LIKE TO EXPRESS HT CONTINUED OFFICEITION TO THE PROPOSED RELOCATION OF THE SPACE SYSTEMS DIVISION AT LOS ANGELES AIR FORCE SASE. COST UNITED STATES CONSIDERS BASE CLOSURES AND RESPONSE TO THE CHANGING MILITARY CLIMATE.

EARLIER THIS TEAR THE DEPARTMENT OF DEPENSE RELEASED A LIST OF BASES WHICH WOULD BE STUDIED FOR CLOSURE, WITHOUT DEPOSING NEW FLAME FOR U.S. DEPENSE STRATEGY AND PORCE STRUCTURE TO RESPOND TO CHANGING MATIONAL SECURITY MEEDS. THIS LACK OF STRUCTURE FOR THOUGHT SPEAKS PARTICULARLY IN A PROPOSAL TO CLOSE LOS GILES AIR PORCE BASE AND MOVE SPACE DIVISIONS ELSEWHERE. THE AIR PORCE TODAY READILY AGREES THAT SED WILL LIKELY GROW AND BE HORE CRITICAL TO U.S. DEFENSE STRATEGY THAN EVER SEPORE IN THE YEARS AHEAD.

THE PRESENT LOCATION OF SPACE DIVISION IN THE MEARY OF THE AMERICA'S AEROSPACE IMPOSTRY IS IN MANY WAYS 24 25 IDEALLY SUITED AND MUTUALLY SEMEFICIAL FOR IMDUSTRY AND

2 LOS AMBRES AIR PORCE SASE AS COVIDURET NOT AT SASE TRAT HAS REACHED THE END OF IT'S DESPUT LIFE SPAN, AND MOVING SED MAKES NO SENEE PROM A STRATEGIC STANDPOINT. IT MAKES EVEN LESS SENSE PROK A SCONONIC STANDSOLVY. THE COST TO RELOCATE SSD AND ARROSPACE CORPORATION COMES CONCEIVABLE ROW WELL OVER A BILLION DOLLARS, AND I'M NOT MUMBE OF ANY STUDIES WHICE SHOW HOW THE U.S. TAXDAYER WILL RECOVER THESE COSTS ST SAVINGS ELECTRESS IF SSD IS RELOCATED

SERVICES CONSUTTES INSTRUCTED THE BASE CLOSE RE COMMISSION NOT TO CLOSE SASSE THEASE THE COST OF CLOSURES WERE JUDGED TO BE RECOUPABLE WITHIN SIX TRANS. I SERIOGELY QUESTION THE LOS ANGELES AIR FORCE BASE. IN CLOSING THIS BASE IT SERMS WE WILL LOSE A LOT MORE MOMET THAT WE WILL SAVE. THE AIR FORCE HAS EXPRESSED CONCERN ABOUT THE LINUTED AVAILABILITY OF AFFORDABLE SOUSING AND LAB IN THE LOS

PRESENTLY, EL SEGUNDO, MANTHORNE, AND OTHER SOUTH BAY CITTES ARE REPLOYING WAYS TO AMELICUATE THREE COSTS. AND I AM PLEASED MANT REPRESENTATIVES FROM THESE LOCALITIES ARE PLANNING TO MAKE PRESENTATIONS THIS EVENING ABOUT THIS HATTER. WHILE THESE ARE SERIOUS CONCERNS, PARTICULARLY FOR THOSE IN COVERNMENT PAYROLL, THEY DO NOT

SOUTH BAT COURT REPORTERS

SOUTH BAY COURT REPORTERS

ST THEMSELVES JUSTIFY THE ENGRHOUS EXPENDITURE OF RELOCATION OF SED WOULD ENTAIL.

THE MENDERS OF THIS CONSTITUTE WHOLD LIKE TO MORE WITH THE AIR PORCE TO RESOLVE THE DIFFICULTIES FACED BY BASE EMPLOYEES, AND TO MORE OUT ACCEPTABLE SOLUTIONS TO THESE CONCERNS. THIS IS THE MOST WISE AND COST SPPECTIVE OPTION FOR THE COMMUNITY FOR THE ALR FORCE AND FOR THE

RECOMMENDATION IN PAVOR OF RESPING SPACE DIVISION AT LOS AMGELES AIR PORCE BASE.

COLONEL HORRISON: THANK YOU. THE HEXT SPEAKER WILL BE JAMES TURNER, POLLOWED BY GEORGE WILEY.

SUITE 600, SACRAMENTO, CALIFORNIA 95814). I'M THE DIRECTOR OF BOSINESS DEVELOPMENT FOR THE STATE OF CALIFORNIA DEPARTMENT OF THE CONNERCE. I'M HERE TOWIGHT TO REPRESENT OF THE VIEWS OF GOVERNMENT DESIGNATION, SPECIFICALLY HIS STRONG CONCERN OVER THE POSSIBLE CLOSURE OF LOS ANGELES AIR DIVISION HUST REHAIN IN CALIFORNIA.

MS. TURNER: MY MANUE IS JANUT TURNER (1121 L STREET,

THE DRAFT ENVIRONMENTAL IMPACT REPORT UNDERSTATES THE TREMEMOOUS MEGATIVE IMPACT ON CALIFORNIA ST THE LOSS OF THIS SPACE SYSTEMS DIVISION, BOTH ON OUR

SOUTH SAT COURT REPORTERS

SPENDING. THERE BAYE ALMSAUT MEDI AMMODICEDIMITS TO CLOSE SIZ MILITARY BASES AND 11 MORE HAVE BEEN COMSIDERED. IN ADDITION, MARY LARGE DEPENSE CONTRACTORS HAVE AMBIOUNCED MAJOR LATOFFE AT THEIR CALIFORNIA PLANTS DUE TO REDUCTIO IN CHIPPERS SYSTEMS ACQUISITIONS. THESE PRIVATE SECTOR LATOFFS TO DATE MAVE AFFECTED AS MICH AS 20,000 WORKERS. ANY DISCUSSION OF THE IMPACT OF THE RELOCATION OF THE SPACE IS STEEDED DIVISION MUST BE MADE WITH THIS ALMHADY SHAVE

ADDITIONALLY, MOCH OF THE DIVISION'S OPERATIONS ARE IN COOPERATION WITH PRIVATE COMPANIES IN THE AREA. WE ARE CONCERNED THAT HOWING THE DIVISION OUT OF WELL. INDEED, IF A LOSS OF THE DIVISION DA CALIFORNIA'S REPETITION AS THE LEADING STATE FOR APPOSPACE RESERVED AND DEVELOPMENT, FIRMS NOT EVEN COMMICTED WITH THE PORCE REDUCTIONS ALREADY AMBOUNCED AND THE LINEARIES BETWEEN SED AND OTHER COMPANIES DIGITY THAT THE EMPLOYMENT LOSS RETURNIES GEED IN THE ENVIRONMENTAL INFACT STATEMENT AND SIGNIFICANTLY UNDERSTATED, AND ME A RESULT, THE DITAL DEFACTS ARE ALSO GEDER STATED.

TH CALIFORNIA A STRONG SCONONY AND A CLUMS

ENVIRONMENT ARE EXOMERABLY BINGED AND A WEARENED, UNDERRINED STATE OF LOCAL REGIONAL AND STATE GOVERNMENTS TO INTRODUCE NECESSARY ENVIRONMENT CONTROLS.

IN ADDITION, WE AGREE WITH THE PREVIOUS SPEAKERS WHO STATE THAT THE ENVIRONMENTAL HORACT REPORT LAAPPROPRIATELY EXCLUDES THE RUSE AND OBVELOPMENT PLANS IF THE L.A. BASE WERE CLOSED. AS A RESULT, THE REPORT CONCLUDES THAT CLOSING THE BASE WOULD ACTUALLY BANK A ROSITIVE ENVIRONMENTAL HURACT, AND THE MOST REUSE OPTIONS, PARTICULARLY THOSE THAT WOULD MAKINISE A RETURN TO THE AIR PORCE AND THE ECONOMIC REVITALIZATION OF THE CONGRUITT, WOULD CONTRIBUTE AS MUCH, IF NOT MORE, TO ENVIRONMENT

IN CONCLUSION, RELOCATION OF THE SPACE
SYSTEMS DIVISION OUTSIDE OF CALIFORNIA MOULD BE COSTLY AND
AN UNMELESSARY EXPENDITURE IN AN ERA OF DECREASING DEFENSE
NOMES. THE STATE FULLY SUPPORTS BY ITS CONSUMITIES
TO DEMONSTRATE THE COSTS SAVINGS AVAILABLE AT THIS TIME TO
THE AIR FORCE BY STATING IN CALIFORNIA.

WE ENCOURAGE THE AIR FORCE TO MAKE MORE CAREFUL CONSIDERATION OF THE CUMULATIVE INDACT OF IT'S RECEPT DECISIONS ON CALIFORNIA'S ECONOMY AND ENVIRONMENT.

COLONEL MORRISON: THANK YOU, MRS. TURNER. THE WEST SPEAK ARE WILL BE MR. GEORGE WILEY, POLLOWED BY

MR. WILET: MY MANK IS GEORGE WILET (OWE MANCHESTER BOULLYARD, SUITE 601, INCLEMOOD, CALIFORNIA 90301). I AN ERRE TEIS EVENING ON BERMAN OF ASSEMBLYMAN CONTIS TUCKER, JR., WHOSE FIRM INCLUDES EL SECUNDO AND THE LOS ANGELES AIR FORCE BASE.

I AN HERE TO COMMUNICATE HIS CONCERNS WITH REGARD TO THE PROPOSED CLOSURE OF THE BASE AND THE POSSIBLY RELOCATION OF THIS SPACE SYSTEMS DIVISION. THE ASSEMBLYHAM'S MOST IMMEDIATE CONCERM IS THE TREMENOU SOCIOECONOMIC COST ASSOCIATED WITH ANY DECISION AT LEAST IN RELATION OF THE COST UPON OPERATIONS CURRENTLY MAINTAINED AT THE BASE SUCH SAY DECISION WORLD NOT ONLY RESULT IN SUBSTANTIAL DIRECT ENGLOYMENT LOSSES, BUT WOULD ALSO CAUSE TREMEMOUS LATOFFS TEAT WOULD HAVE MEGATIVE EFFECTS. UNFORTUNATELY, MEITHER THIS ISSUE NOR ANY ACCURATE INTERPRETATION OF THE STATE WAS ADROUGHTELT ADDRESSED IN THE REPORT DESCRIPTING THE LOCAL ECONOMICS OF THE CLOSING OF THE LOS ANGELES AIR PORCE BASE. SURELY IT'S DOMN TURN IN MOUSING COSTS ILLUSTRATES THIS POINT AND SHOULD BE INCORPORATED IN APY DISCUSSION OF THIS ISSUE. INDEED SINCE THEN BATHER A NEW ROOMOUTC REALITY HAS COME TO SOUTHERN CALIFORNIA. THE CLOSURE OF LOS ANGELES AIR FORCE BASE AND THE RELOCATION OF THE SPACE SYSTEMS

SOUTH BAY COURT REPORTERS

DIVISION IS A LOSS SOUTHERN CALIFORNIA CANNOT AFFORD TO

MY MAME IS 24 SAM EACOSELLIS (404 SOUTH BIXEL, LOS ANGELES, CALIFORNIA MAY CITIES MAVE JOINED TOGETHER TO MAXIMIZE AREAS SERVICED 24 90017). I'M A CRIEF OPERATING OFFICER OF ROCKHELL 25 TO BRING EMPLOYEES OF THE AIR FORCE TO THE EL SEGUNDO SOUTH BAT COURT REPORTERS SOUTH BAT COURT REPORTERS LEAVING ASSOSPACE CORPORATION MERE AND THE BASE MOVEMENT INTERNATIONAL, BUT TONIGHT I'M MERE IN MY CAPACITY AS THE WERE, I THINK, THE ENVIRONMENTAL IMPACT STATEMENT DOES CHAIRMAN OF THE ARROSPACE AND AIR TRANSPORTATION CONNUTTED OF THE LOS ANGELES AREA CHANGES OF CONSCINCE. 3 NOT RECOGNIZE THE ADDITIONAL TRAVEL FOR THOSE THO HOW, HOST OF MY PREPARED REMARKS HAVE ALREADY ELEMENTS. THAT ARE REALLY A TEAM THAT WOULD BE INCRESSARY BEEN COVERED BY THE PREVIOUS SPEAKERS, SO I'LL ASSERVIATE SO I REALLY, LIKE THE REST OF THE SPEAKERS, THE BASE SHOULD NOT BE MOVED. IT'S NOT A COST SAVING AS AT FIRST HE MY COMMENTS TO SOME PACTS THAT HAVE NOT BEEN COVERED. THOUGHT, AS THE RELOCATION AT CONSIDERABLE COST NOW THE THE ACTIVE CONTRACTS IN LOS ANGELES MASIS INTRASTRUCTURE INCLUDES THE UNITS. I TRIDE THE ASSOSPACE PROM THE LOS ANGELES SPACE DIVISION TOTAL \$6.5 BILLION OF CORPORATION, I SHOW THE ASKOSPACE COMPARTES SOCIONAL AND A \$21 BILLION TOTAL. HOW, MANY OF THESE ARE SHALL THE OTHERS, HAVE BEEN STRONG SUPPORTERS WITH FUNDS AND CONTRACTS, UNDER A MILLION DOLLARS, AND THET'RE CARRIED OUT 11 BY THE IMPRASTRUCTURE THAT'S IN THE LOS ANGELES AREA OF 11 DONATIONS TO THE STATE UNIVERSITY STETCH, UCLA AND USC AND SHALLER SHOPS AND SERVICES PROPLES. OF THE SUM OF 7,500 12 THE STUDENTS, WHEN THEY GRADUATE, ARE CANDIDATES TO JULE 13 EMPLOYEES AT THE SASE AND ARROSPACE CORPORATION, SOME ARE OUR COMPASIES. SO IF THE AMMONPACE CORPORATION AND THE BARRE 14 AT SOTE END OF THE SPECTRUK. MANY ARE RIGHT, - EDUCATED 15 AND THE BASE WERE TO MOVE, THAT INTRASTRUCTURE MOULD BE 15 PHD'S AT THE ARROSPACE CORPORATION. THERE ARE A LOT OF 14 SUPPORT PERSONNEL, AND IF THERE IS A RELOCATION HOVENERY 16 LOST AND I SELIEVE IT WOULD BE THE BEGINNING OF AM 17 DEPAYELING OF THE CENTER OF TECHNOLOGY, THE CENTER OF OUT OF THE AREA, MANT OF THOSE WILL BE ASKED TO RELOCATE. ARROSPACT TECHNOLOGY, MIRE IN THE BASIN AREA, AT GREAT 18 AT GOVERNMENT EXPENSE. BUT THERE WILL BE MANT WHO WILL NOT 19 EXPERSE TO THE GOVERNMENT. 19 BE RELOCATED AND WILL BE LEFT IN THE LOS ANGELES AREA 20 20 AND AS THE MENTIONED BY AN EASLING SPEAKER. NOW, THE INTRASTRUCTURE THAT I'M SPEAKING 21 SOME OF THE THESE OTHER LOCATIONS DO NOT HAVE THE 22 INFRASTRUCTURE TO ACCEPT THE RELOCATION OF THE BASE AND OF ABOUT INCLUDES THE OTHER APROSPACE COMPANIES, RESIDES 23 THE ARROSPACE CORPORATION, SO THAT WOOLD ALSO BE AT GREAT 23 AEROSPACE CORPORATION, AND ST THE WAY, THE AEROSPACE 24 24 CORPORATION HAS BEEN A TEAM WITH THE AIR PORCE FOR SOME 30, 25 SO I'D LIKE TO EMPRASTS THE FACT THAT THERE MATRE GOING ON 40, TEARS NOW. SO SOME OF THOSE OFTIONS OF SOUTH BAT COURT REPORTERS SOUTH BAT COURT REPORTERS

PIX IT." LET'S SUILO HORE SOUSING HEAR EL SEGUNDO AND ERES TOGETHER THE AEROSPACE/AIR FORCE TEAM TRAT'S WORKED TOGETHER SO WELL FOR 30 TEARS.

COLONEL MORRISON: MARCH ACKLAND WILL BE POLLOWED BY

HE. ACKLAND: GOOD EVENING. HT HAME IS MARCH ACKLAND. I'M AT 100 MORTH CONTINENTAL BOULEVARD, EL SECURDO (CALIFORNIA 90245) AND I'M CURRENTLY THE PRESIDENT OF THE EL SEGUIDO CHAMBER OF THE CONGERCE.

I'D LIKE TO SPEAK TO THE MEGATIVE INDICT THE BASE CLOSURE WILL HAVE ON THE CONGERCIAL REAL ESTATE IMPOSTRY. I DO NOT FEEL THAT THAT WAS ADEQUATELY DEALT WITH IN THE DRAFT AND WAS ERRONEOUSLY DEALY WITH IN THE LOCAL ECONOMY CONSEQUENCES STATEMENT. TO GIVE TOT A LITTLE BACEGROUND, AT THE CLOSE OF THE SECOND QUARTER OF 1990 THE SOUTH BAT MARKET CONTAINED A TOTAL OF 27.7 MILLION SQUARE PRET OF COMPETITIVE OFFICE SPACE LOCATED WITHIN THE SIX SOUTH MAY SUMMARKETS. THE SECOND QUARTER OF 1990 ASSORPTIONS WERE, UNFORTUNATELY, A NEGATIVE 114,000 SQUARE PERT. THE CURRENT VACABLE RATE IS 18 PERCENT. SPECIFICALLY, THE EL SECUNDO AND THE BEACK CITIES TRADITIONALLY MAVE ENJOYED & RAPID EXPANSION AND AMSORPTION. MOMEVER, UP TO THE 1990 SECOND QUARTER, THE MEGATIVE ASSORPTION WAS UP TO 130,000 SQUARE FEET. NOT INCLUDED IN THIS, MONEYER, IS THE 300,000

SOUTH BAT COURT REPORTERS

65

SQUARE PERT CORRENTLY OR THE MARKET OF SUBLIMED SPACE. AND WITE AN ANTICIPATED 25,000 EXPECTED IN THE REST TWELVE MONTHS, MOST OF THAT CONDUCT FROM THE ASSOSPACE CUTSACES. THE LOCATED IMPACES REPORT THOTCHES THAT WE CAN ANTICIPATE AM EMPLOYMENT LOSE OF 11 to 13 TROUBLAND JONE SY 1997, AND THE DIS REPORTED OF TO 17,600. FOR THOSE OF US IN THE REAL SETATE MARKET, THAT SQUARES TO TEMPARES.

THE SCOUGLIC REPORT INDICATED THAT THE LOS AMORLES SASTE OR THE AREA REGION TEXT IT STUDIED ARE, SAT, 15.9 PERCENT VACANT AGAIN. NARACHING THE SCOPE TO THE SOUTH BAY SURMARKET, THAT IS CURRENTLY 18 PERCENT, AND UNFORTUNATELY, AS RICH AS 33 PERCENT WITHIN JUST TWO MILES OF TOUR SASE. THE LOCATED IMPACT REPORT INDICATES THAT 2.1 WILLIAM SCORES FEET WESS ASSOCIATE FOR 1990. ACATH FOR 1990 WE HAVE A REGATIVE OF 114,000 REGATIVE ARSORPTION OF SPACE. THE LOCATED DIPACT REPORT STATED THAT APPROXIMATELY 4,000 SQUARE PERF COULD BE ANTICIPATED TO BE VACATED IF THE LOS ANGELES AIR PORCE BASE WERE RELOCATED.

I FEEL THAT THE REALITY OF THIS FIGURE IS CHARLY NOCE ETGERS WERE ONE CONSIDERS THIS SUBMARKET HAS PLAYED MOST TO AND OFFICES A TREMEMOODS AMMERT OF DEFENSE AND SPACE RELATED SECONDARY TEMANTS, WHO WOULD MOST LIKELY RELOCATE TO WEATEVER THE ALE POSCE MAE TO RELOCATE. WHEN THIS ADDED TO THE CURRENT 5 MILLION IN THE SOUTH BAY

LINE ALL IMPACTS THIS DOES NOT STOP AT THE BUILDERS AND DEVELOPERS WHO ARE CRITING TO THE BANKS. THESE MAPTE AND PROJECTS GENERATE INCOME TO THE LOCAL CITIES. VARIOUS METHODS ARE POINTED OUT: THE SALES TAE, SUSTIMESS LICENSE PERS. SYTLITY USERS TAXES. THESE LOST COLLARS WILL SEVERELY IMPACT THESE CITIES' ABILITY TO PROVIDE MUCH-READED SERVICES TO THE RESIDENTS.

THE SOUTH SAT REAL SETATE MARKET WAS PLATED MOST TO AND DEPENDS ON MAIT OF THE COUNTRIES MAJOR DEPENDS AND APPOSPACE COMPANIES. IT SAS A LONG AND PROTO BURITAGE IN SUPPORT OF THUSE INCUSTRIES. WITH THE CURRENT ASSOSPACE AND DEFENSE CUITACIES WE HAVE ALBEADT SEEN A GENERAL DECLINE IN OUR REAL ESTATE MARRET.

WE ARE VERY CONCERNED THAT IF THE AIR FORCE BASE IS RELOCATED, SIGNIFICANT ANDWESS OF SPACE WILL BE VACATED, AN AMSORPTION OF SPACE THAT COULD BE TRADITIONALLY DEPENDED ON BY THIS INDUSTRY WOULD NO LONGER EXIST.

HE GREE TOU TO TAKE THIS INTO ACCOUNT WHEN PREPARING TOOM FINAL REPORT.

THANK TOU.

COLONEL MORRISON: THANK TOU. THE MERY SPEAKER WILL SE MERS SCHOOL, POLLOWED SY W. T. HASON.

MR. SIMMER: GOOD EVENING. HT MANE IS HERD SIMMER (350 WEST STH STREET, SUITE 130, SAN PEDRO, CALIFORNIA

SOUTH BAY COURT REPORTERS

90731). I'M VICE PRESIDENT OF THE SOSINESS DEPARTMENT FOR THE SAN PERSON PERSONNELLA CHARMER OF CONSTRUCT IN STRUMENT IN SUPPORT OF EXEPTING THE LOS ANGELES IN SL SEGUEDO.

THE BASE IS VERY IMPORTANT TO THE SCOTE BAT MUNITERS. IN REVERFING THE DRAFT ENVIRONMENT INFACT STATEMENT HE CAME TO THE CONCLUSIONS THE PIRST HAS TEXT OF ALL THE VARIOUS ALTERNATIVES THE MO-ACTION ALTERNATIVE WHERE BAYE THE LEAST DIRACT.

ON PACE 2-41 OF THE STOOT, IT SATS WITH THE NO-ACTION ALTERNATIVE SIGNIFICANT INPACTS ASSOCIATED WITE RELOCATION, IMPACTS WOULD BE AVOIDED. IN PARTICULAR DISPACES TO THE POLICIPIES RESOURCE AREAS WOULD NOT OCCUR-THAT RESOURCES OF SITTING VARIABLES ON PALCON ALR PORCE BASE, AIR QUALITY AT ALL LOCATIONS, SIGNOSTCAL RESOURCES AT VANDESMENS AND MARCE ALE PORCE BASES, AND CULTURAL BERG OR PETERSON." BASED ON A STRICTLY RESOURCES AT VAJOR THE PROPERTY SASIS, IT WOULD THEREFORE SEEN LOGICAL TO WARRIEST THE STATUS OUR AND TO LEAVE THE MASS AS IT IS

OF COURSE, WE SHOW THAT OTHER ASPECTS --POLITICAL AND ECONOMIC VIALABLES -- SAVE TO BE CONSIDERED 22 TH MARTING THE PLUMA OCCUSION.

THE SECOND CONCLUSION THAT WE CAME TO IN REVIEWING THE DRAFT IS OF THE THREATENED OR EMBANGER 25 SPECIES LISTED. OF IS CONSCIOUSLY MISSING. THE DRAFT

SOUTH BAT COURT REPORTERS

COLONEL MORRISON: W. T. MASON.

MR. MASON: GOOD EVENING, COLONGL MORRISON, ECHNORABLE PAREL REGERERS. HY NAME IS W. T. MASON AND I'M A RESIDENT OF 19767 RED SEAM AVENUE IN TORRANCE (CALIFORNICA). I AM PRESIDENT ELECT OF THE EL SECONDO CHANGES OF COMMENCE AND I MAYE LIVED AND MORRISO IN THIS AREA FOR 16 TEARS.

THERE IS A DEEP CONCERN ABOUT IT'S RELOCATION OF THE AIR PORCE BASE AT EL SECUNDO INCLUDING THE RELOCATION OF THE SAN REPMACINO BASE. THAT HAVE NOT REALLY SEEN ADDRESSAD ST THE ENVIRONMENT INFACT REPORT.

PIRST, IN REVIEWING THE CHART OF DUPACTS ON THE COMMUNITIES, IT WAS INDICATED THAT THERE IS A WRECISELE LIMBAT ON THE IMPLASTRECTURE OF THE COMMUNITIES, PARTICULARLY THOSE SURMONDURG THE IL SECONDO ALE PORCE ASSE. I QUESTION THIS. THESE COMMUNITIES HAVE SOLILS AND PINANCED THE LIMPASTRUCTURE UPON HEE BASIS THAT THERE WERE APPROCHEMENTLY 19 TO 20 THOMESON JOSS IN THE AREA THAT WERE SITHER DIRECTLY COMMUNITY WITH REPORTED WITH OR DEPENDENT UPON BOYS THE SITHER DORS AND THE ARROUNDED COMPONATION. REMOVAL OF THESE JOSS AND THE PARALLESS RESULTS IN ENGISE OF THE PINAL BASE ON WEIGH THERE IMPRACTMUCTURES HAVE BEEN BOILD.

SECONDLY, WE MOST NOT LOSE SIGHT OF THE BASIC REASONS FOR CONCERN FOR ENVIRONMENT IMPACT. AS OUR FORMER

SOUTH BAY COURT REPORTERS

SPEAKER ADDRESSED, THE IDEA THAT THE STROM SPECIES IS AN BELANGERED SPECIES A VERY GOOD POINT. THERE IS A PERCENTILE UNMACT UPON THE QUALITY OF LIFE OF PROFUE AND PARKLIES LIVING IN A GIVEN COMMUNITY, AND CERTAINLY THAT IS A ENVIRONMENTAL ISSUE.

AS I READ THE DEATY STATEMENT, IT IS STATED
THAN 11,125 CIVILLAR AND MILITARY JONE WILL BE RELOCATED
ELSTWRENS. THAN INCLUDES SAN SERMADING AND HOST LIGHLY OUT
OF THE STATE OF CALIFORNIA. THIS THANSLATES INTO 11,125
FAMILIES AND GIVES THE AVERAGE SIZE OF A FAMILY, ME'RE
TALKING ABOUT 11,136 LIVES WHICH AND DIRECTLY AFFECTED BY
THIS RELOCATION. THIS CAN'T BE IMPORED AS 30 17'S
EFFECTS.

I'VE REEN IN THE FIELD OF SOURS RESOURCES FOR OVER 46 TRANS AND I RICH PIRST BAND — AND, INCIDENTALLY, I'VE LIVED IN SIZE DIFFERENT COMMENTERS — I RICH PIRST EARD THE THANKS THAT OCCUME WHEN PARLILLES AND MONTHLINGER, RELOCATED TO OTHER AREAS. SCHOOL CHILDREN HAVE THEIR REDCATON INTERNATIONS THAT LOSS THEIR PARENCE, THEY LOSS THAT LOSS THAT INFORMATI SOCIAL TIES TO THEN ADMINI THERE IN THE COMMENTS HAVE BOOKED THAT HOUSE WAS A COMMENTED WHITE BOOK SOCIAL ACTIVITIES IN MELICE THEY 'VE PARTICIPATED BOTH IN CHORCESS, STRADOGUES, CLOSE, CIVIL ORGANIZATION LOSS THE TALENT WHICH HAVE BREEN SITLE OVER THE THANK. SINCE A MAJORITY OF THE BASE EMPLOYEES LIVE IN THIS AREA, WE REPORT CAS ASSESS DIRECTLY THE IMPACT ON THESE CONCENSITIES.

HOW HAS THE LOCAL REAL SETATE HARRY BEEN LAPPLY? FIGURES FROM THE REGIONAL MULTIPLE LISTING SERVICE SHOW A HAJOR DECLINE IN SALES OF NEW AND PREVIOUSLY OWNED NOMES, TOMOSCORES, AND COMPOS IN THE LAST 18 TO 24 HOWERS. MORE PROPERTIES ARE BEING LISTED FOR SALE AND A SIGNIFICANTLY SHALLER HUNGER OF THEM ARE SELLING. LATEST FIGURES SHOW THAT THE AVERAGE LENGTH OF TIME TO SELL HOUSES IS INCREASING. CALEBRAR YEAR 1988. HOMES FOR SALE 7.604. AVERAGE MAJEST TIME, 89 DATS, THE WORLD GOLD OR FEMBLING TEAR 1989, 13,061 MONES, AROUT TWICE THE MONES, HERE POT ON THE MARKET FOR SALE, 64 DATS AVERAGE MARKET TIME, NOT ORLY 42 AND A TEIRO PERCENT SOLD. SO ROUGHLY ASOUT THE SAME WOMER SOLD, MIT THERE WERE TWICE AS HANT ON THE MARKET. JAMEARY TO JUNE 1969, 5,929, MONES WERE LISTED FOR SALE THE FIRST BALF OF LAST TEAS, 35 DAYS AVERAGE BASKET TIME, ABOUT SI AND A THIRD PERCENT SOLD. IN JAMBART TO JUNE 1990 OF THIS YEAR -- THE SAME TIME A YEAR LATER --7,500 NOMES WERE FOR SALE, AN ENCREASE OF AMOUNT 600, 115

I'R MENE IN SUPPORT OF RESPIRE THE ALR PORCE 3 BASE BURE AND TO SPEAK TO CENTALLY DIFFACTS THE PROPOSED. RELOCATION OF THE LOS ANGELES AIR PORCE MASK AND SPACE STREETS DEVISION. I WOULD LIKE TO SAY AT THE OUTSET THAT MANE OF AMERICA STRONGLY SUPPORTS THE SPRONGS OF THE DEPARTMENT OF DEFENSE TO STREAMLINING ITS ACTIVITIES IN CALLFORNIA AND THE REST OF THE COMPTET. IN THE CASE OF THE SPACE DIVISION AT LOS ANGELES AIR PORCE BASE, WE STRONGED PERL TERM MOVING THIS OPERATION WOULD BE TOO COSTLY TO THE SOUTHERS CALLFORNIA COMMUNITY AND TO THE SPITISS COUNTRY AS

WE BELIEVE THAT RELOCATING THE LOS ANGELES AIR FORCE GASE WORLD BOT RESILT IN ANY MET SAVINGS TO THE UNITED STATES GOVERNMENT STACE STARLY ALL ACTIVITIES THE CHARLES AND THE OTHER CARDY MALE SET IS DE SOME OFFICE LOCATION. THE COST ESTIMATES THAT WE HAVE STORE FOR MINTER SED AND THE ARROPMENT COMPONENTION CHROMOTEUR. WILL HOW STORES THAN \$1 BILLION. SPEAKING AS AMBIGUE OF THE FINANCIAL COMMUNITY, IT IS UNFORTANT FOR HE TO MOTE THAT A BILLION COLLARS FINANCED TODAY WILL COST HAST SILLIONS OF DOLLARS WHEN PAID OFF IN THE POTONS.

IT IS ALSO VERY IMPORTANT TO COMMINER THE OVERALL DEPART OF THE MOVING OF THESE PARTLETIES ON THE JOSE, INCOME, THE CULTURAL ENVIRONMENT, AND PROPLE OF

SOUTH BAY COURT REPORTERS.

SOUTHERN CALIFORNIA. IF SED IS MOVED, IT IS POSSIBLE THAT MART OF THE REASONS ASSOSPACE CONTRACTORS AND SUB-CONTRACTORS HIGHT NOT HOVE WITH SED THEY WERE ABLE TO MAINTAIN THE EXISTING CLOSE RELATIONERS. IN ADDITION, THE SIGNIFICANT COSTS TO THE EXISTING COMMUNITIES WHICH WOULD BE DISRUPTED, THE SCHOOL DISTRICT WOULD BE RECATIVELY DEPACTED, AS WELL, WITH THE OF THE VISBANT, LOCAL SCONORY.

THE LOCATION OF THE LOS AMBELES AIR FORCE BASE MERS IN EL SEGUNDO IS ALSO CRITICAL TO THE SUSTATINABILITY AND GROWTH OF THE COUNTRY'S ARROSPACE AND SIGN-TECH INQUSTRIES. THE LOS ANGELES AIR PORCE BASE IS LOCATED IN THE SEART OF THE NATION'S ARROSPACE COMMUNITY. IF SED IS RELOCATED, A CRITICAL LINE SERVER GOVERNMENT AND THE PRIVATE SECTOR COULD BE SHOKEN.

THE FACT THAT SED AND SO MANY PRIVATE ARROSPACE FIRMS ARE EASILY SO CLOSE TO SACE OTHER IS TO

EMPLOYERS BANK OF AMERICA RECOGNISE ONE OF THE REASONS GIVEN IS A SIGNER COST OF THE SOUSING IN SOUTHERN CALIFORNIA. HOWEVER, AS WE HAVE HEARD TONIGHT THERE ARE CREDIENE OPPOSTORITIES BEING STODIED TO ALLEVIATE THIS PROBLEM FOR THE AIR FORCE. IF REASONABLE, LOWER-COST MODELING IS OBTAINED, THE COST OF LIVING IN SOUTHERN

SOUTH SAT COURT REPORTERS

IN CLOSING, TAKING INTO COMMIDERATION THE ASSORBITMENT COST OF RELOCATING SED WILL MAVE GROW THE PROPER AND ECCURARY OF THES REGION AND THE STATE, AS WRILL AS THE RYPECT A MOVE MIGHT BAVE ON THE MACTOR'S ACROMPACE AND ELGE-TECH INCOSTRIES LOCATED MINE AT 21. SEGUEDO.

IN AT SAME OF MERICA DRICE TOO TO DEED THE LOS ANGENDE AIR FORCE BASE AND TR'S SPACE STRTIMS DIVISION MERS IN EL SECTION.

THANK TOO AGAIN FOR THE OPPORTUNITY TO KINGA

COMEL MONRESON: MR. PAUL SEPCIMES WILL ME OUR MEST

MR. SEPCREE: GOOD EVENTING. I'M PAGE SEPCREE, 18 MELA LAME, RANCHO PALOS VENOES, CALEFORNISA (90274).

THE POTENTIAL IMPACTS IDENTIFIED IN THE ENVIRONMENTAL IMPACT STATEMENT FOR THE VANDEMBURG AIR FORCE BASE AREA ARE STORLIGHTED IN THE SANDOUTS VALUE WERE MADE AVAILABLE IN THE LOSSY OF THIS AUDITORIUM, AND THEY WILL BE CARREED IN DETAIL LATER IN THIS MEARING BY LT. COL. BARTOL.

SMOULD YOU WISH TO REVIEW THAT DRAFT ENVIRONMENTAL LUDACT STATEMENT, COPIES ARE AVAILABLE AT THE LONDOC AND SAFTA MARIA PUBLIC LIBRARIES. IF YOU DESIRE TOUR OWN COPT, AND MAVE NOT ALREADY RECEIVED A COPY OF THE DEATT ENVIRONMENTAL DIFFACT STATEMENT, TOO MAY MAKE A SPECIFIC REQUEST BY WRITING TO LT. COL. BARTOL AT THE DORESS THAT'S SHOWN ON THE MANDOUT GIVEN TO TOU TOWIGHT, AND SHOWS, AS WELL, ON THE WRITTEN CONSCRIPT SHEET THAT TOO WERE PURNISHED.

WHY ARE WE MERE THIS EVENING? THE PORPOSE OF THE PUBLIC MEASING IS TO SOLICIT IMPUT FROM PUBLIC AGENCIES, FROM PRIVATE ORGANISATIONS, AND FROM THE PUBLIC AT LANCE, ON THE DRAFT ENVIRONMENTAL INDACT STATEMENT. THIS MEETING IS BEING MELD IN ACCORDANCE WITH THE BOULDEMENTS OF THE NATION ENVIRONMENTAL POLICY ACT AND IMPLEMENTING PROGRAL REGULATIONS WHICH REQUIRE PEDERAL MERCIES TO CAMEFULLY AVALUATE POTENTIAL ENVIRONMENTAL IMPACTS OF CERTAIN PROPOSED ACTIONS, AND TO USE THOSE

SOUTH BAY COURT REPORTERS

1 AMALTEES IN ARRIVING AT DECISIONS OR RECOMMENDATIONS AS TO 2 MEETING TO PROCEED AND BON TO PROCEED WITH A PARTICULAR ACTION.

I'VE BEEN DESIGNATED AS PRESIDENC OFFICER FOR TONIGHT'S PORGIC MEANING CONCERNING THE PROPOSED 6 CLOSURE OF LOS AMERIES AIR PORCE BASE AND RELOCATION OF 7 SPACE SYSTEMS DIVISION. MY SAME IS COL. SILL THEMPSON. .. I'M AM ATTOMMET, AND I RERVE AS A PULL TIME MILITARY JUDGE, STATIONED AT TRAVIS AIR PORCE BASE. I MANT TOU TO 16 UNDERSTAND FROM THE RESIDENING THAT I'M NOT ASSISSED TO LOS 11 AMERICA ATE PORCE BASE OR ART OF THE BASIS OR COMMANDS UNDER CONSIDERATION FOR THE RELOCATION. I'M NOT HERE AS AN SEPERT ON THIS ENVIRONMENTAL INPACT STATEMENT, NOR HAVE I 13 14 HAD ANY CONNECTION WHATSOEVER WITH 176 DEVELOPMENT. I'M 15 NOT MERE TO ACT AS A LEGAL ADVISOR TO THE ATS PORCE REPRESENTATIVES WHO WILL ADDRESS THIS PROPOSAL. HT PERFORE 16 17 IS SIMPLY TO SESSING THAT HE HAVE A PAIR AND GROWNLY SEARING 18 AND THAT ALL WED WISH TO ME WEARD TOWNGET WILL HAVE A FAIR 19 CHANCE TO SPEAK.

WE DO HAVE OTHER HOUSERS OF THE AIR FORCE 21 WITE OF TOWIGHT, AND THEY ARE SEATED HERE ON THE STAGE WITH 22 ME. THEY ARE COL. DANYL ASHOOD, WHO'S ON THE RIGHT SIDE OF 23 THE PAREL. HE'S THE DIRECTOR OF ENVIRONMENTAL MANAGEMENT 24 AT VANDERBERG AIR FORCE BASE.

MEET IS COL. PETER BOGY, THE ACTING DIRECTOR

OF THE INSTALLATION RESTORATION PROGRAM AT MEADQUARTERS AIR PORCE STETEMS COMMAND AT AMDREWS AIR PORCE BASE, MARYLAND. COL. BOST WILL SPEAK ABOUT THE PROPOSED CLOSURE ACTION AND RELOCATION.

AND LAST, ON THE LEFT SIDE OF THE PAREL, FROM THE AIR PORCE REGIONAL CIVIL ENGINEER OFFICE AT MORTON AIR PORCE BASE, CALIFORNIA, LT. COL. TON BARTOL. LT. COL. BARTOL IS THE DIRECTOR OF THE ENVIRONMENTAL DIVISION, AND HE WILL DESCRIBE THE ENVIRONMENTAL IMPACT AMALYSIS PROCESS AND THE CONCLUSIONS REPORTED IN THE ENVIRONGENTAL INDACT STATEMENT.

WE DO MAVE A COURT REPORTER WHO'S TAKING A VERBATIN TRANSCRIPT OF THESE PROCEEDINGS. SHE IS SEATED MERE IN THE PRONT. I'LL ASK YOU TO KEEP IN MIND THAT WE ARE A TAKING VERBATIN TRANSCRIPT OF THESE PROCEEDINGS, AND THIS VERBATIN TRANSCRIPT WILL RECORD A PART OF THE PINAL ENVIRONMENTAL INDACT STATEMENT, WHICE, IN TURN, SECONDS A PART OF THE DECISION PACKAGE WITH REGARD TO THE PROPOSED CLOSURE AND RELOCATION ACTION. OUR COURT REPORTER CAN DELT DO MER JOB PROPERLY IF SHE CAN MEAN EVERTTHING THAT'S GOING ON AND IF SHE CAN UNDERSTAND WHAT YOU ARE SAYING. AND 1 ASK YOU -- AND I'LL COME BACK TO THIS POINT LATER ON -- TO PLEASE BE CONSIDERATE OF THE PACT THAT WE ARE MAKING A RECORD OF THREE PROCEEDINGS.

NOW LET ME TELL YOU WHAT THIS MEANING IS NOT.

SOUTH BAY COURT REPORTERS

1 THIS ISN'T GOING TO BE A DEBATE, NOR A REFERENDUR, MOR A VOTE OF THE PROPOSED ACTION ITSELF. THOSE TRINGS DON'T ADD ARTTEING TO THE MRITTEN MEARING RECORD AND SINGLY MASTE YOUR VALUABLE TIME DURING THIS OPPORTUNITY FOR PROVIDING YOUR PERSONAL IMPUT INTO THE DECISION MAKING PROCESS. THE POCTOR OF THE MEETING IS ON THE

ENVIRONMENTAL IMPACTS ASSOCIATED WITH THE PROPOSALS BEING STUDIES BY THE AIR PORCE. COMMENTS OF HON-ENVIRONMENTAL ISSUES SHOULD BUT HE BAISED AT THES HEARING.

WHAT THIS IMPOUNDL MEETING IS INTEREST TO PROVE IS A CONTINUENC PUBLIC FORK FOR TWO-MAY COMMUNICATION ABOUT THE DRAFT ENVIRONME BITAL DEPACT STATISHEDT ON THE VIEW TOWARD INSTRUVING THE OVERALL DECISION-MAKING PROCESS.

PLEASE NOTICE THAT I TALK TO TOO IN TERMS OF "THO-HAT COMMUNICATION", AND THAT'S MEAT WE INTERN TOWNSHIT. THE PIRST PART OF THE MEARING PROCESS LETS TOU BEAR PROM REPRESENTATIVES OF THE AIR PORCE WHO WILL BRIEF TOU ON THIS PROPOSAL, THE DETAILS, AND THE ANTICIPATED ENVIRONMENTAL IMPACTS. THE RECORD PART OF THE PROCESS WILL SIVE TOT AN OPPORTUNITY TO PROVIDE THE AIR PORCE IMPONDATION, TO ARE CLARIFYING QUESTIONS, AND TO MAKE STATISMENTS FOR THE

TOUR INDUST EMBURGE THAT THE DECISION MANUAL MAY MONEYIT FROM TOOK ENGAGEDIES OF THE LOCAL AREA AND ANY ADVERGE MINISOMENTAL EFFECTS TEAT TOO TRIME MAY RESULT

HOW, AS YOU CAME THTO THE AUDITORIUM TONIGHT, YOU WERE PROVIDED WITH AN ATTENDANCE CARD AND YOU WERE ASSED TO INDICATE ON IT IF YOU HAD ANY IMPOT IN THE WAT OF A QUESTION OR A CONSIGNT FOR TONIGHT'S MEETING. WHEN THE BRIEFERS ARE FINISHED, I WILL RECOGNIZE HEMBERS OF THE AUDIENCE FOR PURPOSES OF MAKING CONDENTS OR ASKING CLARIFTING QUESTIONS. FOR THOSE OF YOU WHO MAVE NOT FILLED OUT A CARD, AND WHO DESIRE TO SPEAK, I ASK TOO TO PLEASE DO THAT: THAT'S GOING TO BE THE ONLY METHOD THAT I'M GOING TO USE FOR RECOGNISING YOU AND GIVING YOU AM OPPORTUNITY TOWIGHT TO SPEAK.

OUR ORDER OF PROCEEDING TONIGHT IS IN THREE COL. BOST ON THE PROPOSED ACTION AND THE OVERALL STUDY PROCESS. THEN YOU WILL RECEIVE A BRIEFING PROM LT. COL. BARTOL ON THE EMVIRONGENTAL IMPACT STATEMENT ANALYSIS PROCESS AND THE CONCLUSIONS WHICH MAVE BEEN RECORDED IN THE DRAFT ENVIRONMENTAL INDACT STATEMENT.

20 POLLOWING THESE PRESENTATIONS, WE'RE GOING TO 21 PROCEED IN THE PUBLIC IMPUT PORTION OF THE REARING. 22 ELECTED OPPICIALS WILL BE GIVEN AN OPPORTUNITY TO SPEAK

AS I MENTIONED A MUNERIT AGO, SPEAKERS FROM 25 THE PUBLIC AT LARGE WILL BE RECOGNIZED ONLY PRON A NAMBON

SOUTH BAY COURT REPORTERS

SELECTION THAT I'IL DRAW FROM THE ATTEMBANCE CARDS. YOU MUST FILL IN A CARD AND BE RECOGNIZED BY ME IN ORDER TO SPEAK AT THIS MEETING. If YOU DON'T PEEL LIKE STANDING UP MEAN TORIGHT AND MAKING YOUR STATEMENT CRALLY, YOU DO MAVE UNTIL THE 24TH OF SEPTEMBER TO SUBMIT A COPT OF A STATEMENT THAT YOU WANT THE AIR FORCE TO CONSIDER. WRITTEN CONGES SHEETS ARE PROVIDED FOR THIS PURPOSE AND THEY'RE AVAILABLE AT THE ENTRANCE TO THE AUDITORIUM.

IN FACT, EVEN IF YOU MAKE CONSCRIPTS TODAY, YOU STILL HAVE UNTIL THE 24TH OF SEPTEMBER TO SURRET ADDITIO COMMENTS IN WRITING TO THE ADDRESS THAT'S SHO STREAMY CARD AND ON THE WRITTEN CONSCRIT SHEET.

NOW, WHETHER TOO HARR A STATEMENT VERBALLT TORIGHT OR WHITHER YOU HARE IT IN WRITING TONIGHT, OR TOO SUBMIT IT SEFORE THE 24TH OF SEPTEMBER, EACH STATEMENT WILL HAVE THE SAME IMPACT AND BE CONSIDERED TO THE SAME RETENT AT THE PRESENT TIME SO DON'T FREE LIKE YOU HAVE TO SPEAK TORIGHT IF YOU PREPER TO WAIT AND SUBJECT SCRETELING BY THE 24TH OF SEPTEMBER; BUT AT THE SAME TIME, DON'T BE RESITANT TO ASK A QUESTION OR MAKE A STATEMENT.

I WANT TO ENSURE THAT ALL THOSE WHO WISE TO 22 SPEAK TOWIGHT HAVE A FAIR CHANCE AND A PAIR OPPORTUNITY TO RE MEARD. HOW, IN ORDER TO DO TRAT, I'M GOING TO EMPORCE SOME RULES, AND I ASK FOR YOUR ASSISTANCE IN MELPING ME EMFORCE THESE BULES.

SOUTH BAY COURT REPORTERS

AND AS I'VE INDICATED, I'LL CALL ON TOO IN A RANDOM ORDER, BASED UPON A RANDON DRAWING OF THE CARDS OF THOSE WHO HAVE INDICATED A DESIRE TO SPEAK.

SECOND, COME DOWN TO THE PROPE OF THE AUDITORIUM AND THERE ARE MIKES PROVIDED TO SITHER SIDE USE THOSE MICROPHONES. SPEAK CLEARLY AND SLOWLY FOR THE BEHEFIT OF OUR COURT REPORTER, AND REALLY FOR THE REMEFLY OF THE CAPACITY IN WHICH YOU APPEAR -- THAT IS, IF YOU ARE AN ELECTED OFFICIAL, IF YOU ARE A DESIGNATED REPRESENTATIVE OF A GROUP, OR IF TOO ARE SIMPLY A CONCERNED CITIZEN.

IF TOU DO HAVE QUESTIONS, ASR ONE QUESTION AS A TIME. BECAUSE THERE IS A TIME LIMIT ON YOUR PRESENTATION, TOU SHOULD PRIORITISE YOUR REMARKS TO EMEURE THAT YOUR HOST IMPORTANT REMARKS OR HOST IMPORTANT

WHEN YOU ARE RECOGNIZED, YOU WILL BE RECOGNISED FOR FIVE HIMPTES. I DO RAVE A TIME RESPER, STAFF SERGEANT JESSE EDNISPEN, WHO WILL BE SEATED IN THE HOWT NOW OF THE AUDITORIUM, AND HE'S GOING TO ASSIST HE AS A TIME RESPER TOWIGHT AND WILL THERE WILL REALLY ONLY BE THO SIGNALS THAT YOU AND I WEED FOR WATCH FOR. AS I SAID. I'LL GIVE YOU FIVE MINUTES TO MAKE YOUR PRESENTATION. SERGEART EDRISTEN HAS TWO CARDS, HE HAS A YELLOW CARD AND

SOUTH BAY COURT REPORTERS

LEFT; AND WEEK TOO REACH THE FIVE REMUTE HARK, HE IS GOING TO MOLD UP A RED CARD THAT WILL BE VISIBLE TO HE AND TO TOU. I ARE TOU TO LOOK FOR THOSE, AND WHEN TOU SEE THE RED

I REMIND TOO IF TOO DON'T HAVE AN OPPORTUNITY TO COMPLETE TOUR REMARKS, YOU MAY SUBMIT THOSE ITEMS THAT YOU WOULD LIKE TO SUMMET IN WRITING.

I ASK THAT YOU PLEASE HOHOR ANY REQUESTS PROM HE THAT TOO STOP SPEAKING, THAT'S OWLY FAIR TO THE OTHERS WHO DESIRE AN EQUAL OPPORTUNITY TO SPEAK. IN THE SAME 15 I'M ONLY GOING TO RECOGNIZE ONE PERSON AT A TIME.

AND FIRALLY, OUR HOSTS HAVE ASKED THAT TOO REFRAIR FROM SHOKING IF THIS STARING ROOM. AND I WOOLD THINK IF WE DO ASIDE ST THOSE MULES, WE CAN HAVE A PAIR AND ORDERLY MEETING IN WHICE EVERTTEING IS EXTENDED AN EGGAL OPPORTUNITY TO SPEAK AND TO MAKE HIS OR MER POINT OF VIEW

I'M GOING TO MONITOR THE TIMES, AND I'M GOING TO MONITOR THOSE RELES AND I'M GOING TO DO SVERYTRING WITHIR HT POWER TO MAKE SURE THAT EVERTORS MERE WHO MANTS

IT IS POSSIBLE THAT THERE WILL BE SOME QUESTIONS THAT THE AIR FORCE REPRESENTATIVES WILL BE UNABLE TO AMERICA. THAT COULD OCCUR FOR A COUPLE OF DIFFERENT REASONS. FIRST, EVEN THOUGH WE HAVE A GREAT DEAL OF EXPERTISE ABIDE FROM HYSELF ASSEMBLED ON THE STAGE MERE, OUR PAMELISTS ARE NOT GOING TO ATTEMPT TO AMENER QUESTIONS UNILERS THEY ARE COMPIDENT THAT THEY CAN GIVE TOO A COMPLETE AND ACCURATE ANSWER AND THEY WILL BE PORTHCOKING TO TELL YOU IF THEY DON'T HAVE SUFFICIENT INFORMATION OR SUFFICIENT TIME TO CONSIDER AND RESPOND PROPERLY TO THE QUESTION. AND THEY WILL INDICATE TO YOU THAT THEY'LL SITHER PROVIDE AN AMEN'ER IN WRITING OR PROVIDE AN AMEN'ER AS PROT OF THE PINAL

THERE HAY ALSO BE QUESTIONS THAT HAVE MATICMAL SECURITY IMPLICATIONS SUCH OURSTIONS HAVE TO BE REVIEW PURTIES REPORT ANSWERS ARE PROVIDED. IF THIS SHOULD OCCUR AND IF THE OUTSTION IS RELEVANT, IT WILL BE ADDRESSED IN THE PINAL ENVIRONMENTAL INFACT STATEMENT AND THE MAT REQUEST A COPY OF THAT DOCUMENT.

ONE THING THAT I REALLY CAN'T STRESS TOO NUCH, TOU HAY HAVE INFORDATION ABOUT THE ENVIRONMENT THAT IS DECIMEN TO US. WE ARE VERY INTERESTED IN MAVING AND ENGLISTING ALL POTENTIAL ENVIRONMENTAL IMPACT OF THE PROPOSED ACTION YOU DO HAVE THE EXPERIENCE THAT MANY OF US

SOUTH BAT COURT REPORTERS

DOR'T HAVE THAT COMES PROM LIVING IN THIS AREA OVER A RELATIVELY LEMOTHY TIME SO THE SECOND PART OF TODAY'S COMMUNICATION PROCESS IS ESPECIALLY INFORTANT TO US.

IF WE DO RUN OUT OF TIME BEFORE EVERYORE GETS 5 AN OPPORTUNITY TO SPEAK, I INVITE YOU TO SURMIT A STATEMENT IN WRITING TORIGHT OR AT ANY TIME PRICE TO THE 24TH OF SEPTEMBER SIMPLY BY HAIL IT IN TO THE ADDRESS THAT'S SHOWN ON THE COMMENT SEERT AND ON THE DRAFT PROPOSAL THAT WAS GIVEN AT THE OUTSIDE. THOSE CONSIDERED WILL BE CONSIDERED AND MADE IN SQUAL PART AND IN SQUAL SECOND OF THIS PARTICULAR PROCETOING, ALL WILL MAVE BOOML WEIGHT AND RECEIVE THE SAME CAMEFUL CONSIDERATION, REGARDLESS OF ROW

I THANK TOO POR COMING TOWIGHT. I THINK IT'S COMMENDABLE THAT SO MANY PROPER DO MAYE AN INTEREST IN THESE PROCEEDINGS. LET ME ASSURE YOU THAT YOUR INTEREST AND THE INTERESTS THAT TOU'VE BROW BY BEING BERE TONIGHT IS ONE OF THE PRIMARY MOTIVATIONS THAT WE HAVE FOR MAVING THIS HEARING.

HOW IT'S MY PLEASURE TO INTRODUCE COL. BOST, 1800 WILL BRIEF THE PROPOSALS TEAT'S REPORT OF TOHIGHT.

COL. HOGT: GOOD EVENING, I'M THE ACTING DIRECTOR OF THE SEVEROPHENT PROTECTION PROGRAM AT AMDREWS MADE READQUARTERS STETEM COMMAND. WE ARE THE MAJOR COMMAND FOR THE SPACE STOTEM DIVISION, AND WILL PRESENT THE PROPORENT'S

SOUTH BAT COURT REPORTERS

WEAT -- AND THEN WE WILL DISCUSS THE PROPOSED ACTION WHICH IS TO CLOSE LOS ANGELES AIR FORCE BASE AND RELOCATE SED, THAT WILL INCLUDE BNO, TO ONE OF THE POUR LOCATIONS.

THEN I WILL DISCUSS THE PROPOSED ALTERNATIVES WEICH RANGE FROM RELOCATION OF FORTIONS OF ESD TO NO ACTION AT ALL.

FINALLY, I WILL PRESENT T ME STATUTORY REQUIREMENT FOR A VARIETY OF STUDIES THAT WILL BE ACCOMPLISHED IN CONJUNCTION WITH THE ENVIRONMENTAL INDACT STATEMENT.

LOS ANGELES AIR PORCE BASE IS THE BOST BASE FOR THE AIR PORCE STRTEMS COMMAND'S SPACE DIVISION AN INTEGRAL PART OF ESD IS A PEDERALLY PURIDED RESEARCH AND DEVELOPMENT CENTER ARROSPACE COMPONATION SED PLANS PROGRAMS AND MARAGES AIR PORCE SYSTEMS COMMANDS PROGRAMS TO ACCUSE SPACE SYSTEMS SURGYSTEMS, SUPPORT SQUIPMENT, AND RELATED MARCHARE AND SOFTHARE. AMONG MANY OTHER CRITICAL RESPONSIBILITIES IN THE AIR PORCE SPACE PROGRAM SED ALSO COMDUCTS RESEARCH, EXPLORATORY DEVELOPMENT, AND ADVANCE SQUIPMENT PROGRAMS TO SUPPORT PUTURE SPACE RISSIONS. THE RECENT REALIGNMENT OF THE BALLISTIC STETEMS DIVISION PLACED THE HANAGEMENT RESPONSIBILITIES FOR INTERCONTINENTAL BALLISTIC MISSILS PROGRAMS IF SED THIS UNIT ALSO ENGINE

SOUTH BAT COURT REPORTERS

1 AS BALLISTIC MINSTLE ORGANISATION, EAS A DEDICATED STREET EMGINEERING/TECHNICAL ASSISTANCE OR SETA. WHO WOULD ALSO BE PART OF THE PROPOSED RELOCATION.

IN THE PROPOSED ACTION AND THE ALTERNATIVES, SSD AND 17'S SUPPORTING UNITS INCLUDING THE ABROSPACE CORPORATION AND REFERRED TO AS SED LOS AMURLES. BOOD AND ITS SUPPORTING UNITS, INCLUDING ITS SETA CONTRACTOR, ARE REFERRED TO AS ESD SAN MERHADING. FOR THE PURPOSE OF THE RELOCATION EVALUATION, THREE PONCTIONAL GROUPS WITHIN ESD HAVE BEEN ISCLATED. THE SPACE STREETS PROGRAM OFFICE, THE ICSM SPOS, AND OTHER ACTIVITIES. 11

THE SPACE SPOS -- RESPONSIBLE FOR DESIGN DEVELOPMENT, ACQUISITION, TRAY AND LABBOR -- INCLUDES 1240 HILITARY, 1190 CIVILIAN, 2590 ARROSPACE CORPORATION AND 190 SETA CONTRACTOR PERSONNEL.

THE OTHER SPO ACTIVITIES AT SEC. INCLUDING THE HIL-STAR JOINT PROGRAM OFFICE AND OTHER ADVANCED SPECIAL PROGRAMS, THE AEROSPACE CORPORATION LABORATORIES AND VARIOUS BASE OPERATING SUPPORT EMPLOY \$10 MILITARY, 250 DOD CIVILIAR, AND 1590 ARROSPACE CORPORATION PERSONNEL.

PINALLY, THE THE ICEN SPOS NAMES BALLISTIC MISSILE SYSTEMS AND SUBSTSTEMS ACQUISITION PROGRAMS. THIS SHO ALBO PERFORMS THE ADVANCED STRATEGIC RISSILE TRI-SERVICE RECOIRDENTS AND RAS 860 MILITARY, 570 CIVILIAN, AND 1300 SEYA CONTRACTOR PERSONNEL.

THE BASIC PROPOSAL OR ALTERNATIVE ACTIONS ARE BASED ON A CONSTRUCTION AND A RELOCATION SCHEDULE BEGINNING IN PINCAL TEAR 1993 AND ENDING IN PHYSICAL TEAR 1996. DUR RELOCATION RESOURCES, THE PERSONNEL AND CONSTRUCTION THE ENGLES COULD EXTEND OVER A LONGER PERIOD OF TIME. THE PROPOSED ACTION IS TO CLOSE LOS ANGELES AIR FORCE BASE, THE BMO FACILITIES IN SAM BERMADING, AND THE RELOCATION OF SSD LOS ANGELES AND SED SAN BERNADING TO ONE OF FOUR LOCATIONS; VANDENBERG, MARCH, PETERSEN/PALCON, OR KIRTLAND.

ASD SUPPORT UNITS CURRENTLY AT LOS ANGELES SAN REMNADING THAT DUPLICATE UNITS ALREADY AT DESTINATION

THE CLOSURE OF SED LOS AMERIES PACILITIES MOULD IMPOUVE APPROXIMATELY 1760 MILITARY AND 6385 CTVILIAN PERSONNEL. THE CLOSURE OF SED SAN BERNADING FACILITIES MODED INVOLVE APPROXIMATELY 660 MILITARY AND 1870 CIVILIAN

LET US LOOK AT THE GEOGRAPHIC SETTING OF THE BASES THOSE CONSIDERATION FOR RELOCATION. THEY INCLUDE ING AIR FORCE BASE MERE AT LONGICC, MARCE AIR PORCE BASE, AND THEN IN COLORADO, PETERSON AND PALCON AS ONE UNIT, AND IN MEN MEXICO, KINILAND.

FIVE ALTERNATIVES TO THE PROPOSED ACTION ARE CONSIDERED IN THE ENVIRONMENTAL IMPACT STATEMENT. THE

SOUTH BAY COURT REPORTERS

PRESENTATION; MONEYER, THEIR ORDER SHOULD NOT BE INTERPRETED TO INPLY ANY RANKING OR PRIORITISATION OF THE ALTERNATIVES.

GOING TO THE PIRST ALTERNATIVE, THIS IS SIMILAR TO THE BASIC PROPOSAL, BUT WHILE THE SED LOS AMORLES OPERATIONS WOULD BE RELOCATED TO OME OF THE CAMBIDATE LOCATIONS, THE SSD SAM BERNADING OPERATION WOLLD

THE SECOND ALTERNATIVE WOULD CLOSE AND MOST OF ANGA A, THE LANSIDALS ANGES, AND THE MILITARY MOUSING AREAS, BUT WOULD NOT RELOCATE THE OTHER SPOS.

14 THE THIRD ALTERNATIVE WORLD CLOSE ONLY THE 15 MINO PACILITIES IN SAN REPRESENTS AND RELOCATE SED SAN 16 REMUNDING TO ONE OF THE POUR LOCATIONS

THE POURTH ALTERNATIVE CONSIDERS OFLY THE 18 RELOCATION OF A THOUSAND PERSONNEL PROM SED WITH NO PACILITY CLOSURE.

THE FIFTH ALTERNATIVE WOULD CLOSE ALL OF LOS 21 ANGLES AIR FORCE BASE AND RELOCATE SSD LOS ANGELES TO MARCE 22 ATR PORCE BASE, BUT WOULD LEAVE THE APPROPRIE CORPORATION 23 INTACT AT EL SEGUNDO AND SED SAN BERNADINO INTACT AT SAN 24

THE LAST ALTERNATIVE IS THE NO ACTION. SED

SOUTH DAT COURT REPORTERS

LOS ANGELES AND ESD SAN RERNADING WOULD REMAIN IN THEIR 2 EXISTING PACILITIES.

AND 5 ARE CONTINCENT UPON SPECIAL LEGISLATION PERMITTING THE AIR PORCE TO DISPOSE OF GOVERNOGENT PROPERTY AND USE THE SALE PROCEEDS TO OFF-SET THE MILITARY CONSTRUCTION COSTS

IN ALL ALTERNATIVES, A CARETASER PORCE WOULD BE ENGLOYED TO SECURE AND MAINTAIN THE PROPERTY DURING THIS PROCESS.

THE UNITED STATES COOK, TITLE 10, SECTION 2687, THE BASE REALIG MENT AND CLOSURE ACT, REQUIRES THAT THE DOD STUDY THE LOCAL ECONOMIC, OPERATIONAL, STRATEGIC, FISCAL, NUNGETARY, AND ENVIRONMENTAL DEPARTS OF A PROPOSED CLOSURE. THESE STUDIES ARE UNDERWAY AND WILL BE SUBMITTED

FIRST, THE LOCAL ECONOMIC CONSEQUENCES STUDY WILL SEARCHE THE DIRECT PAYROLL LOSS ON THE EL SEGUNDO AND LOS ANGELES COMMUNITIES AND THE SECONDARY AFFECTS ON THE EL, DEPENDENTS, AND CIVILIANS. IN ADDITION, THE STUDY WILL FOCUS ON THE APPECTS ON THE LOCAL REAL ESTATE 23 MAJULET AND INDUSTRIES THAT HAT MOVE SECADSE OF THE RELOCATION OF \$80. ALSO, PROJECTED GROWTH IN THE COLD 25 AND REUSE OF THE AFFECTED PROPERTY WILL BE CONSIDERED.

SOUTH BAT COURT REPORTERS

MET, THE STRATEGIC STUDY WILL ADDRESS THE 2 EFFECT OF REDUCING CONVENTIONAL, STRATEGIC, AND SPACE STETEMS AS THE THREAT TO MATICULAL SECURITY IS REDUCED.

AN OPERATIONAL STUDY WILL ADDRESS THE EFFECT OMERNITRATION, IT THE DECISION IS MADE TO CLOSE LOS AMERIES AIR FORCE MASS AND THE MED PACILITIES AT MONTON. IT WILL REMITTE ALL TENANT AND JOINT STRUKCE MISSION CHANGES RESULTING PROM A CLOSURE AND RELOCATION DECISION.

THE PACIFITIES IN SAN BERNADING AND RELOCATE 11 DESCRIPTION STORY WILL DETERMINE CORREST TRANS PROGRAM DOLLAR 12 COSTS AND SAVINGS ASSOCIATED WITH THE RELOCATION OF SED AND 13 14

16 EVALUATION TO AMALYSIS PAST, PRESENT, AND FUTURE COSTS AND SAVINGS ASSOCIATED WIT THE RELOCATION OF SEC. COST OF 17 CLOSING AND SAVINGS WILL BE DETAILED TEROOGE A LIFE-CYCLE 19

THE PETSICAL STUDY WILL USE THE MUDGE!

THANK TOO POR TOOK ATTENTION. I WOULD LIKE

TORIGHT, I AM GOING TO PRESENT THE SCREDULE OF THE ENVIRONMENTAL AMALTELS PROCESS, AND SHOM BOW THIS PUBLIC COMMENT PERIOD FITS INTO THE SCHEDULE. I'LL ALSO DISCOSS THE SCOPE OF THE STUDY AND THE RELATIONSHIP SETWERN THE ENVIRONMENTAL INPACT STATEMENT AND THE SUPPLEMENTAL ECONOMIC IMPACTS OF RELOCATING SPACE STSTEMS DIVISION TO YAMODHNENG AIR PORCE MASE. LAST, I'M GOING TO PRESENT THE RESULTS OF OUR AMALTELS BY RESOURCE CATEGORY AND THEM CONCLIDE WITH A SUMMENT OF THE POTENTIAL ENVIRONMENTAL

THIS EFFORT WAS INITIATED IN PROBLEM WITH THE PUBLICATION IN THE PEDERAL REGISTER OF TWO MOTICES OF INTERT TO PREPARE ENVIRONMENTAL LIDACT STATEMENTS. THE INTICE INDICATED THAT LOS ANGELES AIR FORCE BASE WOULD BE STUDIES FOR CLOSURE AND THAT SPACE STETEMS DIVISION AND

SOUTH BAY COURT REPORTERS

SUPPORTING UNITS WOULD BE STODIED FOR RELOCATION. OUR DRAFT SHVIRONNENTAL LISPACY STATEMENT AMALTEES BOTH THE CLOSUNG AND RELOCATION ACTIONS.

POLLOWING THE NOTICE OF INTENT, SCOPING MEETINGS WERE RELD TO RECEIVE PUBLIC INSUIT ON THE SCOPE OF ISSUES TO BE ADDRESSED AND THE ENVIRONMENTAL LINGUIS PROPOSED ACTION. THE SCOPING MEETING FOR VANDEMBERG WAS RECURRED ON MARCE 17TH. SUBSEQUENT TO THE SCOPING PROCESS, WE COLLECTED THE MECESSART DATA AND COMBUCTED THE AMALYSIS WRICK SUPPOSES THE DRAFT ENVIRONMENTAL INFACT STRATEGIES. THE DRAFT MAY FILED WITH THE ENVIRONMENTAL

IN ADDITION TO TORIGHT'S PUBLIC MEASING, PUBLIC SEASING ON THE DRAFT ENVIRONMENTAL IMPACT STATEMENT, WILL ALSO BE RELD IN THE OTHER COMMUNITIES APPROVED BY THE PROPOSED CLOSURE AND RELOCATION. MAINTER COMMUNITY ON THE DRAFT ENVIRONMENTAL IMPACT STATEMENT WILL CONTINUE TO BE ACCEPTED UNTIL SEPTEMBER 2547M. APPER THAT, HE WILL EVALUATE THE COMMUNITY SOME WRITTEN AND ORAL, AND PERFORM ADDITIONAL ANALYSIS OR CHANGE THE ENVIRONMENTAL IMPACT STATEMENT WHERE MECHBERAY.

AGAIN, AS IN THE SCOPING PROCESS, THERE WILL BE SQUAL CONSIDERATION TO ALL CONSURES MEETINGS THEY AM PRESENTED MERE TONIGHT OR RECEIVED BY MAIL PRIOR TO

•

SCUTE BAT COURT REPORTERS

SEPTEMBER 24TH. ONCE THIS PROCESS IS CONDISTE, WE WILL PRODUCE A FIRAL ENVIRONMENTAL INPACT STATEMENT WHICH IS SCHEDULED FOR COMPLETION IN EARLY DECEMBER OF THIS YEAR. THE FIRAL WILL BE MAILED TO ALL OF THOSE OF THE ORIGINAL DEALT DISTRIBUTION LIST. IT WILL INCLUDE COMMUNES RECEIVED DORING THE PUBLIC REVIEW PERIOD AND OUR RESPONSES TO THOSE COMMUNES. IF APPROPRIATE, WE WILL GROUP THE COMMUNES INTO CATEGORIES AND RESPOND ACCORDINGLY. THE FIRAL ENVIRONMENTAL IMPACT STATEMENT WILL BE USED AS IMPUT FOR THE RECORD OF DECISION WHICE WILL DOUBLET THE DECISION BY THE ALE FORCE.

OTHER STUDIES AS DESCRIBED EARLIER ST
COL. BOST IN COMSIDERATION OF OTHER ISSUES BESIDES THOSE
ADMRESSED IN THE ENVIRONMENTAL HONOLT STATEMENT WILL ENTER
LIFTO THE FIRAL DECISION ON WHETEEN OR NOT TO PROCEED WITH
THIS PROPOSAL. WE EXPECT TO ACCOMPLISE THE RECORD OF
DECISION IN JANUARY OF 1991.

THE DRAFT ENVIRONMENTAL INDACT STATEMENT WAS PREPARED IN ACCORDANCE WITH THE MATIGNAL ENVIRONMENT POLICY ACT AND THE COUNCIL ON ENVIRONMENTAL QUALITY REQULATIONS. EFFORTS WERE MADE TO REDUCE MEDIASES BULK, WRITE IN FLAIN LANGUAGE, AND FOCUS ON THOSE ISSUES WHICE ARE CLEAVED RELATED TO THE SEVENDOMENT, AND TO INTEGRATE WITH OTHER DOCUMENTS AS RAPT OF THE DECISION MAKING PROCESS. THE DOCUMENT POCUSES ON IMPACTS TO THE MATURAL

SOUTH BAT COURT REPORTERS

AND PRISICAL ENVIRONMENT WHICH NAT OCCUR AS A DIRECT RESULT OF BASE CLOSURE OR RELOCATION, INFACTS WHICH OCCUR INDIRECTLY ISROOMS CHANGES IN THE COMMUNITY OR IN THE RANGELING OF MALAROOMS NATHRIALS OR MALAROOMS WASTE.

5 THE DOCUMENT ALSO SYALDATES GROLOGY AND
6 SOILS, MATER, BOTH SURFACE AND GROUNDWRITER, AIR QUALITY,
7 HOISE, BIOLOGICAL AND CULTURAL RESOURCES. INDIRECT CRANGES
8 TO LOCAL COMMUNITIES THAT PROVIDE MEASURES AGAINST TRICES
9 ENVIRONMENTAL LEPACTS COULD ME ANALYTED INCLORE CRANGES TO
10 POPULATION, LAND USE AND ASSENSITIES, TRANSPORMATION, AND
11 COMMUNITY UTILITIES SERVICES.

IN ADDITION, ISSUES RELATED TO THE CURRENT
AND PUTURE MARKEMENT OF MARAMODIS EXTRIBLE AND ENLANDOUS
MASTES ARE DISCUSSED IN THE DOCUMENT. AS A RESULT OF OUR
ASSAULTS, IT WAS DETERMINED THAT SIGNIFICANT ADVERSE
MAYINGMENTAL DISACTS WOULD OCCUR SECANSE OF THE RELOCATION
ACTION POTENTIAL MITHANTON MERASURES WERE IDENTIFIED AND
ARE INCLUDED IN THE DOCUMENT.

ARE INCLIDED IN THE DOCUMENT.

EARLIER COL. SOGY DESCRISED THE OTHER RELATED STUDIES BEING CONDUCTED AS PART OF THE BASE CLOSURE PROCESS. IN ADDITION TO THOSE STUDIES, THE AIR PORCE MAS ECONOMIC STUDIES. THESE STUDIES ARE INTERDED TO AMALYZE THE POTENTIAL ECONOMY IMPACTS TO THE COMMUNITY BEING CONSIDERED AS SITES FOR RELOCATION OF SPACE SYSTEMS

AREAS COMSIDERED IN THESE STUDIES WILL INCLUDE POPULATION, EMPLOYMENT AND INCOME, COMMUNITY PACILITIES AND SERVICES, AND PISCAL AND PINANCIAL INDACTS TO LOCAL GOVERNMENTAL ENTITIES IN THE AREA. WE WILL CONSULT WITH RET STATE AND LOCAL OFFICIALS DURING THE PREPARATION OF THESE STUDIES, AND COPIES WILL BE MADE AVAILABLE TO HENGERS OF CONGRESS, STATE AND LOCAL OFFICIALS, AND STATE SINGLE POINTS OF CONTACTS FOR THEIR

I WOULD NOW LIKE TO DISCUSS THE RESULTS REPORTED IN THE DRAFT ENVIRONMENTAL INDIANT STATEMENT. OUR DISCOSSION TOWIGHT WILL CENTER ON THE IMPACES EXPECTED IN BERG AIR FORCE BASE ARRAS IF IT WERE CHOSEN AS THE BOST BASE FOR THE RELOCATION OF SPACE STREETS DIVISION. THE DOCUMENT CONCLUDED THERE WOULD BE CHANGES TO THE COMMUNITIES THAT COULD AFFECT THE NATURAL AND PETSICAL

SOUTH BAY COURT REPORTERS

OF AND THAT ADDITIONAL AMOUNTS OF MALA FOR SIGNIFICANT ADVERSE IMPACT TO THE MATURAL AND PETSICAL DAVIDORGENY WERE IDENTIFIED.

A FULL RELOCATION OF SPACE STETEMS DIVISION AS DESCRIBED BARLIES IN THE PROPOSED ACTION WOULD CAUSE THE DIBERG AIR FORCE BASE. IT IS ESTIMATED THAT THE 10 RELOCATION OF SPACE STETEMS DIVISION BY THE BHD OF 1996 11 NEAD RESULT IN AN AMERIAL INCREASE OF APPROXIMENTALY \$520 MILLION IN TOTAL PERSONAL INCOME. THE PROPOSED ACTION IS REPRETED TO GENERATE APPROXIMATELY 19,000 DIRECT AND 13 14 INDIRECT JONE BY 1997. THE PERMANENT POPULATION INCREMEN IS EXPECTED TO BE ABOUT 27,780 PROPER, WITH 4,900 HILITARY 15 16 EL AND DEPENDENTS LIVING ON BASE AND THE REMAINING 17 22,700 LIVING OFF BASE. BASED OF EXISTING DEVELOPMENT IN 18 AND CORREST SONING INITIATIVES THE SANTA MARIA AREA IS 19 EXPECTED TO AMBORS APPROXIMATELY SO PERCENT OF THE 20 PROJECTED OFF BASE POPULATION GROWTH.

21 22 VICINITY OF THE SAME GATES AND IN PARTICULAR THE SAMEA 23 MARIA GATE MOULD INCHEASE ESPECIALLY DURING PEAK TRAFFIC 24 MODES. THESE INCREMENT, APPROXIMATELY 9,000 VERYCLES PER DAY, WOULD CONTRIBUTE TO A DECREASED LEVEL OF SERVICE OF

SOUTH BAT COURT REPORTERS

SIE BOAD SEGRENTS DURING THE PEAK TRAPPIC HOURS. COMCRETION WOULD INCREASE AT THE INTERSECTION OUTSIDE THE MANTA MARIA GATE, VANDENBERG BOULEVARD, AND CALIFORNIA NOUTE 1/135. TRAFFIC WOULD ALSO INCREASE ON HOLOR ROADS IN

WE AMTICIPATE IN ADDITION OF UP TO 80,000 ARRIVING AND DEPARTING PASSENGERS ANDVIALLY AT THE SANTA MARIA AIRPORT. THIS ADDITION WOULD INCREASE THE CURRENT VERY LANGE INCREASE OVER A SHORT PERIOD OF TIME, BUT THESE PLEATER AND CONSISTENT WITH THE PUTURE GROWTH PROJECTED IN THE AIRPORT'S HASTER PLAN, AND WOULD, THERRPORE, BE

FOR UTILITIES, THE RELOCATION OF SPACE STETEMS DIVISION TO VANDENEERS WOULD INCREASE LOCAL DEMAND FOR FOTABLE MATER, MASTER MATER TREATMENT, MATURAL GAS. ELECTRICITY, AND SOLID WASTE DISPOSAL.

POTABLE WATER DEMAND WOULD INCREASE UP TO 26 PERCENT IN SANTA MARIA AND 8 PERCENT IN LONDOC DURING THE OPERATIONS PHASE. THE SANTA MARIA WATER SYSTEM IS EXPECTED TO REQUIRE ADDITIONAL CAPACITY TO HEET THE DEMANDS OF THE PROPOSED ACTION. OTHER AREA MATER SYSTEMS ARE EXPECTED TO MANDLE THE CHOPTH WITHIN EXISTING CAPACITIES.

MASTE WATER TREATMENT MEEDS WOULD INCREASE UP TO 25 PERCENT IN SANTA MARIA AND 30 PERCENT IN LONDOC

SOUTH BAY COURT REPORTERS

1 DURING THE OPERATIONS PRASE. THE MASTE WATER TREATMENT STETEM CAPACITIES IN SOTE THESE AREAS AND EXPECTED TO ACTION.

CAPACITY BEISTS TO SUPPLY THE ENGINET REQUIREMENTS DATE TO THE PROPOSED ACTION.

10

12

13

14

15

17

21

22

23

24

· 8 INCREASE BY APPROXIMATELY 5 PERCENT IN BOTH THE SANTA MARIA AND LONDOC ARRAS. THESE INCREASES CAN BE EARDLED BY LOCAL WASTE PACILITIES, NOT MAY DEPACT THE CITIES! ABILITY TO COMPLY WITH THE CALIFORNIA INTEGRATED WASTE MANAGEMENT ACT WEICH REQUIRED COMMUNITIES TO REDUCE THEIR OVERALL SOLID WASTE GENERATION.

IN THE AREA OF EASARDOOS MATERIALS AND THE GENERATION OF MASAROOUS WASTE, THESE INCREASES AND DUE IN 16 PART TO INCREMEND DAY-TO-DAY BASE OPERATIONS AND MAINTENANCE ACTIVITIES AND IN PART DUE TO THE LABORATORY 18 OPERATIONS OF THE AEROSPACE CORPORATION. EXISTENCE 19 MARAGODIS MATERIAL AND MASTE MANAGEMENT PLANS FOR MERG WOULD BE MODIFIED TO ADDRESS THESE INCREASES.

INDACTS TO THE MATURAL ENVIRO FOLLOWS: IN GROLOGY AND SOILS WE EXPECT NO IMPACT TO GROLOGICAL RESOURCES UNDERLYING THE BASE, AND SOIL LOSSES PROM ENGELOW WILL BE HINISTED THROUGH THE USE OF STANDARD CONSTRUCTION PRACTICES AND MITIGATION PLANS.

SOUTH BAY COURT REPORTERS

FOR WATER RESOURCES, POTENTIALLY SIGNIFICANT IMPACTS ON GROUND WATER RESOURCES ARE ANTICIPATED DUE TO THE USE OF OVERDRAPTED GROUND WATER ADDITIONS IN THE AREA POR POTABLE WATER SUPPLIES. CONTINUED AND INCREASED OVERDRAPTS OF THESE AQUITERS WILL INCREASE THE DETERIORATION OF THE AREAS' GROUND WATER RESOURCES. USE OF MATTER FROM PHASE TWO OF THE COASTAL ADDEDUCT. IF CONSTRUCTED, WILL MELP ALLEVIATE THIS PROBLEM. MOMEVER, EXTENSION OF THE AQUEDUCY INTO THIS AREA IS CONTINGENT UPON AND UNDER THE CONTROL OF LOCAL AND STATE AGRECIES, NOT THE AIR PORCE.

20

24

AIR QUALITY IMPACTS DUE TO THE PROPOSED ACTION ARE EXPECTED TO BE SIGNIFICANT. BASED ON OUR HODELING, THE INCREASED VEHICLE TRAFFIC DURING PEAK HOURS MOUTED HOT CAUSE VIOLATIONS OF THE CARBON HONOEIDE STANDARDS, MOSTVER, RECAUSE OF THE MOSTS COUNTY AREA IS HOM-ATTAINMENT FOR THE STATE CHOME STANDARD, THE OVERALL LONG TENN IMPACT OF THE PROJECT EXCESSIONS WOULD BE SIGNIFICANT. PROJECT RELATED ENISSIONS OF HYDROCARBONS AND OXIDES OF HITHOGEN, WHICH ARE PRECURSORS IN ORDER PORMATION, COULD DELAY THE ACRIEVEMENT OF THE ATTAINMENT

SHORE THREE INCREASES IN HOISE LEVELS ARE REPRESEND IN THE PROJECT AREA DUE TO PACILITY CONSTRUCTION, NOT THESE INCREASES ARE NOT EXPECTED TO BE SIGNIFICANT DUR

SOUTH BAY COURT REPORTERS

TO THE SEPARATION OF HOST OF THE PROJECT SITES FROM 2 SENSITIVE NOISE RECEPTORS. WE ALSO EXPECT SLIGHT LONG TERM INCREASES IN HOISE LEVELS DUE TO INCREASES IN VEHICLE TRAFFIC.

POR BIOLOGICAL RESOURCES, POTENTIALLY ADVERSE IMPACTS AND REPORTED AT VANDESBERG ALR PORCE BASE OF VEGETATION, WET LANDS, AND THREATENED AND REPARCEMEN -8 SPECIES. MOST OF THESE THEACTS ARE SITE SPECIFIC IN THAT THEY ARE CONTENGENT UPON USE OF CERTAIN PROJECT SITES AT 10 THE BASE. FOR INSTANCE, THE IMPACTS TO VEGETATION WOULD 11 OCCUR IF THE ROOSING IS CONSTRUCTED IN A LANCE BURTON WHEA 12 CRAPAMAL PLANT COMMUNITY AT BODEING ANEAS 1 AND 2D. IN 13 ADDITION, WET LANDS WOULD BE IMPACTED BY MODELING CONSTRUCTION IN AREA 1. DOE TO THE AVAILABILITY OF ORDER 15 SITES WEEKE INDUCTS WOULD BE LOWER, THE AIR PORCE IS 16 CONSIDERING THE WITHDRAWAL OF HOUSING AREA 1 AS A CITING 17 OPTION.

HOST OF PROPOSED SITES 1, 2, 3, AND HOUSENG 18 19 AREAS 2A, B, C, E, AND F ARE IN AREAS OF VANDERINGS AIR 20 PORCE MAST TEAT MAYE REEN PREVIOUGLY DISTURBED AND THEREFORE NO ADVERSE IMPACTS ARE REPROTED. A HUMBER OF 21 22 PROGRALLY LISTED TEMPATEMEN AND ENGANGERED SPECIES IMPART 23 THE VAUDERHEIS AIR FORCE AREA. IN ACCOMPANCE WITH THE EFFOAMGERED SPECIES ACT, THE AIR PORCE IS CONDUCTING THE 24 25 BIOLOGICAL ASSESSMENTS OF THESE SPECIES FOR SUBSTITUL TO

SCHOOL BAY COURT REPORTEDA

THE U. S. PISE AND WILD LIFE SERVICE. THESE ASSESSMENTS AND FURTHER COMMULTATION WITH THE U.R. FIRE AND WILD LIFE SERVICE WILL BE COMPLETED PRIOR TO THE RECORD OF DECISION FOR THIS ACTION. CUMMENTLY, ONLY ONE THREATENED AND SHED SPECIES, THE UNARMORED THREE-SPINE STICKLEBACK, COULD POTENTIALLY BE IMPACTED BY THE PROJECT. HOWEVER, THE ASSESSMENT ON THIS PISE, WHICH IMPARTS SAN ANTONIO CHEEK AP VANDEMBERG IS NOT YET COMPLETE. THE IMPACT TO THE STICKLESACK, WRICE IS CURRENTLY MEING ASSESSED, CONCERNS THE DRAWDOWN OF THE LOCAL WATER TABLES AND POSSIBLE REFECTS OR THE STICKLEBACK'S SAN ANTONIO CREEK EABITAT DUE TO THIS

FOR CULTURAL RESOURCES, THERE HAT BE IMPACTS AS A RESULT OF THE PROPOSED ACTION. HOWEVER, AS WITH BIOLOGICAL RESOURCES, THESE IMPACTS ARE GENERALLY SITE SPECIFIC IN THAT THEY ARE DEPENDENT UPON THE SITE SELECTED. PROJECT SITES 1 AND 2 HAVE NO KNOWN PREMISTORIC SITES ON THEM, BUT THAT DO MAVE WORLD WAR II ERA TEMPORARY WOODEN STRUCTURES THAT HAT HE CONSIDERED ELIGIBLE FOR THE NATIONAL REGISTER OF MISTORIC PLACES.

MODEING AREA 1 CONTAINS SIE PREMISTORIC 22 SITES, THREE OF WHICH HAT HE CONSIDERED ELIGIBLE FOR THE 23 REGISTER.

THE ALTERNATIVE ACTIONS AS DESCRIBED MARLIER BY COL. BOST GENERALLY INVOLVE PARTIAL RELOCATIONS OF SPACE

SOUTH BAT COURT REPORTERS

1 SYSTEMS DIVISION WHICH IN ALL CASES, INVOLVE PENER PROPUR AND LESS CONSTRUCTION IN THE PROPOSED ACTION.

. 2

15

IN CHICAL, THESE ALTERNATIVES RESULT IN CHANGES TO THE ENVIRONMENT TENT ARE EQUAL TO OR LESS ADVENUE IN THE CHANGES ASSOCIATED WITH THE FULL RELOCATION ACTION.

IN CLOSING, LET ME REMIND TOO THAT THIS STOOT IS IN A DEAFT STATE. OUR SCAL IS TO PROVIDE AIR PORCE DECISION-MAKERS WITE ACCURATE INFORMATION ON THE ENVIRONMENTAL CONSEQUENCES OF THIS PROPOSAL. TO DO THIS 10 11 TORIGHT WE ARE SCLICITING YOUR CONSTRUTS OF THE DRAFT 12 EMPIROMENTAL STATEMENT. THIS INFORMATION, COUPLED WITH OTHER STUDIES DESCRIBED BY COL. BOCY, WILL SUPPORT INFOR 14 AIR PORCE DECISION MAKING.

COL. THOMPSON: WE WILL NOW PROCEED INTO THE PORTION OF THIS MEANING PROCESS THAT IS MEANING PROM TOU.

16 17 THE FIRST SHOWENT OF THAT PORTION OF THE REARING PROCESS WILL SK THE RECOGNITION OF 100k ELECTED 18 19 OFFICIALS FOR PURPOSES OF MARING STATEMENTS AND PRESENTING 20 MATTERS FOR OUR CONSIDERATION WITH REGARD TO THE DRUFT INVINCEMENTAL DEPART STATISMENT

PIRST, I'LL RECOGNISE JAMICE COLPIELD, 22 2) SPEAKING OF MEMBER OF CONCRESSION LAGOROUSING. 24 MS. COFIELD: GOOD EVERING. HT HAVE IS JAMICE 25 COPIELD. (4801 AJAJ WAY, SANTA WAXA, CALIFORNIA 93455.)

SOUTH MAY COURT REPORTERS

31

RESPECTFULLY SURKITS HIS TESTINONY IN REGARDS TO THE RELOCATION. HE PROPOSES TO TOU, THE PAREL.

THANK YOU FOR THE OPPORTUNITY TO PROVIDE IMPORNATION RELEVANT TO THE PROPOSED CLOSURE OF LOS ANGELES AIR FORCE BASE AND RELOCATION OF THE AIR FORCE SYSTEMS COMMUND SPACE STRIPS DIVISION, SSD AND SSD'S BALLISTIC MISSILE ORGANISATION IND IN SAN BERNADING TO VANDENBERG AIR PORCE BASE.

I APOLOGIZE FOR NOT BEING PRESENT IN PERSON TODAY, BOY I HAD TO ATTEND A MEETING AT THE WHITE HOUSE ON THE PERSIAN GULF CRISIS; HOMEVER, I APPRECIATE THE OPPORTURITY TO ADDRESS THIS ISSUE, AND JOIN IN WELCOKING YOU TO THE LONDOC-SANTA MARIA COMMUNITY.

ENITY MAS STOOD READY TO ACCOMMODATE NATIONAL SECURITY MEEDS FOR THE METTER PART OF THE PAST FIVE DECADES, EVER SINCE 1941, MEEN CAMP DAVID MOSTED A 54TE INVAMENT TRAINING MERE. SINCE 1937, WHEN THE AIR PORCE TOOK OVER THE BASE, OVER 1,600 SPACE LAUNCHES HAVE OCCURRED AT THE BASE, WITH OVER \$40 SATELLITES PLACED INTO ORBIT. THESE SATELLITES HAVE BEEK, AND ARE, THE BACKBONE OF OUR MATIONAL TECHNICAL INTELLIGRNCE STRUCK, AND WILL DECOME EVER HORE CHOCIAL AS WE RITTER THE REA OF SUPER POWERS REQUIRING EXTENSIVE MONITORING AND VERIFICATION TREATIES.

SOUTH BAY COURT REPORTERS

COUNTY HAVE SHARED A SPECIAL RELATIONSHIP. THE CONSESSION MAS WILLINGLY OPENED ITS DOORS TO ACCOMMODATE THE SOCIAL. CULTURAL, RELIGIOUS, EDUCATIONAL, PHYSICAL, AND OTHER MEEDS OF THE AIR FORCE PARTLES WHO LIVED IN THE COMMUNITY WHILE MENG THEIR MISSION OF PROTECTING OUR NATION. OUR LIVES HAVE BEEN INTERTWINED, OUR PERSONAL LIVES CHANGED OR . . BOTE SIDES AS WE WORSKIPPED AND LIVED SIDE-BY-SIDE. WE MAYE NOT CHLT TAKEN THIS RESPONSIBILITY, WE MAYE GLADLY WELCOMED IT. THE AIR PORCE IS A PART OF OUR DAILY LIVES. 11 WHEN YOU ARKED US TO OPEN OUR DOORS TO THE SPACE SHOTTLE, WE DID. WHEN THE HOPE FOR A MEST COAST PACILITY DIED WITE 12 13 THE CHALLENGE TRACEDY, WE MOURHED ITS LOSS WITH TOO.

NOW WE HAVE AMOTHER OPPORTUNITY TO DO OUR SHARE FOR HATIOHAL DEFENSE. IT IS AN OPPORTURITY WE HELCONE. I PERSONALLY SUPPORT THE PROPOSED MOVE OF SED AND INC TO VANDEDBERG ALE PORCE BASE. SUCE A MOVE, 18 PROVIDED ITS DOME WITH DOR REGARD TO SHVIROHESHTAL AND OTHER CONCERNE, INCLUDING WATER, ROUSING, AND OTHER SERVICES, WILL MELP OFF-587 THE LOSS OF JOSS WHICH RESULTED FROM CANCELLARION OF THE WEST COAST SPACE SECTIFIE LABRES PROGRAM. IT WORLD ALSO MELD OFF-EST ANT UNFORSEEN CUTS 23 IN DEFENSE SPENDING, NEICE MAY OCCUR IN THE PUTURE. IN FACT, IN VIEW OF THOSE POTENTIAL CUTMACES, IT WOULD HARD SERSE TO CONSOLIDATE THE AIR PORCE MISSILE MISSION AT

AS A PERSONAL MOTE, I CAME MERE IN 1961 AND I WAS ONE OF THE PROPLE THAT HAS ONE OF THOSE THAT ARE ATTRACTED BY THE MULTIPLIER EFFECTS OF VANDEMBERG. WE THE BASE EXPANDED IN THE LATE 50'S -- I CAME IN '61 AS A TRACERS SERVING THE MANT CRILDRES WHO SAVE COME TO THIS AMEA BECAUSE OF THE INCREASE IN POPULATION. AND I'VE MOTICED THE TREMEMBOOS GROWTH AND A RELATIONSHIP RETWEEN THE BASE AND THE PROPLE THAT HAS MATURED INTO A TREMEMOORE STREOLIC RELATIONSHIP THAT OTHER SPEAKERS HAVE ALLOWED TO PARLIES AND ONE THAT WE CAN ALL BE PROUD OF.

AND IN RESPING WITH TEAT, THE CITY OF SANTA MARIA MAS UMASTHOUGHT -- CITY COURSEL -- MAS UMASTHOUGHT PASSED A RESOLUTION WEIGH IS REALLY SORT OF DEVOID OF A LOT OF STREEGGLE THAT TOO MIGHT GET FROM PROPLE WHO DO NOT SHOW OTHER PROPER VERY WILL AND ARE TRYING THEIR BEST TO ATTRACT

> HE WANT TO GIVE YOU THE PACTS AS BEST WE CAN 45

1 SO THAT YOU CAN MAKE A SECISION WHICH, I'M SOME, WILL SELF-US NOTE. AND I'LL MEAD THE MESCLUTION MUMBER 90-125 PASSED CHARLESCELT; INCLUDING THE MATOR -- ME WAS THERE REPORT THE

WEREAS THE UNITED STATES AIR PORCE BASE STREEM DIVISION NAS AMMONICED THE PROPOSED RELOCATION FROM

WHEREAS THE CITY SANTA HARIA HAS PLANNED FOR PUTURE EXPANSION OF 17'S IMPRASTRUCTURE, AND:

10 WEEKENS THE CITY OF SANTA MARIA BAS THE ABILITY TO ADD 6,464 HORE UNITS WITKIN IT'S PRESENT

CORPORATION BOUNDARIES; 12 WHEREAS THE CITY HAS 2,816 IN VARIOUS STACES 13 14 OF CONSTRUCTION OR DISTRICT REVIEW:

15 WHEREAS THE CITY OF SAFTA MARIA AND THE ORIGI AREA SHOULD APPROXIMATELY HAVE 760 DWELLING UNITS FOR GALE, BASED ON THE LATEST HULFIPLE LISTING, AND: 17

10 WHENEXS THE CITY OF SANTA MARIA WILL RECOURS 19 TO A NEW ANNIESATION OF 1,700 ACRES AS A PRIMARY POCCES OF 30

21 WHITEAS THIS EXPENDED AND WORLD ALLOW THE ABILITY TO ADD UP TO 7,000 ADDITIONAL DWELLING DETTE, AND: 22 23 VARIOUS THE CITY OF SANTA MAKES HAS OVER 24 1,800 SOTEL ROOMS TEAT WOULD ACCOMMODATE AS INTEREST OF

SOUTH BAY COURT REPORTERS

OTHERS APPLANING BEFORE TOO MAVE CONGENITED ON THE LOCAL CONCENIS OF ENVIRONMENT AND IMPASTRUCTURE AND MOUSING; HOMEVER, HT CONGENTS TO YOU WILL ELEMILIEST THE RESOURCES OF THE BANTA MAKIA FURLIC AIRPORT DISTRICT AND HOW THEIR ELEMETICIAL AS A SUPPORT TO YOUR PERSONNEL AND THEIR TRAVEL PRESS.

THE RAFFA MARIA AIRFORT IS A WELL-DESIGNED, 2,500 ACRI, ARROMATICAL FACILITY SERVING THE THAVELING FURLIC OF THE CENTRAL COAST REGION. THE RAIN LEVEL OF THIS SEA LEVEL FACILITY IS 6,300 FEBT. IT IS STRUCTURED WITH THE CAPACITY OF 355,000 OPERATIONS AMBULLET, AND IS

SOUTH BAT COURT REPORTERS

PRESENTED OPERATING AT APPROXIMATELY OUR-THIRD OF THA

THE HAJOR CONNENCIAL TRAFFIC GENERATED AT EASYS MARIA IS SOUND FOR LOS ANGELES, SAN FRANCISCO, AND LAS VEGAS, AS WITH CONNECTIONS TO RATIONAL AND INTERMATIONS ARE CONDUCTED FROM SANTA MARIA DALLY, SERVING A WIDE RANGE OF INTERCONNECTING FLIGHTS SCHEDULED WITH UNITED, AND AMERICAN AIR LINES.

OUR TERRIBAL AND CROUND PACILITIES RAVE
LANCE GROSSO CAPACITIES. EARLY PLANNING EAS BEEN COMPLETED
TO EMELICE BAGGIST EARLING AND THE TERRIBAL AREA EXPANSION
TO COMPLIENT THE FUEL PLIGHT OPERATIONS CAPACITY.

WE LIFTLE FOUR FUNDERS EXAMINATION TO COMPINE THE ADMIGNATOR OF THIS ARRONAUTICAL FACILITY TO MEET THE COMMUNICAL AVIATION SCHEDULING MEED OF THOSE INVOLVED IN FOUR MOD AND SED RELOCATION. WE WELCOME THE OPPORTUNITY TO PROVIDE AIR SERVICE TO ALL DESIRE.

BETOND THE ARROHAUTICAL BEEDG, EARTH MAALA ALRORT IS CURRENTLY IN THE BUYINOMERITAL INFACT REVIEW PROCESS FOR THE SANTA HALLA RESEARCH PAGE PROJECT. ALRONG OTHER THIMES, THIS PROJECT WILL INCLIDE A STATE-OW-THE-ART LIGHT IMPUBITAL RESEARCH PARK OF APPROLEMENTALY TOP ACRES. WE HAVE DESIGNED THIS PARK TO SERVE THE AMPLICIPATED TREMSTICAL AND PROPESSIONAL ENGLOYMENT MEEDS OF THE

SOVER BAT COURT REPORTERS

1 PUTURE. I MOULD ARTICIPATE THAT OPP-SITE SUPPORT SERVICES
2 POR TOUR RELOCATED BNO AND SED ACTIVITIES IN THE VANDEMENSOR
3 AREA COULD BE SETABLISHED IN THIS CAMPUS-SETTING ADJACENT

TO OUR ARROWAUTICAL PACILITY.

ADDITIONALLY, TWO 18-BOLE MONICIPAL AND PROPERSIONAL QUALITY GOLF COURSES ARE PART OF THE OVERALL THE ACRE PARK PROJECT THAT WILL PROVIDE AN AUXILIARY BENEFIT TO PERSONNEL INCLUDED IN TOUR RELOCATION.

IN SUMMANT, SANTA MARIA AIRPORTS VALUABLE COMMUNITY RESOURCE AVAILABLE TO COMPLINENT OWNER COMMUNITY RESOURCES THAT YOU WILL REQUIRE. WE SINCEMELY INVITE YOU TO INCLINE THESE AVAILABLE COMMUNITY PRATURES IN THE SET INFORMATION AND SELECT VANDERISEME FOR THE SITE FOR THESE INFORTANT MATIONAL PROGRAMS THAT ARE REFORM YOU.

THANK YOU, GENTLEMEN.

COL. THOMPSON: ME WILL NOW MOVE TO THE PUBLIC IMPUT PERIOD. BEFORE I GO THAT, I'D LIKE TO REMIND TOO EAVE A COMPLE OF POINT THAT I STRESSED EARLIER. PIRST IS THE PIVE RIMUTE TIME LIMIT. THE SECOND, PLEASE MALE SURE THAT TOO DO STATE TOOM MAKE AND ADDRESS CLEARLY FOR THE RECORD SEPONE TOO MAKE TOOM STATEMENT SO THAT THAT CAN BE MOTTED IN THE RECORD BY OUR COURT REPORTER.

IF TOU BROUGHT A PREPARED STATEMENT TOU HAY TURN IT IN OR READ IT ALOUD. HOW, IF YOU DO READ TOUR

SOUTH BAY COURT REPORTERS

REPAIRED STATEMENT WE WOULD ANY THAT TOO PROVIDE DE WITH A CORT TO BE INCLUDED IN THE RECORD. WRITTEN COMMENTS AND QUESTIONS WILL ALSO SECONS A PART OF THE RECORD AND WILL RECEIVE SQUAL CONSIDERATION. IP TOO DO TUNE IN WRITTEN COMMENTS ON QUESTIONS, PLEASE NOTE TOOK RAME AND ADDRESS ON TOOK COMMENTS ON QUESTION.

AGAIN, THE PORPOSE OF THIS MENTING IS TO SOLICIT INFOF FORM FORLIC ASSOCIES FROM PRIVATE COMMINISTION AND FROM THE PUBLIC AS AT LANGE ON THE DRAFT ENVIRONMENTAL HEACH STATEMENT. THE AIR FORCE MENTERMENTATIVES WHO BAYE COME ERRY TOWIGHT ARE NOT THE DECISION MAKERS ON THIS PROPOSED ACTION. THEY HAVE PROVIDED TOU WITE IMPORMATION ON THE PROCESS AND ARE PREPARED TO RESPOND TO QUESTIONS THAT TWO MAY HAVE ABOUT THE PROJECT HOWEVER WE CAN'T ENTER LIVEO A DEBATE WITE TOO ON THE PROPOSED ACTION. ALSO REDERBER THAT THE POSTORE OF OUR MEETING IS TO SOLICIT INFOT ON THE DRAFT ENTIRONMENTAL INFOCE TO PLEASE LIKET TOUR COMMENTS TO THE ENVIRONMENTAL INSUES WHICE ARE ASSOCIATED WITH THE PROPOSALS.

TO AVOID REPETITION AND TO EMSORE TEAT EVERTORS HAS AN OPPORTMENT TO EPRAR, I'D LIKE TO ARK THAT YOU AVOID REPETITIVE STANDARMENT. IP YOU SIDDLY AGREE WITH THE COMMENTS ON STANDARMENTS OF AN EARLIER SPEAKER, IT'S PROPRIETLY ORAY JUST TO BAY THAT. AS I'VE INDICATED, I'R

SOUTH BAY COURT REPORTERS

I AM VERT CONCESSMED WITH THIS MOVE. I DON'T THISE THE COMMENTY IS AT ALL READY FOR IT. MUNGER ONE, IN TERMS OF WATER. THERE SIMPLY IS MOT EMODER WATER ERRE. RIGHT IN TOUR OWN REPORT TOU SAY THAT THE AQUIFERS ARE OVERGALAPTED. MOW, AS IT STANDS RIGHT HOW, SANTA MET AT A AQUIFERS, AS I UNDERSTAND IT, I'M NO EXPERT BUT IT'S SIMPLE MATM, IT'S BRING CHERRAPTED, EVEN TO THE FOIRT MERRE STATE WATER IS NOT GOING TO COMMENSANT FOR THE OVERDALPT.

NOW, IF BO PERCENT OF THE PEOPLE, AS TOU SAY,
GO TO SANTA HARLA, WEERE IS THIS WATER GOING TO COME FRONT
AND THIS PANTARY OF STATE MATER, WHICH HAT NEVER BE HERE
BECAUSE OF THE DROUGHT CONDITIONS HERE 'W CALLFORNIA WHICH
HAY JUST GO ON AND ON AND ON, AND HE DON! KNOW WHERE IS
THE MATER GOING TO COME FROM. ORAT, ASSURE THE STATE MATER
DOES COME. THAT'S 10 THANS FROM HOM. MEAT HAPPENS IN THE
10 THANS THAT FOLLOW? MHERE IS THE WATER GOING TO COME
FRONT CHREAINLY THIS HOVE MOGLO FORCE ALL OF THESE
COMMUNITIES TO THAN STATE MATER, WHICH IS SOMETHING THAT IS
BRING MOTLY DEBATED RIGHT HOM. SANTA BARBARA COUNTY BEDIES
TO BE AGAINST IT. SO IT WE'RE GOING TO ACCEPT THIS MOVE,
THESE WE'RE CERTAINLY ACCEPTING STATE MATER.

SECONDLY, THERE IS THE ISSUE OF POLLOTION.

SECONDLY, THERE IS THE ISSUE OF POLLUTION.
THERE IS AN IN VERSION LATER IN LONDOC ITSELF. ALL THIS
EXTRA POLLUTION FROM ALL THESE CARS, WHERE IS IT COIDE OF
GOT BLOW AMALT NO, IT WON'T. IT WILL JUST SIT RICHT

SOUTH BAT COURT REPORTERS

THERE. FUNTHERMORE, THE TRAFFIC YOU JUST TALKED ABOUT 17, BUT THE TRAFFIC HAS GOTTEM REALLY BAD. I LIVE ON THE BOAD THAT RUMS DOWN TO SUFFER AND AT 4 O'CLOCK YOU CAN HARDLY MAKE A LEFT TURN ON THAT ROAD. THERE'S JUST TOO MICH TRAFFIC AS IT IS RIGHT MOM. AND THERE'S GOING TO BE A LOT TRAFFIC AS IT IS NOT TALKING ABOUT BUILDING, DOING ANTHRING IN GROER TO NELP HERE. MEAT ARE YOU GOING TO DO AS PAR AN MASS TRANSIT GOES?

I'VE RESS TRACKING AS A SOSSTITUTE TRACKER IN THE LOSSOC SCHOOLS. ITS CLASSES ARE DRAFTICALLY OVERCHOMODO. THI TO TRACE 45 KIDS IN ONE CLASSICON, YOU'RE HOT GOING TO BE ARLE TO DO ANTIFLING FOR AN HOUR, THOSE KIDS, I CAN GUARANTEE TOO THAT. YET THAT IS THE SIZE OF THE CLASS I HAD THIS SUBMER. SO ARE TOO ADDRESSING THESE ISSUES? WE DON'T MAYE ENDOUGN ROOM IN THE SCHOOLS RIGHT HOW.

ANTHON, THE ISSUES GO ON AND ON AND ON. I'D SAT THE FOCUS MOULD BE STATE WATER, WHICH IS TOO'RE RASICALLY FORCING ON THIS COMMONITY. I THINK IT'S REALLY A RAD IDEA. SOMEOWE JUST RECENTLY -- AND ONE OF THE SPHAKENS BAID THE OPPOSITE OF GROWTH IS DRAFM. THOS'S ARBORD. THE LIND OF GROWTH THAT A COMMUNITY WANTS IS A SLOW GROWTH, BY INCLUDENTS THAT THEY AND ARLE TO RANGLE WITH THE IMPRASTRUCTURES THAT THEY BAVE.

THIS KIND OF HOVE IS INPOSSIBLE. YOU'RE

15.

15.10

SOUTH BAT COURT REPORTERS

DESCRIPTION TWICE THE POPULATION THAT LOSSOC EAS, OR ANOTHER
INCREASES ST 50 PERCENT. THIS COMMUNITY IS NOT READ! FOR A
50 PERCENT INCREASE. ONCE AGAIN WE'RE ON THE ROLLER
COASTER WHERE THE SPACE SHOTTLE MODURET US OF MERE AND
5 DOMORD US. WHAT EAFFENS WHEN THE BALLISTIC MISSILE STRIBES

COAPTR WHERE THE SPACE SHOTTLE MODIST US UP BELLE AND DUMPED US. WHERE EAPPENS WHEN THE RALLISTIC MISSILE STSTEMS LEAVE US? WHERE IS LONGOUTHERN? UP THE CREEK WITHOUT A PADDLE, JUST AS MY WERE WHEN THE SPACE SHOTTLE LEFT. THAY'S ALL.

COL. THOMPSON: 101. WANTLERS WILL BE POLLOWED BY WATHE A. LANGILL.

HR. MAMERES: GOOD EVENING, GENTLEMEN. HT MANS IS GENE MANGERS (P. O. BOX 8001, LONDOC, CALIFORNIA 93438-8001). I'M THE CITY ADMINISTRATOR OF THE CITY OF LONDOC.

PIRST OF ALL, I MOULD LIKE TO CALL ATTENTION
TO A LETTER THAT THE CITY SEMY TO THE AIR PORCE ON MARCH
19TH, PRIOR TO THE SCOPING MEARING ON MARCH 27TH. I VILL
JUST READ BRIEFLY FROM THE LETTER.

THE CITY HAS BEEN SUPPORTIVE OF THE
RELOCATION OF ADDITIONAL AIR FONCE ACTIVITIES TO VANDEMBERG
AIR FORCE BASE TO COMPENSATE FOR THE AREA LOSS OF
APPROXIMATELY 5,000 JOBS "ER THE PAST TRUTE TEAMS.
RELOCATION OF MEADOGRAPHES SPACE STSTEMS DIVISION ACTIVITIES
FROM LOS ANGRESS AIR FORCE BASE TO VANDEMBERG AIR FORCE
BASE WOULD BE A POSITIVE INFLUENCE ON OUR ECONOMY AND

SOUTH BAY COURT REPORTERS

INCREASE EMPLOYMENT OPPORTUNITY.

THE CITT HAS SERVED AND SUPPORTED VARDERHERG SINCE IT'S ESTABLISHMENT OVER 10 THANS AGO, AND WE ARE PREPARED TO ASSIST IN SUPPORTING ADDITIONAL HOUSING AND SERVICE NEEDS WHICH WILL BE CREATED BY THE RELOCATION OF PERSONNEL AND SUPPORTING INDUSTRIES TO VANDERHERG AND PORCE MAKE THE MUGESTS OF RESIDENTIAL DWELLING UNIT IN THE CITY COURSENTLY TOTALS 12,707, WITH AN ADDITIONAL 6,300 IN THE COUNTY UNINCORPORATED AREA, FOR A LONGOC VALLEY TOTAL OF 19,000 TO ANTICIPATE. ADDITIONAL DWELLING UNITS UNDER CONSTRUCTION, IN FLAMMING, PLUS VACANT LAND CAPACITY IN THE RESIDENTIALLY SOUND LONGOC VALLEY UNINCORPORATED AREA. THERE IS CAPABILITY OF PROVIDING AN ADDITIONAL 2,200 UNITS. FOR A TOTAL OF 3,959 RESIDENTIAL DWELLING UNIT WITHIN THE LONGOC AREA.

UTILITY SERVICES PROVIDED BY THE CITY INCLIDE ELECTRIC, WITH THE CURRENT PEAK UNDER 22 MEGANATTS, AND AN INSTALLED STRING CAPACITY OF 90 MEGANATTS — AND I KIGHT SAY THE LOWEST ELECTRIC RATES IN THE AREA. THE CITY OWNER AND OPERATES A MODERN UNITWALENT TREATMENT PLANT, MEICH EAS SERVED VANDERENG AIR PORCE BASE FOR A MUSISER OF TRANS. THE STRING CAPACITY CORRENTLY IS 5 MILLION GALLONS PER DAY, AND MENT OF THE STATEMENTS IN MILLION GALLONS PER DAY, AND MENT OF THE ELEMENTS IN TRAY PLANT BAVE ALREADY SHEM SIRED TO

SOUTH BAT COURT REPORTERS

TRANSCRIPT 2 PROVIDE FOR THAT CAPACITY. THE AVERAGE DAILY FLOW IS ENT OF SUPPORTING THE UNITED STATES ALR FORCE MISSION AT VANDENBERG AIR FORCE BASE, AND WE LOOK FORMAND CORRESTLY 3.3 MILLION GALLONS PER DAY, SO YOU CAN SEE TO WORKING WITH AIR PORCE OFFICIALS IN ACCOMPLISHING THE 3 ADDING 30 PERCENT MOULD STILL LEAVE & MARGIN OF OVER .7 MILLION GALLOWS A DAY. TEAM TOU. SOLID WASTE IS PROVIDED BY A TWICE PER WESE COL. THOMPSON: NR. LANGILL --AUTOMATIC PICK UP AND RECYCLING PROGRAM. THE CITY ALSO MR. LAMGILL: YES, SIR. , OPERATES A CLASS-PREZ LAMOFILL. WITH AN ESTIMATED 20 TO 10 COL. TROMPSON: -- TO BE POLLOWED BY TRAN CAPACITY. WATER SERVICE IS PROVIDED THROUGH A WATER ٠. MR. LOD MUNICIPATEIN. TREATMENT FLANT WITH A STRTEN CAPACITY OF 6 MILLION GALLONS 10 MR. LANGILL: I REALLY DIDE'T INTEND TO SAY ANYTHING 10 PER DAY, EXPANDABLE AND DESIGNED TO MANDLE A PEAK FLOW OF 11 TORIGHT, BUT I BRAND A COUPLE SPEAKERS, SO I PEEL LIKE I 11 14 MILLION GALLONS ONCE A DAY. CONNENT AVERAGE DAILY FLOW 12 HOST REPLY. (MATHE A. LANGILL, 424) POLARIS AVENUE, IS 4.9 MILLION GALLONS & DAY. 12 13 THE CITY DOES HAVE A FRED FOR A SUPPLEMENTAL 14 IN THIS COMMUNITY WE HAVE DOERS AND WE HAVE WATER SUPPLY. SOURCES ARE PRESENTLY BEING CONSIDERED AND A 15.21 15 AGAINSTS. AND IN THE PAST WE HAVE MAD A LOT OF DANIES DON'T 15 DECISION IS EXPECTED TO BE MADE MEET YEAR. 16 BY AGAZISERS. THE LONDOC RESERVOIR WAS OPPOSED BY THE 14 THE CITY AND SURPOUNDING CENTRAL COST AREA 17 AGAINERS AND NEVER CAME TO PROITION. JUST THIME, IF THEY PROVIDES AN OUTSTANDING LIVING ENVIRONMENT FOR PERSON 17 EAD NOT FOT OUT A BONCE OF CHOIC, WE WOULD SAVE THE LONG-OC 10 AND EMPLOYEES WHO WOULD RESIDE MERR, AS WELL AS EXCELLENT 19 RESERVOIR MERE TODAY TO DRAW WATER PROM. 19 RECREATION AREAS. WE HAVE AN AMALTRIS OF EXISTING AND 20 IN THE PART WE END A CRANCE TO EAVE A ROAD 20 PLANNED HODELEG AREAS, SERVICES, AND PACIFITIES AVAILABLE 21 OVER EASRIS GRADE, A POUR LAME SIGNAY, AND THEY OPPOSED IT AND A CONLITY LIVING ENVIRONMENT WHICH SUPPORTS THE 21 22 OR THE BASIS OF THE BISHOP PINES. DID YOU EVER SEE A SELECTION OF VANDOUSERS AIR FORCE BASE AS THE MUNICIPAL ONE 23 23 ALTERNATIVE SITE FOR THE RELOCATION OF READQUARTERS SPACE 24 THE RAN TALES ABOUT THE INVERSION LAYER. WE 24 STREES DIVISION AND SUPPORTING UNIT. 25 BAYS A UNIQUE SITUATION MINE WHITE WE HAVE A VALLEY 25 THE CITY OF LONGOC BAS HARMALINED A LONG-TERM SOUTH BAY COURT REPORTERS SOUTH BAY COURT REPORTERS MAD TO RIP IT UP. I JUST RIPPED IT UP. I GOT SAME OUT ED BY HOUSEALNS, AND EVERY DAY THE WINDS COME IN THERE HOW THAT'S REVERTING DACK TO BURGOW HERA AND THEY CIRCLE AROUND AND THEY TAKE ALL THE CRUD OUT AND LEAVE IT SOME PLACE ELSE. NOW THEY SHOUGHT UP THE PACT OF THE COL. THOMPSON: MR. ROBINSTEIN WILL BE POLLOWED BY STICKLEBACK. THE STICKLEBACK IS THE HOST EXPENSIVE FISH BARBARA LIBET -- ALTHOUGH, NOW YOU ARE GOING TO POLLOW THAT TOO EVER HEARD ABOUT IN YOUR LIFE. POURD PER POURD IT TRAZ, I DON'T MON. COSTS HORE THAN SMORDFISH, I'LL TELL YOU THAT. THE MR. RUBINSTRIB: THE ONLY COMMENT IS, HAVE YOU EVER BILLION DOLLAR STICKLEBACK. THE AGAINSTS SAY, "PROTECT MEAND OF A SISSOP PINE? I'VE MEAND A PRIEST CRT. SOT I HE STICKLEBACK'. DID TOU EVER SEE ONE? WHAT CAN TOU DO 10 DOR'T THIRE THAT HAS ANY RELEVANCE. BUT I'M NOT GOING TO WITH A STICKLEBACK? HOW, IT'S ALL WELL AND GOOD TO PROTECT 10 11 TRY AND POLICY THE REST OF THAT. 11 THEM AND BE MICE, BUT SOMETIMES YOU HAVE TO BE REALISTIC 12 I'M LOG ROBINSTEIN. I LIVE AS 114 FIRST 12 ABOUT THINGS. TOU HAVE TO GIVE SOME COMMON SENSE. SO 13 BARRET IN SOLVANG (CALLPONNIA 93463). THAT'S A LITTLE 13 HOUGH FOR THE STICKLEBACK 14 WITT DUE EAST: ALSO RECORD AS DANIES DISHETLAND. I THE STATE WATER PROJECT CAN BRING MATER IN 14 13 SPENT FROM 1961 I CAME MERE TO VANDERMENG AIR PORCE BASE AS 15 AND A LOT OF PROPLE -- THE AGAINERS, AGAIN -- DON'T LIKE 16 A TORRE OFFICER I BAD THE MINOR OF SPENDING OVER 25 TRANS 16 STATE WATER. THEY SAY IT'S UNINELIABLE. THE WATER BAS DEED 17 AT VANDENBERG IN THE CAPACITIES OF ACTIVE BOTT MILITARY, PLONING FOR HOW HANT TEARS HOW? IT'S PROVIDING WATER CONTRACTOR, AND PEDERAL EMPLOYEE. I RETIRED IN '08 PROK MERSEVER IT HAS SUPPOSED TO BE PROVIDED. SO, THE STATE 18 19 THE PERSONAL COMMERCENT AS A CIVILIAN WITH THE AIR PORCE. 19 MATER STETCH, WEICH WE HAVE BEEN PAYING FOR FOR YEARS AND 20 AND THER I WENT INTO MY MEN CAMERA. THAT'S 20 TEARS, AND TO WHICH WE HAVE A BIG ENTITLEMENT, IS PRABIELE, ACTING AS A DEVELOPER NOTLORN, DOING APPORDABLE NOMES IN AND IS IN THE PROCESS. SO, LET'S HAVE THE DOCKS GET BUSY 21 22 THE AMEA IN WHICH DIRECTLY INVOLVES THE ENVIRONMENTAL 4.33 23 ASPECT OF THE POTENTIAL OF MED AND OTHER ORGANIZATIONS 2) AND LAST LITTLE COMMENT. SCHETTINGS THEY 24 CONCINS TO THIS COMMINITY. 24 BAING UP THE OBJECTION OF THE SURTON HESA CHAPARRAL. MON. 25 AND IN BESENCE I'M SATING, TALKING NOW AS A I MAD A LAMM THAT TURNED INTO BURTON MESA CHAPARMAL AND I 26 SOUTH BAT COURT REPORTERS SOUTH BAY COURT REPORTERS

TRANSCRIPT 2 *CHAPARRAL IS WEEDS.* SO I THINK THAT IF THE PROPLE BUILDER/DEVELOPER FOR OTHER BUILDER/DEVELOPERS IN OUR MESTLY FORM WHAT THE BURTON MESA CHAPAMAL COMSISTED OF, 4.33 AFFORDABLY. THEY'RE PRESENTLY UNDER CONSTRUCTION FOR THEY WON'T BE QUITE SO AMELOUS TO SAVE IT, BECAUSE WEST IT \$130,000 POR THREE BEDROOMS, TWO BATHS. THAT'S VERY REALLY IS, IS A POTENTIAL FIRE STORM WAITING TO MAPPER --APPORDABLE, AND WE WILL CONTINUE TO DO THAT. l s WHICE TOU'VE SEEN IN SANTA BARBARA. SUT I THINK AS PAR AS GETTING TO CHOWDING IN COL. THOMPSON: BARBARA LIBBY BE VILL BE FOLLOWED BY 7 THAT AREA, IF ANTROOT WERE TO PLY OVER THIS AREA THEY MOVED . SCOTT FEIRM. SEE WE HAVE VERY LITTLE DEVELOPED GROUND MERE. IT IS MR. PEIRM: THERE IS NO MEED, THANK TOO. MOSTLY WILDERSESS, SO I THINK WE HAVE HORE ROOM FOR SOME 10 ROAD (LONDOC, CALIFORNIA 93436), AND 1 HOPE TOO CAN 11 11 THANK TOO YERY MOCH. 12 IMPOERSTAND HE BECAUSE I GET REALLY MERVOUS SPEAKING IN 12 COL. THOMPSON: MR. PRINK, DID I ONDERSTAND THAT YOU 13 13 I'D LIRE YOU TO KNOW THAT I FULLY SUPPORTED MR. FEIRM: TEE, THANK TOO. 15.10 15 THE EXPANSION OF VANDENBERG AIR PORCE BASE. I THINK THAT 15 COL. THOMPSON: MEST IS MONARD E. GRANTE, TO BE IT WILL BE A VERY POSITIVE ECONOMIC IMPACT TO THE LONDOC 16 POLLOWED BY STEVE ALLEMSON. 17 AND SANTA MARIA AREA WHICH WE REALLY MEED. AND I'D LIKE TO 17 MR. GRAFTE: MY MANE IS MOROUG GRAFTE. I LLYE AT MAKE SOME COMMENTS ABOUT THE SUSTON MESA CHAPARRAL THAT 18 367 SAINT ANDRENS WAT VANDEMBERG VILLAGE (LONGOC, EVERTORE IS SO OCCURRED ABOUT, AND THE COUNTY'S INTENT ON CALIFORNIA 93436). I AM THE PRESIDENT OF VANDERHEING 19 19 20 SAVING EVERY LITTLE BIT OF IT. I HAPPEN TO LIKE MATURE. I 20 VILLAGE COMMUNITY SERVICES DISTRICT, WHICE I REPORTEDLY 21 LIKE PLANTS, ANIMALS, EVERYTHING, BUT I WAS DRIVING SOME 21 22 NOUGH THE SURTON MESA CHAPANNAL AND I SAID, "MRIE I WAST TO PIRST SAY TO THE AIR FORCE IS 23 IT IS, MERE IS WEST YOUR COUNTY IS THISING TO SAVE,* 23 COMMATULATIONS. THIS IS A VERY, VERY FIRST STRUCTURE AND THEY SAID, "MHAT? MHAT?" I SAID, "ALL OF THIS." 24 24 INDACT STATEMENT, TOO DID A FINE JOS WITH IT. THERE ARE A "WELL, THAT'S WEEDS. WHAT IS CHAPARRAL?" I SAID, 25 PEW DETAILS I WANT TO DISCUSS WITH TOO, TRAT'S THE PURPOSE BOUTH BAY COURT REPORTERS SOUTH BAY COURT REPORTERS EVERTHOOT WHO TAXES THAT WATER. SO THE COMMISSIONICE OF THESE OF THIS MEETING TODAY, I MANT TO REFER TO PAGE 3.3-20. IT INDACT SHOULD SE SPELLED OUT IN THE UNVINORMENTAL INDACT TALES ABOUT THE ACCIPERS, COMBINES THE WATER ACCIPERS FOR 3 NOTE THE LONDOC VALLET AND THE UPLANCE. AND IT POINT OUT, LOOKING AT THE TOPIC MORE SMOADLY, THE COUNTY HOW THERE ARE FACTS, HOT IMPRESSIONS, THAT PER YEAR, THE 5 IS COMPRESENTATIVELY PLANNING WEAT IS CALLED A COMSERVATION COMMUNITIES THAT PROVIDE THOSE AGUITERS TARE OUT 30,000 6 SLEDGET, AND ITS A VERY WISE, WILL-THOUGHT OUT ACRES FRET OF WATER PER YEAR. THE RECHARGE IS 33,000, OR, REQUIREMENT. AND THE CONSERVATION ELEMENT SAYS, IN 10.26 10.1 ESSENCE, TEAT WE MINET LIVE WITHIN OUR PRESENT RESOURCES. PRET PER TEAR. WE ARE TAKING OUT MORE VOLTER TEAM WE ARE WE ARE NOT DOING THAT HOW AT THE LONDOC VALLEY, IN SPITE OF PUTTING IN. AS A COMSEQUENCE, THERE IS NOT ENOUGH WATER 10 WHAT OFFICER HAVE SAID, WE ARE NOT DOING TEAT. AND AS A FOR OUR PRESENT MEEDS, MUCH LESS FOR AN EXPANSION. 11 CONSEQUENCE THEM, THE UNINCORPORATED AMERA HAVE MEEN UNLABLE 12 TO AUTHORISE ANY MODEING FOR THE LAST FEW TRANS FOR LACE OF MY JOB TO PROVIDE WATER FOR THE VANDEMBERG VILLAGE 12 11 WATER. SO THAT'S A PACT OF LIFE THAT WE ARE PACED WITE HOW 13 RESIDENTS AND WE DON'T MAVE IT. AS A CONSCIOUSNES OF THIS, 14 SHOULD THIS EXPANSION TAKE PLACE, IT WOULD BE QUITE AN IT ALSO BATS ON PAGE 4.3-19 THAT THE COASTAL 15 15 IMPACT UPON OUR ENVIRONME 16 ACCEPTACE IS SCHEDULED TO SECUR CONSTRUCTION IN 1992 AND TO I WANT TO GO TO PAGE 4.3-18. IT SATS, AND 16 17 ALLOW WATER FLOW TO SANTA SANSANA COUNTY IN 1995. BUT IT 17 AGAIN TALKING ABOUT THE TRANSPER, THE PROPOSED ACTION WOULD ONITS A VERY INFORTANT CONDITION. THE PROPLE IN VANDE 16 INCREASE THE DEMAND VANDEWBERG HAS ON THE GROUNDWATER 19 VILLAGE, MESA GARS, MISSIGN SILLS, AND LONGOC MOST VOTE TO SOURCES, RESULTING IN A SIGNIFICANT ADVERSE INDACT ON THIS 10.2 20 APPROVE THE REQUIRED BOND ISSUE. AND THAT CONDITION SHOULD RESOURCE -- TALKING ABOUT WATER. THEY TALK ABOUT THE 10.26 21 BE IN THE ENVIRONMENTAL INFACT STATEMENT AND THE POLLOWING 21 IMPACT BUT NOT THE CONSEQUENCE, AND THE CONSEQUENCE TOO 22 APPROVED, IF WE ARE NOT ALOUD TO HAVE THIS WATER, AND OUR 33 23 AS WE TAKE THE WATER OUT OF THE GROUND HORE RAPIDLY, IF 24 OVERDRAPT WILL CONTINUE TO ME AS IT IS NOW, AND GET EVEN 24 THE WATER GOES DOWN HORE SAPIDLY, THE COST TO PROCESS THAT 25 25 MATER GOES UP HORE RAPIDLY, AND APPECTS THE BILL OF SOUTH BAT COURT REPORTERS SOUTH BAT COURT REPORTERS

SO TO SUMMARISE, WE ARE IN A SERIOUS OVERDRAFT SITUATION. WE DO NOT HAVE SUPPLICIENT MATER FOR OUR PRESENT MEEDS, AND AT THIS POINT YOU SHOULD RECOGNIZE, AS COL. BARTOL SAID IN HIS OPENING COMMENTS. THE AIR PORCE MAS ALMAYS MEEN A VERY GOOD MEIGHBOR, AND I ARK THE AIR THOSE WHO WILL GAIN BY THIS POTENTIAL MOVE, BUT ALL THE RESIDENTS WHOSE COST WILL BE IMPACTED AND LIVES WILL BE IMPACTED. SO I ASE TOU TO VERY, VERY CAREFULLY LOOK AT THE

THANK TOU VERT MUCH. COL. THOMPSON: MR. STEVE ALLERSON, TO BE POLLOWED BY DEPOLYNE HOLIDANL.

UNIDERTIFIED SPEAKER: HR. ALLERSON IS GONE. DOTTIE REMPRON.

MR. HOLIDAGL: THANK TOO. HT HANG IS DENATHE HOLHDANL, 972 PELICAN, LONDOC (CALIFORNIA 93436). COUNTY SINCE '44 AND IN LONGOC SINCE 1950. YERY A FEW GREW UP MERE, BUT MOST OF THEM CAME IN WITH THE IMPLUE THAT MAPPENED NEED VANDENEERS GREW FROM 1957 OH, AND WE ARE VERY

I THINK BOWARD BROOGHT UP SOME THINGS ON THE

SOUTH BAY COURT REPORTERS

NAMES AND THE PERIOD OF VALUES. THE ONE TRING TOO BAVE TO MEMBER, NO HAPTER IF TOO COME OR TOO DON'T, WE STILL MAVE THE SAME WATER PROBLEM, AND THAT'S MAY THE COUNTY SOAMS OF SUPERVISORS HAST TRANS AGO CONTRACTED THE STATE FOR THE STATE WATER PROJECT AGAIN IN 1983 FOR 8,000 ACRE FEET. AS SOOR AS EVALUATION IS ADOPTED AND PIRALISED ON THE MISSION BILLS MANCE OF THE STATE WATER PROJECT, THEN THE CONTRACTS COME ON DOME THE LINE. SO I THINK THAT TOO MEED TO THE THAT INTO THE PROCESS, THEN IT'S UP TO LOCAL CONTINUES TO MAKE UP THAT DIFFERENCE. IF TOU'ME GOING TO HEED THE WATER OR HOT, IF IT IT'S TOO EXPENSIVE, AND ST

SO THE ONE THING TOU LOOK AT IN AM WE LOOKED AT BACK IN THE EVALUATION OF THE IMPACT OF THE SED PROJECT IS WEAT IS GOING TO MAPPER WITH THAT IMPACT. AND WE LOCKED AT WORST CASE. NOT THE INTERESTING THING OR WORST CASE, WE HAD THE OIL INDUSTRY. WE HAVE VALUE AND NAME IT EXPEDIED AT THE SAME TIME VANDEMENC LEVELED 21 OFF AT ABOUT 13,500 INSTEAD OF 14,000. THE OIL INDUSTRY DIDE'T COME WITH THE LATER '88'S. PIPER CLOSED BONE, AND SO YOU SAD AN EXPLOYEE GROUP TENT DIDN'T COME IN. OR HOMET CASE, SO, IF TOO SO SACE AND STILING THOSE TYPES OF FIGURES, WEST EMPTERS OVER A SALANCED, PERIOD WE DON'T KNOW

SOUTH MAY COURT REPORTERS

TODAY IF TOU'RE GOING TO BRING THE WHOLE 27,000 OR 2,000 OR 10.000 INTO THIS AREA.

THE OTHER CONCERN I MAVE IS THAT IN 1980 WHEN VANDENBERG WAS BUILDING UP AGAIN, WE DIDN'T HAVE THE LANCE HORE PORCES HE HAVE TODAY. I MOULD SAY LONDOC WALLEY AND THIS AREA HAS PROBABLY THE BEST, WELL-ROUNDED LABOR FORCE WE HAVE EVER HAD IN THE AREA SECAUSE YOU GO THROUGH MHEN HANT, MOST, OF THE PROPLE IN SANTA BARBARA AREA, WHEN TOU LOOK AT THIS ISSUE, AND WE'RE TALKING ABOUT A LABOR PORCE. WHAT ARE THE HUNGER IN THE LOCAL AREA THAT WILL FICK UP THOSE JOSE THAT WILL BE EMPLOYED? BOW MANY WILL TRANSFER? BOW HANT OF THOSE JOBS WILL BE REAL? WHEN THEY DO TRANSFERS, NOT ALL THE JOSS THAT THEY HAVE ARE TRANSPERRED. THERE IS ALSO CONSULTATIONS AND CHANGES. HOW MANT OF THESE POSITIONS CAN BE FILLED BY THE PROPLE WHO

THE OTHER ISSUE I'D LIKE YOU TO LOOK AT YOUR TARING SANTA MARIA, 80, LONGOC, 20. IF TOU LOOK AT THE OVERALL, BROAD BASE, THE PROPLE ARE LIVING ALL OVER, TO YOU HAVE A SMOADER SPECTRUM. ALL TOU HAVE TO DO IS GET UP IN A PLANE AND SEE THE MUNISER OF AUTONOSILES CONLING OUT OF OTHER AREAS AND MEADING TOWARD VANDEWSERG AIR PORCE BASE, AND TOU HAVE THAT STREAM OF TRAFFIC THAT IS CONTING IN FROM ALL AREAS. THE ONE BIG PLUS I THINK THAT WE'RE TALKING ABOUT

SOUTH BAY COURT REPORTERS

1 WITH AIR GUALITY IS IF WE COULD CHANGE THE HOVENGET OF PROPLE FROM THE MOOR'S DRIVE TO SAMPLA BARBARA TO THE 30 MINUTE OR 18 DRIVE TO VANDESHEES AIR PORCE BASE. IF THET EXPAND MINE THAT WOULD BE ONE OF THE BIGGEST PLOSES IN THE

AND I THINK THE MATER ISSUE AND THE OTHER ISSUES CAN BE EASTLED AND I THINK TOO STEED TO LOOK AT WHAT THE CONTRACT IS, AND I TRINK AS SOME OTHERS WILL SAY, TOO MEED TO DEE THE ENVIRONMENTAL DEPART STATEMENT AS STATED TO THE STATE WATER AS ACCESSORYS CONTING 1970 YES MISSION WILL AREA SHOULD BE A PART OF THIS.

COL. THOMPSON: COTTE MEMPROW, TO BE POLLOWED BY REVIN MOORE.

ME. RESPROY: GOOD EVENTING. I'M DOTTER MEMPS I'M A RESIDENT OF FOR AND WOOD IN SANTA MARIA (F. D. BOS 17 6009, SANTA MARIA, CALIFORNIA SM36). I'M A PILOT. 1 LOVE AIRPLANDS. I LOVE THE AIRPORT, AND EVERTTEING THAT SCHOOL 19 WITH PLYING.

COAST AMEA, OTHERWISE MICHE AS GOD'S PAYORITE PLACE TO MAKE COT. WE'M MARRIED WITH A MUNICIPAL CLIMATE, WE MAINT AND 23 COOK BOIR OF THE MEST MEST, PORK, VEGETABLES, AND SHEET, STORE STRANSCENCES. AND WE HAVE PLANTY OF SPACE TO GROW. TOO WILL SHAFT STREETS AS MEASTERFUL AS ANY IN THE MIGULE

PATS COMPARABLE WASES. THIS COMMUTING CREATES FURTHER THATFIC POLLUTION AND RETAIL LEARNER PROBLEMS FOR MORTHERN SANTA BARBARA COUNTY. THE SO-CALLED SQUITT INCIGRANTS WHO LIVE THE BIG CITIES TO RETIRE TO SHALLER COMMUNITIES ARE MAYING A GREAT INFACT IN REDEFINING THE FOTURE OF DWITIES SUCE AS OURS. YOU ARE PORTURATE THEIR REEDS ARE DIFFERENT FROM THOSE OF A COMMUNITY WHO'S WEED IS TO INCREASE JOSS OFFORTUNITIES FOR SOME AND DANGETERS. POPULATION IS CLOSE TO 29 MILLION AND GROWING. PROPLE ERJOY LIVING AND WORKING IN CALIFORNIA. PROSPERITY AND QUALITY OF LIFE CONCERNS AFFECT SACE OTHER AND THEY HOST T BE COMBIDERED MUTUALLY EXCLUSIVE. I BELIEVE IT IS VERT DIFFICULT TO PEEL GOOD IN A CONSUMITY WRICE IS ALSO IN THE MIDST OF LOSING ENGLOTHERY AND POREVER STRUGGLING TO PUND IT'S BUDGETART MEEDS.

RELOCATION TO VANDEMBERG WOULD BRING. I RELIEVE THAT OUR QUALITY OF LIFE WOULD NOT SUFFER MALF AS NOCE AS IT MAY IF WE AGAIN CHOOSE TO BORY OUR MEADS AND NOT ADDRESSING THE 23 ISSUES. I SEEK THIS OPPORTUNITY.

THANK TOO.

COL. THOMPSON: MR. STOKER WILL BE POLLOWED BY

SO I'D LIKE TO POINT THAT -- I'D LIKE TO ALSO POINT OUT THAT I PREVIOUSLY SERVED IN THE LEGAL FOR A NAJOR DEPENSE COUNSEL AT VANDEMBERG AIR FORCE BASE AND ONE THING THAT WE POUND -- THAT WAS SEVERAL TEARS AGO AND DURING THE MAS THAT EVERY ONE HERE ENJOYS THIS AREA. I GREW UP IN IT AND I LOVE IT. IT ISN'T TRUE THOSE PROPLE COKING IN PROM THE HAJOR HETROPOLITAN AREAS TO LONDOC AND SANTA MARIA. WRICE THEY THOUGHT HAS ON THE OUT IN THE STICKS AND NOT EMODGE ACTION, AND WHAT WE FOUND WAS THE PEOPLE THAT REALLY ENJOY IT HERE MADE THE BEST EMPLOYEES. THE MOST STABLE EMPLOYEES WERE THOSE THAT HAVE TIES TO THIS AREA. AND THAT TIRS IN WITH THE FACT THAT WE HAVE A STABLE SKILLED WORK PORCE IN PLACE, IN THE HORTH COUNTY AS WELL AS SOUTH SLO COUNTY. AND MUST PROPLE, WHEN THEY TALK ABOUT THIS FIGURE, THE 18,900 THAT'S IDENTIFIED IN THE ENVIRONMENTAL IMPACT 23 STATISHEN. A GOOD HURSER OF THOSE JONE WAY BE TAKEN BY PROPLE ALREADY IN THIS AREA. AND THAT SHOULD BE POINTED

I WOULD LIKE TO ALSO MOTE ABOUT THOOGS THOSE 5,000 JOSS WE LOST AND INDICATE TEAT MAYER ME OUGHT TO S HORE INDICATE THAT THOSE 5,000 JOBS WERE ESSENTIALLY, I BELIEVE, IDENTIFIED AS DIRECT JONE LOST. IN OFFICE WORDS, DIRECT ENGLISHMENT RELATED TO THE AIR PORCE AND NOT RECESSARILY THE OTHER INDIRECT JOSS IN SUSINESSES IN BOTH SANTA MARIA AND LONGOC. THEY LOST EMPLOYMENT, AS

WITH THAT, THE OWLY OTHER COMMENT I MANT TO MARE IS CONSESSO THE CITY OF LONG-OC AND THE COUNTY FOR POSING REDUCTIONS. THE COUNTY WAS ASKED TO DO SQ, BUT DID NOT. I AM DELIGHTED BY THE REPRESENTATIVES OF THE COUNTY MERR TOWNSHIP MAKING THOSE STATEMENTS. COLUMN. IN TORS MUSINESS THE PRIOR STATEMENTS WOULD BE PRIOR INCOMMISSION STATISMENTS, AND SO IT'S MICE TO SEE THAT THEY'VE COME ANOUND, AND WE WISE IT WERE SANSJER.

THANK TOO VERY MOCE.

COL. THOMPSON: POLLOWING MR. VOJICIC WILL BE 20 CHARLES SCHEROGEROOM

MR. VOJICIC: THANK TOO. HT HANK IS MALTER, BUT 21 22 IT'S JUST A SLIGHT CORRECTION, BUT I COULD UNDERSTAND AND 23 CERTAINLY APPRECIATE THE DIFFICULTY IN PROMOMETRIC TRAFT. 24 IT'S 3700 COSTA VIA ROAD IN VANDEMBERG VILLAGE.

FIRST OF ALL I WOULD LIKE TO EXPRESS MY

SOUTH BAT COURT REPORTERS

ED APPRECIATION FOR U.S. AIR PORCE FOR CONDUCTING A PUBLIC MEARING IN SUCH A CAPACITY AND SERVING AN IMPUT THAT IS GOING TO BE VALUABLE TO THEIR DECISION MAKING. I DON'T BELIEVE THAT HART OTHER COUNTRIES AROUND THE WORLD AND THEIR ANGLES DO NOT GIVE THAT OFFORTUNITY TO THE CITIERS AS MUCH AS THE U.S. DOES.

I WOULD LIKE TO POCUS MY IMPUT. I DON'T HAVE ANY ORGANIZATION SPRECE, BUT I WOULD JUST LIKE TO SAY AS IT COMES TO MY MIND, AND I WOULD LIKE TO DIVIDE MY IMPUT TO TOU ON THE PHASES. ONE IS ECONOMIC AND THE OTHER ONE IS ENVIRONMENTAL ISSUES

OF THE ECONOMIC PART, I WOULD LIKE TO MAKE A 13 STATEMENT THAT I HAVE A UNIQUE POSITION THAT I'M SPEAKING TORIGHT TO YOU, AND ONE OF THEN IS THAT I SPENT MANT YEARS 15 IN SOUTH BAY COMDUCTING BUSINESS AS LOCAL BUSINESS CHAREN AND MEMBER OF CHANGER OF CONMERCE, CITY OF MANTHORNE, AS LAMMDALE, SO I'VE BEEN INVOLVED IN THE COMMUNITY AT LANCE FROM HANT ASPECTS. I MANTED TO GIVE TOO AN IMPUT PROM THAT PART FROM WHY YOU'RE MOVING PROK THERE AND GIVE YOU SOME OBSERVATIONS THAT I HAVE BEEN ABLE TO OBSERVE AND TAKE IT IN AND POSSIBILITY PASS IT OVER TO YOU.

I AM WITH PRIME WEST, INCORPORATED, AND WE OWN APPROXIMATELY 25 OR HORE APARTMENT SUILDINGS IN THE INSERDIATE WEIGHNOOD OF TOUR BASE IN EL SEGUNDO THAT

SOUTH BAY COURT REPORTERS

DIDS. I'VE BEEN TALKING TO THE LOCAL MOSTRESS CHARGES THEIR, I'VE BEEN TALKING TO LOCAL REALFORS, I'VE BEEN OSSERVING THE LOCAL MERCHANTS, AND IT DOESN'T SEEN TO BE ANT CONCERNS ABOUT PROPOSED MOVE, PROM GENERAL COMMUNITY AND I COULD REALLY SAY THAT SECAUSE I KEEP A VERY CLOSE TOUCH. I HAVE NOT SEEN ANT VOCAL OR ANY OPPOSITION TO THE MOVE FROM LOCAL MOSTNESS, 12'S RESIDENTS OR MERCHANTS OR CHANGER OF CONGERCE. MATRE IT IS MECADER THERE IS MANY OTHER GLANTS THAT ARE OFFERING ENGLOTHERS, SUCH AS 11 MORTHDOP, ROCKWELL, DODGLAS, AND OTHERS THAT REALLY OFFER 12 DIVERSITY AND ECONORY IN THAT PORTION FROM WHERE THE 13 EXISTING BASE IS LOCATED.

OSSERVING THE SCONORT COMDITIONS IN THE VALLEY, LONGICE VALLET IN PARTICULAR, AND ALSO AS A LOCAL SHOPPING CHUTCH OWER IN THE CENTER OF VANDERBERG VILLAGE, I ALSO HAVE MOTICED THAT THURWIS WITHIN A SHOPPING CENTER THAT WE OWN MAYE REPRESEND OVER A LONG PERSON OF TIME CONCERNS OF THEIR 20 ROSSONIC EXISTENCE. THEY'VE BEEN EAVING THOUGHA PATING 21 REPT. THEY'VE BEEN MAYING PROBLEM OF MESTING THEIR MONTHS. OSLIGATIONS, AND ONE OF THE REASONS THAT I WAS TOLD YEAT IT 23 IS RECAUSE OF THE STAGNASTING ECONOMIC COMDITIONS RESULTING OVER THE TRANS IN REDUCTION OF ENGLOTHERS MASS IN THE COMMENTY. ALL THIS COMMISSO, I FEEL TRAY EMPLOYMENT IS

SOUTH BAT COURT REPORTERS

TRANSCRIPT 2

15.10

182

104

ONE OF THE HOST VICAL PACTORS IN THE WINAM BASIC MEEDS, AND THAT IS MEAT PROVIDES A MAPPY PARILY, AND A MAPPY INCOME TO MAKE THE MONTGAME PAYMENTS AND MAKE THEIR DAILY MEEDS BE MEET. SO AS THE EMPLOYMENT IS OFFERED, I FEEL THAT THE RECORDING REPORTED OF THE COMMUNITY WILL ACRESVE AND RESERVE COULD GET PRIORITY OVER SOUS OF THE SHVIROHDEFFAL ISSUES THAT WERE ADDRESSED THIS IN THE EVENING IN THE ENVIRONMENTAL DOCUMENTS THAT YOU HAVE PLACED.

I PROL TRAT U.S. AIR PORCE AND IT'S REPRESENTATION IN THE PAST, IT'S QUALITY OF CONDUCTING THEIR STEDIES, HAS PROVEN TO THE GENERAL PUBLIC TO DUR COUNTRY THAT THEY ARE SENSITIVE TO MANY PACTORS AND I PEEL. AND MANY PROPLE THAT I SPOKE TO FEEL, THAT THEY TRUST IT. IF THE MOVE TAKES PLACE A LOT OF THE ISSUES WILL BE ADDARESED IN A PROPER PASEION AND IT WILL BE EXECUTED IN A WAT WHICH WILL EMMANCE THE QUALITY IN OUR COMMUNITY MERE. I ALSO FEEL THAT THE RESIDENTS THAT WILL BE HOVING PACK THE SCHOOL BAY AREA MAVE SEPARLISHED & LONG-TERM RELATIONSHIP. AS WELL, AND MOVING THEM OUT OF STATE MOULD BE DETRIMENTAL. THEY HAVE ESTABLISHED THE CONTEST OF PARTLIES AND SO FORTH, AND ST HOVING OUT IN THAT DIRECTION IT WOULD BE MEMBERICIAL.

THANK TOO VERT MICH. COL. THOMPSON: MR. SCHOOLS COM WILL BE POLICED BY IR. JAMES SPELLIAN.

AT 621 CALVERT IN LORDOC (CALIFORNIA 93436). I'M MEME TONIGHT TO EFFAR IN OPPOSITION OF THE MOVE. WERE I'VE MAND TOWNST -- AND THE MEASUR I CAME MINE IS LESS ENVIRONMENTAL THAN SCONDIC. WHEN I FIRST CAME, I WAS BORN IN SAM PRANCISCO, I SHEW MY THERE AND MOVED DACK. I WENT TO SCHOOL THREE AND CAME BACK OUT MERG TO THE SELECTIONA AREA IN 1958. IN 1958 THE AREA ANDUNE GLERGORA, EAST OF LOS AMORLES WAS A BLIMKING MED STOP LIGHT ON A TWO-WAY,

SOUTH BAY COURT REPORTERS

POUR-LANE SIGMAY SURROUNDED BY THOUSANDS OF ACRES OF LEMON AND GRANGE GROVES. WHEN HE HOVED OUT THERE IN 1971 AND WHEN I FIRALLY DECIDED ON HOVING, THOSE GROVES WERE GOME. THERE IS NO LEMON GROVES OUT THERE. NOW IT'S WALL-TO-WALL COMMUNITY. ALL THE WAY FROM SAM BERNGARDING TO SAMTA

FOR A JOS AS A TRACERY. I WENT TO FILLHORE AND INTERVIEWED OUT THERE. THE VALLET AROUND FILLMORE WAS PRIMARILY CITRUS. THE PARKERS OUT THERE WERE SATING, "WE'RE LOSING OUR FIELDS SECADER THE TAX BASE IS SO HIGH WE CAN'T KEEP THEN ANTHORS." BUT TOO DRIVE THROUGH THE 126 AND THERE ARE NO GROVES. SINI VALLEY WAS COMPLETELY LEMONS AND CITROS. THERE'S NO CITRUS GROVES NOW, 17'S WALL-TO-WALL COMMUNITY. VALLEY OF PLOWERS. HE LIVE IN A CONSUMITY INDEDIATELY ABJACENT TO FLOWER FIELDS. I SEE DOMN CENTRAL AVENUE SOME OF TROOF FIELDS BEING MULLDORED FOR MEW MODELING.

A FEW TEARS AGO I MAD AN OFFORTUNITY TO TALK TO THE MAYOR OF PASADERA AND PASADERA AT THAT TIME WAS UNDERGOING AN ENGRADOS AND CONVOLETVE GROWTH PROJECT. DEVELOPERS AND MODELINGS WERE BEING PULLED DOWN, IMPLYIDUAL HODE ING COMPOSE AND APARTMENTS BEZING FOT UP. THE MAYOR WAS COMPLAINING ABOUT THE CITY BUDGET | ASKED HIM COMPIDENTIAL HE PERSONALLY WHAT HE THOUGHT THAT THE POPULATION INCREASE

SOUTH BAT COURT REPORTERS

AND THE INCREME IN SUILDING AND MODELING AND THE TAX SAME 2 THAT WAS SKING INCREASED BY THAT WORLD BEGIN TO PAY FOR THE IMPRASTRUCTURE THAT WAS RECESSARY TO SUPPORT THE ADDITIONAL POLICE, FIRE, MOSPITAL, STREET HAINTSHANCE, WATER, ET 5 CETERA. ME SAID, "MO, THERE WAS NO WAY THAT THE CITY COULD BEGIN TO RECOUP TEAT. TELS WAS A SHORT-TERM SOLUTION TO A 7 LONG-TRANS PROMILES, AND SOCIETY OR LATER THEY WOULD HAVE TO

I MAVE NO PROBLEM WITH WENT THE AIR PORCE IS PROPOSING TO DO. HEAT I DO BAVE A PROBLEM WEAT IS 17'S SOURCE TO DO TO LONGOC WHAT IT HAS DONE TO THESE OTHER 11 COMMENTALES. I'M WEAT WAS CALLED AN SOUTH DESIGNANT, BUT I GUARANTEE TOO TEAT WHEN I CAME UP MERE TO LOOK AT WALLET 13 14 MODERS, HT REALFOR DIDN'T SAT THAT WITH DISCOUT. HE ENCOURAGED HE TO MOVE UP METE THAT MANT PROPER PROM SAN DEPENDENCE AND THE LOS ASSELLES AREA WERE PURDING ATTRACTIVE 16 MECANICE OF THE QUALITY OF SIFE THAT BEISTED AT THAT TIME. I AGREE WITH THAT WE'RE THAT HAPPY MICH.

I BUCH THAT THE COMMUNITY THAT I LIVED IN. LA CHESSITA, MAS A RISTORY WEICH GOSS BACK PROBABLY AROUT 21 AS FAR AS LOWIGE DOES. 17'S IN THE CHESTORY VALLET AND SAS A RESTORY VERY MICH SEMILAR TO THES. MINER HE MOVED THERE 23 28 TRANS MOD, 30 TRANS MOD, IT WAS A PLEASANT PLACE TO 24 LIVE. WITHIN THE LAST FIVE TRANS THERE'S BEEN AN EXPLOSION 25 OF SKILLING AND DEVELOPMENT IN THE COMMUNITY, WATCH WAS

SOUTH BAT COURT REPORTERS

TRANSCRIPT 2 DISASTROUS. THEY WERE PULLING DOWN ONE-STORY HOMES AND HR. SPELLHAR: GOOD EVENING, GENTLEMEN, AND THANS PUTTING UP TWO- OR THREE-STORY BUILDINGS ON A LOT. THAT TOO FOR TOOM STATING POWER. TIMES. PRANKLY, THE QUALITY OF LIFE DETERIORATED TO THE I'M JIN SPELLMAN, ADDRESS IS 416 WEST HORTE AVENUE IN THE VALLET OF THE PLOWERS, LONDOC, CALIFORNIA. POINT WEEKE WE NO LONGER WANTED TO LIVE THERE. OUR KIDS I'M MERE IN THE OFFICIAL CAPACITY AS THE EXECUTIVE DIRECT MANUEL MATERIO THERE AND MENT THROUGH SCHOOL THERE, BUT IT WAS OF THE MATIONAL SPACE SOCIETY/HESTERN SPACE FORT CHAPTER, NO LONGER A PLACE WE HANTED TO LIVE. WE LIKE LONDOC. I TELL TOO VERY PRANKLY I AM MELCE I HIGHT ADD IS NOT TO BE COMPUSED WITH THE SPACE PORT VERY GLAD THAT MARRIS GRADE IS NOT A POUR-LANE MIGRMAY. HE AND SCIENCE CENTER. THAT'S THREE SEPARATE ORGANISATIONS. 10 I HAVE A COMMUNICATION THAT WAS TRANSMITTED TODAY TO US CAN LEAVE AND BE IN THE COUNTRY. AND I PRAISE GOD FOR THE 10 FROM WASHINGTON D.C. MEADQUARTERS, AND I WILL TRY TO 11 BURTON HESA CHAPARRAL AND THE STICKLEBACK. THEY'RE PART OF CONSOLIDATE MERE SECADES PART OF THE THANSMISSION WAS A 12 THE LAND THAT WAS HERE BEFORE WE CAME. THEY'RE GOING TO BE PART OF THE LAND AFTER WE LIVE. THERE WILL BE LIFE MERE, 13 LITTLE BIT CARBLED -- PART OF OUR MODERN-DAY WONDERS OF 13 VERT, VERY SHORT-TERM KIND OF A SITUATION HERE, BUT WE MAVE 14 14 15 THE MATICUAL SPACE SOCIETY IS A MON-PROFIT 13 WATER PROBLEMS. WE HAVE CRONDING PROBLEMS. WE HAVE A PUBLICAT-SUPPORTED HEMBERSHIP ORGANIZATION DEDICATED T 16 CHALITY OF LIFE PROBLEM. WHAT WE'RE TALKING ABOUT HERE IS THE CHEATION OF SPACE CIVILISATIONS THE SOCIETY IS THE FINANCIAL IMPACT OF RAVING THE AIR PORCE ADDING A LOT 17 18 COMPRESED OF HEARLY 30,000 MEMBERS IN 120 CHAPTERS 18 OF PROPIE. THE REAL ESTATE INTERESTS ARE HAPPY WITH THAT-19 MATICINIDE: AS WELL AS VISE INTERNATIONAL CHAPTERS. THE CONSTRUCTION INTERESTS ARE HAPPY WITH THAT. I'M ON THE 19 20 INCLUDING TWO RECENT ADDITIONS FROM POLAND AND IRAN. VENCE OF GETTING MY REAL ESTATE LICENSE, SO I HAVE NO 20 THE NATIONAL SPACE SOCIETY CONDUCTS AM 21 PROBLEM WITH REAL RETATE. BUT THE ISSUE MERE THAT'S BEEN 22 CER, ESTIMATES THE SPACE COUNTRY AND PUBLISHES THE DISCUSSED TOWIGHT IS LESS ONE OF THE OF ENVIRONMENT THAN IT NATIONAL SPACE SOLLETIN AND PUBLICATIONS. THE NATIONAL 23 IS OF SCONOMICS, AND I THINK THAT THAT'S CONING. THAT WE 23 24 CITY ST THE SHEE WESTERS SPACE PORT, CONSIDERED BY SOME TO SMOULD REALISE. 24 25 HE ONE OF THE PLAS SHIP ORGANIZATIONS, BEING THE WINNER OF 25 THANK TOO VERT MUCH. SOUTH BAY COURT REPORTERS SOUTH BAY COURT REPORTERS THE SOCIETY'S SPACE PICKERS AWARD FOR THREE TRANS, EMBORSES QUESTIONS, YOU DO HAVE UNTIL THE 24TH OF SEPTEMBER OF THIS AND CONCERDS THE AIR PORCE IN THEIR CONSIDERATION OF COMMOLIDATING LOS ANGELES AIR FORCE BASE UP TO VANDEMBERG TRAN TO HARE THOSE COMMENTS OR ASK THOSE QUESTIONS BY AIR PORCE BASE. CONSIDERING THE NATION'S WESTERN SPACE SEMBING THEM ON A WRITTEN CONSIDER SHEET OR ST ADDRESSING THEM TO THE ADDRESS THAT WAS LISTED IN THE MATERIAL MAKED PORT WITH CONCERNS TO POSSIBLE ENVIRONMENTAL QUESTIONS THE 15.10 SOCIETY, IS COMPIDENT THAT VAMORHEERG'S ENVIRONMENTAL TASE THIS BEARING IS ADJOURNED. PORCE AT VANDENBERG WILL ADDRESS ALL POSSIBLE ISSUES. INCLUDING THE PROBLEM OF A PLAN FOR MATER PURPOSES. THE . . (WHEREUPON THE MEARING CONCLUDED AT 10:00 P.M.) MATIGMAL SPACE SOCIETY STANDS READY TO ASSIST YOU IN THESE ---000----10 11 11 AS PAR AS COMMUNICATING YOUR CONCERNS TO THE 12 12 GREERAL PURLIC IN LAY TERMS, THANK YOU, SINCERELY, CHARLES D. WALKER, PORSER ASTRONAUT, PRESIDENT, EXECUTIVE 13 DIRECTOR WASHINGTON, ARC NEWS, 20/20 HOST, AND CHAIRMAN OF 14 THE BOARD OF GOVERNORS, AND GETTE RODENBERRY, CREATOR OF 15 16 16 STAR THEE, CHAIRMAN OF THE SHE BOARD OF ADVISORS. 17 THANK YOU VERY MUCH. 17 18 19 19 20 LADIES AND GENTLEMEN, THAT COMPLETES THIS 21 31 PUBLIC MEARING. I THINK WE HAVE OFFERED EVERYBOOT AN 22 OPPORTUNITY TO SPEAK WHO DESIRED TO DO THAT 22 23 I TRAFF YOU FOR ATTENDING I DO WANT TO ASSURE YOU THAT, AS I MENTIONED SEVERAL TIMES EARLIER IN THE PRESENTATION, IF YOU DO DESIRE 100 SOUTE BAT COURT REPORTERS SOUTH BAT COURT REPORTERS

BASE AND RELOCATE SPACE SYSTEMS DIVISION BEGINNING

THE POTENTIAL IMPACTS IDENTIFIED IN THE ENVIRONMENTAL IMPACT STATEMENT FOR THE SAN BERNARDING AREA ARE HIGHLIGHTED IN THE HANDOUTS WHICH WERE AVAILABLE TO YOU JUST BEFORE YOU CAMPINTO THE AUDITORIUM TOMIGHT, AND THOSE IMPACTS WILL ALSO BE ADDRESSED IN THE REMARKS BY LT. COL. TOM BARTOL TOMIGHT.

IF YOU HAVE NOT ALREADY RECEIVED A COPY OF THE DRAFT ENVIRONMENTAL IMPACT STATEMENT, YOU MAY MAKE A SPECIFIC REQUEST FOR ONE BY WRITING TO THE AIR FORCE REGIONAL CIVIL ENGINEER CENTER AT MORTON AT THE ADDRESS THAT MAS SEEN SHOWN FOR YOU ON THE MANDOUT THAT YOU WERE GIVEN TOMIC"T.

13

WHY ARE WE HERE THIS EVENING? THE PRINCIPAL PURPOSE OF THIS PUBLIC REARING IS TO SOLICIT INPUT FROM PUBLIC AGENCIES, FROM PRIVATE ORGANIZATIONS, AND FROM THE PUBLIC AT LARGE ON THI DRAFT ENVIRONMENTAL INPACT STATEMENT. THIS MEETING IS BEING HELD IN ACCORDANCE WITH THE REQUIREMENTS OF THE NATIONAL ENVIRONMENTAL POLICY ACT AND INPLEMENTING PEDERAL REQUIRE HEDRAL AGENCIES TO CAREFULLY ANALYSE POTENTIAL ENVIRONMENTAL INPACTS OF CERTAIN PROPOSED ACTIONS, AND TO USE THOSE ANALYSES IN

GILLESPIE REPORTING STRVICES

ARRIVING AT DECISIONS OR RECOMMENDATIONS AS TO WHETHER TO PROCEED AND HOW TO PROCEED WITH A PARTICULAR ACTION.

I'VE BEEN DESIGNATED AS THE PRESIDING OFFICER FOR TOMIGHT'S PUBLIC MEARING CONCERNING THE PROPOSED CLOSURE OF LOS ANGELES AIR FORCE SASE AND THE RELOCATION OF SPACE SYSTEMS DIVISION, INCLUDING THE BALLISTIC MISSILE ORGANIZATION. I AN COL. BILL TROMPSON. I ARE A FULL-TIME MILITARY JUDGE ASSIGNED TO THE AIR FORCE TRIAL JUDICIARY, TRAVIS AIR FORCE BASE, CALIFORNIA.

I'O LIKE YOU TO UNDERSTAND FROM THE SEGINNING THAT I AN MOT ASSICHED TO THE LOS AMCLES AIR FORCE BASE OR MORTON AIR FORCE BASE OR ANY OF THE BASES OR COMMANDS UNDER COMSIDERATION FOR THE RELOCATION. I AN MOT MERE AS AN EXPERT ON THIS DRAFT ENVIRONMENTAL IMPACT STATEMENT, MOR MAVE I HAD ANY COMMECTION WHATSOEVER WITH ITS DEVELOPMENT. I AN MOT MERE TO ACT AS A LEGAL ADVISER TO THE AIR FORCE REPRESENTATIVES WHO WILL ADDRESS THIS PROPOSAL. NY PURPOST OF BEING MERE IS SIMPLY TO EMBURE THAT WE MAVE A FAIR AND ORDERLY MEETING, AND THAT ALL WHO MISH TO BE MEARD WILL HAVE A FAIR CHARGE TO SPEAK TOWIGHT.

WE DO HAVE SOME OTHER AIR FORCE MEMBERS WHO ARE HERE ASSEMBLED OF THE PANEL FOR YOU

GILLESPIE REPORTING SERVICES

TOBIGAT. PIRST, ON YOUR RIGHT IS COL. GERALD PALUMBO, WHO IS THE COMPTROLLER OF THE BALLISTIC MISSILE ORGANIZATION AT MORTON AIR PORCE SASE, AND HE IS MERE TO REPRESENT BMO. MEXT IS COL. PETER BOOY, THE ACTING DIRECTOR OF THE IMSTALLATION RESTORATION PROGRAM AT READQUARTERS AIR PORCE SYSTEMS CONMAND AT AMOREMS AIR FORCE BASE IN MARILAND. AND MEXT TO COL. BOOY IS LT. COL. TON SANTOL FROM THE AIR FORCE REQUINAL CIVIL ENGINEER OFFICE AT MORTON AIR FORCE BASE. HE IS THE DIRECTOR OF THE ENVIRONMENTAL DIVISION THERE, AND HE WILL BE THE INDIVIOUAL PRIMAPILE DESCRIBING THE ENVIRONMENTAL IMPACT AMALTEES PROCESS AND THE CONCLUSIONS TA'T ARE REPORTED IN THE DRAFT ENVIRONMENTAL IMPACT STATEMENT.

WE ARE CREATING A PERMANENT RECORD OF THIS HEARING TORIGHT WHICH WILL BE TAKEN VERBATIN AND WILL BECOME A PART OF THE OECISION PACKAGE ON THIS PROPOSED ACTION. WE DO HAVE A COURT REPORTER WHO IS TAKENG A VERBATIN TRANSCRIPT OF THIS PROCEEDING, AND I ASK FOR YOUR ASSISTANCE IN MAKING SURE THAT WE OO MAVE A COMPLETE AND ACCURATE RECORD. I WILL ADDRESS THAT AND SOME OF THE GROUND RULES THAT I WILL DISCUSS WITH YOU IN A COURLE OF MINUTES.

LET ME INDICATE TO YOU WHAT THIS MEARING

GILLESPIE REPORTING SERVICES

TRINGS OF THAT SORT REALLY DON'T ADD AWYTHING TO THE HEARING RECORD AND THEY SIMPLY WASTE YOUR VALUABLE TIME DURING THIS, YOUR OPPORTUNITY TO MAKE YOUR PERSONAL IMPUT INTO THE DECISION-MAKING PROCESS. THE FOCUS OF THIS RESTING IS ON THE ENVIRORMENTAL INPACTS WHICH ARE ASSOCIATED WITH THE PROPOSALS BEING STUDIED BY THE AIR PORCE. RAISED AT THIS HEARING. WHAT THIS INFORMAL MEETING IS INTERDED TO PROVIDE IS A CONTINUING 12 PUBLIC FORUM FOR TWO-WAY COMMUNICATION ABOUT THE 13 DRAFT ENVIRONMENTAL INPACT STATEMENT WITH A VIEW TO IMPROVING THE SPERALL DECISION-MAKING PROCESS. 15 PLEASE NOTICE THAT I STRESSED "TWO-WAY 17

COMMUNICATION." AND THAT'S WHAT I NOPE WE WILL ACRIEVE TOWIGHT. THE FIRST PART OF THE HEARING PROCESS WILL ALLOW YOU TO HEAR PROK ENOWLEDGEABLE AIR PORCE INDIVIDUALS CONCERNING THE PROPOSAL AND ITS ORTAILS, AND THE ARTICIPATED SEVINOMENTAL INPACTS OF THAT PROPOSAL. THE SECOND PART OF THE PROCESS GIVES YOU AN OPPORTUNITY TO PROVIDE THE AIR FORCE INFORMATION. TO ASK QUESTIONS, AND TO RAKE STATEMENTS FOR THE RECORD. YOUR IMPUT ENSURES THAT THE DECISION MAKERS HAT SEMEPIT FROM

TRANSCRIPT 3

YOUR KHOMLEDGE OF THE LOCAL AREA AND YOUR KHOMLEDGE OF ANY ADVERSE ENVIRONMENTAL EFFECTS WHICH YOU THINK HAY RESULT FROM THE PROPOSED ACTION.

22

33

AS YOU CAME INTO THE AUDI, WHICH TONIGHT. YOU WERE PROVIDED AN ATTENDANCE CARD AND ASKED TO INDICATE ON IT WHETHER YOU HAD ANY IMPUT IN THE WAY OF A QUESTION OR A COMMENT FOR CONIGHT'S MEETING. WHEN THE BRIEFERS ARE PINISHED, WE WILL ENTER THE SECOND PART OF OUR HEARING PROCESS, AND DURING THAT PROCESS I WILL RECOGNIZE MEMBERS OF THE PUBLIC FOR THE PURPOSE OF MAKING COMMENTS OR ASKING CLARIFYING QUESTIONS OF THE APPROPRIATE AIR FORCE REPRESENTATIVE. FOR THOSE OF YOU WHO CARE INTO THE AUDITORIUM AND HAVE NOT FILLED OUT A CARD AND DESIRE TO SPEAK, IF YOU WOULD INDICATE THAT, SOMEONE WILL BRING YOU A CARD AND GIVE YOU AM OPPORTUNITY TO FILL ONE OUT. IT IS IMPORTANT THAT YOU DO FILL OUT A CARD, BECAUSE THAT WILL BE MY METHOD OF RECOGNIZING THOSE INDIVIDUALS WHO DO DESIRE TO BE RECOGNIZED AND TO EITHER ASK QUESTIONS OR TO MAKE STATEMENTS. AND THAT IS THE ONLY METPOD THAT I AM GOING TO FOLLOW. I AM GOING TO USF A RANDOM ORDER TO SELECT INDIVIDUALS AND RECOGNIZE THEM STRICTLY ON THE BASIS OF CARDS WHICH HAV. BEEN TURNED IN.

ENVIRONMENTAL IMPACT STATEMENT. FOLLOWING THOSE

PRESENTATIONS, WE WILL PROCEED INTO THE POBLIC

INPUT PORTION OF THE REARING. I WILL GIVE ELECTED

OFFICIALS AN OPPORTUNITY TO SPEAK FIRST, FOLLOWED

BY THE PUBLIC AT LARGE. AS I NAVE INDICATED,

THOSE OF YOU WHO TO DESIRE TO SPEAK TO THE MEETING

RUST TURN IN AN ATTENDANCE CARD INDICATI'J YOUR

DESIRE TO SPEAK, BECAUSE THAT IS GOING TO BE THE

OBLY METHOD I AN GOING TO USE TOWIGHT TO RECOGNIZE

YOU AND OFFER YOU AN OPPORTUNITY TO SPEAK.

IF YOU OON'T FEEL LIKE SPEAKING TOWIGHT.

10

11

12

1 3

15

16

17

19

21

22

23

DESIRE TO SPEAK, BECAUSE THAT IS GOING TO BE THE CHLY METHOD I AM GOING TO USE TOMICHT TO RECOGNIZE YOU AND OFFER YOU AM OPPORTUNITY TO SPEAK.

IF YOU DON'T FEEL LIKE SPEAKING TODIGHT, YOU ON AVE UNTIL THE 24TH OF SEPTEMBER OF THIS YEAR TO SUBMIT ANY STATEMENT THAT YOU WOULD LIKE THE AIR FORCE TO CONSIDER. YOU MAVE ALSO BEEN PROVIDED WITH WHITTEN COMMENT SHEETS AT THE ENTRANCE TO THE AUDITORIUM FOR YOUR USE IN PROVIDING THOSE COMMENTS. EVEN IF YOU DO MAKE COMMENTS OR ASE QUESTIONS TODAY, YOU MAY STILL

OUR ORDER OF PROCESDING TONIGHT WILL BE

IN THREE PARTS: FIRST, YOU ARE GOING TO GET A

BRIEFING PROM COL. BOGY ON THE PROPOSED CLOSURE ACTION AND THE OVERALL STUDY PROCESS. THEN, YOU

WILL RECEIVE A BRIZFING FROM LT. COL. BARTOL ON

THE ENVIRONMENTAL IMPACT ANALYSIS PROCESS AND THE

CONCLUSIONS WHICH HAVE SEEN REPORTED IN THE DRAFT

SUBMIT WRITTEN COMMENTS OR WRITTEN QUESTIONS AS

GILLESPIE REPORTING SERVICES

GILLESPIE REPORTING SERVICES

LONG AS YOU DO IT BY THE 24TH OF SEPTEMBER.

I WANT TO ASSURE TOU THAT WHETHER YOU MAKE A STATEMENT TORIGHT VERBALLY OR IN WRITING OR WHETHER YOU SUBMIT A WRITTER QUESTION OR STATEMENT, ANY FORM OF IMPUT WHICH YOU CHOOSE TO USE WILL RECEIVE EQUAL MEIGHT AND EQUAL CONSIDERATION. SO DON'T FEEL LIKE YOU MAVE TO SPEAK TOWIGHT OR YOU HAVE TO SUBMIT A STATEMENT TOWIGHT IF YOU WOULD PREFER TO WAIT AND REFINE COUR THOUGHTS AND THEN SUBMIT SOMETHING LATER, AS LONG AS YOU ARE SURE TO SUBMIT IT BEFORE THE 24TW OF SEPTEMBER.

BY THE SAME TOKEN, YOU SHOULDN'T BE SHY
OR MESITART TO ASK A QUESTION OR TO MAKE A
STATEMENT. I DO WANT TO EMBURE THAT ALL PEOPLE
WHO MISH TO SPEAK TONIGHT OR MAKE A STATEMENT HAVE
AN EQUAL OPPORTUNITY AND A FAIR CHARCE TO BE
HEARD.

NOW, IN ORDER TO BO THAT, I AM GOING TO LAY DOWN CERTAIN GROUND RULES WHICH I ASK YOU TO HELP HE TO EMPORCE: PIRST, I'D ASK THAT YOU SPEAK ONLY APTER I SECOGNIZE YOU, AND PLEASE ADDRESS YOUR REMARKS TO ME.

SECOND, I'D ASK YOU TO COME DOWN AND USE THE HICROPHONE WHICH HAS BEEN PROVIDED AT THE FRONT OF THE AUDITORIUM. PLEASE SPEAK CLEARLY AND

GILLESPIE REPORTING SERVICES

SLOWLY. AND THAT'S NOT ONLY FOR THE SEMEPIT OF THE AUDITHCE, BUT FOR THE SEMEPIT OF OUR COURT REPORTER. I'D LIKE YOU TO START WITH YOUR HAME, YOUR ADDRESS, AND THE CAPACITY IN WHICH YOU APPEAR, WHETHER YOU ARE A PUBLIC OFFICIAL, A DESIGNATED REPRESENTATIVE OF A GROUP, OR JUST A CONCERNED CITIZEN.

IF YOU DO MAVE QUESTIONS, PLEASE ASK OME QUESTION AT A TIME. AND SECAUSE YOU ARE GOING TO MAVE A TIME LIMIT, IT'S IMPORTANT THAT YOU PRIORITIZE YOUR QUESTIONS OR COMMENTS TO EMBURE. THAT YOUR HOST IMPORTANT QUESTIONS ON COMMENTS ARE ADDRESSED FIRST.

I WILL RECOGNIZE EACH PERSON FOR FIVE MINUTES. THAT INCLUDES EVERYOME. I OD HAVE A TIMEKEEPER WHO WILL SE SEATED IN THE FRONT ROW TO ASSIST YOU AND TO ASSIST ME IN EMPORCING TEAT TIME LIMIT. AND THE SYSTEM THAT I AN GOING TO USE IS RELATIVELY SIMPLE. THERE ARE TWO CARDS. THERE'S A YELLOW CARD WHICH WILL BE RAISED AT FOUR AND A HALF MINUTES TO INDICATE TO YOU THAT YOU HAVE JO SECONDS LEPT, AND A RED CARD WHICH WILL BE RAISED AT THE FIVE-MINUTE POIST. SO WHEN YOU COME DOWN TO THE HICROPHONE AND BEGIN TO SPEAK, YOUR TIME WILL BEGIN. I ENCOURAGE YOU BASICALLY TO LOOK TO YOUR LEFT AS YOUR TIME GOES ON TO EMB! E THAT YOU

23

24

16

17

1.6

14

I'D ASK YOU ALSO TO PLEASE HONOR AMY REQUEST FROM HE THAT YOU STOP SPEAKING. PLEASE DON'T SPEAK WHILE ANOTHER PERSON IS SPEAKING. I AN ONLY GOING TO RECOGNIZE ONE PERSON AT A TIME. AND OUR HOSTS TOWIGHT HAVE ASKED THAT YOU KINDLY REFRAIN PRON SNOKING IN THIS HEARING. I WOULD APPRECIATE YOUR CONSIDERATION AND YOUR COOPERATION IN REEPING THESE RULES SO THAT WE CAN ENSURE THAT WE MAVE A PAIR AND ORDERLY HEARING AND THAT WE GIVE EVERYBODY WHO DOES DESIRE TO SPEAK AN OPPORTURITY TO SPEAK.

I AM GOING TO MONITOR THE TIMES, AND I WILL DO EVERYTHING WITHIN MY POWER TO MAKE SURE THAT EVERYORE HERE WHO WANTS TO SPEAK GETS AN OPPORTUNITY TO BE HEARD. IT IS POSSIBLE THAT YOU MIGHT ASK QUESTIONS THAT THE AIR FORCE REPRESENTATIVES ARE UNABLE TO ANSWER TONIGHT. AND EVEN THOUGH WE HAVE GOT A GOOD DEAL OF EXPERTISE ON THE PROPOSAL -- EXCLUDING MYSELF. OF COURSE --ASSEMBLED HERE ON THE PANEL, OUR EXPERTS OG WANT TO MAKE SURE THAT THEY ANSWER YOUR QUESTIONS COMPLETELY AND ACCURATELY, SO THAT THEY ARE NOT RELUCTANT TO DEFER IF THEY DON'T HAVE THE INFORMATION AVAILABLE OR IF THEY HEED TO DO

GILLESPIE REPORTING SERVICES

FURTHER RESEARCH OR STUDY AND ADDRESS YOUR QUESTION EITHER IN WRITING OR IN THE FINAL VERSION OF THE ENVIRONMENTAL IMPACT STATEMENT. AND, SECONDLY, THERE HIGHT BE QUESTIONS WHICH HAVE QUESTIONS WOULD MAVE TO BE REVIEWED FURTHER BEFORE AN ANSWER COULD BE PROVIDED. IF THAT HAPPERS, AND IF THE QUESTION IS RELEVANT, IT WILL BE ADDRESSED IN THE FINAL VERSION OF THE ENVIRONMENTAL INPACT STATEMENT.

ONE THING THAT I'D LIKE TO STREES TO YOU. ABOUT ENVIRONMENTAL INPUTS OR ENVIRONMENTAL IMPACTS THAT WE DON'T KNOW ABOUT. WE ARE VERY 15 INTERESTED IN HAVING AND AMALYZING ALL POTENTIAL 17 ENVIRONMENTAL IMPACTS OF THIS PROPOSED ACTION. YOU DO HAVE THE EXPERIENCE THAT COMES PROM LIVING IN THIS AREA AND, THEREFORE, YOUR IMPUT INTO THIS PARTICULARLY IMPORTANT. I'D LIKE TO THANK YOU FOR ATTENDING THIS PUBLIC MEANING AND SHARING YOUR 23 INTEREST AND CONCERN WITH THIS PARTICULAR PROPOSAL.

AND LET ME ASSURE YOU THAT OUR PRIMARY PURPOSE IN BEING HERE IS, NURBER ONE, TO PASS

GILLESPIE REPORTING SERVICES

INFORMATION TO YOU ABOUT THE PROPOSAL AND, MUNBER TWO, TO GATHER INFORMATION WHICH WOULD HELP US OR MELP THE AIR PORCE AUTHORITIES IN AMALYZING AND

NOW, IT'S MY PLEASURE TO INTRODUCE COL. PETER BOGY WHO WILL BRIEF THE PROPOSAL WHICH IS BEFORE US TONIGHT.

LT. COL. BOGY: GOOD EVENING, LADIES AND GENTLEMEN. I AM THE ACTING CHIEF OF THE ENVIRONMENTAL RESTORATION PROGRAM AT AIR FORCE THE HAJOR COMMAND FOR THE SPACE SYSTEMS DIVISION -- WHICH I WILL REFER TO THROUGHOUT THIS BRIEFING AS "SED" -- AND WE WILL PRESENT THE PROPOPERT'S POINT OF VIEW.

FIRST, I WILL GIVE A LITTLE BACKGROUND. AND THEN I WILL DISCUSS THE PROPOSED ACTION, WHICH RELOCATE SEO. INCLUDING THE BALLISTIC MISSILE ORGANIZATION -- WHICH, ALSO, I WILL REFER TO THROUGHOUT THIS PRESENTATION AS "SHO" -- TO ONE OF FOUR LOCATIONS. THEN I WILL DISCUSS THE PROPOSED ALTERNATIVES, WHICH BANGE FROM RELOCATION OF PORTIONS OF SEC TO NO ACTION AT ALL FINALLY, 1 WILL PRESENT THE ST. TUTORY REQUIREMENTS FOR A

GILLESPIE REPORTING SERVICES

VARIETY OF STUDIES THAT WILL BE ACCOMPLISHED IN CONJUNCTION WITH THE ENVIRONMENTAL IMPACT STATEMENT.

LOS ANGELES AIR FORCE BASE, COMPRISING AN THE HOST BASE FOR THE AIR FORCE SYSTEMS COMMAND. SSD. AN INTEGRAL PART OF SSD IS A FEDERALLY FUHDED RESEARCH AND DEVELOPMENT CRITER. AEROSPACE

SED PLANS, PROGRAMS AND MANAGES SYSTEM COMMAND PROGRAMS TO ACQUIRE SPACE SYSTEMS. SUBSYSTEMS. SUPPORT EQUIPMENT, AND RELATED RESPONSIBILITIES IN THE AIR FORCE SPACE PROGRAM. SSD ALSO COMDUCTS RESEARCH. EXPLORATORY DEVELOPMENT AND ADVANCED DEVELOPMENT PROGRAMS TO SUPPORT FUTURE SPACE MISSIONS.

THE RECENT REALIGNMENT OF THE BALLISTIC SYSTEMS DIVISION PLACED THE MANAGEMENT MISSILE PROGRAMS IN SSO. THIS UNIT, HOW KNOWN AS BALLISTIC MISSILE ORGANIZATION, WAS DEDICATED SYSTEMS ENGINEERING TECHNICAL ASSISTANCE CONTRACTOR, ENOUGH AS SETA, WHO ALSO WOULD BE A PART OF THE PROPOSED RELOCATION

IN THE PROPOSED ACTION AND THE

THE SPACE SYSTEMS PROGRAM OFFICE, THE SPO, THE ICEM SPOS, AND "OTHER" ACTIVITIES. THE SPACE SPOS, RESPONSIBLE FOR DESIGN. DEVELOPMENT, AND 190 SETA CONTRACTOR PERSONNEL.

THE "OTHER" SPO ACTIVITIES AT SSD. INCLUDING THE MILSTAR JOINT PROGRAM OFFICE AND OTHER ADVANCED AND SPECIAL PROGRAMS, THE AEROSPACE CORPORATION LABORATORIES, AND VARIOUS BASE 20 OPERATING SUPPORT EMPLOY 510 MILITARY, 250 DOD PERSONNEL.

FINALLY, THE BHO ICER SPOS RAWAGE 33 24 BALLISTICS HISSILE SYSTEMS AND SUBSYSTEMS ACQUISITION PROGRAMS. THIS SPO ALSO PERFORMS THE 25 26 ADVANCED STRATEGIC MISSILE TRI-SERVICE

GILLESPIE REPORTING SERVICES

REQUIREMENTS AND HAS 660 HILITARY, 570 CIVILIAN, AND 1,300 SETA CONTRACTOR PERSONNEL.

THE BASIC PROPOSAL OR ALTERNATIVE ACTIONS ARE BASED ON A CONSTRUCTION AND RELOCATION SCHEDULE BEGINNING IN FISCAL YEAR 1993 AND ENDING IN FISCAL 1996. DUE TO THE COMPLEXITY OF THE PROGRAM AND AVAILABLE RELOCATION RESOURCES. HOWEVER, THE PERSONNEL AND CONSTRUCTION SCHEDULES

COULD EXTEND OVER A LONGER PERIOD OF TIME. 10 THE PROPOSED ACTION IS TO -- IS THE TOTAL 11 CLOSURE OF LOS ANGELES AIR FORCE BASE. THE COMPLETE CLOSURE OF BHO PACILITIES IN SAM

BERNARDING, AND THE RELOCATION OF SEC-LOS ANGELES AND SED-SAN SERNARDING TO ONE OF FOUR LOCATIONS.

ANGELES AND SAN BERNARDING TRAT DUPLICATE UNITS ALREADY AT THE RELOCATION INSTALLATIONS WOULD NOT BE -- OR WOULD BE INACTIVATED.

THE CLOSURE OF SEC-LOS ANGELES FACILITIES WOULD INVOLVE APPROXIMATELY 1,760 HILITARY AND 6,400 CIVILIAN PERSONNEL. THERE ARE FIVE TENANT AND WOULD RELOCATE WITHIN THE LOS ANGELES AREA.

THE CLOSURE OF SEC-BAN BERNARDING FACILITIES WOULD INVOLVE APPROXIMATELY 640 HILITARY AND 1.870 CIVILIAN PERSONNEL.

GT STAPIL REPORTS & SERVICES

LET US LOOK NOW AT THE GEOGRAPHIC SETTING OF THE BASES UNDER CONSIDERATION FOR RELOCATION. THIS INCLUDES VANDENBERG AIR FORCE BASE HERE IN FORCE BASE IN LONPOC, MARCH AIR FORCE BASE PATTERSON -- PETERSON AND FALCON AIR FORCE BASE IN COLORADO SPRINGS, COLORADO, AND SIRTLAND AIR FORCE BASE IN ALBUQUERQUE, NEW MEXICO.

FIVE ALTERNATIVES TO THE PROPOSED ACTION ARE CONSIDERED IN THIS EIS. THE ALTERNATIVES ARE NUMBERED IN THE DOCUMENT AND THIS PRESENTATION: HOWEVER, THEIR GROER SHOULD NOT BE INTERPRETED TO IMPLY ANY RANKING OR PRIORITIZATION OF THE ALTERNATIVES.

THE FIRST ALTERNATIVE IS SINILAR TO THE BASIC PROPOSAL, BUT WRILE THE SSO-LOS ANGELES OPERATIONS WOULD BE RELOCATED TO ONE OF THE CANDIDATE LOCATIONS, THE SEC-SAN BERNARDING

THE SECOND ALTERNATIVE WOULD CLOSE AND RELOCATE PORTIONS OF LOS ANGELES AIR FORCE BASE AND RELOCATE SEG-SAN BERNARDING, SU. WOULD NOT RELOCATE THE "OTHER" SPOS.

THE THIRD ALTERNATIVE WOULD CLOSE ONLY THE BRO PACILITIES IN SAN BERNARDING AND RELOCATE SEC-SAN BERNAROING TO ONE OF THE FOUR LUCATIONS

GILLESPIE REPORTING SERVICES

THE FOURTH ALTERNATIVE CONSIDERS ONLY THE RELOCATION OF 1,000 PERSONNEL FROM SED WITH NO PACILITY CLOSURE AT EITHER EL SEGUNDO OR SAN BERNARDING.

THE FIFTH ALTERNATIVE WOULD CLOSE ALL OF LOS ANGELES AIR FORCE BASE AND RELOCATE SED-LOS ANGELES TO MARCE AIR PORCE BASE, BUT WOULD LEAVE THE AEROSPACE CORPORATION INTACT IN EL SECUNDO AND SSD-SAM BERNARDING INTACT AT SAM BERNARDING.

THE LAST ALTERNATIVE IS NO ACTION. SSD-LOS ANGELES AND SED-SAN BERNARGING WOULD REMAIN IN THEIR EXISTING PACILITIES.

THE PROPOSED ACTION AND ALTERNATIVES ONE, LEGISLATION BEING ADOPTED PERMITTING THE AIR FORCE TO DISPOSE OF GOVERNMENT PROPERTY AND USE THE SALE PROCEEDS TO OFFSET THE MILITARY CONSTRUCTION COSTS ASSOCIATED WITH THE CLOSURE AND RELOCATION TO THE ALTERNATIVES -- TO OME OF THE ALTERNATIVES. IN ALL ALTERNATIVES, A CARETAREN WOULD BE EMPLOYED TO

UNITED STATES CODE, TITLE 10, SECTION 1687, THE BASE REALIGNMENT AND CLOSURE ACT, REQUIRES THAT DOD STUDY THE LOCAL ECONOMIC. OPERATIONAL, STRATEGIC, PISCAL AND BUDGETARY --SUGGETARY AND ENVIRONMENTAL IMPACTS OF THE

AN OPERATIONAL STUDY WILL ADDRESS THE EFFECT OF RELOCATING SSD, INCLUDING BNO, IF THE OECISION IS HADE TO CLOSE LOS ANGELES AND THE BNO PACILITIES AT WORTON. IT WILL EXAMINE ALL TEMANT AND JOINT SERVICE MISSION CHANGES RESULTING FROM A CLOSURE AND A RELOCATION DECISION.

THE BUDGETARY STUDY WILL DETERMINE CURRENT-YEAR PROGRAMMED DOLLAR COSTS AND SAVINGS ABSOCIATED WITH THE RELOCATION OF SSD AND THE INACTIVATION OR RELOCATION OF ASSOCIATED OPERATIONAL AND SUPPORT UNITS.

24 THE FIRCAL STUDY WILL USE THE BUDGET
25 EVALUATION TO ANALYZE PART, PRESENT AND FUTURE
16 COSTS AND SAVINGS ABSOCIATED WITH THE RELOCATION

GILLESPIE REPORTING SERVICES

OF SSO. COSTS OF CLOSING AND SAVINGS WILL BE DETAILED THROUGH THE LIFE CYCLE COST MODEL.

THANK YOU VERY NUCH FOR YOUR ATTENTION.

AND I WOULD NOW LIKE TO TURN THE REETING SACE TO

COL. THORPSON.

COL. THOMPSON: HOW I MOULD LIKE TO

PRESENT LT. COL. TOM BARTOL FROM THE ALE FORCE

REGIONAL CIVIL ENGINEER OPPICE AT MORTON.

LT. COL. BARTOL WILL PRESENT AM OVERVIEW OF THE

ENVIRONMENTAL IMPACT ANALYSIS PROCESS. DISCUSS THE

RELATIONSHIP BETWEEN THE LOCAL ECOMONIC

CONSEQUENCES STUDY AND THE ENVIRONMENTAL IMPACT

ANALYSIS PROCESS. AND PRESENT THE RESULTS OF THE

ANALYSIS PROCESS. AND PRESENT THE RESULTS OF THE

15 LT. COL. SARTOL: THANK YOU. OUR
16 ORGANIZATION IS CONDUCTING THE ENVIRONMENTAL
17 PROCESS FOR THIS PROPOSAL, AS WELL AS OTHER
18 PROPOSED CLOSURES AND REALIGNMENTS ANNOUNCED BY

TOWIGHT I AM GOING TO PRESENT A SCHEDULE FOR THE PROCESS AND SHOW HOW THIS PUBLIC COMMENT PRIOD FITS INTO THE SCHEDULE. I WILL ALSO DISCUSS THE SCOPE OF THE STUDY AND THE

THE SECRETARY OF DEPENSE IN JANUARY OF THIS YEAR.

24 RELATIONSHIP SETWEEN THE ENVIRONMENTAL IMPACT
25 STATEMENT AND THE LOCAL ECONOMIC CONSEQUENCES
26 STUDY. AND, LAST, I WILL PRESENT THE RESULTS OF

GILLESPIE REPORTING SERVICES

2 3

OUR AMALYSIS BY RESOURCE CATEGORY AND CONCLUDE WITH A SUMMARY OF THE POTENTIAL ENVIRONMENTAL IMPACTS.

THIS EFFORT WAS INITIATED ON PERSUARY STR REGISTER OF TWO MOTICES OF INTENT TO PREPARE ENVIRONMENTAL IMPACT STATEMENTS. THE NOTICES INDICATED THAT LOS ANGELES AIR FORCE BASE WOULD BE STUDIED FOR CLOSURE AND THAT THE SPACE SYSTEMS DIVISION AND APPROPRIATE SUPPORTING UNITS WOULD BE STUDIED FOR RELOCATION. SUBSEQUENT TO THAT ANNOUNCEMENT, THE BALLISTICS SYSTEMS DIVISION WAS REALIGNED UNDER SPACE SYSTEMS DIVISION. THIS FUNCTIONAL CHANGE IN COMMAND WAS HADE ON MAY STH OF THIS YEAR, AND SALLISTICS SYSTEMS DIVISION, OR BSD. WAS REMARKS THE BALLISTIC HISSILE ORGANIZATION. CONSTQUENTLY, THE AIR PORCE HAS PROPOSED TO RELOCATE THE SALLISTIC HISSILE MORTON AS PART OF THE RELOCATION OF SPACE SYSTEMS DIVISION. OUR DRAFT ENVIRONMENTAL IMPACT STATEMENT ANALYZES BOTH THE CLUBE AND THE RELOCATION ACTIONS. FOLLOWING THE MOTICES OF INTENT, SCOPING MEETINGS WERE MELD TO RECEIVE PUBLIC IMPOT ON THE SCOPE OF ISSUES TO BE

GILLESPIE REPORTING SERVICES

AND TO IDENTIFY THE SIGNIFICANT ISSUES RELATED TO THE ACTIONS. THE SCOPING HEETING FOR THE BALLISTIC MISSILE ORGANIZATION WAS HELD HERE IN SAN SERNARDING ON MAY 14TH.

SUBSEQUENT TO SCOPING THE ISSUES FOR STUDY, WE COLLECTED THE DATA AND COMOUTTED THE AMALYSIS WHICH SUPPORTS THE DRAFT ENVIRONMENTAL IMPACT STATEMENT. THIS STATEMENT WAS PILED WITH THE ENVIRONMENTAL PROTECTION AGENCY ON AUGUST IND. IN ADDITION TO TORIGHT'S PUBLIC REARING, PUBLIC REARINGS ON THAT DRAFT STATEMENT WILL ALSO BE WELD IN THE OTHER COMMUNITIES AFFECTED BY THE PROPOSED CLOSURE OR RELOCATION.

AGAIM, WRITTEN COMMENTS ON THE DRAFT ENVIRONMENTAL IMPACT STATEMENT WILL CONTINUE TO BE ACCEPTED UNTIL SEPTEMBER 24TH. AFTER THE COMMENT PERIOD IS OVER, ME WILL EVALUATE ALL THE COMMENTS, BOTN THE WRITTEN AND ORAL. AND PERFORM ADDITIONAL ANALYSIS OR CHANGE THE ENVIRONMENTAL IMPACT STATEMENT WHERE MECESSABY. AGAIM, AS IN THE SCOPPING PROCESS, EQUAL CONSIDERATION WILL BE GIVEN TO WRITTEN ORAL COMMENTS. AND, AGAIM, I WANT TO RETITENSE. THE CLOSURE OF THE COMMENT PERIOD IS SEPTEMBER 24TM.

ONCE THIS PROCESS IS COMPLETE. WE WILL PRODUCE A PINAL ENVIRONMENTAL IMPACT STATEMENT

11

23

12

13

14

15

16

17

20

21

22

2)

TRANSCRIPT 3

2 5

NMICH IS SCHEDULED FOR COMPLETION IN EARLY
DECEMBER. THE FINAL STATEMENT WILL BE MAILED TO
ALL OF THOSE ON THE ORIGINAL DRAFT DISTRIBUTION
LIST. THE FINAL ENVIRONMENTAL IMPACT STATEMENT
WILL INCLUDE COMMENTS RECEIVED DURING THE PUBLIC
REVIEW PERIOD AND OUR RESPONSES TO THOSE
COMMENTS. IF APPROPRIATE, ME WILL GROUP CONNENTS
INTO CATEGORIES AND RESPOND ACCORDINGLY.

THE FINAL ENVIRONMENTAL INPACT STATEMENT WILL SERVE AS INPUT FOR THE RECORD OF DECISION, WHICH WILL DOCUMENT THE DECISION BY THE AIR . FORCE. OTHER STUDIES, AS DESCRIBED EARLIER BY COL. BOGY, AND COMBIDERATION OF OTHER ISSUES BESIDES THOSE ADDRESSED IN THE ENVIRONMENTAL INPACT STATEMENT WILL ENTER INTO THE FINAL DECISION OF WHETHER OR NOT TO PROCEED WITH THIS PROPOSAL. WE EXPECT TO ACCOMPLISH THE RECORD OF DECISION IN JANUARY OF 1991.

11

12

19

20

21

12

14

21

THE DRAFT ENVIRONMENTAL IMPACT STATEMENT WAS PREPARED IN ACCORDANCE WITH THE NATIONAL ENVIRONMENTAL POLICY ACT AND THE COUNCIL OF ENVIRONMENTAL QUALITY REGULATIONS. EFFORTS WERE MADE TO REDUCE HEEDLESS BULE, MRITE IN PLAN LANGUAGE, FOCUS ON ONLY THOSE ISSUES MRICH ARE CLEARLY RELATED TO THE ENVIRONMENT, AND TO INTEGRATE WITH OTHER DOCUMENTS REQUIRED AS PART OF

GILLESPIE REPORTING SERVICES

THE DECISION-MARING PROCESS. THE DOCUMENT POCUSES ON INPACTS TO THE NATURAL AND PRYSICAL ENVIRONMENT WHICH NAY OCCUR AS A DIRECT RESULT OF SASE CLOSURE OR RELOCATION ACTIONS, IMPACTS WHICH OCCUR INDIRECTLY THROUGH CHANGES IN THE COMMUNITY, OR IN THE MADILING OF NAIARDOUS MATERIALS AND NAIARDOUS MATER. THE DOCUMENT ALSO EVALUATES GEOLOGY AND SOLLS, WATER -- BOTS SURFACE AND GROUNDMATER -- AIR QUALITY, NOISE, BIOLOGICAL AND CULTURAL

INDIRECT CHANGES TO LOCAL COMMUNITIES THAT PROVIDED MEASURES AGAINST WAICH ENVIRONMENTAL IMPACTS COULD BE ABALTIZED INCLUDED CHANGES TO POPULATION, LAND USE AND ASSIMETICS.

TRANSPORTATION AND COMMUNITY UTILITY SERVICES. IN ADDITION, THE FOLLOWING ISSUES RELATED TO CURRENT AND FUTURE MANAGEMENT OF MAIARDOUS MATERIALS AND MAIARDOUS MASTE ARE DISCUSSED IN THE DOCUMENT: MAIARDOUS MASTE ARE DISCUSSED IN THE DOCUMENT: MAIARDOUS MATERIALS MANAGEMENT: THE INSTALLATION RESTORATION PROGRAM: ASSESTOS: POLYCHICARTHATED SIPMENTLS, OR PCS'S: AND RADON. IF, AS A RESULT OF OUR ANALYSIS, IT WAS DETERMINED THAT SIGNIFICANT ADVERSE REVIRONMENTAL IMPACTS WOULD OCCUR SECAUSE OF THE CLOSURE OR RELOCATION ACTION, POTENTIAL MITIGATION MEASURES WERE IDENTIFIED AND ARE INCLUDED IN THE DOCUMENT.

GILLESPIE REPORTING SERVICES

27

AS I MENTIONED EARLIER, THIS DRAFT ENVIRONMENTAL IMPACT STATEMENT FOCUSES OR THE IMPACTS TO THE MATURAL AND PRESCAL ENVIRONMENT BROUGHT ABOUT, EITHER DIRECTLY OR IMDIRECTLY, SY THE POTENTIAL CLOSURE OF LOS ANGELES AIR PROCE BASE AND RELOCATION OF SPACE SYSTEMS DIVISION, INCLUDING THE BALLISTIC MESSILE ORGANIZATION.

THE DOCUMENT ADDRESSES SOCIOECONOMIC RESULT IN IMPACTS TO THE NATURAL AND PHYSICAL ENVIRONMENT. EARLIER, COL. SOGY DESCRISED THE OTHER RELATED STUDIES BEING CONDUCTED AS PART OF THE BASE CLOSURE STUDY PROCESS. AHONG THEN IS A LOCAL ECONOMIC CONSEQUENCES STUDY WHICH DESCRIBES IN GREATER DETAIL NOW BASE CLOSURE MAY AFFECT THE SURROUNDING COMMUNITIES. SPECIFICALLY, THE STUDY ADDRESSES THE FOLLOWING: DIRECT PATROLL LOSS TO THE IMMEDIATE COMMUNITY AND THE SECONDARY PAYROLL INPACT ON LOCAL SUSINGESES CAUSED BY THE LOSS OF MILITARY PERSONNEL, DEPENDENTS AND A CIVILIAN WORK FORCE: THE EFFECTS ON THE LOCAL REAL ESTATE MARKET AND SCHOOLS FROM A LOSS OF PERSONNEL: LOCAL PROJECTED GROWTH IN THE CONMUNITY AND THE POTENTIAL FOR REUSE, BOTH INTERIN AND LONG-TERM: AND, IF DATA ARE AVAILABLE, LOSSES TO OTHER LOCAL INDUSTRIES THAT DEPEND ON THE BASE. OUR

GILLESPIE REPORTING SERVICES

ORGANIZATION IS NOT PREPARING THAT STUDY. I OO KNOW, HOMEVER, THAT A DRAFT OF THE DOCUMENT HAS BEEN COMPLETED AND COPIES NAVE BEEN PROVIDED TO MEMBERS OF CONGRESS, REY STATE AND LOCAL OFFICIALS. AND STATE SINGLE POINTS OF CONTACT FOR THEIR REVIEW AND COMBULTATION.

THREE WEEES AGO, THE AIR PORCE NET WITH LOCAL OFFICIALS IN THE SAM BERHARDING AREA TO RECEIVE COMMENTS ON THAT DRAFT STUDY AND TO GATHER ADDITIONAL DATA. THE STUDY WILL BE SUBMITTED TO COMBRESS IN JAPUARY OF MEXT TEAR, IN TIME TO MEET THE PRESIDENT'S FISCAL YEAR '92 BUDGET SUBMITTAL.

I WOULD NOW LIKE TO DISCUSS THE RESULTS
REPORTED IN THE OBAFT ENVIRONMENTAL IMPACT
STATEMENT. IN GENERAL, LET HE SUMMARIZE BY
STATING THAT THE EFFECTS TO THE NATURAL AND
PRYSICAL ENVIRONMENT ASSOCIATED WITE CLOSING AIR
FORCE INSTALLATIONS AND FACILITIES ARE GENERALLY
POSITIVE.

FULL CLOSURE UNDER THE PROPOSED ACTION WOULD CAUSE THE FOLLOWING CHANGES IN THE SUPPORT COMMUNITIES SURROUNDING MORTON ALS FORCE BASE, THE MOST DAKE FOR SALLISTIC MISSILE ORGANIZATION:

IT IS ESTIMATED THAT THE RELOCATION OF THE BALLISTIC MISSILE ORGANIZA'. H AND CLOSURE OF ITS FACILITIES AT MORTON BY THE END OF 1996 WOULD

16

17

21

22

23

10

11

12

1)

17

10

19

20

21

23

24

29

26

TRANSCRIPT 3

29

RESULT IN A REDUCTION OF APPROXIMATELY \$210
MILLION IN TOTAL PERSONAL INCOME ANNUALLY. THESE
CHANGES ARE EXPECTED TO RESULT IN THE LOSS OF A
TOTAL OF 8,700 DIRECT AND INDIRECT JOSS. TOTAL
EXPECTED POPULATION OUTHIGRATION IS EXPECTED TO BE
11,300. IF MARCH AIR FORCE BASE WERE SELECTED AS
A RELOCATION BASE, PRACTICALLY NO JOB LOSS OR
POPULATION OUTHIGRATION IS EXPECTED.

IN LAND USE, THE LOCAL LAND USE PATTERNS AND IONING POLICIES WOULD NOT CRANGE DUE TO THE CLOSURE ACTION. LAND USES ON THE BASE WOULD EXPERIENCE SOME CHANGE IN THAT A CARETAKER FORCE WOULD BE CHANGED WITH MAINTAINING THE FACILITIES AND RESTRICTING ACCESS TO THE AREA. CHANGES COULD OCCUR IN THE FUTURE IN THE CONTEXT OF REUSE AND DEVELOPMENT PLANS IF THE BALLISTIC MISSILE ORGANIZATION IS RELOCATED.

13

15

16

17

19

21

22

23

24

16

17

10

19

26

22

23

25

FOR TRAMSPORTATION, VEHICLE TRAFFIC IN THE VICINITY OF THE BHO FACILITIES HOULD DECREASE. PARTICULARLY DURING PEAK TRAFFIC HOURS. HOWEVER, WHILE DECREASING CONCESTION IN THE AREA SOMEWHAT, THESE DECREASES WOULD HOT MOTICEASLY IMPROVE THE FLOW OF TRAFFIC OW THE AREA STREETS. THE REDUCTION IN TRAFFIC WOULD CONTRIBUTE TO A SLIGHT REDUCTION IN HOISE LEVELS AND AIR POLLUTION ENISSIONS ON AND MEAR THE BASE.

GILLESPIE REPORTING SERVICES

FOR UTILITIES, THE CLOSURE OF BMO
FACILITIES WOULD DECREASE LOCAL DENAMD FOR POTABLE
WATER, WASTEWATER TREATMENT, NATURAL GAS,
ELECTRICITY, AND SOLID WASTE DISPOSAL. HOWEVER,
UTILITY DENAMD ATTRIBUTABLE TO THE SALLISTIC
MISSILE ORGANIZATION AND ITS EMPLOYEES REPRESENTS
A VERY SHALL PERCENTAGE OF THE TOTAL UTILITY
DENAMD IN THE REGION.

IN THE AREA OF HAZARDONS MATERIALS AND HAZARDOUS WASTE, THE DRAFT EFFIROMMENTAL INPACT STATEMENT HADE TWO GENERAL FINDINGS. THE FIRST PROGRAM, OR "IRP," WHICH IS THE AIR FORCE'S PROGRAM TO IDENTIFY AND REMEDIATE PREVIOUSLY CONTAMINATED HAZARDOUS WASTE SITES. THE INSTALLATION RESTORATION PROGRAM AT MORTON IS INDEPENDENT OF BOTH THE PLANNED CLOSURE OF MORTON AIR PORCE BASE AND THE PROPOSED RELOCATION OF THE SALLISTIC HISSILE ORGANIZATION. THE INSTALLATION RESTORATION PROGRAM WILL CONTINUE UNAPPECTED IN EITHER CASE. HO SITES, NO INSTALLATION RESTORATION PROGRAM SITES, EXIST WITHIN THE BUILDING 950 COMPLEX WHICH WOULD BE CLOSED IN A RELOCATION OF THE BALLISTIC MISSILE ORGANIZATION. SECOND. ONLY A SHALL ANGUNT OF MAZARDOUS MATERIALS ARE USED OR HASARDOUS WASTE GEWERATED IN DIRECT

GILLESPIE REPORTING SERVICES

21

SUPPORT OF THE BALLISTIC HISSILE ORGANISATION OTHER THAN THOSE "ASSOCIATED WITH TYPICAL FACILITY MAINTENANCE ACTIVITIES. ALSO, THERE ARE NO UNDERGROUND STORAGE TANKS LOCATED WITHIN THE BHO FACILITY.

LET ME RESTATE THAT THE IMSTALLATION RESTORATION PROGRAM IS SEPARATE FROM THE BASE CLOSURE ENVIRONMENTAL PROCESS. THE AIR FORCE IS COMMITTED TO CLEAMING UP MASAROOUS WASTE SITES RESULTIVE FROM PAST PRACTICES.

THE DRAFT ENVIRONMENTAL IMPACT STATEMENT FOUND IMPACT TO THE NATURAL ENVIRONMENT AS FOLLOWS:

IN ORGINGY AND SOILS, WE EXPECT NO INPACT ON GEOLOGICAL RESOURCES UNDERLYING THE BASE AND BEDUCED POTENTIAL FOR SOIL CONTAINMATICH FROM SPILLS OF MATAROOUS NATERIALS.

FOR WATER RESOURCES, NO SIGNIFICANT
IMPACTS ARE EXPECTED ON GROUND OR SURFACE WATERS
DUE TO THE PROPOSED RELOCATION OF SMO.

IN AIR QUALITY, THE RELOCATION OF BHO MOULD RESULT IN A SLIGHT REDUCTION IN AIR POLLUTARY EMESICUS IN THE AREA. MOMEYER, THE STATIONARY AND HOBILE SOURCE EMISSIONS ASSOCIATED WITH THE OPERATIONS OF SHO AND ITS EMPLOYEES.

GILLESPIE REPORTING SERVICES

EMISSIONS IN SAM BERMARDING COUNTY. COMSEQUENTLY, THOUGH BENEFICIAL, THE IMPROVEMENT IN AIR QUALITY MOULD NOT BE MOTICEABLE.

FOR MOISE, WE ANTICIPATE A SLIGHT REDUCTION IN TRAFFIC MOISE.

AND FOR SIGLOGICAL RESOURCES, THERE WOULD SE NO ADVERSE INPACTS TO SIGLOGICAL RESOURCES AS A RESULT OF THE PROPOSED CLOSURE, AND NO INPACTS TO

IN CLOSING, LET HE MENING YOU THAT THIS STUDY IS IN A DRAFT STACE. QUE GOAL IS TO PRODUCE -- IS TO PROVIDE AIR PORCE DECISION MAKERS WITH ACCURATE INFORMATION ON THE ENVIRONMENTAL COMSEQUENCES OF THIS PROPOSAL. TO DO THES. TOMIGHT WE ARE SOLICITING TOUR COMMENTS ON THE DRAFT ENVIRONMENTAL IMPACT STATEMENT. THIS INFORMATION, COUPLED WITH THE OTHER STUDIES OF COLL BOOK, WILL SUPPORT INFORMED AIR FORCE DECISION MAKING.

COL. TROMPSOM: I'D NOW INVITE
COMMENTS FROM YOUR ELECTED OPPICIALS. FIRST TO BE
RECOGNIZED IS REPRESENTATIVE GEORGE BROWN.

REP. SPOWN: THAME TOU VERT MUCH.

COL. THOMPSON, AND THE OTHER DISTINGUISHED MEMBERS
OF THIS HEARING TEAM. I APPRECIATE THE HARD WORK
THAT YOU ARE PUTTING :NTO THIS PROCESS, AND I SHOW

TRANSCRIPT 3 34 THAT THE BALLISTIC HISRILE ORGANIZATION SHOULD THAT IT WILL RESULT IN THE BEST INFORMED POSSIBLE REMAIN RIGHT MERE WHERE IT IS IN BEAUTIFUL SAN DECISION ON THE PART OF THE AIR FORCE. SERNARDING. CAPACITY AS AN ELECTED PUBLIC OPPICIAL, BUT AS A THE 1988 CORRESSION ON BASE REALIGNMENTS PART OF A TEAM OF LOCAL PUBLIC OFFICIALS AND OTHER AND CLOSURES STATED ALTHOUGH HORTON AIR FORCE BASE SHOULD CLOSE. BNO SHOULD STAY AT ITS PRESENT SITE LEADING CITIZENS OF THE AREA WHO HAVE FORMED WHAT ADJACENT TO MORTON. WE CALL THE INLAND EMPIRE SPACE SYSTEMS DIVISION ON PAGES 77 AND 78 OF THE REPORT, THE RELOCATION GROUP. VERY IMPRESSIVE TITLE, BUT ITS INTENT IS OBVIOUS, AND THAT IS TO MAKE THE HOST COMMISSION STATED THAT -- AND I QUOTE -- "BECAUSE FORCEFUL POSSIBLE PRESENTATION FOR THE PARTICULAR 10 OF THE BIGH COST OF RELOCATION AND THE PUNCTIONAL REQUIREMENT OF THE BALLISTIC MISSILE OFFICE TO CAUSE THAT WE ESPOUSE. REWALN IN THE LOCAL AREA, THE COMMISSION THROUGH A BRIEF WRITTEN STATEMENT WHICH BASICALLY RECOMMENDS IT REMAIN AT MORTON AIR PORCE BASE." 1.4 IT IS MY OPINION THAT THESE REVIEWS THE BACKGROUND AND THEN ADDRESSES SOME OF 14 RECOMMENDATIONS HAVE THE WEIGHT OF LAW AS SIGNED THE ENVIRONMENTAL ASPECTS, AND OTHER OF THE 15 15 16 OFFICIALS SPEAKING HERE TONIGHT WILL FILL THIS IN 16 BY PRESIDENT REAGAN IN PUBLIC LAW 100-526. I 17 AND ELABORATE ON IT. 17 RECOGNIZE THAT THE AIR FORCE'S LEGAL COUNSEL HAS A AS HAS ALREADY SEEN STATED, IN HAY OF 18 DIFFERENT POINT OF VIEW, AND I APPRECIATE THE 19 THIS YEAR, THE AIR FORCE REORGANIZED ITS SYSTEMS 19 ARALYSIS THAT THEY MADE ON THIS. BUT, AS I SAID, I SELIEVE THAT ANY HOVE ORGANIZATION MERE IN SAN BERNARDING A SUBSIDIARY OF BHO FROM MORTON DURING THE LEGAL LIFE OF THE 1.4 OF SSD. AND WITH THAT REORGANIZATION, THE AIR VIOLATE THE ACT. THE TWO HAJOR CONNITTEES OF THE FORCE INCLUDED SHO IN ITS RELOCATION STUDIES. 23 23 HOUSE OF REPRESENTATIVES WITH DIRECT JURISDICTION 24 WRILE I BELIEVE IT'S APPROPRIATE FOR THE 25 AIR FORCE TO STUDY SED FOR POSSIBLE RELOCATION 25 OVER DEFENSE MATTERS APPARENTLY AGREE WITH ME. I PROM THE LOS ANGELES SITE, I ALSO FIRMLY BELIEVE HAVE WORKED WITH BOTH THE BOUSE ARMED SERVICES GILLESPIE REPORTING SERVICES GILLESPIE REPORTING SERVICES 15.5 ALTERNATIVES. SUMBER FIVE, ACTUALLY. COMMITTEE AND THE APPROPRIATIONS COMMITTEE THIS I WANT NOW TO TURK TO THE ENVIRONMENTAL YEAR TO HAVE LANGUAGE INCLUDED INTO THE FY IMPACT STATEMENT ITSELF AND OFFER A FEW COMMENTS BOTH AUTHORISATION AND APPROPRIATION BILLS WHICH THAT I WOULD LIKE TO HAVE YOU CONSIDER IN MAKING WOULD MANDATE THAT BNO REMAIN IN SAM BERNARDING. THE FINAL REVISIONS OF THE DOCUMENTS. AND I WILL IN ADDITION TO THE LEGAL REASONS, THERE ARE ALSO ECONOMIC AND OPERATIONAL REASONS WHY THE SUBMIT A WRITTEN STATEMENT AMPLIFTING ON THIS. FIRST, I NOTE THAT THE EIR'S ESTIMATE OF AIR FORCE SHOULD LEAVE BHO WHERE IT IS. THIS IS, OF COURSE, A LITTLE BIT OF BOOSTERISH, BUT WE THE ECONOMIC LOSS TO THE INLAND EMPIRE FOR ANY NOVE OF BRO IS SIGNIFICANT LOWER TRAN THE IS BOTH WITHIN THE SCIENTIFIC, CONNERCIAL AND ESTIMATES RECENTLY MADE IN ANOTHER DRAFT REPORT ON 10 11 SHO COMBUCTED FOR THE AIR FORCE BY A COMBULTANT! INDUSTRIAL HEARTLAND OF SOUTHERN CALIFORNIA AND THAT REPORT. THE LOCAL ECONOMIC CONSEQUENCES 12 WITHIN A PART OF SOUTHERN CALIFORNIA WHERE THE 4.11 QUALITY OF LIFE IS HIGH BUT THE HOUSING COSTS AND OTHER COSTS ARE HORE AFFORDABLE THAN HOST OTHER INLAND EMPIRE, OUR REGION WOULD LOSE \$544 MILLION 15 IN INCOME. THE RIS ESTIMATED A LOSS OF ONLY AREAS. IT'S ALSO AN AREA THAT WAS A LONG 15.5 TRADITION OF HOUSING AIR PORCE FACILITIES AND 16 \$210 HILLION IN REGIONAL INCOME. 17 AND I WOULD LIKE TO HAVE YOU -- AND I'M PROVIDING HOSPITALITY AND SUPPORT TO THOSP 16 SURE YOU WILL -- TRY TO RECONCILE THESE AND COME PACILITIES AND THEIR PERSONNEL. 10 UP WITH THE BEST POSSIBLE ESTIMATE OF THE ECONOMIC AS AN INDICATION OF THE DEPTH OF SUPPORT 19 20 IN THE ENTIRE INLAND EMPIRE FOR AIR PORCE SECONDLY, I NOTE THAT ON PAGE 4.2-7 OF FACILITIES, LET ME POINT OUT THAT 190 COMMUNITY 2 1 LEADERS FROM THIS AREA RECENTLY SIGNED A LETTER TO THE EIS, IT IS STATED THAT ANOTHER EIS WILL CONSIDER THE CUMULATIVE ECONOMIC EFFECTS THAT THE 4.13 2) FORCE TO REEP SHO HERE AND TO GIVE STRONG CLOSINGS OF BOTH HORTON AND GEORGE AIR FORCE BASE 24 CONSIDERATION TO BRINGING SED TO MARCH AIR FORCE 25 WOULD HAVE ON THE ECONOMIC IMPACT OF ANY HOVEHERT 25 OF SHO FROM SAN BERNANDING. I REQUEST THAT THIS BASE, WHICH, AS I HOTED, IS ONE OF YOUR ditteshif schouling schaices GILLESPIE REPORTING SERVICES

F.1-63

TRANSCRIPT 3 3 6 EMPIRE, LIKELY INCREASE THAT POLLUTION AS BRC'S CUMULATIVE ECONOMIC EFFECT BE INCLUDED IN YOUR FORMER EMPLOYEES COMMUTE MUCH LONGER DISTANCES TO FINAL EIE SO THAT THE FULL INPACT OF ANY HOVE OF MEN JOBS OUTSIDE OF OUR IMMEDIATE REGION. BRO CAN SE NOST ACCURATELY JUDGED. 4.13 LONGER COMMUTES ALSO HAVE OTHER SOCIAL I ALSO REQUEST THAT THE CUMULATIVE COSTS, SUCH AS CREATING A WEED FOR EXPENSIVE ECONORIC EFFECTS SE ASSESSED AS PRECISELY AS TRANSPORTATION SYSTEM, CONSTRUCTION AND POSSIBLE AND NOT MERELY THROUGH THE USE OF AMECDOTAL EVIDENCE. MAINTENANCE. THERE ARE ALSO QUALITY-OF-LIFE COSTS FINALLY, I SEE THAT THE EIS CONCLUDES THAT CAN RESULT FROM PARENTS SPENDING MORE TIME ON 4.9 THAT A RELOCATION OF SED TO MARCH WOULD CONFORM TO THE BOAD AND LESS TIME AT HOME WITH THEIR CHILDREN AND SPOUSES. AND I WOULD LIKE TO REQUEST THAT THE QUALITY MANAGEMENT DISTRICT, THAT ORGANIZATIONS 11 LOCATE OUTSIDE THE CENTER OF LOS ANGELES WHENEVER 12 13 13 POSSIBLE IN ORDER TO REDUCE LONG COMMUTES, TRAFFIC 2.500 EMPLOYEES LOSE THEIR LOCAL JOBS AND MAVE TO 14 14 CONGESTION AND RESULTING MIGHER AIR POLLUTION. START COMMUTING TO WORK OUTSIDE THE INLAND 15 HOWEVER. HOTABLY ASSENT PROM THE EIS SECTION OF 13 SHO WAS ANY REFERENCE TO THE POSITIVE 16 EMPIRE. 4.9 ENVIRONMENTAL ROLE THAT SHO PLAYS IN CONFORMING TO 17 AND IN CONCLUSION, I SELIEVE THAT THE 18 RECOMMENDATIONS OF THE 1948 COMMISSION ON BASE THIS AIR QUALITY MANAGEMENT DISTRICT 19 REALIGNMENTS AND CLOSURES WHICH WERE ACCEPTED BY RECOMMENDATION AND THE ROLE AND PLAYS IN CORRECTING THE JOSS-HOUSING INSALANCE IN SOUTHERN THE SECRETARY OF DEFRHSE AND CONGRESS MAKE IT CLEAR THAT SHO SHOULD STAY HERE AT MORTOW. CALIFORNIA. THE MORE THAN 2,500 DIRECT AND 6,000 I ALSO BELIEVE THAT ECONOMIC PAIRMESS 22 22 INDIRECT JOBS ASSOCIATED WITH BWO REPRESENT 23 DICTATES THAT BNG SHOULD STAY AT MORTON, GIVEN THE 23 TROUGANDS OF CONVENIENT, SHORT DAILY CONNUTES FOR 24 AREA RESIDENTS. SHORT CONNUTES HELP REDUCE AIR EXPECTED IMPACT OF BASE CLOSINGS AND REALIGNMENTS POLLUTION. THUS, ANY CLOSURE OF SHO WOULD. 25 WHICH THE INLAND EMPIRE IS ALREADY SCHEDULED TO INSTEAD OF REDUCING AIR POLLUTION IN THE INLAND EXPERIENCE. CILLESPIE REPORTING SERVICES GILLESPIE REPORTING SERVICES HC CARTHY." AND LAST, AND PERHAPS HOST IMPORTANTLY. THERE ARE SIGNIFICANT BENEFITS TO THE AIR FORCE IN THANK YOU. COL. THOMPSON: HEXT IS MR. STEVE RETPING BHO AT HORTON AND HOVING SED TO HEARSY PORTELL, REPRESENTING STATE SENATOR BILL LEGNARD. MARCH AIR FORCE BASE. MR. POWTELL: I WOULD REQUEST THE THANK YOU VERY NUCH, GENTLEMEN. COL. COL. THOMPSON: MAYOR LAURIE TULLY OF THE CITY OF RIGHLAND.

MAYOR TULLY: I'D LIFE TO TRANK THE PAMEL FOR THE OPPORTUNITY TO SPEAK TOKIGHT. MY MANE IS LAURIE TULLY. I AM THE MAYOR OF THE CITY OF RIGHLAND. I CURRENTLY DON'T ENOW WHAT OUR ADDRESS IS. WE ARE IN THE PROCESS OF MOVING TO AM OLD MORTDARY, SO -- WE ARE SOMEWHERE ON SASE LIKE.

GILLESPIE REPORTING SERVICES

AND 92346 IS THE EIP CODE.

WIGHLAND IS LOCATED DIRECTLY ADJACENT TO HORTON AIR FORCE BASE AND SURROUNDS THE MORTHEAST AREA OF THE BASE WITH MUCH QUALITY ROUSING THAT'S UTILIZED BY OUR MANY BASE EMPLOYEES AND CIVILIANS THAT MORE ON BASE.

I'D LIER TO DISCUSS THE ENVIRONMENTAL IMPACTS THAT ADVERSELY AFFECT OUR CITY IN ITS OPERATIONS, AND I'D LIKE TO READ A LETTER ABORSESSED TO LT. BARTOL WITH COPIES THAT I WILL PROVIDE TO YOU.

"DEAR COL. BARTOL" -- ON, LIEUTEMANT
COLOMEL. THEY'VE MESSED TOU UP, SORRY -- "ON
BEHALF OF THE CITY OF MIGHLAND, WE WISH TO URGE
SUPPORT FOR REFPING THE SALLISTIC MISSILE
ORGANIZATION AT MORTON AIR FORCE BASE. OUR CITY
REPRESENTS A LARGE MUMBER OF AIR FORCE AND
CIVILIAN EMPLOYESS WHO WORK IN SHO. THE ECOMONIC
IMPACT UPON SURROUNDING COMMUNITIES BY THE LOSS OF
BHO AND THE \$110 MILLION PAYROLL AND OTHER DOLLARS
WILL BE CONSIDERABLE. WE CAN ILL APPORD TO LOSE
SOME 8,700 DIRECT AND INDIRECT JOBS IN ADDITION TO
THE LOSS OF THE EMPLOYEES.

**FORTHER, THE CITY OF HIGHLAND IS ALREAD ANTICIPATING THE LOSS THAT WILL BE FELT WHEN MORTON AIR FORCE BASE CLOSES AND MANY OF OUR

GILLESPIE REPORTING SERVICES

47

RESIDENTS THAT WILL BE LEAVING THE AREA.

"THE DRAFT ENVIRONMENTAL INPACT STATEMENT STATES, "THE PURPOSE FOR THE BHO RELOCATION IS FOR BETTER SPACE STSTEMS DIVISION MANAGEMENT." THE CLOSE PROXIMITY OF BHO TO SED HOW, AND ESPECIALLY IF SED RELOCATES TO MARCH AIR FORCE BASE, WOULD HORE THAN HEET THE SEEDS AND MOULD RESQLT IN BIGHIFICANT COST SAVINGS TO THE AIR FORCE.

"THE CITY OF RIGHLAND HAS BEEN A GOOD HEIGHBOR. A STRONG SUPPORTER OF MORTON AIR FORCE BASE FOR TEARS. THE CONRUNITY SUPPORT EAS PROVIDED A HIGH QUALITY OF LIFE FOR AIR FORCE PERSONNEL LIVERED OF AFFORDABLE EQUISING, LOWER COST OF LIVING, AND OVERALL ACCIPTANCE TO THE CONRUBITY.

"WE URGE YOUR PAVORABLE SUPPORT FOR RETAINING THE BALLISTIC HISSILE ORGANIZATION AT FORTOR AIR FORCE BASE. YOURS IRULY, LAURIE TULLY,

NOT OPLY IS THE CITY CONCERNED FOR OURSELVES. SECAUSE I DON'T WANT TO JUST SAY WE ARE SEIMS SELFISH IN OUR ECONOMIC INTERESTS. WE ARE ALSO CONCERNED ON THE IMPACT AND INTERROPTIONS TO THE CITY -- CITIZENS OF OUR CITY WHO RAVE ESTABLISHED POOTS AND SECONE ACTIVE IN OUR COMMUNITY. WE IN MIGHLAND HAVE A LARGE ANOUNT OF

GILLESPIE REPORTING SERVICES

RESIDENTS INVOLVED IN OUR PROGRAMS AND WE WOULD SUPPER TERRISLY FROM THE LOSS OF TRESE GOOD CITISINS. YOUR FOLKS ARE GOOD CITIZENS, AND WE APPRECIATE THEIR SUPPORT IN OUR CITY.

ON THE ECONOMIC END OF THE IMPACT, THE MIGHLAND CHARBER OF COMMERCE PRESIDENT MAS ALSO ASSED ME TO EXPRESS FOR THE DRAMATIC IMPACT THAT WILL BE EXPERIENCED BY THE LOCAL RUSINESSES. THE CHAMBER URGES THAT YOU COMBIDER RETAINING THE BHO AT MORTOM AIR FORCE

THANK YOU FOR YOUR CONSIDERATION.

COL. TROMPSON: LAGIES AND GENTLEMEN.
IN JUST A MOMENT I AM GOUNG TO TAKE A SRIEF

COL. THOMPSON: JAY A. PAUL.

MR. PAUL: NY MANE IS JAY PAUL. I
REPRESET THE CITY OF HIGHLAND AT 27215 SABT BASE
LINE. I REALLY DIDN'T HAVE ANYTHING FURTHER TO
SAY THAN WHAT HAYOR TULLY MAD SAID, OTHER THAN THE
CITY OF HIGHLAND DOES NOT WANT TO SEE BMO LEAVE
THE AREA, AND WE SUPPORT SED-L.A. MOVING TO MARCH
ALE FORCE BASE

I DID HAVE SOME QUESTIONS THAT WOULD PROBABLY TAKE LONGER THAN MY ALLOWED FIVE HIMTES ON SOME OF THE ENVIRONMENTAL QUESTIONS, AND I WILL RESERVE THOSE AT A LATER DATE TO ADDRESS THEN IN WRITING TO YOU.

THANK YOU.

COL. TROMPSON: TRADES. JIR

DR. APPLETON: GOOD EVENING. MY WANT

IS DR. JIM APPLETON. I AM PRESIDENT OF THE

GILLESPIE REPORTING SERVICES

UNIVERSITY OF REDLANDS AND, ALSO, DIRECTOR OF INLAND ACTION, A GROUP OF COMMUNITY LEADERS WHICH FOR 28 YEARS WAS GIVEN SUPPORT TO THE AIR FORCE ACTIVITY IN THE INLAND EMPIRE. I LIVE ON BOSEMONT

THERE'S AN ASPECT OF THIS MATTER WRICH
THE AIR FORCE MAY NOT BE REQUIRED BY TITLE 10 TO
TAME IN'O ACCOUNT IN QUITE THE DETAIL THAT I WOULD
LIKE TO AND TO THE CONSIDERATION OF LOCATION;
MANELY, THAT THERE ARE EQUCATIONAL ADVANTAGES IN
THIS AREA FOR THE PERSONNEL ASSIGNED TO AIR PORCE
ACTIVITY AND THE SUPPORT AGENCIES WRICE ARE
EXTRAORDINARY AND -- NOT UNIQUE, BUT VERY UNUSUAL,
AND DUGNT TO BE ADDED TO THE CONSIDERATION OF
LOCATION. AND I THINK THIS POSITION TRUDS TO
SUPPORT YOUR MUNSEE ONE AND FIVE OPTIONS.

QUALITY EDUCATION IS ORGANISED AT DIFFERENT INCREMENTS -- SLENGTHANY SCHOOL, SECONDARY, RIGHER EDUCATION -- BUT DUGET TO REVIEWED AS A SEAM -- AS A SYSTEM WITH SIMPLY VERY TIGHT SEAMS AMONG THEM. AND WE TRY IN THIS ABEA TO CONCEPTUALISE EDUCATION IN THAT WAY. SO QUALITY EDUCATION BEGINS IN THE ELEMENTARY SCHOOL

AND IT'S VERY IMPORTANT FOR ME TO REPRESENT MY COLLEAGUES IN NOTING THAT LOCAL

AND THEM TO SPEAK NORE TO MY AREA OF INTEREST AND, I SUPPOSE, EXPERTISE, THE INLAND ENPIRE MAS SOME OF THE NOST PRESTIGIOUS COLLEGES AND UNIVERSITIES IN THE UNITED STATES. MITSEN A JO-HUNTE DRIVE OF WHERE WE ARE THIS EVENING, THERE ARE FOURTIEM RIGHER EDUCATIONAL INSTITUTIONS WHICH PREPARE STUDENTS IN A WIDE RANGE OF DISCIPLIMES. THIS WOULD NOT BE AVAILABLE IN MANY OF THE OTHER SITS LOCATIONS.

THE EXPERT FACILITIES, THE FACULTIES, THE LIBRARIES, HODERN RESEARCH CENTERS, PLANNED CARPUS FACILITIES AND THE GRADUATE AND UNDERGRADOUATE STUDENTS THEMSELVES ALL PROVIDE LOCAL SUSINESSES IN THE COMMUNITY WITH A WEALTH OF RESOURCES. THE SUPPLIERS OF SEN TALENT AND HIGHLY EDUCATED EMPLOYEES, THESE COLLEGES AND UNIVERSITIES OFFER AN INVALUABLE RESOURCE. THEY ALSO MOST EXISTING EXPLOYEES OF LOCAL SUSINESS AND INDUSTRY BY PROVISING OMGOING TRAINING IN MANAGEMENT TECHNIQUES, CONTINUING EDUCATION AND CLASSES FOR THE ADVANCEMENT OF THE LOCAL AREA MORE FORCE

GILLESPIE REPORTING SERVICES

THROUGH VARIOUS EXTENSION PROGRAMS.

AND I REPEAT THAT THESE RESOURCES ARE NOT AVAILABLE IN THE SAME SREADTH AND DEPTH AT THE OTHER LOCATIONS WEICH ARE SEING CONSIDERED.

THERE ARE TWO OTHER VERY UNIQUE FEATURES THAT I WILL JUST ILLUSTRATE TO SUPPORT THE EDUCATIONAL VALUES OF THIS AREA FOR MILITARY PERSONNEL AND SUPPORT PERSONNEL; ONE, THAT WE REPRESENT IN THIS INLAND EMPIRE A VERY UNUSUAL SLEED OF PUBLIC AND PRIVATE INSTITUTIONS. IN THIS INLAND EMPIRE, WE HAVE A UNIVERSITY OF CALIFORNIA AT REVERSIOE, WE HAVE A STATE COLLEGE CAMPUS, CALIFORNIA STATE UNIVERSITY AT SAM SERWARDING; WE HAVE SIX COMMUNITY COLLEGES; WE HAVE A PRESTICIOUS MEDICAL FACILITY AND EDUCATIONAL PROGRAM; AND, IF I MAY SAY SO, A PRESTICIOUS PRIVATE UNIVERSITY CALLED THE UNIVERSITY OF REDLANDS, AND OTHERS THAT ARE WITHIN THIS JO-RILE LOCATION.

MANY OF OUR PROGRAMS PAY PARTICULAR ATTENTION AS WELL TO ADULT LEARNING. AND TO ILLUSTRATE ONE SUCH PROGRAM, THE WHITEREAD CENTER AT THE UNIVERSITY OF REDLANDS HAS A DEGREE COMPLETION PROGRAM FOR PERSONNEL THAT SAVE SEEN IN WORK SITUATIONS AND IN HIDDLE MANAGEMENT SITUATIONS ALL THE WAY FROM AGE 25 INTO AGE 80 50

TRANSCRIPT 3 THAT THEY WOULD HAVE THE OPPORTUNITY TO COMPLETE COMMUNITY LEADERS DEDICATED TO THE ECONOMIC AND AND, IN ADDITION, A MASTER'S OF BUSINESS ITS SURROUNDS WITHIN THE CONFINES OF THE PROGRAM THAT IS EXACTLY GEARED TO THE KIND OF ENVIRONMENT THAT WE MUST ALL LIVE WITHIS. THAT IS PERSONNEL THAT THE HILITARY REPRESENTS IN THIS NOT REALLY WHAT WE ARE HERE TO SPEAK TO YOU AND I ONLY SAY THAT TO ILLUSTRATE A WE COME TO YOU, SIR, TO SPEAK MITH OME VOICE REPRESENTING RIVERSIDE COUNTY TO SAY TO YOU CAMPUS I KNOW BEST. BUT I KNOW THAT MY COLLEAGUES AT THE UNIVERSITY OF CALIFORNIA, MY COLLEAGUES AT THAT WE ARE FIRMLY IN SUPPORT OF THE ALTERNATIVE 15.10 CALIFORNIA STATE AT SAN BERNARDING JOIN ME IN 10 THAT WOULD BRING SPACE SYSTEMS DIVISION TO MARCH 11 INDICATING THAT WE WOULD WANT YOU TO ADD TO YOUR THIS AREA WHICH ARE EXTRAORDINARY, AND WHICH ARE 13 THE INCARD EMPIRE IS NOT A DISJOINTED GROUP OF DISSIBILAR INTERESTS WORKING AGAINST EACH NOT AVAILABLE IN THE SAME BREADTH AND DEPTH AS OCCURS IN THE INLAND EMPIRE FOR BOTH THE CHILDREN 15 OTHER, FIGHTING FOR SITS AND PIECES OF THE 16 AND THE ADULT PERSONNEL THAT YOU REPRESENT IN THIS 16 ECONOMIC PIE, BUT, BATHER, A COMING TOGETHER OF 17 17 PEOPLE WHO ARE SPEAKING WITH ONE VOICE IN THEIR SUPPORT OF THIS PARTICULAR OPTION, MARCH AIR FORCE 18 THANK YOU VERY RUCH 18 COL. THOMPSON: ROBERT WOLF. BASE OR SSD, AND THE LOCATION OF -- THE 20 MAINTAINING OF SHO HERE AT MORTON AND OTHER HEMBERS OF THE TEAM. I APPRECIATE THE WE FEEL THAT THIS IS THE MOST ENVIRONMENTALLY SOUND ALTERNATIVE THAT HAS BEEN 22 OPPORTUNITY TO SPEAK THIS EVENING. PROPOSED IN ALL OF THOSE PUT FORTH IN THE STUDIES MY HAME IS BOB WOLF, 11441 HEACOCK, 24 HORENO VALLEY, RIVERSIDE COUNTY, CALIFORNIA. I AM PERFORMED BY THE AIR PORCE. WE FEEL, MOMEYER, 25 HERE TODAY IN CAPACITY OF THE CHAIRMAN OF THE 25 THAT THERE IS A POSSIBILITY THAT THEY WILL HOT SEE VALLEY GROUP, AN ORGANIZATION OF BUSINESS AND THE AMOUNT OF LIGHT THAT IS NECESSARY TO HAKE THEM GILLESPIE REPORTING SERVICES GILLESPIE REPORTING SERVICES THE FINAL DECIDING FACTOR IN TARING THIS, THE HOST THAT REVIEWS HANT OF THESE, THIS ONE WAS VERY WELL LOGICAL COURSE OF ACTION. PUT TOGETHER AND EASY TO READ. A COUPLE OF SPECIFIC POINTS WITHIN THE WE WOULD RESPECTFULLY REQUEST THAT THE ENVIRONMENTAL INPACT STATEMENT THAT I WISH TO ECONOMIC DECISIONS THAT ARE HADE BE BASED UPON SOUND ECONOMIC AND FISCAL RESOURCES. WE ASK THAT QUESTION OR AT LEAST BRING TO YOUR ATTENTION. AS WAS STATED BARLIER, "THE REHOVAL OF AN THE STUDIES TRAT ARE MADE TO ASCERTAIN ACTUALLY WHAT IT COSTS TO HOVE AND WHAT IT WOULD ACTUALLY KNOWN TO GENERATE NEGATIVE ENVIRONMENTAL IMPACTS. COST TO MAINTAIN THE FACILITIES FOR EACH OF THE ALTERNATIVES BE DONE NOT AS A BROAD-BASED -- OR AND I WOULD QUESTION THAT STATEMENT THAT LT. BROAD SWEEP AND IN GENERALIZED TERMS, BUT, RATHER, COL. BARTOL HADE EARLIER WITH REGARD TO THE FACT BE FULLY EXPLORED TO THE GREATEST DEPTH, SO A REAL 11 THAT ON PAGE 2-8 OF THE ENVIRONMENTAL IMPACT FIGURE OF THE COSTS AND DOLLARS CAN BE 12 STATEMENT, THE PARAGRAPH INDICATES THAT ASCERTAINED, SO THAT THE REAL COSTS IN NUMAN LIVES 45 PERCENT OF THE PERSONNEL PROM THE SPACE SYSTEMS 13 13 THAT ARE HOVED FROM HORTON FOR BHO WHAT COSTS 14 AIR FORCE BASE WOULD REMAIN IN EXISTING RESIDENCE 15 COULD BE, IN FACT, AVOIDED. 3.29 IN SAN BERNARDING. THOSE INDIVIDUALS WILL APPRECIATE YOUR TIME, SIR, AND THE 17 OBVIOUSLY HAVE TO RELOCATE TO POSITIONS AND JOSS 17 OPPORTUNITY. COL. THOMPSON: STEVE PONTELL. 18 SOMEWHERE WITHIN A COMMUTING DISTANCE. AND AS 19 CONGRESSMAN BROWN INDICATED EARLIER, THAT 20 COMMUTING DISTANCE COULD VERY OFTEN BE IN THE LOS OPPORTUNITY, COL. THOMPSON. MY MANE IS STEVE ANGELES OR GRANGE COUNTY AREA, ESSENTIALLY PONTELL. I AM PRESIDENT OF THE INLAND EMPIRE 21 21 22 ECONOMIC COUNCIL AT 800 WORTH MAVEN. SUITE 100. 23 QUALITATIVE CONSTRAINTS 23 ONTABIO, CALIFORNIA. AND I THINK THAT THE SAME COMMENTS COULD FIRST, I'D LIKE TO COMMEND THE AIR PORCE BE HADE WITH A VARIETY OF THE DIFFERENT SPECIFIC AND ITS CONSULTANTS ON AN EXCELLENT DRAFT 25 ENVIRONMENTAL IMPACT STATEMENT. IN A CAPACITY RESOURCE IMPACTS THAT ARE OUTLINED ON THE BACK OF GILLESPIE REPORTING SERVICES GILLESPIE REPORTING SERVICES

TRANSCRIPT 3 62 ALREADY. AND THAT HAS TO DO WITH THE COMMUNITY ANOTHER CORNERT WITHIN YOUR ENVIRONMENTAL SETTING, THE PHYSICAL OR MANHADE ENVIRONMENT OF TACH OF THE COMMUNITIES BEING CONSIDERED AND EACH IMPACT STATEMENT DEALS, ON PAGE 4.1-11, WITH THE OF THE ALTERNATIVES BEING ADDRESSED. THE FIRST CUMULATIVE IMPACTS. AND I WOULD CAUTION IN THE WAS THE UNIVERSITY SUPPORT SYSTEM AND, AS FINAL ENVIRONMENTAL IMPACT STATEMENT STATEMENTS SUCH AS. "ALTHOUGH THE RESULT OF TRESE REDUCTIONS DR. APPLETON MENTIONED, 14 FOUR-YEAR COLLEGES. WILL BE INCREASED UNEMPLOYMENT AND BUSINESS AND AN ADDITIONAL STATEMENT IS THAT THEY GRADUATE 4.000 GRADUATES PER YEAR, WHICH IS A SIGNIFICANT CUTBACKS, THE STRENGTH AND DIVERSITY OF SOUTHERN INFRASTRUCTURE RESOURCE AVAILABLE WITHIN THIS 4.32 CALIFORNIA'S ECONOMY AND LABOR FORCE SHOULD ACCOMMODATE THESE CRANGES WITHOUT LONG-TERM REGION THAT I THIME, STACKED UP AGAINST OTHER ALTERNATIVES, WOULD BE SIGNIFICANT. IMPACTS." THE SECOND IS THE LABOR FORCE OF THE 12 I THINK THAT IN THE PINAL DRAFT -- THE 12 15.10 INLAND EMPIRE. WE HAVE OVER 300,000 RESIDENTS --13 FINAL ENVIRONMENTAL IMPACT STATEMENT, MAYBE A MORE 13 QUALITATIVE STATEMENT OTHER THAN A "SHOULD BE ABLE 14 AND THIS IS AN ESTIMATED NUMBER -- COMMUTING OUT TO ABSORB IT" HIGHT BE A BETTER WAY TO INDICATE 15 OF THE INLAND EMPIRE INTO L.A. AND GRANGE COUNTY. 15 THE CUMULATIVE IMPACTS. THOSE RESIDENTS PROVIDE A SIGNIFICANT POTENTIAL LABOR FORCE FOR ANY FUTURE NEEDS OF EITHER THE AND, SPECIFICALLY, WITH REGARD TO THE 17 AREA IN AND AROUND THE BALLISTIC MISSILE SPACE SYSTEMS DIVISION MOVING TO MARCH OR THE BALLISTIC MISSILE ORGANIZATION REMAINING AT 19 ORGANIZATION, OBVIOUSLY THE CUMULATIVE IMPACTS OF 19 4.13 MORTON. AND I THINK THAT THAT KIND OF AM AMALYSIS THE SHUTDOWN OF MORTON AIR FORCE BASE AND GEORGE 20 20 21 AIR FORCE BASE ON THIS SPECIFIC LOCALE WILL BE. AS 21 OF THE LABOR FORCE OF EACH OF THE COMMUNITIES 1 22 SUPERVISOR HANNOCK SAID, TREMENDOUS, 22 BEING CONSIDERED WOULD GENERATE SOME INTERESTING THERE ARE BIX ADDITIONAL POINTS THAT I 23 1 23 PINDINGS. TRIME I WOULD LIKE TO MAKE THAT ARE NOT ADDRESSED 24 THE THIRD IS THE HEALTH CARE SUPPORT. 15.10 IN YOUR DRAFT ENVIRONMENTAL IMPACT STATEMENT, TWO THERE ARE OVER 7,000 HOSPITAL BEDS AVAILABLE IN OF WHICH HAVE BEEN HIT TO A CERTAIN DEGREE THE INLAND EMPIRE AREA, AND ALONG WITH THAT ARE GILLESPIE REPORTING SERVICES GILLESPIE REPORTING SERVICES SEVERAL VETERANS HOSPITALS AND FEDERALLY FUNDED COSTS. AND ONE ISSUE THAT HIGHT BE LOOKED AT WITHIN THE CONFINES OF YOUR ENVIRONMENTAL IMPACT FACILITIES, INCLUDING THE MAJOR RESEARCH FACILITY STATEMENT HAS TO DO WITH THE ISSUES OF HOUSING IN LONA LINDA. IF YOU WERE TO COMPARE THE HEALTH CARE INFRASTRUCTURE OF THE VARIOUS REGIONS, WE APPRECIATION. IF AN INDIVIDUAL WERE TO MOVE INTO A ROUSING UNIT IN THE INLAND EMPIRE, THEY CAN THINK THAT THAT WOULD BE AN IMPORTANT ADDITIONAL ANTICIPATE SOME APPRECIATION IN THE HEAR FUTURE. COMSIDERATION. SINCE I HAVE A RED CARD, I WILL SPEED THE FOURTH IS, YOU HAVE MENTIONED TRANSPORTATION SITUATIONS IN THEIR CURRENT STATE. THROUGH THIS. BUT IT NOULD BE IMPORTANT, IN MY ANALYSIS, TO THE SECOND IS THE ISSUE OF HOUSING MIX. THE ABILITY TO HAVE LOW-INCOME APPORDABLE HOUSING. APARTMENT UNITS AVAILABLE, HOUSING AT A VARIETY OF PLANS OF EACH OF THE ALTERNATIVES. IN BOTH SAN 12 LEVELS WITHIN THE INLAND EXPIRE. 12 BERNARDING AND RIVERSIDE COUNTIES, HALF-CENT SALES THE THIRD ISSUE IS THE BASIC HOUSING 13 TAX INITIATIVES HAVE BEEN PASSED WHICH PROVIDE 13 15.10 15.10 AFFORDABILITY. IF YOU WERE TO LOOK AT SPECIFIC 14 FURDING FAR AND ABOVE THAT WHICH ANY OTHER REGION 14 15 WITHIN THE STATE THAT DOESN'T HAVE HALF-CERT SALES 15 POCKETS WITHIN THE INLAND EMPIRE. YOU WOULD FIND TAX MEASURES WOULD BE ABLE TO PROVIDE. EACH OF 16 HOUSING COMPETITIVE WITH ANYWHERE ELSE IN THE 17 THOSE MEASURES, IN CONJUNCTION WITH THE RECENTLY ì-NATION. AND THE SIXTH ITEM TO MAYBE ADD TO THE INCREASED GAS TAX WITHIN THE STATE OF CALIFORNIA. 19 AS WELL AS LOCAL DEVELOPMENT DOLLARS, ARE FIRAL ENVIRONMENTAL IMPACT STATEMENT HAS TO DO WITH THE RECREATION, CULTURE AND AESTHETIC ASPECTS ESSENTIALLY LAYING THE GROUNDWORK FOR STRONG 20 30 21 OF THE CORMUNITIES THAT SURROUND EACH OF THE 21 IFFRASTRUCTURE IN THE TRANSPORTATION AREA FAR INTO FACILITIES. IN THE INLAND EMPIRE, WE ARE NOT ONLY 22 THE PUTURE IN THE INLAND EMPIRE. SO THAT 22 23 CONGESTION IN THE INLAND EMPIRE IS AN ISSUE WHICH 23 CLOSE TO THE HOUNTAINS AND THE OCEAN AND THE 24 DESERT. BUT WE MAVE NUMEROUS CULTURAL ARD WE WILL CONTINUE TO ADDRESS AS OUR REGION DEALS 24 25 COMMUNITY ACTIVITIES THAT YOUR PERSONNEL, I'M THE FIFTH AREA HAS TO DO WITH HOUSING SURE, WOULD LIKE TO HAVE TAKEN INTO GILLESPIE REPORTING SERVICES GILLESPIE REPORTING SERVICES

F.1-70

TRANSCRIPT 3 65 15.10 WITH THE PRESENT JOB ENVIRONMENT, NOT REALLY WITH CONSIDERATION THE PROJECTED ONE. IN FACT, ON PAGE 3:2-3, IT THANK YOU VERY FUCH. HAVE A GOOD DAY. HR. LARKTH: HY HAHE IS DON LARKIN. I EXPERIENCED A VERY SHALL ABOUNT OF GROWTH IN RECENT YEARS." WHEN, IN ACTUALITY, THE KNOWN AN THE ADMINISTRATIVE MANAGER FOR THE PRIVATE INDUSTRY COUNCIL OF SAN BERNARDING COUNTY. CLOSURE OF GEORGE AIR FORCE AND MORTON AIR FORCE 195 NORTH ARROWNEAD, SAN BERNARDING, CC. BASES WILL HEAR A LOSS OF APPROXIMATELY 12.000 THOMPSON, OTHER MEMBERS OF THE PUBLIC REARING TEAM, THANK YOU VERY MUCH FOR THIS OPPORTUNITY TO ALSO, THE AMMOUNCED REORGANIZATION OF GENERAL DYNAMICS COULD ALSO RELATE TO A LOSS OF UP MAINLY, WHAT I WOULD LIKE TO ADDRESS IS TO 2,500 PERSONNEL THE EFFECT OF THE JOB SITUATION IN THE SAN NOW, ROST OF THESE JOBS ARE RELATED TO PROFESSIONAL AND TECHNICAL SKILLS. REALISTICALLY. 13 BERNARDING COUNTY. LAST WEEK, I HAD AN MANY OF THESE JOBS WILL BE RELOCATED. BUT IN SOME OPPORTURITY TO SPEAK WITH A FIRM THAT -- AS FAR AS CASES, THAT IS NOT TRUE. POR EXAMPLE, 1,800 OR JOB TRAINING AND PLACEMENT WITH THEM. NOW, THAT 15 15 2.500 CIVILIAN POSITIONS OF MORTON'S 43RD MILITARY 16 WAS A SMALL ENGINEERING MANUFACTURING FIRM THAT 17 EMPLOYED ABOUT EIGHT PEOPLE, AND THEY MAINLY 17 AIRLIFT WING WILL BE NOT OFFERED REPLACEMENT. MANUFACTURED SHALL ITEMS, AS FAR AS LIMITED NOW, THESE 14,500 JOBS, ADDED TO THE 2,530 19 NUMBERS, WITH THE MILITARY AND WITH DEFENSE 19 POSITIONS LEFT FROM THE BALLISTIC MISSILE ORGANIZATION, MEANS A LOSS OF OVER _7,000 JOBS IN CONTRACTORS: FOR EXAMPLE, NORTON AND GENERAL 51 DEFENSE-RELATED POSITIONS TO SAN BERNARDING DYNAMICS. MY CONCERN WAS AS FAR AS SEEING ABOUT COUNTY. NOW, THESE ARE DIRECT FIGURE COSTS AND DO ADDITIONAL JOB PLACEMENTS WITH HIS AGENCY. HIS 22 NOT INCLUDE THE INDIRECT JOBS RELATED. 23 CONCERN WAS AS FAR AS KEEPING THE JOBS THAT HE 24 CURRENTLY HAD. THE JOB TRAINING PARTMERSHIP ACT WILL 25 THE ENVIRONMENTAL IMPACT STATEMENT FOR 25 PROVIDE ASSISTANCE AS FAR AS TRAINING, PLACEMENT THE BALLISTIC MISSILE ORGANIZATION IS CONCERNED AND REL CATING OF THESE DISLOCATED WORKERS. GILLESPIE REPORTING SERVICES GILLESPIE ALPORTING SERVICES HOWEVER, SUCH A DRAWATIC CHANGE WILL REQUIRE A THE BALLISTIC RISSILE OFFICE. IF IT REHAINS, WILL ACTUALLY PROVIDE ADDITIONAL GREAT INFLUX OF FEDERAL FUNDING IN ORDER TO OPPORTUNITIES FOR DISPLACED -- FOR THOSE DISPLACED IN THE LOSS OF GEORGE, MORTON AND GENERAL THE RELOCATING OF THE BALLISTIC MISSILE OFFICE WILL HAVE TWO DRAWATIC EFFECTS NOT 1 SUMMARY, I THINK WHAT WEEDS TO ALSO BE ADDRESSED IN THE ENVIRONMENTAL IMPACT STATEMENT. CONSIDERED IS NOT JUST THE LOSS OF THE BALLISTIC FIRST OF ALL. AS WAS MENTIONED PREVIOUSLY, SAN BERNARDING COUNTY ENJOYS AN EXCELLENT EDUCATION CURRENT SITUATION IS, BUT WHAT THE PROJECTED SYSTEM THAT GRADUATES IN PROFESSIONAL AND 10 SITUATION IS. THIS COMMUNITY REALIZES THAT 11 BECAUSE OF THE POLITICAL AND PHYSICAL SITUATIONS. 11 12 THAT THE BASE CLOSURES ARE IMEVITABLE, AND THERE COMMUNITY TO THE LOS ANGELES AREA. CURRENT 12 13 ARE ALSO GOING TO BE LIMITATIONS AS FAR AS THE ESTIMATES IS UP TO IS PERCENT OF THE PEOPLE HAVE 13 DEFENSE CONTRACTORS. HOWEVER, IT DOES SEEN THAT 4.13 14 TO COMMUTE OUTSIDE THE AREA TO FIND POSITIONS. THE CLOSURE WILL INCREASE THIS AMOUNT. SURGICAL STRIKES IN THIS. WHILE WE HAVE BEEN 3 6 THE SECOND THING IS -- WHICH IS A 17 SUFFERING FROM SATURATED BONBING. AND I JUST PRINCIPAL CONCERN TO US -- IS TO PROVIDE JOB THINK THAT THE CONJIDERATION OVERALL IS THAT WE PLACEMENT FOR THOSE POSITIONS FROM GEORGE AIR HAVE TO TAKE INTO -- TAKE IN THE FACTS THAT THE FORCE BASE, NORTON AIR FORCE BASE AND GENERAL 20 OVERALL IMPACT OF THE "DES OF THE HILITARY IS DYNAMICS, REQUIRE THAT PROFESSIONAL AND TECHNICAL 20 GOING TO HAVE A DRAWATIC EFFECT ON THIS 21 JOBS BE AVAILABLE. 22 HOW, EVEN THOUGH THIS AREA MAS TRANK YOU VERY MUCH 23 EXPERIENCED A 42 PERCENT INCREASE IN JOBS CREATED COL. THOMPSON: BOB RESCHEVAL. OVER THE LAST TEN YEARS, MANY OF THESE ARE RETAIL HA PERCHTUAL: GENTLEHEN, MY MANE IS 25 MANUFACTURING, NOT IN THE PROFESSIONAL/TECHNICAL 25 BOB REPONEVAL. I W THE GENERAL HARAGER OF THE GILLESPIE REPORTING SERVICES GILLESPIE REPORTING SERVICES

TRANSCRIPT 3 SOUTHERN CALIFORNIA GAS COMPANY AND THE PRESIDENT AND OTHER MEMBERS OF THE PAREL. MY MANE IS SAN OF THE COALITION OF CHAMBERS, LOCATED AT 1931 WEST MENLEY AND I AN THE EXECUTIVE VICE PRESIDENT OF LUGORIA IN REDLANDS, AND WE REPRESENT 13 CHARBERS THE SAN BERNARDING AREA CHAMBER OF COMMERCE. OF COMMERCE THAT GENERALLY SURROUND MORTON AIR LOCATED AT 546 WEST SIXTH STREET, SAN BERNARDING. FORCE BASE, AND WE WOULD LIKE TO SUGGEST THAT THE I WOULD LIKE TO REFER TO -- ALTHOUGH WE EIS IS SONEWHAT INCORRECT IN LOOKING AT A SO-HILE HAVE GONE OVER THE ENVIRONMENTAL IMPACT STATEMENT 50-HILE RADIUS TAKES A GOOD PART OF LOS ANGELES ON BEHALF OF THE CHAMBER, WE DID ATTEND A MEETING AND GRANGE COUNTIES, AND THOSE ARE NATURAL ON AUGUST 6TH WHERE WE REVIEWED THE REPORT THAT WAS REFERRED TO BY COL. SARTOL, AND WE SUBMITTED A BARRIERS, FOR THE IMPACT. 10 WE WOULD PROPOSE AND SUGGEST THAT IN OUR 11 LETTER -- EXCUSE NE. I AM SORRY -- AND WE 4.12 TERRITORY, COVERED BY OUR 13 CHARBERS, THAT OVER 12 SUBMITTED A LETTER ON BEHALF OF THE CHAMBER. 12 LOOKING AT THAT REPORT IN PARTICULAR, AND 85 PERCENT OF THE CURRENT EMPLOYEES WORKING AT SMO THAT LETTER THAT WE SENT TO THE AIR FORCE STAFF ON AND, COMSEQUENTLY, THE IMPACT SHOULD BE MUCH HORE 15 ON A 15- TO 20-WILE RADIUS AS OPPOSED TO A SO-WILE 16 THAT, BUT I WOULD LIKE TO POINT OUT THAT WE DID RADIUS. THAT, I BELIEVE, WOULD BE A MUCH MORE 17 17 HAVE SOME CONCERNS WITH THE METHODOLOGY THAT WAS 10 TRUE IMPACT ON OUR AREA. 18 USED IN THE REPORT. AND BOB RESCHEVAL. THE 19 IN ADDITION, WE WOULD LIKE TO INDICATE 19 PREVIOUS SPEAKER. JUST MENTIONED ONE OF THOSE 4.12 THAT WE HAVE A 100 PERCENT AGREEMENT FROM ALL 13 ITEMS WHERE THE AREA WAS REFERRED TO AS THE 15.10 21 POPULATION CENTER WITHIN A SO-NILE RADIUS. AND AIR FORCE BASE AND THE CONTINUATION OF BHO AT THAT REGION INCLUDES ALL OF SAN BERNARDING AND 22 23 HORTON AIR FORCE BASE. 23 RIVERSIDE COUNTIES. 24 THANK YOU, GENTLEMEN. 24 THE USE OF THE REGION DISTORTS THE 25 COL. THOMPSON: SAN HENLEY. 25 EFFECTS OF THE CLOSURE OF THE SMO. SAN BERNARDING 26 HR. HENLEY: THANK YOU, COL. THOMPSON, AND RIVERSIDE COUNTIES ENCOMPASS A MUGE GEOGRAPHIC GILLESPIE REPORTING SERVICES GILLESPIE REPORTING SERVICES AREA, ENCOMPASSING SEVERAL DISTINCT ECONOMIC THE REPORT REFLECTS AN ECONOMY OF THE GREATER ECONOMIES, LOCAL ECONOMIES, MOST OF WHICH WILL INLAND EMPIRE IN SOME CASES, AND THE GREATER FEEL LITTLE EFFECT AT THE CLOSURE OF SMO. IN SOUTHERN CALIFORNIA IN OTHER CASES. WHILE THE COLTON, SAN BERNARDINO, MIGHLANDS, REDLANDS. LONA FACT. SAN BERMARDING COUNTY IS THE LARGEST COUNTY LINDA -- AND THE CITIES THAT I REFERRED TO -- AREA IN THE UNITED STATES. THE EFFECTS OF THE CLOSURE OF THE SHO DOES. TO SOME EXTENT, BENEFIT FROM THE GROWTH OF WILL BE PELT PRIMARILY IN THE CITIES OF SAN SERNARDING, HIGHLANDS, REDLANDS, LONA LINDA, HAS NOT ALWAYS ENJOYED THE FRUITS OF THOSE -- OF COLTON, GRAND TERRACE AND RIALTO. IT'S THE EFFECT THAT GROWTH. ONE MEEDS ONLY TO COMPARE IT TO THE ON THE ECONOMY OF THOSE CITIES WHICH SHOULD BE 10 GROWTH IN THE OTHER COMMUNITIES. THE ONTARIO MEASURED AS THE -- TO REPLECT THE LOCAL IMPACT AS PORTION OF SAN BERNARDING COUNTY. TO THAT IN THE 12 HANDATED BY TITLE 10 OF THE UNITED STATES CODE. 12 SAN BERNARDING VALLEY, TO REALIZE THAT THE VALLEY 4.12 IN SECTION 2 OF THE REPORT, WE ARE AREA, WHEREIN SHO IS LOCATED, HAS RECEIVED ONLY A SHALL BENEFIT IN COMPARISON TO THE ECONOMIC GROWTH FAIL TO TAKE INTO ACCOUNT ADEQUATELY, WE BELIEVE, 15 OF THE SOUTHERN CALIFORNIA REGION. THE CLOSURE OF MORTON AIR FORCE BASE AND GEORGE 16 14 WE STRONGLY ENCOURAGE YOU IN THIS REPORT 17 AIR FORCE BASE, SOTH LOCATED IN SAN BERNARDING 17 TO LOOK HORE CLOSELY AT THE ECONOMY OF THE SAM 10 COUNTY. BERHARDING VALLEY AREA TO ASSESS THE TRUE EFFECT WE STRONGLY ENCOURAGE YOU, IN THAT DATA 19 PRESENTED IN SECTION 2 OF THAT REPORT, TO INCLUDE DISCUSSED AT THE HEARING, FIGURES INCLUDED IN THE 20 THOSE PROJECTED FIGURES WHICH TAKE INTO DRAFT REPORT PAINT QUITE A POSITIVE FIGURE 21 CONSIDERATION THE CLOSURE OF THOSE SASES. A TRUE 22 REGARDING ASSORPTION OF OFFICE SPACE: SECTION 3.2.1, CONCERNING CONNERCIAL REAL ESTATE. PICTURE, THEM, WOULD SHOW THE CONSEQUENCES OF THE 23 24 BRO IN LIGHT OF, IN ADDITION TO, THOSE TWO BASES 24 HOWEVER, THE EXPANSION AND THE HIGH 25 BEING CLOSED. DENAND FOR OFFICE SPACE IN SUCH A REPORT DOES NOT 24 FINALLY, MUCH OF THE DATA CONTAINED IN EXIST IN THE SAN BERNARDING VALLEY AREA. RATHER, GILLESPIE REPORTING SERVICES GILLESPIE REPORTING SERVICES

F.1-72

TRANSCRIPT 3 74 THIS AREA IS ABSORBING NEW OFFICE SPACE AT A NUCH I'D LIKE TO ALSO HARE A PEW SPECIFIC COMMENTS TO THE ENVIRONMENTAL IMPACT STATEMENT. LOWER RATE THAN THE COUNTY AND THE REGION AT LARGE, AND IS EXPERIENCING SHORTER DEVELOPMENT OF MERE IN SUPPORT TONIGHT. WE COULD HAVE SHOUGHT AREA. ALTHOUGH IT IS GROWING RAPIDLY, AND HE SEE 4.12 SUSLOADS OF PROPLE IN. WE FELT IT WAS SETTER TO THAT CHANGING. BUT WE THINK THE IMPACT OF THE ACTUALLY HAVE PROPLE COME AND SPECIFICALLY TALE TO CLOSURE OR THE RELOCATION OF BHO WOULD BE THE IMPACT STATEMENT, AS WE UNDERSTOOD THAT WAS CERTAINLY DETRIMENTAL TO THIS AREA, AND WE WOULD THE PURPOSE OF THIS RESTING. LIKE TO HAVE YOU CONSIDER THAT ON A HORE LOCAL THERE'S ONE AREA THAT I'D LIKE TO DISCUSS 10 SPECIFICALLY. YOU'VE HEARD IT MENTIONED, BUT I CAN OFFER YOU SOME TESTINONY AS AN OFFICIAL CAPACITY. I AM GOVERNOR DEURNEJIAM'S APPOINTLE TO COL. THOMPSON: STEVE ALBRIGHT? MR. ALBRIGHT: COL. THOMPSON AND THE SOUTH COAST AIR QUALITY NAMAGEMENT DISTRICT 13 13 HEMBERS OF THE HEARING BOARD, MY MAKE IS STEVE 14 BOARD. AND THERE IS SOME INFORMATION IN THE DRAFT 15 ALBRIGHT. I AM THE PRESIDENT OF THE ECONOMIC 15 STATEMENT WITH REGARD TO SHO WEICH I THINK NOT DEVELOPMENT PARTNERSHIP IN RIVERSIDE. I AM ALSO 16 ONLY IS MISLEADING, BUT IS ACTUALLY IN ERROR. 17 ACTING AS THE CHAIRMAN OF THE INLAND EMPIRE SPACE 17 I CAN RELATIVELY ASSURE YOU THAT YOU WILL 18 HEAR NORE TESTINONY ON AIR QUALITY TOMORROW MIGHT, CONGRESSMAN BROWN REFERRED TO ABOUT AN HOUR AGO. BUT I THIME IT'S APPROPRIATE TO CLARIFY WHAT I THINK IS A CLEAR ERROR AND TRAT IS THAT YOUR IT'S A PLEASURE TO SPEAK TO YOU THIS 21 21 EVENING, AND WHAT I WOULD LIKE TO DO INITIALLY COMMENTS THAT -- WITH REGARD TO THE EMISSIONS OF OXIDES OF WITROGEN WOULD BE DECREASED OR WOULD NOT 22 WOULD BE TO OFFER YOU INTO THE RECORD A COPY OF A 22 11.44 BE IMPACTED BECAUSE THERE IS AN ASSENCE, QUOTE, 23 PUBLICATION WHICH WE HAVE PUT TOGETHER WHICH 23 IDENTIFIES MANY OF THE STATISTICS AND NUMBERS "OF MAJOR INDUSTRIAL DEVELOPMENTS IN SAM WISH TRAT THAT WAS THE CASE. WE WISE IT WAS ALL GILLESPIE REPORTING SERVICES GILLESPIE REPORTING SERVICES FOR RESPONSE TO THE DRAFT STATEMENT. I THINK THERE ARE MANY DEVELOPMENTS IN THE AREA THAT PROVE TO YOU THAT THERE ARE HILLIONS BELIEVE TRAT THE SOCIOECONOMIC IMPACTS WOULD BE SERIOUS, AND EVEN HORE SERIOUS THAN HAVE BEEN AND MILLIONS OF SQUARE PEET IN THIS AREA, THAT THIS IS AN INDUSTRIALIZED AREA AND, UNFORTUNATELY, CLARIFIED AND QUARTIFIED IN YOUR IMPACT THERE ARE MANY STATIONARY SOURCES. AND AS WAS STATEMENT. NOT ONLY DO YOU TALK ABOUT THE MURBERS STATISTICALLY, BUT YOU DON'T GET INTO THE --SAID TO YOU EARLIER, THIS WOULD HAVE NO IMPACT ON REALLY, THE PROPLE ISSUES THAT YOU DEAL WITH WHEN AIR QUALITY IN THE AREA. YOU LOSE JOBS IN AN AREA. THERE IS ALSO ANOTHER -- A SUMMARY ON AIR AS HAS BEEN SAID TO YOU, WE ARE ALREADY 10 QUALITY THAT IS ALSO IN ERROR. THAT SAYS THAT COING TO LOSE JOBS AS A RESULT OF BASE CLOSURES. 11 11 THERE WOULD BE AN IMPROVEMENT IN AIR QUALITY AS A RESULT OF THE CLOSING OF SHO. THAT IS ASSOLUTELY 12 AND WHENEVER THERE'S A CLOSURE OF A FACILITY. 1.12 NOT CORRECT. UNLESS THE AIR FORCE WAS WILLING TO 13 WHETHER IT BE A PUBLIC PACILITY OR A PRIVATE FACILITY, THE IMPACT TO A COMMUNITY WOULDN'T SE ASSURE THAT ALL THOSE PEOPLE THAT HOW WORK AND LIVE CLOSE TO -- OR THAT LIVE CLOSE TO WHERE THEY WEARLY SO LARGE IF YOU FICK UP THOSE 2.500 PEOPLE WORK WOULD HAVE POSITIONS OF EMPLOYMENT WHERE TREY 11.45 BUT THAT DOESN'T HAPPEN. YOU LEAVE THEN, AND YOU WOULDN'T BE COMMUTING. THE OPPOSITE WOULD BE THE LEAVE THEN ON THE UNEMPLOYMENT ROLLS, OR YOU LEAVE 16 EFFECT. IF YOU WERE FORCED TO GET IN YOUR CAR AND 19 COMMUTE SO MILES IN CROWDED TRAFFIC, YOU WOULD 19 THEN HAVING TO RELY ON THE SOCIAL PROGRAMS THAT 20 ARE OFFERED BY COUNTIES WRICH ARE FACING SUDGET MAVE A DEGRADATION OF AIR QUALITY. AND I THINK REDUCTIONS FROM THE STATE OF CALIFORNIA. 21 THAT THAT WEEDS TO BE CLARIFIED FOR THE FINAL 32 INPACT STATEMENT. BEE WEAT IMPACTS TRULY ARE OCCURRING TO THE LOCAL 2) FIRALLY, I'D LIKE TO ADDRESS SOME GOVERNMENTS IN THE AREAS THAT ARE IMPACTED TO SEE SOCIORCONOMIC IMPACTS, AND THAT'S WHAT I TRIME 1.12 WHO'S GOING TO PAY FOR PROPLE THAT ARE LEFT ON 25 MOST OF THE PEOPLE ARE DOING HERE THIS EVENING. 25 UMEMPLOYMENT ROLLS. AND, UMPORTUNATELY, IT'S NOT AND WE SELIEVE THAT THAT IS APPROPRIATE TESTINORY GILLERPIE REPORTING SERVICES GILLESPIE REPORTING SERVICES

TRANSCRIPT 4

ENVIRONMENTAL IMPACT STATEMENT FOR THE MARCH AIR FORCE BASE AREA ARE MIGHLIGHTED IN THE MANDOUTS AVAILABLE AT THE ENTRANCE TO THE AUDITORIUM AND WILL BE ADDRESSED IN DETAIL TOMIGHT BY MAJ. MARY VROMAN.

SHOULD YOU WISH TO REVIEW THE DRAFT ENVIRONMENTAL IMPACT STATEMENT, COPIES ARE AVAILABLE AT THE UNIVERSITY OF CALIFORNIA-RIVERSIDE LIBRARY, AND THE CENTRAL, MORENO VALLEY AND PERRIS LOCATIONS OF THE RIVERSIDE PUBLIC LIBRARY. IF YOU DESIRE YOUR OWN -- IF YOU WANT YOUR OWN COPY AND MAYE NOT ALREADY RECEIVED A COPY OF THE DRAFT ENVIRONMENTAL IMPACT STATEMENT, YOU MAY MAKE A SPECIFIC REQUEST BY WRITING TO THE ADDRESS SHOWN BOTH ON THE MANDOUT YOU RECEIVED AND ON THE WRITTEN COMMENT

HOW, JUST WHY ARE WE HERE THIS EVENING?
THE PURPOSE OF THIS PUBLIC HEARING IS TO SOLICIT
IMPUT FROM PUBLIC AGENCIES, PRIVATE ORGANIZATIONS.
AND THE PUBLIC AT LARGE ON THE DARFT ENVIRONMENTAL
IMPACT STATEMENT. THIS HEARING IS BEING HELD IN
ACCORDANCE WITH THE REQUIREMENTS OF THE HATIONAL
ENVIRONMENTAL POLICY ACT AND IMPLEMENTING PEDERAL
REGULATIONS WHICH REQUIRE FEDERAL AGENCIES TO
CAREFULLY ARALYSE POTENTIAL ENVIRONMENTAL IMPACTS

GILLESPIE REPORTING SERVICES

OF CERTAIN PROPOSED ACTIONS. AND TO USE THOSE AMALYSES IN ARRIVING AT DECISIONS OR RECOMMENDATIONS TO PROCEED -- IN NOW TO PROCEED WITH A PROPOSED ACTION.

I MAYE BEEM DESIGNATED TO ACT AS THE PRESIDING OFFICER FOR TOWICHT'S PUBLIC MEARING CONCERNING THE PROPOSED CLOSURE OF LOS ANGELES AIR FORCE SASE AND THE RELOCATION OF THE SPACE SYSTEMS DIVISION, INCLUDING THE BALLISTIC MISSILE ORGANIZATION. I AM COL. MADE MORRISON. I AM AM ATTORIEY, AND I SERVE FULL-TIME AS A MILITARY CIRCUIT TRIAL JUDGE STATIONED AT RANDOLPH AIR FORCE SASE IN SAN APTOMIO. TEXAS.

I AM NOT ASSIGNED TO THE MARCH AIR PORCE BASE OR ANY OF THE BASES OR COMMANDS UNDER COMSIDERATION FOR THE RELOCATION. I AM NOT MERE AS AN EXPERT ON THE DRAFT EMVIRONMENTAL IMPACT STATEMENT, MOR MAVE I MAD AMY COMMECTION MITH ITS DEVELOPMENT. AND I AM NOT MERE TO ACT AS A LEGAL ADVISOR TO THE AIR FORCE REPRESENTATIVES WHO MILL ADDRESS THIS PROPOSAL. MY PURPOSE IS SIMPLY TO EMSURE THAT WE MAVE A FAIR. ORDERLY MEARING, AND THAT ALL WHO MISS TO BE MEARD MAVE A FAIR CHANCE TO SPEAK TOMIGHT.

OTHER MEMBERS OF THE AIR FORCE MERE TOWIGHT ARE COL. PETER BOGY, THE ACTING DIRECTOR

GILLESPIE REPORTING SERVICES

OF THE INSTALLATION RESTORATION PROGRAM AT HEADQUARTERS AIR FORCE SISTEMS COMMAND AT ANDREWS AIR FORCE SASE, MARYLAND. AND COL. SDGY WILL SPEAK ABOUT THE PROPOSED CLOSURE ACTION AND RELATED CLOSURE STUDIES.

HEXT, HAJ. SIDNEY BLACK OF THE BASE REALIGHMENT AND TRANSITION OFFICE AT MARCH AIR PORCE BASE. HAJ. BLACK IS HERE TO REPRESENT HARCH AIR FORCE BASE.

AND FROM THE REGIONAL CIVIL ENGINEER
OFFICE AT MORTOM AIR FORCE BASE, MAJ. MARY
VROMAN. MAJ. VROMAN IS THE DEPUTY DIRECTOR OF THE
EMVIROMMENTAL DIVISION. SHE MILL DESCRIBE THE
ENVIROMMENTAL IMPACT ANALYSIS PROCESS AND THE
CONCLUSIONS REPORTED IN THE DRAFT ENVIRONMENTAL
IMPACT STATEMENT.

WE HAVE A COURT REPORTER, MS. DIAME MARTIN, MNO MILL BE TAKING DOWN VERBATIN EVERYTHING THAT'S SAID TONIGHT. AND THIS WILL BECOME A PART OF THE FINAL EMVIRONMENTAL IMPACT STATEMENT WHICH, IN TURN, BECOMES A PART OF THE AIR FORCE RECORD OF DECISION. SHE CAN ONLY DO HER JOB PROPERLY IF SHE CAN MEAR AND UNDERSTAND EVERYTHING THAT YOU ARE SAVING, SO TROSE OF YOU WHO WILL BE MAKING PUBLIC COMMENTS THIS EVENING. IF YOU MOULD PLEASE KEEP THAT IN MIND.

GILLESPIE REPORTING SERVICES

NOW, LET ME ADDRESS WHAT THIS MEARING IS NOT. THIS ISN'T GOING TO BE A DEBATE MOR A REFERENDUM OR A VOTE ON THE PROPOSED ACTION ITSELF. SUCH THINGS DON'T ADD ANYTHING TO THE MRITTEN MEARING RECORD. SIMPLY MASTE YOUR VALUABLE TIME DURING THIS OPPORTUNITY FOR PERSONAL IMPUT INTO THE DECISION-MAKING PROCESS. THE FOCUS OF THIS MEARING IS ON THE ENVIRONMENTAL IMPACTS ASSOCIATED WITH THE PROPOSALS BEING STUDIED BY THE AIR FORCE. COMMENTS ON MOMENVIRONMENTAL ISSUES SHOULD NOT BE RAISED AT THIS MEARING.

WHAT THIS HEARING IS INTENDED TO PROVIDE IS A PUBLIC FORUM FOR TWO-WAY COMMUNICATION ABOUT THE DRAFT ENVIRONMENTAL IMPACT STATEMENT WITH A VIEW TOWARD IMPROVING THE OVERALL DECISION-MAKING

YOU WILL MOTICE THAT I SAID "TWO-MAY CORMUNICATION." THE TIRST PART OF THE REARING PROCESS LETS THE AIR FORCE'S HOST KHOWLEDGEABLE PEOPLE BRIEF YOU ON THIS PROPOSAL, ITS DETAILS, AND THE ANTICIPATED ENVIRONMENTAL IMPACTS. THE SECOND PART OF THE MEARING IS TO GIVE YOU AN OPPORTUNITY TO PROVIDE THE AIR FORCE IMPORTATION AND TO MAKE STATEMENTS FOR THE RECORD. YOUR IMPUT EMSURES THAT THE DECISION MAKERS MAY BEHEFIT FROM YOUR KNOWLEDGE OF THE LOCAL AREA AND ANY

ENVIRONMENTAL EFFECTS THAT YOU THINK MAY RESULT FROM THE PROPOSED ACTION.

AS YOU CAME IN THE AUDITORIUM THIS EVENING, YOU WERE PROVIDED AN ATTENDANCE CARD AND ASKED TO INDICATE ON IT IF YOU HAD ANY COMMENTS FOR TONIGHT'S HEARING. MNEW THE BRIEFERS ARE FINISHED, WHEN THE AIR FORCE BRIEFERS ARE FINISHED, THEM I WILL RECOGNIZE MEMBERS OF THE PUBLIC FOR THE PURPOSE OF TAKENG COMMENTS.

FOR THOSE OF YOU WHO HAVE NOT YET FILLED OUT A CARD TO SPEAK, AND YOU WISH TO DO SO, IF YOU WOULD PLEASE RAISE YOUR HAND AND SOREBODY WILL DISTRIBUTE MORE CARDS. SO IF YOU WANT TO SPEAK, JUST RAISE YOUR MAND. SOREBODY WILL GIVE YOU A CARD. YOU CAM INDICATE THAT YOU WANT TO MAKE A PUBLIC COMMENT.

OUR ORDER OF PROCEEDING IS IN THREE
PARTS. FIRST, A BRIEFING FROM COL. BOOK ON THE
PROPOSED CLOSURE AND RELOCATION ACTION AND THE
OVERALL STUDY PROCESS. THEN, YOU WILL RECEIVE A
BRIEFING FROM MAJ. VROMAN ON THE ENVIRONMENTAL
INPACT ANALYSIS PROCESS AND THE CONCLUSIONS
REPORTED IN THE DRAFT ENVIRONMENTAL IMPACT
STATEMENT. FOLLOWING THESE PRESENTATIONS, ME WILL
THEN PROCEED INTO THE PUBLIC IMPUT PORTION OF THE
MERATING. ELECTED OFFICIALS WILL BE GIVEN AN

GILLESPIE REPORTING SERVICES

OPPORTURITY TO SPEAK FIRST, AND FOLLOWED BY THE PUBLIC AT LARGE, WHOSE MAKES WILL BE CALLED RANDOWLY FROM THE CARDS WHICH YOU MAYE MANDED IN.

HOW, IF YOU DON'T FEEL LIKE STANDING UP
HERE TORIGHT AND MAKING A STATEMENT GRALLY, YOU
HAVE UNTIL SEPTEMBER 24TH OF THIS YEAR TO SUBMIT
WRITTEN COMMENTS. THE COMMENT SHEETS ARE PROVIDED
AT THE ENTRANCE TO THE AUDITORIUM FOR YOU TO USE
THE BENTRANCE TO THE AUDITORIUM FOR YOU TO USE

IN FACT. EVEN IF YOU NAVE PUBLIC COMMENTS TOMIGHT THAT YOU MAKE, YOU MAVE UNTIL THE 24TH OF SEPTEMBER TO SUBMIT ADDITIONAL COMMENTS IN WRITING TO THE ADDRESS PROVIDED.

MMETHER A STATEMENT IS HADE VERBALLY TONIGHT OR IN MRITING PRIOR TO THE 24TH OF SEPTEMBER, EACH STATEMENT WILL BE GIVEN EQUAL WEIGHT AND CONSIDERATION, SO DON'T FEEL LIKE YOU HAVE TO SPEAK TONIGHT IF YOU WOULD PREFER TO SUBMIT MRITTER CONNENTS.

I DO MANY TO EMBURE THAT ALL MHO MISH TO SPEAK HAVE AM EQUAL OPPORTUNITY TO BE MEARD, SO IF YOU WOULD PLEASE HELP HE EMPORCE THE FOLLOWING GROUND RULES:

FIRST, I MOULD ASK YOU TO SPEAK ONLY AFTER YOU ARE RECOGNIZED, AND PLEASE ADDRESS ALL YOUR CONNENTS TO ME.

GILLESPIE REPORTING SERVICES

1

SECOND, PLEASE USE THE MICROPHONE THAT'S PROVIDED BY THE PODIUM. SPEAK CLEARLY AND SLOWLY, STARTING OUT WITH YOUR MARE, ADDRESS, AND THE CAPACITY IN WHICH YOU APPEAR: FOR EXAMPLE, PUBLIC OFFICIAL, DESIGNATED REPRESENTATIVE OF A GROUP, OR PRIVATE CITIESM, SO OUR COURT REPORTER.

TRIED, IF YOU HAVE QUESTIONS. ASK THEN ONE AT A TIME. AND I WILL ALLOW A REASONABLE MUNBER OF QUESTIONS. BECAUSE ME WILL HAVE A TIME LIMIT ON YOUR STATEMENTS, I WOULD ASK YOU TO PLEASE PRIORITIZE YOUR REMARKS TO ENSURE THAT THE MOST IMPORTANT ARE ADDRESSED PIRST.

MS. MARTIN, CAN DO HER JOB PROPERLY.

AND, FOURTH, EACH PERSON WHO MAKES A
PUBLIC CONNENT TORIGHT WILL BE RECOGNIZED FOR A
MAXIMUM OF FIVE MINUTES. THAT INCLUDES PUBLIC
OFFICIALS, DESIGNATED SPOKESPERSONS AND PRIVATE
PERSONS. THE TIMEKEEPER WILL ASSIST YOU IN
KEEPING TRACK OF YOUR TIME. AT THE
FOUR-AND-A-MALF-MINUTE MARK, SHE WILL RAISE A
YELLOW CARD, WHICH YOU SEE IN THE FRONT ROW, WHICH
IS YOUR CUE THAT YOU MAVE USED UP FOUR AND A MALF
MINUTES OF TIME, AND THAT YOU SHOULD SECIN TO SUM
UP YOUR CONCENTS. AND THAT YOU SHOULD SECIN TO SUM
CARD WHEN YOUR FIVE MINUTES IS UP.

AND, FIFTH, IF YOU WOULD PLEASE MONOR ANY

GILLESPIE REPORTING SERVICES

REQUEST FROM ME THAT YOU STOP SPEAKING WHEN YOUR TIME IS UP. OTHERWISE, WE HIGHT NOT HAVE TIME TO HEAR TOHIGHT FROM EVERYONE WHO WANTS TO BE MEARD. SO I WOULD ASK YOU TO PLEASE LIMIT YOUR COMMENTS TO FIVE HIMUTES. OBVIOUSLY, MOST OF YOUR COMMENTS WON'T TAKE THAT LONG.

SIXTH, I WOULD ASK YOU TO PLEASE BE COURTEOUS AND DO NOT SPEAK WHILE SOMEOME ELSE IS SPEAKING. ONLY ONE PERSON WILL BE RECOGNIZED AT A TIME.

AND, FINALLY, OUR MOSTS TORIGHT HAVE
ASKED THAT YOU KINDLY REFRAIN FROM SHOKING IN THIS
HEARING ROOM. AND I WOULD APPRECIATE YOUR
COOPERATION IN ADMERING TO ALL OF THESE RULES.

I WILL MONITOR THE TIMES AND DO

EVERYTHING WITHIN MY POWER TO MAKE SURE THAT
EVERYORE WHO WARTS TO BE REARD WILL BE MEARD.
WITH REGARD TO QUESTIONS, IT'S POSSIBLE THAT THERE
WILL BE QUESTIONS THAT THE AIR FORCE
REPRESENTATIVES ARE UMABLE TO AMSWER. AND THAT
COULD OCCUR FOR ONE OF TWO REASONS. THE FIRST:
EVEN THOUGH A GOOD DEAL OF EXPERTISE IS ASSEMBLED
MERE. THE PARELISTS WILL NOT ATTEMPT TO AMSWER
QUESTIONS UNLESS THEY ARE CONFIDENT THAT THEY CAN
DO SO ACCURATELY. AND, SECOND, THERE MAY BE

GILLESPIE REPORTING SERVICES

QUESTIONS THAT HAVE NATIONAL SECURITY

TRANSCRIPT 4

14

11

IMPLICATIONS, AND THESE MUST BE REVIEWED FURTHER BEFORE ANSWERS WOULD BE PROVIDED. IF THIS SHOULD OCCUR, AND IF THE QUESTION IS RELEVANT, THEN IT WILL BE ADDRESSED IN THE FINAL DOCUMENT THAT YOU AND MODULES A CORN OF

ONE THING THAT I MOULD LIKE TO STRESS
AGAIN. YOU MAY HAVE IMPORMATION ON ENVIRONMENTAL
FACTORS UNKNOWN TO US. HE ARE VERY INTERESTED IN
HAVING AND ANALYZING ALL POTENTIAL ENVIRONMENTAL
IMPACTS OF THE PROPOSED ACTION. YOU HAVE THE
EXPERIENCE THAT COMES FROM LIVING IN AN AREA OVER
A LONG PERIOD OF TIME, SO THIS SECOND PART OF
TONIGHT'S COMMUNICATION, THE PART THAT FLOWS FROM
YOU TO US. THAT PART IS IMPORTANT. SO DON'T
HESITATE TO BE A PART OF THE PROCEEDINGS THIS
EVENTMG.

IF WE RUN OUT OF TIME BEFORE EVERYBODY GETS A CHANCE TO SPEAK, YOU ARE INVITED TO SUBNIT A STATEMENT IN WRITING TONIGHT OR ANY TIME PRIOR TO THE 24TH OF SEPTEMBER BY MAILING IT TO THE ADDRESS SHOWN IN THE MANDOUT. AND REGARDLESS OF WHETHER YOUR STATEMENT IS ORAL OR IN WRITING, IT WILL BE CAREFULLY CONSIDERED AND HADE PART OF THE RECORD OF PROCEEDINGS, AND IT WILL MAVE EQUAL WRIGHT AND RECEIVE THE SAME CAREFUL CONSIDERATION WRETHER MADE DURING TONIGRY'S MEARING OR

GILLESPIE REPORTING SERVICES

AFTERWARDS.

FINALLY, I MOULD LIKE TO THANK EVERYOME WHO TURNED OUT TOWIGHT. YOUR PRESENCE HERE IS COMMEMDABLE IN THAT IT REFLECTS A GREAT INTEREST IN YOUR COMMUNITY AND THE THINGS THAT ARE IMPORTANT TO IT. LET HE ASSURE YOU THAT YOUR INTEREST IS THE PRIMARY REASON FOR US BEING HERE TOWIGHT.

NOW IT'S MY PLEASURE TO INTRODUCE COL. BOGY, WHO WILL BRIEF THE PROPOSAL.

LT. COL. BOGY: I AN THE ACTIMG CHIEF
OF THE ENVIRONMENTAL RESTORATION PROGRAM AT
HEADQUARTERS FOR THE AIR FORCE SYSTEMS COMMAND.
WE ARE THE HAJOR COMMAND FOR SPACE SYSTEMS
DIVISION, WHICH I WILL REFER TO FROM TIME TO TIME
DURING THIS BRIEFING AS "SSD." I WILL PRESENT THE
PROPORENT'S POINT OF VIEW.

18 FIRST, I WILL GIVE A LITTLE BACKGROUND
19 AND THEN WILL DISCUSS THE PROPOSED ACTION, WHICH
20 IS TO CLOSE LOS ANGELES AIR FORCE BASE AND
21 RELOCATE SED, INCLUDING THE BALLISTIC MISSILE
22 ORGANIZATION, OR "BHO," TO ONE OF FOUR LOCATIONS.
23 THEN I WILL DISCUSS THE PROPOSED ALTERNATIVES,
24 WHICH RANGE FROM RELOCATION OF PORTIONS OF SED TO
25 NO ACTION AT ALL. FINALLY. I WILL PRESENT THE

STATUTORY REQUIREMENT FOR A VARIETY OF STUDIES

GILLESPIE REPORTING SERVICES

15

THAT WILL BE ACCOMPLISHED IN CONJUNCTION WITH THE ENVIRONMENTAL IMPACT STATEMENT.

LOS ARGELES AIR PORCE BASE, COMPRISED OF 238 ACRES AND LOCATED IN THE SOUTH BAY REGION OF THE LOS ARGELES METROPOLITAN AREA, IS THE HOST BASE FOR AIR FORCE SYSTEMS COMMAND'S SPACE SYSTEMS DIVISION. AM INTEGRAL PART OF SSD IS THE ABROSPACE CORPORATION, A FIDERALLY FUNDED RESEARCH AND DEVELOPMENT CENTER.

SED PLANS, PROGRAMS, MANAGES AIR FORCE SYSTEMS COMMAND PROGRAMS TO ACQUIRE SPACE SYSTEMS. SUBSISTEMS, SUPPORT EQUIPMENT, AND ARLATED MARDWARE AND SOFTMARE. AMONG THE MANY OTHER CRITICAL RESPONSIBILITIES IN THE AIR FORCE SPACE PROGRAM, SED ALSO COMDUCTS RESEARCH, EXPLORATORY DEVELOPMENT, AND ADVANCED DEVELOPMENT PROGRAMS TO EMBURE FUTURE SPACE MISSIONS.

THE RECENT REALIGNMENT OF BALLISTIC
SYSTEMS DIVISION PLACED THE MANAGEMENT
RESPONSIBILITY FOR THE INTERCONTIMENTAL BALLISTIC
MISSILE, OR THE "ICBM." PROGRAMS IN SSD. THIS
UNIT, NOW KNOWN AS BALLISTIC MISSILE ORGANIZATION.
RAS A DEDICATED SYSTEMS ENGINEERING/TECHNICAL
ASSISTANCE OR SETA CONTRACTOR WMG MOULD ALSO BE
PART OF THE PROPOSED RELOCATION.

IN THE PROPOSED ACTION AND THE

GILLESPIE REPORTING SERVICES

ALTERNATIVES, SSD AND ITS SUPPORTING UNITS.
INCLUDING THE AEROSPACE CORPORATION. ARE REFERRED
TO AS SSD-LOS ANGELES.

BMO AND ITS SUPPORTING UNITS, INCLUDING ITS SETA CONTRACTOR, ARE REFERRED TO AS SSD-SAN BERNARDING.

THREE FUNCTIONAL GROUPS MITHIN 85D MAVE BEEN IDPMITIFIED FOR THE PURPOSE OF THIS RELOCATION EVALUATION: THE SPACE SYSTEMS PROGRAM OFFICE, OR "SPO," THE ICRN SPOS, AND "OTHER" ACTIVITIES. THE SPACE SPOS, RESPONSIBLE FOR OESIGK, DEVELOPMENT: ACQUISITION, TEST AND LAUNCH, INCLUDE 1,240 MILITARY, 1,190, 25- -- 1,190 CIVILIANS, 2,590 AEROSPACE CORPORATION, AND 150 SETA CONTRACTOR PERSONNEL.

THE "OTHER" ACTIVITIES OF SSD, INCLUDING THE HILSTAR JOINT PROGRAM OFFICE. OTHER ADVANCED AND SPECIAL PROGRAMS, THE AEROSPACE CORPORATION LABORATORIES, AND VARIOUS BASE OPERATING SUPPORT. EMPLOY 510 HILITARY, 250 CIVILIANE, AND 1.590 AEROSPACE COMPORATION PERSONNEL.

PINALLY, THE BHO ICBN SPOE MANAGE

BALLISTIC MISSILE SYSTEMS AND SUBSTSTEM

ACQUISITION PROGRAMS. THIS SPO ALSO PERFORMS THE

ACQUISITION PROGRAMS. THIS SPO ALSO PERFORMS THE

ACQUIREMENTS AND HAS 660 MILITARY, 570 CIVILIAN.

14

16

18

19

20

21

25

THE BASIC PROPOSAL OR ALTERNATIVE ACTIONS ARE BASED ON A COMSTRUCTION AND RELOCATION SCHEDULE BEGINNING IN FISCAL YEAR 1993 AND CONTINUING UNTIL FISCAL YEAR 1996. HOWER, DUE TO THE COMPLEXITY OF THE PROCRAM AND AVAILABLE RELOCATION RESOURCES, THE PERSONNEL AND COMSTRUCTION SCHEDULES COULD EXTEND BEYOND THAT

THE PROPOSED ACTION IS TO TOTALLY CLOSE LOS AMERIES AIR FORCE BASE, CLOSE BNO FACILITIES AT SAN BERNARDINO, AND RELOCATE SED-LOS AMERIES AND SED-SAN BERNARDINO TO ONE OF THE FOUR LOCATIONS.

SED SUPPORT UNITS CURRENTLY AT LOS
ANGELES AND SAN BERNARDING THAT DUPLICATE UNITS
EXISTING AT THE RELOCATION INSTALLATION MOULD BE
INACTIVATED.

THE CLOSURE OF SSD-LOS ANGELES FACILITIES MOULD INVOLVE APPROXIMATELY 1,740 MILITARY AND 4,385 CIVILIANS, AND THERE ARE FIVE TEMANT LOCATIONS THAT WOULD NOT MOVE AND MOULD RELOCATE WITHIN THE LOS ANGELES AREA.

THE CLOSURE OF SSD-SAW BERNARDING FACILITIES WOULD INVOLVE APPROXIMATELY 660 WILITARY AND 1.870 CIVILIAN PERSONNEL.

GILLESPIE REPORTING SERVICES

LET US NOW LOOK AT THE GEOGRAPHIC SETTING OF THE BASES UNDER CONSIDERATION FOR THE RELOCATION. THEY INCLUDE VANDEMBERG AIR FORCE BASE: MARCH AIR FORCE BASES IN COLORADO, CONSIDERED AS ONE RELOCATION OPTION: OR KIRTLAND AIR FORCE BASE IN

FIVE ALTERNATIVES TO THE PROPOSED ACTION ARE CONSIDERED IN THIS ELS. THE ALTERNATIVES ARE NUMBERED IN THE DOCUMENT AND IN THIS PRESENTATION: NOWIVER, THEIR ORDER SHOULD NOT BE INTERPRETED TO IMPLY ANY KIND OF RANKING OR PRIORITIZATION OF THE ALTERNATIVES.

NEW MEXICO.

12

13

14

15

16

25

12

15

16

17

10

21

22

THE FIRST ALTERNATIVE IS SIMILAR TO THE SASIC PROPOSAL. BUT WHILE WITH THE SED-LOS ANGELES OPERATIONS WOULD BE RELOCATED TO OME OF THE CAMDIDATE LOCATIONS, THE SED-SAM BERNARDING OPERATION WOULD NOT NOVE.

THE SECOND ALTERNATIVE WOULD CLOSE

CERTAIN AREAS OF LOS ANGELES AIR FORCE BASE AND

RELOCATE PORTIONS OF SSD-L.A. AND ALL OF SSD-S.B..

22 SUT WOULD NOT RELOCATE THE "OTREP" SPOS.

THE THIRD ALTERNATIVE WOULD CLOSE ONLY
THE BMO FACILITIES IN SAN BERNARDING AND RELOCATE
SSD-SAN BERNARDING TO ONE OF THE FOUR LOCATIONS.
THE FOURTH ALTERNATIVE CONSIDERS ONLY THE

GILLESPIE REPORTING SERVICES

19

RELOCATION OF 1,000 PERSONNEL FROM SSD WITH NO PACILITY CLOSURE AT EITHER EL SEGUNDO OR SAN BERNARDINO.

THE FIFTH ALTERNATIVE WOULD CLOSE ALL OF LOS ARGELES AIR FORCE BASE AND RELOCATE SED-LOS ANGELES TO MARCH AIR FORCE BASE, BUT WOULD LEAVE THE AEROSPACE CORPORATION INTACT IN EL SEQUINDO AND SED-SAN BERNARDINO INTACT AT SAN BERNARDINO.

SSD-LOS ANGELES AND SSD-SAN BERNARDING WOULD REMAIN IN THEIR EXISTING PACILITIES.

THE PROPOSED ACTION AND ALTERNATIVES ONE.
TWO, THREE AND FIVE ARE CONTINGENT UPON SPECIAL
LEGISLATION PERMITTING THE AIR FORCE TO DISPOSE OF
THE GOVERNMENT PROPERTY AND USE THE PROCEEDS OF
SUCH SALE TO OFFSIT THE MILITARY CONSTRUCTION
COSTS ASSOCIATED WITH THE CLOSURE.

THE UNITED STATES CODE, TITLE 10.
SECTION 2487, THE BASE REALIGHMENT AND CLOSURE
ACT, REQUIRES THAT THE DEPARTMENT OF DEFENSE STUDY
THE LOCAL ECONOMIC, OPERATIONAL, STRATEGIC,
FISCAL, BUDGETARY AND ENVIRONMENTAL IMPACTS OF THE
PROPOSED CLOSURE. THESE STUDIES ARE CURRENTLY
UNDERWAY AND WILL BE SUBMITTED TO CONGRESS AS PART
OF THE DECISION PACKAGE.

TAKING A LOOK AT EACH ONE OF THESE

GILLESPIE REPORTING SERVICES

STUDIES: THE LOCAL ECOMONIC CONSEQUENCES STUDY

WILL EXAMINE THE DIRECT PAYROLL LOSS ON TRE

EL SECUNDO AND LOS ARELES CONMUNITIES AND THE

SECONDARY EFFECT ON LOCAL BUSINESSES OCCASIONED BY

THE LOSS OF MILITARY PERSONNEL, DEPENDENTS AND

CUVILIANS. IN ADDITION, THE STUDY WILL FOCUS ON

THE EFFECTS ON THE LOCAL REAL ESTATE MARRET, AND

INDUSTRIES THAT MAY HOVE BECAUSE OF THE RELOCATION

OF SSD. ALSO, PROJECTED GROWTH IN THE COMMUNITY

AND REUSE OF THE AFFECTED PROPERTY WILL BE

THE STRATEGIC STUDY WILL ADDRESS THE LFFECT OF REDUCING CONVENTIONAL, STRATEGIC AND SPACE SYSTEMS AS THE THREAT TO MATIONAL SECURITY IS REDUCED.

AN OPERATIONAL STUDY WILL ADDRESS THE EFFECT OF RELOCATING SED. INCLUDING SMO, IF THE DECISION IS MADE TO CLOSE LOS ANGELES AND FORCE SASE AND THE SMO FACILITIES AT MORTON. IT WILL EXAMINE ALL TEMANT AND JOINT SERVICE MISSION CHANGES RESULTING FROM A CLOSURE AND RELOCATION DECISION.

THE BUDGETARY STUDY WILL DETERMINE
CURRENT-YEAR PROGRAMMED DOLLAR COSTS AND DOLLARS
ASSOCIATED WITH THE RELOCATION OF SED AND

MACTIVATION OF RELOCATION OF ASSOCIATED

FINALLY, THE FISCAL STUDY WILL USE THE BUDGET EVALUATION TO ANALYZE PAST, PRESENT AND FUTURE COSTS AND SAVINGS ASSOCIATED WITH THE RELOCATION OF SED. COSTS OF CLOSING AND SAVINGS WILL BE DETAILED THROUGH A LIFE CYCLE COST MODEL.

THANK YOU VERY NUCH FOR YOUR ATTENTION. 1 WOULD NOW LIKE TO TURN THE MEETING BACK TO COL. MORRISON.

COL. RORRISON: THANK YOU. MON 1'D LIKE TO PRESENT MAJ. MARY VROMAW FROM THE AIR PORCE RECIONAL CIVIL ENGINEER OFFICE, NORTON AIR PORCE BASE, CALIFORNIA. MAJ. VROMAN MILL PRESENT AN OVERVIEW ON THE ENVIRONMENTAL IMPACT ANALYSIS PROCESS, DISCUSS THE RELATIONSHIP BETWEEN THE LOCAL ECOMONIC COMSEQUENCES STUDY AND THE ENVIRONMENTAL IMPACT ANALYSIS PROCESS, AND PRESENT THE RESULTS OF THE DRAFT ENVIRONMENTAL IMPACT STATEMENT. RAJ. VROMAN?

MAJ. VROMAN: THANK YOU, SIR.

GOOD EVERING. OUR ORGANIZATION IS

COMBUCTING THE ENVIRONMENTAL PROCESS FOR THIS

PROPOSAL, AS WELL AS OTHER PROPOSED CLOSURES AND

REALIGNMENTS ANNOUNCED BY THE SECRETARY OF DEFENSE
ON JANUARY 39TH OF THIS YEAR.

I WILL PRESENT THE SCHEDULE FOR THIS

GILLESPIE REPORTING SERVICES

ENVIRONMENTAL IMPACT ANALYSIS PROCESS, AND SHOW
HOW THE PUBLIC COMMENT PERIOD FITS INTO TRIS
SCHEDULE. I WILL ALSO DISCUSS THE SCOPE OF THE
STUDY, AND THE RELATIONSHIP BETWEEN THE
ENVIRONMENTAL IMPACT STATEMENT AND THE
SUPPLEMENTAL ECONOMIC STUDY BEING PREPARED TO
ADDRESS THE POTENTIAL ECONOMIC IMPACTS OF
RELOCATING THE SPACE SYSTEMS DIVISION TO MARCH AI
FORCE BASE. LAST, I WILL PRESENT THE RESULTS OF
OUR ANALYSIS BY RESOURCE CATEGORY AND CONCLUDE
WITH A SUMMARY OF THE POTENTIAL ENVIRONMENTAL

THIS EFFORT WAS INITIATED ON
FEBRUARY 9TM. 1990, WITH THE PUBLICATION IN THE
FEDERAL RECISTER OF TWO MOTICES OF INTERT TO
PREPARE ENVIRONMENTAL IMPACT STATEMENTS. THE
MOTICES INDICATED THAT LOS ANGELES AIR FORCE BASE
WOULD BE STUDIED FOR CLOQUEE AND THAT SPACE
SYSTEMS DIVISION AND APPROPRIATE SUPPORTING UNITS
WOULD BE STUDIED FOR RELOCATION. OUR DRAFT
ENVIRONMENTAL IMPACT STATEMENT ANALYZES BOTH THE
CLOSURE AND RELOCATION ACTIONS. FOLLOWING THE
MOTICES OF INTERT, SCOPING NEETINGS WERE HELD TO
RECEIVE PUBLIC IMPUT ON THE SCOPE OF ISSUES TO BE
ADDRESSED IN THE ENVIRONMENTAL IMPACT STATEMENT
AND TO IDENTIFY THE SIGNIFICANT ISSUES RELATED TO

GILLESPIE REPORTING SERVICES

23

THE PROPOSED ACTION. THE SCOPING MEETING FOR MARCH AIR PORCE BASE WAS HELD HERE IN THE CITY COUNCIL CHARBERS ON MARCH 29TH, 1990.

SUBSEQUENT TO SCOPING THE ISSUES FOR STUDY, WE COLLECTED THE NECESSARY DATA AND COMDUCTED THE ANALYSIS WHICH SUPPORTS THE ENVIRONMENTAL IMPACT STATEMENT. THE DRAFT ENVIRONMENTAL IMPACT STATEMENT WAS FILED WITH THE ENVIRONMENTAL PROTECTION AGENCY ON AUGUST 3KD. 1998. IN ADDITION TO TONIGHT'S PUBLIC HEARING. PUBLIC REARINGS ON THE DRAFT ENVIRONMENTAL IMPACT STATEMENT WILL ALSO BE HELD IN OTHER COMMUNITIES AFFECTED BY THE PROPOSED CLOSURE OR RELOCATION. PUBLIC HEARINGS WERE HELD ON MONDAY, TUESDAY AND WEDNISDAY OF THIS WERK IN EL SEGUNDO, LONDOC AND SAN BERNARDING, CALIFORNIA, FOR LOS ANGELES AIR PORCE DASE, VANDENBERG AIR FORCE BASE, AND THE BALLISTIC MISSILE ORGANIZATION. PUBLIC HEARINGS FOR OTHER PROSPECTIVE RELOCATION BASES ARE FOR PETERSON AND FALCON AIR FORCE BASES. AND IN ALBUQUERQUE, HEW MEXICO, FOR KIRTLAND AIR FORCE BASE.

WRITTEN CONNENTS ON THE DRAFT ENVIRONMENTAL IMPACT STATEMENT WILL BE ACCEPTED UNTIL SEPTEMBER 24TH, 1990. AFTER THE CONNENT

GILLESPIE REPORTING SERVICES

BOTH WRITTEN AND GRAL, AND PERFORM ADDITIONAL ANALYSIS OR CHANGE THE ENVIRONMENTAL IMPACT STATEMENT WHERE NECESSARY. AGAIN, AS IN THE SCOPING PROCESS, EQUAL CONSIDERATION WILL BE GIVEN TO ALL COMMENTS, WHETHER THEY ARE PRESENTED HERE TOWIGHT OR RECEIVED BY MAIL PRIOR TO THE END OF WE WILL PRODUCE ? FINAL ENVIRONMENTAL IMPACT STATEMENT WHICH IS SCHEDULED FOR COMPLETION IN 11 EARLY DECEMBER 1990. THE FINAL ENVIRONMENTAL 12 IMPACT STATEMENT WILL BE MAILED TO ALL THOSE ON 13 THE DRAFT EIS DISTRIBUTION LIST. THE FINAL EIS WILL INCLUDE CONNENTS RECEIVED DURING THE PUBLIC 15 REVIEW PERIOD, AND OUR RESPONSES TO TROSE 17 OF COMMENTS, OR THE MEED TO CONDUCT ADDITIONAL AWALYSIS, THE FINAL ENVIRONMENTAL INPACT STATEMENT 19 MAY CONSIST OF A COVER LETTER AND ERRATA SHEETS. A 30 SEPARATE VOLUME AS A COMPANION TO THE DRAFT 21 ENVIRONMENTAL IMPACT STATEMENT, OR BE AN ENTIRELY 22 HEW DOCUMENT. THE FINAL ENVIRONMENTAL IMPACT STATEMENT WILL SERVE AS IMPUT FOR THE RECORD OF DECISION, WHICH WILL DOCUMENT THE DECISION BY THE 25 AIR FORCE. OTHER STUDIES, AS DESCRIBED EARLIER BY 26 COL. BOGY, AND CONSIDERATION OF OTHER ISSUES

TRANSCRIPT 4

BESIDES THOSE ADDRESSED IN THE ENVIRONMENTAL ENTER INTO THE FINAL DECISION OF WHETHER OR NOT TO PROCEED WITH THIS PROPOSAL. WE EXPECT TO ACCOMPLISH THE RECORD OF DECISION IN EARLY JANUARY

THE DRAFT ENVIRONMENTAL IMPACT STATEMENT WAS PREPARED IN ACCORDANCE WITH THE NATIONAL ENVIRONMENTAL POLICY ACT AND THE COUNCIL ON ENVIRONMENTAL QUALITY REGULATIONS. EFFORTS WERE MADE TO REDUCE MEEDLESS BULK, WRITE IN PLAIM LANGUAGE, FOCUS ON ONLY THOSE ISSUES WHICH ARE CLEARLY RELATED TO THE ENVIRONMENT, AND TO INTEGRATE WITH OTHER DOCUMENTS REQUIRED AS PART OF THE DECISION-MAKING PROCESS. THE DOCUMENT FOCUSES ON IMPACTS TO THE NATURAL AND PHYSICAL ENVIRONMENT WHICH MAY OCCUR AS A DIRECT RESULT OF THE BASE INDIRECTLY THROUGH CHANGES IN THE COMMUNITY: OR IN THE HANDLING OF MAZARDOUS NATERIALS AND WASTE. THE DOCUMENT ALSO EVALUATES GEOLOGY AND SOILS. WATER -- BOTE SURFACE AND GROUNDWATER -- AIR QUALITY, MOISE, BIOLOGICAL AND CULTURAL RESOURCES. INDIRECT CHANGES TO LOCAL COMMUNITIES IMPACTS COULD BE ANALYZED INCLUDED CHANGES TO

12

22

23

10

11

15

16

17

10

39

20

23

24

25

GILLESPIE REPORTING SERVICES

POPULATION. LAND USE AND AESTHETICS. TRANSPORTATION AND CORNUNITY UTILITY SERVICES. IN ADDITION, ISSUES RELATED TO CURRENT AND FUTURE DISCUSSED IN THE DOCUMENT. IF IT WAS DETERMINED THAT SIGNIFICANT ADVERSE ENVIRONMENTAL IMPACTS WOULD OCCUR BECAUSE OF BASE CLOSURE OR THE RELOCATION ACTION, POTENTIAL MITIGATION MEASURES WERE IDENTIFIED AND ARE INCLUDED IN THE DOCUMENT

AS I MENTIONED EARLIER, THIS DRAFT BROUGHT ABOUT, EITHER DIRECTLY OR INDIRECTLY, BY THE POTENTIAL CLOSURE OF LOS ANGELES AIR FORCE BASE AND RELOCATION OF SPACE SYSTEMS DIVISION. THE DOCUMENT ADDRESSES SOCIOECONOMIC IMPACTS OF BASE CLOSURE OR RELOCATION ONLY IF THEY RESULT IN BEING CONDUCTED AS PART OF THE BASE CLOSURE PROCESS. IN ADDITION TO THESE STUDIES, THE AIR FORCY HAS DECIDED TO CONDUCT WHAT WE HAVE TERRED 33 SUPPLEMENTAL ECONOMIC STUDIES. THESE STUDIES ARE INTENDED TO ANALYSE THE POTENTIAL ECONOMIC IMPACTS TO THE COMMUNITIES BEING COMBIDERED AS SITES FOR

GILLESPIE REPORTING SERVICES

TO BE ADDRESSED IN EACH STUDY WILL INCLUDE POPULATION, EMPLOYMENT AND INCOME, COMMUNITY PACILITIES AND SERVICES. AND FISCAL AND FINANCIAL IMPACTS TO LOCAL GOVERNMENTAL ENTITIES. THE AIR FORCE WILL CONSULT WITH REY STATE AND LOCAL OFFICIALS DURING THE PREPARATION OF THESE STUDIES. THIS STUDY WILL ALSO BE SUBMITTED TO CONGRESS IN JANUARY 1991 IN TIME TO MEET THE

PRESIDENT'S FISCAL YEAR '92 BUDGET SUBHITTAL.

I WOULD NOW LIKE TO DISCUSS THE RESULTS REPORTED IN THE DRAFT ENVIRONMENTAL IMPACT STATEMENT. OUR DISCUSSION TONIGHT WILL CENTER ON AREA IF IT WERE CHOSEN AS THE HOST BASE FOR RELOCATION OF SPACE SYSTEMS DIVISION. THE DOCUMENT CONCLUDED THERE WOULD BE CHANGES TO COMMUNITIES THAT COULD AFFECT THE NATURAL AND PHYSICAL ENVIRONMENT, AND THAT ADDITIONAL ANGUNTS OF MAZARDOUS MATERIALS AND WASTE WOULD BE USED, IMPACTS, INCLUDING THE POTENTIAL FOR SIGNIFICANT ADVERSE IMPACTS TO THE NATURAL AND PHYSICAL ENVIRONMENT, WERE IDENTIFIED.

A FULL RELOCATION OF SPACE SYSTEMS DIVISION AS DESCRIBED IN THE PROPOSED ACTION WOULD CAUSE THE FOLLOWING CHANGES IN COMMUNITIES

STITESPIE REPORTING SERVICES

SUPROUNDING MARCH AIR FORCE BASE:

IT IS ESTIMATED THAT THE RELOCATION OF SPACE SYSTEMS DIVISION BY THE END OF 1994 WOULD RESULT IN AN ANNUAL INCREASE OF APPROXIMATELY \$500 MILLION IN TOTAL PERSONAL INCOME. THE PROPOSED ACTION IS EXPECTED TO GENERATE A PEAK OF APPROXIMATELY 30,000 DIRECT AND INDIRECT JOBS IN 1995, AND THEN DECLINE TO APPROXIMATELY 18,000 JOBS IN 1997. POPULATION INNIGRATION IS EXPECTED TO PEAK AT 31,000 IN 1995. THE PERMANENT 11 POPULATION INCREASE IS PROJECTED TO BE APPROXIMATELY 22,000 PEOPLE, WITH 5,500 MILITARY REMAINING 16,500 LIVING OFF BASE.

LAND USE CHANGES FROM THE RELOCATION ACTION WOULD DEPEND ON POSSIBLE PUTURE AMENDMENTS TO LOCAL LAND USE PLANS AND ZONING ORDINANCES. VEHICLE TRAFFIC IN THE VICINITY OF THE PEAK TRAFFIC HOURS. THESE INCREASES WOULD CONTRIBUTE TO A DECREASED LEVEL OF SERVICE ON SEVERAL OF THE ROADS AND STREETS SERVING THE BASE. PUPING PEAR TRAFFIC HOURS, EXISTING CONCESTED CONDITIONS WOULD WORSEN ON SEVERAL AREA STREETS AND HIGHWAYS, INCLUDING PARTS OF INTERSTATE :: . ALESSANDRO BOULEVARD, VAN BUREN

DILLESPIE REPORTING SERVICES

15

2 1

TRANSCRIPT 4

2 9

BOULEVARD, CATTON AVENUE, GRANAM STREET AND

ANTICIPATE AN ADDITION OF UF TO 80,000
ARRIVING AND DEPARTING PASSENGERS AT THE CATARIO
INTERNATIONAL AIRPORT. THIS ADDITION ACTUS
INCREASE PASSENGER LEVELS BY ABOUT TWO PERCENT
ABOUT CURRENT LEVELS IN 1997. THIS GROWN IS
COMMISTENT WITH THE PROPOSED FUTURE INCREASES IN

THE RELOCATION OF SED TO MARCH AIR FORCE BASE WOULD INCREASE LOCAL DENAMOS FOR POTABLE WATER. WASTEWATER TREATMENT, NATURAL GAS. ELECTRICITY AND SOLIO WASTE DISPOSAL. THE EASTERN MUNICIPAL WATER DISTRICT, WHICH SERVES MCREMO VALLEY, PERPIS AND MARCH AIR FORCE BASE, LOUID WEED TO INCREASE AVAILABLE WATER SUPPLIES TO MEET BOTH PROJECTED GROWTH IN THE AREA AND THE EXPECTED REQUIREMENTS DUE TO THE PROPOSED ACTION. CTHER AREA WATER SYSTEMS ARE EXPECTED TO MANDLE THE GROWTH WITHER EXISTING CAPACITIES.

THE WASTEWATER TREATMENT SYSTEM
CAPACITIES IN MOREHO VALLEY, PERSIS AND AT MARCH
AIR PORCE BASE ARE EXPECTED TO REQUIRE FURTHER
INCREASES TO MEET THE REQUIREMENTS OF THE PROPOSED
ACTION AS WELL AS PROJECTED INCREASING DENAMES IN
THE AREA. CAPACITY EXISTS TO SUPPLY THE EMERGY

GILLESPIE REPORTING SERVICES

REQUIREMENTS DUE TO THE PROPOSED ACTION. SOLID MASTE GENERATION IS EXPECTED TO INCREASE BY APPROXIMATELY 4) TOWS PER DAY IN THE RIVERSIDE, MOSEHO VALLEY, PERRIS AND MARCH AIR FORCE BASE AREAS. THIS INCREASE CAN BE HANDLED BY LOCAL MASTE FACILITIES, BUT MAY IMPACT THE CITIES' ABILITY TO CORPLY MITH THE CALIFORNIA INTEGRATED MASTE MANAGEMENT ACT OF 1989, WHICH REQUIRES COMMUNITIES TO REDUCE THEIR OVERALL SOLID MASTE GENERATION.

IN THE AREA OF MAIARDOUS MATERIALS AND MASTE, THE RELOCATION OF SED TO MARCH AIR FORCE BASE MOULD INCREASE THE USE AND STORAGE OF MAIARDOUS MATERIALS AND THE GENERATION OF MAEARDOUS MASTE. THESE INCREASES ARE DUE IN PART TO BASE OPERATIONS AND MAINTEMANCE ACTIVITIES. AND IN PART TO THE LABORATORY OPERATIONS OF THE AEROSPACE CORPORATION. EXISTING MATARDOUS MATERIAL AND WASTE MAMAGEMENT PLANS FOR MARCH AIR FORCE BASE MOULD SE MODIFIED TO ADDRESS THESE INCREASES.

IMPACTS TO THE NATURAL AND PRYSICAL ENVIRONMENT ARE AS FOLLOWS:

ME EXPECT NO IMPACT ON GEOLOGICAL
RESOURCES UNDERLYING THE BASE SOIL LOSSES FROM
EROSION WILL BE MINIMIZED THROUGH THE USE OF

GILLESPIE REPORTING SERVICES

STANDARD CONSTRUCTION PRACTICES AND MITIGATION

FOR WATER RESOURCES. LITTLE IMPACT IS EXPECTED ON THE GROUND OR SURFACE WATER RESOURCES IN THE MARCH AIR FORCE BASE AREA. HUCH OF THE UTILITY WATER SUPPLY IN THE AREA COMES FROM OUTSIDE THE RESION, FROM MANY OF THE SAME SOURCES WHICH SUPPLY THE EL SEGUNDO AREA WHERE SPACE SYSTEMS DIVISION IS CORRENTLY LOCATED. WHILE THERE MAY BE SOME INCREASE IN LOCAL GROUNDWATER DEMAND. THIS WOULD NOT CONSTITUTE A SIGNIFICANT IMPACT ON THESE RESOURCES. SURFACE WATER RUMOFF IS EMPECTED TO INCREASE AS A RESULT OF ADDITIONAL PAVED AND COVERED AREAS: HOWEVER, THIS INCREASE IS NOT EXPECTED TO ADVERSELY IMPACT SURFACE WATER

DURING THE CONSTRUCTION PHASE. INCREASED EMISSIONS OF PARTICULATE MATTER AND OTHER POLLUTANTS MOULD OCCUR, BUT MOULD BE SHORT-TERM AND NOT SIGNIFICANT. EMISSIONS FOR BOTH STATIONARY AND MOBILE SOURCES WOULD OCCUR DURING THE OPERATIONS PHASE.

BASED ON HODELING, INCREASED VEHICLE
TRAFFIC HEAD THE PROJECT SITES COULD EXCEED THE
STATE CARBON MONOXIDE STANDARD. BECAUSE THE
REGION IS A HOMATTAINHENT AREA FOR SEVERAL PEDERAL

GILLESPIE REPORTING SERVICES

AND STATE AMBIENT FEDERAL QUALITY STANDARDS.
PROJECT EMISSIONS WOULD MAVE A LONG-TERM
SIGHIFICANT IMPACT. PROJECT-RELATED EMISSIONS OF
MYDROCARBONS AND OXIDES OF MITROGEM. BOTH
PRECURSORS IN DIONE FORMATION, COULD DELAY THE

SMORT-TIRM IMPREASES IN MOISE LEVELS ARE EXPECTED IN THE PROJECT AREAS DUE TO FACILITY CONSTRUCTION. BUT THESE IMPREASES ARE MOT EXPECTED TO BE SIGNIFICANT DUE TO THE SEPARATION OF MOST PROJECT SITES FROM SERSITIVE RECEPTORS. WE ALSO EXPECT SLIGHT, LONG-TERM IMPREASES IN MOISE LEVELS OF LESS THAN THREE DECIBELS DUE TO INCREASES IN VEHICLE TRAFFIC. GIVEN CURRENT TRAFFIC VOLUMES. THIS INCREASE IS NOT EXPECTED TO RESULT IN SIGNIFICANT MOISE LEVEL INCREASES.

THE PROPOSED ACTION IS NOT EXPECTED TO MAVE ANY SIGNIFICANT IMPACTS OF VEGETATION.

WETLANDS OF WILDLIFE RESOURCES IN THE AREA.

MOUSEVER, THE STEPHEN'S KANGAROOR RAT, A

FEDERALLY-LISTED EMDAMGERED SPECIES. IMPABITS

LARGE PORTIONS OF WEST MARCH AIR PORCE BASE, WHICH

IS THE AREA OF THE BASE WEICH LIES WEST OF

INTERSTATE 215. PROJECT SITES ONE AND TWO AND THE

PROPOSED MOUSING AREA APE LOCATED ON WEST MARCH

IN ACCORDANCE WITH SECTION 7 OF THE PROBABERED

TRANSCRIPT 4

33

SPECIES ACT, THE AIR FORCE IS COMDUCTING A BIOLOGICAL ASSESSMENT ON THIS SPECIES FOR SUBMITTAL TO THE U.S. FISH AND MILDLIFF SERVICE. THE ASSESSMENT AND FURTHER COMSULTATION WITH THE FISH AND WILDLIFF SERVICE MILL BE CONFISTED PRIOR TO THE RECORD OF DECISION. THE INPACTS TO THE KANGAROO RAT WHICH ARE CURRENTLY BEING ASSESSED CONCERN THE DESTRUCTION OF NABITAT AND THE GENETIC ISOLATION OF THE SPECIES.

NO SIGNIFICANT IMPACTS TO CULTURAL
RESOURCES ARE EXPECTED AS A RESULT OF THE PROPOSED
ACTION

THE HEDIAM PRICE OF HOUSING IN THE SAN
JACINTO AREA IS \$120,000 TO ABOUT 140-. ACCORDING
TO WRICH PORTION OF TOWN OR WRICH TOWN ME ARE
TALKING ABOUT, WITH NEW HOUSING STARTING AT
ANYMMERI PRON \$90,000 AND UP TO THE 140'S IN HOST
OF THE COMPLEXES, BUT GOING UP TO THE 170'S AND SO
FORTH IN SOME OF TREM.

BAN JACINTO IS NOT THE ONLY CITY MEAR MARCH AIR FORCE BASE THAT CAN QUALITY AS A QUALITY MOME PROVIDER AT REASONABLE PRICES, BUT ME ARE ALSO PART OF THE FRIENDLIEST VALLEY WHERE PEOPLE EMJOY OUR QUALITY AND STYLE OF LIFE.

GILLESPIE REPORTING SERVICES

STYLE OF LIFE OF MOST CITIES: I WILL BE GOING, ALONG WITH REMBERS OF MY COUNCIL, TO A CELEBRATION TOMORROW IN THE CITY OF MEMET, BECAUSE IN THE CITY OF MEMET, HAZON KEN MABRIMO AND HIS WIFE, ICO, AND VICE MAYOR JIN QUINN AND MIS WIFE, MARJORIE, ARE BOTH CELEBRATING THEIR SOTH WEODING AMBIVERSARIES.

BO WE ARE A PRIEMDLY VALLEY. AND ME MOULD MELCORE ALL OF THE EXCESS PEOPLE THAT YOU MOULD SEND DOWN TO OUR VALLEY. WE HOPE THAT THE SPACE SYSTEM DIVISION PERSONNEL WILL HAVE A CHANCE TO LOOK US OVER. THANK YOU VERY MUCH.

COL. MORRISON: THANK YOU, MAYOR FORD. WHAT I WILL DO NOW IS I WILL GIVE OUR COURT REPORTER A HIMUTE TO CHANGE HER PAPER, AND THEW THE MEXT SPEAKER WILL BE MR. MICHAEL MOOTTOM.

17 HR. WOOTTOH: COLOMEL, MEMBERS OF THE
18 HEARING PAREL, I AN HICKAEL WOOTTON, STATE
19 DIRECTOR OF THE CALIFORNIA STAFF OF U.S. SENATOR
20 PETE WILSON. I APPRECIATE, ORCE AGAIN, THE
21 OPPORTUNITY TO PRESENT A STATEMENT ON BEHALF OF
22 SEMATOR WILSON FOR THIS HEARING PANEL TRIS
23 EVENING.

SENATOR WILSON'S LETTER OF JUNE THE 24TH TO THE HOMORABLE DORALD D. RICE, SECRETARY OF THE AIR FORCE, OUTLINES THE SENATOR'S VIEWS CONCERNING

GILLESPIE REPORTING SERVICES

5 2

THE PROPOSED RELOCATION OF THE SPACE SYSTEMS
DIVISION, AND I HAVE INCLUDED A COPY OF THAT
LETTER FOR YOUR REVIEW AND CONSIDERATION AND FOR
THE RECORD THIS EVENING.

IN THE INTEREST OF THE MEARING PAHEL'S TIME, I WILL BRIEFLY DESCRIBE SEMATOR WILSON'S VIEWS CONCERNING THE PROPOSED RELOCATION. SIMPLY STATED, SEMATOR WILSON IS VERY SKEPTICAL AND DOUBTFUL THAT ANY SUBSTANTIAL SUDGITARY SEMEFIT AND TAXPAYER COST SAVINGS CAN BE AFFECTED IN AND DEMONSTRATED BY ANY RELOCATION.

AS SEMATOR WILSON NOTES IN MIS LETTER TO SECRETARY RICE, AND I QUOTE, "BECAUSE THE DEFEMSE DEPARTMENT MUST STRUGGLE MITH THE DAUNTING TASK OF REDUCING OR ELIMINATING MAJOR WEAPON AND SHIP SYSTEMS, AS WELL AS SLASHING ITS PERSONNEL LEVELS. THE EXPENDITURE OF VALUABLE TIME AND MONEY TO UNDERTAKE A KAJOR RELOCATION OF SSD MOULD BE LUDICROUS."

COMBRESS MOULD SERIOUSLY QUESTION THE ABILITY OF THE AIR FORCE TO ESTABLISH SPENDING PRIORITIES THAT WILL ADVANCE U.S. SECURITY INTERESTS OVER THE HEXT DECADE IF IT PROPOSES TO UPPOOT THE MIGHLY SOPHISTIFICATED MANPOWER AND R & D ASSETS OF SOUTHERN CALIFORNIA ASSOCIATED WITH SSD.

GILLESPIE REPORTING SERVICES

52

THE AIR FORCE COST ESTIMATE TO REMOVE SSD FROM CALIFORNIA, FOR EXAMPLE, APPROACHES 40 PERCENT OF THE PEACEKEEPER HISSILE FUNDING REQUEST. IT ALSO FAR EXCEEDS THE REVISED COST FOR ONE B-2 BOMBER, EQUALS THE PRICE OF 15 OR 16 F-15-E FIGHTER AIRCRAFT, AND COULD CONCEIVABLY CLAIM 10 PERCENT OF THE BUDGET OF THE STRATEGIC DEFENSE INITIATIVE.

FURTHERMORE, NO COMPELLING REASON EXISTS
TO TRANSFER SED OUT OF ITS PRESENT REGION. FOR
YEARS, SOUTHERM CALIFORNIA HAS PROVIDED THE
OPTIMAL HIX OF A SKILLED. PROFESSIONAL LABOR
FORCE, SATELITE RESEARCH CENTERS, AND PRIVATE
SECTOR ALROSPACE ASSISTANCE TO THE DIVISION THAT
NO OTHER STATE CAN EASILY DUPLICATE.

IT IS THE SENATOR'S VIEW THE COSTS
INCIDENTAL TO RELOCATION WOULD HORE THAN OFFSET
ANY PROJECTED COST SAVINGS THAT COULD BE
CALCULATED BY AIR FORCE ANALYSTS.

ADDITIONALLY, SENATOR WILSON SELIEVES THE CREATER THE PROPOSED DISTANCE OF RELOCATION, THE GREATER THE COST. SINILARLY, THE GREATER THE DISTANCE SPACE SYSTEMS DIVISION IS MOVED FROM ITS PRESENT COMPIGURATION AND ITS IMMEDIATE PROXIMITY TO THE SOUTHERN CALIFORNIA AEROSPACE INDUSTRIAL BASE. THE MORE LIKELY THE DISTANSAMENT OF ITS

GILLESPIE REPORTING SERVICES

TRANSCRIPT 4 54 RGANIZATION. TONIGHT, MY FOCUS WILL BE ON THE ABILITY TO READILY ACRIEVE ITS RISSION OBJECTIVES WHICH ARE SO DEPENDENT UPON THAT INDUSTRIAL BASE. DESPITE ALL THIS, SHOULD THE AIR FORCE EVEN WITH SPECIAL LEGISLATION THAT WILL ALLOW THE CONCLUDE THAT A RELOCATION SHOULD BE UNDERTAKEN. SENATOR WILSON, FROM HIS VANTAGE POINT ON THE AIR FORCE TO DIRECTLY USE PROFITS FROM THE SALE OF SENATE ARRED SERVICES CONNITTEE, WOULD VIEW THAT VALUABLE LANDS IN THE LOS ANGELES AIR FORCE BASE AREA TO FUND THE HOVE. BUDGETARY POLICY AND LOGISTICAL ANALYSIS VERY HOWEVER, WE URGE THAT THE FULL RANGE OF BENEFITS ALSO BE CONSIDERED FROM THE NOVE TO I APPRECIATE, ONCE AGAIN, THE TIRE TO MARCH. RECRUITMENT AND RETENTION OF EMPLOYEES 10 MAKE SEPATOR WILSON'S POSITION KNOWN TO YOU. WILL BE GREATLY INCREASED DUE TO REDUCED COMMUTÉ 11 THANK YOU. 11 12 COL. MORRISON: THANK YOU. 13 TIMES AND LOWER HOUSING COSTS. CERTAINLY, THE 13 MR. WOOTTOM. OUR MEXT SPEAKER WILL BE LEANWAY 13 HOVE TO HARCH WILL ALSO BE THE LEAST EXPENSIVE OF BRADLEY, FOLLOWED BY JOHN LEYRAN THE OTHER ALTERNATIVE HOVES. 15 IF TERMS OF COMMENTING ON THE DRAFT EIS. MS. BRADLEY: I AM LEAMMAN BRADLEY. CONGRESSNAN BROWN HAS ASKED THAT I MENTION TWO AND I AR WITE COMGRESSHAM GEORGE BROWN'S OFFICE. I AN VERY PLEASED TO BE RERE TONIGHT TO SEND 17 18 FORCE HAS INCLUDED IN ITS ANALYSIS REPERENCE TO 18 CONGRESSMAN GRONGE BROWN'S STRONG MISSAGE IN 15.10 THE PACT THAT A HOVE OF SED TO HARCH IS IN 19 SUPPORT OF MOVING THE SPACE SYSTEMS DIVISION TO 19 I 20 MARCH AIR PORCE BASE. 20 ACCORDANCE WITH THE AIR POLLUTION REDUCTION PLAN ALTHOUGH CONGRESSMAN BROWN DOESN'T 21 WITH THE SOUTH COAST AIR QUALITY MANAGEMENT 33 ACTUALLY REPRESENT MARCH AIR FORCE BASE, HE HAS A 22 DISTRICT. TRADITIONAL INTEREST IN THE BASE AND COUNTS MANY SECOND, COMCRESSHAN BROWN WOULD LIKE TO OF ITS WORKERS AS HIS CONSTITUENTS. LAST HIGHT IN 11.1 THE CUMULATIVE IMPACTS ON AIR QUALITY FOR NOVING 25 25 THE NEARING IN SAN BERNARDING, CONGRESSMAN BROWN SED TO MARCE. IN ADDITION TO THE ANTICIPATED 26 POCUSED LARGELY ON THE BALLISTIC MISSILE GILLESPIE REPORTING SERVICES GILLESPIE REPORTING SERVICES BELIEVES THAT THERE ARE NOT ONLY STRONG FINANCIAL WHEN NORTON CLOSES, THE DRAFT EIS STATES THAT THERE WOULD BE AN INCREASED MEGATIVE IMPACT ON THE AND OPERATIONAL REASONS FOR HOVING SSD TO MARCH. AIR QUALITY FROM SUCH A HOVE. BUT ALSO THAT HOVING SSD TO MARCH COULD ALSO LIRE SUPERVISOR TOUNGLOVE AND MAYOR BEWEFIT THE AIR QUALITY THROUGHOUT THE SOUTH COAST PRIZZEL, CONGRESSMAN BROWN ASKS THAT THIS AIR BASIN. THANK YOU VERY MUCH. WE WILL BE ASSESSMENT BE RECOMBIDERED. ANY JOBS LOST AT SUBHITTING A WRITTEN STATEMENT AT A LATER TIME. MORTON THAT MAY BE REPT WITHIN THE INLAND EMPIRE WILL HELP TO ALLEVIATE THE REGATIVE ENVIRONMENTAL THE MEXT SPEAKER WILL BE HR. JOHN LETHAN, WHO WILL 11.1 IMPACTS ASSOCIATED WITH JOBS-HOUSING IMBALANCE. BE POLLOWED BY TON MULLEM. I APOLOGIZE IF I ALTROUGH, IF THOSE 1,100 EMPLOYEES WERE FORCED TO 11 BUTCHER ANYBODY'S HAME TOWIGHT. FIND OTHER JOBS, A LIKELY PLACE TO LOOK WOULD BE 12 HR. LEYHAM: GOOD EVERING. I AM JOHN THE LOS ANGELES AND GRANGE COUNTY AREAS. 13 LEYNAN. 1 AN REPRESENTING CALIFORNIA'S LIEUTENANT INCREASING PRESMAY CONGESTION AND AIR QUALITY GOVERHOR, LEG HC CARTHY. LAST HIGHT, I DID HAVE DEGRADATION THE OPPORTURITY TO PRESENT THE LIEUTENANT THUS, A CUMULATIVE EFFECT OF HAVING BOTH GOVERNOR'S VIEWS AT THE HORTON ALR FORCE BASE 17 MEARING, AND TONIGHT I WOULD LIKE TO STATE HIS ALONG WITH 7,500 NEW PERSONNEL FROM SED. IS 16 POSITION AGAIN, AND -- AT THIS, THE MARCH AIR POSITIVE FOR BOTH THE JOBS-HOUSING INBALANCE AND 19 FORCE BASE HEARING, AND ALSO FOR THE BENEFIT OF FOR THE AIR QUALITY IN THE BASIN. 20 THE COMMUNITY MEMBERS PRESENT THIS EVENING. 21 WE WOULD ALSO URGE THAT THE AIR FORCE 33 COMBIDER A PILOT PROGRAM WITH, ALTERNATIVELY, VAN SUPPORTIVE OF THE SPACE SYSTEMS DIVISION AND THE 23 POOLS OR OTHER PROGRAMS TO PROVIDE ALTERNATE SALLISTIC MISSILES ORGANIZATION REMAINING AS AN 11.39 15.10 24 TRANSPORTATION AS A REAMS TO NOT ONLY IMPROVE AIR IMPORTANT CONTRIBUTOR TO THE CALIFORNIA ECONOMY. QUALITY, BUT ALSO TO LEAD THE WAY IN SOUTHERN 25 IF THE DRAFT ENVIRONMENTAL IMPACT STATEMENT CALIFORNIA FOR CLEANER FUELS. 24 INDICATES, WE WOULD FULLY SUPPORT AND PLEDGE THE GILLESPIE REPORTING SERVICES CILLESPIE REPORTING SERVICES

"COMSIDERING ALL THE FACETS OF THIS
PROPOSED MOVE, IT IS APPARENT THAT THE SELECTION
OF MARCH AIR FORCE BASE IS THE MOST DESIRABLE.
ECOMONICAL AND LOGICAL CONCLUSION. YOUR APPROVAL
OF THIS RECOMMENDATION IS SOLICITED. SINCERELY.
STEVE KLUTE, ASSENBLYMAN, STATE OF CALIFORNIA.

I BELIEVE THE COMMITTEE HAS COPIES OF THIS LETTER. THANK YOU.

COL. MORRISON: THANK YOU. OUR MEXT SPEAKER WILL BE MR. GARY COTTRELL, FOLLOWED BY .

J. DAVID MORRPOOL.

MR. COTTRELL: COLONEL MORRISON,
MEMBERS OF THE COMMITTEE, I AM, FOR THE RECORD,
GARY COTTRELL, CHIEF ADMINISTRATIVE OFFICER OF THE
COUNTY OF RIVERSIDE.

WITH REGARD TO THE DRAFT ENVIRONMENTAL IMPACT STATEMENT ON THE PROPOSED CLOSURE OF THE LOS ANGELES AIR FORCE BASE, LET ME GIVE YOU SORE REASONS WHY RELOCATING THE SPACE SYSTEMS DIVISION TO MARCH AIR FORCE BASE MAKES SENSE FROM THE STANDPOINT OF LAND AVAILABILITY AND QUALITY-OF-LIFE ISSUES.

PIRST, RIVERSIDE COUNTY IS THE POURTR LANGEST COUNTY IN CALIFORNIA IF AREA, TRAILING ONLY SAN BERNARDING, KERN AND INTO IN SIZE. WITH

GILLESPIE REPORTING SERVICES

RESPECT TO POPULATION, ACCORDING TO THE 1990 FEDERAL CENSUS FIGURES JUST RELEASED THIS WEEK, RIVERSIDE COUNTY, WITH A CURRENT POPULATION OF 1,145,000. IS THE SEVENTH LARGEST COUNTY IN THE STATE. IT IS ALSO THE FASTEST GROWING COUNTY IN THE STATE WITH A POPULATION INCREASE IN THE LAST DECADE OF OVER 70 PERCENT.

DRIVING THIS EXTRAORDINARY INCREASE IN
POPULATION IS THE AVAILABILITY OF LAND FOR
DEVELOPMENT. PARTICULARLY IN THE WESTERN PART OF
THE COUNTY, WHICH WAS MADE AFFORDABLE MOUSING
READLY AVAILABLE TO INCREASING NUMBERS OF MORE

SECONDLY, IN CONSIDERATION OF EXISTING HOUSING STOCK AND READILY AVAILABLE LAND DESIGNATED FOR RESIDENTIAL USES, THE PROPOSED RELOCATION OPENS UP UNLINITED PRESENT AND FUTURE HOUSING OPPORTUNITIES FOR MILITARY AND CIVILIAN PERSONNEL CONNECTED WITH THE BPACE SYSTEMS DIVISION, WITHOUT MOVING THE MISSION FAR FROM CURBENT AEROSPACE SUPPORT SERVICES AND INDUSTRIES IN SOUTHERN CALIFORNIA.

TRIED, A MOVE TO MARCH WOULD PROVIDE THE SPACE SYSTEMS DIVISION WITH ELEMENTS CONSIDERED RECESSARY FOR FUTURE GROWTH OF THE MISSION NOT PRESENTLY AVAILABLE AT THE EXISTING FACILITY.

GILLESPIE REPORTING BERVICES

6:

BASED ON MEEDS IDENTIFIED IN TABLE 2.2-2
OF THE DRAFT ELS. HARCH AIR FORCE BASE MAS AM
ABUNDANCE OF LAND SUPPLICIENT TO ACCOMPODATE FUTURE
PROJECTED PHYSICAL EXPANSION OF THE SPACE SYSTEMS
DIVISION WITHIN A SECURE PERIMETER OF THE BASE.

POURTH, THE ENVIRONMENTAL IMPACT
STATEMENT IDENTIFIES SEVERAL AIR FORCE OWNED
PARCELS WITHIN THE BASE WRICH COULD SE USED FOR
HILITARY HOUSING. HOUSING DEVELOPMENTS ON THESE
SITES COULD EASILY SE SERVED BY EXISTING AND
PLANNED IMPRASTAUCTURE IMPROVEMENTS SURROUNDING.
THE BASE WITH MINIMAL IMPACTS TO THE SURROUNDING

FIFTH. SECTION 4.4 OF THE DRAFT ENVIRONMENTAL IMPACT STATEMENT IDENTIFIES THE HEED FOR OFF-BAST LAND TO SUPPORT THE RESIDENTIAL, COMMERCIAL AND INDUSTRIAL GROWTH WHICH WILL RESULT FROM THE RELOCATION OF THE SPACE SYSTEMS DIVISION TO MARCH.

THE CITIES AND UNINCORPORATED CORNUBITIES SUBBOUNDING MARCH PROVIDE AN AFFORDABLE INDUSTRIAL LAND INVESTORY FOR SERVICE AND SUPPORT INDUSTRIES AND AFFORDABLE ENTRY-LEVEL AND ROVE-UP HOUSING FOR BASE PERSONNEL.

IF -- OR I SMOULD SAY WHEN RELOCATED TO MARCH, THE SPACE SYSTEMS DIVISION WOULD REAP THE

GILLESPIE REPORTING SERVICES

BENEFITS OF LOCATING WITHIN ONE OF THE MOST DESIRABLE GROWTH CENTERS IN THE UNITED STATES.

SIX, MITHIN THE UNINCORPORATED AREA OF THE COUNTY, AND WITHIN A TEN-HILE RADIUS OF NARCH THERE ARE CURRENTLY 24 APPROVED SPECIFIC PLANS COMPRISING 38,000 HOUSING UNITS, OF WHICH APPROXIMATELY 40 PERCENT, OR 15,000 UNITS, ARE CURRENTLY DEVELOPED.

THEREFORE, THERE IS AN ABUNDANT SUPPLY OF ALREADY APPROVED RESIDENTIAL UNITS THAT CAN BE DEVELOPED. AT PRESENT, MANY OF THESE SPECIFIC PLANS STILL CONTAIN LANGE TRACTS OF UNDEVELOPED. RESIDENTIAL. CONHERCIAL AND INDUSTRIAL LAND AVAILABLE TO HERCHANT BUILDERS AND CONHERCIAL INDUSTRIAL TO EVELOPERS FOR INDIVIDUAL PROJECTS.

RIMD YOU, THIS IS ONLY IN THE UNINCORPORATED COUNTY AREA. THERE APE SEVERA: THOUSAND HORE IMPROVED UNITS IN CITIES THAT IMPEDIATELY SURROUND HARCH AND OTHER CITIES IN THE MESTERN PORTION OF THE COUNTY.

SEVENTH, THERE IS AN EMORMOUS INVENTORY
OF AVAILABLE INDUSTRIAL LAND AND FINISHED
INDUSTRIAL FACILITIES NOT WITHIN THE BOUNDARIES OF
THE SPECIFIC PLANS. WITHIN THE SAME TEN-HILE
RADIUS OF MARCH, THERE ARE OVER 7,500 ACRES EDNED
FOR INDUSTRIAL USES WITH APPROXIMATELY 9,000,000

CILLEBPIE REPORTING BERVICES

SQUARE PEET OF FINISHED INDUSTRIAL FLOOR SPACE.
MANY OF THESE INDUSTRIAL SITES ARE LOCATED IN
FULLY DEVELOPED, FULL-SERVICE INDUSTRIAL PARKS
WITH ACCESSORY CONTRICIAL OFFICES WHICH ARE
CAPABLE OF PROVIDING SUPPORT SERVICES TO THE SPACE
SYSTEMS DIVISION, ALONG WITH INCREASING

I THINK I WOULD BE REMIES IF I DIDN'T
ALSO MENTION OUR OUTSTANDING METHORS OF PUBLIC AND
PRIVATE COLLELES AND UNIVERSITIES IN THE INLAND
EMPIRE. MANY INSTITUTIONS, SUCH AS THE UNIVERSITY
OF CALIFORNIA OF RIVERSIDE, THE UNIVERSITY OF
REDLANDS, CALIFORNIA STATE UNIVERSITY, SAM
BERNARDINO, LOMA LINDA UNIVERSITY AND CALIFORNIA
BAPTIST COLLEGE NAVE LONG PLAYED A VITAL ROLE IN
BOTH COVERNMENT AND IMDUSTRY IN THE AREA BY
PROVIDING A MULTITUDE OF VERY EDUCATIONAL,
PROPESSIONAL AND CULTURAL OPPORTUNITIES.

ALTHOUGH NOT SPECIFICALLY QUANTIFIED IN

22

THE DRAFT EIS, POSITIVE IMPACTS, SUCH AS THE POTESTIAL FOR HOME OWNERSHIP AND DRAMATICALLY LESSENED COMMUTE TIMES, WOULD MOST CERTAINLY BE SIGNIFICANT TO EMMANCING THE QUALITY OF LIFE EMJOYED BY SPACE SYSTEMS PERSONNEL.

IT SHOULD ALSO BE NOTED THAT IN TERMS OF RECREATIONAL AMERITIES, NEW RESIDENTS WOULD

GILLESTIE REPORTING SERVICES

QUICKLY DISCOVER THE ADVANTAGES LONG ENJOYED BY MESTERN RIVERSIDE COUNTY RESIDENTS IN BEING CENTRALLY LOCATED TO A MOST OF RECREATIONAL AND CULTURAL ACTIVITIES OFFERED BY THE DESERT RESORT COMMUNITIES, MATIONAL PORIST, METROPOLITAN LOS ANGELES AND SEASIOD COMMUNITIES.

IN CONCLUSION, WE BELIEVE THAT THE RELOCATION OF THE SPACE SYSTEMS DIVISION AND THE AEROSPACE CORPORATION TO RABCH AIR FORCE BASE WOULD RESULT IN ONE OF THE MOST BENEFICIAL ENVIRONMENTAL IMPACTS INAGINABLE, LOCATING JOBS AND HOUSING TOGETHER, WHILE ALLOWING THE MISSION TO REMAIN IN CLOSE PROXIMITY TO AEROSPACE-RELATED INDUSTRIES OF SOUTHERN CALIFORNIA.

COUNCILMAN FROM THE CITY OF MORENO VALLEY.

MAYOR LANG WAS OUT OF TOWN THIS EVENING. AND I MAVE BEEN ASKED TO CORE AND ADDRESS YOU THIS EVENING. AND JUST BEFORE I CAME MERE, I WAS ALSO REQUESTED BY THE CITY MANAGER FROM TEMECULA TO SPEAK ON BEHALF OF TEMECULA TOO. MOMEVER, I MON'T CLAIM TEM MINUTES.

I'D LIKE TO INTRODUCE THE CITY OF MOREMO VALLEY TO YOU. WE ARE THE CITY WHICH IS INHEDIATELY ADJACENT TO MARCH AIR FORCE BASE ON THE MORTH AND ON THE EAST. THE CITY MAS BELF INCORPORATED FOR APPROXIMATELY FIVE AND A MALF YEARS AND SINCE INCORPORATION WE MAYE BEEN A STRONG SUPPORTER OF MARCH AIR FORCE BASE.

LET HE BACK UP AND SAY I WANTED TO ADDRESS, ESSENTIALLY, TWO TOPICS THIS EVENING. FIRST IS THE COMMUNITY SUPPORT ISSUE, AND THEN THE SECOND ISSUE I WANTED TO TOUCH ON IS THE QUALITY OF LIFE, AND RESPOND TO SOME OF THE COMMENTS WITH REGARD TO THE ENVIRONMENTAL IMPACT STATEMENT.

AS I SAID, THE CITY HAS BEEN STRONGLY SUPPORTIVE OF MARCH AIR FORCE BASE SINCE INCORPORATION. WE HAVE SEEN VERY SENSITIVE TO PREVENT OR REEP HOUSING PROJECTS AND THOSE TYPES OF THIRGS FROM ENCROACHING ON BASE OPERATIONS, AND TRIED TO BE VERY SENSITIVE. BECAUSE ME UNDERSTAND

GILLESPIE REPORTING SERVICES

THAT HARCH AIR PORCE BASE IS A VERY IMPORTANT PART OF OUR COMMUNITY. AND ME HAVE ACTIVELY SOLICITED THE IMPUT OF BASE PERSONNEL OF PROJECTS WHICH WOULD POTENTIALLY AFFECT IT.

AND 1 KNOW THAT IF YOU COULD TALK TO PAST AND PREZENT BASE CONHANDERS, MING CONHANDERS AND AIR FORCE CONHANDERS, THEY MOULD SUPPORT THIS STATEMENT ALSO.

AND I THINK THAT THIS IS SOMETHING TO BE CONSIDERED, IS THE SUPPORT THAT THE CORMUNITY WOULD HAVE FOR THE RELOCATION OF SSD TO MARCH AIR FORCE BASE. AND I KNOW THAT MOREMO VALLEY MOULD SUPPORT THAT.

I ALSO WANT TO NOW ADDRESS THE QUALITY-OF-LIFE ISSUES. AS I SAID, MOREMO VALLEY IS ABOUT FIVE AND A MALF YEARS OLD. IT'S STILL A YOUNG COMMUNITY, AND THE COMMUNITY POPULATION IS VERY YOUNG. THE MEDIAM AGE A COUPLE YEARS AGO WAS ABOUT 27, AND I DON'T THINK IT'S CHAMGED MUCH IM THE LAST COUPLE OF YEARS.

IT'S A VIBRANT COMMUNITY AND MAS A VERY ENTREPREMEURIAL SPIRIT TO IT. IT'S THE FASTEST GROWING CITY IN THE INLAND EMPIRE AND MAS FULLED MUCH OF THE GROWTH WHICH MAS BEEN DISCUSSED EARLIER. AND THAT IS AS A RESULT OF THE ABUNDANT OPPORTUNITY FOR APPORDABLE MOUSING, MRICH MAS ALSO

AND JUST AS AN ERAMPLE, HOUSING COSTS IN HORRHO VALLEY ARE ANYWERRES FROM A THIR: TO A HALF OF WHAT HOURING COSTS IN LOS ANGELES AND GRANGE

TO PURTHER ILLUSTRATE, WHEN WE INCORPORATED FIVE AND A MALF YEARS AGC. THE POPULATION OF THE CITY WAS ABOUT 47,00C. TODAY, IT IS BETWEEN 115- AND 120,800. SO YOU CAN SEE THAT ME ARE USED TO GROWTH.

WE ARE ACTIVELY STRIVING TO CREATE A COMMUNITY WRICH IS SALANCED IN TERMS OF NOUSING OPPORTUNITIES, RECREATIONAL OPPORTUNITIES, ALONG WITH COMMERCIAL OPPORTUNITIES.

WE HAVE THE HOUSING OPPORTURITIES THERE.
THE JOB OPPORTURITIES ARE CORING. AND THE
RELOCATION OF SED TO THE CITY OF HOREMO VALLEY
WOULD ENHANCE THAT ASPECT OF OUR COMMUNITY'S
DEVILOPMENT BY AN IMMEASURABLE AMOUNT. THE
RECREATIONAL OPPORTUNITIES IN SOUTHERY CALLFORNIA
ARE ALREADY WELL KNOWN AND THEY HAVE ALREADY SEEN
TOUCKED ON, 80 I WON'T REVIEW THOSE AGAIN.

I THINK IN TERMS OF THE ENVIRONMENTAL IMPACT STATEMENT, IT IS IMPORTANT FOR THIS PANEL TO KNOW THAT THE CITY OF MORENO VALLEY IS PLANNING

GILLESPIE REPORTING SERVICES

FOR GROWTH. AS I SAID, OUR POPULATION IS BETWEE 115- AND 120,000 PEOPLE. AT SUILDOUT, 17 18 PROJECTED TO BE 250- TO 100,000 PEOPLE.

OUR RECENTLY ADOPTED GENERAL PLAN
PROVIDES FOR THAT GROWTH. THE EMVIRONMENTAL
INPACT STATEMENT MENTIONED THE HELD FOR INDUSTRIAL
DEVELOPHENT. ONE OF THE THINGS THAT THE CITY HAS
ALBEADY DONE IS TO TAKE THE LEAD IN DEVELOPING
WHAT'S CALLED THE OLEANDER SPECIFIC PLAN. WHICH IS
INMEDIATELY TO THE EAST SIDE OF MARCH AIR FORCE
BASE. IT'S AN INDUSTRIAL PARK, APPROXIMATELY

AND IN TERMS OF THE TRAFFIC CIRCULATION IN THE AREA, THE COMPLETION OF THAT PLAN WILL OPEN UP ARTERIAL ROADWAYS WRICH WILL GREATLY EMMANCE THE ABILITY OF THAT AREA TO NAMDLE THE INCREASE IN TRAFFIC.

IN ADDITION, WE HAVE A GATEWAY SPECIFIC PLAN, WHICH IS A RIXED-USE INDUSTRIAL AND CONNERCIAL PLAN ON THE MORTH BOURDARY OF MARCH AIR FORCE BABE, WHICH PURTHER PLANS FOR AN INCREASE OF JOBS IN THAT AREA. SO I GUESS WHAT I AN SAYING IS THE CITY IS ALREADY PLANNING FOR GROWTH. THIS WOULD BE A PART OF THAT PLAN.

THE SOLID WASTE RECYCLING PROGRAM WAS RENTIONED AND THE NEW MANDATE BY THE STATE. AND I

GILLESPIE REPORTING SERVICES

71

AN HAPPY TO REPORT THAT THE CITY OF MOREMO VALLEY IS ALREADY TAKING STEPS TO IMPLEMENT THIS PROGRAM WITHIN ITS CITY.

THE POBLIC UTILITIES -- WATER, ELECTRICITY, GAS AND THOSE TRINGS -- AGAIN. THE POPULATION IS ALBRADY PROJECTED TO INCREASE TO 180-TO 100,000, SO THOSE SERVICES ARE ALREADY SEING PLANNED FOR. SO THE INCREASE IN POPULATION WHICH WOULD SE CREATED BY THE RELOCATION OF RED TO MARCH AIR FORCE BASE IS ALREADY PLANNED FOR.

WITH RESPECT TO THE AIR QUALITY. I AGREE MITH PRIOR SPEAKERS THAT I SELIEVE THAT THE RELOCATION WOULD EMMANCE AIR QUALITY FIRST BY GETTING CONMUTERS OFF THE ROAD -- BECAUSE A LARGE PART OF OUR POPULATION WORK IN THE LOS ANGELES AND ORANGE COUNTY AREAS -- WHICH WOULD CREATE REDUCED COMMUTING AND TRAFFIC CONGESTION.

AND I SEE MY TIME IS UP. IN CORCLUSION.
I WOULD LIKE TO SAY THAT THE CITY STROKELY
SUPPORTS, AS ITS FIRST CHOICE, ALTERNATIVE OME.
WITH THE PALLBACK CHOICE OF ALTERNATIVE FIVE.
TRANK YOU FOR YOUR TIME.

COL. MORRIBON: THAMK YOU.
MR. MORSPOOL. OUR MEXT SPEAKER WILL BE MR. ROBERT
BOUNDS, FOLLOWED BY MR. JAKES QUIMM.

GILLESPIE REPORTING SERVICES

CITY MANAGER OF THE CITY OF BEAUMORT. I WILL NOT TAKE ANYTHING AWAY FROM MAYOR TRANKEL FORD, THE MAYOR OF SAM JACINTO, WHO SPORE VERY WELL OF THOSE CITIES WAS ARE 20 TO 25 RILES AWAY FROM MARCH AIR FORCE BASE.

BEAUMORT IS MERELY TO THE MORTH OF BAN JACINTO WITH THE BILLSIDE BETWEEN UR. OUR AIR QUALITY IS VERY GOOD, AND ME MOPE TO KEEP IT THAT MAY. ONLY A CITY OF 9,948 TODAY. THE ESTIMATES HAVE RANGED FROM 2,015 TO A CITY OF 90- TO

AT THE PRESENT TIME, WE HAVE A NEW MASTEMATER TREATMENT PLANT THAT IS BEING PLANMED. IT WILL BE ON-LINE IN 1992, IN PLENTY OF TIME FOR NEW MONES TO BE BUILT FOR TROSE THAT RIGHT MOVE WARM THE SED HOVES.

ME MANY TO THANK YOU FOR THE TIME TONICHT. ALSO, TO INDICATE THE COUNCIL IS IN FAVOR OF, AS A FIRST CROICE, NUMBER ONE, AND MURBER FIVE, OF COURSE, AS A BACKUP.

COL. MORRISON: THANK TOU,

MR. BOUNDS. OUR HEXT SPEAKER WILL BE MR. JAMES

OUISM, FOLLOWED BY MR. ART PICK.

MR. QUIMM: CORONEL MORRISON, MEARING PANEL, IT'S A PLEASURE TO BE ABLE TO ADDRESS YOU

87

ASMLET. I LIVE AT 880 MORTH PERRIS BOULEVARD, PERRIS, CALIFORMIA. AND I AM MERE IN SEVERAL CAPACITIES. I AM A VICE PRESIDENT AND DIRECTOR OF THE REVERSIDE ECOMONIC DEVELOPMENT CORPORATION., AND WE ASSIST BUSINESSES IN SITUATIONS LIKE THIS THAT WILL COME INTO OUR AREA. AND WE STAND READY TO DO THAT. AND YOU MAVE REARD FROM A LOT OF TESTIMONY ALREADY NOW PREPARED WE ARE FOR THAT.

ALSO, I AM A COMMUNITY ACTIVIST DOWN IN THE PERRIS/SUM CITY/MENIFEE AREAS, WRICK YOU MAVE MOT MEARD FROM YET TOWIGHT. AND I AM NOT SURE THAT -- OUR CITY MANAGER'S ON VACATION AND IS NOT MERE TO SPEAK FOR THE CITY OF PERRIS. BUT I MOULD LIKE TO SPEAK AS A CITIZEN. THE CITY OF PERRIS IS OW RECORD STRONGLY IN FAVOR OF THIS PROJECT.

WE ARE THE CITY THAT SITS IMMEDIATELY SOUTH AND MESTERLY UP TO ABOUT BANDEMA STREET IN RECARD TO THE MARCH AIR FORCE BASE. AND RIGHT NOW ME MAYE OVER 10,000 -- IT'S MORE LIKE 12,000 -- PLANNED RESIDENTIAL UNITS THAT MAYE ALPRADY SEEM APPROVED, AND THEY'RE IN THEIR VARIOUS FORMS OF DEVELOPMENT IN THE CITY.

THE LAND BETWEEN MARCH AIR FORCE BASE AND THE DOWNTOWN CITY OF PERRIS HAS BEEN SET ASIDE FOR INDUSTRIAL DEVELOPMENT. AND WE MAYE BEEN CAREFUL

GILLESPIE REPORTING SERVICES

NOT TO PUT TOO NAMY HOUSES TOO CLOSE TO THE BASE.
AND IT'S BEEN A HARD FIGHT, BUT WE ARE MINNING
THAT FIGHT.

AND, ALSO, THERE'S A 6 HILLION GALLON PER DAY WASTIMATER TREATMENT PLANT IN OUR CITY THAT IS NOW IN PROCESS AND SERVES OUR COMMUNITY AND THAT CAN SERVE CERTAIN ASPECTS OF THE BASE.

AND ME ALSO MOST 200 UNITS OF ENLISTED MEN. PERSONNEL OR -- THAT ACTUALLY LIVE PIGHT -- IF THEY DON'T LIVE MEXT TO THE BASE, THEY LIVE RIGHT IN THE HIDDLE OF OUR CITY. AND TREY ARE VERY MELCOME, ME ARE VERY PROUD TO MAVE THEN, THEY ARE AN ASSET TO OUR COMMUNITY, AND ME'D BE VERY MAPPY TO MAVE MORE.

AND I THINF THE MOST IMPORTANT THING IS THAT OUR COMMUNITY. BOTH THE PERRIS AND SUM CITY COMMUNITIES, STRONGLY SUPPORT MARCH AIR PORCE BASE AND ITS ROLE AND ITS RISSIOM, AND ME WOULD BE VERY MAPPY TO SEE THE BED MOVE OUT TO MARCH AIR PORCE BASE.

I AGREE WITH ALL THE CONNENTS THAT HAVE SEEN HADE BY OUR LOCAL OFFICIALS, BOTH ELECTED AND HOMELECTED. THANK YOU.

COL. MORRISON: THAMP YOU,
HR. ASHLEY, OUR HEXT SPEAKER WILL BE HR. REWRY
WAGHER, FOLLOWED BY MR. STEVE ALBRIGHT.

THEREFORE, WE HOPEFULLY CONCLUDE THAT YOU

WOULD HAVE A SINILAR FINDING ON THE PROPERTY IMMEDIATELY MENT DOOR ALONG THE AIR FORCE BASE.

SECOND, IN PARAGRAPH ENTITLED "ACCESSIBILITY," THE IMPACT STATEMENT ONLY DISCUSSES CACTUS AVENUE TO THE EAST OF SITE ONE. AND FOR YOUR COMSIDERATION, I WOULD LIKE TO SUGGEST TWO OTHER POSSIBLE MEANS OF ACCESS. ONE WOULD BE BARTON STREET VIA ALESSANDRO. BARTON 25 APPROXIMATELY 1,200 FEET LONG, IS A TWO-LAME PAVED STREET THAT DEAD-ENDS DIRECTLY INTO THE AIR FORCE BASE.

IF HECESSARY, REGIONAL PROPERTY, WHO HAS PROPERTY ABUTTING BARTON, WOULD CERTAINLY DEDICATE THE RECESSARY LAND TO IMPROVE BARTON TO ADDITIONAL

AND, SECONDLY, SINCE THE CORNOR PROPERTY LINE BETWEEN OUR PROPERTY AND MARCH AIR FORCE BASE IS ALMOST A MILE LONG, THERE IS CERTAINLY AMPLE OPPORTURITY IN THE COMING DEVELOPMENT OF MISSION GROVE TO PROVIDE ROADS FROM MISSION GROVE PARKWAY OVER TO THE PROPERTY LINE, IF WEED BE, AND IF THAT WOULD BE SUITABLE.

AND, THIRD, IN THE PARAGRAPH ENTITLED

GILLESPIE REPORTING SERVICES

"ADJACENT LAND USES." I WOULD LIKE TO POINT OUT THAT WOULD SUPPORT THE OFF-BASE SUBCONTRACTORS AND THEIR FAMILIES THAT WOULD BE HOVING TO MARCH AIR FORCE BASE.

FIRST OF ALL. WITH RESPECT TO INDUSTRIAL AND OFFICE LAND. WE HAVE APPROXIMATELY 292 ACRES ZONED M.P., WHICH IS LIGHT INDUSTRIAL. WE ARE HOW COMPLETING THE INFRASTRUCTURE OF STREETS AND MISSION GROVE BUSINESS PARK. WE NAVE PARCELS IN THAT DEVELOPMENT OF ONE TO TEN ACRES.

WITHIR THE BUSINESS PARK THAT I HAVE JUST MENTIONED. WE MAVE JUST PULLED BUILDING PERRITS OF A 72.000-SQUARE-FOOT FACILITY THAT IS SEVEN BUILDINGS ON A PARCEL OF SEVEN ACRES. THAT IS GOING TO START CONSTRUCTION ALMOST INNEDIATELY. WITH RESPECT TO COMMERCIAL, OF HISSION

19 GROVE, WE ARE CURRENTLY DEVELOPING A 42-ACRE. 20 400,000-SQUARE-FOOT SHOPPING CENTER THAT WILL BE 21 ANCHORED BY E MART, RALPH'S FOOD STORES AND 22 PAYLESS DRUGS. WE ARE IN THE PROCESS OF 23 DEVELOPING THAT RIGHT NOW AND IT SHOULD BE READY IN APPROXIMATELY ONE YEAR, IN THE FALL OF 1991. THER, WITH RESPECT TO RESIDENTIAL

PROPERTY, WE PRESENTLY MAVE 120 ACRES OF -- EXCUSE

CILLESPIE REPORTING SERVICES

ME -- 120 UNITS OF MISSION GROVE APARTMENTS THAT CONSISTENTLY ARE 95 OR HORE PERCENT LEASED WITH 200 UNITS TO BEGIN CONSTRUCTION INHEDIATELY. THAT IS IN A SECOND PHASE OF THAT PROJECT.

ALSO, WITHIN MISSION GROVE, THERE IS ADDITIONAL PROPERTY SOMED 8-330. THAT WILL ACCOMMODATE ANOTHER 650 UNITS OF APARTMENTS THAT IS PRESENTLY BEING PLANNED

I MAVE LEFT A WRITTEN COPY OF OUR STATEMENT AND, AGAIN, ON BEHALF OF REGIONAL PROPERTIES, THANK YOU FOR THE OPPORTUNITIES FOR SUBMITTING OUR COMMENTS TO YOU AND WE LOOK FORWARD TO WAVING SED COME TO MARCH AIR PORCE BASE. THANK

COL. MORRISON: THANK YOU. HR. GLASGOW. OUR MEXT SPEAKER WILL BE HR. HARLEY RHOX, FOLLOWED BY MISS TOLANDA RIDDOG.

MR. RHOX: COLONEL MORRISON, MEMBERS OF THE PAREL, GOOD EVENING. I AM MARLEY KHOX, 24560 HANDINA AVENUE, MORENO VALLEY.

COUNCILMAN DAVID NORSPOOL WAS NESS EARLIER THIS EVENING TO SPEAK A LITTLE BIT ABOUT MORENO VALLEY, THE CITY THAT IS CONTIGUOUS TO RAN OUT OF THE TIME, AS HE OFTEN DOES, AND HE DIDN'T HAVE AN OPPORTUNITY TO MENTION THAT THERE

GILLESPIE REPORTING SERVICES

ARE TWO NEW HOSPITALS IN HOREHO VALLEY WITHIN APPROXIMATELY THREE, THREE AND A HALF HILES OF MARCH AIR FORCE BASE. ONE OF THER JUST COMPLETED. THE GRAND OPENING WILL BE IN ANOTHER WEEK. A 350-820 HOSPITAL BUILT BY MEHET VALLEY HOSPITAL DISTRICT. AND THE RIVERSIDE COUNTY GENERAL MOSPITAL WILL BE LOCATED ALSO WITHIR ABOUT THREE. THREE AND A HALF HILES OF MARCH AIR FORCE BASE. AND THAT WILL BE. I BELIEVE, ABOUT 475 BEDS. AND IS THE COUNTY'S MAJOR TRAUMA CENTER.

I AM HERE TOWIGHT TO REPRESENT THE SILVER EAGLES. THE SILVER EAGLES WOULD LIKE TO POINT OUT ENVIRONMENTAL IMPACT STATEMENT. THAT IS, COMMUNITY SUPPORT AND POLITICAL AND SOCIAL ENVIRONMENT OF THE SITES CONSIDERED FOR THE PUTURE NOME OF THE SPACE SYSTEMS DIVISION.

ART PICK SPOKE ELOQUENTLY ABOUT THE HISTORY OF MARCH AIR FORCE BASE. HE WENT BACK TO 1917 WHEN CONMUNITY LEADERS -- COMMUNITY SUSINESS PEOPLE FROM RIVERSIDE CHAMBER OF CONNERCE GAVE 640 ACRES TO THE WAR DEPARTMENT FOR THE ESTABLISHMENT OF THE AIR BASE.

SUPPORT FOR MARCH HAS ALWAYS BEEN STRONG. AND MEVER STRONGER THAN IT IS TODAY. THERE ARE MANY MARCH AIR FORCE BASE SUPPORT ORGANIZATIONS IN

GILLESPIE REPORTING SERVICES

TRANSCRIPT 4 104 OUR AREA: THE HILITARY APPAIRS COMMITTEES FROM THE CONSIDERATION OF THE SOCIAL, FINANCIAL AND CHAMBERS OF COMMERCE THAT ART PICK SPOKE ABOUT. 15.10 POLITICAL ENVIRONMENT THE AIR FORCE ENJOYS AT HONORARY COMMANDERS, AND THE SILVER EAGLES MARCH AIR FORCE BASE WHEN WEIGHING THIS DYNAMIC AREA AGAINST OTHER OPTIONS. THANK YOU. COMMUNITY LEADERS FROM THE INLAND EMPIRE DEDICATED GENTLEREN. TO PROVIDING POLITICAL SUPPORT FOR MARCH AIR FORCE COL. HORRISON: THANK YOU, MR. KNOX. BASE LOCALLY AND THE AIR FORCE MISSION IN OUR MENT SPEAKER WILL BE RS. YOLANDA KIDDOO, FOLLOWED BY MR. TODD BEELER. MR. BEETER? THE SILVER EAGLES PROVIDE SOCIAL AND HR. BEELER WILL BE FOLLOWED BY HR. JACK REAGAN. ECONOMIC SUPPORT TO THE AIR FORCE PERSONNEL OF 10 11 MR. BEELER: COLONEL MORRISON AND 12 MEMBERS OF THE REVIEW TEAM, I AM TODD BEELER. D.C., FOR THE AIR FORCE MISSION AND NEW WEAPON 12 13 DEPUTY PLANNING DIRECTOR OF RIVERSIDE COUNTY, AND SYSTEMS. WE ARE STRONG SUPPORTERS OF THE STEALTH 13 WHILE OUR DEPARTMENT IS REVIEWING THE DRAFT 14 BONDER AND FIGHTER PROGRAMS. AND ARE LONG-TIME BACKERS OF THE SPACE SYSTEMS PROGRAMS OF THE AIR COMMENTS MAY BE SUBMITTED WITHIN THE REVIEW TIME. 16 PLEASE BE AWARE, GENTLEMEN, THAT THERE I'D LIKE TO CLARIFY OR AT LEAST SPECIFY SPECIFIC 3.0 COMMENTS TONIGHT ON THE -- YOU HAVE HEARD FROM HAS ALWAYS BEEN STRONG LOCAL SUPPORT FOR MARCH AND ALMOST EVERY SPEAKER -- THE CONTEXT OF THE THAT SUPPORT IS WELL ORGANIZED, WELL FUNDED, AND JOB-HOUSING BALANCE DISCUSSION, AND WHILE THAT VERY DEDICATED TO OUR AIR FORCE PEOPLE, MARCH AIR IS -- THAT HAS BEEN GENERICALLY REFERRED TO 21 FORCE BASE AND THE UNITED STATES MISSION AS WELL. TONIGHT, THE DRAFT ENVIRONMENTAL IMPACT STATEMENT 22 WE EXTEND OUR SUPPORT TO THE PERSONNEL OF 23 THE SPACE SYSTEMS DIVISION AND THEIR HISSION. WE FOR THIS PROPOSAL SHOULD, IN FACT, VERY 15.10 SPECIFICALLY ADDRESS THE REGIONAL AIR QUALITY HANAGEMENT PLAN THAT HAS BEEN REFERRED TO BY THE THE INLAND EMPIRE. THE SILVER EAGLES ASKS THAT YOU RECOGNIZE THE VALUE OF THIS STRONG AIR FORCE CHAIRMAN OF THE DISTRICT AND OUR BOARD AND SOME GILLESPIE REPORTING SERVICES GILLESPIE REPORTING SERVICES OTHER HEMBERS. BUT THE REGIONAL AIR QUALITY AIR QUALITY IMPACTS. MANAGEMENT PLAN IS NOT ONLY THAT, BUT IT'S BEEN IN FACT. THE JORS-HOUSING BALANCE SHIFT ADOPTED INTO THE STATE LEVEL AND IS A PART OF THE OF MANY OF THE JOBS THAT HAVE BEEN IDENTIFIED TO A VERY JOBS-POOR SUBREGION WITHIN THIS BASIN MAY AND FEDERAL STANDARDS AND IS. IN FACT, REFERENCED HAVE A VERY POSITIVE EFFECT, AND THIS PROPOSAL AND MOST RECENTLY IN THE FEDERAL EPA'S FEDERAL THE POTENTIAL RELOCATION OF THE ENTIRE FACILITY. IMPLEMENTATION PLAN IN RESPONSE TO ALL-TOO-OBVIOUS AS THE DOCUMENT TALKS ABOUT. MAY ACTUALLY HAVE THE AIR QUALITY PROBLEMS WITHIN THE BASIN. OPPORTUNITY, THE UNIQUE OPPORTUNITY, TO 11.1 DRAHATICALLY IMPROVE THE EXISTING PROBLEM BUT, SPECIFICALLY, CONNENTS TONIGHT ON AND IN RESPONSE TO THE -- THESE ISSUES IN THE FINAL DOCUMENT. I THINK THAT THE HODELING CONTROL HEASURE UNDER THE TITLE OF GROWTH MANAGEMENT IN THE REGIONAL PLAN, AND IT HAS THAT'S BUS THROUGH SOUTHERN CALIFORNIA ASSOCIATION 13 EXPECTATIONS OF THE LOCAL JURISDICTIONS THAT FOUR 13 OF GOVERNMENTS MAY BE SIGNIFICANTLY VALUED TO COUNTIES AND THE 137-PLUS CITIES IN THIS BASIN TO DEMONSTRATE THE BENEFIT THAT THE RELOCATION OF SPECIFICALLY DEAL WITH IMPROVEMENTS IN THE LAND THAT HAGNITUDE OF JOBS TO THIS PORTION OF THE 11.1 THAT HEASURE HAS IN FACT VERY SPECIFIC 10 COL. MORRISON: THANK YOU, HITIGATION AND MEASURABLE AIR QUALITY IMPROVEMENTS 19 HR. BEELER. CUR NEXT SPEAKER WILL BE HR. JACK 20 WITHIN THE AIR BASIN WHICH THE EXISTING AIR FORCE 20 REAGAN, FOLLOWED BY MR. JOHN HUTCHISON. 21 L.A. FACILITY IS WITHIN, AND THE PROPOSED MARCH HR. REAGAN: FOR THE RECORD, HY MANE RELOCATION ARE BOTH WITHIN THE BANE AIR BASIN. IS JACK REAGAN. I AM THE EXECUTIVE DIRECTOR OF 23 AND THE DRAFT INPACT STATEMENT, BASED ON A VERY THE RIVERSIDE COUNTY TRANSPORTATION CONRISSION. CURSORY REVIEW THIS AFTERNOON BY MYSELF OF THAT I HAVE SUBHITTED SOME WRITTEN COMMENTS, 25 DOCUMENT, SEEMS TO DRAMATICALLY HISS THE ISSUE AND 25 WHICH I WILL ATTEMPT TO SUMMARIZE. IT WILL TAKE I THINK MAY SIGNIFICANTLY OVERSTATE THE IMPACTS. 26 FAR LONGER THAN FIVE MINUTES TO GO THROUGH IT. GILLESPIE REPORTING SERVICES GILLESPIE REPORTING SERVICES

F.1-101

TRANSCRIPT 4 OF THAT HEW 1-215 PROJECT. THE NATURE OF THESE COMMENTS ARE VERY TECHNICAL. EXISTING I-215 IS A TWO-LANE EXPRESSMAY. AND ARE COMPINED TO TRANSPORTATION AND TRAFFIC WITH THAT GRADE OF CROSSINGS AND LOCAL ACCESS OF ISSUES. PROPERTIES AND LOCAL STREETS. THE PROJECT WOULD THE RIVERSIDE COUNTY TRANSPORTATION COMMISSION WAS CREATED BY SPECIAL LEGISLATION IN UPGRADE THAT PACILITY TO A FULL FREEWAY STANDARD 1976. OUR RESPONSIBILITY PRIMARILY DEALS WITH AND A SIX-LAWE PROJECT: THAT IS, THREE LAWES IN EACH DIRECTION. RATHER THAN LEVEL OF E & F TRANSPORTATION PLANNING AND PROGRAMMING, BUT WE ARE ALSO THE AGENCY THAT ADMINISTERS A SERVICE THAT'S IDENTIFIED IN THE ENVIRONMENTAL IMPACT STATEMENT, OUR CONSULTING ENGINEERS AT ONE-WALF PERCENT SALES TAX THAT WAS APPROVED BY 10 RIVERSIDE COUNTY VOTERS BY MEARLY AN BO PERCENT BECHTEL INDICATE THAT USING THE FORECASTED TRACK 11 MAJORITY IN HOVEMBER OF 1988. AND I AM HERE TO 11 THAT'S DOCUMENTED IN THE SIS, THAT WE HAVE LEVEL B 13 TRY TO GET THE MESSAGE ACROSS TO YOU TOWIGHT THAT 12 SERVICE AT THE PROJECTED YEAR, EITHER WITH THE 13 BASE CASE SCENARIO OR WITH FITHER OF THE SITES WE HAVE PROJECTS AND PROGRAMS IN PLACE TO DEAL 6.9 THAT ARE IDENTIFIED ON GROUPS OF MARCH AIR FORCE WITH THE TRAFFIC PROBLEMS THAT MAY BE RELATED TO 25 MARCH AIR PORCE BASE AND PURTHER ANTICIPATED WE CONCLUDE THAT BEFORE TRAFFIC IS REALLY 16 GROWTH WITHIN THE REGION. 17 GOING TO GET BAD DURING PEAR HOUR, YOU COULD 17 WITH RESPECT TO THE 1-215 PREEMAY UPDATE 10 PROJECT, THE ENVIRONMENTAL IMPACT STATEMENT DRAFT 10 PROBABLY ACCOMODATE AS NUCE AS 120,000 CARS PER CORRECTLY MOTES THAT A PROJECT IS PENDING. IN 19 DAY OF A PACILITY BUCK AS BEING BUILT ON 1-215. 19 20 THERE IS A SECTION OF 1-215 SETWEEN ROUTE 60 AND PROMOTE THAT PROJECT OR ADVERTISE IT IN DECEMBER 21 APPROACHES 130,000 VEHICLES PER DAY NOW AND ONLY 33 OF 1990, AND IT SHOULD BE COMPLETED BY 1993. HAS COMGESTION DURING THE PEAK MOUR. 23 BUT I -- FROM OUR READING AND THE READING 23 OF OUR CONSULTING ENGINEERS, BECRTEL CIVIL, INC., 24 24 SO THE 1-215 PROJECTS AND THE UPGRADES. 25 THE ENVIRONMENTAL IMPACT STATEMENT MAY NOT INCLUDE 25 INCLUDING THESE INTERCHANGES AT ALTERANDRO. CACTUS, VAN BUREN AND GLEANDER WILL DRAWATICALLY CORRECT IMPORMATION WITH RESPECT TO THE BENEFITS GILLESPIE REPORTING SERVICES GILLESPIE REPORTING SERVICES IMPROVE ACCESS TO MARCH AIR FORCE BASE. TO BE INCLUDED IN THE 1990 STIP THAT WILL BE -- OR 3 IT'S INTERESTING TO HOTE, TOC. THAT 1990 STIP -- THAT IS HISLABELED HERE -- THAT WILL THE -- THERE WILL BE WIDENING OF LOCAL STREETS AT BE ADOPTED ON SEPTEMBER 20TH OF THIS YEAR. AND 6.9 ALESSANDRO, CACTUS, VAN BUREN AND CLEANDER, SONE THIS ISH'T JUST A MOPE. I MEAN, THIS IS A STAFF DISTANCE BACK FROM THE INTERCHANGE FROM A MINIMUM RECORDENDATION FROM CALTRANS, THE CALIFORNIA OF APPROXIMATELY A THOUSAND FEET TO AS RUCK AS A TRANSPORTATION COMMISSION. AND WE TALKED WITH THE MALF MILE IN THE CASE OF CACTUS AVENUE. COMMISSIONER. WE ARE VERY SURE THAT ALL THESE I'D LIKE TO ALSO MENTION -- WE CAN GO ON PROJECTS WILL BE INCLUDED IN THE MEXT-STAGE TO THE MEXT EXHIBIT -- THAT MEASURE "A", AGAIN, WRICH IS APPROVED BY VOTERS IN RIVERSIDE COUNTY. THE MESSAGE IS THAT WITHIN THE MEXT TEN HAS A SPECIFIC PLAN FOR SPECIFIC IMPROVEMENTS. YEARS, LET'S SAY, AS WE GO THROUGH THE 11 AND PART OF THE HEASURE "A" PROGRAM INCLUDED THESE 12 ENVIRONMENTAL PROCESS AND THE ACTUAL AWARDING OF 23 ADDITIONAL PROJECTS THAT ARE TO BE IMPLEMENTED. 13 CONSTRUCTION FOR THESE PROJECTS, WE ARE GOING TO 6.10 14 AND THESE ARE WITHIN THE ADOPTED STATE 14 DRAMATICALLY IMPROVE. WITH STATE PUMDING AND TRANSPORTATION IMPROVEMENT PROGRAM. IT'S A MONEY MEASURE "A" FUNDING, MOBILITY WITHIN THE INLAND PROGRAM -- YOU HAVE MEASURED "A" MONEY OR STATE CUMULATIVE PROJECTS IN TERMS OF THE INFORMATION 6.10 18 THESE ROUTES INVOLVE PRESMAY WIDENING OR 18 THAT'S DOCUMENTED IN THE ENVIRONMENTAL IMPACT 19 RIGHWAY IMPROVEMENT PROJECTS THAT WILL DIRECTLY 19 STATEMENT DRAFT RELATED TO BIGHWAYS. 30 DEWEFIT INCREASES AND IMPROVEMENTS IN TRAFFIC 20 WITH RESPECT TO LOCAL STREETS AND BOADS. 21 MODILITY WITHIN THE INLAND EMPIRE REGION AND WILL 21 22 AFFECT MARCH AIR FORCE BASE. 40 PERCENT OF THE REASURE "A" NOWEY IS ALLOCATED 23 IF WE CAN GO TO EXHIBIT 3, THIS IS -- OR 23 TO THE CITIES AND THE COUNTY FOR LOCAL STREETS AND 4, 1 AM SORRY -- THIS IS A LISTING OF ADDITIONAL 24 ROADS PROJECTS. 25 PROJECTS -- AGAIN, HORE HIGHWAY AND INTERCRANGE 23 ALSO, PROPOSITION 111, WHICH WAS PASSED IMPROVENENTS AND THE LIRE .- WHICH WE ANTICIPATE 26 BY VOTERS IN THE STATE OF CALIFORNIA THIS LAST GILLESPIE REPORTING SERVICES GILLESPIE REPORTING SERVICES

IN CLOSING, I THINK WE MAVE DEMONSTRATED IN RIVERSIDE COUNTY OUR ABILITY AND WILLINGUESS. AND CONHITMENT TO DEAL WITH THE TRANSPORTATION PROGRAMS. WE NAV! THE PROGRAMS AND THE PROJECTS IN PLACE TO PROVIDE FOR THE MOBILITY THAT WE THINK WOULD BE MEEDED TO ACCOMMODATE EITHER ALTERNATIVE OME. ASSUMING THAT THE RELOCATION IS TO MARCH. OF COURSE, OR ALTERNATIVE FIVE. THANK YOU VERY WUCH. COL. MORRISON: THANK YOU. MR. REAGAN. OUR MEXT SPEAKER WILL BE MR. JOHN MUTCHISON, FOLLOWED SY JERRY CONLEY. WE. NUTCHISON: GOOD EVENING. I AN JOHN MUTCHISON: I AN THE DIRECTOR OF REAL ESTATE FOR THE UNIVERSITY OF CALIFORNIA-RIVERSIDE. I MAVE HAD A LITTLE BIT OF TIME TO GO	

114

120

117

IT INDICATES GREAT THOROUGHNESS. I WOULD, HOWEVER. LIRE TO ADD SOME OBSERVATIONS AS A LOCAL RESIDENT AND AS A FERVENT OBSERVER.

I SPEHT SEVERAL YEARS TEACHING ENVIRONMENTAL PLANNING BEFORE TAKING MY PRESENT

AS THE DRAFT ENVIRONMENTAL IMPACT STATEMENT POINTS OUT. THIS AREA MAS EXPERIENCED VERY RAPID URBAN GROWTH. AS PREVIOUS SPEAKERS MAVE COVERED, I TRIME THAT THIS AREA DISPLAYS ONE OF THE MOST SOPHISTICATED GROWTH MANAGEMENT SYSTEMS IN THE MATION, AND THIS IS A PACT THAT SHOULD SE REPLECTED IN THE ENVIRONMENTAL IMPACT

IN FACT, I THINK A GOOD DEAL OF THE POTENTIAL MEGATIVE ENVIRONMENTAL IMPACTS ASSOCIATED WITH GROWTH IS LIKELY TO OCCUR OFF THE BASE AND IN THE PRIVATE COMMUNITIES AS A RESULT OF SECONDARY EFFECTS. THIS COMMUNITY I THINK IS CULTURALLY AND TECHNICALLY POSED TO MANDLE THAT

I WOULD ALSO LIKE TO SMARE WITH YOU SOME OF THE EXPERIENCES OF THE INSTITUTION THAT I WORK FOR. THE UNIVERSITY OF CALIFORNIA IN RIVEREIDE. IN THE PAST FOUR YEARS, OUR ENROLLMENT'S UP 44 PERCEPT. LIKE THE AIR FORCE, WE ARE LOOKING AT

GILLESPIE REPORTING SERVICES

A GROWTH IN THE BIVERSIDE CONNUNITY OF APPROXIMATELY 10,000 STUDENTS AND ANOTHER 2 TO 3,000 SUPPORT STAFF IN COMING YEARS.

THE CAMPUS IN JULY COMPLETED AM

EMVIRONMENTAL IMPACT PROCESS MUCH AS IS BEING
COMBIDERED BERE, AND WE HAVE CONCLUDED THAT THE

COMMUNITY CAN SUCCESSFULLY ASSORD THIS TYPE OF
GROWTH, AND THAT WE HAVE POSITIVE EFFECTS FOR
BRINGING JOBS, AND PARTICULARLY
EMOWLEDGE-INTENSIVE JOBS, INTO THE COMMUNITY. THAT
THIS AREA HAS THE ABILITY TO SUPPORT THIS TYPE OF
GROWTH. IT HAS THE INSTITUTIONS TO HAMDLE IT.
AND I THINK IT HAS THE ABILITY TO BENEFIT THE
COMMUNITY AS A RESULT OF THIS TYPE OF ACTIVITY.
THE UNIVERSITY OF CALIFORNIA HAS SPENT

THE LAST 18 HORTHS WORKING TOWARD THE 16 17 ESTABLISHMENT OF A RESEARCH PARK. AT A PREVIOUS 10 MESTING, I DISCUSSED THE CLOSE RELATIONSHIPS 19 BETWEEN RESEARCH PARKS AND VARIOUS DEPARTMENT OF DEFENSE ACTIVITIES. THE UNIVERSITY OF CALIFORNIA LOOKS FORWARD TO PRODUCING A RESEARCH PARK WHICH 22 IS A PLACE WHERE CLOSE CONTACT CAN OCCUR BETWEEN 33 RHOWLEDGE BASE EMPLOYMENT CENTERS AND THE SOURCE 24 OF RECOLLEGE, THE PURE RESEARCH FUNCTION OF THE 23 UNIVERSITY OF CALIFORNIA.

THE UNIVERSITY OF CALIFORNIA'S MINI

CAMPUBES ACCOMPLISH ABOUT 10 OR 11 PERCENT OF THE PURE RESEARCH IN THIS COUNTRY. WHAT IS HISSING RIGHT HOW IS THE LIMEAGE BETWEEN PURE RESEARCH AND APPLICATION, AND IT'S SORETHING THAT WE WISH TO ADDRESS HERE OF TRIS CAMPUS.

WE LOOK FORWARD TO WORKING WITH THE AIR FORCE AND WORKING WITH SINILAR CONTRACTORS IN THIS IMPORTANT AREA.

AT THE DEPARTMENT OF DEFENSE FACILITIES AT THE UNIVERSITY OF FLORIDA -- AT THE FLORIDA PROGRESS CENTER, THE HAVY ESTABLISHED A MAVY SIMULATION CENTER OF ABOUT 880,000 SOURCE FEET TO THE GREAT BEREFIT OF THE COMMUNITY. TO THE ENGINEERING DEPARTMENT OF TRAT INSTITUTION, AND I TRINK TO OUR PUBLIC FUNCTION THERE.

AS DIRECTOR OF THE UNIVERSITY OF MARYLAND SCIENCE AND TECHNOLOGY CENTER, I MELPED RETABLISH A CENTER -- A SUPERCOMPUTING RESEARCH CENTER WITH THE INSTITUTE OF DEFENSE ANALYSIS. THAT IS NOW A 118,000-EQUARE-FOOT FUNCTIONING FACILITY.

AT PITTSBURGH, THE UNIVERSITY OF PITTSBURGH HAS SUPPORTED THE ARMY HATH RESEARCH CEMTER. IF SACH ORE OF THESE CASES, THERE'S BEEN CLOSE CONTACT BETWEEN RICKER EDUCATION AND THE DEPARTMENT OF DEFENSE'S VARIOUS ARMS.

ME LOOK FORWARD TO DEVELOPING THAT TYPE

CILLESPIE REPORTING SERVICES

OF RELATIONSHIP IN CONING MONTHS. THANK YOU SO HUCH.

COL. MORRISON: THANK YOU,

HR. MUTCHISON. OUR MEXT SPEAKER WILL BE MR. JERRY

COMLEY, FOLLOWED BY MS. VIRGINIA BURGESS.

HR. COMLEY: GOOD EVENING. SIR.
MEMBERS OF THE PAMEL. HY MANE IS JERRY COWLEY.
13082 PAVILLION COURT. MOREMO VALLEY. TOWIGHT I
REPRESENT THE ECONOMIC DEVELOPMENT DEPARTMENT FOR
THE CITY OF MOREMO VALLEY.

THE DRAFT EIS POINTS OUT THAT, UNDER THE PROPOSED ACTION. APPROXIMATELY 350 ACRES OF LAND ON BASE AND AN ESTIMATED 1,000 ACRES OF LAND OFFSASE WOULD BE REQUIRED TO SUPPORT DIRECT AND INDIRECT POPULATION IN THIS DEVELOPMENT.

THE DRAFT EIS ADEQUATELY IDENTIFIES THE AVAILABILITY OF LAND ON THE BASE ITSELF. AND OTHERS RAVE DEMONSTRATED THAT AS MELL TOMICHT. THAT OUTSIDE THE BASE IN VARIOUS COMMUNITIES. THERE ARE ADEQUATE AMOUNTS OF LAND.

I WOULD LIKE TO INDICATE TO YOU WHAT IS AVAILABLE IMBIDE THE CITY OF MOREMO VALLEY. THE INCOMPORATED AREA OF ROREMO VALLEY INCLUDES 49 SQUARE MILES. WITH A TOTAL SPHERE OF IMPLUENCE OF 68 SQUARE MILES. WHILE MOREMO VALLEY IS ONE OF THE FASTEST GROWING CITIES IN THE STATE.

APPROXIMATELY 46 PERCENT OF THE CITY'S TOTAL AREA
HAS BEEN DEVELOPED, WHICH LEAVES APPROXIMATELY,
AGAIN, 36 SQUARE WILES AS AN AVAILABLE RESOURCE
FOR CROWTH AND DEVELOPMENT.

THE CITY'S GENERAL PLAN PROVIDES FOR OVER 1,000 ACRES OF INDUSTRIALLY ZONED LAND, OVER 4,000 ACRES OF COMMERCIALLY ZONED LAND AND 24,000 ACRES OF RESIDENTIALLY SONED LAND.

THE CITY'S COMMERCIAL AND INDUSTRIAL LAND
18 -- EXCUSE HI -- IS INCORPORATED WITHIN THE
CITY'S ECONOMIC DEVELOPMENT ACTION PLAN WHICH
SPECIFICALLY SETS GOALS TO TARGET AND ATTRACT
BUSINESS AND INDUSTRY. TO PROMOTE THE AVAILABILITY
OF IMPROVED COMMERCIAL AND INDUSTRIAL SITES.

THE CITY IS DEVELOPED IN THE SEMSE THAT IT HAS ADOPTED A PHILOSOPHY OF DEVELOPMENT AND GROWTH. THERE ARE SEVEN SPECIFIC PLANS WITHIN THE CITY. THESE ARE MASTER PLANS THAT HAVE BEEN APPROVED FOR COMMERCIAL AND INDUSTRIAL USE AS WELL AS IMMEDIATE -- TWO OF WHICH ARE IMMEDIATELY ADJACENT TO THE MARCH AIR FORCE BASE.

22 COUNCIL MEMBER MORSPOOL RELATED TODAY -23 OR THIS EVENIMG RELATED THOSE TWO. ME MAVE OVER
24 2,500 ACRES OF LAND 20MED READY FOR DEVELOPMENT
25 WITHIN THOSE TWO AREAS.

ANOTHER SPECIFIC PLAN PROJECT WHICH IS

GILLESPIE REPORTING SERVICES

MORTH MOTING IS MORRHO MIGHLANDS, WHICH IS ON THE CITY'S EAST SIDE. THERE ARE OVER 3,000 ACRES OF MIXED-USE, MASTER-PLANNED COMMUNITY. THE PROJECT MAS OVER 450 ACRES OF INDUSTRIAL LAND, AND THERE ARE PROPOSED OVER 7,000 DWELLING UMITS.

IT SHOULD BE EMPMASIZED THAT THE RAPID GROWTH OF MOREMO VALLEY IS A FUNCTION OF BOTH THE QUALITY OF LIFE AND AFFORDABILITY. COMMERCIAL. INDUSTRIAL AND RESIDENTIAL LAND WITHIN THE COMMUNITY IS NIGHLY COMPETITIVE IN PRICE. ALSO, THE CITY OF MOREMO VALLEY AND ITS REDEVELOPMENT AGENCY AGGRESSIVELY RECRUIT AND ASSIST BUSINESS.

MAVING BEEN INCORPORATED JUST FIVE YEARS AGO. WE HAVE STILL BEEN ABLE TO ATTRACT TEN MAJOR PROJECTS, CREATING OVER 7,400 JOBS. WITHIN THE CITY IS THE 4,700-ACRE REDEVELOPHENT AREA WHICH OPFERS SPECIAL BUSINESS INCENTIVES, AND THE CITY'S CURRENTLY APPLYING FOR A STATE ENTERPRISE ZONE TO ADD HORE INCENTIVES TO DEVELOPMENT.

FINALLY, IN TERMS OF HOUSING, MOREMO
VALLEY IS KNOWN FOR ITS RESIDENTAL OPPORTUNITIES.
ITS WIDE RANGE OF HOUSING PRICES, FROM HIGHLY
APPORDABLE ENTRY-LEVEL MOMES TO HIGHER PRICED
UPSCALE HOUSING. CURRENTLY, THERE ARE OVER 15,000
ROUSEMOLDS THAT EXIST WITHIN THE COMMUNITY. IN
ADDITION, THERE ARE 15,000 UNITS THAT ARE

GILLESPIE REPORTING SERVICES

121

CURRENTLY APPROVED AND IN SOME STAGE OF DEVELOPMENT, WITH AN ADDITIONAL 3,000 UNITS WHICH WE EXPECT TO BE APPROVED EACH YEAR.

THAT WARTS JOB-CREATING INDUSTRY, HAS MASTER PLANS, AND IS PREPARED FOR A RESIDENTIAL.

COMMERCIAL AND INDUSTRIAL CROWTH, INCLUDING THAT WHICH A RELOCATION OF SED TO MARCH AIR FORCE BASE MIGHT BRING. ME OFFER THE LAND AND THE MOUSING AFFORDABILITY HECESSARY FOR SED TO BY SUCCESSFUL AT MARCH AIR FORCE BASE. THANK YOU.

COL. HORRISON: THANK YOU,
MR. COWLEY. OUR NEXT SPEAKER WILL BE MS. VIRGINIA
BURGESS, FOLLOWED BY MR. JACK BROADBERT.

MS. BURGESS: MY MAME IS VIRGINIA BURGESS. I RESIDE AT 2374 SEVENTH STREET IN RIVERSIDE.

MY STATEMENT IS DERIVED FROM PERSONAL EXPERIENCE WITH THIS SUBJECT. I RETIRED FROM THE ABROSPACE CORPORATION IN 1979 AS THE SENIOR TECHNICAL EDITOR. I STARTED WORKING FOR ABROSPACE IN THEIR SAN BERNARDING FACILITY IN 1964. THAT WAS WEEN IT WAS LOCATED AT THE COMMER OF TIPPECANOE AND DILL AND WAS TRANSFERRED DOWN TO THE EL SEGUNDO FACILITY IN 1972.

WHEN THE PACILITY, THE AEROSPACE

GILLESPIE REPORTING SERVICES

FACILITY, WAS HOVED TO EL SEGUNDO IN 1972, THE EFFECT ON THE MHOLE INLAND EMPIRE CONMUNITY WAS TRAUMATIC. MANY EMGINEERS HAD PURCHASED HONES IN REDLANDS, RIVERSIDE, RIALTO, CRESTLINE, ALL AROUND MERE.

I MAS TOLD. MREW I CAME MERE, THAT SAM
BERNARDIMO HAD TWO PAYROLLS: MORTOF AND MELFARE.
AND THAT COMMUNITY WAS ESPECIALLY IMPACTED. MANY
OF THOSE TRANSFERRED PREFERRED TO COMMUTE. SINCE
WE OWED OUR NOMES AND RETIREMENT WAS NOT TOO FAR

ME CHARTERED A BUS. I COMMUTED FOR SEVEN AND A HALF YEARS. THAT BUS IS STILL RUMNING. IT IS STILL OPERATING. AND IT HAS BEEN AUGMENTED BY HUMEROUS PRIVATELY-OWNED VANS. THEY ARE MEAVILY USED BY AIR FORCE PERSONNEL MNO MUST LIVE HERE. BECAUSE THEY CAN HOT AFFORD TO LIVE IN EL SEGUNDO. THIS IS PARTICULARLY TRUE OF THE YOUNGER OFFICERS.

THESE PEOPLE STILL SPEND THREE TO FOUR MOURS A DAY ON THE FREWAY. DEPENDING ON THEIR TIME OF DEPARTURE, THE ROUTE THEY TAKE, AND SO FORTH. I HAVE A FRIEND WITH WHOM I WORK, AND SHE CORES OUT AND VISITS HE FREQUENTLY ON THE WEEKENDS. SHE TAKES THE BUS. WE GET UP AT A QUARTER OF 4:00 WHEN WE HAVE TO TAKE HER TO MEET

GILLESPIE REPORTING SERVICES

F.1-105

TRANSCRIPT 4 124 THE BUS DOWN AT TYLER MALL TO CATCH IT TO GO BACK 15.10 IN. THE TRAFFIC IS SO REAVY, IT'S BUMPER TO COL. PUBLIC MEABING

CLOSUME OF LOS AMOSTES AFE AND RELOCATION OF SPACE SYSTEMS DIV

COLORADO SPRIPOS, COLORADO

5 557 1000

(The hearing commenced at 1915 hours, 9 See 1998.)

COLOREL MORELEON:

Good evening ladies and gentlemen. It's gratifying to see a turn out by people who are interested in proposed actions that may affect the citizens of this area.

On March 20th, 1988, & seeping meeting was held here to identify important environmental issues that might be involved in the proposed closure of Los Angles Air Force Bars, and the relocation of Space Systems Division. Subsequently, various studies were conducted regarding these and other conceins relating to the proposed closure and relocation and a draft environmental impact statement was prepared.

The Air Force has new distributed this draft environment impact statement which addresses proposals to close Les Angeles Air Force Base and relevate Space Systems Division beginning in 1993 and rainthing in 1996.

The potential impacts identified in the environment impact statement for the Colorado Aprings area are highlighted in the handouts available at the entrance of the suditorium and they will be addressed in detail tenight by Major Mary Vressa.

Should you wish to review the draft environment topoct statement, oppose are available at the University of Colorade, Colorade, Statement, Springe Main Library and the Panesee public Library, it is must your own copy and have not already received a copy of the draft environment import statement, you may make a specific request by writing to the address shown on the handout on the written comment about.

Bost, just why are we here this evening? The purpose of this public hearing is to solicit input from public agencies, private enganizations, and the public at large on the draft environment impact statement. This hearing is being held in accordance with the requirements of the Estimus libriorements | Policy Act and implementing profess; and implementing

proposed actions. And to use those analyses in arriving at decisions or recommendations so to whether to proceed and how to proceed and the process and the process and the process are to be to process and the process are to be to process and the process are to be to process and the process are to be to process and the process are to be to be to process and the process are to be to

proceed with a particular action.

I'we been designated as presiding officer for tenight's public hearing concerning the prepared eleume of Les Angeles Air Ferce Bases and relevantion of the Space Systems Divisions including the ballistic missile organization. By name is Colonel that Barrison I'm an attempty and I arred as a full time missive grount court judge, stationed at Randelph Air Ferce Base in San Antenie. Tenna Commands under consideration for the releasants. I'm not there as an expert on the draft environment impact statement, sor have I had any connection with its development. And I am not here to est as a legal advisor to the Air Ferce representatives who will advise this proposal by purpose in a singly to enque that we fair charge the special to the part court of the second control of the s

Other hembers of the Air Ferce here tanight are Colonel Gerald Sergema. the Commander of the 3rd Space Support Wing, Peterson Air Force Same Colonel Derjonan will represent Fairson and Falton Air Force Sames (ble evening, Heat, Mr Torry Tonder, Deputy of the Environmental Flanning, Heat, Mr Torry Tonders, Porce Systems Command at Andrews Air Force Sames Command at Andrews Air Force Sames Command the Mr Tonders will speak about the proposed closure action and related back closure studies

Last, from the Air Ferce Begienel Civil Engineering Office at Herten Air Ferce Base, Major Mary Tremen Hajor Tremen is the Deputy Director of the Environmental Division - She will describe the environment impact analysis process and the conclusions reported in the draft environmental impact statement

We have a court reporter this evening, Mr Lleyd Green, who will be taking down verbatim everything that is said tomight and this will become part of the finel environmental impact statement, which in turn becomes part of the Air Force record of decision. He can only do his jub properly if he can clearly understand what you are saying the those of you who will be making public comments tomight, please beey that in aird

How let me say what this bearing is not. This isn't going to be a debate, nor a referendum, or a vete on the proposed action. Such things don't add anything to the written bearing record and simply mastes your valuable time during this opportunity for personal input into the desizion making process. The facture of this hearing is on the environment impacts associated with the proposals being studied by the Air Porce. Comments on nonenvironmental insues

should not be raised at this hearing. What this hearing is intended to provide is a public forum for two-way semmunication about the draft environmental impact statement with a view toward improving the overall decision-making process.

How you notice I said 'two-way commanication'. The farst part of the hearing lets the Air Force's mex knewledgeable people brief you on this proposal, its details, and the anticipated anvironmental impacts. The second part of the process is to give you an appartunity to provide the Air Force information and to make statements for the record. Tour input ensures that the desision maker may benefit from your hewledge of the local area and any adverse environmental effects that you think may result from this propoced action.

As you name into the auditorium this evening you were provided an attendance card and saked to indicate on at if you had any comments for tonight's hearing. When the brisders inine I will recipile members of the public for the purpose of nating remains. For those of you who have not yet filled out cards and comments. For those of you who have not yet filled out cards and make the public of the public for the purpose of a filled out cards and semants. If there is anyone when the bounces of i distribute more cards if there is anyone when the semants of the public of the card that they wish to speak and you don't have a card. Paise your hand and someone will provide one to you.

Our order of proceeding is in three parts: first, the briefing, the Tonbord, on the proposed cleaves action and relocation action and the overall study process. Then, you will receive a briefing from the overlass the process and the conclusions reported in the draft ownermomental impact statement, the process of the process of the public three process. The process of the public and the process of the public and the process of the public and process of the

Bow if you don't feel like standing up here tenight and making a statement orally, you have until September 24th of this year to submit written comments whitten comments sheets are provided at the distance of the auditorium for your use in providing these comments. In fact, even if you make comments tenight you have until the 24th of September to submit additional comments in writing to the address provided in the handout.

Whether a statement is made verbally tenight or in writing prior to the 24th of September, each statement will be given equal meight in consideration, so don't feel like you have to speak tenight if you would prefer to submit written comments.

I want to ensure that all who wish to speak to hight have an equal opportunity to be heard so please help me enforce the following ground rules:

First: speak only after I've recognized you and please address your remarks to me

Use the microphone provided at the podium. Speak clearly and slowly, Starting with your name, your address; capacity in which you appear, for example, public official, designated speakemen of a group or a private citizen, so our court reporter can do his jub properly. If you have questions ask one at a time and I will allow a reasonable number of questions. Because you have a time limit, please priorities your remarks so; your mest important remarks are addressed first.

Each person will be recognized for a maximum of five minutes; that includes public officials, designated appropriate and private persons. The individual seated in from to the well act as the timesceper. At the februard a half minute mark he will raise a yellow card which will be your crue to sum up. And a red card will be related at the end of five minutes to indicate that your times to up.

Please honor any requests from me that you step speaking when your time is up otherwise we hight not have the time to hear from everyone who wants to hear

Please be courteous and do not speak while someone else is

Finally, our hosts asked that you kindly refrain from smoking in this auditorium I would appreciate your cosperation in adhering to all rules this evening. I'll mentar the times and of everything within my power to make sure that everyone who wants to be heard will be heard. How with regard to questions, it's peculiar that there will be questions that the air Farce processes that the results of the control o

Second, there may be questions that how national security implications and these must be reviewed further before answers are provided. If this should occur and if the question is relevant it will be addressed in the final document which you can request a copy of

TRANSCRIPT 5

One thing I would like to atress again--you may have information about environmental factors unknown to us. We are vary interested in having and analyzing all patential environmental impacts of this proposed action. You have the experience that common from living in an area over a long period of time and so this ascend part of tanight's communication, that part that flow from you to us, js jupy-inter-ce don't bestime to be a part of the

If we run out of time before everyone gote to speak, you are invited to subsite a statement in writing tonight or at any time handout. Begardiess of deather your categories is orni or in the handout Begardiess of deather your categories is orni or in writing it will be carefully considered and made part of the record of these proceedings. It will equal weight and receive the same careful consideration, whether made during tonight's bearing or aftermeds.

I sould like to thank everyone who turned out tenight. Tour presence here is commendable in that it reflects interest in your community and in those things that are important to you be assure you that your interest is the primary purpose for us being here.

Now it's my pleasure to introduce Mr Terry Yenkers who will brief the preposal.

ME YOUKERS

(Mr Yonkers' presentation was accompanied by a slide presentation.)

Good evening. I'm Terry Yonkers and I'm hors representing the Air Ferce Systems Command. We're the major command for Space Systems Division. And I will refer to Space Systems Division from time to time in this presentation dimply as SSD. And as Colonel Morrison mantioned I will be presenting the proponent's point of vice.

First, I want to give you a little background about Space Systems
Division and then discuse the proposed action, which is to close
Low imagines are rorse back and recense #350, including the
New Well alsowes the historiatives for the proposed
Read well alsowes the historiatives for the proposed
Form releastion of only pertions of Space Systems Division
to the me action alternative. Finally, I want to talk a little
bit about the statutory requirement for a variety of studies that
are being accessizabed in conjunction with this environmental
impact statement.

Los Angolas Air Force is comprised of about 23% acree and is located in the South bay region of the greater Los Angoles matropolitan area, Swellically the cities of El Seguedo. Eachberne and territone livinish the cities of El Seguedo. Syntam and territone Division An integral part of ESD is the decreapes Compression, which is a federally funded research and development center. The mission is ESD is to pion, program, and manage the acquisition of Space systems, subgratems, support equipment, related bardware and software. See asong its responsibilities. Speci Syntams Division also conducts research, support future space missions.

The recent realignment of the ballistics systems division placed the management responsibilities for the intercentimental ballistic missile of 1020 propriams with Space Systems Division. This unit as it new knews as the ballistic missile organization, has a dedicated systems engineering/technical assistance or what we call a SITA contractor who would also be part of the proposed action.

In the proposed action and the alternative, SES and its supporting units, including the Aerospace Corporation, are referred to an SED -los Angelse in the ESS document. SED and its supporting units. Including its SETA contractor, are rejerred to as SED-San Bernadine.

There are three functional groups within Space Systems Division that have been identified for the purposes of the relocation evaluation. The Space Systems Program Office or FPO. the ICDM SPOS, and other SPOS. Space SPOS are responsible for design, development, acquisition, test, and clause. It is includes about 1.248 military, 1.185 DOD Evilian, and 2408 development. Corporation, and 185 development of the Program Office Special Corporation.

The other SPO activities at Space Systems Division, including the MILETAR Joint Program Office, other advanced and special programs, the Aerospace Corporation laboratories, and various base operating support, employ 516 military, 256 DeD civilians, 1,586 Aerospace Corporation personnel.

Finally, the ballistic missile organisation, ICBU SPO, manage ballistic missile systems and subsystem acquisition programs This SPO also performs the advanced strategic missile triservice requirements and has 000 military, 570 civilian, and 1,000 EETA contractor parsonnel

The basic proposal or alternative actions are based on a construction and relocation schedule beginning in fiscal year 1863 and enting in 1866, as Colonel Morrison has mentioned. Rowever,

due to the complexity of the proposal and available relocation resources, the personnel and construction achedule could extend beyond the 1986 timetrams.

The proposed action is total closure of Les Angeles Air Force Base and the complete closure of BMO facilities in San Bernadino and the relocation of SED-Los Angeles and SED-San Bernadino, to one of fewr locations

Space Systems Division support units currently at Los Angeles Air Force Base and Sam Bornadine that duplicate existing units at the relecation installation equal be inactivated.

The closure of Space Systems Division - Los Angeles facilities would involve approximately 1,780 military and 5.35 civilian personnel. There are five tenant units that would not move with \$30 and sould releast within the Los Angeles area. The closure of \$30 at 5am Permadene and their facilities would involve approximately 880 military and 1,870 civilian personnel.

I mentioned there are four alternative locations that are under consideration for the relocations. These include Yandenburg Air Force Bee. California, Morch Air Force Beas. California, Kirtland Air Force Base. Bew Monico, and of course, Peterson and Palcon Air Force Bases here in Colorado, which are being considered as one pelsonation option.

Five alternatives to the proposed action are considered in the environmental impact statement. The alternatives are numbered in the decument and this presentation. Newwer, their order should not be interpreted to imply any ranking or prioritization of the alternatives.

The first alternative is similar to the besic preposal, but whit the Space Systems Division Los Angeles esperation would be released to one of the feur candidate lecations, the Space Systems Division-San Bernadine would remain of San Bernadine

The second elternative would close certain areas of Los Angeles Air Porce Base and relecate pertions of Space Systems Division-Los Angeles, and all of Space Systems Division-San Bernadine, but would not relecate ather 500

The third alternative would close only the bellistic missile organisations facilities in San Bernadine and relocate Space Systems Division San Bernadine to one of the four locations

The fourth alternative considers only the relocation of 1,800 personnel from within the Space Systems Division with no facility closure at either Los Angeles or at San Bernadino.

The last alternative would close all of Los Angeles Air Ferce Base and relocate Space Systems Division Los Angeles to March Air Ferce Base, but would leave the Aerospace Corporation intact at their El Sagundo offices and also leave Space Systems Division San Bernadino intact at San Bernadino intact at San Bernadino.

Finally, the no action alternative Space Systems Division Los Angeles and Space Systems Division San Bernadino would remain in their existing facilities as would the derespace Corporation

The proposed action and the alternatives: 1, 2, 3, and 5, are contingent upon special inguislation that would allow the Air Force of dispose of government property and use the proceeds to aff set the military constructive costs associated with the closure and relocation.

How just a few words about the statutory studies that are required by the United. There are five additional studies that are required by the United Stater fole. Title 10. Section 2007 the act called The Bair Arailgiment and window act. The Act requires that the Department of Defanes study the local secondic operational strategic, fiscal, budgetary, as well as the environmental impacts of the proposed cleanure. These studies are underway and will be submitted to Congress as part of the decision package.

The local economic consequences study will engage the direct payroll loss on the El Segundo and San Bernadine areas and the secondary effect on local husiness occasioned by the less of military personnel, their dependents, and civilians. In addition the study will focus on the effect on the local real scatter market and industries that may move because of the relocation of Space Systems Division. Also prejected growth in the community and rouse of the effected property will be considered.

The strategic study mill address the effect of reducing conventional, strategic, and space systems as the threat to national security is reduced

An operational study will address the effect of relocating Space Systems Division, incliding the ballietic missile organisation, if the decision is made to close Los Angeles Air Force Base and the SMO facilities at San Bernadino. It will ensaine all the tenant and joint service mission changes resulting from a closure and relocation decision.

TRANSCRIPT 5

The budgetary study will determine the current-year programmed deliar exacts and navings associated with the releastion of Space Systems Division and inactivation or releastion of associated expensional and support white.

.

Finally, the final study will use the budgetary evaluation to analyze mart, present, and thurse footh and sovings agreetaned with the relecation of Space Systems Division. Costs of clocing and savings will be detailed through the life cycle cost useful as I mentioned the reports will be made available to the Congress probably in the carly 1900 time/rese

Thank you very much for your attention. I would now like to turn the meeting back over to Colonel Morrison

COLONEL MORRISON

New I'd like to present Major Mory Troman from the Air Force Regional Civil Engineering Office at Morton Air Force Base. Major Troman will prepare an averyace of the environmental impact analysis process. Assems the relationship between the occasional raidy and the environmental impact analysis, and present the results of the draft environmental impact statement. Major Troman

MANORY SOLAR

Thank you, sir. Good evening. Our organization is conducting the environmental prosess for this proposal, ac well as other proposal cleaves and realignments announced by the Secretary of Defense on January 18th of this year.

Tonight I will present the schedule for this environmental impact analysis process, and show how the public ensemnt horsed fits into this schedule. I'll also dignose the scope of the study, and the relationship between the covince also proposed to study, and the relationship between this display proposed to defines the petential evenement study being proposed to defines the petential evenement impacts of relocating the Space System Division to Poursea and Paleon his Perce Shows. Last, will present the result of the conclude with a summerly of the potential environmental impacts.

This effort was initiated on February 9th, 1900 with the publication in the Federal Register of two notices of intent to prepare outremental impact statements. The notices injected that Los Angeles Air Force Base would be studied for closure at that Space System Division and the appropriate supporting units would be studied for relocation. Our deat surremental impact statement analyzes both the closure and relocation action.

Fallowing the hotizes of intent, scoping mortings were held to receive public input on the scope of issues to be addressed in the environmental impact extenses and to identify the significant large relating to the proposed action. The scoping mostings for Paleon and Potapon Art Force Bases were held here at Contennial Hall on Barch 28th, 1999.

Bulesquent to scoping the issues for study, we collected date and conducted the analysis which supports the environmental impact elations. The draft convironmental impact elations. The draft convironmental impact elations are supported by the following support of the draft with the Environmental Protection Agency on August 374. 1966 In state of the draft environmental impact elatement will also be held in elate convironmental impact elatement will also be badd in elate convironmental impact elatement will also be badd in close environmental elatement will also be badd in close and the recommendation of the convironmental convironmental convironmental elatement will also be decided and the decided of the convironmental elatemental Priday of this week in Albaquerque, See Basic on Written comments on the draft environmental impact statement will be accepted until September 24th 1906 after the comment period is ear, we will evaluate all comments, both written and oral, and perfers additional analysis or change the environmental impact statement where necessary Again, as in the scoping process, equal consideration will be given to all comments, dether impact statement where necessary Again, as in the scoping process, equal consideration will be given to all comments, dether benefit the comment period. Once the process is complete we will produce a final converence of the comment period. Once the process is complete we will produce a final convergence of the comment period. Once the process is complete we will produce a final environmental impact statement and cannot be accepted to all those on the draft environmental impact statement may can be sufficient to the public review ported, and one responses to those during the public review ported, and one responses to those decision in early lead to rever letter and derivate above, to comment and the public review ported and one responses to those impact statement may come set on sufficient rever letter and derivate above, to come as an anity-ly new decument. The final EIS will serve as an input for the record of decision, which will document the decision by the Air Perce Other reducing, as described earlier by the Tenberg, and canadevation of other issues are settled and of decision in early January 1991.

The draft environmental impact statement was prepared in

The draft environmental impact statement was prepared in accordance with the National Environmental Policy Act and the Council on Environmental Quality Regularious Efforts were made

to reduce medicas bulk, to write in plain language, focus on only these issues which are clearly related to the environment, and to integrate with other documents required as part of the decision making process. The document because in impacts which nearrial and physical environment which may occur as a direct result of the base cleaves or relevant making lapacts which doesn't indirectly the result of the base cleaves or relevant making lapacts which doesn't indirectly the result of the base cleaves of the control of the second lapace of the control of th

the decument.

As I mentioned earlier, this draft environmental impact statement forwards and the impacts to the natural and physical environment forwards in the impacts to the natural and physical environment brought bebut, ather directly or indirectly, by the patential cleaves of Loc Angeles dir Force Base and relevation of Space System Division. The decument addrasses socioeconomic impacts of base cleaves or relecation only if they result in impacts to the natural and physical environment. Earlier, the Tenhers described the other studies being conducted as part of the base cleaves the other studies being conducted as part of the base cleaves the other studies being conducted as part of the base cleaves the ended that the how termed application for the base cleave. These studies are intended to analyse the potential secondar studies are intended to analyse the potential secondar impacts to the emmantistic being considered as alter for the relection of Space Systems Division, areas to be addressed in this study will include population, employment and sheared exemulate the hop state and local officials during the preparation of those studies.

I would now like to discuss the results reported in the draft environmental impact statement. Our discussion tonight will center on the impacts empected in the Poterson and Paleon Air Perce Bare areas if either is cheen as the heet base for a releasion of Space System Division. The decument concluded there would be changes in the local remmanity that could affect the natural and physical environment, and that additional amounts of hazardous materials and maste would be used, produced, and

disposed of In addition, various impacts, including the patential for significant adverse impacts to the natural and physical environment, were identified

A full relocation of Space Systems Division as described in the proposed action is expected to cause the following changes in the Colorado Springs area if Poterson or Follow Air Force Bases were selected

It is estimated that the relocation of Space Systems Division by the end of 1995 would result in an antucal increase of approximately 500 million dollars in total personal increase The proposed action is expected to generate approximately 18.000 personant direct and indirect jobs by 1997. The personant population increase is projected to be approximately 26.000 people with all of the additional population living offbase in the Colorade Springs area.

Land use changes from the relocation action would depend on possible future amendments to local land use plane and sening ordinances.

Vehicle traffic in the vicinity of the project sites would increase, especially during seat traffic heurs. These increases, estailing approximately 6.889 webtice per day, would contribute to a decreased level of service or 'LOS' on several of the reads and streets deriveing Petersan and Falcen Air Porce Base, depending on which site is chosen. Decreased levels of service depending on which site is chosen. Decreased levels of service would occur along services of Marsharfiel Based and State Highway of for the Petersan Air Porce Base site and slong State Highway of for the Petersan Air Porce Base site and slong State Highway of the traffic control of the Petersan Air Porce Base site and slong State Highway of the control of the Petersan Air Porce Base site and slong State Highway of the control of the Petersan Air Porce Base site and State II are unemposited, free-flowing conditions, to an LOS of 'F' which is characterizated by iong quoues of traffic unstable flow, and frequent steppages.

We anticipate an addition of up to 80.000 arriving and departing passengers at the Colorade Springs Municipal Airport as a result of the proposed action. This addition would increase passenger levels by about 15% above current levels in 1807. This growth is consistent with the proposed future increases in passenger traffic forecast for the airport especially in light of its planned.

The relocation of SED to Peterson or Falcon Air Force Bases would increase local demand for potable water, supermiser treatment, natural gas, electricity and solid waste dispess. The City of Coloredo Springs pravides water for both its residents and Paterson Air Force Base. The demand on this system is empected to

12

11

increase by approximately \$1 during full eperations. However, the aystem has excess capacity well beyond the needs of the proposed action. Patable mater at Falcon his Tence base is currently aupplied by contract from the Cherolee Mater District. The additional mater needed for the proposed action at Falcon his Force base would exceed the base's current contracted amount and therefore additional mater supplies would need to be obtained.

The City of Colorade Springs mattemater treatment system, which also serves Petersen Air Force Base, can sequately handle the expected PI increase in demand within existing system capacity. If Jaice Air Force Base, can sequately handle the expected PI increase in demand within existing system capacity. If Jaice Air Force Base were chosen, the matemater treatment that proposed action. Electrical and natural gas supplies in the region are assessment of the proposed action. Electrical and natural gas supplies in the proposed action. Solid mate generation is expected to increase by approximately 50 tons por day in the Colorade Springs area. Local solid mate facilities have the expension capacity to hand the increase

In the area of hazardous materials and waste, the relocation of Space Systems Division to Petersen or Falcen air Force Bases would increase the use and strange of hazardous materials and the space production of hazardous materials and the hazardous materials and the hazardous materials and the laboratory operations of the Astropace Corporation Existing hazardous material and materials and ma

Impacts to the natural and physical environment are as follows

the expect no impact on geological resources underlying either of the bases Soil lesses from erosion will be minimized through the use of standard construction practices and minigation plans.

For Water resources, use of the Peterson Air Force Base site is not expected to significantly impact local ground or surface maters. Where supplies for Colorado Springs and Peterson Air Force Base come primarily from a mix of surface water and mater from the transbasis water project. Approximately 18% of the local mater dupply oceans from ground mater resources. While there may be some increase in local ground water resources. While there may not constitute a significant impact on these resources. Surface water runnelf is expected to increase as a result of additional paved and everyold treat, however this increase is not expected to adversely impact surface water resources.

Patable mater supply for Falcan for Force Boos is currently previded by the Chorokee Water District from the Black Squirrel Creek Aquity 9, 500 are represented by the Chorokee Water District from the Black Squirrel Creek Aquity 9, 500 are related by year. Continued and increased everderiting of the aquiter will increase the deterioration of this ground mater resource. The Air Force is currently investigating alternative mater sources to ment the needs of Falcan Air Force Base.

During the construction phase, increased emissions of particulate matter and other pollutants would occur, but would be short-tops and not significant. Long-turm offects of the project would be caused primerily by emissions from the adeltional vehicles used by project pursonnel and their families. Based on modeling increased vehicle traffic near the project sites dould increase carbon monoxide levels in those areas. These increases are not expected to cause violations are becaused increases are not expected to cause violations are becauseful currently in carbon monoxide, these increases could delay the country's achievement of attainment status.

Short term increases in mains levels are expected in the project areas to facility construction, but those increases are not expected to be significant due to the asparation of most project situs from sensitive receptors. We also expect slight leng term increases in noise levels of less than 3 decibels due to increases in vehicular traffic of leven current traffic volume; this increase is not expected to regult in significant noise level increase.

The proposed action is not expected to have any significant impact on registation, threatmend or endangered species, or other wildlife resources at Patermon or Palcen air Force Base project sites. However, methand areas are known to exist in the vicinity of the gife at Felora har Force Base. These areas are currently being identified in a methands delinwation study which will be completed prior to filling of the final environmental impact statement. Due to the availability of other siting options at Falcon air Force Base, the Air Force has committed to avoiding impacts to these wetlands in the siting of project locilities at Falcon.

Some impacts to cultural resources may be expected as a result of the proposed action. These impacts are sits specific in that the are due to the use of Project Sits 3 at Patersen Air Force Base Sits 3 has been found to contain two prehistoric campaites which are potentially eligible for the Hational Bagister of Historic places. Morever, we feel that impacts to those prehistoric campaites due to the use of sits 3 can be mitigated through

aveidance or data recovery. He significant impact to cultural resources are expected as a result of the proposed action at Fairon Air Force Base.

The alternative actions, as described earlier by Mr Tonhors, generally involve partial rejections of Space Systems Division which, in all cases, involved fewer people and less construction than the peopend action. In general, these alternatives results changes to the environment that are equal to or less adver-tion the changes askericated with the full relocation action.

In closing let me remind you the study is in a dreft stage—Our goal is to provide Air Force decision-makers with accurate information on the ontronnental consequences of this proposal. To do this, tonight we are soliciting your comments on the draft neutronnental impact statement. This information, ocupied with the other studies discussed by Mr Tenkers will support informed Air Force Decision making.

Teasment merranes

In a memors we will move into the main portion of the meeting
which is the public input period. I'd like to remind you of a
couple of points. Please limit your comments to five minutes so
that overyone can be heard. Also please make sure that you state
your name clearly for the record before you make your statement.
If you've brought a prepared statement, you may turn it in, you
may reed it aloud, or do both. Written comments and questions
will also become part of the hearing record, and equal
consideration will be given to your community of the the polytopes
comments or questions, please white your name and addraws on then

Again, the purpose of this hearing is to solicit input from public agencies, private organisations, and the public at large on the draft environmental impact statement. The Air Force representatives gathered here before you tonight are not the decision makers on this preposed action. They have previded you information on the process and are prepared to respect ded you information on the process and are prepared to respect to the control of the process of the process of the proposed action. They make the process of the proposed action and cons of the prepared action. Aiso, remember the purpose of the menting is to solicit input on the draft environmental impact statement, so please limit your proposals. To seved sometime selectated with the opportunity to speak, I would like to ask you to try to avoid repetitive statement. If you agree with the comments of an earlier speaker. I'd recommend that you simply so indicate

How we will begin the public comment period. Our Tirst speaker will be Congressman Joel Helvey, followed by Lieutenant Governor Mike Callahan.

CONGRESSMAN JOEL REFLEY

Thank you. Celonel Morrison. I am Joel Metley of 2100 Victors Drive Celonado Springs and I come to you tonight as the Congressmen which represents the district under consideration here tonight. No welcome you to Celonado Springs and an delighted to be one of the cities that are being considered for this you've taken to this study as described to us just now and on the conclusion that you provide that Our office also, although we re not experts as you are in environmental juspect studies. But our office tried to survey and determine how such a move as a being considerable of the through we renot experts as you are in environmental juspect studies. But our office tried to survey and determine how such a move as a being considerable of the provide that the provide that the provide that the provide that the study we see that proses. Yes there would be seen issues to deal with. The water thing if Faicon were to be chosen is something that would need to be dealt with Sut 7 thank you see that provide the title that the citity fethers over Many amony years in this community are considered to the dealt with Sut 7 thank years in the title when you were to be chosen is something that would need to be dealt with Sut 7 thank years in the citity fethers over Many amony years in this consumity are such as the consumity of we don't deal with its properly, and have made very jone properly and have made very into provide that the city fethers over Many amony years in this corn in this consumity will not find a community in the district of the survey will not first an expect of the consider the wear have to deal with the problem could also be dealt with very well. States Senators, all of which are interested in this; who looked at a census and have expressed support for this. I know you have a long agends. I won't belabor it enymore. Are there any questions and any other responses? I'd be happy to --

[No response from the panel or the public]

COLOUTEL MORRISON

Thank you. Congressman Heiley - Our next speaker w.i. be Lieutenant Governor Mike Ca.ishon followed by Major Robert Issae

LIEFTHRAFT GOTTERGS CALLARAT

Thank you, Colonel Morrison
Live in Ouncison, Colorede
Live in Ouncison, Colorede
Live tand Oversor and today's acting Governor of the State of
Colorede
Personthatically I won't bere out of state guest but
it always makes me nervenue to be andworkede between Jost Maries
and Bob Issac I came from Commission and especially show we're
talting shout under -- me upon't \$61 into that tonight

and beb lease. I come from dumnism and especially when we're tailing about water -- we won't get into that tonight. Let me say for the purpose of the record tanight, the congressment on seem every fuse points. Colorade is generally a space friendly mixed by the seem of the points. Colorade is generally a space friendly mixed by the season with the impact, many of which have been identified in the major's report, draft environmental statement, in other areas, gome successfully, some not so successfully to be really enable about it. But averall the record of Colorade as a space community, a space industry, is one that's very fond, and we have larned from these experiences too. I honestly believe, in dealing with the issues raised on the leasens. Our success with the lessening of the air quality and issues in the mixed of any pollution. We've learned some lessens. Our success with the lessening of the air quality and issues in season of the mixed of non-attained days and the out of standard days in Danver beain, just Horth of here, is exemplary and working with our state health department, our air quality control community in the state bealth department, our air quality control communities and the out of prints, only a control communities of the state of Colorade and other state agencies, and the outset, and the city. El Parce County, Colorade Springs, on 'pe convinced at all Farce can absolutely such to insert, and in some cases originate none of those adverse effects. I don't want to gloss over them because I don't thinh there's a community in the state that thrives more on its reputation as a quality place to live than deed Colorade Springs. The fact that where managed in this community to create very diversified defence and opec industry and the number of institutions, with a weight of the state of the community to create very diversified defence and opec industry and the number of institutions, with a weight of the substance of a constitution of the substance of any diversified defence and opec industry and t

find the morriage between thode two that works, and that one is not necessarily extendly concludive of the other. We can work with a state of the other who can work with the state of the

secons to our new terminal at the disport, the new located terminal. We have maybed with the state to make presentation and they have agreed to appear the connection between Highway 26 and they have agreed to appear the connection between Highway 26 and plant. I'm quite sure. And I hope that we can werk another arrangement I den't want to leaby the county commandement of the presentation of that particular vital arrangement is expect to have a pre-bid conference beginning the 7th with the total will help relieve the Berkh gate. As for the airport, we expect to have a pre-bid conference beginning the 7th with respect to the new runway. You all hnow the present the 7th with respect to the new runway. The all how we will keep to be under construction prior to October 18th 6th would fit in with this proposal. As to the terminal, the design will be completed in asply 1801, construction under may leave 1801 and construction completed mid or late 1803, which would fit in with this proposal. As to the terminal, the design will be completed in asply 1801, construction under may leave 1801 and construction on water. There's me community at this peace of the comments on water. There's me community at this peace to the comments on water. There's me community at this peace to the comments on water. There's me community at this peace that is better dappe, in wy spinion, with respect to 500d renowable, surface water. And I'm pure we can handle either site. And working with Cherokee, and I understand their particular. I have they more going to be here longer. Follow was going to be here longer for each test of sold renowable with the city has the supplied to take care of oither the Fairces site is the care of oither the Fairces with the contract would eved out. It's surface water I seems hack every year. And it's next, we do not rely on the aquifer that in many cases are not renemable to cooperating with you in the future. I'm aure. Thank

proposed facility, makes a very distinct difference as to the pellutants that are generated by the transportation to and from the facility. We might suggest to you that not only does Colorede Springs, within the corporate limits have advenues affordable heusing, but there's also assemble meater planning and somed areas on thin 21 Pase County which sould consily accommodate the influe of the period of the control of the con COLOREL MODELSION

Thank you, Mr Shupp Our next Speaker will be Miss Connic. Salemon. The will be followed by Irene Rernelly

COUNTR SCOTT BOLCHOO

Hi . By name is Connic Scott Science, and I'm the director for Sonator William Armstrong, 328 Sorth Cassade, Colorado Springs, 8003

The senator, I spoke with him today, and he felt very strengly that he moved like to have some words to express to you all this evening. So I have brought a propared statement

Boar Lieutenant Colonel Bartel: The crisis in the Persian Oulf brings been new absolutely essential a strong, effective military is "Mikhout it, our security can be directly thereased as can the severalisty of smaller nations and the resources many countries depend upon 1 m short, without a circag and effective

Thank you, Nayer Issae Our next speaker will be Mr Gary Ehupp, fellowed by Miss Connic Sciemen MAT BEFFE

Whenly when the mayor is appaining I still get to raise this a little bit up topenhing of the microphene at the pedium. This is the first time in the history of mankind that he didn't taker on opportunity to lobby anybody in the position as a public individual. I'd like to emclosed you here this evening and thank you for the opportunity to speak to you regarding down of the issues brought before us. One that has not been omnitioned to also has an impact in the speak of location and the according to the label has not perfectly an impact in the speak of location and the according to the location and the according to exclusion.

17

military the United States, indeed, the entire world would be at the morey of any renegade strongman who could matter as army and use it to steal others' wealth depose their government.

The crisis in the Persian Bulf size brings home the unique advantage Colorade Springs will provide the Air Force should it decide to relocate the Space Spetams Division thore. The men and seem of Air Force Space Command stationed in Colorade Springs play a daily role in the gulf crisis as the eyes and care for our troops averages. Stationing these who are responsible for the precurement of antillite systems men those with the sperational space appersize will benefit the Air Force this tappayer, and the nation's military space program. There couldn't be antibus match.

Colorade Springs stands head and shoulders above any other proposed lecation. It has plenty of attentive affordable housing and its many services would allow it easily to accessmedate the large influe of new Air Force employees. In addition the people of Colorade Springs are committed supporters of their military community and, I am certain, will take every possible action to satisfacts employed of the military space remmanity quickly, and painlessly into their new home at the foot of the Sackies.

l am certain that, as you consider Coloredo Springs, you too will make it your first chaise for the relocation of Space Systems Division. Best Ragards, Bill Armstrong

COLOURL HOURISON

15.10

Thank you, Mrs Sciemen. Our next speaker will be Miss Kernelly. She will be followed by Pat Musick.

MR ROBSTELLY

Thank you very much. My name is Irene Rernelly and I am the Director of the Colorada Springs office for US Senator Timethy E. Wirth. The address is 836 Borth Tejon, Suite 188, Colorada Springs, 86683.

Senator Wirth regrets that he is not able to attend today's secting. For several menths he has been very supportive of this several menths he has been very supportive of this several menths he had to the rights encerning this issue and has participated in the efforts of the entire Colorade delegation. The Senator commends the Air Ferce on their decisions that have been previously made the Air Ferce on their decisions that have been previously made as the space launch operations under Space Command, a more whice only strengthend the role of Poterson Air Force Base and their space historian. I do here a brief statement from Beautor Wirth on

while that he could like to address. The City of Colorada Springs would he an ideal move for the Spare Spriess Division. He ather leastins in the United States would provide the opportunity to have the three major eleannies of the allitary space of force in emergence have the three major eleannies of the allitary space of force in emergence in the transfer of these eleannies. Space Operations, which is represented by the All Force Space Command and Unique Command, and legisties. represented by FACES Frentier, are already in committee of the Command and legisties. Represented by FACES Frentier, are already in the command of the command and legisties. Represented the command of the continues of the command of the comma

Thank you, Miss Kornelly. Our next speaker will be Pet Musick, followed by Mr Kenneth Burnley.

MIRE MREICE

I'm Pat Musick. By address is 10 Studio Place and I'm a native of Colorado Springs.

I find myself in the scary position of being the first person to speak in opposition. I oppose the relocation of Space Systems Division to Peterson or Falcon Air Force base because I believe

this would be environmentally, socially and substantially economically detrimental to El Pase County. The statistics in this statement are taken from the UE in Force Draft Environmental Impact Statement on the proposed relocation.

At the initial scoping moving the preponents of the relocation here sited as one of the attractions our high quality of life. According to the environmental impact statement, quate. These decision to propose the closure of Low Angelies Liv Perce Base is the control of the con

other urban centure all once had clean air, water, and prezinity to nature. We still have a chance is preserve ours.

The EIS states clearly that decrease in air quality would result from the relocation. Pollution concentrations are predicted to substantially increase as a result of more intensive and widespread whom nativities. Because EI Pass Cannty is undespread whom nativities. Because EI Pass Cannty is translated to the property of the p

that about water? The potable water demand for the proposed action would increase average daily demand eleven percent in the peak construction year and nine percent during operations to the peak construction and the adulter depletion of Falcan Petersan's water for the peak of the p

Another very interesting note in the EIS prompts thought on another quality of life aspect: water quality in the Artanas Bivor Basin is generally adequate to support most designated and sucept in the central portion of Fauntain Cresh, below Coloract Springs, where high frest celiform counts and metals impair the designated uses: thy seek to attract new sources of water and pollution while we currently have an open sewer to clean ag-pollution while we currently have an open sewer to clean ag-ryanite hillsides left over from the old gold mill. open-pit mining schoel, excessive carbon memorate levels, and so forth

You can submit any -- (applause from the audience) -- the have a drop bex for anyhody who wants to submit written comments. You can leave it here tenight or you can send it to the address in the handout. Our next speaker will be Mr Burnley, followed by Mr Tin Andarana.

plonel Murrison, Colonel Bergeman, Mr Tenkers, Major Vreman, hank you for the epportunity to address you on this very mopertant topic: My name is Rometh Burnley I am euporintendent I schools here in Colorade Springs, School District II Our

address is 1118 Sorth El Pass St. Calorade Springs, 60063. If I may in crientation, let us share with you that there are a number of achoel districts here in the Files Peak Pegins; and us have the of achoel districts here in the Stine Feak Pegins; and us have the of achoel districts here in the mutrapolitan area, and then additional districts where in the mutrapolitan area, and then additional districts where in the mutrapolitan area, and then additional districts which would also be considered want in an area of achoel districts we may two probable. We must at least once a such that we offer a real file est of the most at least once a such that we offer a real file est of the property of the such as a group of achoel districts we work very closely teachers. It may be not that we offer a real file est of the property o

tenure there we had to plan for a light infantry division, where I had to work among youth the military and loral officials in a first control to the light infantry five and officials in Fairbanks. Alsoha. In that regard I've leshed at the decuments. I've anjoyed your presentation. And it depends on the thereughness of how this sort of activity is going the proceed I believe, at least on a terilory lesh at it, we're taking some quality steps here should Colorade Springs be selected. I think the many some can be selved. And think men community there were the many sense of the many selved and the selvest there is not selved and control of the planning is done in a therough damans. I can state from up personal besignound and experience on that sort of thing and if done properly with a lot of hard work involved mit the people bere in this room and of course people who will work closely it can be exceptionally well. There are other districts in our area whe have preceived funds for additional high schools that I'm source of the hyper literally put a hold on the accession future greent and are guiting for that greath. In summary, it seems to me that Calorade Springs has the potential for a good marriage and we hope that that marriage is consummated.

Thank you, Mr Burnley Our sent speaker will be Mr Tim Anderson. followed by Wayne Coute, I think. I apologize if I mispressounce amphody is name.

Good evening, Colone) Horrison. By name is Tim Anderson. I'm a student at Colorade College here in Colorade Springs. I represent ABICUM, other let the Association of Hillary/Industrial Component Unconditional Supportars. I'm here to read a statement we have prepared ABICUM strength supports the transfer of the Air Force Space Systems Division and Air Force Ballstill Coganization to Colorade Systems.

15.7

Humber 1 - We are tired of Denver getting all the attention as an officially polluted city while we six on the sidelines with a boring, wholesome image. A big city atmosphere worthy of federal eleminy dollars is what we went. Sumber 2 - Springs residents on the East end of teum can't wait to have a big city traffic emperience. We note that one of the reasons for the move from LA is traffic congestion. If there is any big city we ensy move than Denver, it is Los Angeles

26

Pumber 3 - The new concrete and asphalt has many beneficial apin-offs. Several of our mountains need the kind of facelift that only a rock quarry can provide. Also, our native vegetation is benign and boring. Buneff from additional streets and parking lett mosne version and creates a space for regioned and other pollon and spore producing plants. Pharmacies usual benefit from increased solates of allogy sedicine.

Sumbor 4 - The presimity of the Air Force Academy to the new facilities orice out for a connecting tunnel. Upon graduation, cadeta ange directly to their new jobe without distractions. These handleapped by tunnel vision sould have a new career apportunity.

Sumber 8 - The added car driving population would help up get our fair share of Hideast sil currently being fought for in the sands of Arabia. 15.7

Number 8 - detting these new facilities should put us near the top of the enemy's target list. In case of nuclear mar, me will be the energy of these understance enemgh to derive the initial banks. As the vapers of bur scerificed bedies with bestemmed they ill still be trying to figure out what to do next. 'First to glow first to give.

Rusber 7 - And finally, our city moods this challenge. City and county taxes are too low. Paying for now reads, schools, and city as arrives in a politicaln's dream. Counscience, psychologists, and ca-dependency workers are crying for more business. Seepitals have too many empty beds. The added strain on mater resources would be a real incentive to start research on mater substitutes.

In closing, we would suggest that those who agree with our point of vice immediately cond money to the Air Force to help pay for this transfer I fyou do, please meaning ARICES and all the work we done to help present this endeavor Thank you for your alternity and I'll submit this distance. I have a capy of it

neighboring community And I find tonight that my area will probably be impacted in a couple of ways by the move either to Falson Air Force base which is five miles or so from me. and also since an accounter of Cherchee Water District. So I'm concerned about the impact on those three systems and aware with recent buildings in area and the action in least that there is mighificant increase in merce pollution in my area. As a school social worker I am concerned also about the unsupleyment that already exists and I hope that the current unsupleyment rate of our city mould containly be considered and not just a move of military from one location to statuter the property of the contained and contained the military from one location to statuter the concerned about installing and estimate or reduce error. And lastly I m concerned about is the building that is implied, the hazardous mate and solid waste in the area.

COLOREL MORRISON

Thank you, Mrs Holmes. We've been going now for an hour and a half. What I'd like to do is take a ten minute recess and reconvent in ten minutes.

The hearing recessed at 3632 hours, 5 September 1996. Thereafter, the hearing came to order at 2856 hours, 5 September 1886. Colonel Morrison, Colonel Bergeman, 10 Yenkers, and Mojor Vroman were present again at their respective seats.

The next speaker will be Mr Sprunger-Fronze, followed by Erika Clase, followed by Mr Paul Rochette

MR SPRINGER-PROTES

Thank you. By some is Poter Sprunger-Froese. I live at 235 g. Fountain Boulevard, and I'm a citizen.

I would briefly just like to may I see the plan for SED here as a cort of a cellaring to old thinking. I feel that we'll refuse to divest free our fanciful and frequently very arragant quest to be number one, rather than the more intelligent question of asking here do we wish to live, each and all, tegither on this cartia in here do we wish to live, each and all, tegither on this cartia in very defense, nearly in the cartia in the defense, nearly and the second defense, nearly line. I feel that it refuses to entertain the nation of common security, as indeed the only true form of security for any one nation. And I feel the environmental crisis, as we have all over the world, recognize no political boundary, and I feel the enquing physical or the security for any one nation.

war, only enlarger that larger environment threat besides the human threat. I discourage this transfer because I see the same problem inherent in the SEP proposal, as for instance, in many of the Lanter European and Service Williams of the Lanter European and Service Williams of the Lanter European and Service Williams of the Lanter European and Service Williams of the Lanter European and Service Williams of the Common of the European and Service Williams of the Common of t 115.7

Our next speaker will be Paul Sochette, followed by H. V. Littreil.

Seed evening. Thank you for the apportunity to speak. I sould like to add a little bit of information on two areas of the analyze; in the HIS and supplement to the vecesses: sepact on the system. The first concern is the availability of housing in Colorade Springs. I'm not ture if you fells have this data at this point. But essentially, based on the Fikes Peak area of council of governments on the analyze; 1806 version, we have an approximate number of 31,660 vecsus heaving units in the Colorade Springs area. Mings vecasity rates that are certifiered accepts to the second second of the colorade Springs area. Seed on the approximate 10,600 direct and induced jobs that will be permanent after the construction is a number of persons who work in each household greater than one, we number of persons who work in each bounded greater than one, we

4.33

20

find that we do have an adequate amount of housing in the Colorado Springs area to supply the online demand of Space Springs area to supply the online demand of Space Springs area to supply the online demand of Space Springs area. The other hit of normation between prices of houses that are available and prices of houses demanded, we do wish new for you to take note of the encess supply that we have in the Colorado Springs area. The other hit of information that I would like to add it the availability of labor in the Colorado Springs area. The lakes with the supply that the springs area. The lakes with the springs area. The lakes with the springs area. The lakes with the springs area. The lakes with the springs are springs area. The lakes with the springs area in the springs are the springs area. The lakes with the springs are the lakes with the springs are the springs are springs.

Thank you, Mr Rochette. Our next speaker will be N.U. Littrell. followed by Mr Jack Lessovitz

Thank you, Colonel Herrison. By name is Hal Littrell. I live at 282 Bear Paw Lane Herrison. By name is Hal Littrell. I live at 282 Bear Paw Lane Herrison. By name is Hal Littrell. I live at 282 Bear Paw Lane Herris, Colorade Springs. I've lived in Colorade Springs time 1848. I'm the Chairman of the Delense Risonon Task Perce of the Colorado Springs Chamber of Commerce, whose primary objective and main purpose in age 282 Lic Colorado Springs. We have a corpy diverselyied group of people who are weaking on this project. And we also have spent many many hours for several match looking into the universement impact issues that would affect Colorade Springs area. Home in this community is more organized or does more affectively work concerning environment; in impact issues that the Colorade Springs Chamber of Commerce. The very first issues that the colorade Springs chamber of Commerce. The very first issues that the several most impact it contains have on our environment; on our quality we first impact it contains the colorade springs chamber of the spread these issues proposal as it relates to what we already have in Colorade Springs challed the consistence of the space systems that we have bore, we look back at the original plan when it was included that it would become a full samplement of space agrees that we have bore, we look back at the original plan when it was included that it would become a full samplement of space development or galants.

coday working in Colorade Springs, which is controlled here, that really are not as such in the military programs as a lot of people usual be led to believe, such as today where we have all of our navigational systems in the satellite systems. Our communications are all in satellite systems. Our surveillance systems are all in satellite systems, our seminal systems and all of our navigational systems and all results experience are all in satellite systems. Our surveillance systems are all in satellite systems are all in satellite systems are all in contact to the systems are all in satellite systems are all in contact to the systems are all in contact to the system are all in contact to the system are all in contact to the system are all the contact to the system are all the contact to the system are all the Colorade Springs Chamber of Commorce, Military Affaire Council will containe to support our first military citizens who come here and those people who defend the right of anyone to wall up to this misrophere and say whatever they must to, whether it here any validity or not. Thank you very much for allowing me to come here.

DECTOR FIRST

Thank you for the opportunity to speak, Colone; Morrison. I have a propered statement I would like to leave as well I would like to speak ablectively to seem of the nature discussed in the experimental impact statement, and I should be seen of the contract of the contract of the contract of the contract of the (hindrice) laser indirectly responsible to see except the (hindrice) laser facilities at San Juan Capitine seement of the (hindrice) laser test facilities at San Juan Capitine seement displaces intards in the desert. I have dealt with fluoride testimanes in unban seems. And I think I'm qualified to speak on some of those subjects. Insignatally, I had a deserate in

ignatum and ow-food mechanical and chemical kinetics from MIT
Two matters I would like to place up for consideration would make
Colorado Springs look more descrable than the environmental impact
statement currently relieve. There are two lundaments.
assumptions that involve all of the studies. One is that the
facility requirements, believe. Butwise los is that the
facility requirements, believe. Actual I can descrabe that
appear is required for the Aerospoce Corporation, annee the Space
Systems Division personne; periors no direct research. The
laboratory facilities are currently adequate for the purpose
intended and probably from the vicements of same of these who've
spaces are quirtless eventual, among the most environmentally
coming FTROC's for not returned their most research realizated
with the activities that they support. In fact the Aerospace
itself has mearly a hundred people in Albuquerque from removed
from Les Angeles and is building a centingent here in Colorade
Springs. Be I'd subsait that at worst laboratory facilities should
be relieved independently and as economically as pessable. They
would offer that the EIS and ather studies should consider sites
other than those centiquem with Air Force installations. In
fact, we're not comparing comparable things. The durrent
explacement of Aerospace and Space Systems Division is not
contiguous on an Air Force installation. There as private
property involved Be if we were to empare two things that were
property involved Be if we were to empare two things that were
facilities totally, rather than into some property in Los Angelos

ANSCRIPT	

raport, about cumulative effect. Apparently the law only required you to leak at that in so far as other Air Force projects planned for the feature, her they might cantend with this project, the effect the environmental impact that this would have I mould just suggest that we have to look at that in retrospect, what's already have and in that community we feel such an imbalance already have and in this community we feel such an imbalance already have and in this community we feel such an imbalance already has a paper of the feel such an imbalance already has a suggest that for the subject of the city of Colorado Springs I mean that is no symptomize of the city of Colorado Springs I mean that is no symptomize of the city of Colorado Springs I mean that is no symptomize of what already has happened here. That we have just too much east of the city of Colorado Springs I mean that is no symptomize of that of some inspect from our cachool system. Even so much as that all of the politicisms that got up here and spoke tonight; they were supposed to be representative of the environment; not one of then feetured on that in their remarks, other than to give blank check. Carto Slanck type dataments about no problem So I would salk that cumulatively add to a bod situation. Another point, the tours waste part of this statement. It mentions a considerable manual of vanic waste part of this statement. It mentions a considerable manual of vanic waste part of this statement. It mentions a considerable amount of vanic waste part of this statement. It mentions a considerable amount of vanic waste part of the statement with a scheme but for the court from the plant. The Socky Sounted are of grands are of the very same things. Tou how, you might think when you think about Socky Bounted have and its county through some of the very same that over each of grands were repeated a tremmedum water problem for Douver and its county through some of the very same that over each of grands and misses of handous materials to be overed up by sec

of thing. Secrety blank to every ever real problems that need to be addresseed by an independent agency. So just in closing I also mould add one point that, in the error of traffic and reads, and here again the politicisms have not agreed as well. As you will appear to the property of the property of the property of the property of the property of the property of the streat improvements. The city, county, and state are going a have to ease up with these backs on their own. Just because the hear has seven by the three backs on their own. Just because the hear has seved here there will be no impact funds for that I shall be people of the city and county sught to be sames of that that that sort of an everyight in thinking. Be thank you for your attention.

TOUR INDUST ENGURES TRAT DECISION NAMES NAT BENEFIT FROM TOOK KNOWLENGS OF THE LOCAL AREA AND ANY ADVERSE SINVIRONSSHIRAL SPEECES THAT YOU THINK MAY RESULT FROM THE PROPOSED ACTION.

15 AS TOU CAME INTO THE AUDITORIUM THEE EVENING. 16 TOU WERE PROVIDED AN ASTENDANCE SHEET --- OR AN ASTENDANCE 17 CAND, MATER -- AND ASKED TO INDICATE OR IT WESTERN TOO EAS ANT CONCENTS FOR TONICELY'S MEARING. WHEN THE AIR FORCE 19 BRIEFERS ARE PINISHED. I WILL RECOGNIZE MEMBERS OF THE 20 PUBLIC FOR THE PURPOSE OF MAKING COMMENTS. FOR THOSE OF 21 TOO WHO HAVE NOT THE FILLED OUT A CARD TO SPEAK, AND TOO 22 WISE TO DO SO, PLEASE MAISE TOUR EARD AND SCHOOL WILL. 23 DISTRIBUTE NORS CARDS: SO IF YOU WANT TO SPEAK AND TOO 24 MAYEN'T INDICATED SO OF A CAMO, JOST SO AMEAD AND RAISE 25 TOUR MAND AND SCHOOLS WILL SIVE YOU A CAME TO FILL OUT.

SOUTH BAT COURT REPORTERS

TRANSCRIPT 6

ORR OF PROCESDING IS IN TURBE PARTY. FIRST, A BRISTING PROM MR. YOMKERS ON THE PROPOSED CLOSE AND RELOCATION ACTION, AND THE OVERALL STUDY PROCESS. IN TOO-11 RECEIVE A BRIEFING FROM MAJOR VEGNAM ON THE ENVIRONMENTAL INDACT ANALYSES PROCESS AND THE CONCLUSIONS REPORTED IN THE DRAFT ENVISOR WELL THURST STATEMENT

FOLLOWING THESE PRESENTATIONS, WE WILL THEN PROCEED TO THE PUBLIC IMPUT PORTION OF THE REALING. ELECTED OFFICIALS WILL BE GIVEN AN OFFORTUNITY TO SPEAK FIRST, POLLOWED BY THE PUBLIC AT LANGE, WHOSE MANDS WILL BE CALLED RANDONLY FROM THE CARDS MANDED IN.

NOW, IF YOU DON'T FEEL LIKE STANDING UP TORIGHT AND HARING A STATEMENT CHALLY, YOU HAVE THESE PPERMER 24TH OF THIS TEAR TO SURNIT WRITTEN COMMENTS. WATTER CONSIST SHEETS AND PROVIDED AT THE ENTRANCE TO THE AUDITORIUM FOR TOOK USE IN PROVIDING THREE CONSENTS. IN FACT, EVEN IF TOO MAKE COMMENTS TONIGHT, YOU HAVE UNTIL THE 24TH OF SEPTEMBER TO SUBMIT ADDITIONAL COMMENTS IN WRITING TO THE ADDRESS PROVIDED. WHETHER A STATEMENT IS MADE PERMALLY TORIGINE OR IN WRITING PRIOR TO THE 24TH OF SEPTEMBER, EACH STATEMENT WILL BE GIVEN EQUAL WEIGHT AND COMMIDERATION, SO DON'T PERL LIKE TOU HAVE TO SPEAK TOWIGHT IF TOO WOULD PREFER TO SUMMET WRITTEN COMMENTS. I WAST TO BESURE THAT ALL WHO WISE TO SPEAK

RAVE AN EQUAL OPPORTUNITY TO BE ERAPD, SO PLEASE MELP ME

SOUTH BAY COURT REPORTERS

DIFFORCE THE POLLOWING GROUND MILES.

25

AND FINALLY, OUR MOSTS HAVE ASKED IF YOU WOULD KINDLY REPRAIR FROM EMERING IN THE AUDITORIUM.

I WOULD APPRECIATE TOUR COOPERATION IN ADMENTING TO ALL OF THESE MILES. I WILL MONITOR THE TIMES AND DO EVERYTHING WITHIR MY POWER TO MAKE SUME THAT EVERYOUR WHO HANTS TO BE MEARD WILL BE MEARD.

THERE WILL BE QUESTIONS THAT THE AIR PORCE REPRESENTATIVES WHO ARE HERE THIS EVENTURE WILL BE DRABLE TO AMENDE AND THAT COULD OCCUR FOR ONE OF THE REASONS. FIRST, EVEN THOUGH A SCOD DEAL OF EXPERTISE IS ASSESSED MERE, THE PAREL WILL PT TO AMEN'ER QUESTIONS UNLESS THEY ARE CONFIDENT THAT THEY CAN DO SO ACCURATELY; AND SECTION, THERE MAY ME SOME QUESTIONS THAT SAVE SATIONAL SECURITY INFLICATIONS AND TROSE QUESTIONS MUST BE REVIEWED PURTIER REPORT ANSWERS ARE PROVIDED. IF THIS SHOULD OCCUR, AND IF THE QUESTION IS RELEVANT, IP WILL BE ADDRESSED IN THE PINAL DOCUMENT, OF WHICE YOU CAN REQUEST A COPT.

ONE TRING I WOULD LIKE TO STRESS AGAIN, TOO MAY HAVE IMPORDATION ABOUT SHYTROMEDITAL PACTORS UNKNOWN TO DS. WE ARE VERY INTERSETED IN SAVING AND AMALTEING ALL POTENTIAL ENVIRONMENTAL IMPACTS OF THE PROPOSED ACTION. TOO HAVE THE EXPERIENCE PROM LIVING IN AM AREA OVER A LONG PERIOD OF TIME, SO THIS SECOND PART OF TOWNSHIT'S

SOUTH BAY COURT REPORTERS

1 COMMUNICATION -- THE PART THAT PLONE FROM YOU TO US -- IS DEPORTANT SO DON'T MESITATE TO MECONE PART OF PROCESDINGS THIS EVENING.

IF WE NOW OUT OF TIME BEFORE EVERTORS GETS TO SPEAK, TOU'RE DIVITED TO SUMMET A STATEMENT IN WRITING TOWIGHT OR AT ANY TIME PRIOR TO THE 24TH OF SEPTEMBER BY MATLING IT TO THE ADDRESS IN THE MANDOOT. RECARDLESS OF MERTHER TOUR STATEMENT IS COLD OR IN WRITING, IT WILL BE CAPETRILY CONSTRUCTO AND MADE PART OF THE RECORD OF THESE PROCESDINGS. IT WILL MAVE SOUND WEIGHT AND RECEIVE THE SAME CAREFUL COMMIDERATION WHITHER MADE DURING TOHIGHT 12

I WOULD LIER TO TEAM'S EVERTORS WHO TURNED OUT TOWIGHT. TOUR PRESENCE MINE IS COMMINGABLE AND REPLACTS INTEREST IN TOUR COMMUNITY AND THINGS THAT ARE IMPORTANT TO IT. LET ME ASSORE TOO TEMP TOOK INTEREST IS THE PRIMARY PURPOSE FOR US BEING 1888 THIS EVENING.

HOW IT'S MY PLEASE E TO DITTECORCE 19 MR. TERRY TORKERS WED WILL MAINT THE PROPORALS.

26 MR. TOMERS: GOOD EVENING. I'M TERRY TOMERS AND 21 I'M MERE TONICHE REPRESENTING MEASQUARTERS AIR PORCE STEPPENS COMMAND. WE ARE THE HAJOR COMMAND FOR SPACE 23 STOTEMS DIVISION, WHICH I'M SOUNG TO REPER TO PROM TIME TO 24 TIME SURING THIS PRESENTATION SIMPLY AS SED. AND, AS 23

24

25

TO REGIN WITH, I MANT TO GIVE YOU A LITTLE BIT OF BACKGROUND ABOUT SPACE STSTEMS DIVISION AND 175 MISSION AND THEN DISCUSS THE PROPOSED ACTION, WHICH IS TO CLOSE LOS ANGREES AIR PORCE BASE AND RELOCATE SPACE STRTEMS DIVISION, INCLUDING THE BALLISTIC MISSILE ORGANIZATION OR THE SHO, TO OME OF FOUR LOCATIONS. THEN I WILL DISCUSS THE ALTERNATIVES TO THE PROPOSED ACTION, WEIGH RANCE PROP PARTIAL RELOCATION OF STACE SYSTEMS DIVISION TO THE SO-ACTION ALTERNATIVE. AND THEM, PINALLY, I WANT TO TALK A LITTLE BIT ABOUT THE STATUTORY REQUIREMENTS FOR A VARIETY OF STUDIES THAT ARE BEING ACCOMPLISHED IN CONJUNCTION WITH THE ENVIRONMENTAL IMPACT STATEMENT

LOS ANGELES AIR PORCE BASE IS COMPOSED OF ABOUT 238 ACRES AND 12'S LOCATED IN THE SOUTH BAY REGION OF THE GREATER LOS ANGELES METROPOLITAN AREA. IT'S SPECIFICALLY IN THE CITIES OF EL SEGUIDO, MANTECRIE, AND LAMBOALE. IT IS THE HOST BASE FOR AIR PORCE SYSTEMS AND'S SPACE SYSTEMS DIVISION, AND AN INTEGRAL PART OF THE SED IS THE ARROSPACE CORPORATION, WHICH IS A PRIVATELY OWNED, MUT PEDERALLY FORDED, RESEARCE AND DEVELOPMENT

THE MISSION OF SPACE STREETS DIVISION IS TO FLAM, PROGRAM, AND HAMAGE THE ACQUISITION OF SPACE STREETS. SUBSTSTEMS, SUPPORT EQUIPMENT, AND THE RELATED MARDIAGE AND

SOUTH BAY COURT REPORTERS

SOFTWARE. AND AMONG ITS RESPONSIBILITIES, SED ALSO CONDUCTS RESEARCE, EXPLORATORY DEVELOPMENT, AND ADVANCED DEVELOPMENT PROGRAMS TO SUPPORT PUTURE SPACE MISSIONS.

THE RECENT REALIGNMENT OF THE BALLISTIC MISSILS STRICK PLACED THE MANAGE 5 NT RESPONSIBILITIES POR THE INTERCONTINUITAL BALLISTIC MISSILE, OR THE ICEN PROGRAMS, WITE SSD. THIS DRIT, NOW KNOWN AS THE BALLISTIC MISSILE ORGANISATION, WAS A DEDICATED STETUME EMGINEERING/TECHNICAL ASSISTANCE, OR SETA, CONTRACTOR WHO 10 WOOLD ALSO ME & PART OF THE PROPOSED RELOCATION.

IN THE PROPOSED ACTION AND IN THE ALTERNATIVES, SED AND ITS SUPPORTING USIT, INCLUDING THE ARROSPACE CORPORATION, AND REPERRED TO AS SED-LOS ANGELES. THE BHO AND ITS SUPPORTING UNITS, INCLUDING ITS AREA CONTRACTOR, ARE REFEREND TO AS ESD-SAM REMNANDING; AND THIS IS THE DESIGNATION THAT YOU SEE THROUGHOUT THE ENVIRONMENTAL DEPACT STATISMENT.

THESE POSCERODAL GROUPS WITHIN SPACE STREET, DIVISION HAVE REEN IDENTIFIED FOR THE PURPOSE OF THESE RELOCATION EVALUATION. THESE INCLUDE THE SPACE STATEME TAN OFFICE, OR THE SPO, THE ICEM SPOE, AND "OTHER" SPO ACTIVITIES. THE SPACE SPOS -- RESPONSIBLE FOR DESIGN. DEVELOPMENT, ACQUISITION, 9887, AND LAUNCE -- INCLUDE 1,240 HILITARY, 1,190 DOD CIVILIAN, 2,590 ARROSPACE CORPORATION AND 190 SETA CONTRACTOR PERSONNEL. 15

SOUTH BAY COURT REPORTERS

THE "OTHER" SPO ACTIVITIES AT ESD --INCLUDING THE MIL-STAR JOINT PROGRAM OFFICE, OTHER ADVANCED AND SPECIAL PROGRAMS, THE ARROSPACE CORPORATION LABORATORIES, AND VARIOUS BASED OPERATING SUPPORT UNITS --EMPLOY 510 HILLTARY, 250 DOD CIVILIAN, AND 1,590 ARROSPACE CORPORATION PERSONNEL.

AND FINALLY, THE BALLISTIC MISSILE ORGANIZATION ICEM SPOS HANAGE THE BALLISTIC MISSILE ACQUISITION PROGRAMS. THIS SPO ALSO PERFORMS THE ADVANCED STRATEGIC MISSILE TRI-SERVICE REQUIREMENTS. AND MAS 660 MILITARY, 578 CIVILIAN, AND 1,300 SETA CONTRACTOR

THE PROPOSED ACTION AND THE ALTERNATIVES ARE BASED ON A CONSTRUCTION AND RELOCATION SCHEDULE BEGINNING IN PISCAL TRAN 1993 AND ENDING IN FISCAL TEAR 1996. SOMEYER, DUE TO THE COMPLEXITY, THE MAGNITUDE OF THE PROPOSAL, AND THE AVAILABLE RELOCATION RESOURCES. THE ACTUAL RELOCATION AND CONSTRUCTION COULD EXTEND OVER A LONGER PERIOD OF TIME -- THAT IS, BETOND 1996.

THE PROPOSED ACTION, AS I HENTIQUED EARLIER, IS THE TOTAL CLOSURE OF LOS ANGELES AIR FORCE BASE AND THE CONFLETE CLOSURE OF THE BALLISTIC MISSILE ORGANISATION PACILITIES IN SAM BERMARDING AND THE RELOCATION OF SED-LOS ARGELES AND SED-SAN RESMANDING TO ONE OF POUR LOCATIONS. SSD SUPPORT UNITS CURRENTLY AT LOS ANGELES

SOUTH BAY COURT REPORTERS

ANT AT SAN BERNARDING THAT DUPLICATE EXISTING UNITS AT THE

THE CLOSURE OF SPACE SYSTEMS DIVISION-LOS AMGELES PACILITIES WOULD INVOLVE A TOTAL OF 760 MILITARY AND 6,385 CIVILIAN PERSONNEL. THERE ARE ALS. "WE TENANT UNITS THAT WOULD NOT MOVE WITH SED AND WOULD RELOCATE WITHIN THE LOS ANGELES AREA.

THE CLOSURE OF SED-SAN BERNARDING PACILITIES MOURD INVOLVE A TOTAL OF 660 MILITARY AND 1,870 CIVILIAN

AS I MENTIONED, WE'RE CONSIDERING POUR 12 ALVERNATIVE LOCATIONS FOR MELOCATION OF SED. THORSE CALIFORNIA; MANCH AIR PORCE BASE IN CALIFORNIA; PETERSON 15 AND PALCON AIR PORCE MASES IF COLORADO, WRICE ARE BEING 16 COMMITTERED AS A SIRGLE OPTION; AND, OF COURSE, EINSTAND AIR PORCE BASE MERE IN HEW MERICO

FIVE ALTERNATIVES TO THE PROPOSED ACTION ARE 19 CONSIDERED IN THIS ENVIRONMENTAL IMPACT STATEMENT, AND 20 ALTHOUGH THE ALTERNATIVES ARE HUMBERED IN THE DOCUMENT AND 21 ALSO IN THIS PRESENTATION, THEY SHOULDN'T BE COMMISSION TO 22 IMPLY ANY RANKING OR ANY PRIGRITIZATION OF THE 23 ALTERMATIVES.

24 THE PIRST ALPERNATIVE TO THE PROPOSED ACTION IS SIMILAR TO THE BASIC PROPOSAL, BUT WELLS THE SPACE

SOUTH BAT COURT REPORTERS

TRANSCRIPT 6

STETUME DIVISION-LOS ANGELES OPERATIONS MOULD BE RELOCATED TO ONE OF THE CAMDIDATE LOCATIONS, THE SED-SAM REMUMBDING OPERATIONS WOULD NOT MOVE AND THEY WOULD REMAIN AT SAM

THE SECOND ALTERNATIVE WOULD CLOSE CERTAIN AREAS OF LOS ANGELES AIR PORCE BASE AND RELOCATE ONLY PORTIONS OF SPACE STRIES PIVISION-LOS ANGELES AND ALL OF SED-SAN MERHARDING, MYT WOULD NOT RELOCATE THE "OTHER" SPOS, OR STRYEM PROGRAM OFFICES.

THE THIRD ALTERNATIVE WOULD CLOSE ONLY THE INO PACILITIES IN SAN SERMANDINO AND RELOCATE SPACE STETEMS DIVISION SAN BENNARDING TO ONE OF THE POUR LOCATIONS.

10

19

21

23

24

25

THE POURTE ALTERNATIVE CONSIDERS ONLY THE RELOCATION OF A THOUSAND PERSONNEL PROM SPACE STSTEMS DIVISION, WITH NO PACILITY CLOSURE AT RITHER LOS ANGELES OR

THE PIPER ALTERNATIVE, WORLD CLOSE ALL OF LOS AMORERS AIR FORCE BASE AND RELOCATE SPACE SYSTEMS DIVISION LOS AMURLES TO MARCE ALR PORCE BASE, NOT MOULD LEAVE THE ARROSPACE CORPORATION INTACT AT EL SEGUEDO AND SPACE STOTEMS DIVISION-SAN BENNANDING INTACT AT SAN BERNANDING.

AND FINALLY, THE LAST ALTERNATIVE IS THE HO-ACTION ALTERNATIVE. IN THIS CASE, SPACE SYSTEMS DIVISION-LOS ANGELES AND SPACE STRTING DIVISION-SAN BERMANDING WOULD RESOLD AT THEIR EXISTING LOCALITIES AND

SOUTH BAY COURT REPORTERS

THEIR SELECTION PACILITIES, AS MOULD THE ASSOCIA COMPORATION AND META CONTRACTOR 2

THE PROPOSED ACTION AND THE ALTERNATIVES, 1, 2, 3, AND 5, ARE CONTINUEST WHOSE EFECTAL LEGISLATION ALLOWING THE AIR PORCE TO DISPOSE OF COMPANY AND DEE THE SALE PROCESSE TO DOY-SET THE COSTS OF MILITARY CONSTRUCTION AND THE ASSOCIATED CLOSURE AND RELOCATION.

AS I NOTED SANLIER, THERE ARE FIVE ACCUSTOMAL. STUDIES REQUIRED UNDER THE QUITED STATES CODE TITLE 10, SECTION 2687, THE ACT ENGINE AS THE REALIGNOST AND CLOSE 10 ACT, AND IT REQUIRES THAT THE DEPARTMENT OF DEPENDE -- IN 12 THIS CASE, THE AIR PORCE -- STUDY THE LOCAL REPROSES. 13 OPERATIONAL, STRAINGIC, FISCAL, MINORIANI, AS WILL AS THE 14 REVIRONMENTAL DESACTS OF THE PROPOSED CLOSURE. THE STUDIES 15 ARE UNDERWAY AND WILL BE EXEMPTED TO COMPRESS AS PART OF THE OVERALL DECISION PACKAGE.

THIS EFFORT WAS INITIATED ON

PERROAT 9, 1990, WITH THE PUBLICATION IN THE PEDERAL REGISTRA OF TWO HOTICES OF INTERP TO PREPARE ENVIRONMENTAL LIGHACT STATEMENTS. THE HOTICES INDICATED THAT LOS ANGULES AIR FORCE BASE MOULD BE STEDIED FOR CLOSURE AND THAT SPACE STRINGS DIVISION AND APPROPRIATE SUPPORTING UNITS MOULD BE STUDIED FOR RELOCATION. OUR DRAFT ENVIRONMENTAL INDACT STATEMENT ANALYSIS HOTE THE CLOSURE AND RELOCATION DATES.

POLLOWING THE MOTICES OF INTERT, SCOPING MEETINGS WERE EXIL TO RECEIVE PURELS LEGAT ON THE SCOPE OF THE ISSUES TO BE ADDRESSED IN THE SEVENDMENTAL IMPACT STATEMENT AND TO IDENTIFY THE SIGNIFICANT ISSUES RELATED TO THE PROPOSED ACTION. THE SCOPING MEETING FOR EIGHTAND AIR PORCE BASE WAS MELD MERE IN ALSOQUENOUS ON APRIL 2ND OF THIS TEAR.

SUMMEQUENT TO SCOPING THE ISSUES FOR STUDY, WE COLLECTED DATA AND COMDUCTED THE ANALYSIS WRICE SUPPORT THE ENVIRONMENTAL IMPACT STATEMENT?.

21 THE DRAFT ENVIRONMENTAL IMPACT STATEMENT WAS
22 PILED WITH THE ENVIRONMENTAL PROTECTION AGENCY ON
23 ABOUST 3, 1990.

IN ADDITION TO TONIONI'S PUBLIC MEARING,
PUBLIC MEARINGS ON THE DRAFT ENVIRONMENTAL IMPACT STATEMENT

SOUTH BAY COURT REPORTERS

MAYE ALBO BREN HELD IN OTHER COMMUNITIES APPRICTED IN THE PROPOSED CLOSURE OR RELOCATION. PUBLIC EMAILING WERE HELD LAST WEEK IN EL SEGUNDO, LONDOC. RIVERSIDE, AND SAN EMMAROINO, CALIFORNIA POR THE CALIFORNIA BASES AND UNITE ADDRESSED IN THE ENVIRONMENTAL LUPACT STATEMENT. A PUBLIC MEARING WAS ALSO MELD ON WEDNESDAY OF THIS WEEK IN COLUMADO SPRINGS, COLORADO POR PALCON AND PETERSON AIR PORCE BASES.

WRITTEN CONGENTS ON THE DRAFT ENVIRONMENTAL INDACT STATEMENT WILL BE ACCEPTED OWTIL

9 IMPACT STATEMENT WILL BE ACCEPTED OWTIL
10 SEPTEMBER 24, 1990. AFTER THE COMMENT PERIOD IS OVER, WE
11 WILL EVALUATE ALL COMMENTS -- BOTH WRITTER AND ORAL -- AND
12 PERFORM ADDITIONAL ANALYSES OR CHANGE THE ENVIRONMENTAL
13 IMPACT STATEMENT MERGE RECESSARY. AGAIN, AS IN THE SCOPING
14 PROCESS, EQUAL CONSIDERATION WILL BE GIVEN TO ALL COMMENTS,
15 WHETHER THEY ARE PRESENTED MERG TOWIGHT OR RECEIVED ST MAIL

PRIOR TO THE END OF THE COMMENT PERIOD.

17 CHCE THE PROCESS IS COMPLETE, WE WILL PRODUCE 18 A FINAL ENVIRONMENTAL INDACT STATEMENT, WEIGH IS SCHEDULED FOR COMPLETION IN BARLY DECEMBER 1996. THE FINAL 15 20 ENVIRONMENTAL INDACT STATEMENT WILL BE MAILED TO ALL THOSE ON THE DRAFT ENVIRONGENTAL INPACT STATEMENT DISTRIBUTION 21 LIST. THE FINAL ENVIRONMENTAL IMPACT STATEMENT WILL INCLUDE CONSENTS RECEIVED DURING THE PUBLIC REVIEW PERIOD 23 24 AND OUR RESPONSES TO THOSE COMMENTS. DEPENDENC ON THE 25 MINNERADIVERSITY OF CONGESTS, OR THE MEED TO COMDUCT

.. . .

SOUTH BAY COURT REPORTERS

ABOUTIONAL ANALYSIS, THE FINAL ENVIRONMENTAL IMPACT STATEMENT HAS COMMISST OF A COVER LETTER AND KRACES SHEETS, A SEPARATE VOLUME AS COMPANION TO THE DRAFT ENVIRONMENTAL LUMCT STATEMENT, OR RE AN ENTIRELY ENG OCCUPANT.

THE FIRST ENVIRONMENTAL INFACT STATEMENT WILL SERVE AS IMPUT FOR RECORD OF DECISION WHICH WILL DOCUMENT THE DECISION BY THE AIR FORCE.

OTHER STUDIES, AS DESCRIBED EARLIER BY
MR. TORKERS, AND CONSIDERATION OF OTHER ISSUES BISIDES
THOSE ADDRESSED IN THE ENVIRONMENTAL INFACT STATEMENT OR
THOSE OTHER STUDIES, WILL ENTER INTO THE FIRAL DECISION OF
MRETEER OR NOT TO PROCEED WITE THIS PROPOSAL. WE EXPECT TO
ACCOMPLISE THE RECORD OF DECISION IN EARLY JANUARY 1991.

THE DRAFT ENVIRONMENTAL INPACT STATEMENT WAS PREPARED IN ACCORDANCE WITH THE MATIONAL ENVIRONMENTAL POLICY ACT AND THE COUNCIL ON ENVIRONMENTAL QUALITY REMOLIATIONS. EFFORTS WERE HADE TO REDUCE MEDICALS SULK, WRITE IN PLAIN LANGUAGE, POCUS ON ORLY THOSE ISSUES WHICH ARE CLEARLY RELATED TO THE ENVIRONMENT, AND TO INTEGRATE WITH DOCUMENTS REQUIRED IN PART OF THE DECISION MAKENER PROCESS.

THE DOCUMENT POCUSES ON IMPACT TO THE MATURAL AND PRISICAL ENVIRONMENT WHICH MAY OCCUR AS A DIRECT RESULT OF THE BASE CLOSURE OR RELOCATION ACTIONS, IMPACTS WHICH OCCUR INDIRECTLY THROUGH CHANGES IN THE COMMUNITY, OR IN

SOUTH BAY COURT REPORTERS

THE HAMDLING THE HARARDOUS NATERIALS AND WASTE.

THE DOCUMENT ALSO EVALUATES GROLOGY AND
SOILS; WATER, BOTE SUMPACE AND GROMFONATER; AIR QUALITY;
POISE; BIOLOGICAL; AND CULTURAL RESOURCES. INDIRECT
CHANGES TO LOCAL COMMUNITIES THAT PROVIDED MEASURES AGAINST
WHICE ENVIRONMENTAL IMPACTS COULD BE ANALYSED INCLUDED
CHANGES TO POPULATION, LAND GRE AND ARSTRETICS,
TRANSPORTATION, AND COMMUNITY UTILITY SERVICES.

9 IN ADDITION, ISSUES RELATED TO CURRENT AND
10 PUTURE NAMAGEMENT OF RALANDOUS MATERIALS AND WASTE ARE
11 DISCUSSED IN THE DOCUMENT.

12 IT THE OFFENDING THAT SIGNIFICANT ADVERSE
13 ENVIRONGENTAL INFACTS WOULD OCCUR BECAUSE OF BASE CLOSURE
14 OR THE RELOCATION ACTION, POTENTIAL MITIGATING MEASURES
15 WERE ALSO IDENTIFIED IN THE DOCUMENT.

AS I MENTIONED EARLIER, THIS DRAFT

17 HIVIRONGENTAL IMPACT STATEMENT POCUSES ON THE IMPACTS TO

18 THE HATURAL AND PHISICAL ENVIRONMENT BROOMET ABOUT, SITHER

19 DIRECTLY OR IMDIRECTLY, ST THE POTENTIAL CLOSURE OF LOS

20 ANGELES BARE AND THE RELOCATION OF SPACE SYSTEMS DIVISION.

21 THE DOCUMENT ADDRESSES SOCIORCONOMIC IMPACTS OF BASE

22 CLOSURE OR RELOCATION ONLY IF THEY RESULT IN IMPACTS TO THE

23 BATURAL AND PHYSICAL ENVIRONMENT.

EARLIER RR. YOUTERS DESCRIBED THE OTHER STUDIES SEING CONDUCTED AS PART OF THE BASE CLOSURE

22

23

24

I WOULD NOW LIKE TO DISCUSS THE RESULTS REPORTED IN THE DRAFT ENVIRONMENTAL INDIACY STATEMENT. OUR DISCRETON TOWIGHT WILL CONTROL ON THE IMPACTS EXPECTED IN THE EIRTLAND AIR FORCE BASE AREA, IF IT IS CHOSEN AS THE MOST BASE FOR RELOCATION OF SPACE SYSTEMS DIVISION. THE DOCUMENT CONCLUDED THESE WOULD BE CHANGES TO THE LOCAL COMMUNITY THAT COULD AFFECT THE MATURAL AND PETRICAL NT. IN ADDITION, VARIOUS IMPACTS, INCLUDING THE POTENTIAL FOR SIGNIFICANT ADVERSE INDACTS TO THE NATURAL AND PHYSICAL ENVIRONMENT, WERE IDENTIFIED.

A FULL RELOCATION OF SPACE STREETS DIVISION AS DESCRIBED IN THE PROPOSED ACTION WOULD BE EXPECTED TO CADES THE POLLOWING CHANGES IN THE ALBOQUEAQUE AREA IF SIRTLAND AIR FORCE BASE WERE SELECTED:

SOUTH BAY COURT REPORTERS

IT IS ESTIMATED THAT THE RELOCATION OF SPACE SYSTEMS DIVISION BY THE EMD OF 1996 WOOLD RESULT IN AM DAL INCREASE OF APPROXIMATELY \$519 MILLION IN TOTAL PERSONAL INCOME. THE PROPOSED ACTION IS REPRETED TO GENERATE APPROXIMATELY 18,000 DIRECT AND INDIRECT JOSE IN 1997. THE PERMANENT POPULATION INCREASE IN THE AREA IS PROJECTED TO BE APPROXIMATELY 24,000 PROPER, WITH VIRTUALLY ALL OF THE ADDITIONAL POPULATION LIVING OFF-DASE IN THE

LAND DEE CHANGES FROM THE RELOCATION ACTION WOULD DEPEND ON POSSIBLE FUTURE AMENDMENTS TO LOCAL LAND DER PLANS AND SOFTING ORDINANCES.

VIRIOUS TRAFFIC IN THE VICINITY OF THE 14 PROJECT SITE WOULD INCREASE, ESPECIALLY DURING PEAK TRAFFIC 15 BOURS. THESE INCREASES WOULD CONTRIBUTE TO A DECAGASED LEVEL OF SERVICE ON SEVERAL OF THE STREETS SERVING THE BASE. DURING PEAK TRAPPIC BOOMS, EXISTING CONGRESTED 18 COMPLITIONS WOULD WORSEN ON SEVERAL AREA STREETS, INCLUDING 19 PARTS OF GIBSON BOULEVAND, SURANE BOULEVAND, WYOMING 20 BOOLEVARD, AND CENTRAL AVENUE

WE ANTICIPATE AN ADDITION OF UP TO 40,000 ARRIVING AND DEPARTING PASSENGERS AT ALBOQUEROUS INTERNATIONAL AIRPORT DUE TO THE PROPOSED ACTION. THIS WOULD INCREASE PASSENGER LEVELS BY ABOUT 3 PERCENT ABOVE CURRENT LEVELS IN 1997. THIS GROWTH IS CONSISTENT WITH THE

SOUTH BAT COURT REPORTERS

PROPOSED FUTURE INCREASES IN PASSENGER TRAFFIC PORECASTS FOR THE AIRPORT.

THE RELOCATION OF SPACE STREEMS DIVISION TO KIRTLAND AIR PORCE BASE WOULD INCREASE LOCAL WEED FOR POTABLE WATER, WASTEMATER TREATMENT, MATURAL GAS. SLECTRICITY, AND SOLID WASTE DISPOSAL.

THE MATER SYSTEMS WHICH SERVE ALBOQUERQUE AND EIRTLAND ALR PONCE BASE ARE CAPABLE OF MEETING THE ESTIMATED 4 PERCENT INCREASE IN DEMAND WITHIN EXISTING

WASTEWATER TREATMENT DEMAND AS A RESULT OF THE PROPOSED ACTION HOULD PEAK AT APPROXIMATELY 5 PERCENT EXISTING STEVEN WOULD BE OPERATING AT APPROXIMATELY 92 PERCENT OF IT'S CAPACITY. THIS INCREASED DEMAND WOULD INTERSIFT THE REED TO INCREASE THE CAPACITY OF THE

AVAILABLE CAPACITY EXISTS TO SUPPLY EMERGY REQUIREMENTS DUE TO THE PROPOSED ACTION.

ALSOQUENQUE IS EXPECTED TO INCREASE BY APPROXIMATELY 5 PERCENT. TRIS INCREASE CAN ALSO BE NAMOLEO BY LOCAL MASTE PACALITIES.

IN THE AREA OF HASARDOUS HATERIALS AND WASTE, THE RELOCATION OF SPACE SYSTEMS DIVISION TO KIRTLAND AIR

SCOTTE BAY COURT REPORTERS

ASE WOULD INCREASE THE DEE AND STORAGE OF BALLYDOOS MATERIALS AND THE CEMERATION OF MALARDOOS WASTE. THESE INCREASES ARE DUE, IN PART, TO BASE OPERATIONS AND MAINTENANCE ACTIVITIES AND, IN PART, TO THE LABORATORY OPERATIONS OF THE ARMOSPACE COMPORATION. EXISTING EASANDOOS NATERIAL AND WASTE NANAGENERS PLANS FOR KINSLAND AIR PORCE BASE WOULD BE MODIFIED TO ADDRESS THESE

DIPACTS TO THE NATURAL AND PHYSICAL ENVIRONMENT ARE AS POLLOWS:

WE SEPECT NO DISPACT ON GROLOGICAL RESOURCES

UNDERLYING THE BASS. SOIL LOSSES FROM ENGSION WILL BE MINIMISED THROUGH THE USE OF STANDARD CONSTRUCTION PRACTICES AND MITIGATION PLANS.

NOT EXPECTED ON THE GROUND OR SURFACE WATER RESOURCES IN THE EIRTLAND AIR FORCE BASE AREA. SOTE THE BASE AND THE CITY RECEIVE THE MAJORITY OF THEIR WATER SUPPLIES PROX LOCAL GROUND WATER AGGIFFERS; NOWEVER, THESE AGGIFFERS ARE NOT IN OVERDRAFT COMDITION AND APPEAR ADSCRAFT TO MANDLE INCREASED MEEDS. SURFACE WATER RUNOFF IS EXPECTED TO INCREASE AS A RESULT OF ADDITIONAL PAVED AND COVERED AREAS; MOMENTER, THIS INCREASE IS NOT EXPECTED TO ADVERSELY IMPACT SURFACE WATER RESOURCES.

DURING THE CONSTRUCTION PRASE, INCREASED

ENGISSIONS OF PARTICULARS MATTER AND OTHER POLLUTANTS I OCCUR, BUT WOULD ME SHORT-THRU AND HOT SIGNIFICANT.

LONG-TERM AFFECTS OF THE PROJECT WOULD BE CAMBRO PRIMARILY BY ENTREIGHS FROM THE ADDITIONAL VINICLES USED ST PROJECT PERSONNEL AND TEXTS FAMILIES. BASED OF MODELING, INCREASED VEHICLE TRAFFIC HEAR THE PROJECT SITES COMES SIGNIFICANTLY INCREASE THE CARBON MUNICIPAL LEVELS IN THESE AREAS. THESE INCREASES ARE NOT EXPECTED TO CAUSE VIOLATIONS OF THE PEDERAL STANDARDS FOR CAMBON MOMORIDS. BONEVER, SINCE THE ALMOQUERQUE/BERNALITAD COUNTY AREA IS MYZLY IN MON-ATTAINMENT FOR CARBON MONOTIDE, THESE INCREASES COULD DELAY THE COUNTY'S ACRIEVED BY OF ANYARISM STATIS AND ARE, THEREFORE, VINNED AS SIGNIFICANT IMPACTS TO THE AREA'S AIR QUALITY.

SHORT-TERM INCREASES IN HOLSE LEVELS ARE EXPECTED IN THE PROJECT AMEAS DUE TO PACIFITY COMPANICATION. AS STARS IN AND IN THESE THURSDARES ARE EXPECTED TO ME SIGNIFICANT DUE TO THEIR PRODUCTTY TO SEMBISTVE NOISE RECEPTORS IN THE HEARST BASE HOUSING AREAS. WE ALSO REPRCY SLIGHT LONG-TERM INCREASES IN MOISE LEVELS OF LESS TEAS 3 DECIDELS DUE TO INCREASES IN VEHICULAR TRAFFIC. GIVEN CURRENT TRAFFIC VOLUME AND MOISE LEVELS IN THE AREA, THIS INCREASE IS NOT EXPECTED TO RESULT IN SIGNIFICANT NOISE IMPACTS.

THE PROPOSED ACTION IS NOT EXPECTED TO BAVE

30

SOUTH BAY COURT REPORTERS

ANY SIGNIFICANT IMPACTS ON VEGETATION, WET LANDS, SEATEMED AND EMBANGERED SPECIES. OR OTHER WILDLIFE

NO SIGNIFICANT INPACTS TO CULTURAL RESOURCES ARE EXPECTED AS A RESULT OF THE PROPOSED ACTION.

THE ALTERNATIVE ACTIONS, AS DESCRIBED BARLIER BY MR. TOMBERS, GENERALLY INVOLVE PARTIAL RELOCATION OF SPACE SYSTEMS DIVISION, WHICH, IN ALL CASES, INVOLVE FEMER PROPER AND LESS CONSTRUCTION THAN THE PROPOSED ACTION. IN GENERAL, THESE ALTERNATIVES RESULT IN CHANGES TO THE 10 ENVIRONMENT THAT ARE EQUAL TO OR LESS ADVERSE THAN THE CHARGES ASSOCIATED WITH THE FULL RELOCATION ACTION. 12

IN CLOSING, LET ME REMIND TOO THAT THE STUDY IS IN A DRAFT STAGE. OUR GOAL IS TO PROVIDE AIR PORCE DECISION MAKERS WITH ACCURATE INFORMATION ON THE ENVIRONMENTAL COMEDUMENCES OF THIS PROPOSAL. TO DO THIS, TOWNIGHT WE ARE SOLICITING YOUR CONSENTS ON THE DRAFT PROVIDENCE PRACT STATEMENT. THIS INFORMATION, CONFLED 19 WITH THE OTHER STUDIES DISCUSSED ST MR. TOWERS. WILL SUPPORT IMPORTED AIR PORCE DECISION MAKING.

TEME TOU.

COL. MORRISON: IN A MOMENT WE WILL MOVE INTO THE 23 MAIN PORTION OF THE MEETING, VELCE IS THE PUBLIC INPUT 24 PERIOD. I WOULD LIKE TO REMIND TOO BAVE A COMPLE OF

SOUTH BAT COURT REPORTERS

PLEASE LIMIT YOUR CONCENTS TO FIVE MINUTES SO THAT EVERTORS CAN BE READD. ALSO, PLEASE MAJE SURE TEAT TOO STREET TOOK HAVE CLEARLY FOR THE RECORD BEFORE TOO MAKE M STATEMENT. IF YOU HAVE BROOGET A PREPARED STATEMENT, TOU MAY TURN IT IN, YOU HAT READ IT OUT LOUD, OR TOU HAT DO BOTE. WRITTEN COMMENTS AND OUTSTIONS WILL BECOME PART OF THE RECORD. SQUAL CONSIDERATION WILL BE GIVEN TO TOOK COMMENTS WHETHER TOU SPEAK TOWIGHT OR PROVIDE WRITTEN ENTS. IF TOO TIME IN WRITTEN COMMENTS ON OURSTIONS, PLEASE WRITE TOOK HAME AND ADDRESS ON THEM.

AGAIN, THE PURPOSE OF THIS BEARING IS TO SCRICT INDOOR PROM PURLIC AGRECIES, PRIVATE ORGANISATIONS. AND THE PUBLIC AT LANGE ON THE DRAFT ENVIRONMENTAL INDUCT STATISHEST. THE AIR PORCE REPRESENTATIVES GATHERED HERE THIS EVENING ARE NOT THE DECISION MAKERS OF THE PROPOSED THE ACTION. THEY HAVE PROVIDED YOU INFORMATION ON THE PROCESS AND ARE PREPARED TO RESPOND TO QUESTIONS TOO MAY MAVE OF THE PROJECT, MONEYER, TOO MAY NOT SHITER 1870 A PERATE OF THE PROS AND COME OF THE PROPOSED ACTION.

ALSO, RESIDENCE THAT THE PURPOSE OF THE SEASING TOWIGHT IS TO SOLICIT INPUT ON THE DRAFT WEAL INDACT STATEMENT, SO PLEASE LIKET TOOK MENTS TO THE ENVIRONMENTAL ISSUES ASSOCIATED WITH THE PROPOGALS. TO AVOID REPETITION, AND TO MAKE SURE THAT EVERTORS MAS AN OPPORTUNITY TO SPEAK, I WOOLD LIKE TO ASE

SOUTH BAY COURT REPORTERS

YOU TO AVOID REPETITIVE STATEMENTS. IF YOU AGREE WITH THE COMMUNITS OF AN EAULIER SPEAKER, I MOULD ASK YOU TO STAFL! INDICATE THAT FOR THE RECORD.

WE WILL NOW SEGIN THE PUBLIC COMMENT PERIOD, AND OUR PIRST SPEAKER WILL BE VINCE MURPHY, POLLOWED BY

MR. MURPHY: MY HAME IS VINCE HURPHY (625 SILVER E.W., ALBOOURNOUS, MEW MERZICO 87102). I'M THE STATE OFFICE DISSOCRATE FOR THE INVESTOR STATES STRANGE THE STREAMS. AND I'D LIKE TO READ A STATEMENT FROM THE SEMATOR: I ALSO MAVE A WRITTEN COPT THAT I'LL LEAVE FOR THE RECORD-

I REGRET THAT I CAMMOT BE IN ALMOQUERQUE IN PERSON TORIGHT TO COMMENT OF THE DRAFT ENVIRONMENTAL IMPACT STATEMENT FOR THE PROPOSED CLOSURE OF THE LOS ANGELES ATR PORCE BASE AND RELOCATION OF THE SPACE STETEMS DIVISION.

AFTER REVIEWING THE DRAFT ENVIRONMENTAL IMPACT STATEMENT. I RELIEVE THAT THE CARE FOR RELOCATING ESD TO KIRTLAND IS A STRONG COME. THERE ARE CLEARLY NO ENVIRONMENTAL ISSUES THAT WOULD STAND IN THE WAY OF A DECISION TO LOCATE AT SIRTLAND, AND, JUST AS CLEANLY, THERE ARE REASONS WIT SUCH A DECISION WOULD BE IN THE BEST INTERESTS OF THE ALR PORCE.

THE ENVIRONMENTAL INFACT STATEMENT IS ONE OF SIE STUDIES ASQUIRED BY STATUTE SEPONE PINAL DECISION IS 24 25 MADE ON BASE CLOSURE. I IMPRESENTANT THAT THE OTHER FIVE

SOUTH BAY COURT REPORTERS

TRANSCRIPT 6 PROMISETY TO THE MATIONAL LABORATORIES, AND STUDIES OF THE FISCAL, LOCAL SCOROLIC, MOD CO-LOCATION WITH SAFDIA IN PARTICISAR, IS A STRONG AND STRATEGIC, AND OPERATIONAL INPACTS ARE INDENNAT AND MEARING IN PAYOR OF RELOCATING SEG AND THE ARROSPACE CONFORMITOR COMPLETION. IN THE PINAL ANALYSIS, I SELIEVE THAT SIRTLAND AT RISTLAND. SANDIA AND LOS ALANDS ARE SUPARALLIZAD IN WILL EMERGE AS AS CLEAR CHOICE FOR SASING THE SED AND IT'S RESERVED AND DEVELOPMENT INSTITUTIONS, WITH PROPERTIES IN MANY DISCIPLINES INFORTANT TO SPACE STETUMS DIVISION. IMPORTANT PACTORS IN KIRSTAND'S PAVOR AND THE THE UNIVERSITY OF THE MEN MEXICO IS A MAJOR PROXIMITY OF COMPLEMENTARY RAD PACILITIES AND MEN MEXICO'S ACE UNIVERSITY WEIGH CAN OFFER A CONSIDERABLE AND STRONG SCIENCE AND TECHNOLOGY ORIGINATION. CLEARLY. OF THUMBURAL AND SCIENTIFIC SUPPORT TO THE ALR PORCE. THESE CO-LOCATION WITH THE AIR FORCE SPACE TECHNOLOGY CENTER AND 10 IS ALSO THUS OF HEW MELICO THEM AND MEN HERICO STATE. THE AIR PORCE WEAPONS LABORATORY WOULD RESERVE THE SPACE 11 WRITE SANOS HISSILE RANGE AND BOLLOWN AIR 11 STRIBUS DIVISION. PORCE BASE BOTH MAYS A MISTORY OF THE AMBIOGRACE SUPPORT AND 12 THE STC. WEIGH IS MANAGED BY SED. YOU 13 CAN ALSO CONTRIBUTE MUCE TO SED'S MISSION. RETABLISHED IN 1982 AS THE FOCAL POINT FOR THE AIR PORCE 14 HEN HEXICO HAS A VERY STRONG SCIENCE AND SPACE RESEARCH AND TECHNOLOGY PROGRAMS, AND OVERSEES THREE TECHNOLOGY CRIENTATION WEIGH CAN PROVIDE AN UNPARALLELED 15 OTHER AIR PORCE LABORATORIES, INCLUDING THE WEAPONE LAB. 15 16 BASE FOR OPERATING SED AND THE ARROSPACE CORPORATION. HER 16 COMMONICATING SED, STC, AND THE WEAPONS LAB COULD CHEATS A MEXICO EAS A LANCE FOOL OF TECHNICALLY TRAINED INDIVIDUALS. 17 STREAM THAT WOLLD REMETT THE ENTIRE STRUCTURE, AS WILL AS 17 18 AS WELL AS A LANCE FOOL OF INDIVIDUALS WITH SECURITY CLEARANCES. HER MEXICO MAS POSTERED AN ENVIRONMENT AND λ 19 19 THE AIR PORCE IS WILL MAKE OF THE CULTURE THAT WILL SUPPORT THE RESEARCH AND DEVELOPMENT 26 CAPABILITIES OF STC AND AFRE, AND WILL CENTRALIES CONSIDER EFFORMS OF THE AIR FORCE, AS WELL AS ANY LOCATION IN THE 21 21 CO-LOCATION WITH THESE OPERMITATIONS IN 17'S DECISION. I HOPE THAT BOTTAL WRIGHT WILL BE GIVEN TO THE RAD PACILITIES 22 LOCATED IN ALMOGRAPHIC AND RESPONDED IN MEN MEXICO, WEIGH 23 THE PINAL POINT I WOULD LIKE TO MAKE IS ON 24 THE PROSPECTS FOR THE FUTURE OF SED AND ITS MEN BASE, IF IT SED HAT NOT ME AS PANELLIAN WITE, BUT WHICH CAN OFFER IS RELOCATED. GEVICORLY, THE AIR PORCE DOES NOT MANY TO BE 25 SIGNIFICANT ASSETS SHOULD THE DIVISION LOCATE AT KINTLAND. SCOTE BAY COURT REPORTERS SOUTH BAY COURT RESOURCES SPEAKER WILL BE HISS DARLESS HTER, POLLOWED BY MR. KEVIN MENT OF A KILITARY BASE REQUIRES ANOTHER ME. EYER: GOOD EVENING. MT NAME IS DANLEME HYER RELOCATION. EIRTLAND'S SIKE AND LOCATION MAKES THAT ALL (625 SILVER E.W., SUITE 140, ALBOQUERQUE, MEN MEXICO BUT INFORSIBLE. LOCATING SED AT EIRPLAND WOULD GIVE THE AIR PORCE THE BEST OF ALL POSSIBLE OPTIONS: A BASE IN A 87102). I'M REPRESENTING COMCRESSION SCRIFT THIS EVENING. 6 HE RECRETE HE CAN'T BE HERE THIS EVENING DUE TO A PREVIOUS LANCE, VISSANT CITY, WITE ALL THE ADVANTAGES IN CULTURE AND IMPRASTRUCTURE THAT GO WITH A CITY; AND A BASE WHICH CAN 15.10 FOLLOWING STATSMENT: MANDLE A VERY CONSIDERABLE REPARSION, WITHOUT PEAR OF SHCROACHING UPON THE CITY, WITH EMOUGH LAND TO PROVIDE ALL TEAMS TOO ONCE AGAIN FOR THIS OPPOSITURITY TO RECORDER RIGHTAND AIR FORCE BASE AND ALBOQUENQUE AS THE OF THE ADVANTAGES OF A RUNAL LOCATION. THE AIR PORCE CAN BE CONFIDERT THAT EIRTLAND PUTURE NOW OF THE UNITED STATES AIR PORCE SPACE STRYING 11 12 WOULD PROFIDE A STABLE AND LASTING BASE FOR SED IN THE 13 1 12 13 I JOIN A NORT OF HILITARY AND SPACE EXPERTS IN RECOMMENDING ALMOQUENOUS AND EXPERIMENT FOR THIS SPACE THE FIRST DECISION WILL BE BASED ON THE 14 SYSTEMS DIVISION. AS A MEDICAL OF COMPRESS AND AS A MEDICAL 15 RESULTS OF THIS SHYIROMODITAL INDACT STATEMENT AND OTHER 16 STUDIES HOW UNDERHAY. THE ENVIRONMENTAL INDICT STATISHENT OF THE NEW MEXICO AIR WATIONAL GUARD STATIONED AT 15.10 17 CLEAR LEAVE STATES THAT THERE ARE NO SHOW-STOPPERS TO 17 RINTLAND, I AM CONVERCED THERE IS NO BETTER SITE AVAILABLE 10 RELOCATING TO SINTLAND. I'M CONFIDENT THAT OTHER STUDIES 18 APPRIERS, AND I AM FULLY COMPIDENT THAT THE SITE SELECTION 19 19 EVALUATION CURRENTLY UNDER MAT WILL MAR HE OUT. WILL LEND FURTHER SUPPORT TO BASING SED AND IT'S ASSOCIATED 20 ORGANIZATION MERS IN ALBOQUEROUS KIRTLAND AND THE CITY OF ALMOOREMONE AND AT 21 I LOOK POSSESS TO MORRISS WITH THE AIR PORCE 21 THE MEAST OF THE HOST IMPRESSIVE COLLECTIONS OF DEFENSE RINTLAND AIR FORCE BASE AND THE PROPLE OF ALBUQUERQUE AS 22 22 PACILITIES IN THE ENTIRE WORLD. AN ALMOQUERQUE-BASED SPACE THIS PROCESS HOVES PORHURD. 24 TRANK TOO. 24 STETEMS DIVISION WOULD NOT CHOLT BE A PART OF CHE OF THE 25 COL. MORRISON: THANK TOU, HE. HURPHY. MR. HACE BALRY.

THE CITY AND THE BASE HAVE THE MECHESARY MODELING AND OFFICE SPACE AVAILABLE TO MEET THE DEMANDS OF THE DIVISION AND SUFFORT INDUSTRIES, AND WE HAVE AS COTSTANDING SCHOOLSTONAL STOTEN THAT INCLUDES THE UNIVERSITY OF MEN MERICO AND THE TECHNICAL-VOCATIONAL INSTITUTE.

WE ALSO OFFER A QUALITY OF LIFE THAT IS UNMATCHED. PROM THE MAJESTIC SANDIA HOUSTAINS ON THE BAST TO THE ANCIENT PETROGRIPHS OF THE WEST, THERE IS NO HORE MANTIPUL, MORE DIVERSE, MORE WELCOMING PLACE THAN THE STATE OF MEN MEXICO, THE CITY OF ALMOUSTROID, AND KINTLAND AIR PORCE BASE.

I MALIEVE WE HAVE A GREAT, GREAT DEAL TO OFFER SPACE STETEMS DIVISION. WE LOOK FORMULE TO TOTA AMBIVAL AND A LONG AND MUTUALLY BENEFICIAL RELATIONSHIP.

SINCEPELY, STEVE SHIFT, MANSES OF COMURSES. COL. MORRISON: THANK YOU, MISS MYER. OUR MENT SPEAKER WILL SE MR. REVIN MURPHY, POLLOWED BY

MR. MORPHY: THAME YOU, COL. MORULISON, MY HARD IS

SCOTH BAY COURT REPORTERS

) NEVIN MEMPRY (240) ADA FLACE M.E., ALBOQUENQUE, MEM HEXICO 67106). I'M A SANDIA MATICHAL LABORATORIES EMPLOYEE, BUT I ME OF LOAD TO THE CITY OF ALBOOURNOUS FOR 2 YEARS, WOMENING OF ECONOMIC DEVELOPMENT. IT IS IN THAT REGAME THAT I AM SPEAKING TO TOO TOWNST.

I BAVE A LETTER PROM MATOR LOUIS SAAVEGRA. I MODELO LINE TO MEAD JUST A PORTION OF THIS LETTER.

EXPERIMENTAL PORCE BASE AND ALMOSTROSE AND BEING 10 COMSIDERSD AS A POSSIBLE SITE FOR RELOCATING PUNCTIONS OF THE AIR PORCE STACE STRYING DIVISION AND ASSOCIACE 12 COMPORATION. ALBOQUEAGUE AND THE STATE OF MEN HELICO OFFER MANY BENEFITS. THE SCIENTIFIC AND TECHNOLOGICAL STREETS WITH THE SANDIA EXPLOSAL LABORATORIES, THE AIR PORCE WEAPONE LABORATORY, AND LOS ALAMOS MATIGRAL LAB ARE UNATTALIBRED ANTHUME BLEE. THE CITY ADMINISTRATOR IS CONSCITED TO ASSISTING TOO IN ANY WAT POSSIBLE DURING ALL 17 PRASES OF THE DECESSOR PROCESS. FURTHER, WE COMMET TO 19 PACILIPATING YOUR RECORDED FOR SUFFORT AND RECOLATORY

21 (I ALSO SAVE A SIMILAR LETTER PROM

STEVER D. GALLBOOK, PRESIDENT OF THE ALBOQUEAGUE CITY COUNSEL, TEAT I WOOLD LIKE TO LEAVE WITH YOU TOWNGET. COL. MORRISON: THANK TOU. THANK TOU, MR. MORPHY.

39

SCOTE BAT COURT REPORTERS

OUR HEXT SPEAKER WILL BE MR. MACK MALEY, POLLOWED BY MR. BARL WAID. SORRY IF I MISPROMOUNCE AMPRODY'S MANE.

MR. MALEY: TRANK TOU, COL. MORRISON. MY MAME IS MACE MALEY (F. O. BOE 1899, LAS CRUCES, NEW MEXICO 88004). I'M WITH U.S. WEST COMMUNICATIONS, AND I'M MERR TOWNSHIT REPRESENTING MR. DEPSON, OUR NEW MEXICO VICE PRESIDENT AND CHIEF EXECUTIVE OFFICE, WHO HAD TO ME OUT OF TOWN TOWNSENT. I WILL LEAVE A COPT OF MY RESOURCE IN THE DROP BOX.

THE TELECOMORICATIONS NETWORK AND SERVICES AVAILABLE IN THE ALBUQUENQUE AREA, THROUGH U.S. WEST AND 11 INDEPENDENT VENDORS, ARE EXTREMELY WELL SUITED FOR CLIENTS SOCE AS THE AIR PORCE SPACE STREETS DIVISION.

THE U.S. MEST METWORK IN THE ALBUQUENCUS AREA 14 IS COMPRISED OF 18 SWITCHING CENTERS COMPRETED BY DIGITAL INTER-OFFICE PACILITIES. ALL THE SHITCHING CENTERS ARE STORED-PROGRAM, OR ELECTRONIC-SWITCHES. THE OF THE 18 ARE 17 DIGITAL SWITCHES.

ALTERRATE ROUTING IS IN PLACE FOR HOST INTER-OFFICE FACILITIES. ADDITIONAL ALTERNATIVE NOUTING COULD BE READILY PROVIDED. 17 HERDED, TO MEET THE HERDS OF

INTER-OFFICE PACILITIES LIMITED RIGHTLAND AIR FORCE BASE TO THE U.S. WEST METHORS AND FIRER OFFIC PACILITIES. ALL SPECIAL SERVICE CIRCUITS TO AND PROM KIRTLAND ARE SERVED VIA FIBER OFFICS.

SOUTH BAY COURT REPORTERS

U.S. WEST CONSESSED MAS FOUR PINER OFFICE 2 DETERFACES OF KIRTLAND AIR PORCE BASE. TEROPOR AS ACREMENT WITH THE AIR PORCE, U.S. WEST IS ALLOWED TO PLACE 4 ITS ONE PINER PACILITIES ALONG SIDE THOSE BELONGING TO THE AIR PORCE. THIS AGRESSMENT, COUPLED WITH THE SELECTING 6 INTERPACE LOCATIONS, MEANS TEAT U.S. WEST CAN EXTEND ITS METHORIC ANTHRONS ON THE BASE, RAPIDLY AND SCONOMICALLY, 10

MEN MEXICO IS ALSO BOME TO TWO PATICULA 10 LABORATORISE: EAMDIA AND LOS ALANOS. ALSO LOCATED IN THE STATE AND THE WEITE SANDS HISSILE RANGE AND THE MASA WEITS SAMOS TEST PACILITY WEAR LAS CHOCKS, BOLLOWAN AIR PORCE BASE MEAR ALAMOGORDO AND CAMMON AIR PORCE BASE MEAR CLOVES. WITH THE ELCEPTION OF CAMBON AIR PORCE BASE, ALL HAJOR GOVERNMENT IMPEALLATIONS, AS WELL AS THE STATE'S THREE RESEARCH UNIVERSITIES, HAVE DIRECT FIRST OFFIC LINES THROUGH U.S. WEST'S HEW MEXICO RETWORK. ALL OF THESE IMPTALLATIONS WILL MAVE DIRECT FIRST COMMECTIVITY, AS WELL AS FULL DIVERSITY ROUTING, IN 1992.

THE ADVANTAGES OF THIS EXTENSIVE FINER 21 RETWORK TO A RIGH-THEM, RIGH-SHOWNITT DEER ARE MANY. THE SECURITY OFFERED BY FIRER OFFICE, WHEN COMPARED WITH COPPER OR MICHONAVE RADIO, IS UNDABALLELED. THE SPEED AND RELIABILITY OF FIRER STOTERS ALLOW TRANSMISSION OF TREMEMOUS QUANTITIES OF DATA RESENTIALLY ENGOR PRES.

1 MOSIMESSES. WE HAVE A LONG RISTORY OF PROMOTING AND
HATFFALIFING PROPESSIONAL RELATIONS SETWERN THE ARROSPACE
1 INCOSTRY AND GOVERNMENT AGRICISS. PACA HAS MOMERO CLOSELY
4 WITH THE AIR FORCE SPACE TECHNOLOGY CENTER, THE MEAPON
1 LANG, SANDIA, LOS ALANOS HATIONAL LAN, AND OTHER
6 COVERNMENTAL AGRICISS.

ONE OF OUR HAJOR ACTIVITIES IS THE AMPRAL
BRIEFING FOR INDUSTRY, WHICH HE CO-SPONSOR. WE'RE THE AIR
FORCE SPACE TECHNOLOGY CENTER DIRECTOR OF CONTRACTING. THE
BRIEFING INDUSTRY ATTEMPERS FROM THROUGHOUT THE MATION
LEARN IN A PRESENTATION ST GOVERNMENT AGENCIES WHAT THEIR
CONTRACTING OPPORTUNITIES ARE. THIS FORM WOULD BE
AVAILABLE TO SPACE STETCHS DIVISION, SHOULD THEY RELOCATE
TO ALS FORCE THESE

IN ADDITION, WE HAVE STANDING CONCIPTES THAT
MEST WITH THE GOVERNMENT AMBRITIS TO DISCUSS TOPICS OF
MUTUAL INTEREST. I, AND THE OTHER OFFICERS OF PACA, WOLLD
MILCOMS THE OPPORTMENT TO DISCUSS IN HEACTING DETAIL THE
COMPOSITION OF PACA AND OUR INTERACTIONS WITH THE
GOVERNMENT AMBRICLES.

TEME TOO.

COL. MORRISON: THANK YOU, MR. VESELY. OUR MERY SPEAKER WILL BE MR. ROWARD MCCH, PULLOWED BY MR. JIM COVELL.

SOUTH BAT COURT REPORTERS

HR. HOCK: HT HAMR IS HOHOLED HOCK, H-O-C-E (2906

SHOADMAY H.S., ALBEQUERGER, HEW MEXICO 67187). I REPRESENT THE ASSOCIATED SEMBRAL CONTRACTORS. JUST A SAZEF STRUMENT, SOME OF IT INFORMATION HAS ALREADY ENCLOSED IN THE PACKET PRESENTED TO TWO FROM HIMM SOLITA. WE DID SOME ESTIMATING AND SOME RELATIVE THINGS IN TERMS OF COSTS.

I WOULD JOST BAY THAY THE CONSTRUCTION
CAPACITY IN HEW MEXICO IS OPERATING AT ABOUT 50 PERCENT OF
OUR 1983 LAVIE. IN TERMS OF CAPACITY, THER, WE HAVE THE
HAMBOURN AND THE CONSTRUCTION CAPACITY, I THIRK, NO RANGES
THE PROMERAL THAY NOULD BE SUFFAILED IN RELOCATING SED AND
ALSO ARROPPICE CONFORMATION, IF THAY RELOCATING MINE.

TOO ALSO HAVE AVAILABLE CONTRACTORS THAT AND PARTILLAR WITH EIGH SECRETT, RIGH-THER, AND LARGRASORY COMPTRECTION, AS WE OPERATE IN LOS ALARDS AND WRITE SANDS RESERVE RANGE AND SANDIA LANS, SO THAT CAPABILITY WORLD NOT BE ANTENION SHE IN THIS OF WHAT AREA TOO'D LIKE SO DOILD, I THIS WE HAVE COMPTRECTED THAT SERR. THERE ARE SOURCE CAPACITY SET HERE AND INCOME CAPACITYS WHERE AND I TRIME WE CAN EMPLIE, WITHOUT ANY IMPORT OF SELF, TO BE ARLE TO RANGE THE CAPACITY OF THE COMPTRECTION FOR PROJECT.

SOUTE BAT COURT REPORTERS

IGN. COVELL: I THIME I'M THE RIGHT PERSON (JIM COVELL, P. O. BOX 29100, ALBOQUERQUE, NEW MEXICO 87125). I AM THE EXECUTIVE VICE PRESIDENT OF ALBOQUERQUE ECONOMIC DEVELOPMENT, INCOMPORATED. I'D LIEK TO BRING TOA FEW PACTS OF THE DRAFT ENVIRONMENTAL IMPACT STATEMENT RELATING TO THE AIR PORCE SPACE SYSTEMS, AIR FORCE SYSTEMS COMMAND SYSTEMS DIVISION, AND IT'S POSSIBLE NOVE TO KINTLAND AIR

PIRST LET FOR SAY THERE ARE NO UNIQUE OR MAJOR SIGNIFICANY ISSUES THAT PRECLODE THE TRANSFER OF MELADQUARTERS AND THE RELATED ARROSPACE CORPORATION FROM LOS ANGELES TO EXCELADO. IN OTHER WORDS, MINTAND EAS SUFFICIENT ON-BASE CAPACITY TO ACCOMMODATE THE RELOCATION. THE COMMUNITY HAS THE CAPACITY AND RESOURCES TO PROVIDE THE INFRASTRUCTURE TO SUPPORT A SIGNIFICANT INCREASE IN POPULATION.

ALBOURENCE IN ITS CITIERS ARE CONCERNED ABOUT THE ENVIRONMENT, AND THOROUGH A CONCERNED FLAM IS MARAGING IT'S GROWTH IN A RESPONSIBLE MOUNTE. THE GROWTE ENVIRONMENTAL ISSUES IN THE FOLLOWING PARTICULAR STATES IN THE ENVIRONMENTAL ISSUES INDIFFICED IN THE ENVIRONMENTAL ISSUES INDIFFICED IN THE ENVIRONMENTAL ISSUES INTEGER TO THAT ENVIRONMENTAL ISSUES INTEGER TO THAT THE ENVIRONMENTAL ISSUES INTEGER TO THAT THE ENVIRONMENTAL EXPERTS INSTITUTE COUNTES OF THE ENVIRONMENTAL EXPERTS INSTITUTE OF THE ENVIRONMENTAL EXPERTS OF THE ENVIRONMENTAL EXPERTS OF THE ENVIRONMENTAL EXPERTS OF THE ENVIRONMENTAL EXPERTS OF THE ENVIRONMENTAL EXPERTS OF THE ENVIRONMENTAL EXPERTS OF THE ENVIRONMENT OF THE ENVIRONMENT OF THE ENVIRONMENT OF THE ENVIRONMENT OF THE ENVIRONMEN

SOUTH BAT COURT REPORTERS

ACTION AND REFERENCE THAT THE SED RELOCATION IS MANAGEMENT.
AND THAT EXPELSED AND ALMOGRAPHOR ARE THE LOGICAL LOCATION
FOR A MAJOR THE SPACE RELATED RESEARCE AND DEVELOPMENT
ACTIVITY.

IF ONE WERE TO ATTEMPT TO DESCRIBE THE MAJOR INCOSTY IN HEW MEXICO, ONE OF THE AMBREW WOULD HAVE BEEN TO RESEARCE AND DEVLLOWENT. A LANGE PORTION OF RAD ACTIVITY HAS BEEN OR IN RELATED TO EPACE ACTIVITIES. LOS ALANOS MATIGNAL LANGARATOR, SANDIA MATIGNAL LANGARORY, THE MINISTER TO THEW MEXICO, NEW MEXICO STATE WHYMENITY, WEITE SANDE MISSILE RANGE, KINTAND AIR FORCE BASE, AND A MOST OF RELATED PUBLIC AND PRIVATE AMERICES ARE REMARKE OF THE RAD BASE MERE IN MRN MEXICO.

AS TOO ARE WELL AMARE, THE SPACE TECHNOLOGY CENTER AND THE WEADORS LABORATORY, WHICE ARE MAJOR SURGROUNDS UNITS OF SED, AND ALREADY LOCATED AY KIRPLAND. THE COMMODITATION OF THE AIR FORCE SPACE RESEARCH AND DEVELOPMENT, COMMINSO WITH THE COOPERATION AND COORDINATION OF OTHER EDUCATIONAL AND AND PACILITIES IN NEW MEXICO, WOOLD PROVIDE A STRENGT THAT WOULD ME RESERVICIAL TO ALL LINVOLVED AND PREMITE SIGNIFICANT DEVELOPMENT OF THE AIR FORCE SPACE PROBABLE.

WHILE LOS AMBRIES CLAIMS A SPECIAL
RELATIONSHIP WITH THE AMBORDACE IMMOSTRY, I BRLIEVE THAT
IT IS NOT SO UNIQUE THAT IS DOES HALF SLASHMERS.

SOUTH BAY COURT REPORTERS

COL. HERRISON: TEAMS TOO MR. COVELL.

IS THERE AFFORE BLEE WHO WOULD LIKE TO SPEAK 2 THIS EVENING DEFORE WE CLOSE THE RECORD THIS EVENING? MR. MATHIAS: MT MANE IS STERLING MATRIAS (10909 AFACHE H.S., ALBUQUERQUE, NEW MEXICO 87112). I SUBMITTED A

CARD, BUT DIDN'T SIGN I WANTED TO SPEAK. I HAVE, I GURSS, A PEW QUESTIONS ABOUT SOME OF THE ENVIRONME BYTAL ISSUES, SINCE THAT'S OUR PURPOSE MERE THIS EVENTING. I GUESS WHAT I WORLD LIKE TO MEAR IS A SHORT MART, PERSONS FROM MAJOR VROMAN, OF THE SIGNIFICANT

ENVIRONMENTAL INFACTS OF THE PROPOSAL BEING HOVED TO THE ALTERNATIVE SITES. I THINK THAT'S GOING TO BE PERMAPS THE PATAL FLAM OR FLAME THAT WE HAT BE LOOKING AT OR HAT BE EVALUATED BY THE AIR POACE WHEN THEY LOOK AT THE ENVIRONMENTAL IMPACTS, SO COULD YOU SUMMALIE FOR US THE SIGNIFICANT ENVIRONMENTAL IMPACTS OF THE PROPOSED ACTION

COL. HUMBISCH: WELL, WEAT WE DO IS WE HAVE THESE MEARINGS IN EACH LOCATION AND WE MAVE THE PROPER GIVE US SOME PUBLIC IMPUT ON WHAT THEY PEEL THE ENVIRONMENTAL DIFFACTS ARE. BUT AS TO WEAT THE IMPACTS ARE IN THESE OTHER VARLOUS COMMUNITIES, IT REALLY MON'T ADD ANTIHING TO THE RECORD TO REMAIN THOSE.

WE'VE BEEN TO ALL OF THREE OTHER LOCATIONS AND WE MAYE SET FORTH MEAT WE BELIEVE THE SHYEROMOGNETAL IMPACTS ARE IN THOSE VARIOUS CONSERVITIES, AND THOSE PROPLE,

SOUTH BAY COURT REPORTERS

MICARIE OF THEIR ENGLISHED OF THE COMMUNITY, THINGS WITHIN 2 THE COMMUNITY, MAVE GIVEN US PERDOACH, BUT IT REALLY WON'T SOVINGESTAL INDACTS SERE WITH THE INDACTS AT OTHER BASES. I THINK WE WILL JUST PASS ON THAT OWNSTION. 6

MAJOR VROMONI: AND IF I COMED ADD, COL. MONRISON, THERE'S A SPHINARY IN THE PAMPILLY TIME WAS MADED OUT THAT BASICALLY SUSPANIES THE SEVEROMENTAL DEPARTS AT THE OTHER LOCATIONS, AND I TRIDE TOR MAVE IN FRONT OF TOO, PERSONS, A 10 DRAFT BEVIRONGEFUL IMPACT STRUMENT, WEICH ALSO GIVES A 11 SUMMARY OF THE OTHER BASES, AS WELL.

IM. MATELAS: THANK TOO.

APPENDIX F.2 - WRITTEN COMMENTS

Written comments submitted to the Air Force Regional Civil Engineer at Norton Air Force Base or at the public hearings on the Draft Environmental Impact Statement (DEIS) are provided on the following pages. Each document has been assigned a document number, approximately in the order they were received. Table F-2 provides a listing of all the documents received, identifying the author's name, city, state, affiliation (if appropriate), and corresponding document number. The list of respondents submitting written comments is organized by the location/base in which the comments were submitted in reference to or the respective public hearing at which the comments were submitted. Each issue identified in the written comments has been assigned an issue code as described and indicated by the issue code number in the margin of comment page. Responses to these comments are provided in Appendix F.3.

Some of the written comments that were received by mail and at the public hearings included attachments providing information about the support communities, but not specific comments on the DEIS. These attachments are included as part of the official record, but are not presented in their entirety in this chapter. The complete documents have been reviewed as part of the public comment management process and relevant information has been included in the Final Environmental Impact Statement where appropriate.

DOCUMENT 2

1537 Addison Read Pales Verdes Estates, CA 90274 August 27, 1990

Hy husband is a long-time Apressace Corporation employee currently travelling on company business. I wish to comment briefly on three points in the droft EIR.

Armanace and Space Division coupless. Frequent air service to major destinations is important. I have studied the Airline Guide and Found the following numbers: To Mashington from Los Angelos there are twelve non-stop and six one-step flights delig; from Albuquerque one one-step flight; from Colorado Springs three one-step flights. In San Jose/Sunnyvale from Los Angelos there are the statement of the flights of the statement of 6.1

(t's clear transportation difficulties are greater from either of latter locations as compared to Les Angeles. Travel imefficiences unstate into additional costs and loss of time on the job.

2. The assumption that 80% of personnel will move to New Maxics or Colorade. Some years age a survey of Aerospace Corporation employees revealed maily 50% willing to leave the los Ampeles area. A more recent concrete example is the move of IBM from Westlake (in the greater LA area) to Bevider, Colorado. When the dust had settled, only 25% had moved to Soulder und ramained there. 15.1 l

 Quality of life. Aerospace and Space Division people chere to come to this area. In our case we leve the back as well as nearly memorant for bling and string. Opportunities for higher education and cultural activities available here can find no equal in the smaller cities. 15.2

In sum, "It ain't broke" so let's not fix it. Let's build more military housing near Π Segundo. Above all, let's not break up the experienced Air Ferce-Aerosbace Leam that has unvited together for thirty year.

Sincerely yours. Jean M. Paulikes

SOUTH BAY ASSOCIATION OF CHAMBERS OF COMMERCE

August 15, 1990

The South Say Association of Chambers of Commerce at their July speting voted unanimously to support retaining the U. S. Air Force Sase, Space Systems Olvision at LAX.

HARSON CITY
MASTHORMS
If the closure or movement of the base were in the national interest
we sight better be able to consider its moving. But because it is
derious that the movement of this base, whose primary also in in "lives
the Aerospace Corporation and the numerous companies in the LLX reg in,
this would be an extremely expensive perconsistion not only in the moving
of the nighty technical alements of the base, but in dublicating the
infrestructure necessary to support the base and our also in a space.

The South Bay Association of Chambers of Commerce represent the communities and businesses throughout the region local so the base. The importance of the infrastructure built up within our communities over the past naif century cannot be duplicated elsewhere. The water, sanitation, advocational, transportation, communications and business infrastructure is in place and allows for the acrossacs companies to find a qualified abor force, with adequate higher educational facilities that has all the other important support industries available to support this most important tission.

RECOMOG If this assion is to go on, and we believe it should, then it's not only in the nations' economic cest interest to need the base at LAX, it is no unversil national best interest, because all the elements reduired to sustain such a highly technical state of the art mission needs the resources readily available in the LAX serospace condies. The depth of these resources are not readily available in other areas. SAN PEDRO WESTCHESTER LAX AIRPORT

The cost of moving the base from LAX would far outweigh the savings that may inure by a move to a region without the full capabilities, wailable at LAX. The opening communications and transportation costs that would be required after the move would outweigh the cost/benefit analysis.

The members of the SBACC Champers heartily recommend that the U.S. Air Force Base at LAX remain at LAX.

Sincerely, and code Ernie O'Dell President /ND

SUBJECT: CLOSURE OF LOS ANGELES AIR FORCE BASE

The draft finvironmental Impact Statement is inadequate and incomplete because it fails to completely address the petantial for adverse environmental and sociaeconomic impacts specifically to the fouth Bey dities.

The draft environmental impact statement discusses the potential impacts of the closure of LAAF\$ to Los Angeles County; however, the report does not break down the losses of revenue and employment on city by city basis. These impacts must be addressed in order to fully understand the effects that the closure would have on the South Bay.

fortrance not only receives revenues generated because of the presence of the LAATS, we also are boot to many employers who either directly er indirectly contract with LAATS or its suppliers. The closure of this base will trieger significant economic fallout by the closure and relocation of these venders. The City of Torrance already has indications that certain industries will relocate due to the closure of LAATS. The closing of these industries will cause recycling of land use which can have a potentially negative impact on Torrance. The dreft EIS does not address the impact to communities due to the recycling of these land uses.

The draft EIS fails to address the severse impects on the closure of the Base with report to the commitments used to make transit in the area. Torrance has extended the Line 8 bus routs to provide make transit to the area of LAAFS. In addition, the cities of the South Bay have joined together to develop the MAX (Manicipal Area Express) to bring employees of the South Bay cities to the EI Sequed erea. 6.3

The dreft EIS fails to fully address the impact to the area housing market. The statement discusses the patential to increase the housing vacancy rate. however the statement does not complately discuss the devastating effect the closure of LAAFS would have to an already distreased housing market.

City of Torrance Comments Re: Closure of Los Angeles Air Force Base Page 2

The draft EIS discusses the LAAFB as being in a caretaker status until a new use is decided upon. The draft EIS does not address the different type of land use. This issue the addressed to fully understand what the closure would mean for the area with repard to traffic, pollution as well as economic concerns.

In closing, the City of Torrance urges the draft EIS be re-defined to explore the aforementioned issues on a focused area such as the South Bay cities in order to achieve a more comprehensive view of the impacts associated with the closure of the LAFE.

Rom Cano, City Manager El Segundo City Hail 350 Nain Street El Segundo, Ca. 90245

RECEIVED Aug die 1998 CITY CONCERS OFFICE

Sear Ros:

I am writing to let you know of my strong reposition to the proposed relocation of the Seace Systems Division (\$50) or tos Angeles Air Force Base are to unlist your support in this very important matter.

In an effort to reduce expenditures, the Pentagon is investigating the Clusure of a number of military installations both here and abroad. Lee Angeles Air Force Base, which is the home of the Space Systems Division. Is one of the bases currencly being studied for pressible closure.

While force reductions may inevicably result in the closure of been, the Space Systems Division is not maint reduced, but the state of the state of the state of the state of the military activities. For from percenting defense savings, relocating SSD may cost the tampayer over a billion deliars in relocating casts.

Even more angulificant from the regional perspective, the lows of 530 could have a devestating effect on the economy of Southern Silfornia. Perpos the immediate job just from the classifer of the base and the questi-governmental arrayance Corporation with which it is associated any other contractors and subscanning the which it is associated to many other contractors and subscanning the state of the subscanning that their relationship. This would be dissatrous for our local economy.

Attachment to Document 4

California Congressional delegacios, both Democrat and Republican, and all the Members from Los Angeles County, signed this lecter. I urge you to join us in expressing your concern to the Air Force about this matter.

Namy of our area Chambers of Commerce and City Councils have already adopted corolletions in opposition to the proposed new I strongly urge yes to do the same, and to work to coordinate efforts as such as possible.

Only through a determined and coordinated affact by all lovels of government and industry can be successfully defend the Los Angeles Aft Porce Bare. Floars do not healtate to be in touch with no ar with Elay Bermeje or Blaise Antin of my district office staff should you have any questions or farther thoughts about this matter.

weust 2, 1990

We are writing to express our esposition to the unboose relocation of the Souce Systems Division (SSD) at Los Angeles Air Force Base.

We strongly believe that cost reductions must remain a primary conterm as the United States restructures its Parces to adept to the changing unlitary threat. While we recognize into base closures and realizaments are necessary to this amounts, it is abserved that the oreased closure of Les Angeles Affi usel on or result in only not surrings to the U.S. taxasper, as needly all the functions currently performed at the base would be regetablished alsomers.

Initial cost estimates for maring SSD and the private, rem-profit Apressed Corporation which is essential to the expections of SSD, run well away one stilling collections. It is difficult to envision how the engines of Ficcency gained by consolidating space factions and maring SSD elsewhere would offer the enginestation of in relicating SSD.

Furthermore, we are concerned that the ultimate costs to both the occuminy and the Air Force will be far higher than predicted. Les Angeles Air Force Sess is located in the heart of the nation's apensage invokative, The collection of \$30 and promore private apensages talent is of ourmous matural benefit to emblic and entwest apensages continues. If \$30 were moved alsoners, this dynamic interaction between defense and private correspond situations, the located section of the section of the located sec

Finally, we would like to embhasse that the ecoromy of sections California is already shouldwing more than its share of cofenie catalacts, dhile huge layelfs consumed by Locknee and Nachomal Deeplas will insertably have a rigid of fect throughout the sace industry in the area, this peak or rigid of fect throughout the sace industry in the area, this peak of the between the present peak of the peak o

Frankly, the language of the Resolution should have been smended to more clearly reflect this intent, (and I senure you, vould have been so sended in the Senate Rules Committee where I sit as one of 5 members) if it were not for the representations of the author, sade in good faith, as to the need for immediate action.

I wholeheartedly support your efforts to retain th Space Systems Division at its present location at the Angeles Air Force Base. Senator Diane Matson, whose district adjoins this facility, also supports this position.

The Residential Real Estate Import of the Closure of the Los Angeles Air Force Base on the Greater South Bay Regions

The Greater South Bay Regic.; (GSBt) Roltiple Listing Service includes seven real estate boards: Gardena. Hawthorne-Lawndais. Inglewood, aloe Verdees San Peop.-villeington, South Bay, and Tortsnos-Lomits-Carson. The cities of El Segundo, Hermons Beach, Pannattan Seach, and Redondo Seach are in the South Bay Board. All of the cities in the seven board area are within 16 miles of LAA78. Since a majority of the base employes live within this area, this report can addr is directly the Lapact on these communities.

How has the local real estate market been lately? Figures from the Regional Rultible List of Gervice show a major decline in sales in new and previous! Led homes, towhomes, and condominiums in the last 15-26 uniths. Nore properties are being listed for sale, and a similicantly sealer mamber of these are selling. Latest figures show that the average length of time to sell a house is increasing now also.

Calendar Year	Homes for Jale	Avg. harket Time (Days)	Homes Sold- rending Sale
1989 1989 Jan-Jun 1989	7,304 13,361 5,929	89 84 95	5,838 (83.35/) 5,526 (42.30m)
Jan-Jun 1990	6.588	เมร	3.038 (51.233)

There are 3.185 civilian and military employees at LLAZB (Ascembace Gorporation civilians—4.075, Bass civilians—2.209, military—1.761). Of the salitary—personval, Suive in the 13 cities which are included in the CSSM (Carron, E. Segundo Jardes Hearthorne, Hermons Beach, Ingle-wood, Lawndale Lat, Rambactan Beach, valus Verdes, Redando Beach, Jan eder ... On the latest of the salitary within this area. The residence of the base civilian employees were not available, but the saws 595 is reasonable to estimate for this report.

Summary.

Total Hilitary

Total Associations - 1.7 × 2.86/ living in the GSBM = 1.560

Total Associations - 2.0 × 1.59/ living in the GSBM = 2.401

Total Base Civilians - 2.3 × 1.59/ living in the GSBM = 1.362

3/29/90

DOCUMENT 6

In reporting the housing «tatus and location of personnel area, the base interim report lists 341 private homes owned military personnel and 3.447 owned by all civilian personnel. applying the GaR percentages shown in the summary, the following mber of homes are owned in these communities:

341 4 842 = 286 3,447 4 59: • 2,034

Total homes 2,220

By adding the 574 homes at fort EacArthur to the above total. 2.794 homes would be effected in the GSDE if the base were closed (Mote: by stending the 16 mile distance out to 20-30 miles as shown in the interior report, the necentages go up from 894 to 700 for millitary and from 594 t. 895 for civilian.)

In reviewing the number of momes for sale in 1989, 13,061 were listed, representing an increase of 5th from the pravious year. The January 1990 figures are up 10 from the January 1990 total. Momes sold and pending make in 1989 dropped 49% from 1980, and the [trat six months' sales of 1990 snow a 15% drop from the first half of 1989, Also, the average time to sell a home has longthered from approximately three months to meanly four months.

The closure of LiAFA would ceriously effect the Greater South Say Region real estate market. If all 2.794 homes within this area were listed for sale. It would represent a 20: increase over the 1989 total, and 1939 was a year in which home sales dropped nearly 50- from the revolucy year. Any significant increase of homes listed for sale will have a childing impact on an already cool residential real sectate narrest.

1.3

I recognise that you have attempted to limit the scope of this OEIS to impacts on the physical and satural

environment. However as you describe the related studies in Section 1.2.3. I do not see any mention of the impact on the mission as it have outlined. In addition. I note you predict only 13% retention of "direct and secondary civilian employees," surely you must analyze what this means in any fully prepared impact study.

Thank you for your attention.

ally Ly

21 August 1990

lt. Col. Top Sertol: Director, Programs dEnvironmental Division ATNCE-MS/DEP Yorton AFB, Co. 92109-6448

Dear Strt

I was assigned to Vendenberg AFB during the original build up in 1962, At that time, up facily was forced to live with my parents in the Las Ammil area for one six months with see wasted for our knees to be builds. If you nove the James Division to Vandenberg, the housing problems will be owns we for your people.

Oily 195 of your seesle would be accommissed on the Beer SIS would be required to find housing in the anighboring conventities. Lempo, the sizeset sity, ann will accommiss 105 of the new growth became of its "tight development pattern," so 805 of the new development to support the released personnel pattern," so 805 of the new development to support the released personnel possible to the Santa Hariz area. For City of Santa Hariz has very little land left within the sity limits to develop. True, they are trying to increase their spaces of influence or they seen scene area land, but LAFCO is not expect to accorde analysis of large an examention as the city desired. This seems the majority of the examentom would take place in the Greatt area which like below. The seeker and Santa. Nuria. Overtile is unincorporated and cines under County jour solicities.

Let be explain the reality of this. The local citizency in Sente Berberg County grew eight of the messive building and resulting impast on their quality of 111c and there out the previous pro-crowth Board of Separticers. And rightly so, with our large water ownering and our saburated reads. The last two large wond-divisions proposed in the Great eras were denied unminimently. Petitions from Oreutt residents requesting denial were precented to the Flamming Commission than the first case and 301 in the last. This is princial of the opposition you can expect to eventue new housing for your people.

15.7 suggest you seriously consider other locations where you would be sore

We have reviewed the subject document regarding the proposed project.

The soils and shellow ground water beneath industrial areas are frequently contaminated as a results of the land use. Now that this Air Porce Base is closing it would be the idea; time to conduct expleratory drilling of these properties and sample the underlying soil and shellow ground water. The soil and water should be analyzed for Volatile Organic Chemicals, BeneyMeutrals and Acid Extractables, Trace Metals, and other heardfour materials used on those properties. We would like input into this investigation as it mewes along and a copy of the final report tou may discuss this with James E. Boss. (211) 264-7415, of this Bosert.

Thank you for this opportunity to review your document. If you have any questions regarding the environmental document, please contact Engineer Examinates at (213) 264-7553.

RE: CLOSURE OF LOS ANGELES AIR FORCE BASE, CALIFORNIA AND RELOCATION OF MEADQUARTERS (NO) SPACE SYSTEMS DIVISION (SSD) AND APPROPRIATE SUPPORTING UNITS

The City of Santa Maria is very interested in supporting the partial relocation of Meadquarters (MQ) Space Systems Division (SSD) and appropriate supporting units to Vandenberg Air Force Base (VAFB), California. We feel that the City of Santa Maria can play a part in supporting the potential housing and urban service desand created by the relocation of the personnel and supporting industries to Vandenberg Air Force Base as a result of the closure of the Los Angeles Air Force Base.

The City's present population is 35,223, with 20,081 dwelling units. The vacancy rate for all types of residential units units. The vacancy rate for all types of residential units sees 1,973 as 2,267 1,1990. The City has been specified units within the presence of the control of AMA residential units within the proprate listing, and we have been averaging about 550 residential units constructed per year over the past 10 years. At present we have 2,815 residential units in various stages of construction, pending issuance of peratics or disrretionary review and approval. (See attached Najor Residential Development Listing dated July 9, 1990.)

The City's Mastewater Treatment Flant (WMTF) has an existing capacity of 7.8 million gallons per day (mgd). The present average daily flow is at 6.5 mgd. City Council fust suthorized engineering design for expansion to 10.5 mgd, and construction is scheduled to begin in 1992.

The unincorporated Orcutt area, contiguous to the southern boundary of the city, has a population of approximately

DOCUMENT 21

15.10

15.3

Lt. Col. Tom Bartol August 22, 1990 Page 2

30,000 people, with land zoned for residential uses that would accommodate an additional 1,900 residential units.

The City and the Local Agency Formation Commission are presently conducting a Sphere of Influence Boundary and Concurrent Anneaston Study with the potential of adding 3,448 acres to the City's Sphere of Influence and concurrently anneast control of the City's Sphere of Influence and concurrently anneast control of the Influence and concurrently anneast control of the Influence and concurrently and anneast control of the Influence and uses and would permit 7,000 additional residential units. On an interest control of the Sphere Boundary and Anneast Commission respecting approved of the Sphere Boundary and Anneast Commission respecting approved of the Sphere Boundary and Anneast Commission respecting sorrowed of the Sphere Boundary and Anneast Commission respecting sorrowed of the Sphere Boundary and Anneast Commission Commiss

The City of Santa Maria is naturally concerned about a sudden increase in population over a short period of time. However, we feel that we can support oursetural growth and portion of the growth due to the proposed relocation. In addition, other northern Santa Barbara County areas would support a portion of the growth.

As in most minming issues, if the proposal is reasonable, it will be accommodated. Sased on the above, the City of Santa Maria can narrially meet the demends due to the proposed Air Force relocation. As to the exact numbers, further analysis would be mecassary. It would seem on the surface that he bear and most reasonable solution would be to spread the relocation over several areas to allow the impacts of the move to be equally dispersed.

The City of Santa Maria is eager to work with appropriate Air Force officials pursuant to this matter.

Sincerely.

Hance Sole a

Lt. Col. Tem Bartol AFRCE - BMS/DEF Horton AFB, CA 92409-4448

Subject: Relocation of MQ Fpace Systems Division (MQ SSS) to March AFS: Environmental Impact Statement (EIS)

Dear Lt. Col. Bertol:

This is in response to the Notice of Intent to propare as EIS for the relocation of NO Space Systems Division. The Planning Department effors the following comments for consideration in the EIS:

- The Southern California region is known for its growing mobility problems. Relocation of MQ SSC free the job-rich Los Angeles ares to the housing-rich vicinity around March ATS will reduce traffic congestion in the region. More people could live close to where they work and peak-hour communical patterns would allow more efficient use of the emisting transportation netural. This is a goal of the Regional Mobility Plan adopted by the Southern California Accordation of Governments.
- The automobile is a sajor cause of the air pollution probles in Sauthern California. Beleatien of US SEC to Anch AFB will decrease overall commuting time and thus reduce the automobile's contribution to pollution. This would be consistent with the Air Quality Management Plan acopted by the Southern California Association of Governments.
- The relocation of NG SSD will affect the social well-being of current amployees and their femilies. Some will be unable to relocate and will be out of a job. Spouses who must relocate may become unemployed or undersemployed. Hany of the affected families have personal ties to the March AFF region, including close friends, parents, children and other loved ones. The farther the relocation, the greater the social disruption. Belocation of NG SSD to March AFS can be empected to create a relatively job laws of saperts in scene of social disruption.

Attachment to Document 23

DOCUMENT 24

Sertol letter Page 3

In summary, relocation of MQ SSC at March AFB would (a) contribute to improvement of the region's jebs/housing balance, (b) reduce regional compettem and improve mebility, (c) improve air quality, and (d) minimize secial disruption resulting from relocation of the facility. As such, we support relocation to March AFB is the environmentally preferred alternative and should be identified as such in the BIS.

The Planning Department approxiates this opportunity to demant on the project. If you have questions, places call 714 242-3200.

Sincorely,

Jeffrey Specter

On behalf of the Macienda Hotel's officers, staff and employees, I am writing this letter to express our deep concern over the potential closure of the Los Angeles Air Parca Base in El

For many years, directly and indirectly, the Los Angeles Air Force Rese has been a substantial source of business for the Hotel. Its closurs would be devastating to the Hotel and the local economy in general.

It's uncertain how the closure would affect the major aerospace companies in our immediate area, but I would venture to say that it would be in a dramatically negative way, which in turn would affect our hotel even mare.

Some of our two hundred and fifty plus employees would most likely face layoffs, contributing to the already high unemployment in the area and its downward economic condition.

I understand that one of the primary concerns the Air Force has is the lack of available low income housing in the area. Awars of this situation, we at the Hacisand do our part by discounting the rates of our six hundred and forty rooms to all military and government personnel to levels well below the military downwent per diem. Presently, these rates are single occupant 3557 double occupant 3557 double occupants.

continued....

 $\frac{p(x,y)}{\text{Teamore of the Softens}} = e^{-x} X - \frac{p(x,y)}{1 - \exp(x^2 + y^2)$

Lt. Colonel Bartol, we are truly concurned short the peractial closure of the L.A. Base and we trust that the thoughts empressed in this letter in some way will positively affect the hir force's decision and heap the Base in El Seguado.

the Lompoc Upland Basin/Lompoc Plain Basin. You cits (p.
1,1-20) 1900 acree-feet par year. The most recent figure (for
1988-89) is 8740 acre-feet par year. according to the 'lith
Annual Engineering Servey and Repart on Meter Supply Conditions
of the Sents Year River Water Conservation District 1988-90."
dated June 1. 1990. The report is available from Scatson
Engineers Inc., 1104 Seat Garvey Avenue, Mest Covins, Co.
List -- I uree you to procure a copy and use its figures in
your ETS. It is likely that the overdraft will worten in
1989-70 and coming years urban Lompoc is rapidly developing
and we are still in a protracted drought.

Second, you suggest (p. 4.3-19) that Phase II of the Coastal Aqueduct will estigate direct and indirect impacts of the proposed action and alternatives. Unless you can predict the political will of the voters, you should not make such an assertion. The Coastal Aqueduct will not come into the region wriess bonds for its construction are approved in local elections. There is now such sentiment against population growth that the Coastal Aqueduct will undoubtedly bring.

Finelly, I urge you to heed what Santa Barbara County authorities tell you. If they say the region will be unacceptably damaged by the project, then they are probably right. They are our local experts. Further, they are our elected representatives and reflect the views of the majority

San Pedro Peninsula

Lt. Col. Tom Bartol Director of Programs and Environmental Diviron ASRCE-BMS/DEP Horton AFB. CA 92409-8448

On behelf of the Sen Pedro Peninsuls Chember of Commerce. I am uriting to present our review of your study, Lecal Economic Commences of Closing Los Angeles AFS.

It is our belief that this document is seriously flawed. This is most likely the result of the generic modeling program used, which we do not believe can be applied (as stated on page 2-1) to Los Angeles the same as it can to other areas of the country.

According to L.A. County statistics (which measure a S0-mile circle as compared to this study's 50 miles). Los Angeles prosesses the 12th greatest gross product is the world if it were considered a nation. Using the same model for a matropolitam area of this magnitude as for isolated rural areas deem out make sense. Thus, it is easy to see how the study concluded that a base closure would have as insignificant impact of only 0.2 percent on the Economic impact Megion. A much more accurate that is a self-state
Even the portion of the study that addresses the neighboring communities seriously underestimates the impact of base closure on the South Bay. Ferhaps the greatest potential question is how the closure would affect our serespace industry. A move from this area would likely result in the eventual relocation of this important industry from the South Bay. A recent associational that Mughes is availabiling whether to relocate its i.200-maniprose formance electron dynamics division to Colorado or New Musico bears this out.

Whereas aerospace may not be the 'lynchein of the Los Amesias area economy' (page 1-8). It is the lynchein of the South Bay To date this page. Loss aerospace firms have announced exthemin of more than 17.000 employees. This is substantially greater than the 10.000 employee loss forecast by the study (page 1-8).

P.O. Box 167 - 180 West Pin Sweet Son Factor Continues 60733 - (217) 633-7779

DOCUMENT 30

McDonnell Douglas has snaounced 9.000 of these layoffs, a sharp contrast from the study's prediction (page 1-6) that the company would be adding employees.

the have also witnessed a sharp downturn in the South Bay real estate market. The loss of jobs end uncertainty in the serospece industry have aggravated the situation. The statement on page J-2 that 'the median time a home spends on the market has decreesed' is incorrect. Realtors in San Pedro tell us homes that were selling a year ago in two weeks now are taking up to 120 days to move, and the trend is similar throughout the South Say.

Likewise, the assertion on page 3-3 that the South Bay fared reasonably well on the absorption of office space is also incorrect. The South Bay is one of the softest office aprice is also incorrect. The South Bay is one of the softest office aprice in the entire los Angeles region. The amount of office space leased in the South Bay declined 53.2 percent in the first his meeths of 1990. compared to a year ago. In the second quarter, we have had negative absorption, with 113.800 more sq. ft. going on the block than was leased. Currently the South Bay. This does not even reflect the 338.000 sq. ft. of sublease space that has gone on the market due to the aerospace slump. Clearly, the four million aq. ft. of office space (page 3-4) projected to be weated if the base closes would substantially impact our office market.

The statement on page 3-5 that the closure would have little impact on our schools does not take into account how San Fedro would be affected. The Air Force femilies' children have been a very positive asset to our local schools. When we would be affected that the state of the

Another option addressed on page 4-4 is the possibility of selling the 374 Air Force housing units in San Pedro as a means to obtain revenue to offset the cost of the base closure. Aside from the questions that would be raised about the future of historically designated portions of the fort, this possibility ignores the claim the Nayy would have on the housing for their own meeds. Since the Defense Department apparently is considering this base closure because of a shortage of housing in this region for military personnel, it would seem strange to entertain the notion of selling the housing it already owns.

Finally, there is no discussion in the report of the cost of relocating the base. Congressmen Hel Levine has noted conservative estimates placing the cost at over \$1\$ billion. The aerospace facilities sloke are estimated to cast \$400-million terplace. Feasibility studies of closure have been conducted in the past. The result has always been a determination that the base closure would not be cost affective.

It is our belief the tramendous cost of relocation and the disruption of the South Bay economy do not warrant this move. We urge the Defense Department to reconsider the proposal to close Los Angeles Air Force Base.

PIROFEALL.

Lt. Colonel Tom Bartol Director, Programs, and Environmental Division AFRCE-SMMS/DEP Norton AFP, CA 92409-6448

Re: Proposed Closure of Los Angeles Air Force Base and relocation of the Space Systems Division and Supporting Units to

Dear Lt. Colonel Bartol:

The City has served and supported Vandenberg since its establishment over 10 years ago and we are prepared to essist in supporting seditional housing and service needs which will be created by the relocation of personnel and supporting industries to Vandenberg Air Ferco Base.

to Vandenberg Air Ferce Base.

The City's present population is 13,844 with an additional 20,000 In the surrounding County unincorperated area. The number of the surrounding County unincorperated area. The number of an additional 6,851 in the County unincorperated area for a Lospoo an additional 6,851 in the County unincorperated area for a Lospoo valley texts of 15,754. Additional dwelling units under construction, in planning, plus vacant land capacity in the City totals 1,756 within the residentially some Lospoo Valley.

1,300 units or a total of 1,959 residential dwelling units within the Lospoo area. Utility services provided by the City include electric with a current peak demand of 21 RM (sequents) and an installed system capacity of 50 RM. The City worm and operates a modern westewater Treatment Plant which also serves VAFS. The acceptable to 10 MED. The average delity flow is currently 1.3 MED. An increase of 10 percent would still leave a 0.7 MED reserve unthough an expendence in spreyided by twice per week sutemated pictury and a recycling pregram. The City to 10 year capacity. Mater service is previded through a Mater Treatment Plant with a system capacity of 6 MED. Current average delity flow is 4.5 MED. Current average delity flow is 4.5 MED. August and designed to handle a peak flow of 14 MED. Current average delity flow is 4.5 MED. A ment for A summemental water servely.

The City does have a need for a supplemental water supply. Alternative sources are presently being considered and a decision is expected to be made ment year.

CITY HALL 160 CIVIE CENTER PLAZA P.O. 808 8881, LOHROC, CA 88439-8881 (888) 735-1361, FAE, (888) 735-9347 Lt. Colonel Tom Bertol August 28, 1990 Page Two

The City and surrounding Central Coast area provides an outstanding living environment for personnel and employees who would reside here. se well as excellent recreation areas.

We believe that an analysis of existing and planned housing areas, services and facilities available and a quality living environment supports the selection of Vandenberg Air Force Base as the number one alternative site for the relocation of Needquarters Space Systems Division and supporting units.

The City of Lompor has maintained a long term commitment of supporting the United States Air Perce sission at Vandemberr Air Force Base and we look forward to working with Air Force officials in accomplishing the proposed relocation.

Sincerely,

Gene L. Wahlers City Administrato

Re: Proposed Closurs of Los Angeles Air Force Base and relocation of the Space Systems Division and Supporting Units to Vandenberg Air Force Base

Dear Lt. Colonel Sartol:

At the time that the space shuttle program at Vandenberg was suspended following the Challenger accident, I personally along with the Mayor and City Administrator and other community leadars went to Washington DC to obtain support from the Department of Defense and Congressional Representatives for locating the Fifth Orbiter Construction Program at Vandenberg AFB. Although not successful in this effort, it was indicated that other program were suspected to be considered in the future for Vandenberg AFB. With the less of ower 5,000 jobe at Vandenberg the economic impact upon the City of Lospoc has been greater than anticipated. We think that the future is now and that it is timely and appropriate to consider locatin. 3 dictional programs and personnel at Vandenberg AFB.

The City of Lompoc has for many years supported Air Force programs by providing adequate housing, utilities and services to meet the needs of an ever changing silitary program and mission at Vandenberg. We have an outstanding relationship with Vandenberg ATB and we are proud of the heritage that Vandenberg shares with our community.

Me believe that Lospoc and surrounding communities have the capability to provide necessary housing and other services and we use your ravorable consideration and support of a decision to select Vandenberg Air Force Base as the site for the proposed program relocations.

Sincerely,

o. O. Surth, Councilmenter City of Lompoc

DOCUMENT 36	DOCUMENT 37
August 29, 1990 LT. COL. TOM SARTOL Director of Programs and Environmental, AFREL-BMS/DEP Norton Air Force Bass California, 32409-6449 Dear Sear: I attended the public meeting in Lomboc last night in regard to the relocation of SDD to Wandenberg AFB. It seemed very apparent by listening to the public testimony that our community is in favor of the relocation. I would like to address the issue as a developer in the focal area. I am over that the wellability of housing is an important consideration in your decision. I would like to outline some of the projects we are currently involved in. In the City of Lompoc, we have 2 projects. We are in the construc- tion phase of 37 homes, known as foothill status on these new 2 and we have just completed the offsite improvements on Lompoc Willas, which will consist of 178 units. If we decide to build the homes, we believe that our starting prices will be \$82,000. You are probably were that the City of Santa Maria is currently considering one of the largest annexations in the State of Celifornia. We are currently in control of 120 acres in Area 7, which is being considering for annexation. We have very favorable political support. We envision a build out within 5-10 years consisting of approximately i,300 homes. In return for immediate annexation, we are offering that we will market these momes to local residents. We are planning on seiling these homes for \$100,000,00 based on todays costs. These would provide a great apportunity for your people to purchase affordable housing. As you are aware, the Lompoc and Santa Maria Valley is a very desirable area in which to live. I believe with oroper planning and taking the required mitigating measures in regard to the environmental concerns that our community and SSD can be an important asset to each other. Sincerely. CO 15.10 It is our opinion that the least impact on the local communities, the employees of \$50 and \$800, the Industries that have grown up to desport these organization, and Southern California is to locate \$50 at March hir Force Base and loave \$800 where it is! We have reviewed the Draft Environmental Impact Study regarding the possible relocation of the Bellistic Riseile Organization to be lecated in conjunction with the relocation of the Space Systems Division. the same tends We represent a Comition of 12 Chambers of Commerce that quencially marround Morton Air Force Base and the Ballistic Hissile Organization. It is our opinion that the draft is earlously flaved! To have taken a 50 mile radius for the impact of the Ballistic Hissile Organization decent's make earnes! If you take a quick survey of those currently employed at BMD, you'll find that the greatest majority of the people live within a 15 mile radius. There is a major boundary difference between San Barmardine County and parts of Orange and therefore also the results are partially included in the Study and therefore also the results. . The heard ---President 4.12 We believe that a much smeller radius, such as 15 miles, for the 800 impact should be used. It is our considered opinion that over 85% of the closure impact would be felt within the Communities served by our organization! This is not the case with the Space Systems Division! We have conducted a survey of existing employees and find that almost 50% of the current work force lives East of the 605 Freeway because of the much lower howsing coets. Those people would have a much shorter compute to March Air Force Base than to El Segundol Pown those living Nest of the 605 would find they would be traveling against traffic and could still commute to March. To the same of the P.O. Box 3003 - Regiands CA 92373-0306 - (714) 335-7702 **DOCUMENT 42 DOCUMENT 42** 36TH DISTRICT OF CALIFORNIA Comp. (4 9) 111 Congress of the United States C 3000 (as propr) (print) -FG (print 21 Amounts Co. 9(10)1 -21-0(00-410) Rouse of Representations Westingen, DC 2015 G 337 E Vegrant g 300 Spring CA 91704 374 986-5100 In addition to the logal reasons, there are also economic and operational reasons why I believe it is in the best interests of the Air Force to leave 800 right where it is. San Bernardine provides a location for 800 that is both within the scientific, commercial, and industrial heartland of Southern California where the quality of life is sen Bernardine is also on area that has a long tradition of housing Air Force facilities and providing hospitality and industrion of the depth of augment in the entire Inland Empire or Air Force facilities, lat me paint out that 100 community in the Secretary of Opense and the Secretary of the Air Force calling upon 000 and the Air Force to keep 800 here and give strong consideration to bringing 850 to March AFB. August 29, 1990 Lt. Colonel Tom Sertol Director of Progress and Environmental AFACE-888/DEP Horton AFB, California 92409-6448 15.5 Below are included by written comments on the draft Environmental Impect Statement for the "Proposed Closure of Los Angeles AFS, California and Belocation of Space Systems Division." I want to now turn to the Environmental Impact Statement itself and offer a few comments that I would like the Air Force to consider in its final revision of the document. While I believe that it is appropriate for the Air force to atudy SBD for possible relocation from Low Ampeles AFS. I also firmly believe that the Bellistic Missile Organization should remain right where it is: In beautiful Sen Bernardino. The 1988 Commission of Bear Relignments and Closures stated that although Horton AFS should close, BBD should stay at its present site, edjacent to Herton. On pages 77 and 78 of its report, the Commission stated that "Secause of the high cost of relocation and the functional requirement of the Bellistic Missale Office to remain in the local area, the Commission recommends it remain at Nerton AFS. Those recommendations have the weight of law, as signed by President Respon in P.L. 180-126. Tiret, I note that the III's entimate of the economic loss to the Inland Empire from any move of BDO is significantly lewer than the estimate recently mede in amother draft report on BDO conducted for the Air Force by a consultant. That report, the Local Economic Consequences Study, estimated that if BDO moves away from the Inland Empire, our region would lose 5344 million in income. The IIS estimated a lose of only \$210 million in regional income. If request that the Air Force recommiser its estimate in the III section of the Inland Empire, and wowling BDO and make fully clear in the Inland Empire, date, and sources of data by which its estimate is medi. 4.11 I believe that any move of BMO from Merton, during the legal life of the Base Closure Commission's recommendations, would violate the Base Closure Commission law. The two major committees in the Kouse of Representatives with direct jurisdiction over defense matters agree with me. I worked with beth the Souse Armed Services Committee and Appropriations Committee this year to have language included into the Ciscal year 1991 defance appending bills which, if ultimately signed into law, will keep BMO in tan Bernardine. Second, I note that on page 4.2-7 of the EIS, it is stated that another EIS will consider the cusulative econosic effects that the closings of both Morton and George AFG's would have on the econosic ispact of any movement of BMD free San Bermardimo. I request that the cusulative econosic effects be included in this final BIS so that the full impacts of any move of BMD consistent of the constant 4.13

Lt. Col. Toe Bartol Director, Progress & Environmental Division AFRCT-BAS/DEP Morton Air Force Base, Celifornia 92409-6448

Re: Relocation of Sailistic Hissile Organization (BMO)

Dear Colonel Bertol:

On behalf of the City of Highland, we wish to urge support for keeping the Ballistic Hissile Organization at Horton Air Force Base. Our City represents a large number of Air Force and civilian employees who work in BMO.

The economic impact upon surrounding communities by the loss of SMO and the \$210 million payroll and other dollars will be considerable. We can ill afford to lose some \$7.00 direct and indirect jobs in eddition to the loss of the amployees indirect. The City of Rispland is siready enticipating the loss of that will be felt when Norton Air Force Base closes and many of our residents will be leaving the area.

The Draft Environmental Impact Statement states the purpose for the BNO relocation is for better Space Systems Division Kanagement. The close proximity of BMO to SBD now, and especially if SSD relocates to March Air Force Base, would sore than seat the needs and would result in significant cost savings to the Air Force.

The City of Highland has been a good neighbor and strong supporter of Morton Air Force Sess for years. The community support has provided a high quality of life for Air Force personnel in terms of affordable housing, lower cost of living, and overall acceptance to the community.

We urge your favorable support for retaining the Ballistic Missile Organization at Norton Air Force Base.

Laurie Tully Mayor

4.9

Umector Programs and Environmental Division AFRCE - BMS/DEP Norton Air Force Base, CA 92409-6458

I attended the public hearing at El Segundo High School on August 27, 1990. The comments which I heard were directed only toward the economic losses to the community (Chamber of Commerce, private shop keepers, real estate agents, Business Councell. Only one person spoke concerning the benefit of the Aff's relocation and the Aerospace Company moving, when she reported on the amount of pollution that would be removed from the LA beain due to a significant reduction in the number of pessengers who would no longer require flights out of LAX.

There are other far more senous and provocative considerations that need to be addressed. They have been repeated meny times over in the news media: crime, neighborhood decay, eithin colorization, homelessness, are pollution and traffic congestion. The place trained used to boest of offering a sunny refuge from New York or Chicago or a cultural macca for ma-vesterners, now concides it suffers urban inegritimes that trival all. The need for an axtensive raf trainatt system has long open apparent in los Angeles but the experts say it will take at least another 25 separa to build one. It is harder than ever before to recruit from colleges and from the general scientific labor good as the California dream has become a myth.

There are also the military needs of this Air Force in this perticular command which must be addressed. None of these are contingent upon the economic requirements of £l Segundo or the surrounding cities. Consolidation of this facility with another military facility makes sense from a security standpoint and over the long term will grove economics!

15.8 support the study and believe that those involved are making the fairest assessment possible given the great number of unknowns involved in any such undertaking. I hope the resolution heads to a non-California polition.

Very truly yours,

CALIFORNIA LEGISLATURE

DAVID G. KELLEY

August 10, 1990

Director Programs and Environmental Division AFRCE-BMS-DEP Morton Air Force Base, CA 92409-6448

As I have stated in previous correspondence, I as in strong support for relocating the Air Force Space systems Division to March Air Force Base and Keeping its subsidiary, the Ballistic Missile Organization at Morton Air Force Base.

Bringing the Space Systems Divisions to the March Air Force Base would bring a significant number of new jobs to an area in Californs where housing is still affordable. The Air Force has indicated that it is unable to adequately recruit personnel at the Loe Angeles Base because of the high housing costs in that area. Keeping the SSD and BMO withis commuting distance, would facilitate interaction between the two divisions.

With the budget so tight, please keep in mind that keeping NWO at Norton Air Force Base and moving SSD to March Air Force Base will require only one moving and construction bill, thus minimizing costs.

I would like to relaterate that I strongly support this relocation and stand ready to assist the Air Force and Department of Defense is any way that I can.

L. Col. Tom Barrol Director, Programs and Environmental D AFRCE-BMS/DEP Norton Air Force Base, CA 92409-6448

Re DEIS 'Proposed Closure of L.A. AFB and Relocation of SSD

Dear Lt. Col. Bartol:

I take this opportunity to bring to your attention certain items that you may want to correct, as they may affect the accuracy of the above-referenced discument where they are found.

3.1

Site Location and Description.

Either the description which states that The site is within a 222-acre parcel recently issued prevented AFB from the City of Colorado Springs' or Tigure 2-10. Proposed Sites as Pearson AFB. Colorado' is incorrect given that the site described/despiced includes lands located on the Banning-Lewis Raiset and which are currently owned by private parties.

"Adjacent Land Uses." The third and fourth sensences in this paragraph are inaccurate in that they feed the reader to believe that the Banning-Lewis Ranch begins on the east side of Markheffelt when, indeed. Size 1 is bound on the east and partially Joing the south by audit Banch.

Reference, DEIS Page 2.33 Section 2.4.3.2:

"Site Location and Description."

The change in elevations for this site appear inaccurate in that the highest elevation is more like 6,200" rather than 6,400".

Letter in Lt. Col. Tom Barrol August 31, 1940 Page -2-

Please note that the statements above may affect other sections of the report of corrected. We will continue to review the report and reserve the right to add comments at a later time within the simplification period.

I also take this opportunity in congratulate the Air Force for the good quality and content of the DEIS presented. Should there he are questions please write or call Illims you.

15.10

sestemmer 1. 1990 DATE:

Lt. Cel. Tom Barto: Director. Programs and Environmental Division AFRCE-BMF/DEP Merton AFE. CA 92489-6448

SUBJECT: RIS for move of Space Systems Division and the Sailistic Missile Organization

The negative impacts of a core of SSD and BHO to VAFE would be substantial. They include impacts on water consumetion. On air quality, on hishway concentron, on housing, on schools, on some of the provides of the services, and on the overall quality of life in the area. Serticularly as growth would occur rapidly. I am not opened to the move to VAFE if these negative impacts can be adequately mitigated. Mitigation might include provision of a desaination plant to provide water for the additional population, provide and the major housing areas, and provision of additional impacts of public transact specifically for transactation between VAFE and the major housing areas, and provision of additional funding for schools and sortil services.

As a targurer, I would like the organizations to be moved to blace(a) where the environmental and monetary meant would be the least. Gevernment at all levels is struggling with domanda for services that exceed the dollars awaitable to provide the services. The costs of this news should be animized, so as not to take dollars true other necessary Governmental services.

Atrene S-Wellek
Dorono B. Wellek

23: Relocation of L.A. Air Porce Operations to Vandenberg.

Dear Sir:

I write in support of the relocation project ambject of this meeting. Since 1965, I have had the privilege of developing meeting. Since 1965, I have had the privilege of developing to the providing remainded to the privilege of

too new decade before ag.

Rowever, no step taken thus far exceeds the proportion of the potential relocation of L.A. Air Force Operations to Anderbe in terms of the possitive economic growth inherent in such a s A thriving community is rich in many ways...not only in it's natural assets which we are all grateful for, but in the diversity of orperiences and people who commiss to give this area a unique flavor and character.

The addition of the project will create a memorium of economic growth that is appropriate timing for the entire central coast; while this diverse territory will provide an environment that is amphibe of geographically supporting the meds of the work force as it matthe into it's may reje.

This relationship is mutually beneficial; on behalf of Villiam Pitt Jewelers, welcome to the Santa Maria Valley.

Pitt Javelors, vertices of the state of the

DOCUMENT 50 DOCUMENT 51 SATH DISTRICT OF CALFORNA September 3, 1989 00 / 10 dec (00 dec 10 Congress of the United States Lt Col. Tom Bartel, Ovrector House of Representations Programs and Environmental Division AFRCE-BITS/DEP Norton AF8 92409-6448 Washington, DC 2011 August 30, 1990 RE. Transfer of Space Systems Division and Ballistic Missle Organization to Vandenberg AFB Lt. Colonel foe Bartol Director of Programs and Environmental AFRCE-BMS/DEF Norton AFB, California 92409-64-5 I was unable to attend the public hearing on Tuesday evening, August 28, 1990. inportate the opportunity to Bake comments on the draft Environmental impact Statement for the Air Force's proposed relocation of the Space Systems Justion that are generally in relation to the portions of the EIS dealing with March AFA. These comments are in addition to those submitted in relation to the August 29 meeting concerning the Ballistie Hissile Organization in Jan Barnardino. I am a native of Santa Barbara County being born in Santa Barbara on Hay 15, 1935. I believe the move of the Air Force Space Systems Division and Bellistic fishes Organization to Vandemberry would be fantastic for all of Santa Barbara County. Plany of the jobs would be filled , I am sure, by present employees, but there would also be some filled from the local Organization in San Bernardino. Moving the Space Systems Dirition from its present location at Los Angeles Air Force Base may very well be an expensive understantine. Even with special legislation that will allow the Air Force to directly use the profits from selling the valuable land at La AFB, the cost of moving SSD will be significant. But there also appear to be significant costs for the Air Force in staying at Li AFB, such as the ring cost of nousing in west Los Angeles, which makes the recruitment and retaintion of lower-salaries personnel hearly impossible and causes not make the cover salaries personnel hearly impossible and causes not make move SSD from Lia AFB if it is to place SSD in a location where it can remain wiable for the future. If SSD must have from La AFB, then I think that March AFB is the place it should move to. 15.10 It seems to me to be an ideal way to remove some of the commuter traffic from Santa Barbara County roads. Perhaps many of those commuting to Santa Barbara delty would find employment locally after 15.10 It is time now for the Air Force to make this move to Santa Barbara County and if there is anything that I can ever do to make this move a certainty, please ask. It is my intertien to light the re-election of anyon in City or County government who is not 100% in twen or, and pushing for the implementation of this move to Santa Barbara County. then I think Inst March AFB would keep SSD within the commercial, industrial, and stientific neartised of Southern California, in which AFB would keep SSD within the commercial, industrial, and stientific neartised of Southern California, in which AF force who are still albert & Cestagnole Albert & Castagnole cc: Congressman Robert Lagomarsino County Supervisors Diane Owens & Toru Myosh **DOCUMENT 51 DOCUMENT 51** Page Three Second, I would like to draw the attention of the Air Force to its analysis of the cusulative impacts on air quality from the cusulative impacts on air quality from approximately 1,100 personnel from Sorton to March when Norton eloses. The authors of the draft fill state that there would be an increased negative impact on air quality from such a dual sows. I would like the air Force to reconsider that conclusion. Any jobs from Sorton that are eight within the Inland Empire. Some provided in the same partial impacts associated with the jobs-housing immalance. If the 1,100 amployees from Sorton are not transferred to March, they will lowe for other work and if their new jobs fit the same pattern as the average for Inland Empire residents, many of those pattern as the average for Inland Empire residents, many of those pattern as the average for Inland Empire residents, many of those pattern as the average for Inland Empire residents, many of those force the inland Empire and positive for out the jobs-nowsing immalance in the Inland Empire and positive for out the jobs-nowsing immalance in the Inland Empire and positive for out the jobs-nowsing immalance in the Inland Empire and positive for out it is a first that there are not not. I have been working nard in Congress to keep SMO at Morton AFB, in accordance with the recommendations of the 1988 Commusaion on Base Mealignments and Closures. Keeping 8MO at Norton not only would benefit the civilian deployees who would lose that jobs if the organization seves, but it also arranginess the class for soving 330 to March, instead of to Yancemburg or out of attact. An additional sign of the cost-effectiveness of moving SSD to March, as opposed to any of the other sites under consideration, is that many of SSD's current employees would not have to move in order to work at March. If SSD moves to Yandenburg or out of state, that hir force will have to pay for relocation costs for those reployees and their families. I noted estimates that 20 percent of SSD's workforce would not have to move their homes in order to begin working at March Air Force Sase. Finally, a good reason for the Air Force to bring SSD to March and keep BMO at Morton is the strong mospitality and community support which the inland Empire has always shown and facilities. An example of the level of regional support for Air Force facilities is the strong endorsement and support that Inland Empire communities and civic leaders have given to the lobbying effort of the Inland Empire Space Systems Division Relocation Group. Another example is the letter to the Secretary of Defense and Secretary of the Air Force that was signed by 30 community leaders from throughout the Inland Empire algorithm of the Communities of the Secretary of Secretary Office Secretary of Secreta In conclusion, I firmly believe that there are not only strong financial and operational reasons for moving 550 to March, but that moving 550 to March would also benefit the air quality environment throughout the South Cosat air deskn. Thank you for your consideration.

In terms of commenting on the draft Ehvironmental Impact
Statement, I wish to bring two matters to the attention of the
Air Force First, I commend the Air Force for including in its
analysis a reference to the fact that a movement of \$50 to March
is in accordance with the sir pollution reduction plans of the
South Comst Air Quality Management District.

PUBLIC HEARINGS ON THE DRAFT EIS FOR THE PROPOSED CLOSURE OF LOS ANGELES AFE AND RELOCATION OF SPACE SYSTEMS DIVISION

AUGUST 27, 1990 EL SEGUNDO, CALIFORNIA

THAME YOU FOR THE OPPORTURITY TO BE HERE THIS EVEHIRG. BY NAME IS RAY REMY. I SERVE AS THE PRESIDENT OF THE LOS AMBELES AREA CHAMBER OF COMMERCE. ON BEHALF OF THE CHAMBER'S BOARD OF DIRECTORS, I HOULD LIKE TO UNSE YOU TO RETAIN LOS AMBELES AIR FORCE BASE IN ITS PRESENT LOCATION.

15.2

WHEN OUR CHANGER MET WITH SECRETARY OF DEFENSE DICK CHEMPY EARLIER THIS YEAR, ME EXPRESSED GENERAL SUPPORT FOR HIS DIFFICULT TASK OF EFFECTING ECONOMIES IN THE DEFENSE DEPARTMENT BUDGET AND ACHIEVING OVERALL REDUCTION FOR DEPICIT PURPOSES. WITHIN THIS CONTEXT, ME WERE SUPPORTIVE OF SOUTMERN CALIFORNIA ASSUMING ITS FAIR SMARE OF BASE CLOSING AND DEFENSE CUT BACKS. MANT ME DIDN'T REALIZE, HOMEVER, MAS THAT THE PROPOSED CLOSURE OF THE LOS ÂMEGLES AIR FORCE BASE MAS NOT A CLOSURE FOR BUDGET SAVINGS, BUT RATHER A RELOCATION MOILD MOULD ACTUALLY INCREASE D.O.D. EXPENDITURES.

DOCUMENT 52

DOCUMENT 52

-2-

AS WE EXAMINED THE MATTER MORE CLOSELY, WE DETERMINED THAT THE LOS AMBRLES AIR FORCE BASE TOGETHER WITH ITS DIRECTLY ALLIED PARTNER FOR OVER THIRTY YEARS, THE PRIVATE, MON-PROFIT AEROSPACE COMPORATION, FORM THE LINCHPIN FOR THE AEROSPACE INDUSTRY IN SOUTHERN CALIFORNIA.

WHILE OTHER BASE CLOSURES/RELOCATION CARDIDATES IN THE UNITED STATES ARE EXPERIENCING DIMINISHING DEMAND FOR THEIR USE, THE MISSION AND SCOPE OF THE WORK PERFORMED AT THESE SOUTHERN CALIFORNIA FACILITIES IS INCREASING. THIS IS DUE TO THE MATIONAL SECURITY ENPHASES ON SPACE SYSTEMS AND THE INTELLIGENCE CAPABILITY IT SRINGS TO OUR FORCES DOMESTICALLY AND IN THE PIELD. THIS WAS RECENTLY DEMONSTRATED MOST VIVIDLY THOUGH OUR OPERATIONS IN PANAMA AND IN THE PIDDLE EAST.

THE LOSS OF THIS PACILITY WILL HAVE A DRAMATIC IMPACT ON THE LOS AMBELES ECONOMY, PARTICULARLY WHEN ADDED TO EXISTING DEFENSE DEPARTMENT CUTS. LOS AMBELES AIR FORCE BASE EMPLOYS SOME 3,200 PERSONS, INCLUDING 1,750 MILITARY AND 1,450 CIVILIANS. IT HAS

A YEARLY PAYROLL OF \$109 MILLION, AND ACTIVE CONTRACTS IN THE LOS AMBELES BASIN OF \$6.5 BILLION. THE AEROSPACE COMPORATION EMPLOYS 4,200 PERSONNEL AND MAS A YEARLY PAYROLL OF \$218 FILLION. FUTHERMONE, LOCAL SUPPORT CONTRACTS ADD AN ADDITIONAL \$362 MILLION TO THE ECONOMY.

-3-

WITH THE MAGNITURE OF ITS IMPORTANCE AND THESE IMPRESSIVE ECONOMIC IMPACTS, ONE HIGHT CONCLUDE THAT THEME MUST BE MUSE COST SAVINGS TO THE AIR FORCE FOR THEM TO CONSIDER RELOCATION. THE FACT IS THAT MOVING LOS ÁMBELES ÁIR FORCE BASE FROM ÉL SEGUNDO TO OTHER PROPOSED SITES MOULD ACTUALLY BE A VERY EXPERSIVE UNDERTAKING. SOME HAVE ESTIMATED THAT UPWARDS OF \$1 BILLION MOULD HAVE TO BE EXPENDED TO ACCOMPLISH THE RELOCATION.

WE ARE AMARE OF THE CONCERN FOR THE REPORTED HISM COST OF LIVING IN SOUTHERN CALIFORNIA. IN REALITY, WE BELIEVE THAT THE SPECIFIC CONCERNS RELATE TO THE HISM COST OF HOUSING, AND MOT THE HISM COST OF LIVING. IN THE LAST FEW YEARS, HOMEVER, THE AIR FORCE HAS MADE GREAT STRIDES IN ADDRESSING THE HISM COST OF

DOCUMENT 52

HOUSING IN LOS ÂNSELES MI.N THE ADDITION OF 370 NEW WHITS, DRINGING THE NUMBER OF AVAILABLE HOUSES TO ÂIR FORCE PERSONNEL IN THE LOCAL AREA TO 530. WE ARE WORKING MITH BOTH THE GOVERNMENTAL ASERCIES AND REPRESENTATIVES OF THE PRIVATE SECTOR TO ACHIEVE ADDITIONAL RELIEF FOR THE ÂIR FORCE IN THEIR HOUSING CONCERNS.

WE WOULD ALSO POINT OUT THAT THERE ARE MANY ADDITIONAL COSTS
ASSOCIATED WITH THE PROPOSED RELOCATION. THERE WILL BE INCREASED
TRAVEL FOR EXISTING AEROSPACE FIRM PERSONNEL, REDUCED ACCESS TO
TRAINED LABOR POOLS, AND REPUCED CONTACTS WITH MORLD RESPECTED
ACADEMIC INSTITUTIONS.

IT IS ALSO DISAPPOINTING TO REALIZE THAT AT THE VERY TIME FEDERAL AND LOCAL OFFICIALS HAVE DEDICATED HUGE SUMS OF MONEY IN IMPROVED TRANSPORTATION ACCESS, THROUGH THE CONSTRUCTION OF THE GLENN ANDERSON FREEWAY AND THE GREEN LINE TRANSIT EXTENSION, A MAJOR EMPLOYER WOULD BE LEAVING THE AREA.

WITH THESE SIGNIFICANT ECONOMIC IMPACTS, WITH THE IMPORTANCE
OF THE HISSION. WITH THE HIGH COST OF RELOCATION AND WITH THE

MOMESTIME ISSUE MORKING ITS MAY TOWARD RESOLUTION, THE LOS AMMELES
AREA BUSINESS COMMUNITY SINCERELY BELIEVES THAT BOTH RESIGNAL
AND NATIONAL INTEREST WILL BE BEST SERVED BY RETAINING THE LOS
AMBELES AIR FORCE BASE IN ITS PRESENT LOCATION. ME BELIEVE THAT
THE ENVIRONMENTAL REPORT AND OTHER STUDIES, INCLUDING LOCAL ECONOMIC

Thank you again for the opportunity to speak on this important matter.

IMPACTS, WILL LEAD TO THE CONCLUSION THAT THIS IS THE SOUNDEST

RECOPPENDATION TO BE MADE TO SECRETARIES CHEMEY AND RICE.

STEVE CLUTE
SEMBLAMA WITH SIGN IN CONTROL
AUGUST 18. 1440

Thomas J. Bertol, Lt. Col., USAF Director, Programs and Environmental Division Mortos Air Porce Base San Bernardino, CA 92409-6448

Dear Lieutenant Colonel Bartol:

Transfer of the activities associated with the closure of the Los Ampsies Air Porce Rase is a very high priority with me. I have advised the Governor's staff of my interest in this effort.

I atrongly support alternative 1 as well as elternative 5 as provided by the Air Force. Alternative 1 proposes total relocation of all activities currently at Lee Ampelee Air Perce Base to Rarch Air Porce Base; whereas alternative 5 proposes retention of the Aerospace Corporation in Lee Angelee, 2000 to be retained at Morton and the relocation of Air Porce activities to Baser Air Porce 3 activities to Baser Air

March Air Porce Same is the ideal location for either of these elternatives. The Riverside and Norman Valley area would provide reduced commutage time, more affordable housing compared to the Los Ampeles area, and would reduce the financial hardship of the present civilian work force where pay would be commensurate with their poers in the justal community.

15.10

Attention: Lt Col Tom Bartol, Director of Programs and Environmental

Re: Draft Environmental Impact Statement (DEIS) for the Proposed Closure of Los Angeles Air Force Base and Relocation of Space Systems Division (specifically to VAFB, CA)

Gentlemen

I add the following inputs to be addressed in the analysis of the material in the DEE:

The base number of employees added to the local economy as a result of the proposed relocation to VAPS should be based on the 1986 employment figures at VAPS, in all the categories addressed in the DEIS (e.g. direct Government employees, Government contractor employees, and employees of supporting businesses, of-site). This will ensure that not only the 3000 jobs on the base that were lost after the west-closes Shuttle launch site was canceled are considered; but, all the off-site direct and indirect employees.

6.7 The number of added commutes between local communities and VAFB due to additional workers on VAFB should be compared against the 1986 numbers.

The additional pollution caused by the additional average 30 mile round trip commutes to jobs on VAFB should be reduced by the pollution caused by the personnel who will chose to accept employment on VAFB or in supporting non-government jobs in lieu of their present jobs in Santa Barbara, a 100 to 150 mile round trip from their residences in Lompoc or Santa Marts.

There are a large number of particularly hard-headed folks who maintain residences on the Central Coast. A few came to the hearing to prosest the idea of the AF bringing more business to our area. Others, and I have to be counted in the second group, entry fiving on the Central Coast so much, that for the past year, I have commuted 450 miles round trip, to Southern Californus to worth five days a week (four nights in L. A, there nights in Lompool. There are hundreds of us. If units of SSD were moved to VAFB, we are qualified to fill the sitost that will become available when all the civilian work force that supports SSD does not chose to accept a marker.

I am currently unemplowed. I chose to take this risk, rather than accept a transfer back to Housen, Texas (from NASA) with the security of continued Government employment. I have worked as a temporary segment, by choice, for the past two years. In the course of my duces, we have had an opportunity to review resumes from technical personnel who had answered advertisements for potential jobs with one of the unsuccessful bidders for the design and construction or a Tian IV/Centure taunch facility at VAPS. The response from a few small classified ads drew hundreds of responses. Many were from technical

Page 2 personnel that retain their local residences and compute to the Bay area or to Southern California. Many are getting by, in an 'intider-employed' status. Of course, the employed members of this group were unable to extend the DEES learning.

The DED stotes that the increases in which emissions would be significant bucause the area is nonartainment for the state otnore standard. North Santa Berbara County experiences <u>arraral days nor year</u> of none constrained be the accepted levels. The emissions from off-shore oil occuriety which is leval ourside the paradiction of the EPA a contributor to this area's pollution, as well as the emissions from exampsed (and old, noley, and inselfment) military aircraft that practice flaps—ye learnings at VAFF 15000 foot facility are popular candidates for off sets to any accretion due to folds gritting to work so the local concomy does not dry up and blow away with the clean on-shore breaze which cleans out the air in all the Central Costs valleys, almost every afternoon. Nonattainment only happens on those few days per year when the on-shore wind does not happen. Again, the ocone levels in 1964, when VAFB on-best, and derivative off-site activities were at a significantly higher activity should be compared with current peak come levels in order to lairly project the effect of more ventualar craftic as a result of an 55D move to VAFB.

The water supply for Vandenberg Village (which does not have very many more building sites) is overdrafted. The state of overdraft for the Longbox Valley is controversal, depending on what point you want to prove. There are individual wells in areas of concentrated withdrawal, with a lover water table; but, most supplies have not changed enough over the four years of drought to verify a definite rend. The water rights of the Longbox Valley, from Lake Cachuma, should be considered when evaluating the Longbox Valley's water supply. The commander at VAFB has told the multiary residents that VAFBs supply from the San Antenuo River basin as not in overdraft. Santa Mana can provide information that shows they have no barriers to getting State water. This statement, and this fact are in conflict with the DESS.

The local economy needs more industry. SSD, in all forms, is one of the cleanest alternatives.

Sincerely,

or The Honorable Robert Lagarmarsino United States House of Representatives 104 East Boone Santa Maria, CA 93454

laume Martin Longs

Nonorable Hayor Carrin Lon-City of Lompon 100 Civic Center Plaza Lompon, CA 93436

Dear Mayor Loney

[was unsole to attend the relocation secting hold Tuesday night. August 25, 1980, at Cabrillo Nigh School in Lampor due to business outside the area. [do however, with to express up opinion on the exiter of relocating Air Force personnel from ion Angeles to the Central Count.

I strongly support this move for two rememes. One, the addition of these professionals to Vendemberg Air Force Shee is a logical move because it consocialists all common operations personned at one incention. Secondly, the relocation of these people and their families would be a positive some to estimate the economy of our area. I believe our local economy has been sluggish since the Challenger diseaser and that this may be just the imput or means to revenue that trend.

Additionally, I fee: that with government are out and the proper attitude, we can all most together to make this move beneficial to the attitude, we can all most together to make this move beneficial to the high-technology environmentally class houstnesses to locate in our area. so I sould hope they will do everything possible to ensure this unique opportunity comes to fruition. With this thought I remain.

Sincerply yours.

The Part of the Pa

Seprember 4, 1990

Lieutenant Colonel Thomas Bartol Director of Programs and Environmental AFRCE-BMS/DEP Norton AFB, CA 92409-6448

We are grassful for the advisory from Major Vroman regarding the proposed closure of Los Angeles Air Force Base and the refocation of Space Systems Division. Please and Lockheed Missiles & Space Company's (LMSC) voice to those that oppose the relocation of Space Systems Division.

As you may well appreciase, LMSC has hundreds of engineers and contract personnel who are in consume contract with Space Systems Division and the nearby Aerospace Corporation. This contact is necessary for the many iterations associated with the dresopment and production of our space systems. While the present location of Space Systems Division and Aerospace Corporation is Los Angeles Air Force Base is indeed a convenience for us. it is a convenience that provides program efficiency and cost savings to the Government. Any move of these organizations would not only add multimillion dellars to our programs, but add a great deal of inerfficiency to programs that require dynamic action had response. Any added travel time mitigates against such needs.

We appreciate your consideration of LMSCs position which supports the no-action alternative in the Draft Environmental Impact Stamment. If I can provide any additional information or assistance, please do not hesiste to contact me.

John N. McMahan

Our most redent intercept study shows that 556 of our customers code from 13 or more miss away. More appointable, Vandenberg dar Perce Bate historically has comprised 15-20sily, Vandenberg dar Perce Bate historically has comprised 15-20sily, Vandenberg share. As we were adversely affected in 1986 by the Challenger disaster by the loss of approximation; 3,000 senieyses, we would obviously seneds from any passitive greath realized at the base as well. Saverally, this would directly translate to an increase in the males tax base for the City of Santa Maria as well.

JERRY BAVES 16/407 Dear Lt. Col. Sectol: SUBJECT: Response to Draft EIS - Hove of BHO/Hotton AFE As you are aware, I have previously expressed my feetings concerning my strong objections to any relocation of the Sailistic Missile Division from its current location at Morton Air Force Base in San Bernerdino (letters of February 1, 1990 and May 24, 1990). My office represents a constituency of approximately 100,000 millians and we have not received one message, in any form, in favor of souting the MMO out of Morton AFB. In fact, the opposition to any such concemplation raises the ire of my constituents to a point of disquet as well as disbellet. The Military Construction Subcommittee of the Mouse Appropriations Committee recently stated that "such action appears to be in violation of the Base Closure and Realignment Commission recommendations." My letter of February: 1990 to Sendtric Conaron and Milson and Congressmen Scomm and Levis clearly states my position that the possibility of moving the BMO is a circumvention of the Base Closure Act. 1.4 In the event that the BMO is moved, as the 66th District California State Assemblyman, I will ask the State Attorney General to research the position taken by the Willtary Construction Subcommittee and Syself, that the move is nothing more than subterfuge foisted on us by Secretary Champy which is a circumvention of the Base Closure Act. Lt. Col. Tem Bartol Director, Programs and Environmental Division AFRCE-BMS/DEP Morton AFR, CA 92409-6448

RE: Draft Environmental Impact Statement for the Proposed Classis of Los Angles Air Force Base and Relocation of Space Systems Division.

Dear Col. Bartol:

On Audust 30, 1990 I had the opportunity to represent the Henday Morning Group and make a few comments at the Public Hearing held here in Riverside in regards to the above referenced matter.

The Monday Merring Group is made up of business and professional people from weetern Riverside County. Over the years this group has supported projects that would enhance the question of the area. The possible memors the question of the area. The possible memors the years by the profession to hard. It force these would cortainly enhance our area not only financially but also intoliactually.

The sileged negative environments; ispect of the relocation of Space systems Division to March Air Force hase seem to the sir quality and the adverse ispect on federally listed endangered Stephen's Kangaros Rat. In my judgement other specialized at this neering gave smootlent arguments that would or should misigate these concerns. Specifically the comments of America Tolking Special Control Country Country (Residual Country Co

The comments made by other speakers that evening should convince anyone that the area is currently well postured for a move of this megnitude, and that the various communities have in place or are willing to deal with the media of this move.

Page 2

Externally, the impact statement is dealing with the appropriate Concerns. Internelly, the report should consider the excellent relationship and quality of life other major facilities have experienced over the years as neighbors to March Air Farce Base. This is not only with all the federal assencies but also with the University of California, California School for the Deef, Lose Linda University and California State California Septiate Calif

I would be happy to discuss this relocation further with amone at our sutuel convenience. Good luck with your endeavors.

Yours Very Truly,

Bart R. Singletary

I have seme thoughts on the subject which I would like to pass on to you. lam presently a GS-14 civilian employee of Space Systems Division/PRC. Phone (213) 363-3300 One item which concerns me is the environmental impact on the area to which we may be reassigned. In particular, has anyone addressed the issue of affordable housing for civilian employees and how affordable that will remain after the infiture of apprentiately happen when deand hits supply? For example, has anyone actually consulted real estate agencies or the Chamber of Commerce in these actualization of the deand hits supply? The example, has anyone actually consulted real estate agencies or the Chamber of Commerce in these section in the actual consultation of the deander of the Chamber of Commerce in these section is any supply that it is not take the appeal of the section of the consultation of the dealers of the consultation of the consultation of the dealers of the consultation of the dealers of the consultation of the dealers of the consultation of the consultation of the dealers of the consultation of the dealers of the consultation of the dealers of the consultation of the consultation of the consultation of the consultation of the consultation of the consultation of the consultation of the consultation of the consultation of the consultation of the consultation of the consultation of the consultation of the consultation of 4.10 15.10 Another aspect of the decision to seve the base that warrints come further thought is the conti used reference to lack of space for expansion at Los Angeles AF). There is plonty of vertical space available for office espansion. We have several bugs parking lots on which effice buildings could be built with perking derages in the basement, similar to other office structured in the L.A. area. (Of course, vertical space is not the answer for military housing neede.) It may be that both of these issues have been well-thought out an reviewed as infinitum during the decision making process Unfortunately I have been unable to action the bublic meetings an infereiore very much appreciate this opportunity to pass on to you my views about the decision to close Los Angless AFF. Sincerely. of Jane Zender Juli Abbott 517 South P St. Lowence, C: 77476 **DOCUMENT 70 DOCUMENT 70** I find relatively few femilies works in our local affairs, rather esintaining their lovalties and their absences hellots to enother secorambical area. Re: Donit EIS Peterson/Falcon for SSD

15.10 I strongly support Colorado Springs as the home for SSD.

(1) The environmental impacts are relatively small and will be successfully solved by joint efforts of the Air Force, the Cit, the County and the State. Leaders of all three governments have pledged that support.

An excellent example of 'his cooperation is the Peterson West Gate access improvement that is ocurring now rather than a couple of years from now. These road improvements will re-duce air pollution and gasoline usage by speeding and smooth-ing traffic flow.

(2) Affordable housing is a big part of a favorable cost of living environment. We have a large inventory of quality homeometric than is true of the Los Angeles area. These housing values compare favorably with Albuquerque, Norton, and Vanderburg.

(3) A very large inventory of fin ~hed building lots exists as a hold over from the boom era of the mid 80's. These lots are currently available at prices below their costs and in many cases are assets held by the RTC.

Minimal environmental impacts will be felt as these lots are built on. No lengthy development delays will be incurred. And the Federal budget will be enhanced as MTC realizes an increased demand for these lots.

There is widespread enthusiasm in Colorado Springs for SSD to sove here.

Sincerely, Little Hallan L. Coche, President

te Board of Directors of the Vandesberg Vallage Association would concur the move of the subject USAF organizations provided the significant twinosisestal impacts can be satisfactorily instigated.

15.10

It is recognized that the move of the LA organizations may be of great operational benefit to the USAF Certainly, the increase is jobs this move brings would be of great economic benefit to makey individuals and businesses in this area.

With specific reference to the EIS covering this resocution, there are several serial of major concern, water, increased triffic, school capacity and biological resources. Emergency services for Vandemberg Villinge have historically larged accepted levels. Ambutance service, fere protection and police protection have been lower than Sapis Barbara County standards would correstly provide. An increase in population would require these services to be upgraded.

It is felt the final EIS must show satisfactory mitagation for these areas of significant impact.

Nickard T year Richard R Luce, President Vandenberg Village Association Board of Directors

Comments - Draft Environmental Impact Statement -Proposed Closure of Los Angeles AFB and Relocation of SSD

WHOM IT HAY CONCERN:

I was present during the entire public hearing on the draft Environmental Impact Statement for the proposed closure of the Los Angelse AFR and the relocation of Space Systems Division union was handled appearable 3. 1890, in colorado Springs, Colorado. I was handled appearable 3. 1890, in colorado Springs, Colorado. The proposition to the proposed relocation of SEO and SMO to Paterson AFB, here in Colorado Springs. Buth of the opposition was focused aither on opposition to the industrial silitary complex generally, or growth generally. I found this to be particularly unhelpful to the analysis at hand.

As a businessen in Colorado Springs for twenty years, I wish to voice my strong support for a selection by the Department of the lar force, for the rejocation of the Lee Angeles AFS and SSO, of Paterson AFS in Colorado Springs. It is inswitable that Colorado Springs will just year in the Colorado Springs will be colorado Springs will be colorado Springs will be colorado Springs will be colorado Springs will be colorado Springs will be colorado Springs will be colorado Springs will be colorado Springs will be colorado to severa colorado springs will be colorado by colorad grawth and development under the control of an organization such as the development under the control of an organization such as the colorado springs will be colorado s

Our new sirport facility will be coming on line ntemportaneous with the proposed relocation. This will certainly tree to distinish any odverse impact and inconvenience with respect the mission of the progrem. Mater availability was discussed

HOLLAND & HART

es a potential environmental concern. I agree with the statements made by our Nayor, Robert Leac. and Gary Cyddeback. the Director of Economic Development for the City of Colorado Springs. Colorado Springs has exemplified good City planning with respect to water availability for the foreseeable future. City officials tend to be conservative with their statements of availability, but those of us in the business community know that, at the present, we have a 50 year supply of water for a matropolitam population of a half a million people. Colorado Springe water is surface water, reservoir held, and is not dependent upon aquifers.

The increased intensity of space development activities in the Colorado Springe metropolitan areas arques strongly for the effective use of future silitary budgets, consolidation of resourcess and location where symery, not duplication, will be the vatchworld. Colorado Springs offers this to the Department of the Air Force.

As a businessman who has been very busy in civic, community, church and sulttary affairs. I would valcome the impact of the proposed relocation as an opportunity for our City to grow in a planned direction, and to provide to the sulttary establishment the economism of scale only available here.

JOHN C. CHAVEZ, PRESIDENT O

DOCUMENT 80

Lieutenant Colonel Tom Bertol Director, Programs and Environmental Division AFRCI-MEN/DEP Morton AFB, California 92409-6448

Dear Lieutenant Colonel Bertol:

Thank you for the opportunity to review and comment on the Draft Environmental Impact Statement for the proposed closure of the Los Angeles AFS and relocation of the space systems division which we received Saptember 6, 1990.

the have reviewed the proposal from the standpoint of potential impact to or from the operation of Colorado Springs Municipal Airport. Beaed on this review, it appears that all three alternatives associated with Potarson AFS would receive aircraft noise impacts resulting from the operation of the new runwey at the Colorado Springs Municipal Airport.

Of particular concern would be if the military planned any residential attractures at the siternative sites. The military has asked the City of Colorado Springs to fund the moise insulation of some military residences on Peterson AFS to mitigate significant noise impacts. Early planning based on the knowledge that there will be significant noise impacts on all of the alternative mizes should prevent the need for coetly mitigative measures in the future. 3.3

You should be meare that the City of Colorado Springs is exclusely considering the implementation of a right hand departure off the north and of the new runway. Should this be implemented, it is likely that a large portion of alternative sits 3 will be impacted by 45 and 70 ldm contours. The FAA would consider government office structures within the 70 ldm incompatible unless essentes to senter 35 db noise level incompatible unless essentes to senter 35 db noise level a incorporated into the design and construction of the structures.

Aside from noise considerations, any planning for structures located on any of the three elternative sites should include protection of the airport operations from the standpoint of proventing obstructions and proventing visual and electronic

Thank you equin for the opportunity to comment. Should a Petarson AFB alternative be chosen for the planned relocation we would be happy to easiet your planning effects to maintain competibility with the Colorado Springs Municipal Airport.

Sincerely.

Been dien.

over 550 scres of Mission Grove, the biology native survey of
over 550 scres of Mission Grove, the biology native survey of
over 150 scres of Mission Grove, the biology native survey of
over 150 scres and the screen of the Stephens Rangeroo Rat does
not occur in the areas east of Trautwein Road with the exception
of a single hangeroo rat located adjacent to the open space of
our Mission Grove 550 acre master planned business and residentia;
community.

Accessibility Pointed out is the existing access from Cactus Avenue. There are other points of access as follows:

Barton Street via Alessandro Boulevard would provide good access to Site I since Barton Street is already improved to the Air Force Base property.

There is a common property boundary between Regional's property and March Air Force Base which is quite steemers. Regional would be very cooperative in the design of road access within our development to accommodate ingress and egress to site 1 through Alessandro Boulevard. Mission Grove Parkway and Treutvein Moad. Alessandro Boulevard and Trautvein Road Treutvein Moad. Alessandro Boulevard and Trautvein Road City of Riverside and commodate to the City of Riverside and Council in the process of construction with completion schooling in the process of construction on the conformation of these improvments by the end of the year.

Adjacent Land Uses It is pointed out that Regional Properties' Mission Grove is comprised of approved land uses that will support the facilities of Space System Division, its subcontractors and housing for employees and their families. A breakdown of these uses approved under a specific plan approved by the City of Rivetside are as follows:

Approximately 300 acres are zoned for the business pack i.e. (M.5 light industrial). The first phase of the business pack amounting to some 50 acres is currently being developed.

A 47 acre commercial property will contein a 400,000 aquare foot community shopping center anchored by 8-Mart. Ralphs Grocery, and Payless Drugs. The project will begin next apring with Completion scheduled in the Fail of

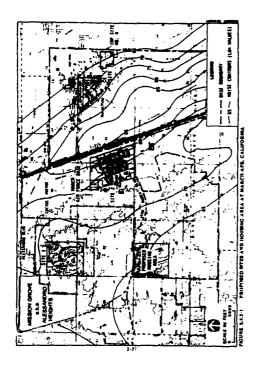

Approximately 650 apartment/condominium units will be built over a 3 year period beginning next year along with greenbells, bucycle paths, etc. throughout the entire project. These units are in addition to the low density 318 unit project on the north side of Alessander Boulevard currently being built and developed by Mission Grove as well as some 200 single family residential units planned for construction next year or the east side of Trauteen Road.

In summary, our support for Space Svatems Division moving to March Air Force Base is strong. We believe that any impact questions can and the requirements for Space Svatems Division can be requirements for Space Systems Division can be extended to the space space of the space o

> REPORT OF A SURVEY FOR DIPODOMYS STEPMENS! OVER THE SSO-ACRE HISSION GROVE PROPERTY CITY OF RIVERSIDE, CALIFORNIA

ABSTRACT

A directed survey of the 350-erre Mission Grove Property was conducted to determine the presence or absence of the Stephenes:
Rangaroo Rat. The majority of the site has been used in intensive agriculture over the last several decades and is not presently occupied by, nor does it provide suitable habitat for, <u>Dipodews stephenes</u>. Portions of the site, however, are not in extive agricultural use nor have been in the last several years and presently support populations of the apecies.

BACKGROUND

The Mission Grove properties are located within Section 17, Range 4 West, Township] South, in the Allesandro Meights area of the City of Riverside. The Site is bordered on the east by urban residential development and the northwest corner of Merch Air Porce Base, on the entire southerly border by an active orange exchatd, on the west by a scattered urban development in both an urban and tural context and on the morth by Allesandro Boulevard, a prime exterial. Lend uses to the north of Allesandro Boulevard vary frem vacant to industrial to residential.

The entire site is underlain by Tonslite of the Southern Californie Batholith. The site itself is located on the Perris erosional surface. Depth to bedicet is shallow and residual boulders of Tonslite outcrop frequently across the surface of the site (see Rogers, 1963). The batholithic material is in turn overlain by a variety of sandy leass in both the Follbrook Series and the Monserate Series (Knecht, 1971). The western pertian of the site which is occupied by Kangaroo Rats is underlein by both seil series.

Virtually all of the site lying easterly of Trautwine Road has been subject to active cultivation within the last mir months. active plowing has been limited only by boulder outcrops in the flatter portions of the site and by gullies that criss-cross the property in a dendritic pattern leading ultimately to a drainage on the west-central property line. The recently plewed areas are develo of vegetation except for various non-native grasses which are sparaely distributed with occasional specimens of Musterd (Brassics ap.). The various drainages support a riperian atrip composed of various species of villov (Saliz sp.), and Bule fat (Beccharis vimines). Active cultivation has extended well inside military reservation boundary that delimits the souteastern portion of the property. Vegetation westerly of Trautwine Read is reflective of past agriculture but has not been disturbed in the last several years. Ground cover is variable depending upon the age to most recent disturbance, but is generally compovarious adventitious native and non-native species including various Bromes (Browns sp.), Rabbitbrush (Haplopappus sp.), Flat-tapped Buckwheat (Errogones insciculatos), various Hustards (Brassics Sp.), Filstes (Eredium sp.), and Constel Sego Brush (Artemasis Californics). As is the case to the east, drainages are accupied by riperion strips. All of the drainage courses are entranched and there was flowing water present during the latter survey periods.

The Staphens' Rangaros Rat (<u>Dipodomys stophensi</u>) is designated as a threatened species by the State of California, and has been recently listed as endangared under the Federal Endangared Species Act (Fish and Wildlife Service, 1989). The Missian Grave site lies southerly of Sycamore Conyon and easterly of the Allesandro Heights area proper: beth ateas are known to support extensive populations of the Stephens' Rangaros Rat. In addition, there is a large population of the species known to occur within the boundary of March Air Force Rase.

Attachment to Document 83

Attachment to Document 83

Within suitable habitst, The Stephens' kangaroo Rat can be identified by the presence of burrows, seats (feeca), tracks and tail deeps, and tenueys (Gustafean, 1988) May, 1989). Trapping per se is not necessary to determine the presence or obsence of this species, assuming favorable habitst and autreping conditions. A lack of all of the above identified sign is safficiently conclusive as to the absence of the species. Because of the marked partitioning of habitsts by Stephens' Rangaroo Rat and by the more abundant Pacific Kangaroo Rat (Spirodowya agilis') it is possible to speak with a high degree of certainty as to which species is greenet given the vegetative habitst present. There are me habitsts suitable for the Pacific Kangaroo Rat within the boundaries of the site ner were any observed within a mile or more requise of the site.

PROCEDURES

An intensive pedestrien survey of the property was conducted on several field days during December 1988, and early January 1989. Approximately ten miles of linest transacts were welked during the course of the survey. The survey was focused specifically on those areas which afforded a suitable habitat for the Stephens:

Anaparee Rat. All besider sucreps in the spricultural fields were checked under the assumption that relictual populations might reside in the interior of the spricultural fields. In addition, the northerly beendary of the site was checked in some detail due to its proximity to known populations in Sycamore Canpen and the southeasterly corner of the property was checked in detail due its proximity to undisturbed and suitable habitats within the military reservation of Narch Air Porce Base.

Due to the lack of any habitat deemed suitable for the Pacific Rangaree Rat, trapping was not deemed to be appropriate to determine the species present on site. As would be expected given the autocology of the species, Stephens' Rangaree Rats were found only in disturbed but partially vegetated sites. Sites tetally lacking in vegetation were not occupied nor were sites densely overgrown to the point of exclusion of bare soil patches.

RESULTS

The area westerly of Trautuine Read does not centain Stepmens' Rengares Rat, with one erception. A single individual was lessated at the neutherly edge of a large central drainage where it was creased by a powerline and pipoline essement (see Pipere 3). This individual was clearly identified based on an active hurrow set and numerous drappings assignable to the games <u>Dipodenys</u>. An intensive servey was node of the area nutrousding this individual but no other Langaree Rata were found. It is felt with a high degree of certainty that this was literally the only individual in the area westerly of Trautuins Read (see Pieure 2).

Relative to the area easterly of Trautline Read, an intensive effort was made to find other burrows assignable to Kanaston The area immediately south of Allesandro Read, being in closer proximity to Sycamore Conyon than other areas of the preparty, was intensely surveyed to determine if any individuals remained along the road/field edge border. Ho Stephene' Kansaree Rat were identified in this area. That strip immediately south of Allesandro had been recently graded (within the last year) for the construction of underground utilities. This activity probably eliminated any useable edge habitat suitable for the species. Similarly, boulder outcrops forming "islands" within the large tracks of active sericultural land were eramined for the presence of the species. Although Colifornia Ground Squirzel (Spermoghilus beecheyi) were abundant, few other redent sign were seen were clearly assignable to either the Walley Pecket Copher (Themenys bottes) or to species of either backet Rice (<u>Percepathus ag.</u>) or the White-footed Rice (<u>Perceysous ag.</u>). In that the Stephens' Kangaree Rat has been noted by other workers (including this suther) stilling both the burrows of

Attachment to Document 83

Attachment to Document 83

squirrels and gophers, all such openings were checked carefully for the presence of scat; none was found.

The area to the southeast of the Mission Grove properties is known to support Btophens' Rangarae Rat. A fairly large population of the species occurs within portions of March Air Force Base. With this thought in sind, an intensive survey of the southeasterly portion of the property was conducted. Active estimates that apparently extended on a land-lease (7) basis onto a substantial portion of the military reservation. This activity has denyed such of the southeasterly area to habitation by the apacies. The only Stephens' Engagene Rats were neared well inside the military reservation boundary (at least one-quartet mile autaids the subject property boundary) immediately below the weapons depart (see figure 2).

The areas lying westerly of Trautwine Road are largely occupied by the Stephens' Rangareo Rat. The extreme southwestern corner of the property, that lying south of the power essement, west of Trautwine, north of the erange orchards and easterly of the existing devalopment line (see Figure 2) is occupied by a fairly large population of the species. Seventy-eight burrow complexes were noted during the course of the survey, however, this number does not represent a total count and is only indicative of the epulation level within that area. The area extending northerly of the power line corridor, south of the primary drainage course, and wasterly of Trautline Road is also occupied by the species but at a such lower intensity. With approximatly the same survey effort as at the more southerly parcel, approximately twenty to thirty burrow complexes were noted. Einiterly, this is not an absolute count but rather a relative indication of the species abundance in this erea. Mertherly of the central drainage and west of Treutline Rood, no burrow complexes were noted. probably due to the level of disturbance in this area and/or the closed nature of the existing vegetation. This latter area is a complex matrix of recently disturbed lands and heavy elder

vegetation. It is possible that one or two individuals of the species occur in this latter area, but they were not noted during the course of the survey.

AWALYS IS

The bulk of the Mission Grove properties has been subject to recent (less than one year) and extensive (presumptively several decades) cultivation. As such, it does not constitute useable habitat for <u>Dipodosys stephensi</u> and it is not presently occupied by that species.

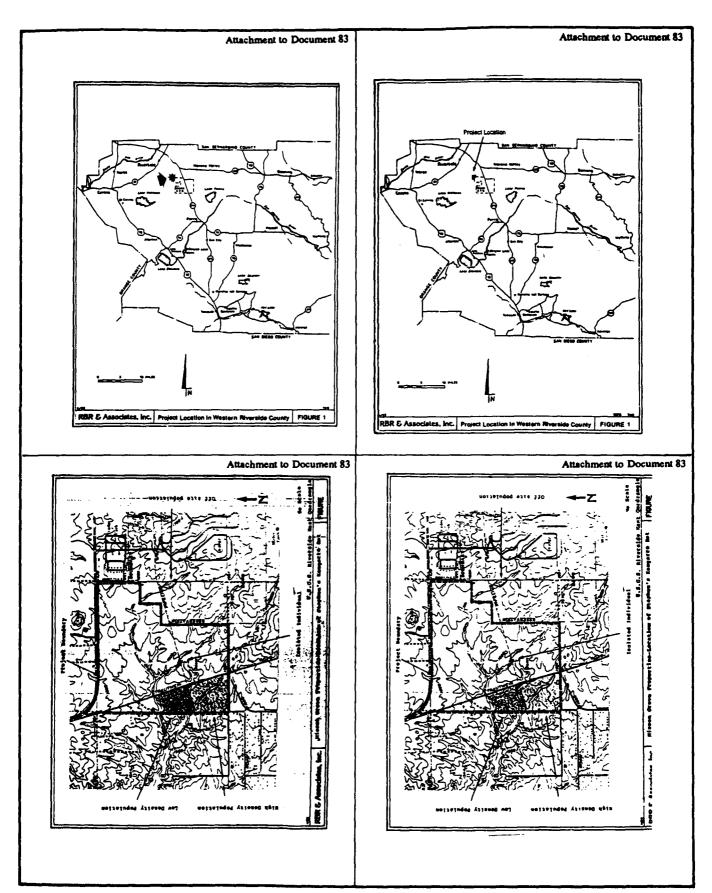

Known population of the Stephens' langatoo Rat are effectively isolated to the north by Alleaandro Boelevard or are isolated from the property to the southeast by an extensive area of spriculture extending onto the military reservation (and off the project Site).

Areas westerly of Trautline head are presently occupied by medium to low populations of the endengered species. Disposition of this latter area must await issuence of a Section-10A parant under the terms and conditions of the Federal Endampered Species Act.

Map. 1 pp. The purpose of my testimony will be to provide additional information to that included in the Dreft EIS related to highway projects included within the sought of SIP and Resure "A" program, and local street and road programs as related to transportation and local street and road programs as related to transportation, my conting the control of the co 1. STIP and Heasure "A" Highway Projects a. I-215 Presway Ungrade Project from Partis to Route 40 Junction The Draft EIS correctly notes on page 3.4-7 that "The California Department of Transportation plan to upper definition of Transportation plan to upper definitions of the Route 40 and the base, to freeway standarda." Housewar, it appears that the "Projected Conditions" data reflected by both Tables 4.4.3-1 and 4.4.3-2 do not adequately reflected by both Tables 4.4.3-1 and 4.4.3-2 **DOCUMENT 84 DOCUMENT 84** Existing Route I-219 Detween the City of Perris to the Route 60 Junction (2.5 mlses with the northern boundary of March ATS approximately 9 miles south of the Rt. 60 Junction) as a four lane expressway type facility (2 lanes in each direction) with a grade signalized crossings at major streets and direct access by muserous local streets and adjoining properties. The I-219 project will offer the public the implement of full streets and adjoining properties. Or full streets are directly of the control of the control of the control of the control of the control of the crossings and direct property access, but will also increase the facility from four lanes to an lanes (1 lanes) are each direction. Exhibit 1 shows the general extent of the I-219 freeway upgrade project and Exhibit 2 shows the project more specifically rejated to March AFS. Administration on Persary 1, 1988, and the California Transportation Commission has committee all needed funding for the property of the California California California California By December 1990 and avardang the contract by Narch 1991, it is anticipated that the I-215 freeway project will be completed by July 1993. By 1993, I-215 should provide excellent access to March AFS. b. Other Heasure, "A" and STIP Projects b. Other Beauty 12 and STEP Projects In addition to the I-215 project between Perris and the Route 60 junction, the sdopted STEP includes other projects which would directly improve additing with the western Riverside Responsible of the STEP includes other projects which we projects. Exhibit 4 is a listing of other projects which we projects. Exhibit 4 is a listing of other projects which we anticipate will be approved by the California Transportation Commission as part of the 1992 STEP update: this enticipation is based upon our discussions: "With CTC and California staff responsible for preparing recommendations to CTC. In addition to these projects, we also anticipate that a project on houte 9.8 from the Orange County line west to Route 55 and further be included in the 1992 STEP. CTC is acheduled to formally act on staff's recommendation on September 16, 1990: I will submit subsequent critical comments by your September 24, 1990 deadline to verify such action. RCTC had Bechtel Civi) Inc., review Tables 3.4.3-1, 4.4.3-1, and 4.4.3-2 to determine if the Draft ZIS "Project Conditions" forecasts of traffic volume to capacity ratios (V.C) and jevel of Service (LOS) adequately reflect the 1-13 freeway upgrade project. Bechtel's conclusions are as follows: 6.9 1996 "Projected Conditions" Base Site 1 Site 2 V/C LOS V/C LOS V/C LOS 6.8 Interstate '15 Alessandro to CA 60 .56 A .62 B .62 B .62 Alessandro to Van Buren .56 A .65 B .66 B South of Van Buren .59 A .63 B .63 B .63 Sechtel's conclusions are based upon a six-lane freeway specity of 120.000 wehicles per day. The EIS assumes a capacity of 80.000 wehicles per day for the sixtling four lane state highway with at grade intersections. The EIS then escumes a capacity of only 84.000 wehicles per day for the improved six-lane freeway project. The FMMA approved design for the 1-215 freeway upgrade project includes some improvements to Cactua Avenue and Alexandro non-half an hie east of the interchange: Alexandro vill be videned for approximately 1000 feet on each side of the interchange. Bechtel's estimate of 170,000 vehicles per day for the improved I-215 project is reasonable in relation to comparable existing freeway segments. For example, Celtrans 199 published traffic volumes document over 130,000 vehicles per day on I-215 between Ine 60/I-215 connection and the 60/91/I-215 interchange: congestion, at 11,600 vehicles per hour, now occurs only during the peak hour. Interchange. In addition, 40% of the Measure "A" 1/2% funds are to be allocated to cities and the County for local street and road projects. Proposition [1]. approved statewise by voters in June 1990, also dramatically increases state ges tax questions to local governments. Commander of these funds by local governments is the result of annual capital college of the proposition of the second capital capital approved to the second capital capital capital approved to the second capital capit 6.10 The I-219 freeway upgrade project also includes freeway to local major street interchanges at both Cactus Avenue (which page 3.4-7 of the Draft ISE describes as providing access to the West and Main gates of March AFB), and Alessandro Boulevard.

comments on this Els.

. Selationship of ASD Job Davelooment in Riverside to Commuting

At the present time, there is a tremendous imbalance between jobs and housing in the western Riverside County area. Many people who work in Los ampeles and Orange Counties come to Riverside County for more affordable housing. Although no specific numbers are known to so, I pallave it a reasonable to conclude that a number of Los Angeles AFS and SED workers are Riverside County residence who communicate to their jobs.

Traffic assulation atudate parformed by the Southern California Association of Governments (SCAC) indicate that one of the most effective measures to improve traffic conditions within the southern California region would be to seek a better behave between jobs and housing. This strategy is the corneratons of SCAC Growth Management Plan and is included in the South Coast Air Quality Management Plan and is included in the South Coast Air Quality Management District (SCACHO) and the South Coast Air Quality Management District (SCACHO) and the South Coast Air Quality Management District (SCACHO) and the South Coast Air Quality Management District (SCACHO) and the South Coast Air Quality Management District (SCACHO) and the South Coast Air Quality Management District (SCACHO) and the South Coast Air Quality Management District (SCACHO) and the South Coast Air Quality Management District (SCACHO) and the South Coast Air Quality Management District (SCACHO) and Coast Air Quality Management District (SCACHO) and Coast Air Quality Management District (SCACHO) and Coast Air Quality Management District (SCACHO) and Coast Air Quality Management District (SCACHO) and Coast Air Quality Management District (SCACHO) and Coast Air Quality Management District (SCACHO) and Coast Air Quality Management District (SCACHO) and Coast Air Quality Management District (SCACHO) and Coast Air Quality Management District (SCACHO) and Coast Air Quality Management District (SCACHO) and Coast Air Quality Management District (SCACHO) and Coast Air Quality Management District (SCACHO) and Coast Air Quality Management District (SCACHO) and Coast Air Quality Management District (SCACHO) and Coast Air Quality Management District (SCACHO) and Coast Air Quality Management District (SCACHO) and Coast Air Quality Management (SCACHO) and Coast Air Quality Management (SCACHO) and Coast Air Quality Management (SCACHO) and Coast Air Quality Management (SCACHO) and Coast Air Quality Management (SCACHO) and Coast Air Quality Management (SCACHO) and Coast Air

to achieve job/housing belance.

Although the Drift IIs must focus on the immediate traffic impacts of SID relocation to March AFS, with resulting higher traffic numbers on 1-215 and local access streats. It should be recognised that such relocation should also have the affect of reducing some longer distance trips on already conquested freeways (principally Boottes h amende worker who currently relocated to the second located to the second located to response to range County would choose to relocate to Riverside County in the event of job relocation. Further reducing commuter traffic. Finally, since there is substantial unused highway capacity for reverse commutes importing commutes from los Angeles/Orange to Riverside and afternoon/swening return trips; the commute trips for unrhars who choose net to move from existing los Angeles or Orange Counties residences will be relatively quicker. less streadful, and less polluting.

It would be appropriate for the EIS to consider the traffic impacts of these job development related issues as mitigation to more sits specific traffic impacts related to March AFS sites for relocation of SED.

Measure "A" Transit and Ridesharing Programs as Traffic

Within the broader southern California region, four counties currently have voter approved local sales tax seasures for

transportation (Riverside, Los Angeles, San Bernardino, and San Dage). Each of the individual seles tar plans includes funding for Commuter Reil. These countries, plus the Countries of Orange and Ventura, which also have sales tar Reiler of Orange and Ventura, which also have sales tar Reiler consesures pending, have poined together to develop a regional commuter rail system in response to Celifornia Saneta Sill 162 (Freeley, Statutes of 1950). The Commuter Rail Plan, which is schwillied for completion by Dacesser 1950, will see the constant of individual commuter rail planning and the commuter rail planning that the commuter rail planning that the commuter rail planning that the commuter raile of the community

California system.

The Riverside County portion of the SB 1402 Plan will include commutar particle on two real lines - the Atchison Topake and senter Pa Railway Company; (ATST) and the Topake and from San Bernardino through Riverside to Pullerton (Grampa), and the ATST Fas Jacinto Suddivision from Riverside to Remet. RCTC's voter approved Measure "A" <u>Transportation Instruments Plan</u> backless 3100 Million (1988 dollars) for commuter Fail. RCTC and ATST have contracted with Morrison-Topake Remeter and Program for point commuter/faight use of the rail lines. Since the Ban Fordess Engineers to develop a specific plan and program for joint commuter/faight use of the rail lines. Since the Ban service to southern California and its use line effective countries' commuter rail programs. Los Ampeles County, Orange County, and San Bernardino County apencies are participating in the Study.

The points are appropriate to note related to commuter reil vith reference to the EIS. First, commuter reil earwice the March APS is proposed to be provided with the Sen Jezinto Branch line. Second, although the initial service up to 6 Riverside Commuter trains per day; would be from Riverside Riverside Commuter trains per day; would be from Riverside intermediate level of service (7 to 18 Riverside Commuter trains per day) would be provide for commute trains per day) would provide for commute trains per day) would provide for commute trains per day) would provide for commute trains per day) would provide for commute trains per day) would provide for commute trains per day) would provide for commute trains per day) would provide for commute trains per day) would provide for commute trains per day) would provide for commute trains per day.

Angules/Orange to Riverside County locations.

In light of the Ressure "A" and state bond funding commitments, RCTC does not believe there is really a question of "if" commuter rail service will exist. Although, the plane and programs have not yet been completed to tell us "when" various levels of commuter rail service will be provided, it will be provided, it will be provided to the plane of the plane of the plane of the plane of the plane will be provided to consider the likelihood of commuter rail service as a mitigation essaure for traffic impacts of BSD relocation to Rarch AFS.

6.12

DOCUMENT 84

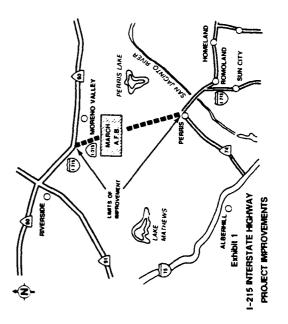

Attachment to Document 84

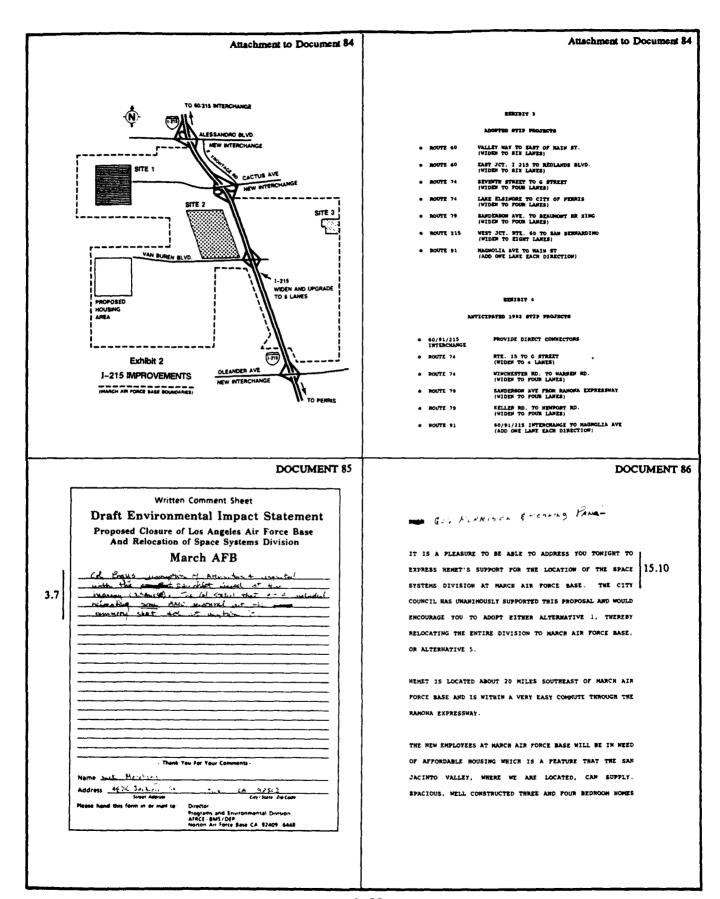

RCTC's Ressure A Plan also includes 5% of total funding for appecialized Transportation Programs. Such programs include financial sessistance to stimulate greater use of rideshers, and vanpool and commuter bus programs. Punds are currently scrimulating for such purposes which new not been allocated. In light of RCTC's policy support for job/housing balance read strategies, it is ressonable to assume that we should vanpool, and bus pool assistance programs for SSD workers. Such programs are also appropriate as matugation peasures for traffic impacts of SSD relocation to Merch AFB

Thank you for this opportunity to provide testimony and input to the EIS process.

STATEMENT OF U.S SENATOR PETE WILSON CONCERNING PROPOSED RELOCATION OF THE SPACE STSTEMS DIVISION/LOS ANGELES AIR PORCE BASE THURSDAY, AUGUST 30, 1990 RIVERSIDE, CALIFORNIA

Colonel, members of the Nearing Panel, I am Michael Wootton, State Director of the Celifornia Staff of U.S. Senator Pate Nilson. I appreciate very much the opportunity to present a statement on behalf of Senator Vilson before the hearing panel this evening.

Senetor Wilson's letter of June 26, to the Monorable Donald B.
Rice, Secretary of the Air Force, outlines the Senetor's views
concerning the proposed relocation of the Space Systems Division.
I would like to include a copy of that letter for your review and
consideration tonight.

In the interest of the hearing panel's time, I will briefly describe Senator Wilson's view concerning the proposed relocation. Simply stated, Senator Wilson is very skeptical and doubtful that any supstantial budgetary benefit and taxpayer cost navious can be affected and demonstrated by any relocation.

1.1

As Senetor Wilson notes in his letter to Secretary Rice:
Because the Defense Department must struggle with the daunting
task of reducing or eliminating major weapon and ship systems, as

well as signhing its personnel levels, the expenditure of valuable time and money to undertake a major relocation of SSD would be judicrous. Congress would seriously question the shilly of the Air Porce to establish spending priorities that will advance U.S. security interests over the next decade if it proposes to uproof the highly sophisticated manpower and RAD assets in Southern California assets and Southern California assets are Southern California assets and SAD.

The Air Porce cost estimate to remove \$50 from California, for example, approaches 40 percent of the FFF1 Peacekeeper Riselle funding request. It also far exceeds the revised flywey cost for one 8-2 bomber, equals the price of 15 or 16 7-15E Fighter Aircraft, and could conceivably claim 20 percent of the budget for the Strategic Defense Initiative.

furthermore, no compelling reason exists to transfer \$50 out of its present region. For years, Southern Chlifornia has provided the optimal mix of a skilled professional labor force, satellite research centers, and private sector serospace assistance to the Division that no other state can easily duplicate.

It is the Senator's view that the costs incidental to relocation would more than offset any projected cost savings that could be calculated by Air Force enalysts.

Additionally, Senator Wilson believes the greater the proposed distance of relocation, the greater the cost. Similarly, the

DOCUMENT 89

DOCUMENT 89

greater the distance Space Systems Division is moved from its present configuration, and its immediate proximity to the Southern California Aerospace industrial base, the More likely the diminishment of its ability to readily achieve its mission objectives, which are no dependent upon that industrial base.

Despite all this, should the Air Force conclude that a relocation should be undertaken, Senator Milson, from his vantage point on the Senate Armed Services Committee, would view that budgetary, policy and logistical analysis very critically.

I appreciate the time you have allowed me this evening

The Honorable Donald B. Rice Secretary of the Air Porce The Pentagon Machington, D.C. 20301

Dear Mr. Secretary:

We are writing to strongly urge you not to re-locate the Space Systems Division (SED) of Los Angeles Air Force Base outside of the State of California.

According to estimates developed by your own Service, the total cost of closing SED and moving ata personnel, facilities, and certain industrial support structures out the state could possibly reach one billion dollars, sec. it is state could possibly reach one billion dollars, sec. it is sometime california, we understand that the allegation only spends a fraction of this amount over time primarily to construct new military housing units for active duty personnel ussigned to this activity.

In light of the fact that the defense bedget will decline throughout the 1950's to the meet significant estent since the end of the Vistnam Mar, the maintaine of SBD within California would represent a prodent cost-caving measure as the Air Force Secse ever more difficult destens on how to sustain resources.

Because the Defense Department must struggle with the daunting task of reducing or eliminating major weapon and ship systems as well as sleshing its personnel levels, the expensions of valuable time and anney to undertake a rajor rejectation for soluble time and anney to undertake a rajor rejectation the ability of the Air Force to establish spending priorities that built advance u.s. security interests over the next decades but till advance u.s. security interests over the next decades it proposes to uproof the highly sophisticated manpower and had assets in Southern California associated with SSD.

The Air Porce cost estimate to remove \$50 from California, for estample, approaches 40 personne of the FY91 Peacebeeper Missils turking request. It has a forecast the revised flysely cost for one 8-2 bomber equal succeeds the revised F-15K Fighter Aircraft, and Could conceivably claim 30 percent of the budget for the Strategic Defense Initiative.

MATER Stragter, Proces Courty

SPACE SYSTEMS DIVISION RELOCATION

hoguet 30, 1990

7100 D.S.

For the record, my name is Herton Younglove, Chairman of the Riverside County Board of Supervisors. This evening I am also speaking in my capacity as Chairman of the South Coast Air Ouality Hanagement District and Chairman of the Riverside County Habitst Commenvation Agency, a joint powers authority.

Pres the ventee point afforded me by these positions. I feel will qualified to address several areas of concern mentioned in the availability, air quality, and quality, and quality, and quality, and quality, and quality, and quality, and quality, and quality, and quality, and quality, and quality, and analysed species. Lets in the evening you will receive technical commants requrding these issues and so, sy comments will be brist end of a more general nature.

Among the presenters, you will hear: Chief Administrative Officer for Riverside County, Gary Cettrell, addressing available residential and industrial land in the unincoprarted areas. Todd Boeler, Deputy Planning Director, speaking on Jobs/Mousing Balance and Riverside County's Air Quality Element of the General Plan. Bob Walse, Interia City Manager, City of Riverside, Discussing endangered aspecies.

Ame Chairman of the Board, I welcome you to Riverside County, the fasteast growing County in the State. In addition to our great quality of life, Riverside County and the entire Inland Empire, offer a wide variety of affordable housing as well as a large amount of available industrial and commercial land all in close promisity to the RAFS sites. Given rescondbly priced houses, those realities relocating to March Air Force Base will have ample opportunities for home ownership without negatively impacting the housing market. Those industries that may wish to locate facilities excited. Those industries that may wish to locate facilities are considered to the constant of the consta

Since there is much available land planned and prepared for industrial development, off-base construction in support of SED will be easily accommodated in the community without negative imports.

In considering air quality, I do not agree with the EIS conclusion of degraded air quality associated with the relocation of ESD to

DOCUMENT 90

DOCUMENT 91

March. Bather, there would actually be reduced emissions from motor vehicles because of a reduction of commuting times. Purther, with jobs moving from west to east, a not imprevenent to the air base would occur because emissions would have less exposure to emilight as they move out of the basin and there would be significantly fewer people ispacted due to the downwind location of March and the second of the community of the community of the community of the community of the community of the community of the community of the community plan is to move jobs closer to the homes in Riverside county thus eliminating long commutes into the western portion of the basin.

The Monorable Donald S. Rice June 24, 1990 Page Two

Party WILSON

Purthermore, so compelling reason emists to transfer SED out of its present region. For years, footbarn California has provided the optimal mis of a skilled professional labor force, establike research contexts, and private sector exceepage essistation to the Division that so other state can easily duplicate.

Moving the Space Systems Davision out of California, therefore, makes no ease from a fiscal or propressments point of view. We own the American tarpoyers more than to see their military follows to tear spart a domestic base that the air Porce will need for the forse-shie future only to re-besild it hundreds of miles away.

Sincerely,

long commutes into the verters portion of the best properties and other bielegical resources, Riverside County and its cities have been very settive in efforts to mitigate severes impacts on biological resources. Not only has the effort resulted in the creation of the fabitat Conservation Apency to protect the Staphen's Emapsarco rat, in particular and other endanquered species, in general, but the County has also prepared a Federal Null-impacies Rabitat Conservation Flam. Although there will be some mitigation controlled no negative impact on the preservation of the very special greamed appaired. In plan calls for a Cartain amount of government taking and the SD fits within this. 13.2

In summary, the County, its cities, and other agencies are working to perfect an already desirable quality of life. 850 families vir find affardable homes in a pleasant life environment, vendors vill discover researable priced industrial land, air quality in the besin vill improve, and biological resources will be protected.

August 27, 1990

Dear Lt. Col. Bertol:

I am very supportive of the Spece Systems Division and the Ballistic Missles Jeanzation remaining as an important contributor to the California economy.

Lieutenant Covernor

Leo McCarthy

State of California

If the draft Environmental Impact Statement process indicates, we would fully support and pledge the State's assistance in backing the March Air Force Base alternative.

Leo Miloony Leo McCarthy

Lt. Colonel Tom Bartel pirector of Programs and Environmental Division

Dear Lt. Colonel Bartol: I as writing to offer my wholehearted support for Keeping the Ballietic Riselle Operation (BMO) at its present location, while relecating the Space Systems Divaton (SSD) to March Air Force Base.

The less of Morton Air Porce Base will have substantial economic impact on out area. The less of the BNO would make this impact even harabar. By keeping the BNO at Morton and sowing the SBD to March, the Inland Expire will have the opportunity to minimize the negative effects of Morton's closing.

Please give these matters your most serious consideration as they are of vital importance to the Inland Expire and its residents.

Headquarters Air Force/LEEV-P Pentagon Room 5-D483 Washington D. C. 20030-8130

Attn: Lieutement Colonel Randall Sunner

Re: Report of Local Economic Consequences of Potential Relocation of Bellistic Missile Organization, Horton AFS, San Bernardino, California.

Dear Lt. Col Bunner:

This letter is a follow up on the meeting held on Monday, August 6. 1996, by representatives of the Air Force with local community representatives and concerning the draft report of the local economic consequences of relocation of the Ballistic Missile organization ("PBO"). We appreciate the opportunity to have met with representatives of the Air Force. On express our views and those of the Ban Bennardine Area Chamber of Commence, and Apopt that these of the Ban Bennardine Area Chamber of Commence, and Apopt that the important issues raised at Monday's meeting viil be considered in preparing the final report.

4.12

In preparing the final report.

It is our understanding that the report is being prepared to comply with section 187 of Title 10 of the United States Code and will be submitted to the Committee of the Senate and Bouse of Representatives onesquences of the Senate and Bouse of Representatives onesquences of closing the SMD. In light the Department of the Paper of the P

With regard to the region studied, it is our understanding that the Air Force Recognic Resource Impact Statements INSTANCE Actions of the Control of the Con

Page 3 an aurmardine and Rivervide Counties. The use of this region distorts the effects of the closure of the SMO. As Bernardine and Rivervide Department of the SMO. As Bernardine and Rivervide intinct leads economies, next of which will real little servery distinct leads economies, next of which will real little affects that harpest county of the No. As fact, San Bernardine County in the United States. The effects of the Country of the SMO will be felt permarily in the cities of San Bernardine, Riphland, Rediands, Less Linds and Colten. It is the effect in the receive of these dicties which whell he measured to reflect in the receiver of these dicties which whell he measured to reflect the the receiver of these dicties which whell he measured to reflect the the receiver of these dicties which whell he measured to

reflect "leeal" impect as mendeted by 16 UEC oscillar 2617.

In section 2 of the report, regional income and employment impacts are compared to projected performance without closurs of the 800. Newwer, we understand that the comparative figures, those purporting to reflect the economy without closurs of 100, do not take into account the effect of the pending closurs of 800, do not take into account the effect of the pending closurs of Goorge and Ection Air ferce asked, both located in Non-harmonine order to the comparative and regional employment. By despring the comparative approach as you have for the data summerized at tables 2-2, 2-4 and 2-6, it is mislesding not to use figures which include the effect of the closurs of these base. He strongly encourage yee, in the data presented in section 2 of this report, to include the closure of injures which take into complete the closure of closure of the take into account the committee of the closure of the closure of serious and Goorge Air Porce Innes.

Bases.

Finally, such of the data contained in the report ruflects the commony of the gratter Inland Empire, in seme cases, and the greater Southern Children's area in other cases. While the Caltenyian Bernardine/Highland/Bedlande/Leme Linds area deem, to seme extent berefit from the growth in the scenesy of the Seethern California area, it has not enjoyed all the fruits of that growth as have other communities. Own meds only compare the growth in the Omnarie portion of San Barnardino County to the event in 1800 as have other Communities. Own meds only compare the growth in the Ownarie portion of San Barnardino County to the server is 1800 as seven of the Galley of the San Barnardino and lay a small benefit, comparatively, of sconesic growth in the Southern California region. We strongly encourage you, in this report, to look more closely at the sense of the San Barnardino Valley area to assess the tree effect of the closure of the 1800. For instance, and as disconsed at the hearing, figures included in the draft report paint quite a best in concerning creaming the sense of the se

DOCUMENT 95

DOCUMENT 96

Hendquarters his Force/LESV-7

San bernardino Valley area. Rather, this area is absorbing new office space at a much lower rate than the county, and the region at large, and is experiencing little development of new office space, compared to, for instance, the Ontario Brea.

Once again, we thank you for the opportunity to address our occements to the draft report. We will be happy to provide whatever data is available to us to help to give an accurate a picture as possible of the effect of the potential closure of the SMO.

Very truly yours.

At the initial scoping setting the proposerus of the relocation here cited as one of the attractions our high quality of life. According to the EIS, quote. The decision to propose the cleans of los amples AFB was based on a number of operational and quality of life issues." Well, what is quality of life "Rost residents of the Pikes Peek Ragion will cite proximity to the mountains, climate, relatively clean air, water, and feeling of personal safety, friendly and easygoing pace, along with cultural amenities, as characteristic of our own quality of sandation, supportant to remember that los angles stuelf (and Detroit, associated to the control of the control

Providity to miture. We still have a charge to preserve pure.

The LIS states clearly that decrease in air quality would result free the relocation. Follution concertations are predicted to substantially the relocation. Follution concertaines are predicted to substantially states are considered to the relocation of t

Solid wastr would increase by 67.6 tons per day in the peak year and 55.6 tons/day thereafter. The volume and composition of hezardous "haterials used and shored on Peterson or Falcon AFB would increase; this would 'increase the potential for accidental spills which could result in adverse effects on public health, water resources, solid, and biologial resources. The current volume and composition of the wearte stream for Arrograce Corp. Would be transferred, with the exception of absence containing wastre. In other words, the relocation would include importation of healthcome whether to 21 Peac Court.

of hazardous westers to 11 Peac County.

That about matter? "The potable matter desand for the proposed action would increase average daily desand 115 in the peak construction year and 95 during operations." Were the Falcon site choser, "increased water forward would accelerate depletion of the aquifer"—Falcon's -an water source is a groundwater aquifer that is already overdeathed by 5000 sere-fert per year, being used faster than it can replanish itself. Feteron's auter source is, like all of Colorado Springs, 55 Frankshami time!. Feteron's auter source is, like all of Colorado Springs, 55 Frankshami under 100. capacity on peak days, where would an increase come from?" "Construction of an upgraded facility to handle the increase desand is planned." Does this refer to the Momestake II water project, still, I believe, tied up in litigation? The issue of water importantion from the Bratern Slope is only going to grow in complexity, we are a semisric to

DOCUMENT 98

arid region. I've heard bhere are more water lawyers in Colorado that all all the reas of the United States. The whole selection of mater and water right is a landors's box of complex issues as anyone the host every listened to a discussion about Colorado wilderness bills known. Stirring up this hormet's nest could result in costs and delays not figured into the current projections. Merever it comes from, water is finite in Colorado, and it behooves us to bear this in aind in any discussions regarding future growth.

Another interesting note in the EIC prompts thought on another quality of life aspect. "maker quality in the Arkaneas River Basin is generally adequate to support note designated uses except in the central portion counts and mattle impair the designated uses." "My seek to stiract new sources of wastes and pollution while we currently have an open sever to clean up...cyanide hillsides left from the old gold mill (doubtless also the source of the heavy metals in Fountain Creek...open-tit mining cars...excessive carbon monoxide levels...not to mention desperate heads in douction sate of the country of

more jobs to local peaple?

Currently, NE--almost one-fifth--of our total employment is military-related. Overrellance on single industries—the boomtom mentality--has proven fatal to many communities in the past. In the 80's, Colorado Springs was the fastest-growing sity in the state and the twelfth in the mation. How, suddenly, we're in a 'bust' phase. With our current economic situation and the current military situation in the Fiddle East, it is permaps seductive to consider more military facilities here as a quick-fix paracra. 25.05 of goods how the silitary facilities here as a quick-fix paracra. 25.05 of goods how the silitary facilities would put us right back on that boom/bust cycle, with the same industries interdependent, that we need is greater diversity in qur_econome, and a greater chancement of educational, social, cultural Civersity. This is what makes for a living, sustainable, saciting community.

what makes for a living, sustainable, exciting cormunity.

Lieutenant Colonel Bartol Chairman, Environmental Impact Studies Team c/o Colorado Springs Chamber of Commerce P.O. Drawer B Colorado Springs, Colorado 80901	Proposed Closure of Los Angeles Air Force Base And Relocation of Space Systems Division Kirtland AFB
Dear Lisutenant colonal Bartol: The crisis in the Parsian Gulf brings home how absolutely essential a strong, effective military is. Without it, our security can be directly threatened as can without it, our security can be directly threatened as can countries depend upon. In short, without strong and effective military the United States—indeed, the entire world—would be at the marry of any remeade attempman who could muster an army and use it to steal others' wealth and depose their governments. The crisis in the Parsian Gulf size brings home the unique advantages Coloredo Springs will provide the Air Force abould it decide to relocate its Space Systems Division thers. The men and women of Air force space Command stationed ir. Coloredo Springs play a delly role in the Gulf crisis as the eyes and ears for our troops overseas. Stationing those who are responsible for the procurement of seatablite systems near those with the appayer and the nation; see will be ment to the appayer and the nation; see will be ment to the couldn't be a better match. Coloredo Springs stands head and shoulders above any	Way in 1 seker
other proposed location. It has planty of attractive, affordable housing and its meny services would allow it assliy to accommodate the large inflix of New Air Force suployees. In addition, the people of colorado Springs are committed supporters of their military community and. I ac cartain, vill take every possible action to settle these members of the military space community quickly and painlassly into their new home at the foot of the Rockies. I sm certain that, as you consider Colorado Springs.	- Thank You for Your Comments -

15.10 town the control of the Albuquarque City Countil and the manhers of our community, I would like to microgram your cerious consideration of relocating the Space Systems Bivision to Election County

Ririnam arr royce mass.

How Postice is an ideal location for the Space Systems Division does to its special character. Our commitment to the preservation and development of our quality of life gives us a commitment of the preservation and development of the preservation of the preservation of the preservation of the preservation of the preservation of the preservation of the preservation of scientific and technological personnel of any state. Notice-lass scientific institutions such as less chappes of scientific institutions out in the preservation of the pre

Leastly, Albuquerque's long standing concern for honoring its historinal and subtural backgrounds marge with its magnificent environment to consistently offer a quality of life that is without parallel.

Respectfully,

Steve D. Gallegas, President
Albuquerque City Council

STATEMENT BY SEMATOR JEFF SINGAMAN PUBLIC HEARING DRAFT SIS ON PROPOSED WELOCATION OF SPACE STSTEMS DIVISION SEPTEMBER 7, 1999

I regret that I cannot be in Albequeryee in person tonight to comment on the draft Environmental Import Statement for the proposed closure of Los Ampales Air Perce base and relocation of the Space Systems Division. After reviewing the draft EIS, I believe that the case for relocating the SED to Exritand is a strong one. There are clearly no obvironmental issues that would stand in the way of a decision to locate at Kirtland, and pull occluding these are resonately such a decision would be in the best linearests of the Air Jerce.

15.10

The Environmental Impact Statement is one of six studies required by statute before a final decision is made on a base clower. I understand that the other fire studies, on the first that the statement of the studies of the statement of the stat

Important factor in Eurland's fower are the premiumly of complementary RaD facilities and New Healton's strong orience and the strong accisance and the strong the strong accisance and the strong the strong accisance and the strong programs and swreeces three other lay force laboratories, including the Maspons Lab. Consolidating BSD, STC, and the Waspons Lab could result a synargy that would beseff the entire structure, as well as provide for sace contributions of STC and APML, and will cartainly consider compeliating of STC and APML, and will cartainly consider compeliating will be given into the SD facilities located proper heat special valid and size will be a familiar with, but which can offer significant assets should the division locate at Eirtland.

DOCUMENT 103

DOCUMENT 104

Prominity to the national laboratories, and colocation with familia in particular, is a strong argument in favor of locating SBD and the Aerospace Comporation at Euriand. Sendie and Los Alamos are unparalleled research and development institutions, with expertise in many dissiplined important to Space Systems Division. The Univarity of New Memico is a major research university which can offer a considerable mount of Lechnical and scientific support to the Air Porce. This is also true of New Memico Technical and scientific support to the Air Porce. This is also true of New Memico Technical Control of

- AN FOUAL OPPORTUNITY PMPLOYER -

Even more significant is the importance of these scientific and technical resources taken together. New Maxico has a vary strong science and technology orientation which can provide an unparalleled base for operating SSD and the Aerospace Corporation. New Memico has a large pool of technically trained individuals, as well as a large pool of individuals with security of the contract her feet of the contract of t

The final point I would make is on prospects for the future of \$ED at its new base if it is relocated. Obviously, the Air Force does not went to be in a position 10 or 20 years from now where a city's encroachment on a military base requires another relocation. Rittiand's size and location makes that all but in the second of the conting \$ED at a calculation and the conting the conting the control of the control of the city, with all of the advantages in culture and infrastructure that go with a city; and a been which can handle a very considerable expansion without feet of encroaching upon the city, with snowgh land to provide all of the advantages of a rural location. The Air Force can be confident that Erriand would compose the city, with snowgh land to provide all of the advantages of a rural location. The Air Force can be confident that Erriand would compose the best of the control of the

The final basing decision will be based on the results of this EIS and the other studies now underway. The EIS clearly states that there are no show-stoppers to relocating to Eistland. I as confident that the other studies will lend further support Albuquesquey I look leverad to working with the Air Force Rivaled Albuquesquey I look leverad to working with the Air Force Rivaled Air Serve Sees, and the people of Albuquesque as this process moves forward.

THE TELECOMMUNICATIONS NETWORK AND SERVICES AVAILABLE IN THE ALBUQUEROUS AREA. THROUGH U. S. MEST AND INDEPENDENT VENDORS. ARE EXTREMELY WELL SUITED FOR CLIENTS SUCH AS THE AFSSD.

THE U.S. MEST NETWORK IN THE ALBUQUEROUE AREA IS COMPRISED OF 18 SWITCHING CENTERS CONNECTED BY DIGITAL INTEROFFICE FACILITIES. ALL THE SWITCHING CENTERS ARE STORED-PROGRAM. OR ELECTRONIC SWITCHES. TEN OF THE 18 ARE DIGITAL SWITCHES.

ALTERNATE ROUTING IS IN PLACE FOR MOST INTEROFFICE FACILITIES.
ADDITIONAL ALTERNATE ROUTING COULD BE BEADILY PROVIDED. IF MEEDED.
TO MEET THE NEEDS OF THE AIR FORCE.

KIRTLAND AIR FORCE BASE IS SERVED BY ONE OF THE MOST MODERN PRIVATE NETWORKS IN THE U.S. MILITARY SYSTEM. THE AIR FORCE OWNS AND OPERATES AN AIST #5 ESS DIGITAL SWITCH.

FIBER OPTIC TECHNOLOGY MAS BEEN EXTENSIVELY UTILIZED BEHIND THE SWITCH AND THE AIR FORCE IS CONTINUALLY EXPANDING THE FIBER METWORK ON THE BASE.

INTEROFFICE FACILITIES LINKING KIRTLAND AIR FORCE BASE TO THE U.S. WEST NETWORK ARE FIBER OPTIC FACILITIES. ALL SPECIAL SERVICE CIRCUITS TO AND FROM KIRTLAND ARE SERVED VIA FIBER OPTICS.

.>_

U.S. MEST CURRENTLY MAS FOWN FIBER OPTIC INTERFACES ON KIRTLAND AIR FORCE BASE. THROUGH AN AGREEMENT WITH THE AIR FORCE. U.S. MEST IS ALLOWED TO PLACE ITS OWN FIBER FACILITIES ALONGSIDE THOSE BELONGING TO THE AIR FORCE. THIS AGREEMENT, COUPLED WITH THE EXISTING INTERFACE LOCATIONS MEANS THAT U.S. MEST CAN EXTEND ITS METHORS ANYWHERE ON THE BASE RAPIDLY AND ECONOMICALLY TO SERVE PRIVATE CUSTOMERS, SUCH AS CONTRACTORS.

NEW MEXICO IS NOME TO TWO NATIONAL LABORATORIES, SANDIA AND LOS ALAMOS. ALSO LOCATED IN THE STATE ARE THE WHITE SANDS MISSILE RANGE AND THE MASA WHITE SANDS TEST FACILITY WEAR LAS CRUCES. MOLLOMAN AIR FORCE BASE WEAR CLOVIS. WITH THE EXCEPTION OF CAMMON AIR FORCE BASE, ALL MAJOR GOVERNMENT INSTALLATIONS AS WELL AS THE STATE'S THREE RESEARCH UNIVERSITIES (LIMM, MNSU, MM TECH) HAVE A DIRECT FIRST OPTIC LINK THROUGH U S MEST'S NEW MEXICO NETWORK. ALL OF THESE INSTALLATIONS WILL MAYE DIRECT FIRST COMMETCIVITY AS WELL AS FULL DYERSITY ROUTING IN 1992.

THE ADVANTAGES OF THIS EXTENSIVE FIBER METWORK TO A NIGHTECH. MIGHTSECURITY USER ARE MANY. THE SECURITY OFFERED BY FIBER OPTICS UMEN COMPARED WITH COPPER CABLE OR MICROWAVE RADIO IS UMPARALLELED. THE SPEED AND RELIABILITY OF FIBER SYSTEMS ALLOW TRANSMISSION OF TREMEMODUS BUANTITIES OF DATA ESSENTIALLY ERROR FREE.

IN ADDITION TO SECURITY AND ACCURACY, NETWORK RELIABILITY IS CERTAINLY CRITICAL TO A USER OF NIBM-CAPACITY, NIEM-SPEED PRIVATE LINE SERVICES. RECOGNIZING THIS NEED, U S WEST HAS BESUM PROVIDING SELF-MEALING NETWORK TECHNOLOGY IS TWO CONFISCINGNATIONS TO USERS WITH THESE REQUIREMENTS. SELF-MEALING ALTERNATE ROUTE PROTECTION (SMARP)

DOCUMENT 104

DOCUMENT 104

-3

OFFERS ADDED RELIABILITY FOR USERS WITH MEDIUM TO LARGE AMOUNTS OF DATA. VOICE AND VIDEO TRAFFIC BY PROVIDING BACK-UP ELECTRORICS AND TWO PHYSICALLY SEPARATE FIBER-OPTIC PATHS THROUGH TWO TELEPHONE COMPANY SYSTEMS OFFICES.

SELF-HEALING NETWORK SERVICES (SHMS) IS AN OVERLAY METWORK DESISHED FOR COMPANIES OR GOVERNMENT ENTITIES WITH MULTIPLE LOCATIONS. SELF-HEALING IS ACCOMPLISHED THROUGH USE OF TWO CONCENTRIC FIBER RINGS. SHOULD A FAILURE OCCUR IN THE PRIMARY PATH THE SERVICE WILL MEAL ITSELF AUTOMATICALLY BY REPOUTING THE SIGNAL IN THE OPPOSITE DIRECTION AROUND THE RING USING THE ALTERNATE PATH.

SHMS SYSTEMS ARE DEDICATED TO A SINGLE USER AND ARE CUSTOM DESIGNED TO MEET INDIVIDUAL USER REQUIREMENTS.

U. S. MEST HAS FEDERAL SERVICE MARKET UNIT PERSONNEL LOCATED IN ALBUQUERQUE WHO CAR WORK WITH THE AIR FORCE ON ANY COMMUNICATIONS NEEDS. ROUTINE OR SPECIALIZED. ENGINEERING AND CONSTRUCTION FORCES ARE ALSO LOCATED IN ALBUQUERDUE TO DESIGN AND BUILD THE NETWORK TO MEET CUSTOMER NEEDS. NEW MEXICO'S REGULATORY STRUCTURE ALLOWS U.S. MEST TO EXPECTE PROVISIONING OF CUSTOM DESIGNED SERVICES, ELIMINATING REGULATORY DELAYS.

ONE FINAL ATTRIBUTE OF TELECOMMUNICATIONS SERVICES IN NEW MEXICO IS MEW MEXICO TECHNET. TECHNET IS A PRIVATE MON-PROFIT COMPORATION OPERATING A DATA COMMUNICATIONS NETWORK THROUGHOUT MEW MEXICO. THIS METIWORK PROVIDES FOR THE TIMELY TRANSFER OF INFORMATION AMONG THE FEDERAL RESEARCH LABORATORIES. EDUCATIONAL INSTITUTIONS, STATE GOVERNMENT AND THE PRIVATE SECTOR.

IN SUMMARY, TELECOMMUNICATIONS RESOURCES IN ALBUQUEROUS, IN NEW MEXICO AND ON KIRTLAND AIR FORCE BASE ARE SECOND TO NONE. U. S. MEST WORKS DAILY WITH MIGH-TECH. MIGH-SECURITY USERS OF TELECOMMUNICATIONS SERVICES. THE BACKGROUND AND EXPERTISE OF OUR PRABOMNEL WOULD PERMIT US TO IMMEDIATELY INTERFACE WITH THE AFSSO. SHOULD THE REED ARISE. ADDITIONAL PERSONNEL LOCATED IN ALBUQUEROUS AND THE RESOURCES OF A 14-STATE COMPANY EMABLE U. S. MEST TO MEET ANY TELECOMMUNICATIONS NEEDS ANTICIPATED BY THE AFSSO. MY STAND READY AND WILLING TO WORK WITH YOU IN ANY WAY POSSIBLE TO MAKE TOUR TRANSITION A SMOOTH ORE.

DOCUMENT 105

STATEMENT

JAMES A. COVELL

Executive Vice President, Albaquerque Economic Development to the

Air Force Bearing

On Live

Draft Environmental Statement (EIS)

Septimber 7, 1990

good evening - I as James A. Covell, Executive Vice President, Albuquerque Econosic Development, Inc. I would like to address some facets of the Draft Environmental lapact Statement relating to the possible relocation of the Air Force System Command Space Systems Division to Kirtland Air Force Base.

First, let me may I was particularly pleased to note that there are no unique or major significant issues that would preclude the transfer of Headquarters SSD and related units or the Aerospece Corporation from Los Angeles Air Force Base to Kirtland Air Force Base. In other words, Kirtland has sufficient on-base space to odate the relocation and the community has the capability and resources to provide the infrastructure to support a significant increase in population. Albuquerque and its citizens are concerned about the environment and through a comprehensive plan is managing growth in a responsible manner. The growth envisioned by the transfer of SSD is manageable and the minor environmental issues identified in the EIS can be mitigated through implementation of programs and procedures such as park and ride stations, staggered work hours, or enhanced traffic control. I'll let the environmental experts identify specific courses of action and reiterate that the SSD relocation is manageable and that Kirtland and Albuquerque are a logical location for a major space related research and development activity.

If one were to attempt to describe the major industry in New Mexico, the answer would have to be research and development. A large portion of the R&D activity has been or is related to space activities. Los Alexos Metionel Laboratory, Sandia Mationel Laboratory, the University of New Mexico, New Mexico State University, White Sands Rissile Range, Kirtland Air Force Base and a host of related private and public agencies are examples of the Bin base that exists in New Nexico. As you are well aware, the Space Technology Center and Heapons Laboratory, which are major supordinate units of SSD, are located on Riftland. The consolidation of Air Force space research and development, combined with cooperation and coordination of other educational and RAD facilities in New Nexico, would provide a synergy that would be beneficial to all involved and promote mignificant development in the United States Air Force space programs. While Los Angeles claims a special relationship with the serospece industry, I believe it is not so unique that it does not exist elsewhere.

Finally, I would like to discuss the quality of life that makes Albuquerque an ideal location for the Space Systems Division. Quality of life is a nebulous term that means different things to different people. But to those of us who have come to Albuquerque, we have found a special life style that makes it almost impossible to leave. There is a large population of silitary retirees who has served at Kirtland and either separated, retired or returned because they have found this a great place to live. Many of our

DOCUMENT 105

DOCUMENT 106

major manufacturers such as Honeywell, Intel, Ethicon or Hotorola tell us it is bard to get employees to leave even if offered a significant promotion. The same type of companies have a relatively easy job of recruiting new employees because of the life style offered New Mexico residents. Housing is affordable and there are a wide variety of areas that people can choose to live that are within easy commuting distance. As a matter of fact, our average commuting time is 20 minutes and it is difficult to live more than 30 minutes from Kirtland, unless it is in a very rural location. Albuquerque provides a range of parks and recreational facilities within the city and the city had the vision to plan and fund urban enhancements and cultural projects to provide the community with first class facilities. Albuquerque is blessed with a year ground climate that offers mild seasonal changes with great opportunities to enjoy recreational activities. This is the place where you can ski in the morning, play golf in the afternoon and attend a New Mexico Symphony concert in the evening. This high quality environment should be a big plus for SSD in recruiting employees and encouraging the military to continue with their CAPOOTS.

Albuquerque Economic Development wholeheartedly supports the relocation of Space Systems Division and the Aerospace Corporation or portions of the organizations to Kirtland Air Force Bess. The Oraft Environmental Impact Statement adequately addresses the essential issues, and although some minor corrections may be required, it is fully endorsed as a comprehensive environmental assessment. Albuquerque offers an escellent environment and would welcome Space Systems Division military and civilian members as new

neighbors in the occumulity.

15.10

September 7, 1990

Lt. Colonel fom Bartol Director of Programs and Environmental AFRCE - BMS/DEP Morton AFB, CA 92409-6448

Dear Colonel Bartol:

New Hexico and the City of Albuquerque take great pride in a long and mutually beneficial relationship with the Department of the Air Force.

Albuquarque is prepared to support a major expension at Kirtland Air Force Base. The City of Albuquarque has developed a Comprehensive Plan to manage this growth. We have the capability to provide adequate water, energy, public safety, education and other essential services for relocation of a major Air Force organization and supporting agencies.

Albuquerque has muserous recreational facilities in and around the city which provide golfing, hiking, sailing shing, fashing, contain cishing and a sajority of other indoor and outdoor activities. The high desert cleaste produces sails seasonal changes with mid-day temperatures near 30 degrees in the winter and around 90 degrees in the summer.

The community offers housing in a variety of settings that would seet the desires of every employee—evailable at reasonable prices. Air Force members and contractor employees would have an opportunity to own homes and enjoy short communiting times to and free work.

Major corporations such as Intel, Martin Marietta. Memaywell Defense Systems and Signetics have found the Albuquerque area an accallent place to do business from a standpoint of a qualified and productive labor force and esmallant quality of life features.

Rirtlend AFB has surplus land and existing buildings that could accommodate a major portion of the Space Systems Division relocation without the need for land purchase or new construction costs. A copy of some initial estimates for removation and new construction costs have been

CONTROL PARTIES AND THE CONTROL TO SERVICE THE SERVICE

Attachment to Document 106

prepared and are forwarded for your review and information. It would be very economical to modify existing facilities for Space Systems Division and build new on-base facilities for The Aerospace Corporation.

A New Nexico Space Systems Division Relocation Task Force has been established by Governor Garray Carruthera to coordinate efforts related to the relocation project and provide assistance to your group. Various departments from the City of Albuquerque and a select committee of environmental specialists have reviewed the Draft Environmental inject Statements. Comments provided by these groups are forwarded for your consideration.

New Newico is a state with a vision that is heavily involved in high tech research and development. The addition of the Spece Systems Division sould create a symergian that would be beneficial to the United States spece program as well as our state universities and the Matienal Laboratories.

er tion Task Force Co-Director

Enclosures: City of Albuquerque - Transportation City of Albuquerque - Dublic Works City of Albuquerque - Environmental Environmental Committee Report Facilities Subcommittee Report

Reparting facilities to commundate the United States Air Perce Space Systems Division (REMD) possible releastion to Eistland Air Perce Base, Albegorque, New Merico, a curvey of existing building space unich would become swellable was performed. That inventory of vecent space and projections of additional building that will become evaluable was briefly impected by TRAF percentage and a local continuer to arrive at a cost projection to convert the space to offices to accommendate DRSED meeds. A vecent 25 acre site on RAFF was also amazined as a possible site for construction of additional facilities.

This preliminary survey reveals that 494,000 of of renewated office spaceculd be made available at an estimated cost of approximately 564 of magnon. Also the 15 serve size can be utilized to construct an addition 500,000 of of new space. Details of the available facilities and estimate cost par building follows:

Humber .	Pinished Square Fr	Connect	Estimated Cost Banca
20)58 (Museum)	38090	Add 2nd flr, add 2 elevators, vindous, energy retrofit, NVAC, electrical	\$ 1,985,000

STATE AND LOCAL TAXATION OF SSD CONTRACTORS AND SUBCONTRACTORS

A comparison of the state and local tazabon of contractors with the Space Systems Division (SSD) in New Mexico, California, and Colorado reveals the following:

New Mexico would impose a gross receipts tex on a small portion of contract services to SSD, and California and Colorado would not.

2. Other state and local taxes imposed by California and Colorado would exceed those imposed by New Mexico.

New Mexico Gross Receipts Tax (MMGRT) on Certain Services

New Mexico's Gross Receipts Tax is explained, summarized and applied to the activities of SSD. Aerospace and their contractors and subdomiractors in the attached degreements.

j. NHGRT Taxability Flow-Charts
2. Brief Pidin Language Presentation of MMGRT
3. Draff Rulings 1. 2. and 3
4. Table 1 - Estimated Tax Status of SSD Budget (or FY 89
5. Table 2 - Estimated MinGRT on SSD Budget (or FY 89
6. Pie Chart of NMGRT in SSD Budget

Table 1 shows the application of the KMGRT to SSD's operations as represented by the FY 89 budget. It is estimated that only \$559 million of to MKGRT.

Table 2 computes the NMGRT on these services to be \$54.64 million. This tax represents less than one-half of one percent of the SSD budget which could be transferred to MS.

Although California and Colorado do not papose sales tax on services at the present tase. they may do so in the fature. As a status look for additional revenues to beliable their bedgets, they are furning to teastfor of services. In 1996, for example, both New York and Messachusetts enected sales taxes on services for the first time.

Other State and Local Taxes Imposed by California, Coloredo and New Mexico

The significant state and local taxes which are imposed on \$50 contractors and subcontractors are corporate theams taxes, property taxes, payroll taxes, and sales (gross receipts) taxes. To measure the impact of these

STATEMENT OF MEMATOR PETE V. DOMESTIC STATEMENT SPACE STATEMENT ST

Good evening ladies and gontlemen. I want to velcome all of you here tonight to the T-VI Beardroom. I could not be here with you this evening because I am in Haryland with the President and other Congressional leaders at the Budget Summit at Andrews Air Force Base. While I could not be with you in person, I want the record to show my continued interest and support for moving the Space Systems Division to Kirtland Air Force Base.

15.10

Frankly, I was very pleased with the findings of the Draft Environmental Impact Statement. Clearly, Kirtiand force better than any of its competitors. Let me say that I was not at all suprised that the Air Force found Kirtland to be the most sound option environmentally.

The Draft Environmental Impact Statement found certain areas at Wandenberg, March, Peterson and Falcon Air Force Bases that would be adversaly affected where Eirtland would not. Mater, Biological, Cultural, and Paleontological Resources all fell into this category.

DOCUMENT 107

DOCUMENT 107

Specifically, impacts to groundwater resources, vegitation, and prehistoric sites at Vandenberg would be adversely affected. Biological resources at March would be adversely affected. Finally, groundwater resources at Faleon and other cultural resources would be adversely affected.

Contrastingly, however, Kirtland would not experience adverse impacts in any of these ereas. That spells good news for Kirtland on the environmental front, but there are other reasons why the Air Force should move to Kirtland and I want to speak about them now.

I believe that moving the Space Systems Division to Kirliand is the sometest endice line Air Force can make on three counts. Environmentally, it is the wiseast endice. Operationally, it is the wiseast endice, and economically it is the wiseast choice.

In its stated purpose and need for action the Air Force listed nousing costs and econoting times as one of the reasons for moving the Space System: Division. We siready remounts:

the cost of housing in Albuquerque is less than that in the Colorado Springs area as the Dreft Environmental Impact Statement has indicated. Albuquerque and Kirtland can solve the problem the Air Force encounters in Los Angeles, of providing affordable, comfortable housing for civiliar and military personnel.

Second, everyone knows in order to entich the quality of the system developed, all one needs to follow are the the three golden rules of the military business, colocation, colocation, and colucation. By bringing the Space System: Division to Kirtland, increasy colocating it next to the Alforce Meapons Lab and the Space Technology Center, we ensure that there is close contact and invediate consumication between the researchers and the coveragent. This synengian will but better systems in orbit, and that spells success:

The Mexico is also home to two of our nation's three Betional Laboratories. Sandis and los Alexos truly define the outling edge of technology, and a substantial portion of the activity at these facilities is directly relevant to — and thus supportive of — space systems Research Development Testing and Engineering (RTDLE).

Leatly, on the operations; front, New Mexico is also home to the White Sands Missile Range which is the largest test range in the free world. White Sands currently supports BTDSS activities of 80 weapon, space and other programs.

DOCUMENT 107 DOCUMENT 107 and it amound make sense economicanty. . Despete that when the Air Furce considers these criteria they will find that It's assets like these that I believe put Kirtland shead of the pack, and I tains the Air Force can see now valuable Systems Division. colocation next to them will produce magnificent results. Once again, I want to thank you all for coming. I will Pernaps most importantly, nowever, I believe the Air continue to follow the development of this issue very closely as we work together to make this great opportunity a reality. seartest move to make. When the Air Force decided to list Kirtland as one of the competitors for the Space Systems governmental communistes banned together to form a task force to address the serious issues the Air Force would be looking at. They have worked very hard, and I think their work has peid off. What they have found is that it would cost less to move SSD to Kirtland because Kirtland has more ready space available and it could be renovated for less than what it would cost at the other facilities. The Task Force has presered a detailed study, and I want to urge the Air Force to look at it very carefully as they continue with the other Clearly, the facility that is finally chosen should make sense environmentally, it should make sense operationally, **DOCUMENT 109 DOCUMENT 108** STEVEN SCHOOL Congress of the United States Bouse of Mepresentatibes Mastungton, DC 20515 70: Renn Holger, SSD Relocation Task Force Director FROM: DATE: August 29, 1990 Director of Environmental Planning Department of the Air Force Regional Civil Engineer -- Ballistic Missile Support Department of the Air Force Regional Civil Engineer - Ballistic Missile Support Thank you once again for this opportunity to recommend Kirliand Air Force Base and Albequerque as the future home of the Unital Join a foot of military and space experts in recommending Albequerque and Kirliand for the Space Systems Division. Dear Colonel Bartol;

The single greatest chellenge facing New Mexico's next governor is economic development. Froviding good jobs and a healthy beginess climate has been one of the highest priorities of my campaign...and it will be one of my highest priorities as governor.

15.10

Recently, I met with members of the New Mexico Spaces Systems Division Relocation Test Force. I pledged my support ancellent internetive for the Space Systems Division and the Aerospace Corporation. The project is precisely the type of econosic development that my administration will pursue and I encourage your critical review of Albuquerque as the future home of SSD.

Albuquerque and New Naxico offer a cornucopie of factors to improve one's quality of life while affording every citizen the opportunity to become part of our vibrant culture. We also offer a number practical benefits:

Relative low cost of living
Closs promisits:
Closs promisity to the University of New Newico,
New Rexico Tech and New Newico State University,
sach of which provide sucellent graduate prounder graduate programs
Access to Los Alassos and Sandis Laboratories
Ideal recruitment conditions for employees looking to
relocate to the Southwest
A rich arts and entertainment base including the
Banta Po Opera, New Nexico Symphony, Albuquerque
Little Theater

- AN EQUAL OPPORTUNITY EMPLOYER -

September 5, 1990

Lt. Cel. Yem Sartol, Director Programs and Environmental Division AFACE-BMS/OPEN Norton AFA, California 92409-6448

Thank you very much for the opportunity to offer my comments on the proposed relocation of the Air Force Space Systems Division and the Aerospace Corporation.

As Chairman of the Board of Directors of the Greater Albuquerque Chamber of Commerce, I have the privilege of leading the oldest and largest business organization in New Mexico. We have more than 2,000 member firms employing in excess of 72,000 people in the Albuquerque metropolitan area.

As you are probably aware, the presence of Kirtland Air Force Base and Sandias Matienal Leberatories in our community has been the single most important factor in Albuquerque's pheasmenal growth since Metld Mar II. These installations, in combination with Los Alemos Matienal Labs to the north and our fine remearch universities, have served as the connersone for Albuquerque's evolution as a center of leading-edge receatch and development activity.

opment activity.

We as a Chammer have worked hard to develop close relationships with Sandis and Sirtland because we recognize that they have been a critical part of our success as a community, both in their direct employment of our citizens and for the spin-off business and industry they have spaumed. The Air Porce Space Systems Division and the Aerospace Corporation would undesuredly find in Alboquerque were reception from a city that folly understands the role that research and development and high technology have played in our economic growth and development.

Albequerque also boasts e climate, environment and quality of life unmatched in the United States. Deginning with of ife unmatched in the United States. Deginning with fer people suffering from tuberculesis because of our high, dry, and pristine climate, the city has enjoyed a reputation as a place where one can partake of sour of the benefits of a large matcopolitam area while enjoying the relatively unapolited features of a rest location.

September 4, 1990

Lt. Col. Tom Bertol Director, Programs and Environmental Division AFRCE-BMS/DEP Norton AFB, CA 92409-4448

Dear Lt. Col. Bartel:

The proposal to close Los Angeles Air Force Base has, no doubt, brought with it many questions and concerns regarding relocation of the Air Force Space Systems Division and the Aerospace Corporation. Albuquerque would like to answer those questions and put those concerns to rest.

and put those concerns to rest.

As president of 7-VI. Albuquerque's community college. I would like to assure you that we stand ready and able to provide any technical assistance that might be necessary in a relocation of those tenants to Rirtland Air Force bease. T-VI and RAFS have, for years, enjoyed a close working relationship. We have a number of base personnel attending classes at our Main Caspus. The provided should be suppressed to the contract of t

The Institute, with an enrollment of about 17,000 at two campuses, is now the third largest postsecondary achoo! in New Mexico. Base personnel and their families are able to take advantage of offerings that include:

171 April 110 11 Brace of A. Alice

The city's work force is seens the mest productive in the country, with far lower observes rates from in other the country, with far lower observes that in the country is gold to be comparable size. This reputation has been largely responsible for the recent uppurge in our manu-facturing sector, ione an area where we have been lacking as a city and state. In recent months, intel, Motorola, martin Marietta, and Amity Leather Praducts have all amounced major espansions in the area.

15.10 We look forward to working with you as you progress through the decision-sating process, and we sincerely nope that Rirtland Air Force base is the ultimate relocation choice.

Sincerely.

Lt. Col. Tom Bartol Director, Programs and Environmental Division AFRCE-BMS/DEP Nonon AFB, CA 92409-0448

Dear Col. Barrol.

New Meases State University would like to state its support for the movement of the Air Force Space Systems Division (SSD) and the Aerospace Corporation to Albuquerque, New Meases. We believe this would be a wise move for the Air Force because of the ideal climate, the quality of life, the active support of the resiness community, and the strong interest of the local universities in supporting such endeavors.

New Mexico State University annually graduates approximately 3,000 individuals. These range in skills from Ph.D's in physics, telemestry, mathematics, and all of the branches of engineering, to a complete spectrum of undergraduate degrees and a strong contingent of vocational graduates with technical establishes. The University considers in responsibility to assist organizations such as the Space Systems Division to recruit and retain highly qualified personnel an integral part of its insusion. You may be assisted if you located in New Mexicos that we would be very scrive in assisting you in meeting your personnel needs. Because of the attractive life style in this State, many of our graduates with to remain here upon completing their studies and would look forward to competing for employment positions within your organization.

Page 2

In sum and substance, we pledge to support your relocation to New Messco and look forward with assurpation to interacting with you in all ways in which we could provide assistance.

Best personal regards.

Lt. Col. Tom Bartol Director, Programs and Environmental Division AFRCE-BMS/DEP Morton AFB, CA 92409-6648

Martin Mariatta Corporation has recently completed the process of adding a new manufacturing facility in Albuquerque, New Mexico. Because you are in the process of considering the relocating of certain Air Force Operations. I thought that it would be of assistance to share with you some of the considerations that led our Corporation to salect the Albuquerque location.

our primary goal in the selection of the site for this new same facility was to operate in an environment that would allow the most cost effective operations while schieving our standards for high quality products. Albuquerque, New Mexico provided all of the ingredients necessary to achieve this objective. The quantity and skills of the labor force, the availability of a high-quality seducational system to train the Individuals and a strong desire to include our organization in the local community were factors that streamed our attention.

In the short time that we have had our facility in operation all of the above considerations have been realized in a manner that far exceeded our expectations. The exceeded our expectations the excellent quality of the training achieved by the water occurrence to the control vocational institute (TV-I) has allowed the state of the control vocational institute (TV-I) has allowed the state of the control vocations. The allowquerque integrate these people into our essembly operations. The allowquerque labor experience is at a level which has allowed our corporation to a service to farmicate hardware involved in their initiative to automate the handling and processing of the mail.

The labor force seems almost inexhaustible, our initial savertisement for essembly personnel netted nearly 1900 qualified applicants. A recent educationant for semidaturing and logistic engineers deposited approximately 300 qualified candidate resumes on our doorstep. Our problems acquiring people have been sorting through hundreds of applicants who are qualified for the positions available.

There were other factors which did influence our decision to locate in Albuquerque. Local government support, the quality of life, the cost of living and the support of the community for our activity. The support of the state and local government couldn't have been better even if we had specifically orchestrated it. The people of continuous control of the state and local government couldn't have been better even if we had specifically orchestrated it. The people of continuous control of the state of the state of the specifical control building inspector. The people are interested in helping you to solve the problem at hand. The actitude is always "can-do" and villing to provide knowledge and quidance in the achievement of your objectives. The quality of life is typically what we expected and desired. The western cannot all attitude but the school of the specific provision of the specific provision of the provision of the specific provision

Mithout question, the presence of your organizations would be a very significant contribution to the Albuquerque community. Our corporation and I'm sure all others in the community would be pleased and our way of life would be enriched with your choice of our community for your operational site. If I can be of service to you ask the difficult decisions have been also deserved from you make the difficult decisions have been supported by your services and your relocation, please do not hesitate to give me the opportunity.

Sincerely.

SOUTH VALLEY CHAMBER OF COMMERCE

mental Division

Dear Lt. Col. Barrol.

The South Valley Chamber of Commerce is extremely pleased to bear of your seal to possibly relocate the Air Force Space Systems Divisions and the Aero Space oration to Albuquerque, New Mexico.

Obviously the greater Albuquerque area, of which the South Valley is a part, would greatly benefit from your entrance atto our econom. There is more however: any good standards requires that all parmers be happy. Your being in Albuquerque would create isynergy which would be maturally beneficial.

Albuquerque is a great place to be We have many benefits for you. Our already established serospect undustry base, plus a large private manufacturing secret would facilistic a specify integration of you into our mainteriam? You, of course. have recrived all the information about Albuqueries presi quality of life climate, sports, location, etc. It is all true. Your employees will love living here.

The South Valley is the rural area south of Albuquerque, in Bernaidlo county. We are close to Kirtland Aur Force Base and the Aurport, and Downstown and the University of New Mescoo. It is possible to own a new house on a large lot, or vices acreage, at a stocket price. The South Valley is full of ureat, ungated green fields, small farms, e-weeping value and close to work. The South Valley is a wonderful place to bye.

Our letter to you is to let you know that the South Valley part of Albuquerque would like to have you live and work here.

Please contact me if I can be of any assista

Sincerely, with South Valley Pride,

Gear Lt. Col. Bartol

The First Mational Bank in Albuqueroue endorses the moving of the Air Force Space Systems Division (SSD) from Los Angeles AFB to Albuqueroue AFB.

15.10

The orimary consideration, of course, is the cost saving to the Air Force, the U. S. Government and .ultimately. The U. S. talosers. Real estate costs, salaries and wages will definitely be lower. And, not to be overloaded: is the excellent relationship between the personnel at Kirtland AFB and the Albuquerque community.

we are vitally interested in the economic development and good nealth of our city. The creation of over 10,000 jops in Alboquerous would certainly emance copportunities for our opcode, who may otherwise have to leave the state in order to find gainful deployment. The positive effects accruing to our many subcontractors, retail establishments and others would be considerable.

First National Bann has received assurances from two of our ustream correspondents. First of Chicago and National Bann of betroit, of their willingness to participate in the issued of industrial Revenue Bongs worth 150 million each. These could be utilized, at very dearouble rates, by private contractors that may be involved in the project.

e understand that two of four sites being considered have water nortage problems. Fortunately, Albuquerque is in a position no adequately accommodate this project.

15.10 This is a letter of support for the SSD relocation to Peterson A.F.B. here in Colorado Springs.

I am a former Mayor of this City, servinc in that capacity from 1975 to 1979, with 8 years of service as a Member of the City Council prior to my terms as Mayor. I point out My service to the City as substantiating my views as factual information as contrasted with mare Opinion.

Colorad: Springs has been a military community for 30 years, beginning with the designation of Camp Cafeon in 1940. Over the years, the Air Frice Academy, Ent A.F.1., FAMCOM, Feetenon field, NORAD. Falcon Air Station, etc., have at one time or another been listed an the roster of military missions. Several thousand retirees of the Army, Navy, and Air Force enjoy living in Colorado Springs.

Military personnel and their families who would be assigned here if SBD is relocated in the Pines Peas rection would find a swell find a second rection of the pines pease rection would find a swell properly transferses because the cost of living here is itemforcently less than in Californer this includes housing and utilities, education, transportation and communing, and recreation. Central location in the United States and good arm service would be distinct advantages to the personnel who have roots in the east and the doubt.

DOCUMENT 133

Lt. Col. Tom Bartol Page 2 9/12/90

The opportunity for continuing education is available at the Colorséo Sprangs campus of the University of Colorséo, Colorséo College, and Pikes Peak Community College in addition to several vocational schools.

Skiing, ice skating, bird and big game hunting, tennis, colf. and biking trails are all within easy walking or commuting distance.

There is an excellent inventory of housing immediately avail-able at prices (both purchase price and rentals) significantly less than in California.

Many cultural activities becken our citizens including a Great symphony Orchestra, an opera association, a Fodeo, football and other athletic events at the Air Force Academy and Colorado College.

High morals of military personnel is commonplace for those assigned to an installation in the Pikes Peak region.

We welcome the Source Systems Division: We hope you'll come here:

tours truly,

September 10, 1990

Lt. Col. Thomas J. Bartol Director, Programs and Environmental Division AFRCE-BMS/DEP Horton AFB, CA 92409-6448

The Silver Engles would like to point out what seems to be an emission in the draft environmental impact statement that is, community support, and the political and social environment of the sites considered for the future bose of the Space Systems Division. Community support for Narch Air Force Base goes back to 1917 when a group of businessess in the Riverside Chamber of Commerce orfered 64 ob acres of land to the Mar Department if they would build an air base here.

Support for March AFB has always been strong, and never stronger than it is today. There are many March AFB support organizations in our area, including the Military Affair Cognittees of the various Chasburs of Commerce, the Forus, the Monorary Commanders, and the Silver Eagles.

The Silver Reglam is comprised of key community leaders from the Inland Empire dedicated to providing political support for March AFS locally and the Air Force mission in general. The Silver Eeglee provide social and economic support to the Air Force personnel at March AFS and lobby in Washington, D.C. to further the Air Force mission and new evapore systems. We are strong supporters of the Steelth Bomber and Fighter progres and Are long time backers of the Space Systems or the Air Force.

Flease be aware that there has always been strong local support for March and that support is well organized, well funded and very dedicated to our Air Force people, to March

Director, Programe and Environmental Division AFRCE-BMS/DEP Norton Air Force Base, California 22409-6442

tter is to add my support for the proposal to releaste the Air Force Space la Division to Kirtland Air Force Base here in Albuquerque.

The Albuquerque commitment to meeting Air Peres needs in bringing the Spec Systems Division here is significant and has irredved brances and community leaders on a test force whose sole focus is this imperant priest. The level of commitment demonstrated in preparing material, restring issues and developing essential intentives for your condensation is only one small irrample of the type of involvement and cooperation you will find from the community se-whole if the decisions is made to bring the division to New Maries.

As a facility heavily committed to research, development and production efforts for the Department of Defense directly, so well so for many of its prime contractors, the expanded RaD fosces in Albuquerque which would result from the Space Systems Division's relocation would breaft all of us in attracting and retaining the highly specialized personnel needed to manisten such as effort. I think you will also find the local werkforce to be both deducated and productive: in have been excited by the excellent results we have shown in our own commitmen to tend quality management (TQM) efforts here at the Defense Avonace Systems

would be happy to respond to any questions you are anyone within the Space essess Divisions might have about doing business in Albuquerque. Agest, I wild encourage you to choose Albuquerque and New Mexico as the division a w bosse and hope we will have the opportunity to welcome you to Kurland Are

14 September 1990

Lt. Col. Tom Bartol Director, Programs and Environmental Div. AFRCE - BMS/ DEP Horton AFB, CA 92409-6448

The purpose of this letter is to ancourage you and your division to fewerably consider the Colorado Springs area for relocation of the Space Systems Division (SSD). There are many reasons which can be listed and I would like to address a few.

I am a retired officer with over 23 years in the Air Force and I have lived in Colorado Springs for the pest 10 years. I fact this area offers tremendous educational, residential, and recreational opportunities which make the quality of life and the community support for the military and its mission unsurpassed.

community support for the military and its mission unsurpassed.

Housing in all ranges of sizes, prices and location is readily available. Bental units are plentiful and rates are lower than nearly any part of the occurred in the size of the community and the control of the size of the community and the size of the s

Dear Col. Barton:

15.10

While I am but one person I know I speak for many when I say that the city of Colorado Springs would welcome the relocation of Space Systems Division from los Ampeles to our Deautiful and butting community. While our family has lived in a number of communities around the country we have never experienced a quality of life equal to that here in Colorado.

Our city provides countless opportunities for varied activities, all within minutes of work or home. Sking, the Rockies, Theater and Art. Shopping are all evaliable and convenient. And for a broader variety of activities, Denver is less than an hour sway.

Your decision to relecate to Coloredo Springs would be welcomed by 300,000 of the friendliest people in America. And I am sure that you will like us as much as we will like you.

Thank you for your time, I remain

Lt. Col. Ton Bartol Director, Programs & Environmental Division AFFCZ-BMS/DEP Rotton ATS, CA 92409-6448

I an writing you to lend support to your decision to releasts Space Systems Division (SSD) to Peterson Air Porce Sase in Colorade contracting place to live. Housing is relatively inexpendive, the achool systems are outstanding, and commute times are short and hasale-free. It is also a community that prompty supports the military. It has a large military retired population, with approximately 100 file officers retired here.

The high concentration of active duty and retired military is one of the reasons USAA decided to put a Regional Difice here in 1873 and expand its operation in 1889. Today we makely 500 people in our Colorado Springs Offica. Host of us are here by chease. We have lived all over the world and fement on place nicer than Colorado Springs to call home after our military career was over.

I know the process the Air force will go through infymben it makes its relocation decision. USAA has found Colorade Springs to be an outstanding place to live and do business. I hope \$50 will join us here. We look forward to servicing you who serve here in Colorade Springs.

Lt. Col. Tom Bartol Director, Programs 6 Environmental Division APRCE-BMS/DEP Horton APS, CA 92409-6448

I am writing this letter in support of the proposed relocation of the Space Systems Division from the Los Angeles Air Force Base to Peterson Air Force Base in Colorado Springs, Colorado.

The Colorado Springs area offers an excellent quality of life to residents who live in this area. Commuting times are short, excellent housing is available at very low cost, and weather conditions permit year-around activaties for all inhabitants. The above factors are clearly superior to the factors present at the present location and to those of the other sites under consideration.

I would strongly urge that the Air Force consider relocation of the SSD to Peterson Air Force Base.

Sinderely, Dan S. Hughes

DSN r mg

cc: Wanda L. Reaves

September 13, 1990

Lt. Col. Ton Bartol Director, Programs & Environmental Division AFRCE-BMS/DEP Rorton AFB, CA 92409-6448

Ma: Relocation of the Space Systems Division

In recent months, we have seen an increasing desire on the part of people in the Los Angeles ares to relocate to Colorado Springs. For instance, Dr. Jasse Dobbon reports that when he announced the relocation of Pacus on the Pasily to the approximately 700 staff members, over 901 indicated the desire to relocate to Colorado Springs. Of this 901, appreximately half indicated they would do so if they could overcome some significant impediment such as spouse reaspleyment or the sale of residence.

The primary reasons for the enthusiastic desire to relocate to Colorado Springs from the los Ampeles area appear to be the quality of life, availability of inexpensive quality housing, and abort communing times compled with lack of gridleck.

The local business community is entirely supportive of the strong military presence in Colorade Springs and vicinity. Relocation of the Space Systems Division would clearly here a poditive impact on the local scorous and tax base by absorbing some of our excess real extate inventory and increasing local spending power.

The strong social fabric of this community offers a positive counterpart to the environmental amounties. This factor along makes it possible to recruit escellent, dedicated workers who remain productive because of the support they receive free their families and other models institutions. For instance, just teday I get a call from an atterney with eleven years of practice in los Angeles. He desires to move to Colerade Springs even though he will receive

DOCUMENT 150

Lt. Col. Tem Bartol

chickly lose then half his Los Angeles income. His stated princry uses for the more was to have his two small children and wife howe potter family life then is possible in Los Angeles.

15.10 recruiting and retaining top quality people and maintaining their productivity is important to the Air Pures Space Command, Colorado Springs in the best leastion.

Very truly years.

Dan 7. Brown

September 13, 1990

Lt. Col. Tom Bartol Director: Programs & Environmental Division AFBCE-BMS/DEP Horton AFB, CA 92409-6448

Dear Colonel Bartol:

I am writing to excourage the Air Perce to locate all of Space Systems Bivasion in Colorado Springs. This region can very contextably accommodate the community impact of this major relocation.

15.10

DOCUMENT 151

In particular, the supply of existing and planned housing will provide economical and convenient living opportunities. Mousing is so much chesplor than the los appeles area or almost anywhere in Tallibrais that housing alone makes the cost of living in Colorado Springs a transmodeus advantage. Lecal govern paraission for conscription of now house yoully takes 2 or 3 months. Instead of 2 or 3 years.

The highest situation looks good too. The main access points for Peterson APS are northpate and weatquite. Both have gotten special attention recently leafors \$50 even came up) in order to expedite the construction of new and better road capacity. The critical educating separat of \$12 ft Sypsas has been accelerated by a special egreement between City, County and State powerments specifically designed to speed up the construction. That's now a "done deal" that will start meet

The highway outlook is like most other intrestructure interestructure around here - chere is a plan and a fincally - sound approach to getting that plan done. For exemple, so City in Colorado has better utility planning than the City at Colorado prings. It is not had-to-south planning either, we have the water and other capacities to handle growth for years to come, which many areas do net. Colorado Eptimas has the track record and the resources to back up its planning.

One last thought. There is no doubt that Colorade Springs is a great place to live. Just sak the Air Purce personnel and thair families who already live here and ask the contractor personnel who support the Military mission. But more than

DOCUMENT 150

morale is at work hera. There is a strong, well-established working relationship between the military commands and the community an im-place system for communicating both ways, a soom effort manned by experienced people who understand and appreciate the relationship. That is already here - waiting to help SED get the most dut of their mission.

Thank yes for the opportunity to comment on the strong ability of colorado Springs to accommedate Space Systems Division. I moved here myself from Jos Angeles 22 years ago because Colorado Springs can handle the future.

Yours very truly.

Dear Sir

It is my understanding that the Air Force is considering relocating the Los Ampeles Air Force Base (Space Systems Division) to the Colorado Springs area (among other sites). We certainly hope you will choose Colorado Springs.

15.10

As a CBO of a non-profit healthcare foundation, I have had the opportunity of working with, living near, socializing, and observing military personnel in this city. They are a major asset to this community and contribute especties to namy of our non-profit organizations as members of boards and advocates. Three of my employees are spouser of military officers and enlisted men, and I employees are spouser of military officers and enlisted men, and I was the best candidate for the too. Not be options while the spouse while the spouse while the spouse while the spouse while the spouse while the spouse of the spouse of the spouse of the spouse while the spouse of the sp

Coloredo Springs is a wonderful place for temilies. Bousing and utilities are imexpensive compared with many other places in the country. Our schools are excellent. The recreational opportunities are abundant and nearby, and cultural and religious activities are many. There is something for everyome.

With the Air Force Academy, Falcon Air Station, MORAD, Petarson Field, Space Command and Fort Carson all part and parcel of this city, the people here do not need to be oriented to the allicary environment, as our daily interactions often involve the allitary. Our resident physiciams, for example, do a rotation at Puma Beoguial at Port Carson, and several of our organization members are allitary doctors. The military is and has heen a working part of this commenty - and that does make a difference.

The city network is such that every part of the city is easily available to reach in a short period of time —— and that means more time for work and recreation and leas time on the reach

time for work and recreation and less time on the road.

We hope you will seriously consider our city, Colorado Sprimes.

as the place to relocate your Space Systems Division.

SUBJECT: Draft EIS - Proposed Closure of Los Angeles AFE, CA and Relocation of Space Systems Division

Dear Sir:

I am writing in response to your Draft Environmental Impact Statement for the closure of Los Angeles AFB and the relocation of the Space Systems Division as it might affect the Vandenberg AFI area.

15.10 As a 28 year resident of Santa Haria, I believe all or a portion of the proposed move of the Los Angeles AFS, BMO at Norton AFS as appropriate for our Country's needs could and would be well received by the majority of Santa Maria and Lospoc residents.

When there is a will, there is certainly a way to provide the necessary water, air quality, howsing, and traffic nitigations by sensible planning and providing for these necessities, whether for Air Force or other needs.

Vandenberg AFB, its people, and its mission have been an asset to our area for the 29 years that I personally know of. Filling the 5,000 jobs that were once there and adding additional ones will be welcome to our area's economy which took a serious plow from the Challenger dissater.

Hate

Maker, a subject which I have followed closely for the past ten years as committee chairman and co-chairman of the Economic Development Association - Chamber of Commerce Mater Committee, can be acquired through various means. The State Mater Project Coastal Franch ZIR is currently being reviewed with probable certification in early 1991. There is currently 12,300 acre feet per year necommitted and available for purchase for shout \$20.00 per acre foot (\$2.25 Million). As an example, Vandenberg currently has 3,000 are feet per year committed as its portion of the project. Desalination, when economically viable, is a real future source "on the shelf".

AMPORT

MILE WENS

DOCUMENT 153

Sour Log

We have the resources to provide 6,500 housing units within Santa Haris City Limits, with a possible addition of 7,000 more units by annexation currently under Study. Many other local areas from Santa Yeaz to Arroyo Grande would provide shares of the housing needs.

Air CHALITY

The Santa Naria, Lospoc area is seldem (if ever) impacted with air quality problems. The quoted non-attainment has besselly been recorded at San Marcos Pass extains during severns weather conditions which have reversed South County problems ever the Santa Narzo Mountains. I've been breathing this good air for 28 years. I find it is one of our finest samets. I have even heard Rr. Ryearon, Santa Berbara Air Quality Control Chief Officer, comment that our area really has no sir quality problems, except occasionally particulate matter hlown by our ever present see breezes from the valley farming regions.

Transportation

The Sants Haria Public Airport is ready, willing, and able to provide the excellent air service needed; both private and commercial. Tree perking, very sequent cerminal facilities, hotel, and other vital air facilities are sveilable to provide for such an expension. A new 73s are high tech industrial park is under EIP review currently which will provide industrial sites for possible relocated technical support firms for any such most

Our roadway system, with continued good planning will keep our area free of traffic problems. The County recently passed a one half cent sales tax for roads within City and County areas. State gan tax increases will also help provide the tunds needed.

In conclusion, you have my vote, and most of the people I know, to plan to move all or a portion of the Los Angeles base to our area.

Sincepely,

DOCUMENT 157

Lt. Col. Tee Sertol Director, Programs and Environmental Division AFRCE - 885/DEP Borton AFB, CA 92409-6448

AYXX CORPORATION

Deer Colonel Bertol:

Please accept this letter of Ampport for the relocation of the Space bystems Division to Paterson Aft. Colorado Springs. CD. In making the decision to newer to our community "350" will fand that they are accung to a community that has a well established record for military support.

Coloredo Springa hos an ellurement that is sometimes difficult to put into verda. An obvious observation that one manage when not into verda. An obvious observation that one manage when not a recent reveletion. The city as a whole has been cerefully guided since its incorporation. The sease which one can travel from area to eres is testimony for a well thought out achees for traffic flow and control. The short sistence one has to travel to secure services, materials, and supplies simpleys to a newcontrol of the control of the

In source "SSU" to Coloredo Springs you will find that the choice to do so will place the division in a community that will welcome it. Support it end allow the group to live a quality life of the type that those who so not live hate will never apparance.

Lt. Col. Tom Bertol Director, Programs & Shwiromental Division AFRCE-MRA/DEP Morton AFB, Ch. 92409-6448

Dear Lt. Col. Bertel:

I as writing to you because of my business's membership in the Colorade Springe Chamber of Commerce. It has come to my attention that you are looking at the possibility of relocating the Space Systems Division from Les Ampeles Air Porce Base to Patezoon AFA. As a Colorade Springs besimessmen, I am of course bissed in the belief that of all the sites you are compidering, Patezoon AFA surely beast.

Patentian is surally the best. This property was a surally the best will also not qualified to make any kind of technical arguments reparding the relocation. I can tell you about semething which I think sheeld be an important part of year doction— ewellty of life. The cost of living is minimal compared to the Los Ampeles area. Bensing costs are very affordable. Utilities are reasonable. Schools are very located throughout the city and not exercised. Transportation arteries actually move traffic on they are intended to, and got you to your destination without taking a major part of your day. There are a transmitted mabber of outdoor recreational activities available throughout the year. The acontains really are beautiful:

Best vishes as you weigh all of the date involved in making a major decision of this hind. I look forward to welcoming the SED to Colorado Springs. Tew'll not regret the sove.

O.d. Jet-Richard L. Strycher Secretary/Treesurer

We understand the U. S. Air Force proposes to close Los Ampeles Air Force Base and that Peterson Air Force Base in Colorado Springs is a potential relocation site for the Space Systems Division.

15.10 Our firm supports the SED relocation to Peterson Air Force Base and believes such a relocation will be mutually beneficial to the Air Force and our community. Those of us living in this fine town enjoy our quality environment -- mountains, clean air, lakes, good schools and shopping, and short committee to our jobe and recreation/dejump activities. EUD employees will find ample housing swillable in all price ranges.

Colorado Springs' quality of living attracts people from all over the United States, as evidenced by the employment requests we receive from individuals villing to relocate from sorra affluent perce of the complete simply to live in our community. We are confident the ampleyees of the Space systems Division vill enjoy our quality of life also.

We are excited that Colorado Springs is under consideration for the SSD relocation and look forward to the opportunity of velcoming you to our city.

Dear Lt Col Barrol:

in response to the proposed SDD-LA relocate following comments are provided for your

Assuming that a primary reason for relocating SDD-LA relates to housing hardships on military and civilian personnel, consider relocating SDD-LA to San Bernardino. Buildable/affordable residencial land is plentiful outsin a 60 minute community from San Bernardino. Such move would certastily be welcomed by the local commensity as a favorable offset so the planned closure of Norion AFB within the next three years. The planned base closure would also make available significant amounts of vacant office space.

I had an opportunity to attend the Draft Environmental Impact Statement meeting Colorado Springs on September 5th. Momerer, I chose not to speak at that time because I had not reviewed the report and do not like to mapless an opposit which some basis

As a lifelong resident of Colorado Springs. I can assure you Colorado Springs offers an environment that is much healthire and would afford members of the Space Systems Division a quality of life that is not available to them at this time. We have available and affordable housing, the cost of living a significantly lower, quality recreation is available within shorter driving distances than what I am sure some personnel must spend in getting to Los Angeles Air Force Base from their homes.

Colorado Springs enjoys one of the finest reputations for community/military relations. I can assure you that the vast majority of the community would welcome with open arms the Space Systems Division. Also, it is a well-documented fact that a cleaner, more relaxed environment mould provide a significantly more productive work force.

1 strongly urge a favorable report for the relocation of the Space Systems Division to Colorado Springs. Should you desire additional information from me, I can be readily reached at avortice, 10/654-2500.

It's vary secting for our community to have Peterson AFS in the running for the relocation of Space Systems Division. Colorade Springs, Colorade is the best relocation chescs. The quality of life is superb. Our housing is readily evaliable and easily affectable whether one choses to buy or rest. You'll come to love and approxists the short commune times on our well developed infrastructure of unorwead reads.

The Pike's Peak region, which includes Calerado Springs, is one of the most breathtaking and beautiful places you'll even man. From the unsual rock forestions of the Series of the Gods to the majestic Rockies, you will grow to appreciate the megalficence of the area.

Our city government, Chamber of Commerce and local busine stand ready to help you in your relocation efforts.

This communitum is in suspent of the relocation of Space Systems Division (DDS) from Los Angeles Air Force Space to Peterson.

Air Force Space Colors.

There are two p inarry reasons which I feel are of significance. First, in addition to the fact that the headcasters for issues Command is in the Piles Peak Region It would seek to my that if space is the frontier of the future and the USAF Caute are the leadership of the future; then having the two within "infilument" distance of sech other would be adventageous. Secondly, the Piles Peak Region is uniquely qualified to heat military preparizations. The region has the Sectional and expension of the leadership of the second property is proud of their allitary necessary.

The Colorado Seriens citizenry is proud of their allitary neighbors and would waicome DOS.

Lt. Col. Tom Bartol Director. Processes & Environmental Division AFRCE-BRS/DEP Horton AFB, CA 92409-8448

Dear Col. Bartol.

Peterson AFB is in my Commissioner District and being a native to the eres I feel J bring a slightly different point of view.

By father how the rancher whose lands were acquired to establish Case Carson. It of course later became ft. Carson. Along about the same time the department of defense centracted to share the sirport and satabilished Peterson AFS. Later case Esta AFS. Then MORAD which later moved under the mountain. The Air Force Academy then became part of our community. More cecently falcon AFS was established on the high plains each of the Peterson and is becoming the heb of our nations military space program.

"And yet there is coon" and we would welcome the operations of the 380 as part of our community. I believe you will discover that the personnel would find our region very hospitable and the welcome wat is out should you decide to make the move here.

Sincurally.

Lt. Col. Tom Bartol Director: Programs & Environmental Division AFRCE-BMS/DEP Morton AFB. CA 92409-6448

Dear Colonel Bartol:

It is my understanding the United States Air Force is considering Peterson Air Force Mass in Colorado Springs as a potential site for relocation of the Space Systems Division currently located in Los Angeles.

Anytime a decision of this magnitude is studied, the impact on all concerned is tremendous. In considering Peterson AFS, please keep sultary examines the SSO could have free colored or symport the SSO could have free colored or sympost incomic colored or symposism of the medition, the colored opening slabor force is among the most highly educated in the nation.

has for quality of life there is no question our community is highly regarded. The local housing market is extraorby is highly regarded. The local housing market is extraorby favorable for those relocating into existing or new homes. We have an excellent transportation systemed one can commute from one end of the city to the other in less than jo simules. The natural beauty of colorade Springs is of great enticement and this is the cieanest city I have ever had the opportunity to reside.

15.10 In the end. I know whatever decision is made regarding the Space Systems Division will be done in the best interest of the Air Force and the role of the SSD. I feel Colorado Springs offers everything you need.

Thank you for the opportunity to express my opinion.

Attention: Lt Col Fom Bertol

Subject: Relocation of Space Systems Division

Dear Colonel Bartol:

MRIKC Research Corporation was founded in 1929 as the communications are of the U.S. scheduled sirlines. Over the years we have expended our support to include various U.S. government departments and agencies. In 1984, we opened an office in Colorado Springs to support the Air Force Space Command. Since that time, the office has grown to over 100 people supporting the Air Force, Army, and U.S. Space Commands and the Strategic Defense Initiative.

ARINC and our staff whole heartedly support the Air Force Space Systems Division relocating to Colorado Springs. We believe that such a move yould unity the space community bringing operators and developers together in one strategic location.

On a personal note. I moved to Colorado Springs from Annapolis, HD in 1987 to manage the ARING office. I've been impressed with the quality of life here including available housing, skeellent educational facilities, and easy access to cuttural events. quobal transportation, and the great outdoors. But frankly what has impressed set the most are the people. Their north abit can con-do-attitude are Telephany after expanishing the bireaucracy of a metropolitan area.

Dear Lt. Col. Barton:

I am writing you to share with you my enthusiasm for living in Coloredo Springs.

J am a member of the Chamber of Commerce of Colorado Springs and through them I learnes about the Possibility of LAAFE's Space Systems Division moving to the Springs

We found the housing very affordable and purchased a dram house which could never nave been obtained in L.A. We are noth if minutes from work and this alone is worth a fortune not only in time and money but also beace of mind.

The most important quality of life here is the commontal atmosphere. Everyone is wern and friendly and genushely concerned about your welfare. I have never lived is a friendly place like this one and furthermore I have never hed so many friends.

1 hope this letter will serve as positive food for thought as you consider moving to Coloredo Springs.

State of Galifornia covernous arrias secumenta osom

July 28. 1996

The Egnorable Deneid B. Rice Secretary of the Air Force The Pentagon Washington, D.C. 20191

Dear Rr. Secretary:

Saciler this year, the 0.6. Air Force assumed its intention to rejeate its Space Systems Division, which is located at the Loc Angeles Air Force Base in 21 Sepande, California.

I am w. 'img to express California's strong support that this facility either remain at its current location, or be relocated to one of the two California sites currently under consideration, Harch Air Force Base or Vandonberg Air Porce Sase.

As a result of the reductions in defense opending, California stands to be impacted more than any other state. Clearly, with the six military best elements in our state already announced, and considered, California is in jeopardy of suffering job lesses in great disproportion to other states.

The Air Perce Speece Systems Division represents a unique and vital segment of our state's occasory. This Division's mission is a develop and sequite space systems for the Air Force and other federal egencies. This Tuncation, far from deteriorating, is a vital and growing one in the context of teday's evolving military and space requirements. As catain risk to California etc appear intelligible of the property of the determinant of the context of the air and the Tuncation of the Air State of th

Additionally, such of the Space Systems Division's operations in cooperation with private contractors, several of whom have facilities on the same grounds in il Sequido. While it is speculative at this time, I am concerned that moving the Space Systems Division out of Southern California could impact these important jobs as well.

The Honorable Danald B. Rice Page two

Delecation of the Space Systems Division outside California would be a seatly and unnecessary expenditure of decreesing defence mains. According to estimate developed by the Air Faces, the total cost of closing the Space Systems Division and moving its perceased and facilities set of California could total II billion. If the Space Systems Division were kept in California, count to the Department of Defense well be dramtically reduced. This represents a predent cost-saving senset to the state of the Space Systems Division were to the first sense to the Space Systems of Division were the total total and the Space Systems of Defense well be dramtically reduced. This represents a predent cost-saving senser as the Air Porce faces increasingly difficult decisions on how to constain specimens and strategic programs with fewer resources.

California must not pay more than what is fair to cohieve the peace dividend, if there is to be one. By administration is committed to this project and I respectfully urespectation of committed to the project and Interpretable until pay post attempt on alderation of our desire to ensure that this important forility remain in California.

House condition,

France clausery and George Deutsejian

The Enserable George Srova Hember of Congrass 2180 Repburn Weshington, D.C. 20515

Dear George:

'a I have provisedly stated, I atrengly object to the relocation of . Salilatic Misselle Division from Nerton Air Force Sees. The loss of the Misselle Group would cost for herendrich Comerty 8.700 jubo and FIIO dilition in yearly payroll. Meediess to eart, this mass would have a serious impact upon our least economy. The loss of jobs would cause a higher mumber being added to wolfers rolls and arm people communified farther to and from work. This could further cripple our economy and add to our air quality and local traftite problems.

I urgs you to do everything in your power to stop the relocation of the Balliatic Missile Straion from its proposet location and its isoponism domine offect upon our local ocency.

Attachment to Document 193 Attachment to Document 193 1.121 4. 2 .4 UNIVERSITY OF CALIFORNIA, RIVERSIDE California State Senate STREET, SAN COLORS CO. STREET, July 17, 1990 May 24, 1990 The Honorable Hr. Richard Cheney Secretary of Dafense The Pentagon Washington, DC 20301-1000 Nr. Steve Albright, Chairman Inland Empire Rpace Systems Division Relocation Group 3756 University Avanue, Suite 240 Riverside, Californis 92501-3313 Dear Secretary Chemey: I would like to endorse the efforts of the Inland Empire of Southern California to bring the Air Force Space Systems Division to March Air Force Base. l am writing to offer my wholeheatted support for relocating both the Space Systems Division and the Bellistic Hiesile Operation to March Air Force Base. I am the chief executive officer of the fastest growing campus in the University of California system. During the five years I have been associated with the Riverside caspus, it has grown from 4,800 to 8,700 students, and it is expected to increase to 18,050 students by the year 2005. I emphasize this growth, for it has been accomplished in a spirit of cotal cooperation with the communities of this region. The loss of Morton Air Force Bess will have substantial economic impact on our area. The loss of jobs is one of the seconomic impact on our area. The loss of jobs is one of the process o I also anticipate that you must consider the same needs we have considered as you bring mey jobs and new people to a region. The factors of effordable and accessible housing, quality education on all levels, quality of life, and macessary city services were all paramount to our decision to grow. This relocation is of vital importance to the inland Empire. Please do not hesitate to contact me if I can be of any assistance in this important matter. In each case, the citizens of Riverside and Moreno Valley and our neighboring cities have more than met the challenge. Equally important, the city administration and elected officials have gone out of their way to facilitate and encourage our growth. The engerness of the region to attract the Space Systems Division will encourage the leaders to be even more receptive to this installation. On a more personal note, I also want you to know that the University of California. Riverside, will do everything it can to respond to your needs through the full range 18:90 237 4242 - Victoring Apple Valley Herry or and 15:10:273 4342 - Sungar Bay from and State Sample (1996 2021 of the company agricultural left and annual company agricultural left and annual company agricultural left annual company agricultural left annual company agricultural left annual company agricultural left annual company agricultural left annual company agricultural left annual company agricultural left annual company agricultural left annual company agricultural left annual company agricultural left annual company agricultural left annual company agricultural left annual company agricultural left annual company agricultural left annual company agricultural left annual company agricultural left annual company agricultural left annual left a uning comp one much observed historic fluids 100 storate CA 01706 (Fig. pail-capt ». RESOLUTION NO. 90-365

A RESOLUTION OF THE BOARD OF SUPERVISORS OF THE COUNTY REVERSIOE, CALEFORMER SUPPORTING THE RELOCATION OF THE SPACE SYSTEMS DIVISION TO MAND! AIR FORCE BASE

medEREAS. The United States Air Force has amounced its intention to relocate its Space Systems Division from Los Ampeles AFB in an effort to consolidate its functions to realize greater efficiency, provide for future repansion, improve the quality of life for its military and civilian personnel by previding access to afferdable housing and reducing community time; and

MHEREAS, the Air Force has announced its intention to study the relocation of the Ballistic Missile Organization from Norton AFE, in an effort to improve operational efficiency, and

MMEREAS, the Air Force has maintained an active facility at March AFB in the unincorporated area of Elverside County since 1917 and the Ballistic Missile Organization or similar agency at Morton AFB in neighboring San Bernardino County since 1962; and

MMEREAS, California is a critical location for the entire Pacific area with respect to supporting all space defense initiatives; and

NNIBEAS, the community leaders of the Riverside-San Bernardino areas have joined together to relocate the Space Systems Division to March AFB and to keep the Ballistic Missile Organization at Norton AFB, and

MMEREAS, March Air force Base possesses the necessary physical space, would provide continuity of operations within the Los Angeles basin, hould cause mining nervicemental disruption, has access to adequate and reasonably priced housing, offers easy access to Obsario International Airport, is close to a mamber of colleges and universities within the Inland Empire, particularly the University of California, Stverside, and its School of Engineering, enjoys seclient alistary—commonly relations, and has an excellent geographical location with adequate land for base and industrial expansion.

NON. THEREFORE, BE IT RESOLVED, THAT THE BOARD OF SUPERVISORS OF THE COUNTY OF REVERSIDE, STATE OF CALIFORNIA, RESPECTFULLY REQUEST THE DEPARTMENT OF THE ATR FORCE TO RELOCATE THE SPACE SYSTEMS DIVISION FROM LOS ANGELES AFB TO MARCH ARB, AND TO EXEP THE BALLISTIC MISSILE ORGANIZATION AT MORTOM AFB.

The Inland Empire Space Systems Division Relocation Groups FROM:

July 2, 1990

RESOLUTION IN SUPPORT OF RELOCATING THE SPACE SYSTEMS DIVISION TO MARCH AIR FORCE BASE

A project which is crucial to the Inland Empire economy is the United States Air Force's Seace Systems Division (SSCI: The Tactifity is now at the los Ampeies Air Base, and studies are now underway to analyze alternative locations for its proposed relocation. Relocation [SSD involves 7.300 jobs. constructing of ever 2 million soquer feed of office facilities, and over a pillion in permat personnel and operating costs.

It is the desire that you will actively amonort its relocation to teach air force hase in diversion County.

The Inland Empire Space Systems Division Relocation Group is a coalition of concerned elected, civic, and business leapers in the Inland Empire. Considerable funds have been raised to promote March Air Force Sese as the best alternative site.

Your leadership and support of our engeavor will be greatly appreciated.

RECOMMENDED ACTION:

Asset the attached resolution in support of relocating the Space Systems Division to March Air Force Sase.

Por Immediate Release

July 26, 1930

The Board of Directors of the Beaumont Community Chamber of Commerce, in full support of the Intend Espire Space Systems Division Relocation Group, unanimously passed the following resolution on July 25, 1990:

WHEREAS, the United States Air Force has announced its intention to relocate its Space Systems Division from Los Angeles AFS in an effort to commonidate its functions to realize greater efficiency, provide for future expansion, improve the quality of life for its military and civilian personnel by providing eccess to affordable housing and reducing commuter time. These efforts should allow the Air Force to achieve its goal of attracting a professional management team for future space systems development. Also, the Air Force has announced its intention to relocate the Sellietic Missils Organization from Morton AFS, in an effort to improve operational efficiency.

WMEREAS, the Air force has maintained an active facility at March AFB since 1917 and the Ballistic Hissile Organization or similar agency at Morton AFB since 1962; The resolution was placed into a motion by Weldon Slein, seconded by Weil Corbett and unenamously adopted by Lyle Hillage, Heil Corbett, Barbara Siddons, Mett Brey, Hildred Teomans, Donas Franco, Hike Sedparry, Weldon Blein, and Chris Rellly.

A sign up sheet of those who support the resolution was signed by those present and is available to all who wish to support the resolution. The sign up sheet will be included with a letter to the U.S. Secretary of Defense, Richard Chessy.

Re: Bellistic Himsle Operation Sceping Session-San Bernardine, California-- Nay 24, 1990.

Dear Sir.

- CAN PER

Transpirent to adjust to the second s

The "Conlition of Chambers" is made up of eleven Chambers of Commerce in the Inland Empire consisting of 15,000 Realmess and over 150,000 Realmess People: We believe that the Inland Empire has been overly impacted by the recent Base Closure Activity with the loss of George and Horton Air Force Reses! San Bernardino Country has hed more negative impact than any other Country has hed more negative impact than any other Country has hed more negative impact than any other Country in United States and more than most States!

It is within this framework that we take the stand that the Ballistic Rissile Organization should remain in San Bernerdino! We see this as a twofold effort? BMO should remain at Merton and the Space System Division of the Air force should be located at Rarch Air force Uses in Riverside. The close provinity of the Space System Division (approximately 20 siles from the existing BMO) would be a reasonable working distance.

- Me further negative impact on San Bernardino County by the loss of BMO.
- emould remain at Marton and the Space System Division of the Air Force mould be located at Marton Air Force Make in Riverside. The close provinity of the Space System Division (approximately 10 sliae from the existing BHO) would be a reasonable working distance.

 The major edvantages of these joint measures would be:

 1. Me further negative impact on San Bernardino Count by the loss or BHO.

 2. He celecation costs required for the BHO Facility or the people currently employed there.

 3. Most of the people currently employed by the space System Division in El Segundo are in fairly employed the second control of the second currently employed the second control of the second currently employed the second control of the second currently employed are in fairly employed control of the second currently employed the second control of the second currently employed and control of the second currently employed the second control of the second currently employed t Most of the people currently employed by the Space System Division in El Sagundo are in fairly easy communiting range of March Air Porce Base which would reduce or glisinate relocation expenses. (Those preferring to relocate would be moving from an area with higher property values in the Los Angeles Basin to an area with significantly lower residential property costs in the Inland Empire.)
 - 4. Both the Space Systems Division and the Bellistic Himsile Operation would continue to be in close prominity to the Aerospace Industry in Southern

P.O. Box 3003 - Redignos CA 923 J 0305 - 1714: 335-7702

Attachment to Document 193

- Werch Air Force Sees has plonty of land available for development for the project as well as for any forceceable enlargement possibilities.
- There is plenty of low and resonably priced residential property available.
- There is an exceptionally high grade labor pool available to be tapped.
- The University of California at Riverside is establishing a School of Engineering which would provide an abundance of local telent.
- The University of Californie at Riverside is in the midet of developing a Public/Private sector Research Fork which would also attract talent and provide additional resources.

In summary Southern Colifornia and specifically the Inland Empire has had more than its' fair mears of mac cleaings and job losses. We also will continue to be negatively imported in our herospace and Defense oriented industries as the military reduces expenditures. We, the "Coalition of Chambers", believe that under these conditions it is essential the Spece Systems Division of the Air Force locate at March Air Porce Sees and that the Ballistic Rissist operation reseals in close proximity at Morton Air Force Sees

The Monorable Dick Chensy Secretary of Defense The Jontagon Meanington, D.C. 20301-1000

Dear Secretary Cheney:

The Corone Chamber of Commerce strongly supports relocating Air Porce Space Systems Osvision (330) to Merch Air Force Base and keeping the Balliatic Missile Organization (8MO) at Merch Air Porce Base.

Roving S80 to March A.F.S. vill greatly improve the job/housing balance in Riverside County. Gorone is the tip of the function of the new jobs in Occange County. The addition of the new jobs created by relocating S50 to March A.F.S. vill neighthe traffic composition in Catona and improve the air quality.

Likewise, the relocation of BRO from San Bernarding County would have the reverse affect on their jobs/housing belance, traffic and air quality.

If SSD is to be moved from the Les Angeles Air Porce Base we strengly uses you to support the relocation to March A.F.B. and the retention of BMO.

Written Comment Sheet

Space Systems Division Relocation **Environmental Impact Statement**

Thank you for attending this Scoping Meeting. Our purpose for hosting this meeting is to give you an opportunity to assist us in identifying pertinent issues for analysis within the Los Angeles Base Closure / Space Systems Division Relocation Environmental Impact Statement. Please use this sheet to bring to our attention potential Environmental Issues that you feel should be analyzed in the Environmental Impact Statement.

The San Bernarding Area Champer of Commerce, representing over 1050 member hus-Thesses, strongly urge the U.S. Air Force to consider relocating the Space Systems

Division to March Air Force Base in Riverside.

We are all aware of the economic and political factors that would result in the

loss of our own Ballistic Systems Office it Morton AFB, should the SSO be moved out of

State or to Yandernburg AFR.

The closure of Norton AFS is 19199 to have a increas repeated impact on the jea-market in San Bernardino and the surrounding area. The additional loss of 890's

2500 jobs will cause a serious situation to get worse.

SAM HENLEY, Executive Vice President.

LTGel Ten hertel Parector of Programs & Revironmental Division APPACE-NUS/DEP Reriya Air Porce Rose, CA 92409-6448

I am offiting regarding the relocation of the Space Systems Division.

In cosing the newelipe from the evening that the bearings were held at Concomial Hell in Calerode Springs, I was concerned that it would leave the imprecision that there is significant opposition to that realectation in the community of Colorade Springs. I do not believe that to be the case. I compact that the same people who opposered as enti-calitary At that montage, would opposer as miti-growth at montage the colorade opposing the minority in Calerade Springs.

ha I was you know from the time you spent in the local Stee, that Colorade Springs is entremely supportive of the military, and we realize how important on component of the community that the military is. I think if you ware to talk with the steaf as URAM. Peterson Tall or Jest Garen who are responsible for the interaction with the community, that there would all tall you that there is a very fravefable sevirement. The built of the citizens is closed Springe are very much interaction is quality growth. Met But Space Springs Division would certainly committee very high quality growth for the community of Colorade Springe.

I me confident that Colorade Springs can absorb the type of growth which the Space Systems Division would canon, because the infrastructure has been in place for the last few wars so accommodate significant growth. In addition, I am confident that the casty would be very receptive to the growth which the Space Systems with principle Colorado springs and that the utilitary and civilian springs much brings to Colorado springs and that the utilitary and civilian springs will be moving hore would be moving hore would ind a server warm unique.

15.10 I know I openis for the nejority of residents in anying that we would welcome the spect Systems Davision to Colorado Springs, and we would be more than thought of slappy to display that attained in whatever very decend to be more of fractive.

LtCol Tun Serzol Page Two September 17, 1990

Dear Col. Bertol:

As a fourth generation Coloradan and one who has meen civically extive and publicly supportive of our military community over the years, it is a pleasure for me to enderse Colorade Springs' effort to relocate the Space Systems Division to our Community.

In the past, my family was instrumental in bringing Ft. Carson, the Air Perce Academy, and the NGBAD Beedquarters to our city and it is with the same communities and enthusias that all of us mane it the current effort to assist in your decision to relocate SED. Colorade Springs has a proven track record of support for the military and I can assure you this support will not diminish, but will be emhanced by your decision.

We stand ready to assist your effort as necessary and to assure you that Colorado Sayangs not only has the will and the desire to welcome your prestations Billiary operation. But it also has the capability to do so. Our entraordinary lifestyie here at the foot of Pines Pean is sewestered by incorporate housing, reasonable utility rates, quality education, and short commutes.

We know we will be a good home for this important Air Farce mission and thank you for the opportunity. Should my office be able to assist you in any way, please let me know.

Yours sincerely,

theisul William B. Tutt

DOCUMENT 201

CITY OF COLORADO SPRINGS

POST OFFICE BOX 1575 COLORADO SPRINGS, COLORADO 80901

September 21, 1990

Lt. Col. Tom Bartol Director, Programs and Environmental Division AFRCE-MMS/DEP Morton AFB, California 92409-6448

On behalf of the City of Colorado Springs, I wish to file comments for the record pertaining to the <u>Oraft Environmental</u> lument Statement. Proceed Closure of Los Angeles AFE, California and Relocation of Space Systems Division.

First, I want to express my appreciation to the Air Force generally and your office particularly for a thorough and professional job in putting together such a comprehensive and, for the most part, suthoritative Draft EIS (DEIS). Also, a representative of the Colorado Springe Chamber of Commerce who attended all the DEIS hearings has remarked favorably on the professionalism and diplemacry with which sach was conducted. I would have expected nothing less, but I congratulate you montholess.

A reading of the transcripts will reveal that the environmental impact hearing held in Colorado Springs on September 5, 1990, differed substantially from the others in that the discussion actually contered on <u>snyironmental</u> issues: This was not accidental. The community leadership assumed that the Air Force did not head to be instructed at larged about the local economic advantages of transferring or creating 18,000 jobs.

Instead, we took literally your injunction that the focus of the hearings should be on impact to the hearings should be on impact to the hearings should be should be beautiful of bringing the Space Systems Division (SSO) to Colorado Springs. There is clearly a connection between a community's aconomic well-being and quality of life, but our massive community support for this move will be expressed in other ways and in other appropriate forums.

The September 5 hearing demonstrated the rich diversity of viewpoint and appreciate that is characteristic of this part of determination to proceed the part of determination to protect it case through very clearly in the comments by several speakers. I think it would be useful to put those comments into perspective.

Lt. Col. Tos Barto; September 21, 1990 Page 2

Those who registered environmental concerns about the preposed move fell into three categories. The first were citizens who have open sinds, but also samy questions about the possible which was considered convincingly—as I believe your final EIS viil do—that the environmental impacts will be minimal and that will do—that the environmental impacts will be minimal and that the convincing of the convincing the

The account category of comment attempted to occurs similar, we actually enti-military sentiment campelloped as environment concern. No account of ecientific evidence will assume the environmental aryments of this group, because their unstated premise is that it is the military, itself, which is the intolerable environmental pollution.

The third group is similarly impervious to scientific evidence, but differs from the second in that they resist any substantial growth, silitary or civilan. They oppose the prospect of \$50°s transfer to Colorado Springs because it would violate their down that any expension would upset the delicate environmental belance which seems to be poised at the absolute limits of equilibrium at the present population level.

The first category represents the mainstream view of Colorado Springer environmentally sware citizens; the other two definitely do not. The latter grouper views deserve to be heard and weighed, as your panel did so patiently earlier this month, but I urge you to concentrate on the genuine environmental issues and the measures that the Air Force, state and local agencies can and vill take to minister any possible undescrable impact.

Turning now to the DEIS, itself. I wish to correct a few errors in fact or in content in order to improve the accuracy and utility of the final EES as a tool for Air Force decision-makers. Some of these items were covered orally during the hearing, but a complication of the meet important issues, from our perspective, alight simplify your amolysis.

Two important changes should be reflected in the final EIS.
First, it is our understanding that the Air Ferce plane to drop
Falcon AFS from consideration as a potential relocation eite.
This action would be consistent with the finding of an
overdrafted equifer and would eliminate water as an
environmentally limiting factor if SSO were to move to Coloredo
Bartiese.

	DOCUMENT 201	DOCUMENT:
	LC. Col. Tom Bartol September 31, 1990 Page 3	ic. Col. Ton Hartol September 21, 1996 Page 4
3.24	Second, there is a substantial discrepancy between the houndaries of Poterson AFS Site 3 as displayed in the OETS and those eriginally agreed between the sity and the Air Perce. This discrepancy is compenied by superificant because the prohistoric competer rings sited in the OETS are located outside the boundary of Site 3 as we sevialen it. I strongly wree that your DETS contractor next with the between AFS Civil Engineer and appropriate Colorado Springs empineers to resolve this lesses in order that the spariess cultural impact can be removed from the shallysts. Air SmallkY While we generally agree with the analysis and conclusions partaining to air quality, there are sewaral technical discrepancies that shall be sourcetted. Your contractor should contact Joseph J. Hammend of our Environmental Services Division for a detailed summary of these errors.	content. I ask that you incorporate the above facts into your analysis and medify the language of your conclusions occurringly. **Bater Resources** As with air quality, we have noted several miner discrepancies respiration sources, demand levels, projections, e.g. Phillip R. Your office with corrected figures. The next significant currents of the property is.4.1 does not fully this into account planned and projected increases in capacity. This paragraph should be revised to reflect that everage delity demand in projected to increase to 49 percent of the system's treatment capacity is 1994 and 59 percent in 1997 (rather than 66 percent capacity is 1994 and 59 percent in 1997 (rather than 66 percent capacity is 1994 and 59 percent.) **Transpariation: head Traffig** We believe the description of future traffic conditions at
11.13	A large concern relation to what we resired as a questionable conclusion shows the length-size air quality import. The DETS conclusion shows the length-size air quality import. The DETS conclusion that the import sensit of CO stationness status in El Paco County. It appears this conclusion is based on analyzing the increase in traffic of the one-hour carbon somozide standard. In the past ten years of somitoring in Colorado Springs, there has gaing been an emecadance of the own-hour standard. Miscrover, there has set hear an aight-hour standard violation since January, 1995. Therefore, while the DETS is technically accurate in stating that Colorade Springs is in nonettainment, in fact, we have been in attainment for the lart nine openicality squarters and could officially file for stainment status in our mart State Implementation Plan (EIP).	Prizeron AFB seriously oversities the true impact. The discrepancy appears to five from an incomp.ete analysis of manifeld history actions that the sity and the base are already constituted to take remarkings at the decision on relocation SED. Assorp these area: Improving Powers Seminary to a suiti-less (serious expectity and access for Peterson AFB. Scheduled completion: 1993. Completing the US 24 Sypnes between Powers and I-25. Scheduled completion: 1993.
11.14	Additionally, sli the maximum CO commentrations have been recorded at the I-28 corridor along the Fountain/Honument Croek sirahed. The maximum concentrations on the eastern side of Colerade Springs near Petersons AFS usual be used less. Besides, the population and traffic increases proposed from this project are within the estimates accounted for in our SIP. Obviously, peak traffic estimates usual result in slevated CO concentrations at the Sartsherfal and CS s intersection at norming and afterneess traval times from the human. However, our expects believe it is unlikely to result in vigilations ower an eight-hour awares, which has been our main comment in Colerado Springs. In summary, a nerrowly accurate actualment produces a highly misleading escalusion because of the absence of the above	Relateting Calcrade Highout 94 traffic every from the Peterson XPS-learninghes problem area and providing new capacity by the multi-lane realignment project from Peterson Souleward through Harthandfell head. Schooling completion: 1996, but possible acceleration to 1993 with advanced funding. Constructing interchange at Powers and Stewart (Nest date of Peterson AFS). Project submitted for funding by Air Force. Sets that those are not "maybe" projects. Those improvements were planned and, is two cases, funded well before the 250 were planned and, is two cases, funded well before the 250 these actions will produce the according to our analysis. These actions will produce the according to the 250 these actions will produce the according to the 250 maybe that that demonstration "PS lovels of service as the 250 marrative and tables assert. 		SOW, THEREFORM, BE IT RESOLVES BY THE CITY SOWNILL OF THE CITY OF COLDANOS SPRINGE: That it fully supports the proposed relocation of Air Force Space Systems Division and respectfully calls upon the Air Force to recommend much rejectation to Potarosa Air Force See in Colerado Springs, Colorado and, in the event of such recommendation, calls upon the Department of Defense, the Executive Stands and Compress to approve such relocation.
		upen the Department of Defense, the Euccutive Branch and Comgress to approve such relocation.

Attachment to Document 201 **DOCUMENT 202** That the City of Colorado Springs piedges its full and continued support to the military personnel, installations, programs and related civilian defense contractors located in Colorado Springs now and in the future. That the city of Colorado Springe shall enthusiastically support, to the fullest extent persitted by its Charter and state law, the efforts of the citiesm and business community of Colorado Springs in promoting and assisting the relocation of Space Systems Division to Colorado. Dated at Colorado Springs, Colorado this 11th day of September 1990. Lt. Col. Tom Bartol Director, Programs and Environmental Division AFRCE-SMS/DEF Morton AFB, CA 92409-6448 Atto Sun Robert M. Isaac, Hayor Subject: Comments to the Draft Environmental Impact Statement Proposed Closure of Los Angeles AFB, California, and Relocation of Space Systems Division Young, Vice Mayor Dear Lt. Col. Bartol: Waye D. S. she The Inland Empire Space Systems Division Relocation Group is pleased to ofter comments on the above referenced project, Our Group has closely monitored the environmental review process for this project. We are very complimentary of the thoroughness of the United States Air Force in assuring that a complete public input responds to all potential comecnat. len Rakepears The testimony offered below summarizes statements made by our Group during the public hearings process. Supporting documentation by experts in the areas discussed in this summary are either included with this letter or have been forwarded separately. Many Ellin Milis Our comments relate only to those portions of the DEIS which propose relocation of the SSD to March Air Force Base. Quality of Life NMALKY WE hast In 1.1 of the DEI. the reason for the proposed action is "based on a number of operational and quality of life issues." Cost of Among these are nowaing costs and commuting times." Cost of living is another important consideration as "government civilian employees cannot be compensated adequacely to work in the area under existing pay plans. As a result, military and civilian employees suffer financial hardships in comparison to their peers assigned to other locations. This has prested difficulties in retaining and filling many civilian positions at los Ampeles Air Force Base, particularly in lower pay grades. **DOCUMENT 202 DOCUMENT 202** tt. Col. Tom Bartol Director, Programs and Environmental Division September 21, 1990 Lt. Col. Tom Bartol Director, Programs and Environmental Division September 11, 1990 It is our goal to demonstrate that these difficult archieus to march Air force Base. statement, and to the contrary the SCAQMD testimony clarifies the potential positive impacts on air quality. The SCAQMD testimony also outlines reasonable mitigation actions which should be considered if the SSD relocates to March AFS. 15.15 The American Chamber of Commerce Research Association performs a quarterly cost of living analysis for mejor cities and urban areas in the United States. The Most recent published report is for the Fourth Quarter, 1989. Examples of applicable compactions are detailed below: Adequate planning and financing for transportation facilities in a growing area is vital to a successful local seconds. In the finland Bepire, long range planning for transportation facilities is done by the liverside County Transportation Commission (ECC) and the San Bernardino Association of Governments (SANBMG). Los Anoules Riverside/San Bernerdino 129.2 210.2 130.6 113.4 141.7 120.2 Extensive testimony has already been offered for the public record by RCTC. In summary, that testimony outlines the plans for the following:

£ 5.10

100.0 MATIONAL AVERAGE Rousing fost and availability is a key leaded. The availability of more afforcable housing in nearby communities, combined with on-base housing at March AFB, act to drastically reduce communities times from the up to 4 hours par day for current employees at the El Segundo Seutility.

Additional housing cost figures, an available labor force profile, commuting patterns, and other quality of life factors are covered in detail elsewhere in this letter.

Included are several local City and Chamber of Commerce publications which detail the "Quality of life" advantages of the communities hearby Metch Air Force Base and the publication entitled "Aim High - Choose March" (Enclosure 1).

The South Coast Air Quality Management District (SCAQMD) is responsible for air quality monitoring and regulatory programs for Los Angelse, Orange, Everside, and the non-desert portion of Sen Bernardino County. Included are comments from the SCAQMD which respond to the air quality discussion in the DEIS (Enclosure 2)

Page 2

In 4.4.8 of the DEIS, the report states that there will be significant negative air quality impacts as a result of the proposed relocation to March 475. This is an incorrect

6.20

Page 1

In relation to the DEIS, it is in error to say (4.4.), i) that the relocation of the SBI to March Arm . The transition of the SBI to March Arm . The transition of the SBI to SBI

is for the following:

- freeway (1-215) and interchange improvements planned and funded near Match Air Force Base. .ncluding the time frame for construction.

- freeway (1-215) and interchange improvements planned and funded near Match Air Force Base. .ncluding the time framework of the four tenders and San Bernardino Councies.

- inte discribition of one-half cent sales tax funds to local communities that will be used for street and roadway improvements, including those nearby and adjacent to Match Air Force Base. In 4.4.1.1. it is stated that to relieve compaction along Castum and adjacent to Match Air Force Base. In 4.4.1.1. it is exacted that to relieve compaction along Castum expanded to four lanes. This is the type of project that could be funded with sales tax dollars:

- and the priority that will be given to the provision of a light real system for commuters and to other mass transit expanditures.

DOCUMENT 202 DOCUMENT 202 Lt. Col. Tom Bertol Director, Programs and Exvironmental Division September 21, 1990 Director, Programs and Environmental Division September 21, 1990 additional factual transportation testimony is included in the document, 'Aim High - Choose March.' Testimony entered by the Elverside County Transportation Commission is included with this letter (Enclosure 3). sitms appears to be identified habitat area for the andangered species, and therefore the discussion with regard to mitigation efforts should be isolated only to this alternative site option. The DELE does not address steeld to local actions stready being taken to minimize the impacts of dovelopment on the addressent more to local actions stready Connergial Air Passanger Service According to of the DEIS, accessibility to a major commercial airport is key to the successful mission of the Space Systems The DETS also does not discuss the process that is required by a governmental jurisdiction to address and sitigate any impacts from a project on an identified andaquered species or its halfter. As stated, the DETS also does not recognize innovative mitigation efforts already underway. The Inland Empire SED Relocation Group requests that these processes, efforts, and accomplishments to date be taken under consideration. March Air Force Base is within a one-half hour drive of Chtario International Airport. This Airport has seen tremendous expension of commercial flights in recent years, yet it is still relatively uncreased and very eccessible. a major hus providing direct and connecting flights to all major cities in the United States, the Airport can easily handle the projected needs of the \$50's employees and its visitors. 13.2 The Group is confident that impacts on this endangered species can be, or are already being, mitigated with a responsible habitat connecevation plan. It is also our understanding that March his Force Bees is currently modulating a plan that would preserve labitat area for the SUB and other species of special concern with the U.S. Figh and Wildlife Service. The Bees proposal would set easible sufficient acreage which is suitable and available! for habitat reserve. March AFB is also within one hour of the Pelm Springs Airport (east) and the John Wayne Airport (southwest in Orange County). 6.22 Compercial Air Freight Service Freight services are concentrated at Ontario International Airport. Four major air freight services - United Parcel Service (UPS), Federal Express, Besty Worldwide, and Airborns - all fly from Ontario and offer overnight services to locations throughout the United States. This issue is being aggressively addressed, and the potential impacts will be pittinged. Testimony offered by Mr. Bob Weles, Assistant City Manager for the City of Rivereide, which addresses work already underway to nitigate unspects on the endangered species and its hebitat is included with this letter (Enclosure 4). Ontario is also the West Coast hub distribution sits for United Parcel Service. UPS has significant expansion plans for its Ostatio location that will offer even detter service in the hear future. The provision of adequate water supplies (both in quality and quantity) can be accommodated at the March AFF site(s) and at support development that is anticipated to occur off-site. The DEES did not identify any extraordinary needs for weter quantity or wastewater treatment. Therefore, the statement assuring adequate water supplies and wastewater treatment cashing some contents of the statement assuring adequate water supplies and wastewater treatment cashington assumes that only demonstrate used in the required. Endangered Special The DEIS (4.4.10.1) states that "the proposed action would have a significant adverse lapact on the Stephens Kangaroo Rat." Potential impacts on endangered species in the area May occur if the SSD relocates to one of three alternative locations on March AFB. Only one of the times potential 13.6 **DOCUMENT 202 DOCUMENT 202** Lt. Col. Tom Barrol Director, Programs and Environmental Division September 21, 1990 Lt. Col. Tom Bartol Director, Programs and Environmental Division September 21, 1990 Water supply and treatment for Merch AFB are provided by Eastern Municipal Water District (DBMO). The DETS needs to be updated with requard to the provision of water to the March AFB size(#). If the DETS reads to the provision of water to the March AFB size(#) and the Afb size(#) and t Following are recently reported statistics on prices for home sales in the Inland Empire: Median Price July 1990 Average Price 7.10 Riverside/San Bernardino Riverside County San Bernardino County Los Angeles County Orange County s 133,578 * Source: California Association of Realtors ** Source: TRM Real Estate Information Services Average Price Average Price Vascowater treezment is provided by March Air Force Bese and, for private sector housing and development, by either local for private sector housing and development, by either local portion of 4.4.4.1 of the DEEs is a error. The treatment capacity of the March AFB sewage treatment facility is 1.25 MED, not 1.0 MED as was reported in the DEEs. Therefore, it is capable of handling the increased requirement that would occur with the SED relocation. Riverside County 5 146.891 Zone 2 (Riverside/Moreno 1 149.113 San Bernardino County 119.164 Zone 8 (Reclands/Yucaspa 1 152.279 Zone 14 (Implement) 4.10 7.11 \$ 236,919 223,472 252,471 491,340 # Angeles County | Zone 14 | Inglewood) | Come 15 | (Gardena/Torrance) | Zone 16 | El Segundo/Beach Cities) HOUSEDS COST * Source: Los Angeles Times "Southland Home Prices" Mousing costs in the Inland Empire are considerably less than those in Los Ampeles and Grange Counties. The DEIS does not address atself to local actions already being taken to mittage the amounts of development on the andangered appears, notably the Stephens Emparco Rai ISERI. Commercial Air Passenger Service According to of the DEIS, accessibility to a major commercial airport is key to the successful mission of the Space Systems Division. The OEIS also does not discuss the process that is required by a governmental jurisdiction to address and mitigate any impacts from a project on an identified entangest grows provided the process that habitat. As stated, the DEIS also does not recognize innovative mitigation efforts already underway. The inland Empire SED Relocation Group requests that these processes, efforts, and accompliaments to date be taken under consideration. Harch Air Force Base is within a one-half hour drive of Ontario International Airport. This Airport has seen tremendous expansion of commercial flights in recent years, yet it is still relatively uncrowded and very accessible. As a major hub providing direct and connecting flights to all major cities in the United States, the Airport can easily handle the projected needs of the SSD's employees and its vastors. 13.2 The Group is confident that impacts on this endangered species can be, or are already being, intigated with a responsible habitat conservation plan. It is also our understanding that March Air Force Base is currently negotiating a plan that would preserve tablets area for the SUR and other species of special concern with the U.S. Fish and Vildlife Service. The Base proposal would set asside sufficient eareasy (which is suitable and available) for habitat reserve. March AFB is also within one hour of the Pals Springs Airport (east) and the John Wayne Airport (southwest in Orange County). Commercial Air Freight Service Freight services are concentrated at Ontario International Airport. Four major air freight services - United Patcal Service (UPS), Federal Express, Desry Wooldvoles, and Airborne - all fly from Ontario and Offer overnight services to locations throughout the United States. This leave is being aggressively addressed, and the potential impacts will be mitigated. Testimony offered by Mr. Bob Wales, Assistant City Manager for the City of Riverside, which addresses work already underway to mitigate impacts on the endangered species and its habitat is included with this letter (Enclosure 4). Ontario is also the West Coast hub distribution site for United Parcel Service. UPS has significant expansion plans for its Ontario location that Will offer even better service in the nest focure. Water The provision of adequate water supplies (both in quality and quantity) can be accommodated at the March ATB site(s) and as support development that is anticipated to occur off-site. The DELS did not identify any extraordinary needs for water quantity or wastewater treatment. Therefore, the statement assuring adequate water supplies and wastewater treatment capabilities assumes that only demantic use will be required. Endangered Species The DEIS (4.4.10.1) states that "the proposed action would have a significant adverse impact on the Stephens Rangaroo mat." Potential impects on endangered species in the area may occur if the SSD relocates to one of three alternative locations on March AVE. Only one of the three potential Page 4 **DOCUMENT 202 DOCUMENT 202** Lt. Col. Tom Bartol Director, Programs and Environmental Division September 21, 1990 Lt. Col. Tom Bartol Director, Programs and Environmental Division September 21, 1990 Water supply and treatment for Narch AFS are provided by Eastern Municipal Water District (DMMD). The DEIS needs to be updated with regard to the provision of Water to the March AFS size(s) in 4.4.4.1, the DEIS states that "the Mystem presently cannot meet the projected growth in the communities it services." This deficatory is Deing portected. The regions he tools have seen appeared the tools are to compact the tools are to compact the tools are to compact the tools are to compact the tools are to compact the tools are to compact the tools are tools are tools are to the completed by 6'91). Will add an expanded facility. This will double the current capacity to distribute treated water. Construction of these improvements are anticipated to be completed by June, 1951, well within the time trame of \$50 relocation. Following are recently reported statistics on prices for home sales in the Inland Empire: Median Price Average Price July, 1990 ** 7.10 Riverside/San Bernerdino Riverside County San Bernerdino County Los Angeles County Orange County \$ 133,578 \$ 146.254 136.20 237.442 247,630 215,533 * Source: California Association of Realters ** Source: TRW Real Estate Information Services Average Price Average Price Resct. 1995 * April. 1995 * | Numeration | Country | State | 1215 | Numeration | State | 1215 | Numeration | State | 1215 | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Numeration | Mastewater treatment is provided by March Air Force Base and, for private sector housing and development, by either local portion of 4.4.4.1 of the DEES is in error. The treatment capacity of the March AFB sewage treatment facility is 1.3 MGD, not 1.0 MGL as was reported in the DEES. Therefore, it is capable of handling the increased requirement that would occur with the SSS relocation. 4.10 7.11 Housing Cost Housing costs in the Inland Entire are considerably less than those in Los Angeles and Orange Counties. Statistics released by recognized research organizations may differ on exact numbers, but they all verify that nowains in the Inland Entire is much more affordable than nowains an Los Angeles 2008212. * Source: Los Angeles Times "Southland Home Prices" These statistics should make it clear why so many Southern Californians (including many Gurrent employees of the SSD and the Aerospace Corporation) have already personally moved to the Inland Empire. 4.10 It is notable to illustrate an example of a "Frivate Sector Financing" project which is offering affordable and quality housing for military personnel at Rarch ATS. both on base and off base. In the meetby City of Perris. 200 units for junior enlisted married personnel at a renta cost equal to their housing allowance. These units offer a uniquely successful advantage to this select group of military personnel at Narch AFS. In addition, current plans project the development of

	DOCUMENT 202	DOCUMENT 202
4.10	Lt. Col. Tom Bartol Director, Programs and Environmental Division September 21, 1990 an addition 582 units on base, which will be financed by the private sector, at the same low cost to the military personned. The DEIS states in 1.1. that "employees at Los Angeles ATS and most military personned not in base housing are subjected to inflated housing costs." The housing costs indirected in the charts above directly address a Balog Frobe identitied by the VEAT in Lis Ammunicament to romained systems in the linear facing by the VEAT in Lis Ammunicament to romained systems in the linear facing by the VEAT in Lis Ammunicament to romained systems in the linear facing by the VEAT in Lis Ammunicament to romained systems of sample and affordable housing. New housing developments, both multi-family apartment units and single family for-sale units, are being built chroughout the Inland Empire region. Employees of the SED and its supporting operations can be assured of finding quality housing at locations that will aminaise their required communing time. The following chart indicates the increasing supply of available housing units in the inland Empire. **TOTAL** Single Pulti- Control Vaccant **Really Family Counted Vaccant **Really Family Counted Vaccant **Really Family Counted Vaccant **Really Family Counted Vaccant **Total Continue this trend. Specifically, areas with planned development and senting development that will continue this trend. Specifically, areas with planned development as Banning and Beaumont, Temecule, and unineorporated areas of Riverside County. Affordable family units in multi family developments, condemniums, and mobile home communities are also conveniently located with the same care and quality as the new single family developments.	Lt. Col. Tom Bartol Director, Programs and Environmental Division September 22, 1890 Labor Force The DETS in 2.2.2 seximates that 20% of the employees related to the Space Systems Division relocation will be hired to the Space Systems Division relocation will be hired to the Space Systems Division relocation will be hired to the Space Systems Division relocation will be hired to the Space Systems Division relocation will be hired to the Space Systems Division relocation will be hired to the Space Systems Division relocation will be hired to the Space Systems Division of the Space Systems Division will be set of the Space Systems Division of the Space Space State of California's Employment Dave; mant Department. DOCUMENT 202 DOCUMENT 202 Lt. Col. Tum Bartol Director, Programs and Environmental Division September 21, 1990 Lt. Col. Tom Bartol Director, Programs and Environmental Division September 21, 1990 Tax Entempt Industrial Bond Financing. Riverside County has been the leader in the State of California in the use of tax-except bond financing for elsable industrial development projects. The County has established bond pools (where several applicants can share financing costs), and it has consistently received a large share of this type of financing that can be authorized at the state level: estimated values of land and facilities of the vacated SSD facilities in El Segundo based on conservative estimates from professional real estate brokers in the area:
- estimated employee relocation (moving) costs as based on averages from USAF sources. 3.26 In short, the estimated cost savings to the USAF in the first year of the relocation are as follows: Assessment PARTIAL Bond Financing. This financing for infrastructure improvements is often critical to the successful development of large-scale project. Specifically, Melio-Moor bond financing the project project project project projects and available to public service projects, such as draitage projects, new schools, fire atations, libraries, stc. 15.10 Alternative One 8 491.4 Million Alternative Four 8 254.4 Million Alternative Five 8 365.1 Million This analysis of estimated cost savings is included with this letter (Enclosure 6). Economic Considerations It is the opinion of the Inland Empire SSD Relocation Group that relocating the SSD to March Air Force Base (Alternative One) or partially relocating the SSD (Alternative Five) would result in a significant cost savings to the United States Air Force. The final advantage to relocating the Space Systems Division to Match Air force Base is the mase itself. The communities surrounding the base have an impressive history of support, and they would offer a warm walcome to the SSD. This cost savings could occur and at the same time and his force amployees. Match ATS offers again land to accommodate the needs of the SSE, the Agrospher Corporation, and malitary family howard white. It also offers the on-base assumities that are so reportant to the quality of life needs of cavilian and malitary parameter. 15.10 In reviewing the potential cost savings, the Inland Empire SSD Relocation Group has prepared cost analysis of Alternatives One, Four, and Five. The data needed to prepare the analysis was free the following sources: 3.26 These quality of life amenaties are essential in allowing the hir force to schieve its goal of producing a protestional menagement team for tuture space systems development. space requirements for the SSD as reported in the DEIS: DEIS:
- The potential land sale of SSD facilities as reported in the DEIS:
- The potential land sale of SSD facilities as reported in the DEIS:
- Intirastructure costs, i.e. sewer and water extensions, bessel on local area development estimates plus inflation factors provided by the USAT for 1991:
- Costing data for new construction as reported in the Headquarter USAT Annual Construction Pricing Guide for FY 90-94 Hilltary Construction Program, April, 1988. Page 12 Page 13

DOCUMENT 202

Lt. Col. Tom Bertol Director, Programs and Environmental Division September 21, 1990

The inland Empire Space Systems Division Relocation Group has appreciated the opportunity to work with the USAF on this important project. It is important to the economic well-being of our region. Our supportars are likewise convinced that locating the Space systems Division to March ATS would be a positive move in helping the USAF to achieve its vital space alselom.

Sincerely

15.10

Stephen Albright, Chairman Inland Empire Space Systems Division Relocation Group SA/min

COMMENTS FOR THE SPACE SYSTEMS DIVISION RELOCATION PUBLIC REARING AUGUST 10, 1990

GOOD EVENING, I AM ROBERT C. MALES, ASSISTANT CITY MANAGER FOR DEVELOPMENT FOR THE CITY OF RIVERSIDE. FIRST, I WOULD LIKE TO PERSONS BY APPRICIATION AND THAT OF THE CITY OF STVERSIBE FOR REING PROVIDED THE OPPORTUNITY TO ADDRESS YOU TONIGHT CONCERNING THE STEPHEN'S KAMGAROO RAT. AS MOTED IN THE ENVIRONMENTAL IMPACT STATEMENT PREPARED FOR THE SPACE SYSTEMS DIVISION RELOCATION PROPOSAL. PORTIONS OF THE MARCH AIR FORCE BASE PROPERTY ON THE EASTERLY SIDE OF HIGHWAY 215 ARE POPULATED WITH STEPHEN'S MANGAROO RATS. THE STEPHEN'S KANGAROS RAT WAS LISTED ON THE FEDERAL ENDANGERED SPECIES LIST IN OCTOBER OF 1988. THIS LISTING OCCURRED AS A RESULT OF THE CONTINUED DECREASE IN THE HABITAT FOR THIS SPECIES AS A RESULT OF DEVELOPMENT OCCURRING THROUGHOUT WESTERN WAS DISTRIBUTED OVER 300,000 ACRES OF LAND IN THIS AREA, WHILE AT THE PRESENT TIME IT IS ESTIMATED TO OCCUPY APPROXIMATELY 22,000 ACRES.

IN AM EFFORT TO ADDRESS THIS, A CONGLOMERATION INCLUDING THE COUNTY OF RIVERSIDE, THE CITIES OF HENET, LAKE ELSINGRE, HORENG VALLEY, PERRIS AND RIVERSIDE JOINED TOGETHER TO PRESENT A PLAN TO THE UNITED STATES FISH AND WILDLIFE SERVICE FOR THE PRESERVATION

MY VOICE TO THOSE WHO MAVE PREVIOUSLY SPOKEN STRONGLY UNGING YOU

TO CONSIDER THIS ALTERNATIVE.

OF THIS SPECIES WILE PROVIDING FOR HEARINGFUL DEVELOPMENT IN THE AREA. THE FIRST DRAFT OF THIS PLAN, COMMONLY REFERRED TO AS THE SHORT TERM HABITAT CONSERVATION PLAN, INVOLVED THE CREATION OF TEN PRESERVATION AREAS WHICH WERE TO BE FURTHER STUDIED AND BROUGHT UNDER PUBLIC OWNERSHIP TO ACT AS A MADITAT FOR THE CONTINUED EXISTENCE OF THIS SPECIES. THESE TEN STUDY AREAS COMPRISE IN EXCESS OF 81,000 ACRES AND ROUGHLY 16,000 ACRES ARE OCCUPTED WITH STEPHEN'S KANGAROO RAT HABITAT. IN ADDITION, SEVEN OF THE AREAS ARE KNOWN TO SUPPORT POPULATIONS OF TWO OR HORE OTHER SPECIES OF CONCERN. THE UNITED STATES FISH AND WILDLIFE SERVICE, AFTER REVIEWING THE ENVIRONMENTAL IMPACT STATEMENT AND ENVIRONMENT IMPACT REPORT PREPARED FOR THIS PLAN AND THE ACCOMPANYING TAKING PERMIT, HAS APPROVED THE HETHOD CUTLINED FOR PRESERVING THE STEPHEN'S KANGAROO RAT AND HAS ISSUED TO THE CO-PERMITTEES AS PREVIOUSLY INDICATED, A SHORT-TERM TAKING PERMIT WHICH WILL PROVIDE FOR THE REHOVAL OF STEPHEN'S KANGAROO RAT HABITAT LOCATED GUTSIDE OF THF PROPOSED PRESERVE AREAS. IT IS OUR OPINION THAT THE THOROUGH STUDY WHICH WAS DONE TO PREPARE THIS PLAN AND THE FEDERAL REVIEW AND APPROVAL OF IT CONSTITUTES ADEQUATE STEPS TO ENSURE THAT THE TAKING OF THE STEPHEN'S MANGAROO RAT AS IT RELATES TO THOSE SITES INDICATED ON MARCH AIR FORCE BASE PROPERTY MAVE BEEN SUFFICIENTLY HITIGATED SO AS TO PROVIDE THE LONG TERM VIABILITY OF THE STEPHEN'S KANGAROO RAT.

AS A RESULT OF THE EFFORTS MADE IN THIS AREA, I BELIEVE THAT THE SPACE SYSTEMS DIVISION CAN BE RELOCATED TO MARCH AIR FORCE BASE WITHOUT UNDUE CONCERN REGARDING THIS PARTICULAR MATTER AND I ADD

MORENO VALLEY UNIFIED SCHOOL DISTRICT 13011 Ferre Boyeverd Mo Temprete /7141604-9011 September 19, 1990 Lt. Colonel Tom Berta; Director of Programs & Environment APPCE-BMS/DEP Borton APB, CA 92809-5448 Lt. Col. Tom Bertol Director, Programe and Environmental Division AFRCE-MER/DEP Norton AFB, CA. 92409-4891 Dear Colonel Bartol. This letter is written to comment on the Draft Environmental Impact Statement tilled Proposed Clouwre of Los Angeles AFR, California and Malechians of Space Systems Division," adual day 1990. The Soner of Circutter of Inland sciles, Inc. strongly recommend Alternative 1, isse clouwre of Los Angeles AFR, the resolution of Space Systems Division (SSI and emaliation) the halliants Risarile Organization (BMC) at Nortes, further, we recomment the SSI and the Aeromagnee Corporation, or Security Promode Seasons of Development Conter (FFRCC), relected to March AFR meer Riversiee, California. BUBLIECT: Draft EIS for the proposed closure of Los Angeles AFB, and relocation of Space Systems Division. 15.10 Deer Lt. Col. Bartol: We are in receipt of the Draft Environmental Impact Statement for $\underline{\underline{\mathtt{Sys}}}\underline{\underline{\mathtt{Sys}}}$ 1 attended the public hearing on August 30, 1990 in the City of Riveraide as a representative of the Moreno Valley Unified Schol District and gave testimony reparding the proposed Clebure of LAATS with the possible relocation of the SSD to March Air Force Sass. California. Following is a symposis of that testimony: The following are some comments and observations for your consideration: - Except for the no action sitermative, Alternative 1 would prove the least disruptive for the personnel of 350 and BEC. The BYL personnel would not have to relocate and many of the 350 personnel, all personnel would not have to relocate and many of the 350 personnel all personnel would be leading ordered to work. Also, some closes to us Anapsise would probably chooses not to more, also, some closes to. The year of the state of th The Moreno Valley Unified School District has enjoyed a lengthy positive relationship with March Air Force Base. We look forward to continuing that relationship. 11.1 Although small, we feel there would be an overall improvement in the ap-quality in the South Count by Basin. Communing distincts would be reduced and quality about don't be an everything issue an added in a relocation of scitce, as noted in your impact Sistement, all the locations under commitmentation suffer from power degree of nonattalment. Schools within the Moreno Valley Unified School District are overcrowded with some campuses being on overfiow Status. To beep with the tresendous growth of the Community, we have at this time three schools under construction and another out to bid. We are in a growth Rode. 4.20 In conclusion, we look forwerd to working with the Air Force to provide ample school facilities for the children who may be within the Moreno Valley Unified School District if the SSD is relocated to March Air Force Sass. If 3D should nove to Hersh, the sites propose: for construction apparantly infrange on the matitat of the Stephen's mangaroc rat, a feareally issue condungated spotes. Two should so swert that on affort is being understann in Exertise to crep the mangaroc rat and more then away from areas of planeous everyopent to a news of present and the state of th 13.2 Thenk You. Sincerely. - Relocating SSD and their FFRDC to March would keep thos in close contact with their damy, long established, Sewimern California DOD contractors. le- luice Renneth R. Miller Coordinator of Facilities Morena Velley Unified School District - Enough the absent of travel SSD, SMC and derespace personnel undertage.

It is important that they be easy a major airport. Ontario laternational lightport [Gla) satisface that requirement. Off is mixing marked of both herion and

DOCUMENT 205 DOCUMENT 204 TO THE PROPERTY OF THE PROPERT INLAND ACTION COMMENTS REGARDING THE POSSIBLE AELOCATION OF SSS AND BMO B - Both San Bernardine and Diverside Counties have possed measures increasing local saims tax by one-maif cent. This defitiumed revenue is specifically revoted to transportation (infrastructure Morevenue). This will not only preview for increased amountly for appose that Aught locate in the region, but is indicative of the counties" visions and preparations for the future. 6.10 September 17, 1990 Lt. Col. Tom Bartol Director, Programs & Environmental Division AFRCE-BMS/DEP Nonon AFB, CA 92409-6448 As Prenders of a professional association of 1700 REALTORS in the Piles Peak Region, Levolid like to add all of the members of our association, their employers, their association in the many affiliated parts of our industry, and all of stear families to the altrasely lengthy list of strong supporters for the relocation of the Air Force's Space Systems Division (SSD) to the Piles Peak Region. We believe that the many withoutages of this stra; to the Air Force will become more evident as your relocation decision process proceeds. 15.10 Our sime of responsibility includes the frost range County of El Paso and the mountain County of Teller. The communities in these two counties are as pro-mistary as any in the country, perhaps best epronounced by the very active Mistagy Affairs Counties and Area Chiefs of Staff Commisse of the Colorado Springs Chamber of Commerce. Our area is also one the prime mistagy returness communities in the country, and all of our private and public organizations have a solid contingent of neutral and other active duty personnel. Sichers E. Lesi Executive Director, Inland Action, Inc. **DOCUMENT 205 DOCUMENT 206** STATE OF COLORADO DEPARTMENT OF HEISTAYS September 20, 1990 We are ground of the assessmen to the convincemental occorres that all of our cicizens the SSD is just the category of industry that we have preferred to street shough our Econom Development Connecti over the years. We know that the fix SSD to the Spoot Connec (at other Falcots or Feerron Air Force Bases) and so our region will be a our advencement in all of the propriet and organisations involved. The Colorade Department of digmers has completed its review of the Braft Environmental Impact Statement for the Closure of the the Los Angeles Air Force Sees and Relecation of Space Systems 21/13/21, and has no comment. However, we would appreciate the Opportunity it review the final KIS. Again, we strengly support and encourage the selection of the Pikes Peak Region for the relocation of the Space Systems Division. We look forward to assisting their personnel in unique our communication and in baccering one more visal part of our Reston. SUBJECT: Draft Environmental Impact Statement for the Proposed Closure of Los Angeles Air Porce Base, Lawfornia and Relocation of Space Systems Division

Thenk you for giving the Air Pollution Control District (District) the opportunity to comment on the above-referenced draft EIS.

There are major consequences associated with the closure of the Los Angeles Air Force base and relocation of the Space Systems Division to the Vandemberg Air Force Base in Santa Barbara County Of particular concern is the potential affect of the project in Selezing attainment of the state ambient air quality standard (AAQS) for come in light of this potential we find the SIS to be inadequate in its treatment of air quality impacts.

The following comments are focused on the portion of the EIS that deals with Santa Sarbara County. Havy of the points relead in that content 4.50 app; to other members it seals visit in tha EIS. Nowever, specific comments for those areas have not been included in this letter.

1. Minestens Calculations - The ear quarity section of the EIS should provide an emissions inventory of pollutants released during both the construction and operation phases of the project sort direct and indirect (e.g., traffic) sources of emissions should be ractulated and thoroughly documented. The documentation should be complete emough to evaluate the

Lt. Col. Tam Bertol Director, Programs & Environmental Division AFRCE-DMS,70EP Morton AFB, CA 92409-6448

Re': Relocation of the USAF Space Systems Division

Dear Lt. Col. Bartol,

As a long-term number of the Hillary Affilia Council of the Chamber of Commerce in Colorado Series, Colorado and a ratired Ergadier General, United Sizies Arey use lives and userts here. I have hed a deep interest in the unifer of the military forces, fortunate amough to be stationed here, along with the Department of Defense civilian ampleyees and the civilian side of the Neust in Colorado Series:

I am also a mamber of the "Thirty Group of Colorado" a business group from state develod to assisting the military by learning more about their functions responsibilities and thus being more able to answer questions and help rever we can.

Now and for the next few years is a most auspicous opportunity to relocate Calerade Springs. The local area has suffered from overbuilding, a slume in less in spenral and deactivation of an army brisked at nearby Fort Caries.

These circumstances have contributed to an everall availability of excellent housing far what I consider choop prices in one of the more desirable armss of the world. Colleged Springs is blessed with a great climate and located in the Facethills of the Recay Mewstales. This location provides great outdoor recreation as all forms, mounting, fishing, sating, neuture study, mention climbing and most everything a family could enjoy. Its advantages are embasized by the large recreated with the community strongly located here. For example, the Pittes Peak Chapter of the Matterd Officer's Association is the second largest in the country with more than 2000 members.

In addition to affordable quality personal housing there is inexpensive waru-house and office space readily available and well-located with very short commuting times wherever you sight relocate in the area. Our airport is close in and commonitor in all respects with good flight schedules. It is a pleasure to use.

A real plus for any military organization considering a move to Calorado Springs is the general welcoming attitude of the City of Colorado Springs and El Pase Centry, notre than a generation of good relations with Port Carson, Piterson

County of Santa Barbara RESOURCE MANAGEMENT DEPARTMENT

Lt. Col. Bartol Director, Programe and Environmental Division AFFACE-MAYDEP Morton AFS, CA 92409-6448

RE: Oraft Environmental Impact Statement (DEIS) for the Proposed Closure of Los Amples Air Porce Base, California and Relocation of Space System Division

Deer Colonel Bertol:

Thank you for the opportunity to comment on the DEIS for the above referenced project. The County recognises the project's potential for providing overall acconsic growth and employment opportunities, noweser, the current water shortage, lack of available lands for development, and availability of public services and utilities requires a beliance to be achieved between economic enhancement and environmental impacts. The PEIS must carefully consider all these issues in order to provide the public and concerned agencies with all the required information for informed decision-making. Of particular importance would be che informed decision-making. Of particular importance would be called the control of the public and concerned agencies with all the required information for in

Attached are comments specific to the DEIS. An area of particular concern are sections on groundwater and associated effects on other resources. The proposed Costell Aqueduct should not be considered adequate suitigation for water Semand for these new residents. It is useful adequate suitigation for water Semand for these new residents. It is delivered, it will be needed to offset increased demand from in-County growth and to offset existing overdets. Other mitigations are proposed in the attached comments. Several species of Category 2 plants and the interest of the second particular and the acceptance of the proposed that causes entingtion of a species that causes existing the second particular and the probabil signets of development brought on by the relocation need to be adequately presented to the decision makers if they are to adequately weigh all consequences of the proposed relocation.

7.12 Public services, in perticular local sewage treatment plants, conducty, and water treatment and delivery, will require expanded capacities with re-relocation. It is mechanized to explain sell implications in coordinating the process for such expansions with state and local agencies.

The second of the South States of A. 1907.

DOCUMENT 224

While the Air Force is conducting a local economic consequences study, no evaluation of the social impacts of the proposed population influx is examined in a social-economic section of the DISS. Social impacts to excreational opportunities may be a significant impact due to the large population rejoration to this area and is light of the Vandemburg population rejoration and in the control of t

this should be included in the cumulative impects section of the DRIS.

Growth in the Lompor and Sente Meria areas would be limited by the acree of land roned for development. The majority of the lands surrounding of land roned for development. The majority of the lands surrounding the land the marrounding cities some for segriculture, are in the lands of the lands o

DOCUMENT 225

native, reproducing, wetland cover without the presence of emotic species. If the wetlands are not successful as dictated by the above performance criteria, the process will be repeated until the required wetland acreage is achieved to replace those destroyed by the PTMS. The Air Force has committed several million dollars to fund establishment of a committee of exparts for design and implementation of the project, regulard compensation feasibility services excellinear of reproject, regulard compensation feasibility excellent, monitoring, and implementation.

Panding of the wetlands creation project is but one leave the Air Force must present in the ORIS. Although artificial habitat can be supplement or replace natural habitat it will never become natural habitat (Ferren and Gewirtz, 1990). The altigation plan should rigidily addres to federal laws to ensure there is no net lose of wetlands as dirtated by Freedent Bush. It is mecessary to include Compensation feesibility studies, performance criteria, how the project will be implemented, monitoring and contingency plans. Also, a committee of experts must be included to assist in all phases of the mitigation plan.

If the system is not reproduced in its entirety, we have lost the resource (Cochrane, 1969). Matural vs created wellands have not been evaluated and should not be proposed as attigation at this time. Avoidance of sensitive natural habitats during design development should be the primary objective at all levels of

Lt. Col. Tom Sertol Director, Programs & anvironmental Division AFFCE-BMS/DEP Norton AFB, CA 92409-6448

Speaking on behalf of sycalf and the 28 paople who work here at a Fleximerican Bank, we encourage you to choose Colorade Springs as the new home for the Space Systems Division (SED). The size of Colorade Springs and the affordability of housing in our arms would be a dress come true for people who have to deal with these factors in Southern California. The attitude of our community is positive, supportive and progressive. There is no doubt in our mind that Colorado Springs brings a quality of life that is unbattable. Any negatives or doubts are elianated when you look at the bottom line.

15.10

Again, let me encourage you to select Colorado Springs. He went you.

The Colorado Springs Channer of Cormeron bde, ; e- sure, given you all the busic sets to suspect our effort to have the Shake Systems Division -blockeds to Peterson Floid.

Let no briefly add some not so obvious ressons why people coming here will find it a mervelous piece to live, as I have for the past 35 years.

I can commute from home to work in under 20 minutes. Many possile spend even less time.

I can walk out of my house is the southwest part of the city and be niking in the Pike Estional Forrest in 10 : imstee.

My orithmen, granusting from local scacols and no difficulty to getting into first class colleges and universities.

Some of the firest smiles in the world is only two hours mean,

As bours drive will take you to meantiful trout streems.

First class (current reals cost less than helf what they would in most large cities.

An attractive liveble house costs one third to one querter of what it would im Galifornia.

Not have a to fight traffic, eronds, long lines, and high prices ages for relaxed restanful living.

Florms be turn tist times and any other inlengible edvantages are compilered when your group makes its decision.

Toe Bertol Director, Programs & Environmental Division AFRCE-BMS/DEP Horton AFB, Colifornia 92409-0448 RE: DRAFT ENVIRONMENTAL INPACT STATEMENT PROPOSED CLOSURE LOS ANGELES APS Dear Colonel Bartol: As the Heanger of the Cherokee Water & Samitation District which is currently supplying potable water to the Falcon AFB. I would like to make some comments about the draft of the Churicomental impact Statement for the proposed closure of Los Ampeles AFS and the relocation of the Space Systems Division. We understand that Colorado Springs is a candidate to receive the Space Systems Division from LAAFB. The existence of Air Force installations in the area together with escellent cultural and educational facilities would seen to make this city a natural for you. There are some errors contained within the DEIS that we would like to bring to your attention: On page 3.5-14 you indicated that the average daily demand at the Sace was .682 MSD in fiscal year 1989. We believe that figure enough be .235 MSD. This is calculated upon the fact that Cherotee delivered 263.488 ecre feet of water during 1989. We have a great deal of reasonably priced, high quality housing evaluable, excellent public transportation, and great street facilities to afford pleasant commuting, or a quick deat across town. The contractual obligation of Charones at .48 MOD equates to 537.67 acre feet annually. Movever, the facility has not come anywhere close to using the contractual obligation. The actual deliveries by Cherones to Falcon AFS since inception are as follows: Our climate is the best year'round that I've seen, which makes for a good number of galfable days on our many besutiful golf courses. 47.910 199.526 144.641 212.055 263.488 284.336 (through August) 7.14 The University of Colorado, Colorado Cellege, Pikes Peak Community College are excellent secondary educational facilities, and the primary school systems in the area are very highly rated nationally. This is a total over the fiv-year period of 1.072.596 acrefeet. The cost of living in Colorado Springs is quite resemble compared with other areas, one reason being our chass utility falss:

DOCUMENT 233 DOCUMENT 233 In summary, Cherokee feels that the draft of the EIS is not accurate with repard to the amount of water being utilized by Falcon AFS and with request to the womant of water that is being withdrawn from the Sasin by Cheromes. Cherokee does feel confident that it can sent the projected needs of Falcon AFS and would be glod to seet with you or supply any additional information. On page 4.5-21 you indicate that Cherokee Mater 6 Sanitation District is withdrawing 14.600 acre feet annually from the Slack Squirrel Creek Agailer. Again this actament is incorrect. Cherokee's peak withdrawal in any year has not exceeded 2.740 acre feet. While there may be total withdrawals from the Basin approximating 14.600 acre feet, the aspecty of these withdrawals are being made by agricultural users within the Basin. 10.18 We thank you for your attention to these matters. Sincerely. CHEROKEE SATER & SANITATION DISTRICT Cherokee feels strongly that it would be able to meet the projected needs of the expeaded facility as set forth in the DEIS which amounts to .63 MBD or 785.69 acre feet annually: and, therefore, a few other comments need to be made: other comments need to be made: \$1 some beginning its construct nais falcom AFB in 1985. Cherobre has undertaken some significant capital improvements in order to insure water delivery to its customers. Among these nebees the installation of a booster station and storage tank at Lilicott. In addition thereto. Cherokee has expanded to pupping system to the South of the Black Squirrel Beain. We are emclosing with this latter a copy of the latest J.S. [Iows of the Alluvial Aquifer to the Usper Black Squirrel Creek Beain. As you can see from this report, there has been only sinor draw down of the water table in the south part of the Beain. In addition, there is approximately \$1.586 acre feet of water that is migrating southward out of the Beain with year that has the property of the Beain of the Beai PSL: tw Enclosure 10.19 Cherokee is strongly committed to the overall protection and preservation of the water resources in the Black Squirrel Besis. As Part of a long-range plan. Cherokee has entered into an Intergovernmental Agreement with the Summet Mercepolitan District to manage the water resources of Summet District and to mutually cooperate regarding westewater treatments as you are aware. this is an ensisting westewater treatment famility which would be an ideal location to handle the effluent produced by Falcon AFS. Such an arrangement certically could do a long day in helping to recharge this important natural secource. 7.7 **DOCUMENT 234** Attachment to Document 233 Council | Promoting Senior Resources W Name No Colorb Strap, O SSN-172 GEOMYTROLOGY, WATER QUALITY, AND PRELIMINARY SIMULATIONS OF NO-WATER FLOW OF THE ALLUVIAL AQUIFER IN THE UPPER BLACK SQUIRBEL CHEEK BASIN, EL PASO COUNTY, COLORADO September 18, 1990 By David R. Buckles and Esmooth R. Vatts Lt Col Tom Bartol, Director Programs & Environmental Division AFRCE-BMS/DMP Morton AFB, CA 92409-6448 U.S. GEOLOGICAL SURVEY Dear Lt Col Bartol: Water-Resources | Aventigations Report \$8-4017 The Council for Promoting Senior Resources represents a wide range of senior industries in Colorado Springs and supports Peterson AFB as the site for relocation of Space Systems Division (SSD). 15.10 Many of the employees needed to support \$5D activities will share in the nationally recognized need of so many other edult children of eaging parents regarding the possibility of the parent desiring or needing to relocate with them. These employees and appeal parents will find a wast array of resources available in our community to must diverse and individual needs and interests. Retirement housing opportunities abound in our region offseing options ranging from independent living, congregate care, assisted living, life care and federally subsidized low-income senior spacements. Prepared in cooperation with the CHEROREE WATER DISTRICT Area hospitels and nursing homes are developing specialized senior health care services, including Altheiser's facilities, senior health contare, gero-psychiatric services, and rehabilitation programs. -Public schools, senior centers, and higher education institutions offer many courses, classes, seminars and workshop opportunities for life-long learning. -A network of six menior centers and numerious senior organizations offer recreational, social and cultural opportunities to address a broad range of interests. Specialized banking services are available through most commercial banks and S&Ls.

REGIONAL PROPERTIES. TO

Jehniter LaBeau, Hanager

September 19, 1990

Lt. Col. Tom Sertol Director: Programs and Environmental Division AFRCE-BMS/OEP Morton AFS: CA 92409-6448

Dear Lt. Col. Bertel:

Thank you for the opportunity to make comments on the Draft Environmental Impact Statement (Impact Statement). Regional Properties, its grienispis, seneciates and affiliates, fully emports the relocation of Space Systems Division and its supporting units to March Air Force Smace. (A. Pegional properties inc., a major Elverside developer, owns Mission Grove, the master planned business and residential community contiguous to the Situ I area of March Air Force and and referred to in the Impact Statement as Alessandro Seights Specific Dian.

Based on our review of the impact Statement we would like to address our comments to three (3) peragraphs in the evaluation of March AFB on page 2-26 under 2.4.2.1, Site 1.

1. SITING CONSTRAINTS AND REQUISIPRENTS. The Impact Statement mays that "development of portions of Site I may be restricted or limited" due to the Stephene Empacron Rat that is on a federal list of endangered in ordesting a remorrhenize servey of over 350 acres of Missis Great Page 1. Associates, Inc. determined "The Stephene Empacron Rat done on Rest Associates, Inc. determined "The Stephene Empacron Rat done of the Stephene Samparon Rat done

2. ACCESSIBILITY. The Impact Statement only discusses the existing accessibility from Cactum Ave. on the mast, however, we would like to Point out two additional mans of possible access to Site 1.

(1) Barton St. via Alensandro Rive, small provide good access to Site 1 site 6 since Barton in only 1000 fort long and is improved to Air Force property hear Site 1. If necessary, England Properties could dedicate necessary land to improve Marton.

121 Since the common property line between Mission Grove and March AFB is almost a sile long there is ample opportunity to design reads within our development to accommodate access to Site I vis Mission Grove Parhway from Alessandro Sivd. or Trautwein Md.

3. ADJACENT LAND ORSE. Nission Grove is comprised of land were that will support the many off-base subcontractors and their families mering into the area. The support that the support is approximately 292 acres comed in Industrial is office property. There is approximately 292 acres comed in Industrial is on a support in approximately 292 acres consistent the infrastructure of streets and utilities on the 35 acres. Limit phase of Rieselms Grove Dusiness Park, providing fully improved parcels from 1 to 18 acres. Within the Measures Company unit pulled building permits for a 72,000 aguare foot business center consisting of seven (7) buildings on a 7 acre parcel.

(2) Commercial property. Development is underway on Hission Grove Plaza, a 42 acre, 400,000 square foot shopping center acchored by K Mart. Salph's Food Store and Payless Drugs. Asktuipsted completion in Fail of 1991.

(3) Residential property. Presently completed are 120 units of Hission Grove Gardens Apartments with an additional 200 units to begin construction immediately. There is also additional residential property (somed 83-30) within Mission Grove to accommodate another 650 units property lange acres of planned.

In summery, Regional Properties strongly supports the move of Spaces Systems Division to March AFS and believes that any impact questions can be mitigated without servous problems and that the requirements for \$30 can be mit effectively. We look forward to the prospect of having \$30 can be mit effectively. We look forward to the prospect of having \$30 cover to March Air Force Base.

Col. Tom Bargel, Director AFRCE-BMS/DEP Marton AFB 92409-6448

Monday, Sept. 17, 1990

Dear Col Bartol.

I got your address from a Letter-to-the-editor written by Mr. John J. Marton. It was published in the September 10. 1990, issue of the Lompoc Record.

I hope the address is not as fuzzy as the thinking in the consinder of Markon's letter. It appears to me that the editor judiciously picked it out of other letters opposing his (the editor's) Own approval of the proposed expansion of Vandemberg Air Parce Base. It is magnificently long-winded and andocumented.

Like Markon. I am a retired. Fruntrated old han-been with little to do with my time except write letters. Unlike Markon.

I use quantitative terms if accurate quantitave data are available.

I etediomely avoid vaque exaggerations like '. Hany thouseads .'

. great profits .' population flooding plan .'

Having lived in Lempor since 1980. I have seen an orderly development that has created the "...enjoyable life style..."
that nevelage seems to elu40 negogo Markon. The same schedule of orderly development was in full swing at the time of the January. 1986 shattle disaster, when we anticipated a population growth whose exect rate I don't know, except that it could have been significant greater than that which will be caused by the current controversal proposel to move military personnel from Merton to Vandemberg.

The move, of course, will introduce problems, as such a seve would anywhere. The problems are solvable, probably such more so here in Lospoc than im any alternative site. In perticular, you may be pleasantly surprised to find that Burton Wess arem sits atop a perched water table - - probably the only site you have under consideration offering such a developable resource.

Dear Col. Bertol:

10.25

10.26

SUBJECT: DRAFT ENVIRONNENTAL INPACT STATEMENT

These comments pertain to the subject for the proposed cleaure of the Los Angeles Air Force Base and relocation of the Space Systems Division (SSD).

I offered some of the comments during the public hearing held on August 28, 1990 at Tabrillo High School in cardinal seasons and the offer some additional suggestions which was not possible at that meeting because of the constraints of the limitations on time permitted for each speace.

Table 3.3.7-1 page 3.3-20

The Pechange rate should be 33,000 A.F./T for the Lesson Flain/Unland Sesin.

Paragraph 4.3.7.1 page 4.3-18

It is recognised herein that the proposed setton would result in a significant adverse impact on the groundwater resources. However, the <u>consecuences</u> of this impact should be commercied and evaluated, such as:

The water table would be drawn down more rapidly. This would result in:

1. Nore rapid deterioration in the quality of the

Lt. Col. Tom Eartol

remaining grownewater thus increasing the cost of water purification which in turn, would result in an increase in the monthly charges to the local residents.

 Increase the rate of intruston of salt water into the equifer with a consequent deteriorating impact on the well water and livelihood of the downtream ranchers.

3. Any supplementary source of water is many years away. Thus, this proposed relocation could result in such an additional demand on our severely overfrafted adulfers (see table 3.3,7-1) that a critical situation could be created for the sucreounding communities. For example, Samel Barbers County has not permitted any new housing construction in Vandenbers Village for the last several years.

The fact that our local squifers are severaly overfrafted is illustrated on table 3,3.7-1 on page 3,7-00. This reveals that the Lospoe Plain equifer and the Uplands aquifer are overfrafted 5,000 sore-feet/feet. The illy of Laspoe estreets its water from the Lospoe Plain aquifer, whereas the Uplands aquifer is the source for the two unincerperated communities of Vandemberg Village and Vission Bills-70-as Oaks.

One limitation imposed by the State regarding water from the Casstal Aqueduct is that the initial pertinn of the uster must be used to offset the existing oversight. Once this requirement has been satisfied, then the remaining surplus can be considered for use for new Sevelopsents.

The County of Santa Barbara has established a meaningful policy for the unincorporated areas. This policy which is contained in the Conservation Bloment of the Comprehensive Plan states, essentially, that we must live and plan within

-2-

DOCUMENT 240

DOCUMENT 241

Lt. Col. Tog Bertol

eurrentir available resources. Thus, this unincorporated combunity, and others, would not be able to expand to accommodate additional residents until we have increased our underground water resources.

I wish to express our appreciation to the Air Force for helding those public meetings, and for the preparation of a most complete Draft Divinomental Impact Statements

Sincerely,

2 5 Grant

Colonel Tom Bartel Director of Programs and Envir AFRCE-BMS/DEP Norten AFB, CA 93400-6448 Druft Environm: stal Impact Statement on Proposed Cloours of Los Angeles Air Force State and Releasing of Headquarters Space Systems Division and Appropr Supporting Units Please accept these comments as the above-rebrenced document. These comments are limited to aspects of the EIS relating to Vandenberg Air Force Base and the North Sanza Barbers County on the Sanza B ne first paragraph in this section states that projected wasteweter flows are 91 and persons of capacity in 1996 and 1997, respectively. Again, the bosts for those through the stated. How were they obtained to 6.23 The last paragraph in this section states: "Projected traffic reluxions were based on an estimated 1.5 to 2 percent increases in traffic normally." To bases for this projection is estimated 1.5 to 2 percent increases in traffic normally. To bases for this projection is estimated traffic conditions are essengated with projected conditions without stated in year few which the projections are made. When would the projected conditions be represented to correct few being wealth dryb be spectod to remain? Would they describe the secure of the informations. Section 1343: This sections does not adequately consider the uses of solid waste generated by andesheep AFE. The least sentence in the last paragraph implies that the base would soliders to state begalation in AS 900 requiring municipalities to reduce acid waste sentence by specified parameters in future years. However, state inpulsation is not inding on the six fevor. Thus, thore is no assumence that the base we'll in fact make by effort to reduce its waste in conformance with the topication. What will the base or this is waste when it is leadfulf in full? so Brut paragraph in this paction, reforming to the water treatment system of the City Smart Maria, states. Trainer demand in proportion to increase at Tailer 31 percent in reason of the City of Lemper, states. Twiture demand in proportion to the to see the 51 result and 53 percent in 1996 and 1997, respectively. No base for other of these spections to states. What is their reserve? The first paragraph in this section states: "Projected demand is based upon an expected growth rate of 2.5 to 3.0 percent." How were those Segures obstance? This same paragraph states that sources outside the region can meet an increased demand for electricity. Places identify these sources and state the bases for asserting that they will be able to meet an increased demand. rd paragraph of this section states that Vandenberg AFB's present demand for here its own groundwater sources is expected to remain constant. This so is difficult to except. Would not the sucresses in the number of base not cause an uncrease in domand for water? For the same reason, would not the short AFB westwater flows above in 17 fibe 3.4-1 be expected to increase. The last paragraph in this section, addressing natural gas, makes no projection as to future consumption of this resource and how the future demand might be met. Table 3.3.7-1: 7.16 The second and fifth figures in the overstraft column appear to be incorrect; should not these figures read "35.000" and "68.010" respectively? delicies, the projected increases in water demand and restervator flows for Santa-na and Lamper shows in Table 3.3.4.1 are based on estimated population increas-tose critics, notes 1 and 2 in this Table explain that these projections are based on capital per day "Squres. However, the population increases forming the basis of Section 4.3.2.1: 7.17 The first paragraph on page 4.3-7 is confusing and illogical. First it states that the lock of available developable land in the vicinity of Lousecc will limit the new off-base

South Coast AIR QUALITY MANAGEMENT DISTRICT AIR ORIVE EL MONTE CA 91731 (818) 572-620

September 24, 1990

Li. Col. Tom Barrol Director of Programs and Environmental AFRCE-BMS/DEP Norton AFB, CA 92409-6448

Dear LL Col. Bartol:

Comments on the Draft Environmental Impact Statement for the Proposed Closure or Los Angeles AFB, and Relocation of Space Systems

SCAQMD#97UE10-04

The South Cosar Air Quainty Management Divercit is CAUMD) has reviewed the Draft Environmental Impact Seatement (EIS) for the proposed closure of Los Angeles Air Force Base (AFB), and Refocation of Space Switzers Diveston (SSD) to March AFB) before the proposed has the posterior safe concludes that this propose has the posterior large posterior and proposed proposed to proposed the proposed posterior and proposed proposed to proposed posterior and proposed commission control of the control to the proposed posterior and proposed posterior and proposed posterior and proposed posterior and proposed posterior and proposed posterior and proposed posterior and proposed posterior proposed posterior proposed posterior proposed posterior proposed posterior proposed posterior proposed posterior proposed posterior proposed posterior proposed posterior proposed posterior proposed posterior proposed posterior proposed posterior proposed posterior proposed

The SCAOMD is responsible for adopting, implementing, and enforcing air qui regulations within its jurisdiction, which incluies Lin Angeles and Riverside cour (its will as Origing County and the South Court Air Baum protion of San Bernard County). All a responsible agency, SCAOMD reviews and analyzes enforciments for provects that may generate upsinficant adverte air quality impacts. In capacity, the SCAOMD adverse the tend agency.

DOCUMENT 245 DOCUMENT 245 Lt. Coi. Tota Barrol Lt. Col. Tom Barrol September 24, 1990 September 24, 1990 should further reduce emissions from these sources. However, this is not discussed in 11.37 the Drish EIS. PROJECT DESCRIPTION The proposed project consuss of the total closure of Los Angeles AFB including the Federally Funded Research and Development Cesser: the Lawndale Annex, For MacArthur, and Facilic Crest multirar family housing in San Federo; total closure of the Balliste: Missile Operance is San Bernardino: and the relocation of Los Angeles and Sen Bernardino SSD's to one of fery possible locations within and outside of California. The proposed action would began in FY 1993 and be completed by the end of FY 1996. Mobile Source Impacts Carbon monomide (CO) from project-related motor-website traffic is the only long-term air quality impact identified in the Draft EIS. According to the analysis in the Draft EIS (Section 4.4, March Air Force Base), the proposed project would increase peak morning and afternoos traffic by approximately +4,000 website. Let, will generate an additional 4,600 velocide trips (VT). The Draft EIS assumes current ambient onconcentrations of CO are 13 point (see page 4.400. The additional VT generated by the proposed project is projected to increase manimum bourly concentrations of CO by 12.2 ppin to 16.41 ppin (depending on the use chosen for relocations), resulting in ambient CO concentrations of 25.2 to 29.3 ppin. Although the project-related CO emissions would not contribute to an excredance of the federal ambient air quality standard for CO which is 35 parts per million (ppin), it would contribute to an excredance of the state standard (20 ppin). Indirect source air quality impact from the proposed epicies would, therefore, be significant because the Basen a monetanament area for CO and the project will contribute to excredances of the state CO standard. The analysis contained in the Draft EIS consistent the relocation of the SSDs to one of sit different times within and outside of California, and includes a "no action alternative." SCAQMD staff analysis of this project is confined to the alternative in which the SSDs would be relocated to March AFB because this site is within the SCAQMD's jurisdiction. 11.38 SHORT-TERM AIR QUALITY IMPACTS The Draft EIS discusses short-term air quality impacts consisting primarily of constructions-related emissions, i.e., soil disturbance (fugitive dust) and construction which emissions. The Draft EIS quantients aggregate construction equipment and emissions from heavy-duty construction equipment and emissions from clearing and grading activities. Quantifying each emission stories were also and preparing appropriate management of the property o The mobile source impacts identified in the preceding paragraph can be greatly reduced by incorporating a number of transportation management proposals use the project. For example, a transportation management organization should be created to encourage redesharing, vanpooling, incentives to use mass transit systems, continuing parting to mammage traffic interference, etc. These programs should be made a condition of approval for the project and should be implemented by affected local jurisdictions. Refer to the attachment for additional mobile source emission measures. 11.35 11.39 The Druß Els states "...the project emissions for all poliutants are leas than one percent of the country emissions. Therefore, the air quality impacts from project construction activities would not be significant, (see page 4.2-0). This conclusions is inappropriate. For example, staff estimates that emissions of retrogen custers (NO₂) will be 279 pounds per day (based on a sun-day work week) which exceeds the SCAMID's threshold of significance for NO₂ of 100 p. sunds per day. Also, the air quality analysis does not discuss the localized impact of PNs emitting extremits. The Druß Els should directly all air quality impacts and determine the level of imrigation recessary to reduce these impacts to less than significant eviels. This is expectally important in the South Coast Aar Basia which is a nonattainment area for four of six criteria pollutants. The proposed project has the potential to improve the jobs/housing belance in the March AFB subregion. The SCAQMD does request, however, that the proposents include a detailed analysis of jobs-housing belance in the Final EIS, including more information one how the project may reduce VTs. 11.36 CONCLUSION District staff concludes that this project has the potential to produce positive air quality benefits because of potential reductions in mobile and stationary source air polysister emissions. However, a inpre-detailed analysis of air quality mayes should be included as the final document. SCAQMD staff recommends that all minigituous measures identified at this letter and all other mitigation measures that are subsequently identified be included in the Final EIS. The California Environmental Quality Act LONG-TERM AIR QUALITY IMPACTS 11.41 Stationary Source Impacts 11.37 Removal of stationary source equipment from existing locations will benefit air quality. All relocated equipment will be subject to Regulation XIII, New Source Review, which **DOCUMENT 245** Attachment to Document 245 Lt. Col. Tom Bertol (CEQA) requires Missignson Monitoring and Reporting Plans (MMRP) be prepared for controllmental documents which stipulate stregation measures. The MMRP ensures satisfaction measures are implemented. Although National Environmental Prosection Act (NEPA) does not require MMRPs. Discrict staff encourages respiration of such a plan. 11.41 If you have any questions, please contact Jack P. Broadbens, Planting Manager, at (818) 307-1519. Gook P Burdlet for BRW Barry R. MATERIA MAT

Lt. Colonel Tom Bartol, Director Programs and Ervironmental Division AFRICE-MEMS/DEP Morton Air Force Base, CA 92409-6448

Dear Lt. Colonei Bartol:

has been brought to my attention that the United States Air ree is considering relocating its Space Systems Division from Los geles to Colorado Springs.

Personally, and on benaif of the United States Clympic Committee, I would like to add my woise to encourage this relocation to Colorado Springs. By family and I have lived in the acea for many years, first as a professor at the United States his force Academy, and now as Tarencive Cirector of the UDC. Colorado Springe has much to offer its citizens and it would be positive environment for your aniltary personnel and them families.

The military presence is very strong in the Colorado Springs area. with the Air Porce Academy, Fort Carson, ROMAD, the Space Command and Peterson Air Force Sase. There is an abundance of quality housing at very reasonable prices, and committing time from any area in Colorado Springs to Peterson Field would not earched 10 minutes.

Close prominity to the Mational Forests, historic districts and outdoor activities, not to mention the country's best skiing areas all within a 2 hour fuve, make Colorado Springs an especially pleasant place to live.

Not only is the USOC headquarters located in Colorado Springs, but 21 national aports governing bodies are needquartered here also. The Olympic Complex needs make our ciriling capes and compressions actions can be completed to the properties of the colorada chapped to the factor of the factor of the factor of the factor to the colorada on one of the largest shooting centers in the world. Sports awareness is very high within the community, and we at the USOC are proud of the part we've played in developing that awareness.

with the moderate climate, an excellent educational system and many

Jr Carolic Application Communication Communi

DUCUMENT 246

DOCUMENT 247

other positive attributes. I believe your personnel would be most pleased with a move to the Colorado Springs area.

I appreciate the opportunity to share my enthusians for Colorado Springs with you, and hope the decision is favorable on our behalf.

Sincerely. BANYEY W SCRILLER

THE UNIVERSITY OF NEW MEXICO

September 17, 1990

Lt. Col. Ton Bertol Director, Programs and Environmental Division AFRCI-meM/DEP Morton AFB, California 92409-6446

I am writing to explain why Kirtland Air Force Bease should be considered as an ideal location for the Air Force space Systems Division (SBS) and the ways in which the University of New Mexico vould benefit the Air Force if such a relocation was made.

As you know, the University serves mere that 13.000 students and offers over 4000 courses and 13 degree programs. Our featest growing student syndamics of createst and professional students, new numbering more than 4500. During the part three years, the Tewning and Weekems Program has grown so there are now approximately 11.500 students who take at least one class under this Program. The Siviation of Continuing Education also supplies credit and non-credit courses to about 10.000 also the course of th

The University is classified as a Carrecte I Research University and such year has appeared research grants and contracts of over 189 sallion. Of particular Impertance to year decision is that some of the greatest research strengths are in science and enganeering disciplines closest to you interest. For example, the Center for High Technology Raterials, the Center for Right-Decision to the University and the Institute for Space Muclear Power all have national and international reputations. In Selfition, the University has interested and the Institute for Space Muclear Power all have national and international reputations. In Selfition, the University has interested and the Institute for the Space Self-Decision Content, and the Air Porce Weepens Leberatory that are model programs developed over the years based on sharing of ideas, people and equipment.

DOCUMENT 248

Lt. Col. Tom Bartol Page two September 17, 1990

community. Our Fine Arts program presents several performances each week, the intercollegiate athletic program supports 13 different sports and there is a continuous array of visiting speakers on the caspus. And all of this is located only a few minutam from Kirtland Air Porce Base.

I began the Presidency in June of this year, so my wife and I have just relocated here. We have found the University to be strong, the community to be warm and friendly and would, on the basis of our own experience, ancourage you to make the same relocation of the 350 and the Astrometer Corporation.

Please let me know if I can provide any additional information and encouragement.

Sincerely,

Richarde Fe de

Richard E. Peck President

SOURCES AGENCY OF CALIFOR SACRAMENTO CALIFORNIA

September 20, 1990

U. S. Department of the Air Porce Lt. Colonel Tom Bartol Director, Programs and Environmental APRCE-BMS/DEP Horton AFS, CA 92409-8448

Dear Colonel Bertol:

The State has reviewed the Draft Environmental Impact Statement, Proposed Closure of Los Angeles AFB. Cailfornia and Relocation of Space Systems Division. Los Angeles. CA, submitted through the Office of Planning and Research.

We coordinated review of this document with the California Nigheev Patrol, the Public Utilities and California Comtal Commissions. The Los Angeles Regional Natur Quality Control Board, the Air Resources and Solid Waste Nanegeent Boards, and the Ospartments of Conservation, Fish and Game, Realth Services, Parks and Retreation, and Transportation.

The Department of Transportation has responded by copies of their correspondence dated August 29, 1990 and September 19, 1990.

The Los Angeles Regional Mater Quality Control Board responded by copy of its correspondence dated August 21, 1990.

The California Cosstal Commission responded by copy of its correspondence dated September 12, 1990.

Thank you for providing an opportunity to review this project.

Gordon Y. Show Ph. D Assistant Secretary for Resources

Lt. Col. Tom Sartol Director Programs and Environmental Division AFRCE-MRK/DEP Notton AFB. CA 92409-6448

As a Colorado Springs small business person I want to let you know how welcome the Space Systems Division will be if relocated to Colorado Springs.

I as very involved with promoting the development of trails and other outdoor recreation opportunities. : mention this because : now from first-hand experience that people -no have relocated to Colorado Springs are astounded by out clean fresh air in a specificular environment. They become involved in the community by using an acceptional park system and developing trail system.

We are working hard to enhance our outdoor recreation opportunities because it not only serves the people who outrently reade in Colorado Springs but because it also becomes an attraction for economic development. I can assure you that personnel easinged to the Space Systems Division will be delighted with the amenities we have to offer.

I join the people of Coloredo Springs in welcoming your consideration of our community. If I could be of assistance in any very, please contact me.

Sincerely yours,

. Who Com. L

Gary McSweeney - District 7

Caltrans has reviewed the above-referenced document. Samed on the information received we have the following comments:

1. The Treffic Analysis section of the EIR should include a complete analysis of the AR and PW 'peak-hour' treffic. Because of the fact that peak hour treffic is critical to the overall Analysis. It is our opinion that the existing counts for ADT's, capacity, LOS, and future projections may be inaccurate.

Based on the above information we are unable to make a complete evaluation of the impacts to the State's transportation system.

If you have any questions regarding this response, please call wilford Meiton at (ATSS) 8-640-6188 or (213)620-6180.

LL Col. Tom Bartol Director, Programs & Environmental Division AFRCE - BMS/DEP Norton AFB, California 92409-6448

We are writing to express our support and welcome to the United States Air Force as you make your decision regarding the future location of the Space Systems Division. As a member of the business community for the cest act yells: we recoprise the quality of the environment that Colorace Springs offers. Our staff members enjoy such elements as alterdable housing, good educational opportunities at all eleves, low cost of freng and encaptional increasional resources. We are confident the Air Force would benefit from these as well as other economic and environmental resources. We have you choose Colorado Springs as your next home for the Space Systems.

Tomaku Thurele

Lt. Col. Tom Bartol Director. Programs 6 Environmental Division AFRCE BRS.DEP Norton AFB. CA 92409-6448

I am writing as a private citizen to encourage the Air Force to select Colorado Springs as the new home for the Space Systems Division.

15.10 Since I first sowed to Colorado Springs in 1951, I have found it to be a community of many strengths. I would like to list just of few of them for your

Colorado Springs enjoys very reasonable housing costs. A typical three pedroom home here costs approximately 578,000. A comparable home in California would average at least turce as much.

Because of the size of our city, the typical commute is very short. During the time I have lived here. I have never commuted more than 15 - 20 minutes. Depending on the housing location chesen by the staff, the commute could be even shorter.

Colorada Springs is a very attractive city. Our past and present leaderable has worked very hard to detreatine and construct the appropriate infrastructure for our community.

Colorado Springs is nationally known for its quality of life. On sountain setting its conductive to many outdoor sports. We also have many cultural amenities of which we are very proud. In addition, we have several fine institutions of higher learning.

In classing, I appreciate the consideration of Colorado Springs as the new location for SSD. I know I apeak for many in the city in saying that we would love to have SSD relocate in our community. Please consider our reasonable cost of living and great quality of life when you make this crucial decision.

Sincerely, Lisa D. Are Certified Public Accountant

Lt. Col. Tom Bartol Director: Programs & Environmental Division AFRCE-BMS/OEF Norton AFB. CA 92409-6448

I understand you are a member of a high level team evaluating Colorado Springs as a potential site for a base relocation. If would like to share TI's perspective of Colorado Springs with you.

would like to share II's perspective of Colorado Springs with you.

After much research, Texas Instruments decided to build a
technology center and samufacturing operation in Colorado Springs
in 1979 for the following reasons.

- Unmatched quality of life to many areas of the country.

- Ease of drawing top professionals to the area due to
- Aboutdant supply of labor with a strong work ethic and
solid educational background at a competitive wage rate.

- A low inter-city cost of inving index.

- Short commute times at any hour.

- Available housing at all price ranges.

- Good K-12 education with higher education available
locally thru the PH.1 level.

- Low utility rates.

- A participactive city government receptive to outsider
policy input. Responsive to company needs.

I would think these would be important factors in your decision process. In addition, you have the benefit of a natural link with the U.S. Space Command and Peterson Air Force Base as a support to your operation.

Texas Instruments' has found Colorado Jorings an excellent place to locate and manage a portion of our business. If you would like additional information about TI's involvement and experiences in Colorado Springs, please don't hesitate to call me at (719) 593-5454.

Lt. Colonel Thomas J. Bartol Director, Program and Environs AFRCE-BMS/DEP Norton AFB, CA 92409-6448

Technical Response to Draft Environmental Impact Statement Proposed Closure of Los Angeles Air Force Base, California and Relocation of Space Systems Division, Report dated July 1990.

We have reviewed the Draft Environmental Impact Statement for the proposed closure of Lox Angeles Air Force Base and possible transfer of those facilities and services to Vandersberg Air Force Base or other alternative locations. Overall, we believe the quality of life for people who can and will move to a new location would be enhanced greatly by relocation of vanfing facilities to Vandenberg Air Force Base. The overall quality of life for people who are being saked to move from their homes and jobs is addressed in a reclaimed facilities on the EES but we felt that there was an important need to recognize that the Lompoc Valley and the surrounding area offers a much higher quality of life, quality of public services, and a high level commitment to air force programs and proyects as evidenced in our past relationship with Vandenberg Air Force Base.

The report addresses housing usues somewhet superficially. The report fails to recognize that Lompoc has over 1,000 restained provement fails to recognize or more period, would be available to people needing to relocate to the Vandenberg Air Force Base area. Other surrounding communities have also developed a large number of house/moster froms that can be rented at reasonable prices to house military or civilan people and their families.

The cost of housing in Lompoc is considerably lower than most parts of the state. The City has an accellent working relationship with the Base Housing Office. Programs are in force within the City to entere that there is "discrimination in housing. The City side supports Husens Service Programs to enable young people moving to the area to obtain temporary losses and other needed sensance while making transition moves to employment on the base. Overall, the City of Lompoc has a very high level of services and commitment to the people who serve in the armed forces and in civilan employment at the Vandenberg Air Force Base.

CHY HALL, LOS CIVIC CENTER PLAZA F.O. BOX 6001 LOMPOC, CA 93426-8001 (8001-738-9347

Letter/Lt. Colonel Barrol Page 2

Certain goals and objectives have been approved by the City Council in the City's Overall Economic Development Plan, which the EIS does not mention. The OEDP is adopted each year in June. The goals are as follows:

In addition to the above stated goals, outlined in the Overall Economic Development Plan, the City's Housing Element has specific goals and objectives that are being carried out in support of the Vandenberg Air Force Base musion and amicipated missions:

- The City shall maintain a choice of housing opportunities by encouraging a variety of housing types and sizes, including a mutture of ownership and rental housing.
- Ensourage uncreased opportunities for home ownership, but not at the expense of the availability of multiple-unit rental construction.
- Discourage the conversion of existing rental units to condominum numeral in order to maintain available rental units and affordable housing stock.
- The City shall encourage low and moderate income rental and ownership

- The City shall maintain policies to ensure housing opportunities economic segments and special needs households of the City.

With the loss of jobs at Vandenberg Air Force Base over the past few years, the vacsing factor remains relatively high (between five and seven percent) and this housing would be exhable to families and individuals relocating in this area. In addition to the items noted above, it should be noted that the City provides significant support to our Chamber of Commerce, which in turns provides supported programs to the Vandenberg are Force Base. The recognition program for young mistancy people by the cases in the region is undicative of the quality of support that the communities in this area have provided to Air Force personnel. We think this is a unique and unusual program and we are very proved of it.

On March 20, 1990, we transmitted to you comments regarding projections and analyses of the quality and quantity of water available in the Lompoc Groundwater Basin. We are

Commette no Draft HIS Proposed Cidence of Las Section AFS

DOCUMENT 258

DOCUMENT 258

7.22

15.10

Letter/Lt. Colonel Bartol Page 3

communing to work on providing additional water to the Lompoc area in conjunction with other agencies, districts, and cines in the state. The EIS correctly spreads the housing and jobs across the regional accomorp. The City has implemented impagation measures to reduce water demand, including restrofitung existing housing, as well as examining options for

Sewer capacity is, in our opusion, "bostom line" in the ability of any community to settify additional demand for population and housing. It should be noted that the City of Losspoc has an additional 25% capacity in its reposal treatment plant that is evalable for use ty those businesses and industries that generates loss and that provide housing in the Lompoc area. The City has an agreement with the Vandenberg Air Force Base for treating sevings effluent and the City will consider making additional agreements or expanding those agreements if necessary to facilitate the location of people and jobs to this region.

15.10

15.10

The City will also consider providing assistance to the Base Housing Office. The City's Commission Development Department provides housing rehabilitization assistance and Commission Development Block Grank Programs provide human service programs to assist in a variety of ways. We are open to negotisting any additional or unasual needs that the Air Force may here and where we can reasonably provide a public support.

The EIS does not mention public parks and recreational opportunities. The City of Lompoc is in the process of upgrading its Parks and Recreation Master Plan and the world-class surfing backers a Jalanna and the fishing and billing and Ocean Beach Park are overstanding and should be considered as part of the package of americs available to people relocating to this area. The City is open so providing additional programs to the Air Force or cridian partners to the Air Force or cridian partners that world provide them with off-base higher quality of life standards.

In summary, the City of Lompoc has a continuing commitment to providing services to the employees of Vandenberg Aur Force Base. As expressed by the Lompoc City Council, the Aur Force has our full cooperation and assistance in the proposed reflocation of additional personnels to Vandenberg Aur Force Base. Should you have any questions or comments regarding (iv) policies and programs we are enable to essent services.

Very truly yours.

September 19. 1990

Lt Colonel Thomas J. Bartol Director Programs and Environmental Division AFRCE-BMS/DEP Horton AFB, Ca. 92409-6448

RE: Relocation of Needquarters Space Systems(NQ SSD) To Colorado Springs/Draft Environmental Impact Statement

Dear Colonel Bertol.

In a letter dated June 4. 1990. I provided Colorado Division of Mildlife (CDOM) comments regarding the above referenced relocation to Peterson and Falcon Air Force Semen. Our response was cased on your letter of May 4th which included a brief description of the project and two small name. This response was necessarily general since specific building or development sites were not identified Aiso. disclosure of anticipated tapacts stallar to that provided in the July 1990 Preft 818 was not available at the 1se.

Baring read the Draft EIS for this proposal, I would like to reiterate earlier Division comments which recommend avoidance of high value wildlife areas (wetlands) east and south of the satisting Falcon AFS facilities. Similarly, settled habitats should be avoided on Feermon AFS. Once specific information as to building locations is available, the Division can be sore specific at to construction/best management practices, and possible sitigation or enhancement, If appropriate. 13.6

To date, our comments have been directed to wildlife impacts on-site. If 8-10,000 new Jobs and 28-30.000 new residents come to Calorado Springe related to the proposed closure of Los Angeles AFB, off-site impacts to wildlife will be far greater than those on-site. Similar to sit areas which are typically located on federal lands, we anticipate the greatest impacts of development to be off-site, on public lands (fatte Land Soard Lands) in this case, and on private the property of the prope 13.7

DOCUMENT 260 DOCUMENT 261 September 21, 1993 210: West 37th St. San 2-dro. CA 90732 September 23, 1990 Lt. Col. Tom Bartol Director, Programs and Environmental Division AFRCE-BMS/OEP Norton AFB. CA 92409-6446 Lt. Colonel Tom Bartol. Sirector Programm and Environment. AFFCE-BMS/DEP Norton Air Force Base, CA 92409-6448 Dear tol. Martol: Appreciate the opportunity to comment on the Draft Environmental Impact Statement for the Proposed Closure of Los Anoeles Air Force Base, California and Selocation of Some Systems Division as it pertains to Vandemberg Air Force Bases Systems Division as it pertains to Vandemberg Air Force Bases Though I attended the August 28. 1990 meaning at Cabrillo His School. 1 chose not to comment because I had not yet read the State Comment of the Draft Cabrillo His School 1 chose not to comment because I had not yet read the State Comment of the State State Project. One of the State Nater Project. Overlopers and speculators appear whenever there is any rumor of building of the State Nater Project. Overlopers and popen are Project at Vandemberg. Nost have no regard for long-term, negative impacts on the communities. Dear Colonel Bartol: SUBJECT: PROPOSED CLOSURE OF LOS ANGELES AIR FORCE BASE 15.2 This is a letter in support of keeping the Los Angeles Air Force Base in operation in the Los Angeles Area. As a resident of San Peoro I have seen a significant investment made by the Air Force in providing military housing for CoS Angeles Air Force personnel. It makes little sense to abandon this large investment to relocate elsewhere. Long-term, negative impacts on the communities. Lompoor has struggled infrough the booms and busts associated with immediated programs. The Named Jrbiting Laboratory (MOL) and the loss of the WAFB Shuttle program after the Challenger accident are cases in point. Not lone ago, Lompoor was known as the Flower Seed Capital of the Morid. Visitors could drive infrough acras of flowers from Morth "Street to the Base along Central Avenue. Now they need a map to lind the flower bounding projects and component across the result of the Morid Component of the Morid Component of the Morid Component Component of these housing projects and component of these housing tracts was justified by unrealistic employment projections for the Shuttle program. The result in that service levels are greatly diminished and the community's infrastructure is strained. It is my understanging that other area communities are making efforts to locate additional sites for more sufficery housing. With the local base near numerous contractors serving it, again it does not make sense to move the base operations to another distant location. I urge the Air Force to consider the proposed closing carefully noting the points if have out-ined above. Neperully, the conclusion will be that the Los Angeles Air Force Base whould be retained to continue its mission for the nation as it has for many years. Recent LAFCO decisions (p. 3.3-6. sec. 3.3.2.2) to limit the uroan aprawl were appliated by Lompoc Upland communities. Explosive growth has created a demand on water resources that exceeds the threahold of significance for safe yield from our aquifers. We prefer that land use decisions be made in accordance with the Santa Barbara County Comprehensive Plan. The goals and policities state that communicies snould live within the limits of India faculative evolucies. The enabling ordinances implement chase concepts effectively. The cities of Lompoc and Santa Maria do not acknowledge the cumulative impacts from piecemeal approval of projects with significant adverse impacts - mitigation notwithstanding. In this fourth year of drought, no one is happy with the water **DOCUMENT 261 DOCUMENT 261** water by a vote of 1:1. The City of Senta maria recently circumvented this voting procedure by proposing to take delivery without the need of a bond weaker. The EIS statement that "Construction of the pipeline is anticipated to Degan in 1927 presumes a favorable vote of the people in many areas of Sante Berbare and San Luis Obispo counties (p. 1,1-12). situation. It is illogical for Lompoc and Santa Maria to be promoting rapid growth at this time. As the EIS indicates (table 3.),7-11, every aquifer in the WAPS region is currently overdrafted (some severaly). We are at risk of serious long-ters consequence of soit subsidence, collapse of undergrade equifers, selt intrusion, and deterioration of water quality. It is critical for the well-being of the California Central Coast for iccal communities to develop reliable alternative sources of mater As I resembler. The Tough Report circal 1987: cited desainmenton as a reliable source of water for VAFS. but the economic feasibility of state water weighed in its favor at that time. Regarding the Button Wess Chaparral, the County is moving to establish five preserves to protect high justice; Burton Mess Chaparral. These very care pland communities should not be lost to development. Like the prime agricultural land on the Loncoo Flain. I nope nor relatively undisturbed Burton Mess Chaparral to downing Area I, as designated in Figure 3.3.10-10-10 and be spared. 3.27 The picture has changed dramatically since then, making desaination an attractive alternative. The state of the act has usprowed for both reverse namous and distillation processes. Further, desailnation would dispel concerns about national defense projects being dependent on the 448 mile california Aqueduct (an open canal) which serves over half the population of California Other concerns for the effected communities unlike traffic conception, shortage 2: school classroome, increased as polition, and increased as cativity, se are becoming afflicted with social problems issociated with large arban centers. population of talifornia. Even if the SMP could deliver some of the entitiement water, this would not resolve all our water problems. The SMP is committed by :Ontractual agreements to deliver 4.2 MAF of water per year, but only can deliver about 2.4 MAF on year as continuant beass. A continuant beass, of entitlement from the same sources of developed water without the implementation of large water developed vater without the implementation of large water developed projects could nave serious environmental the proposed projects would have serious environmental consequence for the beits and Southern California extermined to will be serious serious serious serious consequences for the beits and Southern California extermined to the serious provening to the serious continual contents. Lompoc is losing its unique identity and the industries that support that identity. The Surpex leed Company relocated elawhers and other large seed companies are cutting sections and their activities here. Buth of the rural character of the community has been lost already to speculative residential davalupment. La Pursaina State Historic Park is known as the "Trown Jiwe) of the State Park System". The rural environment of the Assistant and Community are essential for it to meantain the historic integraty. Prelado de los Tesores, a voluces organization, assists the State Department of Parks and Recreation in re-creating an interpretive program for the mission Period of [82]. The tumber of annual visitors is steadily increasing, for 1993, it was 581.30. Thankfully, the mission for increasing, for 1993, it was 581.30. Thankfully, the mission period of 100 plays an important role in the economic of the area (sec. 1.3.11.2), we must protect our cultural metalogs. The demand for water in Southern California is steadily increasing due to population growth and decreasing watelability of Colorado River water and Mono Lake water. The SMP contractors receiving entitlement water are already serving about 15 000.000 ecepts. Promoters of adueduct water treate the illusion that imported water comes from an endless source. They further 'proclasm' nest imported water is not growth-inducing, 'Mather claim can be substantiated and there is overwhelming evidence to the contrary, But growth fires the demand for stare water and the greater the demand, the less reliable that source becomes. Regarding jeologic hazards, in the Santa Barbirs County Comprenessive Plan. I believe it shows the Big Pinz Fault running all the way to the costs between Purising Point and Point Sal figure 3.1.6-6. Vandenberg AFB has been a good higher to the showle of Wortnern Santa Barbara County. Wot only has the Base contributed significantly to the economy over the years, it has brought a braid spectrum of talent to the region. In turn, the communities we comed Vandenberg. In proposing the relocation of MOSEO and BMO. your EIS anould sention that in most local purveyor jurisdictions a popular election would be required for the importation and distribution of State Project water. In 1979, the people for county-rade basis; rejected bonds for distribution of state future decisions relating to VAFB should reflect concern for \$\ \big| 15.10

The second

stal Impact Statement (DEIS)

Thank you for the opportunity to comment on the DEIS concurrent the proposed closure of the Los Angeles Air Force Base and relocation of the Space Systems Division (SSD).

The City of Moreino Valley is keenly interested in the selection of a site for the SSD operations in light of the fact that March Air Force Base (MAZB) is an alternative under consideration. MAZB is located adjuscent to the City is being and his bream an integral part of the commonity for many-years. Should SSD be relocated, we feet that MAZB would be a logical and cost effective chusic

Environmental assess raised in the DEIS which I would like to ADDRESS include for quality, land possibilities and straffic. The City's Planning Department has previously commented on the air quality asset. To reservate, it is left that refocution of SSD to NAPB would have a positive raiber than regarine impact upon pollution due to the ability to bring jobs dozen to omphouses residence. Currently, there is irremendous outsingstain or it raife from the Inland Empire (Riversade and San Bernandino Countes) to LAC outsing station of traffic from the Inland Empire (Riversade and San Bernandino Countes) to LAC outsing station of traffic from the Inland Empire (Riversade and San Bernandino Countes) to LAC outsing station of traffic from the Inland Empire (Riversade and San Bernandino Countes) to Lack Angelos.

By thoroping is maper employment center of MAPB these transic could be improved. Fever cars and lesser travel times mean less pollution from the higgest offender - the automobile.

ionally, this positive impact upon jobs to housing halance would lessen freeway traffic ision, one of Southern California's biggest problems.

In serms of land enalability, the DEIS points our that under the proposed action about 550 area of land on base, and an esimased 1000 area of land oil have, would be required to support direct and underect population induced development. The DEIS clearly identifies the availability of land 15.10

on MAFE itself. It about be noted that meaning quantum of final are available on a nurrounding the base, providing a major axes. Because the City of Moreau Valley sur-to the north and east, the city's land planning and evaluablely would be pertained. -

The incorporated area of Morezo Valley includes 49 as, males, with a social spheric of unfluence of 46 as, sales. While Morezo Valley a one of the fasses growing cities in the stees, only about 40% of the only social area has been developed, leaving approximately 36 as males as an available resource.

The city's general plac provides for over 3900 acres of unharmably an commercially asset land and over 24,000 acres of residentially goined

The City of Moreon Valley is a city with a pro-business activate due to our need for jobs, the city lead use planning reflects the philosophy. Sives Specific Plans (master plans) have been approved for commercial and industrial sums, two of which are unameleanly algorithes to MAPE. Consergouses, to the basis's donth, as a masterpleased business park within a vital business park article of 400 sciess. Reasts editorithicities approvimentable have remoded in any officer and study-secale andward faculties, however, approximately 200 sciers remain article for development.

To the amendate onto of the base is the Cheander Specific Plan. a 1500 ocre masterple for light, medium, and busys selective is well as mand-use commercial. Recent companies have included the Koli Company, Bestert, and a Korena-based etamofacturer, amo

Another Specific Ples project worth nowing a Moreno Highlands, a proposed 3,000 acre mend-use manter-pleased communery on the city's cest ead. The project, if approves would offer 650 acres of indistribil land, well swited for high sech operations; 107 acres of commercial land, and a proposed

Commercial, industrial and residenced lead in Moreno Valley is highly competence in price, other as little in 25% of the costs in Los Angelin County. A recent comparison revealed that improved commercial lead prices in Moreno Valley ranged from \$6 to \$10 per square foot while Los Angelin prices ranged from \$25 to \$15 per square foot in the £1 Segundo area. For industrial lead Moreno Valley prices ranged from \$3 to \$7 per square foot, while the £5 Segundo area lead in range of \$15 to \$25 per square foot.

This City of Moreao Valley and its Redevelopment Ageory aggressively recrust and asset Wildian the city is a 4700 acre redevelopment area which offers businesses special incentive city as surrounly applying for state enterprise zone status to be able to offer assistance that this creden.

DOCUMENT 275

Suggested Paragraph 3.6.3.2.

Albuquerque International Airport is served by sight major airlines and two commuter lines. The runways are used jointly with Firtland ATS and the commercial terminal is only 1.2 miles from the base. Passenger traffic in 1989 exceeded 4.7 million (2,162,570 departures end 2,735,900 errivals). This is less than 500 capacity due to a recently completed \$120 million modernization and expansion program: Birect air service is available to Danvar, Dallas, Mouston, Lom Angeles, Phoenix, Chicago, Salt Lake City, Pittaburgh, San Francisco, and St. Louis: Puture plans include addition of a third air carrier runway, and the addition of ten more passenger gates.

Committee I.N.C.

September 17, 1990

Lt. Colonel Tom Bartol Director, Programs & Environmental Division AFRCE-MMS/DEP Morton Air Force Base, CA 92409-6448

Dear Colonel Bertol.

The Committee To Improve Morth County (I.M.C.) is a non-profit broad based coalition of individuals committed to the general improvement of Morth Santa Saphase County, and to insure that north County Obtains its fair share of services, benefits, and county representation.

The Committee, of some 100 people, is very supportive of the relocation of SSD & BMO, or portions there-of, to the Vandenberg facility.

While we appreciate the complexities of such a move and the resultant impacts on the communaties and the environment, we are convinced that this project can be approached with an open mand. We are convinced that any synthicant impacts can be adequately mitigated and we wish to whole-heartedly encourage you and welcome your efforts at solving these problems in a satisfactory manner.

The following are specific areas of concern that we would like to see adequately addressed in the final EIS:

- Although the water basin which Vandenberg draws from is in overdraft, it's basin coupled with State Water, will provide long term capacity.
- 2. Air quality nonattainment data for Senta Barbara County that is contained in the Air Force Relocation draft 5.1.5. relates largely to the City of Senta Serbara/Coleta area. The Morth County areas of Vandenberg and Santa Maria are Beldom in nonattainment.
- The city of Santa Maria presently has the capacity to add 6.484 residential units within its City limits. Armas currently proposed for anexacion into the city limits would permit 7,008 additional residential units.
- Vandenberg presently supports 10,000 jobs. This work force level is 5,000 jobs less than the peak level a few years ago.

15.3

A GROUP OF CONCERNED CITIZENS TO IMPROVE WORTH COUNTY

DOCUMENT 275

DOCUMENT 276

Page 2 Committee E.H.C

5. Housing for Vandenberg's work force is geographically spread. Housing locations include the Base, Pismo Beach. Acroys Grande. Hipmon. Guedalippe. Santa Maria. Drout. Lompoc, Swellton, and the Santa Yes Valley. This broad and diverse territory can accommodate a large segment of the proposed Air Force relocation with minimal impact.

 The Santa Maria Valley and Lompor areas will benefit economically with the addition of new jobs and the enhancement of new functions to Vandenberg.

 It is estimated that 80% of the work force will move from present locations which will provide a 20% job market locally.

I.E.C. stands ready to assist in the OSIS process in whatever positive way we can. Thank you for maintaining your interest in our sets.

Sincerely.

DENNA A PUBLIS MD AND NEW ME WE NO SERV

I am writing this letter in support of the proposed relocation of the los Ameles Air Force bees. I have been a onysician in Colorado Springs for the lest 5 years, and would like to enthusiastically endorse this community es a site for relocation.

Certainly there is a veriety of housing available at an affordable level, in my opinion, compared to prices elsewhere. I have lived, and did my training, in Albaquerque, are Messica and feel that although this is a very nice city, with a nice climate, the school systems in the oldered Springs area are much stronger overall. Having sized, equit, in both cities, I do feel that the quality of life service departments in the city are outstanding, and overanded misse provided by Albaquerque.

I do feet that the city would enthusiastical accept this move, and so everything possible to six resociation efforts. The variety of activities, services and quality of people in the city. I feet, are inheritmed.

Draft Environmental Impact Statement

Proposed Closure of Los Angeles Air Force Base And Relocation of Space Systems Division

Vandenberg AFB

As a concerned resident of Santa Maria, Co., I ettended the Ameurat 28th Public Hearing at Cabrillo High School in Vandemberg Village.

I listened with great interest to the Statements/comments made by elected officials and fellow citizens slike. I am sure you would agree the everall message was one of favorable acceptance with limited reservations as to water supply.

The preposed more of hir force space Command, Bellistic Hissile Organization and/or Arcapace into any commonly would not be without impact - positive or negative. The communities surrounding Vandenburg hir force base have on many occasions must not resolved issues for must important than any which were addressed at the hearing.

Our water shortage is no different. It must, no, it will be resulved in any case. It is my opinion that the economic benefit directly associated with your perspective relocation far outstrips a temperary inconvenience.

Celifernia is the most populous of the United States. We of the Central Cossi do not reside within an impenetrable bubble, we cannot appear on one hand to enjoy an expending economy without the challenges of preserving, as near as possible, our environment.

I know in my heart, our friends at Vandenberg are every bit as concerned as we are. There is no question in my mind, tegether we can must and resolve any and all james be they social, economic, or environmentally related. Together we can ... please join us.

Thank You for Your Comments.

Lt. Col. Tem Bartol Director, Progress & Environmental Division ATRCE-888/DEP Morten ATR. CA 82409-6448

As a long time resident of Colorado Springs, please allow me to extend this word of welcome to our community. I would hope that you have an adequate apportunity to visit Colorado Springs and to interact with enough of our business, industry and community leaders to get a true ploture of the sevantages offered by our area.

This contribution is much breader than just the economic impact of the military payrell here. Colorado Springs has a reputation of being a vary involved community with an exceptional record of support in many community service oriented projects through a vast voluntear metvork.

Numbers of the verious allitery organizerisms in our area have consistently been strong supporters of numerous of these activities including such things supporters of management the control of the property of the control of the con

Nore important then just the economic support that is provided by this valuable contingent of our community is their direct involvement in the direction and administration of these wary worthwhile efforts. Review of the Board of Directors of any significant community organization in our city will reveal the neases of nemerous sembers of the military in key positions.

In eddition to these valuable service stiented activities, there are also many cultural activities, groups and projects such as; The Colorede Springs Symphony, the Shakespears in the Park Series. The Davinci Ovartet, the Colorede Springs Fine Arts Coenter, the Business for the Arts Center, and anny others. These also beamefit greatly from the influence and support of the military community in our city.

DOCUMENT 283

One of the most significant resease that people choose to live the Pikes Peak region is the positive quality of life that enjoy. While the beauciful views, clear blue skies and modern weather, and proximity to the mountains and their regreation opportunities, certainly are important parts of this, they are no means the only factors.

The fact that we offer transmisses alone in real setate is carriably important. The swarces means in colorade springs under 100,000. There is an excellent selection. J. of the swarces in the sander 100,000. There is an excellent selection of homes available in the market at this time, in a wide range of styles, sizes and price ranges.

Equally important is the outstanding public school system that we set the brean. Statistics consistently reweal that our students are batter educated, trained, and propared to enter the "real" world than elmost anywhere else in the country. The percentage of our high school students continuing on to college is far in excess of other communities, both statewise and nationally.

Transportation networks and commuting time are also important issues to many. In Colorado Springs a 5-simute delay is a "major inconvenience" and considered a traffic jes. You can easily travel from any point around the city to another on the opposite side in less than 30 simutes, any time, day or night.

There are certainly lots of ressons why people choose to live in this community, but these ere a few that seem of particular importance to se.

All things considered, Coloredo Springs is a delightful place to live and to raise a family. To me, this is the essence of "quality of Life" and seams happier, more productive people.

With the added benefit of the low cost of living and the low of doing business here, I believe that a decision to make our home to the Space Systems Division would prove to be the possible decision that could be arrived at.

Coloredo Springs respects and appreciates the United States military forces, and your personnel would find us hespitable, friendly, and anxious to help these become a part of our community.

The Space Systems Division and Colorado Springs are a good fit!

With best regards,

William K. Murt. Vice President
Vintage Communities, Inc.

October 2, 1990

LTC Tom Bartol Director, Programs and Environmental Division AFRICT-885/DEP Norton Air Force Base, California 92409-6448

As you and others review the Space Systems Division's potential relocation, I want to encourage and support your consideration and eventual move to precesson Air Force Rase in Colorado Springs. The benefits to the United Status Government, to the Air Force and to the people who work for the Air Force would be enhanced in Colorado Springs. The community offers exceptional educational facilities and an excallent cader of voluntaer support groups for all sectors of the society. Colorado Springs is 8 health-concluse community with affordable to good transportation facilities. It has an incredible parts system, many youth activities pregrams and a civilian workforce that is highly educated and dedicated to quality. These are a few of the elements of our city that I believe are important to anyone choosing to live here.

Being a native Coloradan and having raised a family in Colorado Springs, I can attest that you and your people will find that there is not a better place to live, to do business and to prosper. I encourage your selection for the Space Systems Division to be Pateruom Air Force Base.

Sincerely yours.

Devid po Jentine

TESTIMONY OF COMGRESSMAN LAGORARSING Scoping Hearing on August 28, 1990 Subject: Relocation of Air Force Systems Command Space Systems Division and Sallistic Missile Operation

Mr. Chairman:

resevent to the proposed closure of Los Angeles AFB and relocation of the Air Force Systems Command Space Systems Division (SSD) and SDD's Ballistic Missile Operation (BMO) in San Sernardino to Vendenberg AFS.

2 51% Earl Came,4 2 61% Santa 61.85 Sort Santa 651% Sort Santa 650% 600.003-1700 600.022.2151

As you know, the Morthern Senta Barbara Community has stood ready to accommodate nectonal security needs for the better part of five decades--ever since 1941, when Camp Cooks hosted armored and infantry training here. Since 1957, when the Air Force took over the base, over 1.638 space launches have occurred at the base, with over \$40 satellites placed into orbit. These satellites have been and are the beckbone of our national ne of our national technical intelligence system, and will become even more crucial as we enter the era of superpower strategic weapons treaties, requiring extensive monitoring and verification.

For 33 years, Vandemberg and the Morth County have shared a special relationship. The community has willingly opened its doors to accommodate the social, cultural, religious. educational, physical and other needs of the Air Force families who lived in our midst while performing their basic mission of protecting our nation. Our economies have become intertwined. and our personal lives entirned on norm sides as we worked. worshiped and lived side by side.

sladly welcomed it. The Air Force is an integral part of our

When you asked us to open our doors for the space shuttle program. We did so generously. When the hopes for a West Coast Shuttle facility died with the Challenger tragedy, we mourned its

Now, we have another opportunity to do our share for the national defense. It is an opportunity we welcome. I personally support the proposed move of SSD and SMO to Vandenberg AFS.

Congress of the United States Bonne of Representatives Washington, BC 20515 The control of the parties of the control of the parties of the control of the co

Such a nove, provided it is done with due requed to environmental and other concerns (including water, housing and other services) will help offset the loss of jobs which resulted from cancellation of the West Coast Space Shuttle launch program. It would also help offset any unforcesen cuts in defense spending which may occur in the future. In fact, in view of those potential cuthacts, it would make sense to consolidate Air force missile operations at Vendenberg-the only existing site for operational testing of ICBMs and for launching payloads, including intelligence satellites, into indispensable polar orbits. Vendenberg has the room, and the capability, to accommodate \$50. If necessary, housing, schools and other services can be provided on base, with the Lompor/Santa Maria area absorbing the overflow. This could apply as well to

This evening, you will best from many segments of the forminity. Gapetily, when the evening is finished, you will have received an overall picture of our hopes, our desires, and our willingness to serve the national defense needs of our nation. We are a "second generation" Air Force community. Most people here do not even remember a time when the Air Force was not a part of the tableau of life in the North County.

Therefore. I welcome you, not as strangers, but as longtime friends. I urge you to listen to our concerns, as I know you will. And I know that you will find we are ready, as always, to welcome the Air Force as good neighbors, and willing participants in the work of defending our nation and our way of life.

DOCUMENT 286

LOS ARGELES DEPUTY MAYOR MARK D. FABILARI TESTIFICAT AUGUST 27, 1990

LOS ANGELES AIR PORCE BASE

ON BEHALF OF LOS ANGELES MAYOR TON BRADLEY, THANK YOU FOR THE OPPORTUNITY TO BE HERE THIS EVENING.

THE CLOSURE OF LOS ANGELES AIR FORCE BASE AND RELOCATION OF THE COMMAND SPACE STSTEMS DIVISION MOULD HAVE A DETRINESTAL LINEACT UPON THE CITY OF LOS ANGELES.

FOR OVER THIRTY YEARS, THE LOS ANGELES AIR FORCE BASE HAS BEER THE HOST BASE FOR SPACE SYSTEMS DIVISION. THIS PARTHERSHIP'S INTEGRAL PRESENCE HAS PROVIDED SOUTHERS CALIFORNIA AND THE BATTON WITH INNUMERABLE STREYITS.

CLOSURE WOULD RESULT IN SEVERE ECONOMIC LOSSES TO OUR
CITY. THE LOS ANGELES AIR FONCE SASE MAS CURRENT CONTRACTS IN
THE LOS ANGELES BASIN OF 36.5 SILLION DOLLARS. MITH A YEARLY
PAYBOLL OF \$109 MILLION. THE AIR FORCE SASE EMPLOYS 1.730
MILITARY AND 1.450 CUVILIARS, AND THE AEROSPACE DIVISION
EMPLOYS 4.200 PERSONS. THE PROPOSED CLOSURE WILL RESULT IN THE
LOSS OF 17.000 DIRECT AND SECONDARY JOBS.

PAGE 2

LOSSES OF SUCH STAGGRESS PROPORTIONS MUST BE JUSTIFIED BY A COMPELLING MECESSITY FOR CLOSURE.

ECOMODIC PACTORS ARE CITED AS A 10-JOR REASON FOR THE PROPOSED CLOSURE AND RELOCATION. YET THE ISSUE AT MAND IS PRIMABILY ADDITIONAL AFFORDABLE MOUSING FOR AIR FORCE OPERSONNEL. OF COURSE AFFORDABLE MOUSING IS A GREAT CONCESS TO MOST SOUTHERS CALIFORNIA EMPLOYERS. IN THE CASE OF LOS ANDLESS AIR FORCE BASE, THOUGH, THE CITY OF LOS ANGELES IS PREPARED TO DO MINATEVER IT CAN TO MELP. THE MAYOR MAS ALREADY SECUR A SEARCH FOR SURPLUS CITY PROPERTY THAT HIGHT BE USED FOR AIR FORCE MOUSING. AND WE ARE READY TO TAKE WAITEVER OTHER STEPS WE CAN. THE AIR FORCE L'HELF RECENTLY ACQUIRED 370 ADDITIONAL UNITS AND IS ACTIVELY MORKING TOWARD ACQUIRIED WORE.

THE UPROOTING OF THE ENTIRE BASE IS MARDLY A POSITIVE
SOLUTION TO THE AFFORDABLE HOUSING PROBLEM. THE COST OF SUCH A
NOVE WOULD SE PROMIBITIVE; THIS RELOCATION HOWEY COULD
CERTAINLY BE SPENT MORE PRODUCTIVELY.

IN SHORT, THE MAJOR DISSUPTION OF SOUTHERN CALIFORNIA'S AEROSPACE INDUSTRY BY THE CLOSURE OF THIS BASE FOR MOUSING SUPPLY FURPOSES IS SIMPLY NOT JUSTIFIED.

PR comments 10/50: LA APR Cinsure

 The DEIS states that Lee Ampales AFB would be placed into a caretabar status panding final disposition of the property. We recommend that the Air Force delineate the maintanance functions that would be continued while the property continues in this 1.10 The FEIS should list and describe existing and pending en-remental persits and their post-closure status. 12.7 EFR recognizes and commands the Air Parce on its commitment harandors waste clearage and investigations. As is stated in D GERS (p. 1.2-7), the Installation Reservation Program will Names independent of the base closers present

measurement. Comments

1. The DEIS discusses were supply insuce at Vandenbury and
Extiling all 7 Porce become union are being considered as petential
realignment sites. In the case of Vandenbury AFS. the Coastal
force is proportion in the coase of Vandenbury AFS. the Coastal
force is the coastal proportion of the coastal
(p.3-17). However, the Coastal Aquaduct project Phone II is
still in the planning stage with the public comment period having
recently closed. Punding for the project has not yet been secured
(telephone conversation with California Bags: of Water
Recentres). The Air Force should identify an alternate water
source or indicate whether Vandenburg AFS would be drapped as
powered or indicate whether Vandenburg AFS would be drapped as
implemented. 10.27 At Kirliand AFB applemental veter requirements are not through the Albuquerque city vater supply. Albuquerque is currently sup-plying 0.8 MED to not curring paid descent or kirsised (p. 18-14). We encourage the Air Perce to commit with the Albuquerque exty deversions reperful the additional descent on the city usts system should Kirliand AFB be a selected realignment site. 7.26 2. We recommend that the FEIS include an estimated schedule for closure, agrardess waste closure and property transfer. Since realignment, closers and reuse can have significant physical and economic superts on the outrounding region. The FEIS should outline the public planning precess which the Air Perce is using.

1

DOCUMENT 288 DOCUMENT 288 EPA comments 10/55: IA AFR Closure Air Comments 1. The BEIS status that sevaral of the proposed realignment sites are lested in air quality monettainment areas, Additional sites are lested in air quality monettainment areas, Additional sites are lested as a lested as The preposed project does not violate State-adopted, EP1-approved water quality Standards or jeopardize the Centimused existence of any species listed as threatened or endangered under the Federal Endangered Species Act (40 CFR 230.10(b)). 3. The proposed project must not ease or contribute to significant degradation of veters of the United States, including verticates and other special equation stee (46 CFR 390.10(c)). Significant degradation includes the less of fich and vidility habits and the loss of other vettlands habitst values and functions, Significant degradation includes consistent values and functions. Significant degradation includes consistent imports. 13.18 4. All appropriate and practicable steps have been taken to his-inate severes impacts on the equatic occopystem (1.4., mitigation) (40 CTg 210.10(4)). It is necessary that the Air Forces undertake every practicable effect to first avaid and then reduce the every practicable effect to first avaid and then reduce the vironmental statement's alternatives analysis should fully docu-ment the evolutions and minimization of severe impacts on aquatic ecceystems. The FIIS must describe appropriate, practicable measures to companies for the unevoldable loss of waters of the Onited fraces. The DETS status that several of the proposed realignment sites contain we shade areas which could be affected by construction upon a 1-14 hours are status that wetlands delimention studies will need to be conducted to determine if these areas are jurisdictional outlands. The FEIS should contain the results of those studies. Biological Besources The FEEs should size discuse whether the proposed realignment construction requires a clean Meter Section 400 permit from the Army Corps of Empissors. Section 404 regulates the discharge of dredged or fill meterial into waters of the United States, including weaklands and other special aquatic sites. We recommend that the Air Feros work closely with the U.S. Army Corps of Engineers to ensure that the proposed construction is consistent with Section 404's requirements. EM will review the proposed project for complicates with Padray, Buildlings for Imperiations and the Complete of the TPA recommends that surveys be conducted for construction action observed in blanced the mediapered. Extractioned or can the observed the survey of the control of the control with the Fish and violate Surveys and state (inh and game agencies to develop a management plan where development is ex-pected to impact or reduce habitet know: To control protects. 13.19 13.18 The proposed discharge must be the practicable alternative which would have the least adverse impact on the aquatic eccept-tem [40 CTR 200.10(a)]. All practicable alternatives to the proposed discharge which do not involve a discharge into a spe-cial aquatic site are presented to have less adverse impact on the equatic ecceptoms unless clearly demonstrated otherwise by the applicant [40 CTR 200.10(a)(3)] **DOCUMENT 289 DOCUMENT 290** San Bernardino County/Private Industry Council The Paramata mai wats: State of California Office of the Abjusted General PO 8th 21405 2029 With Avenue Secretoria Catoma 95021-0405 October 10, 1990 Pacilities Engineering Directorate Licutement Colonel Tom Bartol Director of Programs and Environmental AFRCE-DMS/DEP Morton AFB, Ca 92409-6448 Dear Colonel Bartel: On behelf of the Private Industry Council of Sam Bernardine County, I would like to express our suggest for the Bellistic Rissile Organisation remaining at Norton Air Force Base, Ean Bernardine, California. Dear Colonel Bartol: The Draft Environmental Import Statement for the relocation of the Spece System Sivision scatce that "the proposed closure of SBO decilities in Eas Barmardian and relocation of SBO operations to another installation occasion the SBO seculities of SBO operations to another installation occasion the SBO seculities of SBO operations to another installation occasion the SBO seculity and SBO seculity and SBO seculity and SBO seculity and the SBO seculity in the area of approximately 4.350 join beginning in 194, reaching a total of approximately 8.750 join by 1955. Of this total, about 2.330 would be direct military, civilian, and contractor positions at SBO, while 6.170 would be indirect workers (SBCCL) and SBO seculity and seculity seculity and seculity of SBO seculities. PRINCE NO. 1, 2008 2-3, of the referenced document seek and terror series being process, and links next receptions as being process. The contract of the cleaves. The California Rosy meticanal Guerd until located on Pert Funderburs is a toward of locategories and settings and reference in locategories participated and common contractions of common units does not appear to have included laid beinged Readquerups (80 personnel), obtilizatory trialson, in the entry. The California army measured Good is very innocented in obtaining a linear for use of the Landslet homes on a memory size. Here Port metachthat closes, it would provide a teplecoment facility for the lat Brigade. We would see the entering structure pending construction of a nine amoney. This action alone would have a significant impact on the employment conditions within the County. Revews; more importantly, it fails to consider the cumilative effect who consistent with the signedise closures of George and Norton Air Force Bases and the proposed reorganization of General Dynamics Corporation. All together, these closures will result in the loss of approximately 22,500 professional, technical, and support level positions. The Private Industry Council of Sam Bernardino County, through the IoB Training Partnership Act, will provide easistance to those worker dislocated by these actions. To serve the number of individuals as projected will require an infuse of federal funds that is beyond practical or fascal feasibility. In order to provide placement for these professional and technical level amployees, like positions must be available. The closure of 800 at Morton would further limit the possibilities of future or jumpent for these individuals and greatly increase the hardship for them and their femilies.

If we can be of any further assistance, please feel free to contact us at (714) 381-4136.

According to quidalines established by the state Air Resources Smard, San Lais Chisps can be classed/feel as a "secteou" nonstanceur area, requiring a function control besings and substantiation for the control of th

Appropriate sitiumtions for both construction and operational impacts are addressed in detail in the following sections.

- Sections of the resed for dry weather, such earth covery activity taken plans between they and decident. Because it is weather and meaning is stranger, doesn's foreigness from preference dissurance is enteriors. Therefore, from an eir quality perspective earth source options: enhant is maction or the weart time of year.
- 5 Sects moving equipment in generally enters organization controls

DOCUMENT 291

buses and heavy trucks. Consequently, particulate and oxide of nitropen esimulons are manufactual, especially in the first few seconds of scoolerstion.

The OEES statem that, " the short term air quality impacts from project construction exclivities would not be supulficent." The Obstrict diseagrees with conclination, because, as previously stoad, very supulficant emission reductions are required in coming years. Not construction emissions come during the "emissions come during the "emissions exceedings or because increases above current issuals could make achieving the required 55 Vyear reductions even more difficult. Therefore the Obstrict recreases that equipment employees submit to exceed and a laterator hald be used to reduce the ord Not emissions used to the control of the

Registive Curr

- 1. During clearing, greating, earth moving or excession:
 - a. Use of veter trucks or spriviler systems in sufficient quantities to prevent extrome dust from leaving the site. Prequency of vetering vill very with endoming weather constitutes but, at a minimum, smould include the vetting of all activally vorted areas at least once in the secting end once in the afternoon.
 - b. All dirt stock-pile areas should be sprayed dealy as needed.
- 2. After clearing, grading, earth moving or excemption is completed:
- a. Personners dust control measures identified in the approved project revegetation and landscape plans should be implemented as soon as possible following completion of any soil disturbing activities.
- b. Exposed ground areas that are planned to be resorted at dates greates then one month after initial greating should be some with a fast-pensionating native great send and untered until vegetation is earth) inhand.
- c. All distincted soil areas not misject to revegetation should be stabilized using approved chamical soil birders, jute netting, or other methods approved in advance by the APCD.
-). During construction
 - a. Nature trucks or sprintler dystems should be used in sufficient quartities on heat roses and other areas of which screens this would include untime does not neces in the late sorrough and after which is completed for the day. Included statumy Englandy would be required sharency wind speeds content 13 sph.
 - All rossbaye, drivesaye, sidewalks, etc. should be paved as soon as possible. In addition, building pads should be laid as soon as

possible after grating unless conting or cold business are used

Drivers, Delectors from Construction Systems

On large construction projects, many types of heavy equipment are used concurrently and dissel organs emissions can be asbetantial. The following measures have been depen offective in redshing these emissions:

- 1. Equipment adjustments and modifications:
 - Use of Cotespiller preclusive dissal engines (or equivalent) together with proper melaforance and operation can adestartially reduce enlasters of nitrogen acides (REA).
 - Sutardation of injection timing and adjustment of mix-to-fuel ratios, where feasible, can also provide substantial like reductions.
- Activity emegament techniques:
- Development of a comprehensive construction activity management plan designed to minimize the account of large construction equipment operating during any given period.
- b. Scheduling of construction truck trips during non-peak hours to reduce peak hour existions.
- c. Limiting the length of the construction work-day, if recommery.
- d. Phasing of construction activities, if appropriate.

It is recommend that a construction mitigation plan be prepared utilizing the most effective combination of these strategies to reduce complication enumerates to the maximum entert (mainly).

OFFRETIONS SYSTEMS INTRICATIONS

It should be streamed at the outset of this discussion that road videning, intermection expansion, signalization, etc. have limited potential as air quality elizapieros. As his beam shown may times throughout the videos, road improvements facilitates simple compact website commanded, with commandation to the commandation of

Therefore, the SIO APCD recomments that a Transportation Management Place (TSP) be propared to residue sumple-compant commans trips estructed to the Base. The PICE does not have to be a TSP, but it should outline what vanid be contained in the Plan, what will be enhanced, and expected management that will be enhanced by upplementation. In addition to the proposed strategies, the 30° vould also contain provisions for compliance somitoring, such as particular divinesy counts and an evensation appears and the proposed of the Figure as even-sed and appears the Sente Section 20° prior to implementation by the applicant; compliance respecting vould also be admitted to the Obstract for review and approval.

offeets

The concept of offsets is often used when parattrian new or multited stationar mources of air pollution. If the parattrial finality curvet directly reduce emissions at the source, then the new emissions are offset by reducing pollution at another mently famility. One to the size, soops and tissure of this projects, offsets of both constructions and questing editation will be required on excepts the electronical separate projected. Since the primary source of air pollution from the project will case from sother whiches, it is appropriate that offsets with potential to prefuse such use to implementation.

DOCUMENT 291 **DOCUMENT 291** Wery cruly yours. Other offsets are only limited by creativity of design and consistent to implement them concurrent with the Proposed Action. THIS PAGE THIS PAGE INTENTIONALLY INTENTIONALLY LEFT BLANK LEFT BLANK

APPENDIX F.3 - COMMENT RESPONSES

Responses to the comments identified in the public hearing transcripts (Appendix F.1) and the submitted written comments (Appendix F.2) are presented in this appendix. The comment responses are grouped by issue area and presented by issue code number. Issue areas include the following:

- 1. Air Force Policy
- 2. Environmental Impact Analysis Process
- 3. Project Description/Siting
- 4. Community Setting
- 5. Land Use and Aesthetics
- 6. Transportation
- 7. Utilities
- 8. Hazardous Materials/Waste Management
- 9. Geology and Soils
- 10. Water Resources
- 11. Air Quality
- 12. Noise
- 13. Biological Resources
- 14. Cultural Resources
- 15. General Comments

ISSUE		
NO.	RESPONSE	

Issue Area 1: Air Force Policy

- 1.1 Mission capability, the cost of relocation, and ongoing operational costs are all factors which will be considered by the Air Force in a decision on the relocation of Space Systems Division. However, these issues are beyond the scope of this EIS. Comments in these areas have been forwarded to the appropriate Air Force office.
- 1.2 Impacts to the environment, as analyzed in this EIS, will be one of several factors considered in the decision regarding the closure of Los Angeles AFB and relocation of the Space Systems Division.
- 1.3 The Air Force is interested in maintaining the highest possible levels of experience and expertise within its military, civilian, and contractor work forces. However, comments on these types of issues are beyond the scope of this EIS and have therefore been forwarded to the appropriate Air Force office.
- 1.4 Issues related to the legal interpretation of the Base Closure and Realignment Act are beyond the scope of this EIS.
- 1.5 Comment noted. Section 2.2 has been modified to reflect the on-base presence of the subject unit.
- 1.6 The Air Force appreciates the convenience afforded by the close proximity of many of its contractors to the current location of Space Systems Division. This is one of many factors which will be considered in the decision on the closure of Los Angeles Air Force Base and relocation of Space Systems Division. However, these considerations are beyond the scope of this EIS. Comments in these areas have been forwarded to appropriate decision makers.
- 1.7 The Air Force has investigated the availability of housing in the communities under consideration for the relocation of Space Systems Division. This information was used in the determination of Military Family Housing requirements due to an SSD move. Housing availability has been further evaluated in the Supplemental Economic Studies being prepared by the Air Force to analyze the potential economic impacts on the communities under study for the relocation of SSD.
- 1.8 Comments concerning funding for local services are beyond the scope of the EIS except where growth or changes in these services lead to impacts on the biophysical environment. However, the Air Force is conducting separate supplemental economic studies to analyze the potential economic impacts to communities being considered as sites for the relocation of Space Systems Division. These studies will address, among other things, community facilities and services, and fiscal impacts to local governments. Results of these studies will be provided to appropriate decision makers prior to a decision on closure or relocation.
- 1.9 Comments concerning possible future uses of Los Angeles AFB are beyond the scope of this EIS. However, comments of this type have been forwarded to the appropriate office.
- 1.10 Caretaker status as currently defined is shown in Section 2.3.1.1 of the EIS. More specific details of caretaker status would be delineated if a decision is made to close the base.

ISSUE	
NO.	RESPONSE
1.11	The time period for the proposed action is fiscal year 1993 through 1996. The drawdown schedule for base personnel during this period is shown in Figure 2.2-6 of the EIS. Hazardous waste cleanup, as implemented in the Air Force's Installation Restoration Program (IRP), is independent of the base closure schedule and will continue until remediation is completed. Transfer of base property will be addressed in a disposal and reuse EIS if a decision is made to close the base.
1.12	Issues regarding the disposition of government property at Los Angeles AFB are beyond the scope of the EIS. Comments have been forwarded to the appropriate Air Force office.
1.13	The content of special legislation regarding disposal of Los Angeles AFB property is beyond the scope of this EIS. The comment has been forwarded to the appropriate Air Force office.
1.14	The Air Force is committed to working with state and local agencies to insure that traffic impacts due to the possible relocation of SSD are mitigated to the extent possible.
1.15	Under current plans, the assumption in the comment is correct, there would be no action without the special legislation.
1.16	The Local Economic Consequences Studies are given only to the local officials in the areas they apply to and members of Congress. The general public will not have an opportunity to review and comment on these studies.
1.17	The cost of related aerospace businesses relocations being passed onto the government is a factor which will be considered in the decision regarding the relocation of Space Systems Division. However, it is an issue that is beyond the scope of this EIS. The comment has been forwarded to the appropriate Air Force office.
Issue Ar	ea 2: Environmental Impact Analysis Process
2.1	Potential environmental impacts of the proposed closure and relocation of SSD are included in the EIS. The strategic, operational, budgetary, fiscal and local economic consequences are appropriately covered in other documents, as they are not considered cumulative with the environmental consequences. All those studies will be available to the decision maker before any decision is made on closure. Decisions on closure and reuse are considered independent and separate environmental documentation will be prepared for each.
2.2	The scoping comments submitted by the County of Santa Barbara and the City of

impacts of the proposed relocation of SSD to Vandenberg AFB.

2.3

Zone Management Act.

Lompoc were given equal consideration along with all other scoping comments received by the Air Force. As stated, the comments were both informative and appropriate, and were considered in the evaluation of potential environmental

The Air Force will submit appropriate documents, if any, required by the Coastal

ISSUE		
NO.	RESPONSE	

- 2.4 Mitigation measures to reduce or eliminate potential impacts at Vandenberg AFB are listed in Section 4.7.
- 2.5 Comment noted. A copy of the DEIS was provided to the Southern California Association of Governments. A copy of the FEIS will also be sent to the agency.
- 2.6 The Air Force is not planning to do further environmental analysis of the possible relocation of Space Systems Division (SSD) beyond that contained in this EIS. However, the Air Force fully intends to perform necessary coordination with local government organizations during the planning and design stages of any project to relocate the SSD.
- 2.7 Existing and pending permits at Los Angeles AFB are listed in Section 3.1.12 (TBS). The Record of Decision, if one is issued, will describe their post-closure status.
- 2.8 The Draft Environmental Impact Report for the State Water Project Coastal Branch, Phase II and Mission Hills Extension was reviewed during the preparation of the EIS and appropriate information was considered in the analysis.
- 2.9 Social issues such as the proportion of defense-related jobs in a community and the effects of a proposed action on local politics, newspapers, and schools are beyond the scope of this EIS.

Issue Area 3: Project Description/Siting

- 3.1 Section 2.4.3.1 of the EIS has been revised accordingly. A portion of Site 1 is within the 222-acre area leased by the Air Force from the City of Colorado Springs, but, as stated by the commentor, also consists of lands that are privately owned and part of the Banning-Lewis Ranch. Lands north and east of Site 1 across Marksheffel Road and southeast of Site 1 on both sides of Marksheffel Road are also part of the Banning-Lewis Ranch.
- 3.2 Section 2.4.3.2 of the EIS has been revised accordingly.
- 3.3 The proposed action and alternatives for the Peterson AFB/Falcon AFB location do not include the construction of any military family housing at Peterson AFB.
- The information regarding potential changes in departure routing for the new north-south runway at the Colorado Springs Municipal Airport is noted. If Peterson AFB is selected as the relocation site, the Air Force will work closely with the Federal Aviation Administration and the City of Colorado Springs with regard to the siting of facilities in relation to the noise contours for the new runway. If any buildings are constructed in noise impacted areas, the buildings will be designed and constructed to meet applicable DOD, Air Force, and other federal noise regulations and policies.
- 3.5 Design and construction of facilities at any of the proposed sites at Peterson AFB will be done in compliance with Air Force and FAA regulations and policies regarding horizontal and vertical clearance and prevention of visual and electronic interference.

ISSUE NO.	RESPONSE
3.6	The information regarding additional access to Site 1 at March AFB is noted. If Site 1 is selected, the Air Force will consider providing additional access to the site in the planning and design of facilities and required infrastructure improvements.
3.7	As stated in the public hearing speech (see March AFB public hearing transcript [Transcript 4, pages 18-19] in Appendix F.1), Alternative 4 involves "the relocation of 1,000 personnel from SSD with no facility closure at either El Segundo or San Bernardino." Unlike the other alternatives, Alternative 4 does not represent a specific organizational group, but is instead a generalized representation of the current personnel structure of SSD. Alternative 4 is described in more detail in Section 2.3.4 of the EIS.
3.8	The Aerospace Corporation laboratories are an integral part of the in-line support that this organization provides to the Air Force during the planning, development, acquisition, launch verification, and operation of national defense space systems. The laboratories are used in a real-time, quick reaction mode to address problems encountered during the systems development process. The Aerospace Corporation and its laboratories are integral to SSD for both long-term development and rapid-response teams to solve real-time problems for launches and operations of the system. The proposed action and alternatives were developed with consideration of the efficient location of all organizational elements of SSD.
3.9	Factors such as security and support services make sites that are not on or contiguous with Department of Defense installations unreasonable alternatives.
3.10	The Air Force has determined the availability of the Kirtland East Hospital to accommodate SSD activities, and there is no conflict with the Space Technology Center or other defined programs.
3.11	Organizational structure and manpower requirements within the Air Force are currently undergoing changes. Consequently, organizational changes may occur within SSD which, at the time of publication of this EIS, have not yet been foreseen. Alternative 4 is provided to give decision makers the flexibility to respond to these unforeseen changes. Unlike the other alternatives, Alternative 4 does not represent a specific organizational group, but is instead a generalized representation of the current personnel structure of SSD.
3.12	The onbase acreage estimates of potentially disturbed areas presented in Section 4.3 to 4.6 and the Summary for each relocation option are based on the identified space requirements for various facilities presented in Table 2.2-2. The acreage estimates include the square footage requirements and additional areas that would be disturbed during construction. These additional areas would include areas for parking lots, roads, other infrastructure improvements, and landscaping associated with specific facilities. The offbase acreage estimates were based on the projected demand for new housing in each affected community and associated demands for commercial, industrial, public, and infrastructure land uses.

ISSUE	
NO.	RESPONSE
3.13	As stated in Section 2.2 of the EIS, the proposed action is contingent upon special legislation permitting the Air Force to dispose of the real property and use the proceeds to partially offset Military Construction (MILCON) costs at the selected relocation installation. This special legislation would exempt the real property from existing public law provisions for disposing of public property.
3.14	The Space Systems Division facility square footage needs presented in the DEIS were determined by the Air Force based on identified future manpower and mission requirements. Subsequent to the publication of the DEIS, these needs were further refined and adjusted as necessary. Corrected square footage requirements for the Proposed Action are shown in the EIS in Section 2.2.1.
3.15	The discussion of cumulative environmental impacts at March AFB is provided in Section 4.4.12 of the EIS.
3.16	The Air Force Village West development is not proposed, but has been in existence for several years. The additional demands placed on March AFB support facilities by the people residing in this development are already considered in the baseline support requirements for the base. The additional support facility requirements for the realignment of units from Norton AFB to March AFB were considered in the development of space requirements for base operating support facilities for the proposed relocation of SSD.
3.17	The potential environmental impacts associated relocation of the Defense Reutilization and Marketing Office (DRMO) to March AFB as part of the realignment of units from Norton AFB is considered in a separate EIS prepared for that proposed action. The increased handling and storage of hazardous wastes at March AFB as a result of the DRMO relocation would not have an impact on the proposed SSD relocation. The proposed location for the DRMO is in proximity to both Sites 1 and 2 at March AFB, and would therefore facilitate the handling and storage of hazardous wastes resulting from the SSD operations and reduce the potential for accidents involving hazardous wastes.
3.18	A review of the real estate market in the vicinity of Peterson AFB/Falcon AFB determined that adequate off-base housing was available, and therefore no additional military family housing is required.
3.19	While operational cost, such as the cost of environmental compliance, is one of many factors which will be considered by the Air Force in a decision on the relocation of Space Systems Division, it is beyond the scope of this EIS. Comments in these areas have been forwarded to the appropriate Air Force office.
3.20	This EIS was prepared to address the environmental impacts of the proposed closure of Los Angeles AFB and relocation of Space Systems Division. If the base is closed, appropriate environmental analysis and documentation will be prepared to address the reuse and disposal of the property.
3.21	The Air Force will submit appropriate documents, if any, required by the Coastal Zone Management Act.

<u> </u>	
ISSUE NO.	RESPONSE
3.22	Comments related to the formulation of new proposed or alternative actions to be analyzed are beyond the scope of this EIS. Comments in these areas have been forwarded to the appropriate decision makers.
3.23	Falcon AFB has not been eliminated from consideration as a proposed site for the relocation of SSD. Potential environmental impacts of the proposed relocation are described in Section 4.5 of the EIS.
3.24	Due to the generous size of the site and other available options, the Air Force has decided to prevent any impacts to the prehistoric campsites at Peterson AFB Site 3 by avoiding them in the placement and construction of facilities. This change removes the possibility of any significant impact to the prehistoric campsites at site 3 as identified in the DEIS. While the Air Force appreciates the cooperation received to date from all of the host communities at the bases being considered for the potential relocation of Space Systems Division, it has not yet entered into any agreements concerning sites or other project parameters with any of these communities. The sites shown in the EIS represent those areas which have been analyzed for environmental impacts which would result from the relocation. The portion or portions of any chosen site which would be used would be determined during the planning and design phases.
3.25	The Air Force has considered the technical and support facilities that are proposed for construction as part of the realignment of units from March AFB in the development of technical and support facility space requirements for the proposed action and alternatives.
3.26	While the costs or savings of relocation is one of many areas which will be considered in the decision on the closure of Los Angeles AFB and relocation of Space Systems Division, it is beyond the scope of issues considered in the EIS. Comments in these areas have been forwarded to the appropriate Air Force office.
3.27	Housing Area 1 has been removed from consideration as a proposed site for construction of military family housing at Vandenberg AFB. The potential environmental impacts to Housing Areas 2A to 2F for the proposed action and alternatives are described in Section 4.3 of the EIS.
3.28	There is no proposal to close Peterson AFB and thus no plan for accomplishing its closure.
3.29	For the purpose of analysis in the EIS (Section 2.2.2), it is assumed that with a relocation of SSD to March AFB, approximately 65 percent of the current Ballistic Missile Organization (BMO) personnel would not relocate closer to March AFB, but would remain in their current residences. Because many of the current BMO personnel reside in the San Bernardino-Redlands area, this would potentially contribute to an increase in congestion on roads between the base and San Bernardino and result in additional air pollutant emissions.

ISSUE	•
NO.	RESPONSE

Issue Area 4: Community Setting

- 4.1 Issues regarding the loss of revenue and employment in the Los Angeles AFB area are beyond the scope of the EIS. Potential socioeconomic effects that may result from the closure of the base are evaluated in the Local Economic Consequences Study prepared for Los Angeles AFB as described in Section 1.2.3 of the EIS.
- 4.2 The adequacy and feasibility of potential mitigation measures for impacts of the proposed action and alternatives will be considered by the decision-maker. Potential mitigation measures are listed in Section 4.7 of the EIS.
- 4.3 Comments regarding existing housing stock or efforts underway to provide additional housing at Los Angeles AFB are noted. This information will be forward to the appropriate decision-makers.
- 4.4 Issues related strictly to the potential socioeconomic effects of closing Los Angeles AFB and/or the Ballistic Missile Organization facilities are beyond the scope of this EIS. These issues are addressed in the Local Economic Consequences Studies which evaluate the potential economic effects of closing these facilities.
- 4.5 The issue of potential effects of the proposed action and alternatives on educational services at each of the proposed relocation sites is beyond the scope of this EIS, but is being evaluated in the Supplemental Economic Studies being prepared for each of the four locations. Results of these studies will be provided to appropriate decision-makers prior to a decision on closure or relocation.
- 4.6 The text in Section 4.2.1.1 of the DEIS was incorrect with regard to the percentage of direct and secondary civilian employees who would relocate to the selected installation. The text should have read "60 percent of the direct and 10 percent of the secondary employees and dependents would relocate."
- This EIS evaluates the potential impacts of relocating SSD to Vandenberg AFB and the other proposed locations. The Air Force recognizes that a rapid population increase in a short period of time may strain the local communities' ability to provide necessary services. If Vandenberg AFB, or any of the other locations, is selected as the receiving installation, the Air Force is committed to working closely with the potentially affected support communities in planning for and accommodating such population increases, and ensuring that potential impacts are mitigated to the extent feasible. In addition, while the four-year time frame was used for analysis in the DEIS, it represents the maximum potential impact. The drawdown/relocation of personnel and construction of facilities could occur over a longer period of time.
- 4.8 This EIS includes an analysis of the potential impacts on water, traffic, and biological resources at Vandenberg AFB in Section 4.3. Potential mitigation measures are listed in Section 4.7. The Air Force will commit to specific mitigation measures in the Record of Decision, if one is issued. Issues related to increased demands for public services are beyond the scope of this EIS, but are being evaluated in the Supplemental Economic Studies being prepared for each of the proposed relocation sites.

ISSUE	
NO.	RESPONSE

- 4.9 If the Ballistic Missile Organization is closed, the approximately 2,500 job positions associated with this organization will be transferred to the selected relocation installation. It is recognized that some employees may decide not to relocate to the selected location, but it cannot be assumed that all of these employees will subsequently begin commuting to jobs outside of the Inland Empire. Additional factors, such as the number of military who would transfer and the number of civilians expected to relocate or retire would reduce the commuting population to numbers that when considered in terms of regional air quality would be insignificant. While some employees may choose to commute long distances, it is expected that those employees who choose not to relocate will do so because of similar job opportunities that are available in the local area.
- 4.10 Comments related to the availability and affordability of housing at the proposed relocation sites are beyond the scope of this EIS. Such issues are being evaluated in the Supplemental Economic Studies being prepared for each proposed relocation site.
- 4.11 The difference in the loss of regional income between the EIS and the Local Economic Consequences Studies (LECS) results from a difference in the Region of Influence considered in each analysis. The EIS considered a much more localized area around the Ballistic Missile Organization facilities than did the LECs and used a different economic model to determine potential effects.
- 4.12 Comments regarding the methodology or results of the Local Economic Consequences studies prepared for Los Angeles AFB and the Ballistic Missile Organization are beyond the scope of this EIS. Comments in these areas have been forwarded to the offices preparing those studies.
- 4.13 Issues regarding the potential socioeconomic effects of closing Los Angeles AFB and/or the Ballistic Missile Organization are beyond the scope of the EIS, but have been evaluated in the Local Economic Consequences studies prepared for each location. A second EIS will be prepared for the disposal and reuse of Norton AFB. If the BMO is selected for relocation, its former facilities will be included in the Norton AFB disposal and reuse process. In addition to the EIS, a separate economic study will be prepared to consider the economic impacts of base closure and reuse on the surrounding communities. Cumulative economic impacts of other base closures in the area will also be considered in this study.
- The increases in population and employment projected for the Vandenberg AFB region are based on currently available economic data. Because the North County area has grown since the Space Shuttle program was canceled, adjusting the economic analysis to account for this loss would not provide an accurate assessment of the potential effects on the local communities. However, the EIS analysis does consider facilities on the base and in the communities (e.g., hotels) that have excess capacity that can be partially attributed to the larger population that was previously associated with the base.

ISSUE NO.	RESPONSE
4.15	Of the 9,310 job positions that would be relocated for the proposed action, approximately 7,560 or 80 percent of these jobs would be civilian. In addition, it is expected that at the most, only 80 percent of the existing SSD and Aerospace Corporation employees would relocate and therefore some new employees would be hired locally.
4.16	The EIS does not conclude that the housing vacancies created by the cancellation of the Space Shuttle program would be available for the personnel associated with the proposed SSD relocation. The evaluation of housing availability in each of support communities was based on current housing data and concluded that, while some housing is currently available, additional housing would need to be constructed in each of the communities.
4.17	The purpose of the EIS is to evaluate the potential environmental impacts of the proposed action and alternatives. Potential changes to the local communities, including population and public services, were considered only in the context in which potential environmental impacts may occur. Potential socioeconomic impacts that are not interrelated to impacts on the physical and natural environment are beyond the scope of this EIS. Socioeconomic effects expected in each of the communities under consideration as proposed relocation sites are evaluated in the Supplemental Economic Studies prepared for each location.
4.18	The purpose of the EIS is to evaluate the potential environmental impacts of the proposed action and alternatives. The Air Force recognizes that the inmigration of over 20,000 people may result in certain social effects on the support communities, and is committed to working with each community to lessen any potential changes that may occur.
4.19	Information on labor force qualifications in the Inland Empire is noted and has been forwarded to the appropriate decision-makers as part of the official record.
4.20	Commitment of the Moreno Valley Unified School District to work with the Air Force if March AFB base is selected as the relocation site is noted.
4.21	The purpose of the EIS is to evaluate the potential environmental impacts of the proposed action and alternatives. Potential social impacts were considered only in the context in which potential environmental impacts may occur. Potential socioeconomic impacts that are not interrelated to impacts on the physical and natural environment are considered to be beyond the scope of the EIS. As stated, potential

socioeconomic effects expected in each of the communities under consideration as proposed relocation sites are evaluated in the Supplemental Economic Studies that

Potential cumulative environmental impacts of the proposed relocation of SSD to Vandenberg AFB and the proposed Vandenberg Land Interest Acquisition program are considered in Section 4.3.12 of the EIS. However, socioeconomic issues related to recreational opportunities in the Central Coast region are beyond the scope of this

have been prepared for each location.

4.22

EIS.

ISSUE NO.	RESPONSE
4.23	The sentence referenced is in regard to direct employment increases that would occur at Vandenberg AFB. However, it is recognized that the proposed action and alternatives would result in an increase in indirect employment in the support communities as described in EIS Section 4.3.1.
4.24	The number of indirect jobs reported in the EIS includes only those that would be created in Santa Barbara County. Additional indirect jobs would be created in other areas of Southern California and the throughout the United States.
4.25	Section 3.3.1 of the EIS has been revised.
4.26	EIS Section 3.3.1 has been revised accordingly.
4.27	The determination of the military family housing requirement for Vandenberg AFB considered the availability of existing housing at the base.
4.28	The EIFS model is an economic or export base model that separates the economy into two major sectors. The basic sector is defined as those firms or organizations that sell goods and services to markets outside the area. The remainder of the area's economy consists of firms that provide goods and services within the area. The economic relationship between these two sectors determines the aggregate multiplier for the region. The EIFS model uses its national database to calculate aggregate multipliers for any defined region on the basis of the size and types of industry within the area.
4.29	The text in Section 4.3.1.1 of the DEIS was incorrect regarding the assumptions on where inmigrants to the Vandenberg AFB region would be expected to reside. The text should have stated 80 percent of the inmigrants living offbase would be expected to reside in the Santa Maria-Orcutt area, 10 percent would live in the Lompoc area (including Vandenberg Village and Missions Hills), and 10 percent would live in other incorporated and unincorporated areas of north Santa Barbara County. Based on information provided subsequent to the publication of the DEIS, the assumptions have been changed and now estimate that 70 percent of the inmigrants would live in the Santa Maria-Orcutt area and 20 percent would live in the Lompoc area.
4.30	Differences in indirect land use requirements for each location are based on the number of people expected to inmigrate to each area and the projected availability of existing housing stock and other facilities. Because more people are expected to immigrate to the Vandenberg AFB area than the Kirtland AFB area, the indirect requirement for land would therefore be larger.
4.31	The determination of indirect land requirements was based on a methodology provided in <i>Impact of Growth</i> (Canter et al. 1985). Appendix A has been revised to include this reference.

ISSUE	
NO.	RESPONSE

- 4.32 The conclusion regarding cumulative impacts that was stated in Section 4.1.12 was based on the context that, although some economic consequences may result from the recent changes in the aerospace industry in the Southern California and the various base closures listed, such changes in the economy of the Southern California region would not result in any cumulative biophysical impacts. Issues regarding the cumulative economic consequences that are not interrelated to the biophysical environment are beyond the scope of this EIS.
- 4.33 Comments provided at the public hearings on the socioeconomic characteristics of the proposed relocation communities are noted and have been incorporated into the EIS where appropriate.
- 4.34 Issues regarding the economic diversification of Colorado Springs are beyond the scope of this EIS.
- 4.35 Issues regarding the impacts on community infrastructure that are not interrelated to impacts on the biophysical environment are beyond the scope of this EIS. Comments have been forwarded to the appropriate decision-makers.
- 4.36 The jobs associated with the industries that support SSD and the Aerospace Corporation are considered in the indirect labor totals for each location.
- 4.37 Comments regarding the labor force structure and qualifications in the Vandenberg AFB area are noted and have been forwarded to the appropriate office.
- 4.38 The assumptions regarding the distribution of the inmigrant population to the affected communities has been revised in Section 4.3 of the EIS. It is recognized that if Vandenberg AFB is selected as the relocation, that people who are relocated will choose to live throughout north Santa Barbara County. Impacts of the proposed project on regional air quality are discussed in Section 4.8.1 of the EIS.
- 4.39 Comments on Section 801 and 2667 military family housing programs are noted. These housing programs have been considered where appropriate in the EIS.
- 4.40 The impacts of the indirect land requirements for housing and other infrastructure have been considered in the evaluation of potential environmental impacts at each of the proposed relocation sites.

Issue Area 5: Land Use

The decision to close or not to close Los Angeles AFB and the later decisions to be made regarding disposal and reuse of the base property if the base is closed are not considered connected actions as that term is defined in CEQ regulations. A decision to close the base would not prejudice any of the disposal or reuse decisions to be made by the Air Force. The disposal and reuse EIS will analyze the environmental impacts of reasonable reuse alternatives as indirect effects of disposal of the property, rather than as part of the proposed action. The potential reuses of the property would be indirect effects of the later Air Force decisions on disposal and reuse. As such they are not appropriate topics for discussion in this EIS.

ISSUE NO.	RESPONSE
5.2	Vertical construction of office space is one way to meet facility space requirements and will be considered if a decision is made to not close Los Angeles AFB.
5.3	This EIS was prepared to address the environmental impacts of the proposed closure of Los Angeles AFB and relocation of Space Systems Division. Future land uses in areas outside of Air Force control are under the authority of each communities' land use and zoning regulations and policies. Assessing the indirect impacts of changes in land uses in areas near the base at this time would be premature and speculative. If the base is closed, appropriate environmental analysis and documentation will be prepared to address the reuse and disposal of the affected Air Force property.
5.4	Information regarding proposed land uses adjacent to March AFB Site 1 is noted and has been incorporated into EIS Section 3.4.2.1 as appropriate.
5.5	Section 3.6.2.1 of the EIS has been revised accordingly to reflect additional information on the research reactors near Site 2 at Kirtland AFB. The issue regarding the exclusion area radii is discussed in Section 4.6.2.1 of the EIS.
5.6	Information regarding the proposed land use plan for areas surrounding the March AFB airfield has been incorporated into EIS Section 3.4.2.2.
5.7	Information regarding the goals of the Santa Barbara Comprehensive General Plan has been incorporated in EIS Section 3.3.2.2. where appropriate.
5.8	The preparation of the EIS involved consultation with the County of Santa Barbara Resource Management Department and the Planning Departments for the cities of Santa Maria, Lompoc, and Guadalupe. Available plans and published and unpublished data were analyzed and used in the preparation of the EIS.
5.9	Based on information provided by the various planning departments in the affected areas, the proposed project-related demands could be accommodated within areas currently proposed or planned for residential uses. The rate of growth would occur at a rate that is much faster than has been planned for, and therefore would be inconsistent with the adopted plans and policies for these areas. Local officials in Santa Maria and Lompoc have expressed a desire to work with the Air Force in accommodating such growth if Vandenberg AFB is selected as the relocation site. However, it is recognized that the existing resource constraints in this area could affect the development of new housing and other infrastructure.

ISSUE	
1	
NO.	RESPONSE
	25-25-21-22

- 5.10 Sections 3.3.2 and 4.3.2 of the EIS have been revised to reflect additional information on the allocation of the inmigrant population to each of the affected communities. The assumption used in the EIS analyses regarding the number of people who would reside in the Lompoc area, including nearby unincorporated areas, has been increased to 20 percent of the total inmigrants living offbase. The development that is projected to occur in the City of Lompoc would use approximately 50 percent of the available vacant developable land in the city. Although more development on the remaining land could occur, it is expected that given the socioeconomic characteristics of many of the personnel who would be relocated and the type of housing stock available in Lompoc, more would prefer to live in the Santa Maria-Orcutt area.
- 5.11 The reuse of Los Angeles AFB property will be considered in a separate environmental document as described in the response to Issue 65.1. If the property is transferred through sale or disposal to private parties, use of the site will be up to the discretion of the local governments responsible for land use planning and approvals.
- 5.12 Information on land use studies being conducted for the City of Santa Maria and surrounding unincorporated areas has been incorporated into EIS Section 3.3.2.1.
- 5.13 Section 3.3.2.2 of the EIS has been revised accordingly.
- 5.14 EIS Sections 3.3.2.2 and 4.3.2.2 have been revised accordingly.

Issue Area 6: Transportation

- 6.1 While the convenience of air travel to and from Space Systems Division at Los Angeles AFB or at the proposed relocation bases is one of many factors which will be considered by the Air Force in a decision on the relocation of Space Systems Division, it is beyond the scope of this EIS. Comments in this area have been forwarded to the appropriate Air Force office.
- 6.2 Potential traffic impacts of the proposed action and alternatives at Vandenberg AFB are discussed in Section 4.3.3 of the EIS.
- 6.3 Comments concerning local government services are beyond the scope of the EIS except where growth or changes in these services due to the proposed closure results in impacts on the biophysical environment.
- The projected annual increase in traffic volumes was based on an extrapolation of the projected year 2010 average weekday traffic estimates for the Albuquerque area provided by the Middle Rio Grande Council of Governments.

ISSUE NO.	RESPONSE
6.5	The traffic analyses for Vandenberg AFB includes the State highway facilities mentioned. Because State Route 1 is the primary highway connecting the base with Santa Maria and Lompoc, it is expected that project-related traffic will increase the average daily traffic along several segments of this road. These impacts are described in Section 4.3.3.1 of the EIS. The other roads listed will receive some project-related traffic, but such increases would not be expected to affect the level of service on these roads. Mitigation measures to reduce project-related traffic are described in EIS Section 4.7.
6.6	Section 4.6.3.1 has been revised to provide additional analysis on peak-hour traffic volumes and potential impacts of the proposed project.
6.7	The analysis of traffic impacts for Vandenberg AFB is based on existing and projected traffic volumes and roadway conditions. The use of older traffic volumes would not accurately reflect changes in traffic volumes in the Vandenberg AFB area that have occurred since the Space Shuttle program was terminated.
6.8	EIS Section 3.4.3.1 and Tables 3.4.3.1, 4.4.3-1, and 4.4.3-2 have been revised accordingly.
6.9	Information on transportation projects in western Riverside County is noted and has been incorporated into the EIS where appropriate. However, most of the projects listed would not be directly impacted by the proposed action and alternatives.
6.10	Improvements to local roads in the vicinity of the proposed project sites have been considered in the analysis of potential traffic impacts to the extent that there is a reasonably firm commitment for implementation. Potential road improvement projects for which commitment and funding is speculative at this time have not been considered in the analysis.
6.11	The potential that the relocation of SSD to March AFB may reduce the number of long-distance trips on congested freeways in the region has been considered in the analysis of transportation and air quality impacts. In the same regard, it is expected that many people currently residing in the South Bay region of Los Angeles and throughout eastern Los Angeles County and Orange County may not relocate because of the less congested conditions on the freeways with "reverse commuting." This has also been considered in the analysis of transportation and air quality impacts.
6.12	Information on proposed commuter rail systems is noted. However, given the time frame outlined for implementation of such service, it would be considered a long-term mitigation to transportation impacts of the proposed action and alternatives.
6.13	The availability of financial assistance to stimulate rideshare, vanpool, and commuter bus programs is noted. Such programs have been considered as potential mitigation measures for transportation impacts of the proposed project and alternatives. It should be noted that SSD and the Aerospace Corporation have implemented successful rideshare and vanpool programs and it is expected that these programs would continue if SSD were to be relocated to March AFB or any of the other proposed locations.

ISSUE NO.	RESPONSE
6.14	Section 3.6.3 of the EIS has been revised accordingly. The daily traffic numbers presented in Table 3.6.3-1 were obtained from the Middle Rio Grande Council of Governments during the preparation of the DEIS and are based on the 1988 Traffic Flow Map.
6.15	Table 3.6.3-1 has been revised to reflect the 1989 average weekday traffic counts.
6.16	The level of service (LOS) calculations in Table 3.6.3-1 are all-day LOS calculations. As stated they are a function of the volume-to-capacity ratios. While the type of analysis conducted for the EIS is not as detailed as would be required in an engineering analysis, the level of detail is sufficient to provide an understanding of the road segments which may be potentially impacted by the proposed project. Analysis on the basis of daily traffic volumes on individual roadway segments is a tool to identify those roadways where capacity deficiencies might occur.
6.17	A detailed analysis of peak-hour traffic conditions would not provide a greater understanding of the traffic problems which occur near the base at the peak-hours necessary for understanding the potential environmental impacts of the proposed project. It is known that the major roads which provide access to Kirtland AFB, including the proposed sites, are heavily used at the peak-hours and most operate at an unacceptable level of service. The addition of over 4,000 vehicles will only exacerbate the situation.
6.18	Section 4.7 provides a listing of potential traffic mitigation measures which could be implemented to reduce traffic and air quality impacts.
6.19	Information on planned highway and road improvements in the Peterson AFB area are noted. These improvements have been considered in the analysis of traffic impacts and incorporated into Section 3.5.3.1 as appropriate.
6.20	Information on long-range planning for transportation facilities in Riverside County is noted and has been incorporated into Section 3.4.3.1 of the EIS as appropriate.
6.21	The analysis of traffic impacts of the proposed action and alternatives considered current and projected traffic volumes on the roads surrounding March AFB. Improvements to roads in the vicinity of the base were considered in the analysis of potential traffic impacts to the extent that information was available from local transportation officials and specific planning and funding mechanisms were in place.
6.22	Information on Ontario International Airport is provided in Section 3.4.3.2 of the EIS.
6.23	The annual increase in traffic volumes was estimated based on discussions with local transportation officials and projected growth in the North County area.
6.24	The projected conditions in Table 3.3.3-1 are for the initial steady-state year 1997. These projected baseline conditions would be expected to change each year as additional growth in the region occurs unless the transportation infrastructure is expanded to accommodate increased traffic volumes.

ISSUE	
NO.	RESPONSE

- 6.25 Because the closure of Los Angeles AFB would result in a reduction of vehicular traffic in the vicinity of the base, a detailed analysis of the change in traffic conditions including A.M. and P.M. peak-hour traffic was not conducted. The change in traffic conditions resulting from a reduction in vehicular traffic will not result in a noticeable change during the peak hours given the volume of traffic on the major roads near the base.
- 6.26 Additional information on the Albuquerque International Airport is noted and has been incorporated into Section 3.6.3.2 of the EIS as appropriate.
- 6.27 Section 3.3.3-1 of the EIS has been revised accordingly.
- 6.28 With Alternative 5, an increase in the number of trips between March AFB and the Aerospace Corporation facilities in El Segundo would occur, but it is expected that most of these trips would occur during the non-peak hours or in the direction which is opposite the primary flow of traffic. In addition, the number of trips that would occur in any one day would not be noticeable given the current volumes of traffic on the affected roads in Southern California.
- 6.29 While the closure of the facilities at Los Angeles AFB may require some users to travel to other facilities in the Southern California region, including the U.S. Navy facilities in Long Beach, the additional traffic generated by such travel is not expected to result in significant environmental impacts. Many people who currently use the facilities at Los Angeles have to travel some distance to the base.
- The Air Force is in the process of initiating the Environmental Impact Analysis
 Process to consider these proposals, including the preparation of appropriate
 environmental documentation. However, Air Force commitment at this time has not
 been made to either proposal. A final Air Force decision will not be made until after
 the EIS process is completed. Both the City of Albuquerque and Bernalillo County
 have agreed to the EIS process.

Issue Area 7: Utilities

- 7.1 Information on potential alternative water sources for Falcon AFB is noted and has been forward to the appropriate Air Force office.
- 7.2 As stated in Section 3.4.4.1, the infrastructure required to treat and distribute water would need to be expanded. However, the expansion of such facilities would not have an adverse impact on the specific water resources from which the water used in the March AFB area is obtained.
- 7.3 The impact of decreased demand is small, but beneficial.
- 7.4 Additional information on the water supply and wastewater systems in Albuquerque is noted and Sections 3.6.4.1 and 3.6.4.2 of the EIS have been revised where appropriate.
- 7.5 Additional information on the energy utilities in Albuquerque is noted and Section 3.6.4.4 of the EIS have been revised where appropriate.

سببنع	
ISSUE NO.	RESPONSE
7.6	The Air Force is taking steps to correct the current deficiencies and increase the capacity of the present wastewater system. The action being taken is not related to the proposed relocation of SSD.
7.7	Comment noted.
7.8	Information on the availability of an alternative wastewater treatment facility near Falcon AFB is noted and has been forwarded to the appropriate Air Force office.
7.9	Section 3.5.4.1 of the EIS has been revised accordingly.
7.10	Information on the proposed expansion of the Metropolitan Water District of Southern California (MWD) treatment facility is noted. However, the statement in the DEIS was referring to the needed expansion of Eastern Municipal Water District's connection with MWD rather than the capacity of MWD's treatment facility. Section 4.4.4.1 of the EIS has been revised to clarify this issue.
7.11	Section 4.4.4.1 has been revised accordingly. Information on the sewage treatment plant's capacity used in the DEIS was provided by March AFB, but has subsequently been corrected by the base.
7.12	The EIS does conclude that some public service delivery systems may need to be expanded to accommodate the projected inmigration for the proposed action and alternatives. However, the need to expand most of these facilities will also result from projected growth in these areas, although the proposed project could reduce the time frame under which such improvements would be required. The Air Force recognizes the various permitting requirements which are necessary for such facilities, and is committed to facilitating close coordination and cooperation between all levels of government to ensure that the necessary improvements are accommodated in a timely manner.
7.13	Section 3.5.4.1 of the EIS has been revised accordingly.
7.14	Information on water deliveries to Falcon AFB by Cherokee Water District are noted and have been incorporated into the EIS where appropriate.
7.15	The projected increases in water demand were based on projected population increases for each community. Population projections were based on California Department of Finance projections for the year 2000 that were extrapolated back to the years included in the analysis.
7.16	Existing and projected water demands for Vandenberg AFB in Section 3.3.4.1 were based on the existing base population without the proposed project. Increased utility demands of the proposed project are presented in Section 4.3.4. At this time, no other missions have been identified which would increase the present population of the base.
7.17	Population increases for the cities of Lompoc and Santa Maria were based on population projections of the California Department of Finance.

ISSUE NO.	RESPONSE
7.18	Vandenberg AFB has implemented a base-wide recycling program to reduce the generation of solid waste on the base. This program has been implemented to extend the lifespan of the base landfill and to comply with the provisions of the California Integrated Waste Management Act (Assembly Bill 939).
7.19	Information on system capacity and projected demand was obtained from the individual utility companies potentially affected by the proposed project.
7.20	As stated in Section 3.3.4.4 of the EIS, the Southern California Gas Company expects sales to increase by less than five percent per year.
7.21	Information on groundwater quality in the City of Lompoc's domestic well field is noted and has been incorporated into Section 3.3.4.1 of the EIS as appropriate.
7.22	Table 3.3.4-1 has been revised accordingly.
7.23	Information on the Lompoc Wastewater Treatment Plant is noted. Section 3.4.3.2 of the EIS has been revised as appropriate.
7.24	Section 3.4.3.4 has been revised accordingly.
7.25	EIS Section 4.3.4.1 has been revised.
7.26	Kirtland AFB obtains a majority of its water supply from groundwater sources. At present, the base is only withdrawing 70 percent of their contractual allocation and could increase their withdrawals if there was a requirement to do so. The base purchases water from the City of Albuquerque only to meet peak demands. The City of Albuquerque has sufficient acquired water rights to meet projected demands into the next century.
7.27	Information on the City of Albuquerque's solid waste management efforts are noted and have been incorporated into Section 3.6.4.3 of the EIS as appropriate.

Issue Area 8: Hazardous Materials/Hazardous Waste Management

8.1 The Installation Restoration Program (IRP) is separate from the base closure program environmental process. The Air Force is committed to cleaning up hazardous waste sites resulting from past practices, and the IRP will continue regardless of whether the decision is made to proceed with the proposal to close Los Angeles AFB. Exploratory drilling and sampling will be accomplished as necessary within the IRP.

ISSUE	
NO.	RESPONSE

- As described in Section 4.5.4.3 of the EIS, the proposed action will result in an increase in the generation of solid waste in the Colorado Springs. The City's current collection and disposal system would be capable of meeting the increased generation. In addition, the relocation of SSD and the Aerospace Corporation will result in the increased generation of hazardous wastes at the selected receiving location. Hazardous waste generated by the daily operations of SSD and the Aerospace Corporation will be disposed of in accordance with applicable federal and state regulations. Much of the hazardous waste generated by the Aerospace Corporation at its facilities in California is transported to licensed treatment and disposal facilities in other states. It is expected that because of the types of hazardous wastes generated that this practice would be continued if there are not licensed facilities in the vicinity of the selected relocation installation.
- 8.3 Information on the Defense Reutlilization and Marketing Office facility at Kirtland AFB is noted. However, the issue is an operational consideration and not within the scope of this EIS. The comment has been forwarded to the appropriate Air Force office.
- 8.4 Concurrence with the Air Force's commitment to hazardous waste cleanups and investigations is noted. As stated, the Installation Restoration Program is separate from the base closure program environmental process.
- 8.5 Issues regarding previous handling of hazardous wastes at Department of Defense installations not considered as part of the proposed project are beyond the scope of this EIS.
- 8.6 Hazardous wastes are generated at Los Angeles and the Aerospace Corporation during the course of daily operations including the research and development activities that are a major component of the SSD mission. These hazardous waste are handled, stored, and disposed of in accordance with California and federal regulations. The Installation Restoration Program is an ongoing program at Los Angeles AFB to clean up spills and leaks that occurred in the past prior to the implementation of the more stringent and comprehensive hazardous materials/waste regulations that are in-place today.

Issue Area 9: Geology and Soils

- 9.1 The development of lands in the support communities near the base is guided and controlled by the local land use and zoning regulations and policies that have been adopted by each jurisdiction. Decisions on specific areas such as prime agricultural lands will be made by the local jurisdictions and are beyond the control of the Air Force.
- 9.2 The Big Pine Fault is located within the region, but the proximity of the discussed fault systems to the proposed project site is more critical to the discussion of potential geologic hazards.

ISSUE NO.	RESPONSE

Issue Area 10: Water Resources

- 10.1 The discussion of groundwater resources and potential impacts at Vandenberg AFB in Sections 3.3.7.1 and 4.3.7.1 of the EIS has been revised to reflect additional and more recent information on the overdrafting situation.
- 10.2 Completion of the Coastal Branch of the State Water Project is beyond the control of the Air Force. If constructed, it will represent a regional effort to alleviate a water crisis that has been ongoing in the region for many years.
- 10.3 The evaluation of water resources described in Section 3.3.7.1 of the EIS concludes that all groundwater basins in the Vandenberg AFB region have been in the past and are now in an overdrafted condition.
- 10.4 A discussion of the groundwater resources and the potential impacts of the proposed project at Falcon AFB is presented in Sections 3.5.7.1 and 4.5.7.1 of the EIS. Potential mitigation measures for impacts to groundwater resources are listed in Section 4.7.
- 10.5 Comment noted. This issue of entitlements to water from the California State Water Project is under the jurisdiction of the California Water Resources Board and is beyond the scope of this EIS.
- 10.6 Comment noted. Section 4.7 of the EIS describes mitigation measures that could be implemented to reduce the potentially significant impacts on water resources at Vandenberg AFB.
- 10.7 Comment noted. The Air Force will explore alternative water sources if Falcon AFB is selected as a relocation site.
- 10.8 The issue of costs for the acquisition of alternate sources of water for Vandenberg AFB is beyond the scope of this EIS.
- 10.9 A revised discussion of potential mitigation measures to reduce the potential significant impacts on water resources at Vandenberg AFB is provided in Section 4.7 of the EIS.
- 10.10 Concurrence with the conclusions regarding the water situation at Falcon AFB are noted. Falcon AFB is investigating other sources from which to obtain water for the base. This effort is unrelated to proposed relocation of SSD.
- 10.11 Potential measures to mitigate potential impacts to water resources are described in Section 4.7 of the EIS.
- The closure of Los Angeles AFB wold not have an impact on groundwater resources. Groundwater directly beneath the base is not used for potable water. The potential contamination of groundwater resulting from hazardous waste sites at the base is being investigated as part of the Installation Restoration Program (IRP) described in Section 3.1.5.3. IRP activities at Los Angeles AFB will continue regardless of whether the decision is made to proceed with the proposal to close Los Angeles AFB.

ISSUE NO.	RESPONSE
10.13	As stated in Section 3.2.7.1, a discussion of the extent of the potential groundwater contamination beneath Norton AFB is provided in the Final EIS for the Closure (Withdrawal of Units) at Norton AFB (October 1990). The proposed closure of the Ballistic Missile Organization facilities at Norton AFB will not have an impact on groundwater resources beneath the base. IRP activities at Norton AFB will continue after the closure of the base and regardless of whether the decision is made to proceed with the proposal to close the BMO facilities as considered in this EIS.
10.14	The relocation of SSD to Kirtland AFB as described in the proposed action and alternatives will result in an increase in the volume of hazardous materials used and stored at the base. The increased potential for spills is hypothesized from this increased inventory and handling of hazardous materials. Hazardous materials and wastes will be used, stored, and disposed of in compliance with applicable federal and state regulations. Spills or releases that occurred at Los Angeles AFB and Norton AFB that are being investigated under the Installation Restoration Program were for the most part a result of practices that were accepted at the time, but are not used now. These past experiences are therefore not relevant to the analysis of the current situation.
10.15	Mitigation measures to prevent or reduce contamination of surface water near Kirtland AFB are noted. Section 4.7 of the EIS describes mitigations to reduce or prevent potential impacts to soil and water resources.
10.16	The Air Force is committed to compliance with all federal and state regulations regarding water quality.
10.17	Section 4.5.7.1 has been revised accordingly to reflect this corrected information.
10.18	Table 3.5.7-1 has been revised accordingly.
10.19	Information on the Black Squirrel Creek Basin is noted and has been incorporated into the EIS where appropriate.
10.20	The Santa Ynez River recharges groundwater basins contained within the Santa Ynez aquifer from Solvang to Bradbury dam.
10.21	Comment noted.
10.22	Section 3.3.7.2 of the EIS has been revised accordingly.
10.23	EIS Section 4.3.7.1 has been revised.
10.24	The proposed mitigation measure is noted and will be considered if a decision is made to relocate SSD to Vandenberg AFB.
10.25	Table 3.3.7-1 has been revised.
10.26	Information on the water resources situation and potential impacts at Vandenberg AFB is noted and has been incorporated into the EIS where appropriate.
10.27	Potential mitigation measures for water quality impacts at Vandenberg AFB are listed in Section 4.7 of the EIS.

ISSUE	
NO.	RESPONSE
10.28	While Vandenberg AFB does have an entitlement for State Water that would be available if the Coastal Aqueduct is built, that water is not considered to be a mitigation for the impact to water resources that would result from the proposed action or alternatives.
10.29	Water that is currently used at Los Angeles AFB and the Aerospace Corporation is purchased from local water purveyors. The Air Force and Aerospace Corporation do not have any entitlements to that water.
10.30	Comment that the Coastal Aqueduct project will not require voter approval from the residents of the City of Santa Maria is noted.
Issue Area	a 11: Air Quality
11.1	Section 4.4.8 of the EIS has been revised to reflect additional analysis of the potential air quality impacts associated with the proposed action and alternatives at March AFB.
11.2	This has been considered in the analysis of mobile source emissions to the extent that it can be determined at this time.
11.3	The analysis of air quality impacts at Vandenberg AFB considered the most recent air quality data for the region. This data reflects changes that have taken place in terms of population growth in the region over the last five years. Use of older data would not accurately reflect such changes.
11.4	Section 4.4.8 of the EIS has been revised to include additional analysis of mobile source emissions for the proposed project. While the proposed project may result in a net improvement in the overall air quality in the South Coast Air Basin, emissions of primary pollutants will increase in the March AFB/Riverside area resulting in further deterioration of air quality for residents in the Riverside County portion of the basin. In addition, increases in emissions of primary pollutants in the eastern portion of the basin will increase the amount of primary and secondary air pollutants transferred to the Southeast Desert Air Basin which is classified as a nonattainment area for ozone.
11.5	Section 3.4.8.3 of the EIS has been revised to reflect the status of March AFB air permits.
11.6	These emissions have been included the analysis of mobile source emissions for March AFB that is discussed in Section 4.4.8.2 of the EIS.

ISSUE	
NO.	RESPONSE

- The reduction in emissions from Los Angeles AFB and the Aerospace Corporation would not result in a significant adverse environmental impact. The reduction in emissions represents far less than one percent of the total emissions in the South Coast Air Basin. Therefore, the closure of Los Angeles AFB would nonetheless reduce total emissions in the region by a negligible amount. Impacts are considered significant at all of the receiving locations because of the relocation of over 25,000 people into each of these areas will make attainment of the National Ambient Air Quality Standards more difficult and potentially delay achievement of attainment status unless other measures are taken to reduce baseline emissions.
- 11.8 The "Regulatory Setting" discussion in Chapter 3 for each location considered in the EIS lists the pollutants for which each location is nonattainment. Section 3.1.8.1 for Los Angeles AFB lists the pollutants for which the South Coast Air Basin is nonattainment for.
- 11.9 Section 3.6.8 of the EIS have been revised to reflect this updated information where appropriate.
- 11.10 Section 4.6.8.1 has been revised to provide more information on the assumptions used in the modeling of maximum concentrations of carbon monoxide emissions that could result from the proposed project.
- 11.11 The conclusions in Section 4.3.8.1 regarding short-term construction-related air quality impacts at Vandenberg AFB have been revised. Mitigations for these short-term impacts are described in Section 4.7 of the EIS.
- 11.12 Section 4.3.8.1 has been revised to provide further discussion of the potential air quality impacts from direct and indirect project-related sources. Potential air quality mitigations to reduce mobile source emissions from the proposed action and alternatives have been revised and are discussed in Section 4.7 of the EIS.
- The conclusion that air quality impacts for relocation of SSD to Peterson AFB would be significant was not based on the analysis of the potential to exceed the 1-hour carbon monoxide (CO) National Ambient Air Quality Standard. Because El Paso County is classified as a nonattainment area for CO based on the 8-hour standard, and is very close to achieving attainment status, the inmigration of over 25,000 people to the Colorado Springs area could delay the attainment of the CO standard. If attainment status is achieved before the proposed relocation occurs, the relocation of SSD could make it more difficult to maintain attainment status without adopting more stringent emission control strategies than have been adopted as part of the State Implementation Plan.

ISSUE NO.	RESPONSE
11.14	It is recognized, as discussed in Section 3.5.8.1 of the EIS, that violations of the 8-hour CO standard in El Paso County occur in the Interstate 25 corridor near downtown Colorado Springs. It is agreed that the projected increase in traffic near the Marksheffel Road Colorado 94 intersection would not result in an exceedance of the 8-hour standard, but the increased traffic, given worst-case meteorological conditions, could result in an exceedance of the 1-hour standard. The addition of over 25,000 additional people to the population of Colorado Springs will also result in an increase in the total amount of miles driven in the region, some of which will occur in the areas where violations of the standards have been recorded.
11.15	Responses to comments provided by the South Coast Air Quality Management District (Document 245) are provided in Issue Codes 11.34 to 11.41.
11.16	Section 4.3.8 of the EIS has been revised to reflect additional analysis of air quality impacts at Vandenberg AFB.
11.17	Mitigation measures suggested by the Santa Barbara and San Luis Obispo Air Pollution Control Districts to reduce construction and mobile source emissions have been incorporated in Section 4.7 where appropriate.
11.18	The significance of air quality impacts is determined based on the potential for the project to result in exceedances of federal and state ambient air quality standards. In areas where nonattainment status for specific pollutants exist, any emission increases which could delay attainment of the standards are considered significant. In the case of Santa Barbara County, the emission thresholds that have been established were considered in the analysis of significance.
11.19	The discussion of air quality impacts for the alternative actions in Section 4.3.8.2 of the EIS has been revised to provide a more detailed analysis of the potential impacts.
11.20	Comment noted. The development of an attainment plan for the North County area as required by the California Clean Act will require consideration of the proposed relocation of SSD if Vandenberg AFB is selected as the relocation installation. The Air Force recognizes that the magnitude and timeframe of the proposed project may affect the planning processes of the local jurisdictions. The Record of Decision for the proposed project is expected to be filed in early 1991 which will provide time for the District to consider the project in its attainment planning efforts.
11,21	Section 3.3.8.1 has been revised to reflect the nonattainment status of the North County area for the California PM ₁₀ standard. The conclusions in Section 4.3.8.1 regarding short-term construction-related air quality impacts at Vandenberg AFB have been revised. Mitigations for these short-term impacts are described in Section 4.7 of the EIS.
11.22	Section 3.3.8.1 of the EIS has been revised accordingly.

ISSUE NO.	RESPONSE
11.23	It is recognized that there are additional monitoring stations in the North County area, including a network of Prevention of Significant Deterioration (PSD) stations. The intent of Table 3.3.8-1 is to provide a representation of the ambient air quality near the proposed sites at Vandenberg AFB and the cities of Santa Maria and Lompoc, not an exhaustive summary of all ambient air quality data for the region.
11.24	The information presented in Table 3.3.8-2 was provided by the Santa Barbara Air Pollution Control District to the Air Force contractor in correspondence during the preparation of the DEIS and is referenced in Section 7.4 of the EIS. The data in Table 3.3.8-3 was also provided in that same correspondence. A reference for this information has been added to the table and Section 7.4.
11.25	The information in Table 3.3.8-4 was obtained from the Vandenberg AFB Emissions Inventory prepared by the Bioenvironmental Engineering office at the base. A reference has been added to the Table 3.3.8-4 and is included in Section 7.4 of the EIS.
11.26	The emission factors used for each piece of equipment have been added to the Table 4.3.8-1. The total hydrocarbon emission factor from AP-42 was used in the calculation of construction-related emissions.
11.27	The discussion of construction impacts in Section 4.3.8.1 of the EIS has been revised as appropriate. Proposed mitigation measures to reduce construction-related emissions are discussed in Section 4.7 of the EIS.
11.28	The discussion of construction-related impacts of the proposed project at Vandenberg AFB in Section 4.3.8.1 has been revised.
11.29	Section 4.3.8 has been revised based on additional analysis of potential air quality impacts that may result from the proposed project.
11.30	The baseline carbon monoxide concentration used in the modeling of the intersection was assumed to include the existing intersection traffic. A higher baseline value than what would normally be expected to occur at an intersection of this type was used.
11.31	Section 4.3.8 has been revised. It is recognized that additional vehicle emissions could delay attainment of the state ambient air quality standard for ozone.
11.32	Because the actual design of facilities has not been completed, a detailed estimate of stationary source emissions cannot be determined at this time. However, the facilities which would be constructed at the receiving installations if a decision to close Los Angeles AFB is made would be similar to those that are currently in El Segundo. Therefore, current stationary source emissions for the base and Aerospace Corporation were used in the analysis of air quality impacts. It is anticipated that the construction of new facilities at any of the receiving installations would result in lower stationary source emissions because of consolidation of facilities (e.g., reduction the number of boilers required) and the use of current and less polluting technologies.

ISSUE NO.	RESPONSE
11.33	The ambient air quality monitoring data presented in Table 3.3.8-1 for Santa Barbara County was included to demonstrate the severity of the air pollution in the county as a whole. The ambient air quality measurements listed under the Santa Barbara County are from monitoring stations in Goleta and Santa Barbara. However, while the number of exceedances in Santa Maria and Lompoc is less than for the South County area, measurements taken at stations in the North County area have exceeded the federal and/or state standards for ozone and PM ₁₀ , and are therefore classified as nonattainment areas under the federal Clean Air Act or the California Clean Air Act.
11.34	A more detailed air quality analysis of potential impacts is provided in Sections 4.1.8, 4.2.8, and 4.4.8 of the EIS.
11.35	A revised analysis of short-term air quality impacts is provided in Section 4.4.8. Mitigation measures suggested by the South Coast Air Quality Management District have been incorporated into Section 4.7 of the EIS as appropriate.
11.36	The conclusions in Section 4.4.8.1 regarding short-term construction-related air quality impacts at March AFB have been revised. Mitigations for these short-term impacts are described in Section 4.7 of the EIS.
11.37	As described in Sections 3.4.8.3 and 4.4.8.1, it is recognized that all new or modified stationary sources will be required to comply with the District's New Source Review Regulation.
11.38	The conclusion that air quality impacts for relocation of SSD to March AFB would be significant was not based strictly on the analysis of the potential to exceed the 1-hour carbon monoxide (CO) National Ambient Air Quality Standard. The conclusions regarding the significance of the air quality impacts at March AFB have been revised in Section 4.4.8.1.
11.39	Mitigation measures to reduce air quality impacts from transportation sources have been incorporated into Section 4.7 or the EIS. It should be pointed out that both Los Angeles AFB and Aerospace Corporation both have implemented successful rideshare and vanpool programs.
11.40	Section 4.4.8.1 of the EIS has been revised to include an analysis of the proposed project's potential to improve the jobs/housing balance in the March AFB subregion.
11.41	Comments noted. Mitigation measures for which will be implemented by the Air Force will be documented in the Record of Decision.
11.42	Comments on mitigation measures to minimize traffic congestion are noted. Mitigation measures for which the Air Force will implement to will be documented in the Record of Decision.
11.43	The Air Force will ensure that the proposed project conforms with the applicable federal and/or state implementation plans.

ISSUE	
NO.	RESPONSE

- It is recognized that there are industrial developments in San Bernardino County that result in emissions of oxides of nitrogen (NO_x). However, the statement in Section 3.2.8.3 regarding NO_x emission sources was made in comparison with Los Angeles and Orange counties. These counties have far more major sources of NO_x emissions, such as power generation facilities and refineries, than San Bernardino County.
- The statement in Section 4.2.8.1 of the EIS was not intended to imply that there would be a major improvement in air quality if the Ballistic Missile Organization personnel were relocated. As is stated in the previous sentence in the text, the emission reductions would not result in a noticeable change in air quality. While some personnel who decide not to relocate may take jobs that require further commuting distances, most of the 2,500 personnel are expected to relocate. The mobile source emissions associated with these individuals would therefore be eliminated from the air basin entirely and more than offset any increases that result from individuals who do not relocate. However, Section 4.2.8.1 has been revised to reflect the fact that with a relocation to March AFB, the additional commuting distance for personnel who do not relocate from the San Bernardino area, would result in an increase in mobile source emissions in the San Bernardino-Riverside area.
- 11.46 Sections 3.3.8.1 and 4.3.8.1 have been revised to include a discussion of potential air quality impacts in San Luis Obispo County.

Issue Area 12: Noise

Potential noise impacts at Peterson AFB that may result from the proposed action and alternatives are described in Section 4.5.9 of the EIS. While the proposed action and alternatives will result in some increased noise from traffic in the vicinity of the base, the increase in noise levels will not be significant. The relocation of SSD will result in additional passenger traffic at the Colorado Springs Municipal Airport, but the increase in passenger traffic is within that projected for the airport. Noise impacts from increased flying activity at the airport were considered in the environmental documents prepared for the expansion of the airport.

Issue Area 13: Biological Resources

13.1 Impacts to groundwater resources and threatened and endangered species are addressed in sections 4.3.7.1 and 4.3.10.1 of the EIS. Formal consultation with the U.S. Fish and Wildlife Service regarding impacts to threatened and endangered species is ongoing.

ISSUE NO.	RESPONSE
13.2	The Habitat Conservation Plan (HCP) for Riverside County is part of a permit to take which was approved by the U. S. Fish and Wildlife Service (USFWS) for Riverside County and the applicant cities. Trapping/relocation studies are also being conducted to augment the HCP. The permit to take was granted under Section 10(a) of the Endangered Species Act of 1973 (ESA). As a federal agency, the U. S. Air Force is required to consult with the USFWS according to the guidelines in Section 7 of the ESA. This consultation is ongoing. While land for mitigating the impacts of the project on Stephens' kangaroo rat may be located within or adjacent to preserves established by the County's HCP, the details of a mitigation plan for the relocation of SSD to March AFB are still being negotiated.
13.3	The presence of Stephens' kangaroo rat on the proposed sites is correctly stated in the EIS. The species occurs, in at least trace abundance, at Site 1, Site 2, and the proposed housing area.
13.4	Housing Area 1, which is a 155-acre site comprised of Burton Mesa chaparral and a number of riparian areas, has been dropped from consideration for this project.
13.5	Comment noted.
13.6	Wetlands in the area have been delineated and the site boundaries have been changed to avoid them.
13.7	Air Force projections indicate that the overwhelming majority of offsite housing and construction supporting the relocation of SSD will occur within the urban areas of Colorado Springs. Therefore, significant impacts to the pronghorn and other sensitive species are not expected. Specific impacts of residential, commercial, industrial, and public development ancillary to the relocation of SSD will be evaluated through local planning and approval processes.
13.8	Threatened, endangered, and candidate species which may be affected by the project and the potential impacts of the project on these species are described in sections 3.3.10.3 and 4.3.10.1 of the EIS.
13.9	Most of the sites proposed for the relocation of SSD to Vandenberg AFB are highly disturbed areas containing mostly non-native plant species. While these areas do provide habitat for a number wildlife species common to the region, sufficient alternative habitat exists in the vicinity to prevent the project from having a significant impact on the region's wildlife as a whole. The most sensitive areas within the project sites as identified in the DEIS are the rare Burton Mesa chaparral plant community and wetlands which both occur on proposed housing area 1. This site has been dropped from further consideration for the siting of facilities or housing to support the proposed relocation of SSD.
13.10	Current data indicate that the only base flow in the Santa Ynez River downstream from Lake Cachuma results from area runoff and releases from Bradbury Dam (Stetson Engineers 1990; Ahlroth pers. comm. 1990). Therefore, the proposed project is not expected to have an effect on the river or sensitive species associated with it.
13.11	Section 3.3.10.3 of the EIS has been revised accordingly.

TOOTER		
ISSUE NO.	RESPONSE	
·		
13.12	Section 3.3.10.3 of the EIS has been revised accordingly. Potential impacts of the proposed project on the unarmored threespine stickleback are discussed in Section 4.3.10.1 of the EIS.	
13.13	Operational requirements may result in slight impacts to some sensitive areas. Consultation with appropriate agencies is ongoing to ensure that impacts to sensitive areas are avoided to the maximum extent possible.	
13.14	Section 4.7.2 of the EIS has been revised to include possible soil stabilization measures that could be implemented to reduce soil erosion. The specific measures that would be used will depend on the actual location and site conditions.	
13.15	Section 4.7.2 of the EIS has been revised to include potential measures that could be used to control noxious weeds.	
13.16	Housing Area 1, which is comprised of approximately 155 acres of relatively undisturbed Burton Mesa chaparral, has been dropped from consideration for siting of facilities or housing to support the proposed relocation of SSD. While the Burton Mesa chaparral at Housing Area 2D is highly degraded relative to that at housing area 1, efforts will be made to avoid or mitigate impacts to this rare plant community to the maximum extent possible.	
13.17	Housing area 1, which does contain wetland areas, has been dropped from consideration for siting of facilities or housing to support the proposed relocation of SSD. The Air Force is committed to avoiding impacts to wetlands in the proposed relocation of SSD.	
13.18	The Air Force is committed to avoiding impacts to threatened and endangered species or mitigating any unavoidable impacts. Formal consultation with the U. S. Fish and Wildlife Service regarding the impacts of this project on threatened and endangered species is ongoing. All requirements of the Endangered Species Act will be met.	

Issue Area 14: Cultural and Paleontological Resources

- 14.1 Sections 3.6.11, 4.6.11, and 7.7 of the EIS have been revised accordingly.
- 14.2 Because of the extremely low probability of encountering buried cultural resources in Pleistocene alluvium, cultural resources monitoring of construction activities was not recommended in the survey report (An Archaeological Survey of Proposed Kirtland Air Force Base Program Areas, Bernalillo County, New Mexico) submitted to the New Mexico State Historic Preservation Officer (SHPO). However, if during construction buried cultural resources are encountered, construction activities will be stopped and the SHPO notified. All cultural resources will be protected in place until they can be evaluated and treated in accordance with the provisions of 36 CFR Part 800.11.

NO.	RESPONSE

Issue Area 15: General Comments

- 15.1 The assumption that 80 percent of the personnel currently at Los Angeles AFB and the Aerospace Corporation would move was used for the purpose of analysis in evaluating the potential impacts of the proposed action and alternatives. It was assumed that at a maximum, only 80 percent of the personnel would relocate. The Air Force recognizes that the actual number of personnel that may choose to relocate may be less than 80 percent, and therefore the potential beneficial and adverse environmental impacts would be smaller in magnitude.
- 15.2 Comments in support of not closing Los Angeles AFB are noted. Information provided on potential socioeconomic effects, affordable housing availability, quality of life, and proximity of aerospace contractors has been included in the EIS where appropriate and forwarded to the appropriate decision-makers as part of the official record.
- Comment noted. It is expected that if Vandenberg AFB is selected as the relocation site that the inmigrant population will relocate throughout the North County area. Based on information received during the public comment period and discussions with local officials and agency personnel, it has been assumed for the purpose of analysis that approximately 20 percent of the inmigrant population living offbase will reside in the Lompoc area including Vandenberg Village and Missions Hills, 70 percent in the Santa Maria-Orcutt area, and 10 percent in other unincorporated and incorporated areas of north Santa Barbara and south San Luis Obispo counties.
- 15.4 Comment noted.
- 15.5 Comments in support of not relocating the Ballistic Missile Organization are noted. Information provided on potential socioeconomic effects, quality of life, and affordable housing availability have been incorporated into the EIS to the extent to which they are within the scope of the document and have been forwarded to the appropriate decision-makers as part of the official record.
- 15.6 The background history discussion provided in Section 3.2 was intended to provide a brief overview of the Ballistic Missile Organization in the context of evaluating the present operations in San Bernardino and the potential environmental impacts of the proposed closure and relocation. The discussion was not intended to provide a detailed history of the organization and its mission.
- 15.7 Comments not in support of the proposed action and/or alternatives for the relocation of SSD to one of the four locations are noted. Information on potential environmental impacts and other concerns have been incorporated into the EIS where appropriate and forwarded to the decision-makers as part of the official record.
- 15.8 Comments in support of closing Los Angeles AFB and relocating SSD are noted.

 Information on potential beneficial environmental and socioeconomic effects have been incorporated into the EIS where appropriate and forwarded to the decision-makers as part of the official record.
- 15.9 Comment noted. The EIS has been revised accordingly.

ISSUE	
NO.	RESPONSE
15.10	Comments in support of the proposed action and/or alternative actions for the relocation of SSD to one of the four locations are noted. Information provided on socioeconomic, quality of life, and natural/physical attributes of the communities in each region has been incorporated into the EIS where appropriate and forwarded to the decision-makers as part of the official record.
15.11	Publications submitted at the public hearings or as attachments to written comments have been included as part of the record. Information contained in these publications has been incorporated into the EIS where appropriate.
15.12	Figure 2.6.1-1 provides a summary of the potential impacts that may result from the proposed action and alternatives. Some assumed mitigation measure that are within the control of the Air Force were considered in the analysis of impacts (e.g., standard construction practices). In addition, other mitigation measures to reduce potential impacts and protect or restore environmental resources disturbed by project activities are described in EIS Section 4.7. Decisions on which mitigation measures will be implemented by the Air Force will be made after the EIS is filed and will be documented in the Record of Decision.
15.13	The purpose of the EIS is not to compare the relative merits of the proposed relocation sites, but to evaluate the potential environmental impacts that may result from implementation of the proposed action or alternatives. The specific factors mentioned have all been considered to the exact to which they are relevant to the evaluation of the potential environmental impacts.
15.14	The indirect environmental impacts that may result from implementation of the proposed action or alternatives have been considered to the extent that they can be reasonably identified and evaluated. The potential indirect impacts that may occur are discussed in Chapter 4 of the EIS for each respective location.
15.15	It is the Air Force's intention to use consistent and objective wording in describing the potential environmental impacts of the proposed action and alternatives. The specific examples noted have been reviewed and changes to the wording have been made where appropriate. However, the purpose of the EIS is to evaluate the potential environmental impacts and not compare the relative merits of the specific communities.
15.16	Comment regarding information available from the Albuquerque Public Schools is noted. The Air Force has contacted Albuquerque Public Schools during the preparation of the Supplemental Economic Study for Kirtland AFB.
15.17	Appendix C of the EIS has been revised accordingly.
15.18	Information on the Rio Grande Research Corridor is noted for the record. However, the requested evaluation of the university/research support facilities is beyond the scope of the EIS.

ISSUE NO.	RESPONSE				
15.19	The Air Force has made every attempt to use consistent and objective wording in describing the potential environmental impacts of the proposed action and alternatives. With regard to the specific example cited, this information was provided in Section 1.2.1, Summary of Scoping Issues, and reflects actual verbal comments provided to the Air Force as part of the scoping process.				
15.20	Comment in support of keeping SSD in California is noted. Information provided on potential socioeconomic effects, quality of life, and proximity of aerospace contractors has been included in the EIS where appropriate and forwarded to the appropriate decision-makers as part of the official record.				
15.21	Comments provided at public hearings on socioeconomic, quality of life, and natural/physical attributes of the communities in each region are noted and have been incorporated into the EIS where appropriate and forwarded to the decision-makers as part of the official record.				

This Page Intentionally Left Blank

F.4 ISSUE TOPICS

The following provides a listing of all issues identified in the public comments.

ISSUE

1.12

impacts

NO.	ISSUE TOPIC			
	Issue Area 1: Air Force Policy			
1.1	The costs of moving Los Angeles AFB would far outweigh the savings/benefits			
1.2	Introducing new significant impacts into the proposed relocation communities is unnecessary			
1.3	Consider the loss of expertise, corporate knowledge, and heritage of the base			
1.4	Consider the recommendations of the 1988 Commission of Base Realignments and Closure to keep BMO at Norton AFB			
1.5	Disposition of tenant units at Los Angeles AFB			
1.6	Consider costs of moving in relation to operational efficiency			
1.7	Consider effects of massive relocation on local housing costs and availability			
1.8	Enlargement of Vandenberg AFB would place a large-scale burden on local taxpayers			
1.9	Consider Lawndale Annex as a California Army National Guard armory site			
1.10	Consider delineating the caretaker maintenance functions that would be continued pending final disposition of Los Angeles AFB			
1.11	Consider including an estimated schedule for closure, hazardous waste cleanup, and property transfer in the FEIS			

Selling the property at Los Angeles AFB to the private sector would mitigate some economic

- 1.13 Excessing the property at Los Angeles AFB will not generate any revenue for the Air Force
- 1.14 Department of Defense is not funding the necessary improvements for relocation
- 1.15 Without special legislation the No Action alternative is automatic
- 1.16 Availability of Local Economic Consequences Studies and other related studies
- 1.17 Relocation costs of contractors will be billed back to the government

Issue Area 2: Environmental Impact Analysis Process

- 2.1 The DEIS process and information fragmentation tends to downplay the cumulative impacts that will occur
- 2.2 Consider scoping meeting input from Santa Barbara County
- 2.3 A coastal zone consistency determination would be required by the California Coastal Commission for relocation of units to Vandenberg AFB
- 2.4 Mitigation for coastal zone impacts is not adequately addressed the DEIS
- 2.5 Send EISs prepared for relocation of Los Angeles AFB to SCAG for review and comment
- 2.6 City of Riverside requests review of further environmental analysis if March AFB is selected as receiving unit for the Space Systems Division
- 2.7 Consider listing and describing existing and pending permits and their post-closure status in the FEIS
- 2.8 Coastal Aqueduct EIS incorporation by reference
- 2.9 Cumulative impact of one type of opportunity in Colorado Springs

ISSUE			
NO.	ISSUE TOPI		

Issue Area 3: Project Description/Siting

- 3.1 Revisions to Section 2.4.3.1 regarding private lands in Banning-Lewis Ranch
- 3.2 Revisions to Section 2.4.3.2 regarding description of highest site elevation
- 3.3 Construction of Military Family Housing at Peterson AFB and noise impacts
- 3.4 FAA considerations of compatible land uses in noise zones
- 3.5 Structures at proposed sites should be designed to prevent obstructions and visual and electronic interference
- 3.6 Consider additional points of access near March AFB Site 1
- 3.7 Discrepancy between Air Force statement on relocation of BMO personnel and pamphlet issued at March AFB public hearing
- 3.8 Facility requirements should not include laboratory space
- 3.9 Consider use of existing offsite facilities for SSD and Aerospace operations
- 3.10 FEIS should address availability of Kirtland East Hospital facilities
- 3.11 Objection to DEIS rationale for Alternative 4
- 3.12 Describe rationale or method used in determining acreage requirements for each alternative
- 3.13 Government property disposition related to closure of Los Angeles AFB
- 3.14 Request for clarification of facility space requirements criteria
- 3.15 Cumulative impacts of relocation of Norton AFB units to March AFB are not adequately addressed in the DEIS
- 3.16 Cumulative impacts on support facilities are not adequately addressed in the DEIS
- 3.17 Impacts from the increased handling and storage of hazardous materials involved in the relocation of DRMO from Norton AFB to March AFB were not adequately addressed
- 3.18 The need for military family housing at Peterson and Falcon AFBs is not adequately addressed
- 3.19 Consider effects of stringent environmental regulations on cost of operation in California
- 3.20 Reuse of shorefront property at Fort MacArthur, Pacific Crest, and Pacific Heights housing facilities
- 3.21 Sale of shorefront property will require Coastal Commission consistency determination
- 3.22 Consider relocating SSD in Los Angeles to San Bernardino due to housing and office space availability/affordability
- 3.23 Elimination of Falcon AFB as a potential relocation site
- 3.24 Discrepancy regarding boundaries of Peterson AFB Site 3
- 3.25 Consider taking advantage of previously funded improvements at March AFB
- 3.26 Relocating SSD to March AFB would result in a significant cost savings to the Air Force
- 3.27 Housing Site #1 should be evaluated by the U.S. Fish and Wildlife Service and California Department of Fish and Game for the presence of rare plant communities
- 3.28 Consider addressing possible future closure and cleanup at Peterson AFB
- 3.29 Relocation of BMO personnel

Issue Area 4: Community Setting

- 4.1 Economic impacts of base closure should be assessed on a city by city basis
- 4.2 Consider adequate mitigation measures at Vandenberg AFB
- 4.3 Funds necessary for developing adequate housing at receiving sites would be better spent developing housing at the existing site

100	
ISSUE	
NO.	ISSUE TOPIC
4.4	Consider the depressed housing market in Los Angeles
4.5	Consider the depressed housing market in Los Angeles Consider impacts of overcrowding at schools in Santa Barbara
4.6	Assumptions regarding relocation of BMO personnel.
4.7	Consider the impacts of the relocation of 20,000 people to the Santa Barbara area over a short
4.7	period of time
4.8	Population increase in Vandenberg Village would require an upgrade of public services
4.9	The FEIS should include a full assessment of environmental costs of BMO employees losing
4.5	local jobs and commuting outside the Inland Empire
4.10	Consider availability of affordable civilian housing in receiving areas
4.11	Discrepancies between LECS for BMO and DEIS regarding regional income
4.12	Objections to generic modeling program used in the LECS for the closure of Los Angeles AFB
4.13	Cumulative economic impacts should be evaluated thoroughly for the closure of both Norton
••••	and George AFBs
4.14	Base number of employees added to the local economy as a result of the proposed relocation
•••	to Vandenberg AFB should be based on the 1986 employment figures
4.15	Consider the large military to civilian employment ratio which would occur at
	Peterson/Falcon AFBs
4.16	Housing availability at Vandenberg AFB may have been overestimated
4.17	The DEIS does not address impact on schools, hospitals, or fire and police departments
4.18	Consider quality-of-life impacts for current Santa Barbara County residents (i.e., impacts of
	population boom to local communities)
4.19	Inland Empire can accommodate work force requirements related to relocation of SSD
4.20	Schools within the Moreno Valley Unified School District are in a growth mode
4.21	Consider an evaluation of the social impacts of the proposed population influx in the
	socioeconomics section of the DEIS
4.22	Consider cumulative impacts of loss of coastal lands for recreational development in Santa
	Barbara County
4.23	Suggested revision to Section 4.3 regarding contractor personnel at the base
4.24	The number of indirect jobs generated near Vandenberg AFB from relocation of SSD has
	been underestimated in DEIS
4.25	Population figures in the DEIS for North County area have been overestimated
4.26	Employment figures for North County area have been overestimated
4.27	Consider vacancy rate for on-base housing units
4.28	Assumptions used in U.S. COE's EIFS model should be made available
4.29	Questions assumptions made regarding areas targeted for growth near Vandenberg AFB
4.30	Discrepancies in urban land needed to support the proposed action (Tables 4.3-2 and 4.6-2)
4.31	Request assumptions used in determining urban land requirements for local communities
4.32	Page 4.1-11 Suggested text revision regarding cumulative economic impacts
4.33	Comments noted
4.34	Diversification of the Colorado Springs economy
4.35	Negative impacts on the infrastructure surrounding Los Angeles AFB
4.36	Relocation of aerospace contractors and related jobs
4.37	Local employment opportunities at relocation site
4.38	80/20 population split in Santa Maria and Lompoc
4.39	Funding for additional housing at March AFB under 2667
4.40	Irreversible impact of new housing on a long-term basis

Issue Area 5: Land Use And Aesthetics

- 5.1 DEIS does not evaluate site reuse for Los Angeles AFB
- 5.2 Consider available vertical space at Los Angeles AFB
- 5.3 DEIS does not address future land use alternatives for Los Angeles AFB
- 5.4 Adjacent land uses to Site 1 at March AFB
- 5.5 Electrical generation "research" reactors and surrounding exclusion areas
- 5.6 March AFB Land Use Plan is compatible with the relocation of SSD
- 5.7 Consistency with the County of Santa Barbara's General Plans and Air Quality Attainment Plans should be analyzed thoroughly
- 5.8 Santa Maria and Lompoc planning policies that limit growth on agricultural lands
- 5.9 Santa Maria and Lompoc General Plans may not accommodate Air Force's projected needs
- 5.10 Inconsistencies in statements made about land available for development in vicinity of Lompoc
- 5.11 Land reuse may cause more environmental problems than the base
- 5.12 Consider information provided by Phase I of the Santa Maria Sphere Study
- 5.13 Suggested revision regarding developable land in the City of Lompoc
- 5.14 Suggested revision regarding developable residential area within the Mission Hills and Vandenberg Village areas

Issue Area 6: Transportation

- 6.1 Air transportation is easier from Los Angeles than any of the alternatives
- 6.2 Proposed action would increase air and ground traffic around Vandenberg AFB beyond intended capacity for the area
- 6.3 DEIS fails to address commitments made to mass transit in the area around Los Angeles AFB
- 6.4 Consider listing assumptions regarding the development of future year traffic volumes
- A detailed traffic study is needed to ascertain both traffic impacts and mitigation for the relocation of personnel from the closure of Los Angeles AFB to Vandenberg AFB
- 6.6 Consider including a more thorough discussion of peak period traffic volumes in the FEIS
- 6.7 The number of added commutes between local communities and Vandenberg AFB due to additional workers at Vandenberg AFB should be compared against the 1986 numbers
- 6.8 The DEIS does not adequately discuss plans to upgrade Interstate 215 near March AFB
- 6.9 Measure A transportation projects in Riverside County
- 6.10 Consider additional local street and road improvements
- 6.11 Consider the related traffic improvements from personnel who may relocate to Riverside or who will no longer commute to Los Angeles AFB during peak periods
- 6.12 Consider the likelihood of commuter rail service as a mitigation measure for traffic impacts of SSD relocation to March AFB
- 6.13 Funding for ride sharing should be made available as such programs should be considered as mitigation measures for traffic impacts of SSD relocation to March AFB
- 6.14 Corrections to Table 3.6.3-11: Existing Conditions-Column 2: Average Daily Traffic (ADT)
- 6.15 Use more recent traffic data in calculations for Albuquerque
- 6.16 Labeling of columns in traffic tables
- 6.17 Include peak-hour analysis for roadway segments and selected intersections

ISSUE	
NO.	ISSUE TOPIC
	Traffic mitigation measures should be included in the FEIS
	DEIS overstates traffic related impacts by not providing a complete analysis of highway and road improvements currently underway near Peterson AFB
	Consider the testimony of RCTC regarding transportation improvements around March AF
5.21	DEIS must consider planned road improvements which will alleviate the unacceptable LO around March AFB
	Consider the accessibility and convenience of Ontario Airport in relation to March AFB
	More detail should be provided about how project traffic volumes were estimated
5.24	More detail should be provided about when projected conditions would be expected to occu and for how long
	and for now long The traffic section should include a complete analysis of AM and PM "Peak-Hour" traffic
	Description of Albuquerque International Airport does not adequately discuss facility
	Delete reference to State Route 20 (p. 3.3-7, paragraph 4).
	Traffic impacts of Alternative 5 at Los Angeles AFB
	Transportation impacts of retirees using facilities at other bases
	Issue Area 7: Utilities
7.1	Alternative water supply for Falcon AFB
	Water resource versus a utility issue for potable water supply at March AFB
	Decreased potable water demand on Los Angeles AFB
	Revised text amendments for potable and wastewater sections for Albuquerque, N.M.
7.5	Suggested text amendments for the electrical and natural gas utility for Kirtland AFB
7.6	References to the NPDES permitting for the wastewater system for Falcon AFB
	Information on alternative wastewater treatment system for Falcon AFB
	Information on alternative wastewater treatment system for Falcon AFB
	Text amendments for average daily potable water demand for Colorado Springs, Co.
	Additional information on expanded treatment capabilities of the Mills Filtration Plant
	Revised capacity of the March AFB wastewater treatment system
	Implications of the expansion of public service facilities in Santa Barbara County
	Revised average daily demand of potable water for Falcon AFB
	Historical figures for potable water demand for Falcon AFB
	Basis for projection of utility systems demands in Santa Maria and Lompoc
	Population projection sources for Santa Maria and Lompoc, Ca.
	Source of population projections utilized for utility demands
	Compliance of Vandenberg AFB with state legislation AB939 Basis for population growth rates for estimated electrical demand
	Natural gas consumption and future demand
	Suggested revised text of water quality for the City of Lompoc
	Suggested revision of figures for wastewater flows for the Lompoc treatment system
	Vandenberg AFB's contractual agreement for the treatment of wastewater from the base
	Revised text of electrical energy for the City of Lompoc
	Suggested text amendment for compliance to state legislation of AB939
	Water resource figures for the Rio Grande basin at Albuquerque, N.M.
	Albuquerque's new solid waste facility and recycling program

ISSUE	
NO.	ISSUE TOPIC

Issue Area 8: Hazardous Materials/Waste Management

- 8.1 Water and soil around Los Angeles AFB should be sampled and analyzed for hazardous materials
- 8.2 Waste management facilities are inadequate for the proposed growth at Peterson/Falcon AFBs
- 8.3 Consider newly constructed and state-permitted hazardous materials handling, storage and disposal facility near Kirtland AFB
- 8.4 EPA, Region IX commends Air Force for commitment to hazardous waste cleanups and investigations
- 8.5 Previous DOD hazardous waste site problems
- 8.6 Status of existing hazardous waste sites at Los Angeles AFB

Issue Area 9: Geology and Soils

- 9.1 Rezoning of prime agricultural lands to support base growth
- 9.2 Consider location of Big Pine Fault as shown in the Santa Barbara County Comprehensive

Issue Area 10: Water Resources

- 10.1 Water resources at Vandenberg AFB are inadequate and in overdraft
- 10.2 Coastal Aqueduct must first be approved by the voters
- 10.3 VAFB's water supply from San Antonio River basin is not in overdraft
- 10.4 Proposed relocation would deplete water system at Falcon AFB
- 10.5 Effect of the Central Arizona Project on Vandenberg AFB water supply
- 10.6 Provide alternate water sources in addition to state water
- 10.7 Existing water rights available to support relocation to Falcon AFB
- 10.8 Address DOD costs for bringing alternate water sources to VAFB
- 10.9 DOD should ensure safe, dependable, and adequate water supply at relocation site
- 10.10 Colorado State Engineer agrees with data, suggests finding alternate water sources for Falcon AFB
- 10.11 Suggestions for short-term overdraft mitigations and long-term alternate sources
- 10.12 Discuss groundwater quality and results from well monitoring of IRP sites
- 10.13 Discuss further groundwater contamination mentioned on p. 3.2-9 of the DEIS
- 10.14 Discuss further impacts on groundwater regarding potential spills at Kirtland AFB
- 10.15 Project runoff must be controlled to prevent contamination of surface waters
- 10.16 Water quality standards to be met under New Mexico law
- 10.17 Text revision regarding Falcon AFB water use
- 10.18 Text revision regarding water withdrawal by Cherokee Water & Sanitation District
- 10.19 Text revision regarding water supply at Falcon AFB
- 10.20 Text revisions regarding water usage and aquifer recharge
- 10.21 Text revision regarding City of Lompoc water withdrawals
- 10.22 Text revision regarding Santa Ynez River basin water destinations
- 10.23 Text revisions regarding the Lompoc Plain Aquifer

ISSUE NO.	ISSUE TOPIC
	Jse of reclaimed wastewater for construction dust control and compaction
	Text revision of recharge rate and overdraft numbers
	The consequences of the groundwater impacts should be discussed and evaluated
	Discuss alternatives at Vandenberg AFB if Coastal Aqueduct project is not implemented
	Air Force state water entitlements would help mitigate impact
	Transfer of state water entitlements from Los Angeles would help mitigate impact
0.30	Santa Maria will receive state water without requiring voter approval
1	ssue Area 11: Air Quality
	Relocation to March AFB would have a beneficial effect on air quality
	Relocation to Vandenberg AFB would reduce commuters to Santa Barbara thereby improvi iir quality
	Vandenberg AFB air quality comparison to 1986 level
	Relocation to March AFB would result in a net improvement to air quality
	Discuss the status of air quality permits for March AFB
	ncreased emissions from SSD travel to and from Ontario International Airport
	Nonattainment comparisons between sites
	Degree of nonattainment at relocation sites
	Corrected and\or suggested text replacement information
	References to pollutant concentrations
	Long-term impacts would be significant and short-term impacts should be mitigated
	Discuss impacts of additional indirect traffic that would be generated by relocation
	Disagrees with conclusion regarding long-term air quality impact
	Maximum CO concentrations should be within the limits
	References SCAQMD testimony regarding positive impacts and reasonable mitigations
	Requests additional documentation of pollutants to be released during construction a
	perational phases
	Suggested mitigations for air quality impacts in the Vandenberg AFB area
	Explain criteria for determining the significance of the impacts
	Present sufficient detail to allow comparison of the proposed and alternative projects
. .	The proposed air quality impacts were not anticipated in the Santa Maria General Plan
	Text revisions regarding nonattainment
-	Text revisions: Section 3
	Additional documentation requested
	Additional documentation requested
	Additional documentation requested
	Exact emission factors requested
	Particulate emission calculations are not sufficiently documented
	Revise methodology in determining significance of air quality impacts Construction and vehicle emissions should be the primary focus in the EIS
	ncorrect analysis of CO impacts
	nadequate discussion of the effects of the proposed project on ozone concentrations
	stationary source emissions should be discussed in more detail
1.32	MATIONATY COURCE EMICCIONS CHOULD DE ALCOUCEAR IN MOTA RATAIL

ISSUE		
NO.	ISSUE TOPIC	1
NO.	ISSUE TOTAL	

- 11.34 Requests more detailed air quality analysis
- 11.35 More detailed analysis of construction related emissions
- 11.36 Identify all air quality impacts and determine the mitigations necessary to reduce impacts
- 11.37 Discuss removal of stationary source equipment from existing sites
- 11.38 Indirect source air quality impacts from the proposed project would be significant
- 11.39 Mobile source emission mitigation measures
- 11.40 Additional information on job/housing balance in March AFB subregion
- 11.41 SCAQMD staff encourages preparation of Mitigation Monitoring and Reporting Plans
- 11.42 Text revision regarding mobile source mitigation
- 11.43 Indicate project's consistency with local, state, and federal air quality standards
- 11.44 Effect on emissions in San Bernardino County
- 11.45 No extensive impacts to air quality at VAFB
- 11.46 Impact on air quality if BMO relocates

Issue Area 12: Noise

12.1 Air and ground traffic noise levels would increase at Peterson AFB

Issue Area 13: Biological Resources

- 13.1 Consider negative impacts to biological resources around Vandenberg AFB
- 13.2 The relocation of SSD to March AFB would not have a significant adverse effect on the Stephens' Kangaroo Rat population
- 13.3 Mitigation measures regarding the Stephens' Kangaroo Rat should be limited to one of the three potential sites which has been identified as a habitat area for this species
- 13.4 Negative impacts to sensitive plant and animal species around Vandenberg AFB
- 13.5 Siting constraints regarding the presence of the Stephens' Kangaroo Rat
- 13.6 Consider the State of Colorado's, Division of Wildlife recommendations to avoid disturbance of wetland habitats near Falcon AFB
- 13.7 Off-site impacts to wildlife due to population influx will be far greater than on-site impacts at Peterson AFB/Falcon AFB
- 13.8 Category 2 plants, wildlife, and threatened and endangered species are not fully described in the DEIS
- 13.9 Loss of habitat must be adequately addressed in the FEIS
- 13.10 Consider impacts to the Santa Ynez River and associated endangered and Category 2 species
- 13.11 California Least Tern has historically nested on sandbar in the Santa Yncz River slough
- 13.12 Unarmored threespine stickleback occurs in Honda Creek, south of Vandenberg AFB
- 13.13 Suggested changes to discussion on sensitive or unique biological habitats at Vandenberg AFB
- 13.14 State soil stabilization measures to be used
- 13.15 State how noxious weeds shall be controlled
- 13.16 Avoidance of large areas of Burton Mesa chaparral at Vandenberg AFB Housing Sites 1 and 2D is acceptable mitigation
- 13.17 Creation of wetlands is still considered experimental and should not be considered as mitigation of impacts until it is more thoroughly understood and implemented successfully
